"(A) how the children's needs will be identified;

"(B) what services will be offered;

"(C) how and where the services will be provided;

"(D) how the services will be assessed; and

"(E) the size and scope of the equitable services to be provided to the eligible private school children, and what is the proportion of funds allocated under subsection (a)(4) for such services.

"(2) TIMING.—Such consultation shall occur before the local educational agency makes any decision that affects the opportunities of eligible private school children to participate in programs under this part.

"(3) DISCUSSION.—Such consultation shall include a discussion of service delivery mecha-

nisms a local educational agency can use to provide equitable services to eligible private school children.

"(c) PUBLIC CONTROL OF FUNDS.—

"(1) IN GENERAL.—The control of funds provided under this part, and title to materials, equipment, and property purchased with such funds, shall be in a public agency, and a public agency shall administer such funds and property.

"(2) PROVISION OF SERVICES.—(A) The provision of services under this section shall be provided—

"(i) by employees of a public agency; or

"(ii) through contract by such public agency with an individual, association, agency, or organization.

"(B) In the provision of such services, such employee, person, association, agency, or organization shall be independent of such private school and of any religious organization, and such employment or contract shall be under the control and supervision of such public agency.

"(d) STANDARDS FOR A BYPASS.—If a local educational agency is prohibited by law from providing for the participation on an equitable basis of eligible children enrolled in private elementary and secondary schools or if the Secretary determines that a local educational agency has substantially failed or is unwilling to provide for such participation, as required by this section, the Secretary shall—

"(1) waive the requirements of this section for such local educational agency; and

"(2) arrange for the provision of services to such children through arrangements that shall be subject to the requirements of this section and sections 14505 and 14506.

"(e) CAPITAL EXPENSES.—

"(1) IN GENERAL.—(A) From the amount appropriated for this subsection under section 1002(e) for any fiscal year, each State is eligible to receive an amount that bears the same ratio to the amount so appropriated as the number of private school children who received services under this part in the State in the most recent year for which data satisfactory to the Secretary are available bears to the number of such children in all States in that same year.

"(B) The Secretary shall reallocate any amounts allocated under subparagraph (A) that are not used by a State for the purpose of this subsection to other States on the basis of their respective needs, as determined by the Secretary.

"(2) CAPITAL EXPENSES.—(A) A local educational agency may apply to the State educational agency for payments for capital expenses consistent with this subsection.

"(B) State educational agencies shall distribute such funds under this subsection to local educational agencies based on the degree of need set forth in their respective applications for assistance under this subsection.

"(3) USES OF FUNDS.—Any funds appropriated to carry out this subsection shall be used only for capital expenses incurred to provide equitable services for private school children under this section.

"(4) DEFINITION.—For the purpose of this subsection, the term 'capital expenses' means—

"(A) expenditures for noninstructional goods and services, such as the purchase, lease, or renovation of real and personal property, including mobile educational units and leasing of neutral sites or spaces;

"(B) insurance and maintenance costs;

"(C) transportation; and

"(D) other comparable goods and services.

#### "SEC. 1120A. FISCAL REQUIREMENTS.

"(a) MAINTENANCE OF EFFORT.—A local educational agency may receive funds under this part for any fiscal year only if the State educational agency finds that the local educational

agency has maintained its fiscal effort in accordance with section 14501 of this Act.

"(b) FEDERAL FUNDS TO SUPPLEMENT, NOT SUPPLANT, NON-FEDERAL FUNDS.—

"(1) IN GENERAL.—(A) Except as provided in subparagraph (B), a State or local educational agency shall use funds received under this part only to supplement the amount of funds that would, in the absence of such Federal funds, be made available from non-Federal sources for the education of pupils participating in programs assisted under this part, and not to supplant such funds.

"(B) For the purpose of complying with subparagraph (A), a State or local educational agency may exclude supplemental State and local funds expended in any eligible school attendance area or school for programs that meet the requirements of section 1114 or 1115.

"(2) SPECIAL RULE.—No local educational agency shall be required to provide services under this part through a particular instructional method or in a particular instructional setting in order to demonstrate such agency's compliance with paragraph (1).

"(c) COMPARABILITY OF SERVICES.—

"(1) IN GENERAL.—(A) Except as provided in paragraphs (4) and (5), a local educational agency may receive funds under this part only if State and local funds will be used in schools served under this part to provide services that, taken as a whole, are at least comparable to services in schools that are not receiving funds under this part.

"(B) If the local educational agency is serving all of such agency's schools under this part, such agency may receive funds under this part only if such agency will use State and local funds to provide services that, taken as a whole, are substantially comparable in each school.

"(C) A local educational agency may meet the requirements of subparagraphs (A) and (B) on a grade-span by grade-span basis or a school-by-school basis.

"(2) WRITTEN ASSURANCE.—(A) A local educational agency shall be considered to have met the requirements of paragraph (1) if such agency has filed with the State educational agency a written assurance that such agency has established and implemented—

"(i) a local educational agency-wide salary schedule;

"(ii) a policy to ensure equivalence among schools in teachers, administrators, and other staff; and

"(iii) a policy to ensure equivalence among schools in the provision of curriculum materials and instructional supplies.

"(B) For the purpose of subparagraph (A), in the determination of expenditures per pupil from State and local funds, or instructional salaries per pupil from State and local funds, staff salary differentials for years of employment shall not be included in such determinations.

"(C) A local educational agency need not include unpredictable changes in student enrollment or personnel assignments that occur after the beginning of a school year in determining comparability of services under this subsection.

"(3) PROCEDURES AND RECORDS.—Each local educational agency assisted under this part shall—

"(A) develop procedures for compliance with this subsection; and

"(B) maintain records that are updated biennially documenting such agency's compliance with this subsection.

"(4) INAPPLICABILITY.—This subsection shall not apply to a local educational agency that does not have more than one building for each grade span.

"(5) COMPLIANCE.—For the purpose of determining compliance with paragraph (1), a local educational agency may exclude State and local funds expended for—

"(A) bilingual education for children of limited English proficiency; and

"(B) excess costs of providing services to children with disabilities as determined by the local educational agency.

"SEC. 1120B. COORDINATION REQUIREMENTS.

"(a) IN GENERAL.—Each local educational agency receiving assistance under this part shall carry out the activities described in subsection (b) to the extent feasible and appropriate to the circumstances, including the extent to which such local educational agency is able to secure the cooperation of parents and local Head Start agencies and, if feasible, other early childhood development programs.

"(b) ACTIVITIES.—The activities referred to in subsection (a) are activities that increase coordination between the local educational agency and a Head Start agency, and, if feasible, other early childhood development programs, serving children who will attend the schools of such agency, including—

"(1) developing and implementing a systematic procedure for receiving records regarding such children transferred with parental consent from a Head Start program or, where applicable, other early childhood development programs;

"(4) organizing and participating in joint transition related training of school staff, Head Start staff, and, where appropriate, other early childhood staff.

"(c) COORDINATION OF REGULATIONS.—The Secretary shall work with the Secretary of Health and Human Services to coordinate regulations promulgated under this part with regulations promulgated under the Head Start Act Amendments of 1994.

#### "Subpart 2—Allocations

"SEC. 1121. GRANTS FOR THE OUTLYING AREAS AND THE SECRETARY OF THE INTERIOR.

"(a) RESERVATION OF FUNDS.—From the amount appropriated for payments to States for any fiscal year under section 1002(a), the Secretary shall reserve a total of 1 percent to provide assistance to—

"(1) the outlying areas on the basis of their respective need for such assistance according to such criteria as the Secretary determines will best carry out the purpose of this part; and

"(2) the Secretary of the Interior in the amount necessary to make payments pursuant to subsection (c).

"(b) ASSISTANCE TO THE OUTLYING AREAS.—

"(1) IN GENERAL.—From amounts made available under subsection (a) in each fiscal year the Secretary shall make grants to local educational agencies in the outlying areas (other than the outlying areas assisted under paragraph (3)).

"(2) COMPETITIVE GRANTS.—(A) The Secretary shall reserve \$5,000,000 from the amounts made available under subsection (a) in each fiscal year to award grants on a competitive basis, to local educational agencies in the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau. The Secretary shall award such grants according to the recommendations of the Pacific Region Educational Laboratory which shall conduct a competition for such grants.

"(B) Except as provided in subparagraph (D), grant funds awarded under this part only may

be used for programs described in this Act, including teacher training, curriculum development, instructional materials, or general school improvement and reform.

"(C) Grant funds awarded under this paragraph only may be used to provide direct educational services.

"(D) The Secretary may provide 5 percent of the amount made available for grants under this paragraph to pay the administrative costs of the Pacific Region Educational Laboratory regarding activities assisted under this paragraph.

"(c) ALLOTMENT TO THE SECRETARY OF THE INTERIOR.—

"(1) IN GENERAL.—The amount allotted for payments to the Secretary of the Interior under subsection (a)(2) for any fiscal year shall be, as determined pursuant to criteria established by the Secretary, the amount necessary to meet the special educational needs of—

"(A) Indian children on reservations served by elementary and secondary schools for Indian children operated or supported by the Department of the Interior; and

"(B) out-of-State Indian children in elementary and secondary schools in local educational agencies under special contracts with the Department of the Interior.

"(2) PAYMENTS.—From the amount allotted for payments to the Secretary of the Interior under subsection (a)(2), the Secretary of the Interior shall make payments to local educational agencies, upon such terms as the Secretary determines will best carry out the purposes of this part, with respect to out-of-State Indian children described in paragraph (1). The amount of such payment may not exceed, for each such child, the greater of—

"(A) 40 percent of the average per pupil expenditure in the State in which the agency is located; or

"(B) 48 percent of such expenditure in the United States.

"SEC. 1122. ALLOCATIONS TO STATES.

"(a) IN GENERAL.—

"(1) FISCAL YEAR 1995.—For fiscal year 1995, appropriations for this part shall be allocated according to the provisions of sections 1005, except subsection (a)(3), and 1006, part A of chapter 1 of title I, Elementary and Secondary Education Act of 1965, as in effect on September 30, 1994, except that the State minimum for section 1005 shall be the lesser of 0.25 percent of total appropriations or the average of 0.25 percent of total appropriations and 150 percent of the national average grant per child counted for grants under section 1005 multiplied by the State's number of children counted for such grants, and for grants under section 1006, the State minimum shall be the lesser of—

"(A) 0.25 percent of total appropriations; and

"(B) the average of—

"(i) 0.25 percent of total appropriations; and

"(ii) the greater of 150 percent of the national average grant per child counted for grants under such section 1006 multiplied by the State total number of such children, or \$340,000.

"(2) SUCCEEDING FISCAL YEARS.—For fiscal years 1996 through 1999, an amount of the appropriations for this part equal to the appropriation for fiscal year 1995 for section 1005, shall be allocated in accordance with section 1124, and an amount equal to the appropriation for fiscal year 1995 for section 1006 shall be allocated in accordance with section 1124A. Any additional appropriations under section 1002(a) for any fiscal year, after application of the preceding sentence, shall be allocated in accordance with section 1125.

"(b) ADJUSTMENTS WHERE NECESSITATED BY APPROPRIATIONS.—

"(1) IN GENERAL.—If the sums available under this part for any fiscal year are insufficient to pay the full amounts that all local educational

agencies in States are eligible to receive under sections 1124, 1124A, and 1125 for such year, the Secretary shall ratably reduce the allocations to such local educational agencies, subject to subsections (c) and (d) of this section.

"(2) ADDITIONAL FUNDS.—If additional funds become available for making payments under sections 1124, 1124A, and 1125 for such fiscal year, allocations that were reduced under paragraph (1) shall be increased on the same basis as they were reduced.

"(c) HOLD-HARMLESS AMOUNTS.—

"(1) IN GENERAL.—For fiscal year 1995, notwithstanding subsection (b) and without regard to amounts available for delinquent children under subpart 2 of part D, the amount made available to each local educational agency under such section 1005 shall be at least 85 percent of the amount such local educational agency received for the preceding year under such section 1005.

"(2) FISCAL YEAR 1996.—Notwithstanding subsection (b) and without regard to amounts available for delinquent children under subpart 2 of part D, for fiscal year 1996 the total amount made available to each local educational agency under each of sections 1124 and 1124A for any fiscal year shall be at least 100 percent of the total amount such local educational agency was allocated under such sections (or their predecessor authorities) for the preceding fiscal year.

"(3) FISCAL YEAR 1997-1999.—For fiscal years 1997 through 1999, notwithstanding subsection (b) and without regard to amounts available for delinquent children under subpart 2 of part D, the amount made available to each local educational agency under each of sections 1124 and 1125 shall be at least 95 percent of the previous year's amount if the number of children counted for grants under section 1124 is at least 30 percent of the total number of children aged 5 to 17 years, inclusive, in the local educational agency, 90 percent of the previous year amount if this percentage is between 15 percent and 30 percent, and 85 percent if this percentage is below 15 percent. For fiscal years 1997 and 1998, in calculating grants on the basis of population data for counties, the Secretary shall apply the hold-harmless percentages in the preceding sentence to counties. For fiscal years 1996 through 1998, if the Secretary's allocation for a county is not sufficient to meet the hold-harmless requirements of this paragraph for every local educational agency within that county, then the State educational agency shall reallocate funds proportionately from all other local educational agencies in the State that are receiving funds in excess of the hold-harmless amounts specified in this paragraph.

"(d) RATABLE REDUCTIONS.—

"(1) IN GENERAL.—If the sums made available under this part for any fiscal year are insufficient to pay the full amounts that all States are eligible to receive under subsection (a) for such year, the Secretary shall ratably reduce such amounts for such year.

"(2) ADDITIONAL FUNDS.—If additional funds become available for making payments under subsection (a) for such fiscal year, amounts that were reduced under paragraph (1) shall be increased on the same basis as such amounts reduced.

"(e) DEFINITION.—For the purpose of this section and sections 1124 and 1125, the term State means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

**"SEC. 1124. BASIC GRANTS TO LOCAL EDUCATIONAL AGENCIES.**

"(a) AMOUNT OF GRANTS.—

"(1) GRANTS FOR LOCAL EDUCATIONAL AGENCIES AND PUERTO RICO.—The grant which a local educational agency in a State is eligible to receive under this subpart for a fiscal year shall (except as provided in section 1126), be deter-

mined by multiplying the number of children counted under subsection (c) by 40 percent of the amount determined under the next sentence. The amount determined under this sentence shall be the average per pupil expenditure in the State except that—

"(A) if the average per pupil expenditure in the State is less than 80 percent of the average per pupil expenditure in the United States, such amount shall be 80 percent of the average per pupil expenditure in the United States; or

"(B) if the average per pupil expenditure in the State is more than 120 percent of the average per pupil expenditure in the United States, such amount shall be 120 percent of the average per pupil expenditure in the United States.

"(2) BASIS FOR CALCULATING GRANTS.—For fiscal years 1995 through 1998, grants shall be calculated by the Secretary on the basis of the number of children counted under subsection (c) for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations published by the Secretary. In any State in which a large number of local educational agencies overlap county boundaries, the State educational agency may apply to the Secretary for authority during any particular fiscal year to make the allocations under this part (other than section 1124A) directly to local educational agencies without regard to the counties. If the Secretary approves an application of a State educational agency for a particular year under this subparagraph, the State educational agency shall provide assurances that—

"(A) such allocations will be made using precisely the same factors for determining a grant as are used under this part;

"(B) such allocations will be made using alternative data approved by the Secretary that the State determines best reflects the distribution of children in poor families and is adjusted to be equivalent in proportion to the number of children determined in accordance with subsection (c); or

"(C) such allocations will be made using data that the State educational agency submits to the Secretary for approval that more accurately targets poverty.

In addition, the State educational agency shall provide assurances that a procedure will be established through which local educational agencies dissatisfied with the determinations made by the State educational agency may appeal directly to the Secretary for a final determination. Beginning in fiscal year 1999, grants shall be calculated by the Secretary on the basis of population data compiled for local educational agencies, unless the Secretary and the Secretary of Commerce determine that use of the updated population data would be inappropriate or unreliable taking into consideration the recommendations of the study to be conducted by the National Academy of Sciences. If the Secretary and the Secretary of Commerce determine that some or all of the data referred to in this paragraph are inappropriate or unreliable, the Secretaries shall jointly issue a report setting forth their reasons in detail. In years when grants are calculated by the Secretary on the basis of local educational agency data, for each local educational agency serving an area with a total population of at least 20,000 persons, the grant under this section shall be the amount determined by the Secretary. For local educational agencies serving areas with total populations of fewer than 20,000 persons, the State educational agency may either—

"(i) distribute to such local educational agencies grants under this section equal to the amounts determined by the Secretary; and

"(ii) use an alternative method, approved by the Secretary, to distribute the share of the State's total grants under this section that is

based on local educational agencies with total populations of fewer than 20,000 persons. Such an alternative method of distributing grants under this section among a State's local educational agencies serving areas with total populations of fewer than 20,000 persons shall be based upon population data that the State educational agency determines best reflect the current distribution of children in poor families among the State's local educational agencies serving areas with total populations of fewer than 20,000 persons. If a local educational agency serving an area with total population of less than 20,000 persons is dissatisfied with the determination of its grant by the State educational agency, then such local educational agency may appeal this determination to the Secretary. The Secretary must respond to this appeal within 45 days of receipt.

"(3) PUERTO RICO.—For each fiscal year, the Secretary shall determine the percentage which the average per pupil expenditure in the Commonwealth of Puerto Rico is of the lowest average per pupil expenditure of any of the 50 States. The grant which the Commonwealth of Puerto Rico shall be eligible to receive under this section for a fiscal year shall be the amount arrived at by multiplying the number of children counted under subsection (c) for the Commonwealth of Puerto Rico by the product of—

"(A) the percentage determined under the preceding sentence; and

"(B) 32 percent of the average per pupil expenditure in the United States.

"(4) DEFINITION.—For purposes of this subsection, the term 'State' does not include Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and Palau.

"(b) MINIMUM NUMBER OF CHILDREN TO QUALIFY.—Subject to the succeeding sentence, a local educational agency shall be eligible for a basic grant for a fiscal year under this subpart only if the number of children counted under subsection (c) in the school district of such local educational agency is at least 10. Beginning in fiscal year 1996, no local educational agency shall be eligible for a grant under this section if the number of children counted for grants under this section is equal to 2 percent or less of the total school age population in the local educational agency. For fiscal years 1996 through 1998, grants not made as a result of applying the preceding sentence shall be reallocated by the State educational agency to other eligible local educational agencies in the State in proportion to the distribution of other funds under this section.

"(c) CHILDREN TO BE COUNTED.—

"(1) CATEGORIES OF CHILDREN.—The number of children to be counted for purposes of this section is the aggregate of—

"(A) the number of children aged 5 to 17, inclusive, in the school district of the local educational agency from families below the poverty level as determined under paragraph (2);

"(B) the number of children aged 5 to 17, inclusive, in the school district of such agency from families above the poverty level as determined under paragraph (5); and

"(C) the number of children aged 5 to 17, inclusive, in the school district of such agency in institutions for neglected and delinquent children (other than such institutions operated by the United States), but not counted pursuant to subpart 1 of part D for the purposes of a grant to a State agency, or being supported in foster homes with public funds.

"(2) DETERMINATION OF NUMBER OF CHILDREN.—For the purposes of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families below the poverty level on the basis of the most recent satisfactory data, described in paragraph (3), available from the Department of Commerce. For

fiscal year 1999 and beyond, the District of Columbia and the Commonwealth of Puerto Rico shall be treated as individual local educational agencies. If a local educational agency contains two or more counties in their entirety, then each county will be treated as if such county were a separate local educational agency for purposes of calculating grants under this part. The total of grants for such counties shall be allocated to such a local educational agency, which local educational agency shall distribute to schools in each county within such agency a share of the local educational agency's total grant that is no less than the county's share of the population counts used to calculate the local educational agency's grant.

"(3) POPULATION UPDATES.—In fiscal year 1997 and every 2 years thereafter, the Secretary shall use updated data on the number of children, aged 5 to 17, inclusive, from families below the poverty level for counties or local educational agencies, published by the Department of Commerce, unless the Secretary and the Secretary of Commerce determine that use of the updated population data would be inappropriate or unreliable, taking into consideration the recommendations of the study to be conducted by the National Academy of Sciences. If the Secretary and the Secretary of Commerce determine that some or all of the data referred to in this paragraph are inappropriate or unreliable, they shall jointly issue a report setting forth their reasons in detail. In determining the families which are below the poverty level, the Secretary shall utilize the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census, in such form as those criteria have been updated by increases in the Consumer Price Index for all urban consumers, published by the Bureau of Labor Statistics.

"(4) STUDY.—(A) The Secretary of Education shall, within 30 days after the date of enactment of the Improving America's School's Act of 1994, contract with the National Academy of Sciences (hereafter in this section referred to as the 'Academy') to study the program to produce intercensal poverty data for small geographic areas and certain age cohorts being developed by the Bureau of the Census.

"(B) In conducting its study, the Academy shall consider such matters as—

"(i) the methodology used to produce and publish intercensal poverty data, and possible alternative methods to improve the usefulness of the data for Federal program purposes;

"(ii) the availability of alternative indicators of poverty for small geographic areas, against which the poverty data produced and published by the Bureau of the Census could be compared;

"(iii) the reliability of the poverty data produced and published by the Bureau of the Census, particularly for less populous geographic areas;

"(iv) the reliability of intercensal poverty data produced and published by the Bureau of the Census, as compared over time to similar data produced by the Bureau of the Census during the most recent decennial census; and

"(v) the usefulness of poverty data produced and published by the Bureau of the Census for Federal programs that allocate funds to State and sub-State areas based, in whole or in part, on such data.

"(C) The Academy shall submit to the Secretary and the Secretary of Commerce, as well as to the Committee on Education and Labor and the Committee on Post Office and Civil Service of the House of Representatives and the Committee on Labor and Human Resources and the Committee on Governmental Affairs of the Senate—

"(i) not later than 18 months after the date on which a contract is entered into under subsection (a), and not later than every 18 months

thereafter, such interim reports on the Academy's activities under this Act that the Academy deems appropriate, including a detailed statement of the Academy's findings and conclusions with respect to any poverty data which the Bureau of the Census publishes and produces, within 90 days of such publication; and

"(ii) not later than December 31, 1998, a final report which shall include a more detailed statement of the Academy's findings and conclusions with respect to the use of any intercensal poverty data produced and published by the Bureau of the Census as the basis for allocating Federal funds under this Act.

"(D) Of the funds appropriated under section 1002(f) of this Act, the Secretary shall use such sums as are necessary in each of fiscal years 1995, 1996, 1997, 1998, and 1999 to carry out the provisions of this paragraph.

"(5) OTHER CHILDREN TO BE COUNTED.—For purposes of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families above the poverty level on the basis of the number of such children from families receiving an annual income, in excess of the current criteria of poverty, from payments under the program of aid to families with dependent children under a State plan approved under title IV of the Social Security Act; and in making such determinations the Secretary shall utilize the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census for a family of 4 in such form as those criteria have been updated by increases in the Consumer Price Index for all urban consumers, published by the Bureau of Labor Statistics. The Secretary shall determine the number of such children and the number of children of such ages living in institutions for neglected or delinquent children, or being supported in foster homes with public funds, on the basis of the caseload data for the month of October of the preceding fiscal year (using, in the case of children described in the preceding sentence, the criteria of poverty and the form of such criteria required by such sentence which were determined for the calendar year preceding such month of October) or, to the extent that such data are not available to the Secretary before January of the calendar year in which the Secretary's determination is made, then on the basis of the most recent reliable data available to the Secretary at the time of such determination. The Secretary of Health and Human Services shall collect and transmit the information required by this subparagraph to the Secretary not later than January 1 of each year.

"(6) ESTIMATE.—When requested by the Secretary, the Secretary of Commerce shall make a special updated estimate of the number of children of such ages who are from families below the poverty level (as determined under subparagraph (A) of this paragraph) in each school district, and the Secretary is authorized to pay (either in advance or by way of reimbursement) the Secretary of Commerce the cost of making this special estimate. The Secretary of Commerce shall give consideration to any request of the chief executive of a State for the collection of additional census information. For purposes of this section, the Secretary shall consider all children who are in correctional institutions to be living in institutions for delinquent children.

"(d) STATE MINIMUM.—Notwithstanding subsections (b)(1) or (d) of section 1122, the aggregate amount allotted for all local educational agencies within a State may not be less than the lesser of—

"(1) 0.25 percent of total grants under this section; or

"(2) the average of—

"(A) one-quarter of 1 percent of the total amount available for such fiscal year under this section; and

"(B) the number of children in such State counted under subsection (c) in the fiscal year multiplied by 150 percent of the national average per pupil payment made with funds available under this section for that year.

#### "SEC. 1124A. CONCENTRATION GRANTS TO LOCAL EDUCATIONAL AGENCIES.

"(a) ELIGIBILITY FOR AND AMOUNT OF GRANTS.—

"(1) IN GENERAL.—(A) Except as otherwise provided in this paragraph, each local educational agency, in a State other than Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, and Palau, which is eligible for a grant under this part for any fiscal year shall be eligible for an additional grant under this section for that fiscal year if—

"(i) the number of children counted under section 1124(c) in the county (for fiscal years 1996 through 1998), or local educational agency (for fiscal years beginning with 1999) for the fiscal year exceeds 6,500; or

"(ii) the number of children counted under section 1124(c) exceeds 15 percent of the total number of children aged 5 to 17, inclusive, in the county (for fiscal years 1996 through 1998), or local educational agency (for fiscal years beginning with 1999) in that fiscal year.

"(B) Notwithstanding such subsections (b)(1) and (d) of section 1122, no State described in subparagraph (A) shall receive less than the lesser of—

"(i) 0.25 percent of total grants; or

"(ii) the average of—

"(1) one-quarter of 1 percent of the sums available to carry out this section for such fiscal year; and

"(II) the greater of—

"(aa) \$340,000; or

"(bb) the number of children in such State counted for purposes of this section in that fiscal year multiplied by 150 percent of the national average per pupil payment made with funds available under this section for that year.

"(2) SPECIAL RULE.—For each county or local educational agency eligible to receive an additional grant under this section for any fiscal year the Secretary shall determine the product of—

"(A) the number of children counted under section 1124(c) for that fiscal year; and

"(B) the quotient resulting from the division of the amount determined for those agencies under section 1124(a)(1) for the fiscal year for which the determination is being made divided by the total number of children counted under section 1124(c) for that agency for fiscal year.

"(3) AMOUNT.—The amount of the additional grant for which an eligible local educational agency or county is eligible under this section for any fiscal year shall be an amount which bears the same ratio to the amount available to carry out this section for that fiscal year as the product determined under paragraph (2) for such local educational agency for that fiscal year bears to the sum of such products for all local educational agencies in the United States for that fiscal year.

"(4) SUBALLOCATION.—For fiscal years 1996 through 1998, county amounts shall be suballocated to local educational agencies meeting the criteria of paragraph (1)(A) by State educational agencies, in accordance with regulations published by the Secretary. For fiscal years 1995 through 1998, grants shall be calculated by the Secretary on the basis of the number of children counted under section 1124(c) for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations published by the Secretary. In any State in which a large number of local educational agencies overlap county boundaries,

the State educational agency may apply to the Secretary for authority during any particular fiscal year to make the allocations under this part (other than this section) directly to local educational agencies without regard to the counties. If the Secretary approves an application of a State educational agency for a particular year under this paragraph, the State educational agency shall provide assurances that—

“(A) such allocations will be made using precisely the same factors for determining a grant as are used under this part;

“(B) such allocations will be made using alternative data approved by the Secretary that the State determines best reflects the distribution of children in poor families and is adjusted to be equivalent in proportion to the number of children determined in accordance with section 1124(c); or

“(C) such allocations will be made using data that the State educational agency submits to the Secretary for approval that more accurately targets poverty.

In addition, the State educational agency shall provide assurances that a procedure will be established through which local educational agencies dissatisfied with the determinations made by the State educational agency may appeal directly to the Secretary for a final determination. A State may reserve not more than 2 percent of its allocations in fiscal years 1996 through 1998 under this section for the purpose of making grants to local educational agencies that meet the criteria of clause (i) or (ii) of paragraph (1)(A), but are in ineligible counties. For fiscal years beginning with 1999, for each local educational agency serving an area with a total population of at least 20,000 persons, the grant under this section shall be the amount determined by the Secretary. For local educational agencies serving areas with total populations of fewer than 20,000 persons, the State educational agency may either (i) distribute to such local educational agencies grants under this section equal to the amounts determined by the Secretary; or (ii) use an alternative method, approved by the Secretary, to distribute the share of the State's total grants under this section that is based on local educational agencies with total populations of fewer than 20,000 persons. Such an alternative method of distributing grants under this section among a State's local educational agencies serving areas with total populations of fewer than 20,000 persons shall be based upon population data that the State educational agency determines best reflects the current distribution of children in poor families among the State's local educational agencies serving areas with total populations of fewer than 20,000 persons and meeting the eligibility criteria of paragraph (1)(A). If a local educational agency serving an area with total population of less than 20,000 persons is dissatisfied with the determination of its grant by the State educational agency, then such local educational agency may appeal this determination to the Secretary. The Secretary shall respond to this appeal within 45 days of receipt. The Secretary shall consult with the Secretary of Commerce regarding whether available data on population for local educational agencies serving areas with total populations of fewer than 20,000 persons are sufficiently reliable to be used to determine final grants to such areas meeting the eligibility criteria of paragraph (1)(A).

“(b) RESERVATION OF FUNDS.—Of the total amount of funds available for this section and sections 1124 and 1125, an amount equal to the appropriation for fiscal year 1995 for section 1006 of this Act (as such section was in effect on the day preceding the date of enactment of this Act) shall be available to carry out this section.

“(c) RATABLE REDUCTION RULE.—If the sums available under subsection (b) for any fiscal

year for making payments under this section are not sufficient to pay in full the total amounts which all States are eligible to receive under subsection (a) for such fiscal year, the maximum amounts which all States are eligible to receive under subsection (a) for such fiscal year shall be ratably reduced. In the case that additional funds become available for making such payments for any fiscal year during which the preceding sentence is applicable, such reduced amounts shall be increased on the same basis as they were reduced.

“(d) STATES RECEIVING MINIMUM GRANTS.—In States that receive the minimum grant under subsection (a)(1)(B), the State educational agency shall allocate such funds among the local educational agencies in each State either—

“(1) in accordance with paragraphs (2) and (4) of subsection (a); or

“(2) based on their respective concentrations and numbers of children counted under section 1124(c), except that only those local educational agencies with concentrations or numbers of children counted under section 1124(c) that exceed the statewide average percentage of such children or the statewide average number of such children shall receive any funds on the basis of this paragraph.

#### “SEC. 1125. TARGETED GRANTS TO LOCAL EDUCATIONAL AGENCIES.

“(a) ELIGIBILITY OF LOCAL EDUCATIONAL AGENCIES.—A local educational agency in a State is eligible to receive a targeted grant under this section for any fiscal year if the number of children in the local educational agency counted under subsection 1124(c), before application of the weighting factor described in subsection (c), is at least 10, and if the number of children counted for grants under section 1124 is at least 5 percent of the total population aged 5 to 17 years, inclusive, in the local educational agency. Funds made available as a result of applying this subsection shall be reallocated by the State educational agency to other eligible local educational agencies in the State in proportion to the distribution of other funds under this section.

“(b) GRANTS FOR LOCAL EDUCATIONAL AGENCIES, THE DISTRICT OF COLUMBIA, AND PUERTO RICO.—

“(1) IN GENERAL.—The amount of the grant that a local educational agency in a State or that the District of Columbia is eligible to receive under this section for any fiscal year shall be the product of—

“(A) the weighted child count determined under subsection (c); and

“(B) the amount in the second sentence of subparagraph 1124(a)(1)(A).

“(2) PUERTO RICO.—For each fiscal year, the amount of the grant for which the Commonwealth of Puerto Rico is eligible under this section shall be equal to the number of children counted under subsection (c) for Puerto Rico, multiplied by the amount determined in subparagraph 1124(a)(3).

“(c) WEIGHTED CHILD COUNT.—

“(1) FISCAL YEARS 1966–1998.—

“(A) IN GENERAL.—The weighted child count used to determine a county's allocation under this section is the larger of the two amounts determined under clauses (i) or (ii), as follows:

“(i) BY PERCENTAGE OF CHILDREN.—This amount is determined by adding—

“(I) the number of children determined under section 1124(c) for that county constituting up to 12.20 percent, inclusive, of the county's total population aged 5 to 17, inclusive, multiplied by 1.0;

“(II) the number of such children constituting more than 12.20 percent, but not more than 17.70 percent, of such population, multiplied by 1.75;

“(III) the number of such children constituting more than 17.70 percent, but not more than

22.80 percent, of such population, multiplied by 2.5;

“(IV) the number of such children constituting more than 22.80 percent, but not more than 29.70 percent, of such population, multiplied by 3.25; and

“(V) the number of such children constituting more than 29.70 percent of such population, multiplied by 4.0.

“(ii) BY NUMBER OF CHILDREN.—This amount is determined by adding—

“(I) the number of children determined under section 1124(c) constituting up to 1,917, inclusive, of the county's total population aged 5 to 17, inclusive, multiplied by 1.0;

“(II) the number of such children between 1,918 and 5,938, inclusive, in such population, multiplied by 1.5;

“(III) the number of such children between 5,939 and 20,199, inclusive, in such population, multiplied by 2.0;

“(IV) the number of such children between 20,200 and 77,999, inclusive, in such population, multiplied by 2.5; and

“(V) the number of such children in excess of 77,999 in such population, multiplied by 3.0.

“(B) PUERTO RICO.—Notwithstanding subparagraph (A), the weighting factor for Puerto Rico under this paragraph shall not be greater than the total number of children counted under subsection 1124(c) multiplied by 1.72.

“(2) FISCAL YEARS AFTER 1998.—

“(A) IN GENERAL.—For each fiscal year beginning with fiscal year 1999 for which the Secretary uses local educational agency data, the weighted child count used to determine a local educational agency's grant under this section is the larger of the two amounts determined under clauses (i) and (ii), as follows:

“(i) BY PERCENTAGE OF CHILDREN.—This amount is determined by adding—

“(I) the number of children determined under section 1124(c) for that local educational agency constituting up to 14.265 percent, inclusive, of the agency's total population aged 5 to 17, inclusive, multiplied by 1.0;

“(II) the number of such children constituting more than 14.265 percent, but not more than 21.553 percent, of such population, multiplied by 1.75;

“(III) the number of such children constituting more than 21.553 percent, but not more than 29.223 percent, of such population, multiplied by 2.5;

“(IV) the number of such children constituting more than 29.223 percent, but not more than 36.538 percent, of such population, multiplied by 3.25; and

“(V) the number of such children constituting more than 36.538 percent of such population, multiplied by 4.0.

“(ii) BY NUMBER OF CHILDREN.—This amount is determined by adding—

“(I) the number of children determined under section 1124(c) constituting up to 575, inclusive, of the agency's total population aged 5 to 17, inclusive, multiplied by 1.0;

“(II) the number of such children between 576 and 1,870, inclusive, in such population, multiplied by 1.5;

“(III) the number of such children between 1,871 and 6,910, inclusive, in such population, multiplied by 2.0;

“(IV) the number of such children between 6,911 and 42,000, inclusive, in such population, multiplied by 2.5; and

“(V) the number of such children in excess of 42,000 in such population, multiplied by 3.0.

“(B) PUERTO RICO.—Notwithstanding subparagraph (A), the weighting factor for Puerto Rico under this paragraph shall not be greater than the total number of children counted under section 1124(c) multiplied by 1.72.

“(d) LOCAL EDUCATIONAL AGENCY ALLOCATIONS.—For fiscal years 1995 through 1998,

grants shall be calculated by the Secretary on the basis of the number of children counted under section 1124 for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations published by the Secretary. In any State in which a large number of local educational agencies overlap county boundaries, the State educational agency may apply to the Secretary for authority during any particular fiscal year to make the allocations under this part (other than section 1124A) directly to local educational agencies without regard to the counties. If the Secretary approves an application of a State educational agency for a particular year under this subparagraph, the State educational agency shall provide assurances that—

"(1) such allocations will be made using precisely the same factors for determining a grant as are used under this part;

"(2) such allocations will be made using alternative data approved by the Secretary that the State determines best reflects the distribution of children in poor families and is adjusted to be equivalent in proportion to the number of children determined in accordance with section 1124(c); or

"(3) such allocations will be made using data that the State educational agency submits to the Secretary for approval that more accurately targets poverty.

In addition, the State educational agency shall provide assurances that a procedure will be established through which local educational agencies dissatisfied with the determinations made by the State educational agency may appeal directly to the Secretary for a final determination. For fiscal years beginning in 1999, for each local educational agency serving an area with a total population of at least 20,000 persons, the grant under this section shall be the amount determined by the Secretary. For local educational agencies serving areas with total populations of fewer than 20,000 persons, the State educational agency may either (1) distribute to such local educational agencies grants under this section equal to the amounts determined by the Secretary; or (2) use an alternative method, approved by the Secretary, to distribute the share of the State's total grants under this section that is based on local educational agencies with total populations of fewer than 20,000 persons. Such an alternative method of distributing grants under this section among a State's local educational agencies serving areas with total populations of fewer than 20,000 persons shall be based upon population data that the State educational agency determines best reflects the current distribution of children in poor families among the State's local educational agencies serving areas with total populations of fewer than 20,000 persons. If a local educational agency serving an area with total populations of less than 20,000 persons is dissatisfied with the determination of its grant by the State educational agency, then the local educational agency may appeal this determination to the Secretary. The Secretary shall respond to this appeal within 45 days of receipt.

"(e) STATE MINIMUM.—Notwithstanding any other provision of this section or subsection (b)(1) or (d) of section 1122, from the total amount available for any fiscal year to carry out this section, each State shall be allotted at least the lesser of—

"(1) 0.25 percent of total appropriations; or

"(2) the average of—

"(A) one quarter of 1 percent of the total amount available to carry out this section; and

"(B) 150 percent of the national average grant under this section per child described in section 1124(c), without application of a weighting factor, multiplied by the State's total number of

children described in section 1124(c), without application of a weighting factor.

**"SEC. 1125A. EDUCATION FINANCE INCENTIVE PROGRAM.**

"(a) GRANTS.—The Secretary is authorized to make grants to States from the sums appropriated pursuant to subsection (e) to carry out the purposes of this part.

"(b) DISTRIBUTION BASED UPON FISCAL EFFORT AND EQUITY.—

"(1) IN GENERAL.—Funds appropriated pursuant to subsection (e) shall be allotted to each State based upon the number of children aged 5 to 17, inclusive, of such State multiplied by the product of—

"(A) such State's effort factor described in paragraph (2); multiplied by

"(B) 1.30 minus such State's equity factor described in paragraph (3),

except that for each fiscal year no State shall receive less than one-quarter of 1 percent of the total amount appropriated pursuant to subsection (e) for such fiscal year.

"(2) EFFORT FACTOR.—(A) Except as provided in subparagraph (B), the effort factor for a State shall be determined in accordance with the succeeding sentence, except that such factor shall not be less than .95 nor greater than 1.05. The effort factor determined under this sentence shall be a fraction the numerator of which is the product of the three-year average per-pupil expenditure in the State multiplied by the three-year average per capita income in the United States and the denominator of which is the product of the three-year average per capita income in such State multiplied by the three-year average per-pupil expenditure in the United States.

"(B) The effort factor for the Commonwealth of Puerto Rico shall be equal to the lowest effort factor calculated under subparagraph (A) for any State.

"(3) EQUITY FACTOR.—(A)(i) Except as provided in subparagraph (B), the Secretary shall determine the equity factor under this section for each State in accordance with clause (ii).

"(ii)(I) For each State, the Secretary shall compute a weighted coefficient of variation for the per-pupil expenditures of local educational agencies in accordance with subclauses (II), (III), (IV), and (V).

"(II) In computing coefficients of variation, the Secretary shall weight the variation between per-pupil expenditures in each local educational agency and the average per-pupil expenditures in the State according to the number of pupils in the local educational agency.

"(III) In determining the number of pupils under this paragraph in each local educational agency and each State, the Secretary shall multiply the number of children from low-income families by 1.4 under this paragraph.

"(IV) In computing coefficients of variation, the Secretary shall include only those local educational agencies with an enrollment of more than 200 students.

"(V) The Secretary shall compute separate coefficients of variation for elementary, secondary, and unified local educational agencies and shall combine such coefficients into a single weighted average coefficient for the State by multiplying each coefficient by the total enrollments of the local educational agencies in each group, adding such products, and dividing such sum by the total enrollments of the local educational agencies in the State.

"(B) The equity factor for a State that meets the disparity standard described in section 222.63 of title 34, Code of Federal Regulations (as such section was in effect on the day preceding the date of enactment of this Act) or a State with only one local educational agency shall be not greater than .10.

"(C) The Secretary may revise each State's equity factor as necessary based on the advice of

independent education finance scholars to reflect other need-based costs of local educational agencies in addition to low-income student enrollment, such as differing geographic costs, costs associated with students with disabilities, children with limited-English proficiency or other meaningful educational needs, which deserve additional support. In addition and also with the advice of independent education finance scholars, the Secretary may revise each State's equity factor to incorporate other valid and accepted methods to achieve adequacy of educational opportunity that may not be reflected in a coefficient of variation method.

"(c) USE OF FUNDS.—All funds awarded to each State under this section shall be allocated to local educational agencies and schools on a basis consistent with the distribution of other funds to such agencies and schools under sections 1124, 1124A, and 1125 to carry out activities under this part.

"(d) MAINTENANCE OF EFFORT.—

"(1) IN GENERAL.—Except as provided in paragraph (2), a State is entitled to receive its full allotment of funds under this part for any fiscal year if the Secretary finds that either the combined fiscal effort per student or the aggregate expenditures within the State with respect to the provision of free public education for the fiscal year preceding the fiscal year for which the determination is made was not less than 90 percent of such combined fiscal effort or aggregate expenditures for the second fiscal year preceding the fiscal year for which the determination is made.

"(2) REDUCTION OF FUNDS.—The Secretary shall reduce the amount of the funds awarded to any State under this section in any fiscal year in the exact proportion to which the State fails to meet the requirements of paragraph (1) by falling below 90 percent of both the fiscal effort per student and aggregate expenditures (using the measure most favorable to the State), and no such lesser amount shall be used for computing the effort required under paragraph (1) for subsequent years.

"(3) WAIVERS.—The Secretary may waive, for one fiscal year only, the requirements of this subsection if the Secretary determines that such a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State.

"(e) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of making grants under this section, there are authorized to be appropriated \$200,000,000 for fiscal year 1996 and such sums as may be necessary for each of the three succeeding fiscal years.

**"SEC. 1126. SPECIAL ALLOCATION PROCEDURES.**

"(a) ALLOCATIONS FOR NEGLECTED CHILDREN.—

"(1) IN GENERAL.—If a State educational agency determines that a local educational agency in the State is unable or unwilling to provide for the special educational needs of children who are living in institutions for neglected children as described in subparagraph 1124(c)(1)(C), the State educational agency shall, if such agency assumes responsibility for the special educational needs of such children, receive the portion of such local educational agency's allocation under sections 1124, 1124A, and 1125 that is attributable to such children.

"(2) SPECIAL RULE.—If the State educational agency does not assume such responsibility, any other State or local public agency that does assume such responsibility shall receive that portion of the local educational agency's allocation.

"(b) ALLOCATIONS AMONG LOCAL EDUCATIONAL AGENCIES.—The State educational agency may allocate the amounts of grants under sections 1124, 1124A, and 1125 among the affected local educational agencies—

"(1) if two or more local educational agencies serve, in whole or in part, the same geographical area;

"(2) if a local educational agency provides free public education for children who reside in the school district of another local educational agency; or

"(3) to reflect the merger, creation, or change of boundaries of one or more local educational agencies.

"(c) REALLOCATION.—If a State educational agency determines that the amount of a grant a local educational agency would receive under sections 1124, 1124A, and 1125 is more than such local agency will use, the State educational agency shall make the excess amount available to other local educational agencies in the State that need additional funds in accordance with criteria established by the State educational agency.

#### "SEC. 1127. CARRYOVER AND WAIVER.

"(a) LIMITATION ON CARRYOVER.—Notwithstanding section 421 of the General Education Provisions Act or any other provision of law, not more than 15 percent of the funds allocated to a local educational agency for any fiscal year under this subpart (but not including funds received through any reallocation under this subpart) may remain available for obligation by such agency for one additional fiscal year.

"(b) WAIVER.—A State educational agency may, once every three years, waive the percentage limitation in subsection (a) if—

"(1) the agency determines that the request of a local educational agency is reasonable and necessary; or

"(2) supplemental appropriations for this subpart become available.

"(c) EXCLUSION.—The percentage limitation under subsection (a) shall not apply to any local educational agency that receives less than \$50,000 under this subpart for any fiscal year.

**PART D—PREVENTION AND INTERVENTION PROGRAMS FOR CHILDREN AND YOUTH WHO ARE NEGLECTED, DELINQUENT, OR AT-RISK OF DROPPING OUT**

**SEC. 1401. FINDINGS; PURPOSE; PROGRAM AUTHORIZED.**

"(a) **FINDINGS.**—Congress finds the following:

"(1) A large percentage of youth in the juvenile justice system have poor academic achievement, are a year or more behind grade level, and have dropped out of school.

"(2) There is a strong correlation between academic failure and involvement in delinquent activities.

"(3) Preventing students from dropping out of local schools and addressing the educational needs of delinquent youth can help reduce the dropout rate and involvement in delinquent activities at the same time.

"(4) Many schools and correctional facilities fail to communicate regarding a youth's academic needs and students often return to their

home school ill-prepared to meet current curriculum requirements.

"(5) Schools are often reluctant to deal with youth returning from facilities and receive no funds to deal with the unique educational and other needs of such youth.

"(6) A continuing need exists for activities and programs to reduce the incidence of youth dropping out of school.

"(7) Federal dropout prevention programs have demonstrated effectiveness in keeping children and youth in school.

"(8) Pregnant and parenting teens are a high at-risk group for dropping out of school and should be targeted by dropout prevention programs.

"(9) Such youth need a strong dropout prevention program which provides such youth with high level skills and which provides supports to youth returning from correctional facilities in order to keep such youth in school.

"(b) PURPOSE.—It is the purpose of this part—

"(1) to improve educational services to children in local and State institutions for neglected or delinquent children and youth so that such children and youth have the opportunity to meet the same challenging State content standards and challenging State student performance standards that all children in the State will be expected to meet;

"(2) to provide such children and youth the services needed to make a successful transition from institutionalization to further schooling or employment; and

"(3) to prevent at-risk youth from dropping out of school and to provide dropouts and youth returning from institutions with a support system to ensure their continued education.

"(c) PROGRAM AUTHORIZED.—In order to carry out the purpose of this part the Secretary shall make grants to State educational agencies to enable such agencies to award subgrants to State agencies and local educational agencies to establish or improve programs of education for neglected or delinquent children and youth at risk of dropping out of school before graduation.

**"SEC. 1402. PAYMENTS FOR PROGRAMS UNDER THIS PART.**

"(a) AGENCY SUBGRANTS.—Based on the allocation amount computed under section 1412, the Secretary shall allocate to each State educational agency amounts necessary to make subgrants to State agencies.

"(b) LOCAL SUBGRANTS.—Each State shall retain, for purposes of subpart 2, funds generated throughout the State under part A based on youth residing in local correctional facilities, or attending community day programs for delinquent children and youth.

"(c) USE OF REMAINING FUNDS.—Each State shall use any funds remaining after allocations are made under subsection (a).

**"Subpart 1—State Agency Programs**

**"SEC. 1411. ELIGIBILITY.**

"A State agency is eligible for assistance under this subpart if such State agency is responsible for providing free public education for children—

"(1) in institutions for neglected or delinquent children;

"(2) attending community day programs for neglected or delinquent children; or

"(3) in adult correctional institutions.

**"SEC. 1412. ALLOCATION OF FUNDS.**

"(a) SUBGRANTS TO STATE AGENCIES.—

"(i) are enrolled for at least 15 hours per week in education programs in adult correctional institutions; and

"(ii) are enrolled for at least 20 hours per week—

"(I) in education programs in institutions for neglected or delinquent children; or

"(II) in community day programs for neglected or delinquent children; and

"(B) 40 percent of the average per-pupil expenditure in the State, except that the amount determined under this paragraph shall not be less than 32 percent, or more than 48 percent, of the average per-pupil expenditure in the United States.

"(2) SPECIAL RULE.—The number of neglected or delinquent children and youth determined under paragraph (1) shall—

"(A) be determined by the State agency by a deadline set by the Secretary, except that no State agency shall be required to determine the number of such children on a specific date set by the Secretary; and

"(B) be adjusted, as the Secretary determines is appropriate, to reflect the relative length of such agency's annual programs.

"(b) SUBGRANTS TO STATE AGENCIES IN PUERTO RICO.—For each fiscal year, the amount of the subgrant for which a State agency in the Commonwealth of Puerto Rico is eligible under this part shall be equal to—

"(1) the number of children and youth counted under subsection (a)(1) for the Commonwealth of Puerto Rico; multiplied by

"(2) the product of—

"(A) the percentage that the average per-pupil expenditure in the Commonwealth of Puerto Rico is of the lowest average per-pupil expenditure of any of the 50 States; and

"(B) 32 percent of the average per-pupil expenditure in the United States.

"(c) RATABLE REDUCTIONS IN CASE OF INSUFFICIENT APPROPRIATIONS.—If the amount appropriated for any fiscal year for subgrants under subsections (a) and (b) is insufficient to pay the full amount for which all agencies are eligible under such subsections, the Secretary shall ratably reduce each such amount.

**"SEC. 1413. STATE REALLOCATION OF FUNDS.**

"If a State educational agency determines that a State agency does not need the full amount of the subgrant for which such State agency is eligible under this part for any fiscal year, the State educational agency may reallocate the amount that will not be needed to other eligible State agencies that need additional funds to carry out the purpose of this part, in such amounts as the State educational agency shall determine.

**"TITLE II—DWIGHT D. EISENHOWER PROFESSIONAL DEVELOPMENT PROGRAM**

**"SEC. 2001. FINDINGS.**

"The Congress finds as follows:

"(1) Reaching the National Education Goals, particularly the third, fourth, and fifth National Education Goals, requires a comprehensive educational reform strategy that involves parents, schools, government, communities, and other public and private organizations at all levels.

"(2) A crucial component of the strategy for achieving such goals is ensuring, through sustained and intensive high-quality professional development, that all teachers will provide challenging learning experiences in the core academic subjects for their students.

"(3) Decisionmaking as to what activities a State or local educational agency should undertake to improve teaching and learning are best made by individuals in the schools closest to the classroom and most knowledgeable about the needs of schools and students.

"(4) The potential positive impact of high-quality professional development is underscored by recent research findings that—

"(A) professional development must be focused on teaching and learning in order to improve the opportunities of all students to achieve higher standards;

"(B) effective professional development focuses on discipline-based knowledge and effective subject-specific pedagogical skills, involves teams of teachers, and, where appropriate, administrators and pupil services personnel, in a school and, through professional networks of teachers, and, where appropriate, teacher educators, administrators, pupil services personnel, and parents, is interactive and collaborative, motivates by its intrinsic content and relationship to practice, builds on experience and learning-by-doing, and becomes incorporated into the everyday life of the school;

"(C) professional development can dramatically improve classroom instruction and learning when teachers, and, where appropriate, administrators, pupil services personnel, and parents, are partners in the development and implementation of such professional development; and

"(D) new and innovative strategies for teaching to high standards will require time for teachers, outside of the time spent teaching, for instruction, practice, and collegial collaboration.

"(5) Special attention must be given in professional development activities to ensure that education professionals are knowledgeable of, and make use of, strategies for serving populations that historically have lacked access to equal opportunities for advanced learning and career advancement.

"(6) Professional development is often a victim of budget reductions in fiscally difficult times.

"(7) The Federal Government has a vital role in helping States and local educational agencies to make sustained and intensive high-quality professional development in the core academic subjects become an integral part of the elementary and secondary education system.

"(8) Professional development activities must prepare teachers, pupil services personnel, paraprofessionals and other staff in the collaborative skills needed to appropriately teach children with disabilities, in the core academic subjects.

"(9) Parental involvement is an important aspect of school reform and improvement. There is a need for special attention to ensure the effective involvement of parents in the education of their children. Professional development should include methods and strategies to better prepare teachers and, where appropriate, administrators, to enable parents to participate fully and effectively in their children's education.

**"SEC. 2002. PURPOSES.**

**"SEC. 2103. NATIONAL TEACHER TRAINING PROJECT.**

"(a) **SHORT TITLE; FINDINGS; DEFINITIONS.**—

"(1) **SHORT TITLE.**—This section may be cited as the 'National Teacher Training Project Act of 1994'.

"(2) **FINDINGS.**—The Congress finds that—

"(A) teachers must be major players in educational reform in the United States;

"(B) teachers are isolated from their peers and have virtually no time during the school day to consult with other teachers;

"(C) there is a shortage of sustained, year-round professional development programs for teachers;

"(D) successful teaching methods are not adequately shared among teachers;

"(E) teachers are the best teachers of other teachers because practicing classroom teachers have experience that no outside consultant can match;

"(F) it is important for universities and schools to collaborate on teacher development programs if teaching and learning are to be improved;

"(G) pertinent research is not shared among teachers in a professional setting;

"(H) exemplary teachers should be recognized for their abilities and contributions and encouraged to refine their teaching methods;

"(I) each State should support a nationally based teacher training program, that is modeled after the National Writing Project, for teachers of early childhood education, and for teachers of core academic subjects including teachers of mathematics, science, English, civics and government, foreign languages, and arts;

"(J) the National Writing Project is a nationally recognized and honored nonprofit organization that recognizes there are teachers in every region of the United States who have developed successful methods for teaching writing and that such teachers can be trained and encouraged to train other teachers;

"(K) the National Writing Project is a collaborative university-school program which offers summer and school year inservice teacher training programs and a dissemination network to inform and teach teachers regarding developments in the field of writing;

"(L) each year, over 125,000 teachers voluntarily seek training in National Writing Project intensive summer institutes and workshops and school year inservice programs through one of

the 155 sites located within the United States, and in 18 sites located outside of the United States;

"(M) in the 20 years of its existence, over 1,100,000 teachers, administrators, and parents have participated in National Writing Project programs;

"(N) less than \$16 per teacher was the average cost in Federal dollars for all teacher training at writing projects in academic year 1991-1992;

"(O) for every dollar in Federal support, the National Writing Project provides over \$5 in matching funds from States, local universities and schools, and the private sector;

"(P) private foundation resources, although generous in the past concerning National Writing Project programs, are inadequate to fund all of the National Teacher Training Project sites needed, and the future of the program is in jeopardy without secure financial support;

"(Q) the National Writing Project has become a model for programs in other fields, such as science, mathematics, history, literature, foreign languages, and the performing arts, and the development of programs in other fields should continue with the support of Federal funds; and

"(R) each of the 50 States should participate in the National Teacher Training Project by establishing regional teacher training sites in early childhood development, mathematics, science, English, civics and government, foreign languages, and arts to serve all teachers within the State.

### "TITLE III—TECHNOLOGY FOR EDUCATION

#### "SEC. 3101. SHORT TITLE.

"This title may be cited as the 'Technology for Education Act of 1994'.

#### "PART A—TECHNOLOGY FOR EDUCATION OF ALL STUDENTS

#### "SEC. 3111. FINDINGS.

"The Congress finds that—

"(1) technology can produce far greater opportunities for all students to learn to high standards, promote efficiency and effectiveness in education, and help propel our Nation's school systems into very immediate and dramatic reform, without which our Nation will not meet the National Education Goals by the target year 2000;

"(2) the use of technology as a tool in the teaching and learning process is essential to the development and maintenance of a technologically literate citizenry and an internationally competitive workforce;

"(3) the acquisition and use of technology in education throughout the United States has been inhibited by—

"(A) the absence of Federal leadership;

"(B) the inability of many State and local educational agencies to invest in and support needed technologies;

"(C) the limited exposure of students and teachers to the power of technology as a cost-effective tool to improve student learning and achievement;

"(D) the lack of appropriate electrical and telephone connections in the classroom; and

"(E) the limited availability of appropriate technology-enhanced curriculum, instruction, professional development, and administrative support resources and services in the educational marketplace;

"(4) policies at the Federal, State, and local levels concerning technology in education must address disparities in the availability of technology to different groups of students, give priority to serving students in greatest need, and recognize that educational telecommunications and technology can address educational equalization concerns and school restructuring needs by providing universal access to high-quality teaching and programs, particularly in urban and rural areas;

"(5) the increasing use of new technologies and telecommunications systems in business has increased the gap between schooling and work force preparation, and underscores the need for technology policies at the Federal, State, tribal, and local levels that address preparation for school-to-work transitions;

"(6) technology can enhance the ongoing professional development of teachers and administrators by providing constant access to updated research in teaching and learning by means of telecommunications, and, through exposure to technology advancements, keep teachers and administrators excited and knowledgeable about unfolding opportunities for the classroom;

"(7) planned and creative uses of technology, combined with teachers adequately trained in the use of technology, can reshape our Nation's traditional method of providing education and empower teachers to create an environment in which students are challenged through rigorous, rich classroom instruction provided at a pace suited to each student's learning style, and in which students have increased opportunities to develop higher order thinking and technical skills;

"(8) schools need new ways of financing the acquisition and maintenance of educational technology;

"(9) the needs for educational technology differ from State to State;

"(10) technology can provide students, parents, teachers, other education professionals, communities, and industry with increased opportunities for partnerships and with increased access to information, instruction, and educational services in schools and other settings, including homes, libraries, preschool and childcare facilities, adult and family education programs, and postsecondary institutions;

"(11) the Department, consistent with the overall national technology policy established by the President, must assume a vital leadership and coordinating role in developing the national vision and strategy to infuse advanced technology throughout all educational programs;

"(12) Federal support can ease the burden at the State and local levels by enabling the acquisition of advanced technology and initiating the development of teacher training and support as well as new educational products;

"(13) leadership at the Federal level should consider guidelines to ensure that educational technology is accessible to all users with maximum interoperability nationwide;

"(14) the rapidly changing nature of technology requires coordination and flexibility in Federal leadership; and

"(15) technology has the potential to assist and support the improvement of teaching and learning in schools and other settings.

#### "SEC. 3112. STATEMENT OF PURPOSE.

"The purpose of this part is to support a comprehensive system for the acquisition and use by

elementary and secondary schools in the United States of technology and technology-enhanced curricula, instruction, and administrative support resources and services to improve the delivery of educational services. Such system shall include—

"(1) national leadership with respect to the need for, and the provision of, appropriate technology-enhanced curriculum, instruction, and administrative programs to improve learning in the United States, and to promote equal access for all students to educational opportunities in order to achieve the National Education Goals by the year 2000;

"(2) funding mechanisms which will support the development, interconnection, implementation, improvement, and maintenance of an effective educational technology infrastructure, including activities undertaken by State and local educational agencies to promote and provide equipment, training for teachers and school library and media personnel, and technical support;

"(3) support for technical assistance, professional development, information and resource dissemination, in order to help States, local educational agencies, teachers, school library and media personnel, and administrators successfully integrate technology into kindergarten through 12th grade classrooms and library media centers;

"(4) support for the development of educational and instructional programming in core subject areas, which shall address the National Education Goals;

"(5) strengthening and building upon, but not duplicating, existing telecommunications infrastructures dedicated to educational purposes;

"(6) development and evaluation of new and emerging educational technologies, telecommunications networks, and state-of-the-art educational technology products that promote the use of advanced technologies in the classroom and school library media center;

"(7) assessment data regarding state-of-the-art uses of technologies in United States education upon which commercial and noncommercial telecommunications entities, and governments can rely for decisionmaking about the need for, and provision of, appropriate technologies for education in the United States;

"(8) ensuring that uses of educational technology are consistent with the overall national technology policy established by the President, and ensuring that Federal technology-related policies and programs will facilitate the use of technology in education;

"(9) ensuring that activities supported under this part will form the basis for sound State and local decisions about investing in, sustaining, and expanding uses of technology in education;

"(10) establishing working guidelines to ensure maximum interoperability nationwide and ease of access for the emerging technologies so that no school system will be excluded from the technological revolution;

"(11) ensuring that, as technological advances are made, the educational uses of these advances are considered and their applications are developed; and

"(12) encouragement of collaborative relationships among the State agency for higher education, the State library administrative agency, the State telecommunications agency, and the State educational agency, in the area of technology support to strengthen the system of education.

#### "TITLE IV—SAFE AND DRUG-FREE SCHOOLS AND COMMUNITIES

##### "SEC. 4001. SHORT TITLE.

"This title may be cited as the 'Safe and Drug-Free Schools and Communities Act of 1994'.

##### "SEC. 4002. FINDINGS.

"The Congress finds as follows:

"(1) The seventh National Education Goal provides that by the year 2000, all schools in America will be free of drugs and violence and the unauthorized presence of firearms and alcohol, and offer a disciplined environment that is conducive to learning.

"(2) The widespread illegal use of alcohol and other drugs among the Nation's secondary school students, and increasingly by students in elementary schools as well, constitutes a grave threat to such students' physical and mental well-being, and significantly impedes the learning process. For example, data show that students who drink tend to receive lower grades and are more likely to miss school because of illness than students who do not drink.

"(3) Our Nation's schools and communities are increasingly plagued by violence and crime. Approximately 3,000,000 thefts and violent crimes occur in or near our Nation's schools every year, the equivalent of more than 16,000 incidents per school day.

"(4) Violence that is linked to prejudice and intolerance victimizes entire communities leading to more violence and discrimination.

"(5) The tragic consequences of violence and the illegal use of alcohol and drugs by students are felt not only by students and such students' families, but by such students' communities and the Nation, which can ill afford to lose such students' skills, talents, and vitality.

"(6) While use of illegal drugs is a serious problem among a minority of teenagers, alcohol use is far more widespread. The proportion of high school students using alcohol, though lower than a decade ago, remains unacceptably high. By the 8th grade, 70 percent of youth report having tried alcohol and by the 12th grade, about 88 percent have used alcohol. Alcohol use by young people can and does have adverse consequences for users, their families, communities, schools, and colleges.

"(7) Alcohol and tobacco are widely used by young people. Such use can, and does, have adverse consequences for young people, their families, communities, schools, and colleges. Drug prevention programs for youth that address only controlled drugs send an erroneous message that alcohol and tobacco do not present significant problems, or that society is willing to overlook their use. To be credible, messages opposing illegal drug use by youth should address alcohol and tobacco as well.

"(8) Every day approximately 3,000 children start smoking. Thirty percent of all secondary school seniors are smokers. Half of all new smokers begin smoking before the age of 14, 90 percent of such smokers begin before the age of

21, and the average age of the first use of smokeless tobacco is under the age of 10. Use of tobacco products has been linked to serious health problems. Drug education and prevention programs that include tobacco have been effective in reducing teenage use of tobacco.

"(9) Drug and violence prevention programs are essential components of a comprehensive strategy to promote school safety and to reduce the demand for and use of drugs throughout the Nation. Schools and local organizations in communities throughout the Nation have a special responsibility to work together to combat the growing epidemic of violence and illegal drug use and should measure the success of their programs against clearly defined goals and objectives.

"(10) Students must take greater responsibility for their own well-being, health, and safety if schools and communities are to achieve the goals of providing a safe, disciplined, and drug-free learning environment.

**"SEC. 4003. PURPOSE.**

"The purpose of this title is to support programs to meet the seventh National Education Goal by preventing violence in and around schools and by strengthening programs that prevent the illegal use of alcohol, tobacco, and drugs, involve parents, and are coordinated with related Federal, State, and community efforts and resources, through the provision of Federal assistance to—

"(1) States for grants to local educational agencies and educational service agencies and consortia of such agencies to establish, operate, and improve local programs of school drug and violence prevention, early intervention, rehabilitation referral, and education in elementary and secondary schools (including intermediate and junior high schools);

"(2) States for grants to, and contracts with, community-based organizations and other public and private nonprofit agencies and organizations for programs of drug and violence prevention, early intervention, rehabilitation referral, and education;

"(3) States for development, training, technical assistance, and coordination activities;

"(4) public and private nonprofit organizations to conduct training, demonstrations, and evaluation, and to provide supplementary services for the prevention of drug use and violence among students and youth; and

"(5) institutions of higher education to establish, operate, expand, and improve programs of school drug and violence prevention, education, and rehabilitation referral for students enrolled in colleges and universities.

**"SEC. 4004. FUNDING.**

"(3) magnet schools offer a wide range of distinctive programs that have served as models for school improvement efforts;

"(4) in administering the Magnet Schools Assistance program, the Federal Government has learned that—

"(B) local educational agencies can maximize their effectiveness in achieving the purposes of the Magnet Schools Assistance program if such agencies have more flexibility in the administration of such program in order to serve students attending a school who are not enrolled in the magnet school program;

"(C) local educational agencies must be creative in designing magnet schools for students at all academic levels, so that school districts do not skim off only the highest achieving students to attend the magnet schools;

"(D) consistent with desegregation guidelines, local educational agencies must seek to enable participation in magnet school programs by students who reside in the neighborhoods where the programs operate; and

"(E) in order to ensure that magnet schools are sustained after Federal funding ends, the Federal Government must assist school districts to improve their capacity to continue to operate magnet schools at a high level of performance; and

"(5) it is in the best interest of the Federal Government to—

"(A) continue the Federal Government's support of school districts implementing court-ordered desegregation plans and school districts seeking to foster meaningful interaction among students of different racial and ethnic backgrounds, beginning at the earliest stage of such students' education;

"(B) ensure that all students have equitable access to quality education that will prepare such students to function well in a culturally diverse, technologically oriented, and highly competitive, global community; and

"(C) maximize the ability of local educational agencies to plan, develop, implement and continue effective and innovative magnet schools that contribute to State and local systemic reform.

"(4) efforts to improve the quality of public education also must include efforts to ensure equal access to quality education programs for all women and girls;

"(6) Federal assistance for gender equity must be tied to systemic reform, involve collaborative efforts to implement effective gender practices at the local level, and encourage parental participation; and

schools desire that their children participate in programs assisted under this part.

 "(1) language-minority Americans speak virtually all world languages plus many that are indigenous to the United States;

"(2) there are large and growing numbers of children and youth of limited-English proficiency, many of whom have a cultural heritage

that differs from that of their English-proficient peers;

"(3) the presence of language-minority Americans is related in part to Federal immigration policies;

"(4) many language-minority Americans are limited in their English proficiency, and many have limited education and income;

"(5) limited English proficient children and youth face a number of challenges in receiving an education that will enable such children and youth to participate fully in American society, including—

"(A) segregated education programs;  
 "(B) disproportionate and improper placement in special education and other special programs due to the use of inappropriate evaluation procedures;

"(C) the limited-English proficiency of their own parents, which hinders the parents' ability to fully participate in the education of their children; and

"(D) a shortage of teachers and other staff who are professionally trained and qualified to serve such children and youth;

"(6) Native Americans and Native American languages (as such terms are defined in section 103 of the Native American Languages Act), including native residents of the outlying areas, have a unique status under Federal law that requires special policies within the broad purposes of this Act to serve the education needs of language-minority students in the United States;

"(7) institutions of higher education can assist in preparing teachers, administrators and other school personnel to understand and build upon the educational strengths and needs of language-minority and culturally diverse student enrollments;

"(8) it is the purpose of this title to help ensure that limited English proficient students master English and develop high levels of academic attainment in content areas;

"(9) quality bilingual education programs enable children and youth to learn English and meet high academic standards including proficiency in more than one language;

"(10) as the world becomes increasingly interdependent and as international communication becomes a daily occurrence in government, business, commerce, and family life, multilingual skills constitute an important national resource which deserves protection and development;

"(11) educational technology has the potential for improving the education of language-minority and limited English proficient students and their families, and the Federal Government should foster this development;

"(12) parent and community participation in bilingual education programs contributes to program effectiveness;

"(13) research, evaluation, and data-collection capabilities in the field of bilingual education need to be strengthened so that educators and other staff can better identify and promote those programs, program implementation strategies, and instructional practices that result in effective education of limited English proficient children;

"(14) the use of a child or youth's native language and culture in classroom instruction can—

"(A) promote self-esteem and contribute to academic achievement and learning English by limited English proficient children and youth;

"(B) benefit English-proficient children and youth who also participate in such programs; and

"(C) develop our Nation's national language resources, thus promoting our Nation's competitiveness in the global economy;

"(15) the Federal Government, as exemplified by title VI of the Civil Rights Act of 1964 and section 204(f) of the Equal Education Opportunity Act of 1974, has a special and continuing

obligation to ensure that States and local school districts take appropriate action to provide equal educational opportunities to children and youth of limited English proficiency; and

"(16) the Federal Government also, as exemplified by the Federal Government's efforts under this title, has a special and continuing obligation to assist States and local school districts in developing the capacity to provide programs of instruction that offer limited English proficient children and youth an equal educational opportunity.

"(b) **POLICY.**—The Congress declares it to be the policy of the United States, in order to ensure equal educational opportunity for all children and youth and to promote educational excellence, to assist State and local educational agencies, institutions of higher education and community-based organizations to build their capacity to establish, implement, and sustain programs of instruction for children and youth of limited English proficiency.

"(c) **PURPOSE.**—The purpose of this part is to educate limited English proficient children and youth to meet the same rigorous standards for academic performance expected of all children and youth, including meeting challenging State content standards and challenging State student performance standards in academic areas by—

"(1) developing systemic improvement and reform of educational programs serving limited English proficient students through the development and implementation of exemplary bilingual education programs and special alternative instructional programs;

"(2) developing bilingual skills and multicultural understanding;

"(3) developing the English of such children and youth and, to the extent possible, the native language skills of such children and youth;

"(4) providing similar assistance to Native Americans with certain modifications relative to the unique status of Native American languages under Federal law;

"(5) developing data collection and dissemination, research, materials development, and technical assistance which is focused on school improvement for limited English proficient students; and

**"PART B—FOREIGN LANGUAGE ASSISTANCE PROGRAM**

**"SEC. 7201. SHORT TITLE.**

"This part may be cited as the 'Foreign Language Assistance Act of 1994'.

**"SEC. 7202. FINDINGS.**

"The Congress finds as follows:

**"(1)** Foreign language proficiency is crucial to our Nation's economic competitiveness and national security. Significant improvement in the quantity and quality of foreign language instruction offered in our Nation's elementary and secondary schools is necessary.

**"(2)** All Americans need a global perspective. To understand the world around us, we must acquaint ourselves with the languages, cultures, and history of other nations.

**"(3)** Proficiency in two or more languages should be promoted for all American students. Multilingualism enhances cognitive and social growth, competitiveness in the global marketplace, national security, and understanding of diverse people and cultures.

**"(4)** The United States lags behind other developed countries in offering foreign language study to elementary and secondary school students.

**"(5)** Four out of five new jobs in the United States are created from foreign trade.

**"(6)** The optimum time to begin learning a second language is in elementary school, when children have the ability to learn and excel in several foreign language acquisition skills, including pronunciation, and when children are most open to appreciating and valuing a culture other than their own.

**"(8)** Children who have studied a foreign language in elementary school achieve expected gains and score higher on standardized tests of reading, language arts, and mathematics than children who have not studied a foreign language.

**"PART C—EMERGENCY IMMIGRANT EDUCATION PROGRAM**

**"SEC. 7301. FINDINGS AND PURPOSE.**

"(a) FINDINGS.—The Congress finds that—  
 "(1) the education of our Nation's children and youth is one of the most sacred government responsibilities;

"(2) local educational agencies have struggled to fund adequately education services;

"(3) in the case of *Plyler v. Doe*, the Supreme Court held that States have a responsibility under the Equal Protection Clause of the Constitution to educate all children, regardless of immigration status; and

"(4) immigration policy is solely a responsibility of the Federal Government.

"(b) PURPOSE.—The purpose of this part is to assist eligible local educational agencies that experience unexpectedly large increases in their student population due to immigration to—

"(1) provide high-quality instruction to immigrant children and youth; and

"(2) help such children and youth—

"(A) with their transition into American society; and

"(B) meet the same challenging State performance standards expected of all children and youth.

**"SEC. 7302. STATE ADMINISTRATIVE COSTS.**

"For any fiscal year, a State educational agency may reserve not more than 1.5 percent of the amount allocated to such agency under section 7304 to pay the costs of performing such agency's administrative functions under this part.

**"SEC. 7303. WITHHOLDING.**

"Whenever the Secretary, after providing reasonable notice and opportunity for a hearing to any State educational agency, finds that there is a failure to meet the requirement of any provision of this part, the Secretary shall notify that agency that further payments will not be made to the agency under this part, or in the discretion of the Secretary, that the State educational agency shall not make further payments under this part to specified local educational agencies whose actions cause or are involved in such failure until the Secretary is satisfied that there is no longer any such failure to comply. Until the Secretary is so satisfied, no further payments shall be made to the State educational agency under this part, or payments by the State educational agency under this part shall be limited to local educational agencies whose actions did not cause or were not involved in the failure, as the case may be.

**"SEC. 7304. STATE ALLOCATIONS.**

"(a) PAYMENTS.—The Secretary shall, in accordance with the provisions of this section, make payments to State educational agencies for each of the fiscal years 1995 through 1999 for the purpose set forth in section 7301(b).

"(2) ELIGIBLE LOCAL EDUCATIONAL AGENCIES.—The local educational agencies referred to in paragraph (1) are those local educational agencies in which the sum of the number of im-

migrant children and youth who are enrolled in public elementary or secondary schools under the jurisdiction of such agencies, and in nonpublic elementary or secondary schools within the districts served by such agencies, during the fiscal year for which the payments are to be made under this part, is equal to—

**"(c) DETERMINATIONS OF NUMBER OF CHILDREN AND YOUTH.—**

"(1) IN GENERAL.—Determinations by the Secretary under this section for any period with respect to the number of immigrant children and youth shall be made on the basis of data or estimates provided to the Secretary by each State educational agency in accordance with criteria established by the Secretary, unless the Secretary determines, after notice and opportunity for a hearing to the affected State educational agency, that such data or estimates are clearly erroneous.

"(2) SPECIAL RULE.—No such determination with respect to the number of immigrant children and youth shall operate because of an underestimate or overestimate to deprive any State educational agency of the allocation under this section that such State would otherwise have received had such determination been made on the basis of accurate data.

"(d) REALLOCATION.—Whenever the Secretary determines that any amount of a payment made to a State under this part for a fiscal year will not be used by such State for carrying out the purpose for which the payment was made, the Secretary shall make such amount available for carrying out such purpose to one or more other States to the extent the Secretary determines that such other States will be able to use such additional amount for carrying out such purpose. Any amount made available to a State from any appropriation for a fiscal year in accordance with the preceding sentence shall, for purposes of this part, be regarded as part of such State's payment (as determined under subsection (b)) for such year, but shall remain available until the end of the succeeding fiscal year.

**"(e) RESERVATION OF FUNDS.—**

"(1) IN GENERAL.—Notwithstanding any other provision of this part, if the amount appropriated to carry out this part exceeds \$50,000,000 for a fiscal year, a State educational agency may reserve not more than 20 percent of such agency's payment under this part for such year to award grants, on a competitive basis, to local educational agencies within the State as follows:

**"SEC. 7305. STATE APPLICATIONS.**

"(a) SUBMISSION.—No State educational agency shall receive any payment under this part for

any fiscal year unless such agency submits an application to the Secretary at such time, in such manner, and containing or accompanied by such information, as the Secretary may reasonably require. Each such application shall—

"(7) provide assurances—

"(A) that to the extent consistent with the number of immigrant children and youth enrolled in the nonpublic elementary or secondary schools within the district served by a local educational agency, such agency, after consultation with appropriate officials of such schools, shall provide for the benefit of such children and youth secular, neutral, and nonideological services, materials, and equipment necessary for the education of such children and youth;

"(B) that the control of funds provided under this part to any materials, equipment, and property repaired, remodeled, or constructed with those funds shall be in a public agency for the uses and purposes provided in this part, and a public agency shall administer such funds and property; and

"(C) that the provision of services pursuant to this paragraph shall be provided by employees of a public agency or through contract by such public agency with a person, association, agency, or corporation who or which, in the provision of such services, is independent of such nonpublic elementary or secondary school and of any religious organization, and such employment or contract shall be under the control and supervision of such public agency, and the funds provided under this paragraph shall not be commingled with State or local funds;

"(8) provide that funds reserved under subsection (e) of section 7304 be awarded on a competitive basis based on merit and need in accordance with such subsection; and

#### "TITLE VIII—IMPACT AID

##### "SEC. 8001. PURPOSE.

"In order to fulfill the Federal responsibility to assist with the provision of educational services to federally connected children, because certain activities of the Federal Government place a financial burden on the local educational agencies serving areas where such activities are carried out, and to help such children meet challenging State standards, it is the purpose of this title to provide financial assistance to local educational agencies that—

"(1) that the United States owns Federal property in the local educational agency, and that such property—

"(A) has been acquired by the United States since 1938;

"(B) was not acquired by exchange for other Federal property in the local educational agency which the United States owned before 1939; and

"(C) had an assessed value (determined as of the time or times when so acquired) aggregating 10 percent or more of the assessed value of—

"(i) all real property in the local educational agency (similarly determined as of the time or times when such Federal property was so acquired); or

succeeding acquisition, whichever is greater, only if—

"(I) the assessment of all real property in the local educational agency is not made at the same time or times that such Federal property was so acquired and assessed; and

"(II) State law requires an assessment be made of property so acquired; and

"(2) that such agency is not being substantially compensated for the loss in revenue resulting from such ownership by increases in revenue accruing to the agency from the conduct of Federal activities with respect to such Federal property,

then such agency shall be eligible to receive the amount described in subsection (b).

"(b) AMOUNT.—

"(1) IN GENERAL.—(A)(i) The amount that a local educational agency shall be paid under subsection (a) for a fiscal year shall be calculated in accordance with paragraph (2), except that such amount shall be reduced by the Secretary by an amount equal to the amount of revenue, if any, that such agency received during the previous fiscal year from activities conducted on such Federal property.

"(C) Notwithstanding any other provision of this subsection, a local educational agency may not be paid an amount under this section that, when added to the amount such agency receives under section 8003(b), exceeds the maximum amount that such agency is eligible to receive for such fiscal year under section 8003(b)(1)(C).

"(2) APPLICATION OF CURRENT LEVIED REAL PROPERTY TAX RATE.—In calculating the amount that a local educational agency is eligible to receive for a fiscal year, the Secretary shall apply the current levied real property tax rate for current expenditures levied by fiscally independent local educational agencies, or imputed for fiscally dependent local educational agencies, to the current annually determined aggregate assessed value of such acquired Federal property.

"(3) DETERMINATION OF AGGREGATE ASSESSED VALUE.—Such aggregate assessed value of such acquired Federal property shall be determined on the basis of the highest and best use of property adjacent to such acquired Federal property as of the time such value is determined, and provided to the Secretary, by the local official responsible for assessing the value of real property located in the jurisdiction of such local educational agency for the purpose of levying a property tax.

"(ii) if not in such county, in whole or in part in the same State as such agency.

"(2) DETERMINATION OF WEIGHTED STUDENT UNITS.—For the purpose of computing the basic support payment under subsection (b), the Secretary shall calculate the total number of weighted student units for a local educational agency by adding together the results obtained by the following computations:

"(A) Multiply the number of children described in subparagraphs (A) and (B) of paragraph (1) by a factor of 1.0.

"(B) Multiply the number of children described in paragraph (1)(C) by a factor of 1.25.

"(C) Multiply the number of children described in subparagraphs (A) and (B) of paragraph (1) by a factor of .35 if the local educational agency has—

"(i) a number of such children described in such subparagraphs which exceeds 6,500; and

"(ii) an average daily attendance for all children which exceeds 100,000.

"(D) Multiply the number of children described in subparagraphs (D) and (E) of paragraph (1) by a factor of .10.

"(E) Multiply the number of children described in subparagraphs (F) and (G) of paragraph (1) by a factor of .05.

"(3) SPECIAL RULE.—The Secretary shall only compute a payment for a local educational agency for children described in subparagraph (F) or (G) of paragraph (1) if the number of such children equals or exceeds 2,000 and such number equals or exceeds 15 percent of the total number of students in average daily attendance in the schools of such agency.

"(b) BASIC SUPPORT PAYMENTS AND PAYMENTS WITH RESPECT TO FISCAL YEARS IN WHICH INSUFFICIENT FUNDS ARE APPROPRIATED.—

"(1) BASIC SUPPORT PAYMENTS.—

"(A) IN GENERAL.—From the amount appropriated under section 8014(b) for a fiscal year, the Secretary is authorized to make basic support payments to eligible local educational agencies with children described in subsection (a).

"(B) ELIGIBILITY.—A local educational agency is eligible to receive a basic support payment under subparagraph (A) for a fiscal year with respect to a number of children determined under subsection (a)(1) only if the number of children so determined with respect to such agency amounts to the lesser of—

"(i) at least 400 such children; or

"(ii) a number of such children which equals at least 3 percent of the total number of children who were in average daily attendance, during such year, at the schools of such agency and for whom such agency provided free public education.

"(C) MAXIMUM AMOUNT.—The maximum amount that a local educational agency is eligible to receive under this subsection for any fiscal year is the sum of the total weighted student units, as computed under subsection (a)(2), multiplied by the greater of—

"(i) one-half of the average per-pupil expenditure of the State in which the local educational agency is located for the third fiscal year preceding the fiscal year for which the determination is made;

"(ii) one-half of the average per-pupil expenditure of all of the States for the third fiscal year preceding the fiscal year for which the determination is made;

"(iii) the comparable local contribution rate certified by the State, as determined under regulations prescribed to carry out the Act of September 30, 1950 (Public Law 874, 81st Congress), as such regulations were in effect on January 1, 1994; or

"(iv) the average per-pupil expenditure of the State in which the local educational agency is located, multiplied by the local contribution percentage.

"(2) PAYMENTS WITH RESPECT TO FISCAL YEARS IN WHICH INSUFFICIENT FUNDS ARE APPROPRIATED.—

"(A) IN GENERAL.—For any fiscal year in which the sums appropriated under section 8014(b) are insufficient to pay to each local educational agency the full amount computed under paragraph (1), the Secretary shall make payments in accordance with this paragraph.

"(B) LEARNING OPPORTUNITY THRESHOLD PAYMENTS.—(i) For fiscal years described in subparagraph (A), the Secretary shall compute a learning opportunity threshold payment (hereafter in this title referred to as the 'threshold payment') by multiplying the amount obtained under paragraph (1)(C) by the total percentage obtained by adding—

"(I) the percentage of federally connected children for each local educational agency determined by calculating the fraction, the numerator of which is the total number of children described under subsection (a)(1) and the denominator of which is the total number of children in average daily attendance at the schools served by such agency; and

"(II) the percentage that funds under paragraph (1)(C) represent of the total budget of the local educational agency, determined by calculating the fraction, the numerator of which is the total amount of funds calculated for each local educational agency under this paragraph (not including amounts received under subsection (f)), and the denominator of which is the total current expenditures for such agency in the second preceding fiscal year for which the determination is made.

"(ii) Such total percentage used to calculate threshold payments under paragraph (1) shall not exceed 100.

"(iii) For the purpose of determining the percentages described in subclauses (I) and (II) of clause (i) that are applicable to the local educational agency providing free public education to students in grades 9 through 12 residing on Hanscom Air Force Base, Massachusetts, the Secretary shall consider only that portion of such agency's total enrollment of students in grades 9 through 12 when calculating the percentage under such subclause (I) and only that portion of the total current expenditures attributed to the operation of grades 9 through 12 in such agency when calculating the percentage under subclause (II).

"(C) RATABLE DISTRIBUTION.—For fiscal years described in subparagraph (A), the Secretary shall make payments as a ratable distribution based upon the computation made under subparagraph (B).

"(c) PRIOR YEAR DATA.—

"(1) IN GENERAL.—Except as provided in paragraph (2) and subsection (f), all calculations under this section shall be based on data for each local educational agency from not later than the fiscal year preceding the fiscal year for which the agency is making application for payment.

"(2) EXCEPTION.—Calculations for a local educational agency that is newly established by a State shall, for the first year of operation of such agency, be based on data from the fiscal year for which the agency is making application for payment.

"(d) CHILDREN WITH DISABILITIES.—

"(1) IN GENERAL.—From the amount appropriated under section 8014(c) for a fiscal year,

the Secretary shall pay to each eligible local educational agency, on a pro rata basis, the amounts determined by—

"(A) multiplying the number of children described in subparagraphs (A)(ii), (B) and (C) of subsection (a)(1) who are eligible to receive services under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.) by a factor of 1.0; and

"(B) multiplying the number of children described in subparagraph (D) of subsection (a)(1) who are eligible to receive services under such Act by a factor of 0.5.

"(2) USE OF FUNDS.—A local educational agency that receives funds under paragraph (1) shall use such funds to provide a free appropriate public education to children described in paragraph (1) in accordance with the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.).

"(e) HOLD-HARMLESS AMOUNTS.—

"(1) IN GENERAL.—(A) Except as provided in paragraph (4)(A), the total amount that the Secretary shall pay a local educational agency under subsection (b) shall not be less than 85 percent of the amount such agency received for the preceding fiscal year—

"(i) in the case of fiscal year 1995 only, under subsections (a) and (b) of section 3 of the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such section was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994); or

"(ii) in the case of fiscal years 1996, 1997, 1998, or 1999, under such subsection (b).

"(B) For fiscal year 1995 only, the Secretary shall pay, to each local educational agency that is not eligible for a payment under subsection (b) but that received a payment under section 3 of the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such Act was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994) for fiscal year 1994, an amount which is not less than 85 percent of the payment such agency received under such section 3 for fiscal year 1994.

"(2) TWO-YEAR APPLICABILITY.—Paragraph (1)(A) shall apply to any one local educational agency for a maximum of two consecutive fiscal years.

"(3) PHASE-OUT PAYMENT.—A local educational agency which received a payment under section 3(e) of the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such section was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994) for fiscal year 1994 is eligible to receive a payment, under subsection (b) for fiscal year 1995, in an amount which is not less than 85 percent of the amount received by such agency in fiscal year 1994 under such section 3(e).

"(4) RATABLE REDUCTIONS.—(A)(i) If necessary in order to make payments to local educational agencies in accordance with paragraphs (1) and (2), the Secretary first shall ratably reduce payments under subsection (b) to local educational agencies that do not receive a payment under this subsection.

"(ii) If additional funds become available for making payments under subsection (b) for such fiscal year, payments that were reduced under clause (i) shall be increased on the same basis as such payments were reduced.

"(B)(i) If the sums made available under this title for any fiscal year are insufficient to pay the full amounts that all local educational agencies in all States are eligible to receive under paragraphs (1) and (2) after the application of subparagraph (A) for such year, the Secretary shall ratably reduce payments to all such agencies for such year.

"(ii) If additional funds become available for making payments under paragraphs (1) and (2)

for such fiscal year, payments that were reduced under clause (i) shall be increased on the same basis as such payments were reduced.

"(F) ADDITIONAL ASSISTANCE FOR HEAVILY IMPACTED LOCAL EDUCATIONAL AGENCIES.—

"(1) RESERVATION.—From amounts appropriated under section 8014(b) for a fiscal year, the Secretary shall provide additional assistance to meet special circumstances relating to the provision of education in local educational agencies eligible to receive assistance under this section.

"(2) ELIGIBILITY.—(A) A local educational agency is eligible to receive additional assistance under this subsection only if such agency—

"(i)(I) has an enrollment of federally connected children described in subsection (a)(1) which constitutes a percentage of the total student enrollment of such agency which is not less than 50 percent if such agency receives a payment on behalf of children described in subparagraphs (F) and (G) of such subsection, or not less than 40 percent if such agency does not receive a payment on behalf of such children; and

"(II) has a tax rate for general fund purposes which is at least 95 percent of the average tax rate for general fund purposes of comparable local educational agencies in the State;

"(ii)(I) has an enrollment of federally connected children described in subsection (a)(1) which constitutes at least 35 percent of the total student enrollment of such agency; and

"(II) has a tax rate for general fund purposes which is at least 125 percent of the average tax rate for general fund purposes of comparable local educational agencies in the State; or

"(iii) is a local educational agency whose boundaries are the same as a Federal military installation.

"(B) If the current expenditures in those local educational agencies which the Secretary has determined to be generally comparable to the local educational agency for which a computation is made under subsection (b)(1)(C) are not reasonably comparable because of unusual geographical factors which affect the current expenditures necessary to maintain, in such agency, a level of education equivalent to that maintained in such other agencies, then the Secretary shall increase the local contribution rate for such agency by such an amount which the Secretary determines will compensate such agency for the increase in current expenditures necessitated by such unusual geographical factors. The amount of any such supplementary payment may not exceed the per-pupil share (computed with regard to all children in average daily attendance), as determined by the Secretary, of the increased current expenditures necessitated by such unusual geographic factors.

"(C) Any local educational agency determined eligible under clause (iii) of subparagraph (A) shall be deemed to have met the tax effort requirements for eligibility under clause (i)(II) or (ii)(II) of such subparagraph.

"(3) MAXIMUM PAYMENTS.—

"(A) IN GENERAL.—Subject to subparagraph (B), the Secretary shall determine the maximum amount that a local educational agency may receive under this subsection in accordance with the following computations:

"(i) The Secretary shall first determine the greater of—

"(I) the average per-pupil expenditure of the State in which the local educational agency is located or the average per-pupil expenditure of all the States;

"(II) the average per-pupil expenditure of generally comparable local educational agencies located in the State of the local educational agency, as defined in regulations issued by the Secretary; or

"(III) the average per-pupil expenditure of three generally comparable local educational

agencies located in the State of the local educational agency, as defined in regulations issued by the Secretary.

"(ii) The Secretary shall next subtract from the amount determined under clause (i) the average amount of State aid per pupil received by the local educational agency.

"(iii) The Secretary shall next multiply the amount determined under clause (ii) by the total number of students in average daily attendance at the schools of the local educational agency as determined by the Secretary under subsection (a)(1).

"(iv) If the tax rate used by the local educational agency is greater than 95 percent, but less than 100 percent, of the tax rate of comparable local educational agencies, the Secretary shall next multiply the amount determined under clause (iii) by the percentage that the tax rate of the local educational agency is of—

"(I) the average tax rate of its generally comparable local educational agencies; or

"(II) the average tax rate of all the local educational agencies in the State in which the local educational agency is located.

"(v) The Secretary shall next subtract the total amount of payments received by a local educational agency under subsections (b) and (d) for a fiscal year from the amount determined under clause (iii) or clause (iv), as the case may be.

"(B) SPECIAL RULE.—With respect to payments under this subsection for a local educational agency described in clause (ii) or (iii) of paragraph (2)(A), the maximum amount of such payments shall be computed by taking the product of the average per-pupil expenditure in all States multiplied by 0.7, except that such amount may not exceed 125 percent of the average per-pupil expenditure in all local educational agencies in the State.

"(4) CURRENT YEAR DATA.—The Secretary shall, for purposes of providing assistance under this subsection, use—

"(A) student and revenue data from the fiscal year for which the local educational agency is applying for assistance under this subsection; and

"(B) the most recent data available which is adjusted to such fiscal year.

"(5) REDUCTION IN PAYMENTS.—If funds appropriated to carry out this subsection are insufficient to pay in full the amounts determined under paragraph (3), the Secretary shall ratably reduce the payment to each eligible local educational agency.

"(g) ADDITIONAL PAYMENTS FOR LOCAL EDUCATIONAL AGENCIES WITH HIGH CONCENTRATIONS OF CHILDREN WITH SEVERE DISABILITIES.—

"(1) IN GENERAL.—If any local educational agency receives Federal funds from sources other than this title to carry out the purposes of this title for any fiscal year due to the enrollment of children described under subsection (a), then the Secretary shall consider such funds as a payment to such agency under this part for such fiscal year.

"(2) SPECIAL RULE.—Notwithstanding any other provision of law, if funds appropriated pursuant to section 8014(b) for payments under subsection (b) to such agency for a fiscal year which, when added to the funds described in paragraph (1) received by such agency for such fiscal year, exceed the maximum amount described under subsection (b)(1)(C), then the Secretary shall make available from the funds appropriated under section 8014(b) for such fiscal year such excess amounts to any local educational agency serving two or more children described under subparagraph (B) or (D) of subsection (a)(1) who have a severe disability and a parent serving in the uniformed services (as

defined by section 101 of title 37, United States Code) who is assigned to a particular permanent duty station for compassionate reasons (compassionate post assignment) for the total costs associated with such children who are provided an educational program provided outside the schools of such agency.

"(3) REMAINING FUNDS.—If funds remain after payments are made under paragraph (2) for any fiscal year, then such remaining funds shall be made available for expenditures under subsection (d) in such fiscal year on a pro rata basis consistent with the requirements of such subsection.

"(4) RATABLE REDUCTIONS.—If amounts available to carry out paragraph (2) for any fiscal year are insufficient to pay in full the total payment that all eligible local educational agencies are eligible to receive under such paragraph for such year, then the Secretary shall ratably reduce such payments to such agencies for such year.

"(h) OTHER FUNDS.—Notwithstanding any other provision of law, a local educational agency receiving funds under this section may also receive funds under section 6 of the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such section was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994) or such section's successor authority.

"(i) MAINTENANCE OF EFFORT.—A local educational agency may receive funds under sections 8002 and 8003(b) for any fiscal year only if the State educational agency finds that either the combined fiscal effort per student or the aggregate expenditures of that agency and the State with respect to the provision of free public education by that agency for the preceding fiscal year was not less than 90 percent of such combined fiscal effort or aggregate expenditures for the second preceding fiscal year.

"(2) parents of such children and Indian tribes are afforded an opportunity to present their views on such programs and activities, including an opportunity to make recommendations on the needs of those children and how the local educational agency may help such children realize the benefits of such programs and activities;

"(3) parents and Indian tribes are consulted and involved in planning and developing such programs and activities;

"(d) TECHNICAL ASSISTANCE AND ENFORCEMENT.—The Secretary shall—

"(1) provide technical assistance to local educational agencies, parents, and Indian tribes to enable such agencies, parents, and tribes to carry out this section; and

"(2) enforce this section through such actions, which may include the withholding of funds, as the Secretary determines to be appropriate, after affording the affected local educational agency, parents, and Indian tribe an opportunity to present their views.

"(e) COMPLAINTS.—

"(1) IN GENERAL.—(A) Any tribe, or its designee, which has students in attendance at a local educational agency may, in its discretion and without regard to the requirements of any other provision of law, file a written complaint with the Secretary regarding any action of a local educational agency taken pursuant to, or relevant to, the requirements of this section.

"(B) Within ten working days from receipt of a complaint, the Secretary shall—

"(i) designate a time and place for a hearing into the matters relating to the complaint at a location in close proximity to the local educational agency involved, or if the Secretary determines there is good cause, at some other location convenient to both the tribe, or its designee, and the local educational agency;

"(ii) designate a hearing examiner to conduct the hearing; and

"(iii) notify the affected tribe or tribes and the local educational agency involved of the time, place, and nature of the hearing and send copies of the complaint to the local educational agency and the affected tribe or tribes.

"(2) HEARING.—The hearing shall be held within 30 days of the designation of a hearing examiner and shall be open to the public. A record of the proceedings shall be established and maintained.

"(3) EVIDENCE; RECOMMENDATIONS; COST.—The complaining tribe, or its designee, and the local educational agency shall be entitled to present evidence on matters relevant to the complaint and to make recommendations concerning the appropriate remedial actions. The hearing examiner's findings and recommendations, along with the hearing record, shall be forwarded to the Secretary.

"(5) WRITTEN DETERMINATION.—Within 30 days of the Secretary's receipt of the findings, recommendations, and record, the Secretary shall, on the basis of the record, make a written determination of the appropriate remedial action, if any, to be taken by the local educational agency, the schedule for completion of the remedial action, and the reasons for the Secretary's decision.

"(6) COPIES PROVIDED.—Upon completion of the Secretary's final determination, the Secretary shall provide the complaining tribe, or its designee, and the local educational agency with copies of the hearing record, the hearing examiner's findings and recommendations, and the Secretary's final determination. The final determination of the Secretary shall be subject to judicial review.

"(7) CONSOLIDATION.—In all actions under this subsection, the Secretary shall have discretion to consolidate complaints involving the same tribe or local educational agency.

"(8) **WITHHOLDING.**—If the local educational agency rejects the determination of the Secretary, or if the remedy required is not undertaken within the time established and the Secretary determines that an extension of the time established will not effectively encourage the remedy required, the Secretary shall withhold payment of all moneys to which such local agency is eligible under section 8003 until such time as the remedy required is undertaken, except where the complaining tribe or its designee formally requests that such funds be released to the local educational agency, except that the Secretary may not withhold such moneys during the course of the school year if the Secretary determines that such withholding would substantially disrupt the educational programs of the local educational agency.

"(9) **REJECTION OF DETERMINATION.**—If the local educational agency rejects the determination of the Secretary and a tribe exercises the option under section 1101(d) of the Education Amendments of 1978, to have education services provided either directly by the Bureau of Indian Affairs or by contract with the Bureau of Indian Affairs, any Indian students affiliated with that tribe who wish to remain in attendance at the local educational agency against whom the complaint which led to the tribal action under such subsection (d) was lodged may be counted with respect to that local educational agency for the purpose of receiving funds under section 8003. In such event, funds under such section shall not be withheld pursuant to paragraph (8) and no further complaints with respect to such students may be filed under paragraph (1).

"(f) **CONSTRUCTION.**—This section is based upon the special relationship between the Indian nations and the United States and nothing in this section shall be construed to relieve any State of any duty with respect to any citizens of that State.

**"SEC. 8006. PAYMENTS FOR SUDDEN AND SUBSTANTIAL INCREASES IN ATTENDANCE OF MILITARY DEPENDENTS.**

"(a) **ELIGIBILITY.**—A local educational agency is eligible for a payment under this section if—

"(2) the number of children in average daily attendance with a parent on active duty (as defined in section 101(18) of title 37, United States Code) in the Armed Forces who are in attendance at such agency because of the assignment of their parent to a new duty station between May 15 and September 30, inclusive, of the fiscal year for which the determination is made, as certified by an appropriate local official of the Department of Defense, is at least 10 percent or 100 more than the number of children in average daily attendance in the preceding school year.

"(b) **APPLICATION.**—A local educational agency that wishes to receive a payment under this section shall file an application with the Secretary by October 15 of the school year for which payment is requested, in such manner and containing such information as the Secretary may prescribe, including information demonstrating that such agency is eligible for such a payment.

"(c) **CHILDREN TO BE COUNTED.**—For each eligible local educational agency that applies for a payment under this section, the Secretary shall determine the lesser of—

"(1) the increase in the number of children in average daily attendance from the school year preceding the fiscal year for which the determination is made; and

"(d) **PAYMENTS.**—

"(1) **IN GENERAL.**—Except as provided in paragraph (2), from the amount appropriated for a fiscal year under section 8014(d), the Secretary shall pay each local educational agency with an approved application an amount equal to one-half of the national average per-pupil expenditure multiplied by the number of such children determined under subsection (c) for that local educational agency.

"(2) **RATABLE REDUCTION.**—(A) If the amount appropriated to carry out this section for any fiscal year is insufficient to pay the full payment that all eligible local educational agencies are eligible to receive under this section for such year, then the Secretary shall ratably reduce the payments to such agencies for such year.

"(B) If additional funds become available for making payments under paragraph (1) for such fiscal year, payments that were reduced under subparagraph (A) shall be increased on the same basis as such payments were reduced.

"(e) **NOTIFICATION PROCESS.**—

"(1) **ESTABLISHMENT.**—The Secretary shall establish, with the Secretary of Defense, a notification process relating to the closure of Department of Defense facilities, or the adjustment of personnel levels assigned to such facilities, which may substantially affect the student enrollment levels of local educational agencies which receive or may receive payments under this title.

**"SEC. 8009. STATE CONSIDERATION OF PAYMENTS IN PROVIDING STATE AID.**

"(a) GENERAL PROHIBITION.—Except as provided in subsection (b), a State may not—

"(1) consider payments under this title or under the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such Act was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994) in determining for any fiscal year—

"(A) the eligibility of a local educational agency for State aid for free public education; or

"(B) the amount of such aid; or

"(2) make such aid available to local educational agencies in a manner that results in less State aid to any local educational agency that is eligible for such payment than such agency would receive if such agency were not so eligible.

"(b) STATE EQUALIZATION PLANS.—

"(1) IN GENERAL.—A State may reduce State aid to a local educational agency that receives a payment under section 8002 or 8003(b) (except the amount calculated in excess of 1.0 under subparagraph (B) of section 8003(a)(2)) or under the Act of September 30, 1950 (Public Law 874, 81st Congress) as such Act was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994 (other than an increase in payments described in paragraphs (2)(B), (2)(C), (2)(D), or (3)(B)(i) of section 3(d) of such Act of September 30, 1950) for any fiscal year if the Secretary determines, and certifies under subsection (c)(3)(A), that such State has in effect a program of State aid that equalizes expenditures for free public education among local educational agencies in such State.

"(2) COMPUTATION.—

"(A) IN GENERAL.—For purposes of paragraph (1), a program of State aid equalizes expenditures among local educational agencies if, in the second fiscal year preceding the fiscal year for which the determination is made, the amount of per-pupil expenditures made by, or per-pupil revenues available to, the local educational agency in the State with the highest such per-pupil expenditures or revenues did not exceed the amount of such per-pupil expenditures made by, or per-pupil revenues available to, the local educational agency in the State with the lowest such expenditures or revenues by more than—

"(i) 25 percent for fiscal year 1995, 1996, or 1997; and

"(i) disregard local educational agencies with per-pupil expenditures or revenues above the 95th percentile or below the 5th percentile of such expenditures or revenues in the State; and

"(ii) take into account the extent to which a program of State aid reflects the additional cost of providing free public education in particular types of local educational agencies, such as those that are geographically isolated, or to particular types of students, such as children with disabilities.

"(3) EXCEPTION.—Notwithstanding paragraph (2), if the Secretary determines that the State

has substantially revised its program of State aid, the Secretary may certify such program for any fiscal year only if—

"(A) the Secretary determines, on the basis of projected data, that the State's program will meet the disparity standard described in paragraph (2) for the fiscal year for which the determination is made; and

"(B) the State provides an assurance to the Secretary that, if final data do not demonstrate that the State's program met such standard for the fiscal year for which the determination is made, the State will pay to each affected local educational agency the amount by which the State reduced State aid to the local educational agency.

"(c) PROCEDURES FOR REVIEW OF STATE EQUALIZATION PLANS.—

"(1) WRITTEN NOTICE.—

"(A) IN GENERAL.—Any State that wishes to consider payments described in subsection (b)(1) in providing State aid to local educational agencies shall submit to the Secretary, not later than 120 days before the beginning of the State's fiscal year, a written notice of such State's intention to do so.

"(B) CONTENTS.—Such notice shall be in the form and contain the information the Secretary requires, including evidence that the State has notified each local educational agency in the State of such State's intention to consider such payments in providing State aid.

"(2) OPPORTUNITY TO PRESENT VIEWS.—Before making a determination under subsection (b), the Secretary shall afford the State, and local educational agencies in the State, an opportunity to present their views.

"(3) QUALIFICATION PROCEDURES.—If the Secretary determines that a program of State aid qualifies under subsection (b), the Secretary shall—

"(A) certify the program and so notify the State; and

"(B) afford an opportunity for a hearing, in accordance with section 8011(a), to any local educational agency adversely affected by such certification.

"(4) NON-QUALIFICATION PROCEDURES.—If the Secretary determines that a program of State aid does not qualify under subsection (b), the Secretary shall—

"(A) so notify the State; and

"(B) afford an opportunity for a hearing, in accordance with section 8011(a), to the State, and to any local educational agency adversely affected by such determination.

"(d) TREATMENT OF STATE AID.—

"(1) IN GENERAL.—If a State has in effect a program of State aid for free public education for any fiscal year, which is designed to equalize expenditures for free public education among the local educational agencies of that State, payments under this title or under the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such Act was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994) for any fiscal year may be taken into consideration by such State in determining the relative—

"(A) financial resources available to local educational agencies in that State; and

"(B) financial need of such agencies for the provision of free public education for children served by such agency, except that a State may consider as local resources funds received under this title or under the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such Act was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994) only in proportion to the share that local tax revenues covered under a State equalization program are of total local tax revenues.

"(2) PROHIBITION.—A State may not take into consideration payments under this title or under

the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such Act was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994) before such State's program of State aid has been certified by the Secretary under subsection (c)(3).

"(e) REMEDIES FOR STATE VIOLATIONS.—

"(1) IN GENERAL.—The Secretary or any aggrieved local educational agency may, not earlier than 150 days after an adverse determination by the Secretary against a State for violation of subsections (a) or (d)(2) or for failure to carry out an assurance under subsection (b)(3)(B), and if an administrative proceeding has not been concluded within such time, bring an action in a United States district court against such State for such violations or failure.

#### "PART B—NATIVE HAWAIIANS

##### "SEC. 9201. SHORT TITLE.

"This part may be cited as the 'Native Hawaiian Education Act'.

##### "SEC. 9202. FINDINGS.

"The Congress finds and declares as follows:  
 "(1) Native Hawaiians are a distinct and unique indigenous people with a historical continuity to the original inhabitants of the Hawaiian archipelago, whose society was organized as a nation and internationally recognized as such by the United States, Britain, France and Japan, as evidenced by treaties governing friendship, commerce, and navigation.

"(2) At the time of the arrival of the first non-indigenous people in Hawai'i in 1778, the Native Hawaiian people lived in a highly organized, self-sufficient subsistence social system based on a communal land tenure system with a sophisticated language, culture, and religion.

"(3) A unified monarchical government of the Hawaiian Islands was established in 1810 under Kamehameha I, the first King of Hawai'i.

"(4) From 1826 until 1893, the United States recognized the sovereignty and independence of the Kingdom of Hawai'i, which was established in 1810 under Kamehameha I, extended full and complete diplomatic recognition to the Kingdom of Hawai'i, and entered into treaties and conventions with the Kingdom of Hawai'i to govern friendship, commerce and navigation in 1826, 1842, 1849, 1875, and 1887.

"(5) In 1893, the sovereign, independent, internationally recognized, and indigenous government of Hawai'i, the Kingdom of Hawai'i, was overthrown by a small group of non-Hawaiians, including United States citizens, who were assisted in their efforts by the United States Minister, a United States naval representative, and armed naval forces of the United States. Because of the participation of United States agents and citizens in the overthrow of the Kingdom of Hawai'i, the Congress, on behalf of the people of the United States, apologized to Native Hawaiians for the overthrow and the deprivation of the rights of Native Hawaiians to self-determination through Public Law 103-150 (107 Stat. 1510).

"(6) In 1898, the joint resolution entitled 'A Joint Resolution to provide for annexing the Hawaiian Islands to the United States', approved July 7, 1898 (30 Stat. 750), ceded absolute title of all lands held by the Republic of Hawai'i, including the government and crown lands of the former Kingdom of Hawai'i, to the United States, but mandated that revenue generated from these lands be used 'solely for the benefit of the inhabitants of the Hawaiian Islands for educational and other public purposes'.

"(7) By 1919, the Native Hawaiian population had declined from an estimated 1,000,000 in 1778 to an alarming 22,600, and in recognition of this severe decline, the Congress in 1921 enacted the Hawaiian Homes Commission Act, 1920, which designated approximately 200,000 acres of ceded public lands for homesteading by Native Hawaiians.

"(8) Through the enactment of the Hawaiian Homes Commission Act, 1920, the Congress affirmed the special relationship between the United States and the Native Hawaiians, as expressed by then Secretary of the Interior Franklin K. Lane, who was quoted in the committee report for the Hawaiian Homes Commission Act,

1920, as saying: 'One thing that impressed me . . . was the fact that the natives of the island who are our wards, I should say, and for whom in a sense we are trustees, are falling off rapidly in numbers and many of them are in poverty.'

"(9) In 1938, the United States Congress again acknowledged the unique status of the Hawaiian people by including in the Act of June 20, 1938 (52 Stat. 781 et seq.), a provision to lease lands within the National Parks extension to Native Hawaiians and to permit fishing in the area 'only by native Hawaiian residents of said area or of adjacent villages and by visitors under their guidance'.

"(10) Under the Act entitled 'An Act to provide for the admission of the State of Hawai'i into the Union' Approved March 18, 1959 (73 Stat. 4), the United States transferred responsibility for the administration of the Hawaiian Home Lands to the State of Hawai'i but reaffirmed the trust relationship which existed between the United States and the Hawaiian people by retaining the exclusive power to enforce the trust, including the power to approve land exchanges and legislative amendments affecting the rights of beneficiaries under such Act.

"(11) In 1959, under the Act entitled 'An Act to provide for the admission of the State of Hawai'i into the Union', approved March 18, 1959 (73 Stat. 4), the United States ceded to the State of Hawai'i title to the public lands formerly held by the United States, but mandated that such lands be held by the State 'in public trust' and reaffirmed the special relationship which existed between the United States and the Hawaiian people by retaining the legal responsibility to enforce the public trust responsibility of the State of Hawai'i for the betterment of the conditions of Native Hawaiians, as defined in section 201(a) of the Hawaiian Homes Commission Act, 1920.

"(12) The United States assumed special responsibilities for Native Hawaiian lands and resources at the time of the annexation of the Territory in 1898, upon adoption of the Hawaiian Homes Commission Act, 1920, and upon admission of the State of Hawai'i into the Union in 1959, and has retained certain of those responsibilities.

"(13) In recognition of the special relationship which exists between the United States and the Native Hawaiian people, the Congress has extended to Native Hawaiians the same rights and privileges accorded to American Indian, Alaska Native, Eskimo, and Aleut communities under the Native American Programs Act of 1974, the American Indian Religious Freedom Act, the National Museum of the American Indian Act, the Native American Graves Protection and Repatriation Act, the National Historic Preservation Act, and the Native American Languages Act.

"(14) In recognition of the special relationship which exists between the United States and the Native Hawaiian people, the Congress has enacted numerous special provisions of law for the benefit of Native Hawaiians in the areas of health, education, labor, and housing.

"(15) In 1981, the Senate instructed the Office of Education to submit to the Congress a comprehensive report on Native Hawaiian education. The report, entitled the 'Native Hawaiian Educational Assessment Project', was released in 1983 and documented that Native Hawaiians scored below parity with national norms on standardized achievement tests, were disproportionately represented in many negative social and physical statistics, indicative of special educational needs, and had educational needs which were related to their unique cultural situation, such as different learning styles and low self-image.

"(16) In recognition of the educational needs of Native Hawaiians, in 1988, the Congress en-

acted title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988 to authorize and develop supplemental educational programs to benefit Native Hawaiians.

"(17) In 1993, the Kamehameha Schools Bishop Estate released a ten-year update of the Native Hawaiian Educational Assessment Project, which found that despite the successes of the programs established under title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, many of the same educational needs still exist for Native Hawaiians. For example—

"(A) educational risk factors continue to start even before birth for many Native Hawaiian children, including—

"(i) late or no prenatal care;

"(ii) half of Native Hawaiian women who give birth are unmarried; and

"(iii) high rates of births to teenage parents;

"(B) Native Hawaiian students continue to begin their school experience lagging behind other students in terms of readiness factors such as vocabulary test scores;

"(C) Native Hawaiian students continue to score below national norms on standardized education achievement tests at all grade levels;

"(D) both public and private schools continue to show a pattern of lower percentages of Native Hawaiian students in the uppermost achievement levels and in gifted and talented programs;

"(E) Native Hawaiian students continue to be overrepresented among students qualifying for special education programs provided to students with learning disabilities, mild mental retardation, emotional impairment, and other such disabilities;

"(F) Native Hawaiians continue to be underrepresented in institutions of higher education and among adults who have completed four or more years of college;

"(G) Native Hawaiians continue to be disproportionately represented in many negative social and physical statistics, indicative of special educational needs, for example—

"(i) Native Hawaiian students are more likely to be retained in grade level and to be excessively absent in secondary school;

"(ii) Native Hawaiian students are the highest users of drugs and alcohol in the State of Hawai'i; and

"(iii) Native Hawaiian children continue to be disproportionately victimized by child abuse and neglect; and

"(H) Native Hawaiians now comprise over 23 percent of the students served by the State of Hawai'i Department of Education and there are and will continue to be geographically rural, isolated areas with a high Native Hawaiian population density.

"(18) The findings described in paragraphs (1) through (17) are contrary to the high rate of literacy and integration of traditional culture and Western education achieved by Native Hawaiians through a Hawaiian language-based public school system established in 1840 by Kamehameha III.

"(19) After the overthrow of the Kingdom of Hawai'i in 1893, Hawaiian medium schools were banned. After annexation, throughout the territorial and statehood period, and until 1986, use of Hawaiian as a medium of education in public schools was declared unlawful, thereby causing incalculable harm to a culture that placed a very high value on the power of language, as exemplified in the traditional saying: 'I ka 'ōlelo no ke ola; I ka 'ōlelo no ka make. In the language rests life; In the language rests death.'

"(20) Despite the consequences of over 100 years of nonindigenous influence, the Native Hawaiian people are determined to preserve, develop, and transmit to future generations their

ancestral territory, and their cultural identity in accordance with their own spiritual and traditional beliefs, customs, practices, language, and social institutions.

"(21) The State of Hawai'i, in the constitution and statutes of the State of Hawai'i—

"(A) reaffirms and protects the unique right of the Native Hawaiian people to practice and perpetuate their culture and religious customs, beliefs, practices, and language; and

"(B) recognizes the traditional language of the Native Hawaiian people as an official language of the State of Hawai'i, which may be used as the language of instruction for all subjects and grades in the public school system.

**"PART C—ALASKA NATIVE EDUCATION****"SEC. 9301. SHORT TITLE.**

"This part may be cited as the 'Alaska Native Educational Equity, Support and Assistance Act'.

**"SEC. 9302. FINDINGS.**

"The Congress finds and declares:

"(1) The attainment of educational success is critical to the betterment of the conditions, long term well being and preservation of the culture of Alaska Natives.

"(2) It is the policy of the Federal Government to encourage the maximum participation by Alaska Natives in the planning and the management of Alaska Native education programs.

"(3) Alaska Native children enter and exit school with serious educational handicaps.

"(4) The educational achievement of Alaska Native children is far below national norms. In addition to low Native performance on standardized tests, Native student drop out rates are high, and Natives are significantly underrepresented among holders of baccalaureate degrees in the State of Alaska. As a result Native students are being denied their opportunity to become full participants in society by grade school and high school educations that are condemning an entire generation to an underclass status and a life of limited choices.

"(5) The programs authorized herein, combined with expanded Head Start, infant learning and early childhood education programs, and parent education programs are essential if educational handicaps are to be overcome.

"(6) The sheer magnitude of the geographic barriers to be overcome in delivering educational

services in rural and village Alaska should be addressed through the development and implementation of innovative, model programs in a variety of areas.

"(7) Congress finds that Native children should be afforded the opportunity to begin their formal education on a par with their non-Native peers. The Federal Government should lend support to efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for all students.

**"SEC. 9303. PURPOSE.**

"It is the purpose of this part to—

"(1) recognize the unique educational needs of Alaska Natives;

"(2) authorize the development of supplemental educational programs to benefit Alaska Natives;

"(3) supplement existing programs and authorities in the area of education to further the purposes of this part; and

"(4) provide direction and guidance to appropriate Federal, State and local agencies to focus resources, including resources made available under this part, on meeting the educational needs of Alaska Natives.

"(a) **FINDINGS.**—The Congress finds and declares that—

"(1) all students can learn to high standards and must develop their talents and realize their potential if the United States is to prosper;

"(2) gifted and talented students are a national resource vital to the future of the Nation and its security and well-being;

"(3) too often schools fail to challenge students to do their best work, and students who are not challenged will not learn to challenge State content standards and challenging State student performance standards, fully develop their talents, and realize their potential;

"(4) unless the special abilities of gifted and talented students are recognized and developed during such students' elementary and secondary school years, much of such students' special potential for contributing to the national interest is likely to be lost;

"(5) gifted and talented students from economically disadvantaged families and areas,

and students of limited-English proficiency are at greatest risk of being unrecognized and of not being provided adequate or appropriate educational services;

"(6) State and local educational agencies and private nonprofit schools often lack the necessary specialized resources to plan and implement effective programs for the early identification of gifted and talented students and for the provision of educational services and programs appropriate to their special needs;

"(7) the Federal Government can best carry out the limited but essential role of stimulating research and development and personnel training and providing a national focal point of information and technical assistance that is necessary to ensure that the Nation's schools are able to meet the special educational needs of gifted and talented students, and thereby serve a profound national interest; and

"(8) the experience and knowledge gained in developing and implementing programs for gifted and talented students can and should be used as a basis to—

"(A) develop a rich and challenging curriculum for all students; and

"(B) provide all students with important and challenging subject matter to study and encourage the habits of hard work.

"(b) **STATEMENT OF PURPOSE.**—It is the purpose of this part—

"(1) to provide financial assistance to State and local educational agencies, institutions of higher education, and other public and private agencies and organizations, to initiate a coordinated program of research, demonstration projects, personnel training, and similar activities designed to build a nationwide capability in elementary and secondary schools to meet the special educational needs of gifted and talented students;

"(2) to encourage the development of rich and challenging curricula for all students through the appropriate application and adaptation of materials and instructional methods developed under this part; and

"(3) to supplement and make more effective the expenditure of State and local funds, for the education of gifted and talented students.

**"SEC. 10203. CONSTRUCTION.**

"Nothing in this part shall be construed to prohibit a recipient of funds under this part from serving gifted and talented students simultaneously with students with similar educational needs, in the same educational settings where appropriate.

"(4) implementing innovative strategies, such as cooperative learning, peer tutoring and service learning;

"(5) strengthening the capability of State educational agencies and institutions of higher education to provide leadership and assistance to local educational agencies and nonprofit private schools in the planning, operation, and improvement of programs for the identification and education of gifted and talented students and the appropriate use of gifted and talented programs and methods to serve all students;

"(6) programs of technical assistance and information dissemination, including how gifted and talented programs and methods, where appropriate, may be adapted for use by all students; and

**"SEC. 10205. PROGRAM PRIORITIES.**

"(a) GENERAL PRIORITY.—In the administration of this part the Secretary shall give highest priority—

**"SEC. 10207. AUTHORIZATION OF APPROPRIATIONS.**

"There are authorized to be appropriated \$10,000,000 for fiscal year 1995 and such sums as

may be necessary for each of the four succeeding fiscal years to carry out the provisions of this part.

**"PART C—PUBLIC CHARTER SCHOOLS**

**"SEC. 10301. FINDINGS AND PURPOSE.**

"(a) FINDINGS.—The Congress finds that—

"(1) enhancement of parent and student choices among public schools can assist in promoting comprehensive educational reform and give more students the opportunity to learn to challenging State content standards and challenging State student performance standards, if sufficiently diverse and high-quality choices, and genuine opportunities to take advantage of such choices, are available to all students;

"(2) useful examples of such choices can come from States and communities that experiment with methods of offering teachers and other educators, parents, and other members of the public the opportunity to design and implement new public schools and to transform existing public schools;

"(3) charter schools are a mechanism for testing a variety of educational approaches and should, therefore, be exempted from restrictive rules and regulations if the leadership of such schools commits to attaining specific and ambitious educational results for educationally disadvantaged students consistent with challenging State content standards and challenging State student performance standards for all students;

"(4) charter schools, as such schools have been implemented in a few States, can embody the necessary mixture of enhanced choice, exemption from restrictive regulations, and a focus on learning gains;

"(5) charter schools, including charter schools that are schools-within-schools, can help reduce school size, which reduction can have a significant effect on student achievement;

"(6) the Federal Government should test, evaluate, and disseminate information on a variety of charter school models in order to help demonstrate the benefits of this promising educational reform; and

"(7) there is a strong documented need for cash flow assistance to charter schools that are starting up, because State and local operating revenue streams are not immediately available.

"(b) PURPOSE.—It is the purpose of this part to increase national understanding of the charter schools model by—

"(1) providing financial assistance for the design and initial implementation of charter schools; and

"(2) evaluating the effects of such schools, including the effects on students, student achievement, staff, and parents.

"(5) School-university and school-cultural institution partnerships that upgrade teacher training in the arts and humanities have significantly contributed to improved instruction and achievement levels of school-aged children.

"(6) Museum outreach, cultural activities and informal education for at-risk children and youth have contributed significantly to the educational achievement and enhanced interest in learning of at-risk children and youth.

**"PART K—NATIONAL WRITING PROJECT**

**"SEC. 10991. FINDINGS.**

"The Congress finds that—

"(1) the United States faces a crisis in writing in schools and in the workplace;

"(2) the writing problem has been magnified by the rapidly changing student populations and the growing number of at-risk students due to limited English proficiency;

"(3) over the past two decades, universities and colleges across the country have reported increasing numbers of entering freshmen who are unable to write at a level equal to the demands of college work;

"(4) American businesses and corporations are concerned about the limited writing skills of entry-level workers, and a growing number of executives are reporting that advancement was denied to them due to inadequate writing abilities;

"(5) the writing problem has been magnified by the rapidly changing student populations in the Nation's schools and the growing number of students who are at risk because of limited English proficiency;

"(6) writing and reading are both fundamental to learning, yet writing has been historically neglected in the schools and colleges, and most teachers in the United States elementary schools, secondary schools, and colleges have not been trained to teach writing;

"(7) since 1973, the only national program to address the writing problem in the Nation's schools has been the National Writing Project, a network of collaborative university-school programs whose goal is to improve the quality of student writing and the teaching of writing at all grade levels and to extend the uses of writing as a learning process through all disciplines;

"(8) the National Writing Project offers summer and school year inservice teacher training programs and a dissemination network to inform and teach teachers of developments in the field of writing;

"(9) the National Writing Project is a nationally recognized and honored nonprofit organization that recognizes that there are teachers in every region of the country who have developed successful methods for teaching writing and that such teachers can be trained and encouraged to train other teachers;

"(10) the National Writing Project has become a model for programs to improve teaching in such other fields as mathematics, science, history, literature, performing arts, and foreign languages;

"(11) the National Writing Project teacher-teaching-teachers program identifies and promotes what is working in the classrooms of the Nation's best teachers;

"(12) the National Writing Project teacher-teaching-teachers project is a positive program that celebrates good teaching practices and good teachers and through its work with schools increases the Nation's corps of successful classroom teachers;

"(13) evaluations of the National Writing Project document the positive impact the project has had on improving the teaching of writing, student performance, and student thinking and learning ability;

"(14) the National Writing Project programs offer career-long education to teachers, and teachers participating in the National Writing Project receive graduate academic credit;

"(15) each year over 100,000 teachers voluntarily seek training in National Writing Project

intensive summer institutes and workshops and school year in-service programs through one of the 154 regional sites located in 45 States, the Commonwealth of Puerto Rico, and in 4 sites that serve United States teachers in United States dependent and independent schools;

"(16) 250 National Writing Project sites are needed to establish regional sites to serve all teachers;

"(17) private foundation resources, although generous in the past, are inadequate to fund all of the National Writing Project sites needed and the future of the program is in jeopardy without secure financial support;

"(18) independent evaluation studies have found the National Writing Project to be highly cost effective compared to other professional development programs for teachers; and

"(19) during 1991, the first year of Federal support for the National Writing Project, the National Writing Project matched the \$1,951,975 in Federal support with \$9,485,504 in matching funds from State, local, and other sources.

**"SEC. 10992. NATIONAL WRITING PROJECT.**

"(a) **AUTHORIZATION.**—The Secretary is authorized to make a grant to the National Writing Project (hereafter in this section referred to as the 'grantee'), a nonprofit educational organization which has as its primary purpose the improvement of the quality of student writing and learning, and the teaching of writing as a learning process in the Nation's classrooms—

"(1) to support and promote the establishment of teacher training programs, including the dissemination of effective practices and research findings regarding the teaching of writing and administrative activities;

"(2) funds made available by the Secretary to the grantee pursuant to any contract entered into under this section will be used to pay the Federal share of the cost of establishing and operating teacher training programs as provided in paragraph (1); and

"(A) conduct classroom research;

"(B) publish models of student writing;

"(C) conduct research regarding effective practices to improve the teaching of writing; and

"(D) conduct other activities to improve the teaching and uses of writing.

"(2) **SUPPLEMENT AND NOT SUPPLANT.**—Grants awarded pursuant to paragraph (1) shall be used to supplement and not supplant State and local funds available for the purposes set forth in paragraph (1).

"(g) **EVALUATION.**—

"(1) **IN GENERAL.**—The Secretary shall conduct an independent evaluation by grant or contract of the teacher training programs administered pursuant to this Act in accordance with section 14701. Such evaluation shall specify the amount of funds expended by the National Writing Project and each contractor receiving assistance under this section for administrative costs. The results of such evaluation shall be made available to the appropriate committees of the Congress.

**"PART I—THE EXTENDED TIME FOR LEARNING AND LONGER SCHOOL YEAR**  
**"SEC. 10993. THE EXTENDED TIME FOR LEARNING AND LONGER SCHOOL YEAR.**

"(a) **FINDINGS.**—The Congress finds that—

"(1) the Commission on Time and Learning has found that—

"(A) realizing the third National Education Goal, that states all students will leave grades four, eight and twelve having demonstrated competency in challenging subject matter, including English, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography, will require considerably more common core learning time than most students now receive;

"(B) ensuring that all students learn to high standards will require flexibility and innovation in the use of common core learning time, as well as the rest of the time students spend both during and beyond the school day;

"(C) teachers need regular, sustained time for lesson development, collegial collaboration and other professional development;

"(D) schools, businesses, community-based organizations, tribal leaders, and other community agencies and members should work together to foster effective learning and enrichment programs and activities for students, including programs that operate outside of the regular school day or year;

"(E) for most students in the United States, the school year is 180 days long. In Japan students go to school 243 days per year, in Germany students go to school 240 days per year, in Austria students go to school 216 days per year, in Denmark students go to school 200 days per year, and in Switzerland students go to school 195 days per year; and

"(F) in the final four years of schooling, students in schools in the United States are required to spend a total of 1,460 hours on core academic subjects, less than half of the 3,528 hours so required in Germany, the 3,280 hours so required in France, and the 3,170 hours so required in Japan;

"(2) increasing the amount and duration of intensive, engaging and challenging learning activities geared to high standards can increase student motivation and achievement;

"(3) the benefits of extending learning time, including common core instructional time, can be maximized by concurrent changes in curriculum and instruction, such as accelerated learning, and engaging, interactive instruction based on challenging content;

"(4) maximizing the benefit of increased common core and other learning time will require the collaboration and cooperation of teachers and administrators, students, parents, community members and organizations, businesses and others to develop strategies to meet the needs of students during and beyond the school day and year;

"(5) a competitive world economy requires that students in the United States receive education and training that is at least as rigorous

and high-quality as the education and training received by students in competitor countries;

"(6) despite our Nation's transformation from a farm-based economy to one based on manufacturing and services, the school year is still based on the summer needs of an agrarian economy;

"(7) American students' lack of formal schooling is not counterbalanced with more homework. The opposite is true, as half of all European students report spending at least two hours on homework per day, compared to only 29 percent of American students. Twenty-two percent of American students watch five or more hours of television per day, while less than eight percent of European students watch that much television;

"(8) more than half of teachers surveyed in the United States cite 'children who are left on their own after school' as a major problem;

"(9) over the summer months, disadvantaged students not only fail to advance academically, but many forget much of what such students had learned during the previous school year;

"(10) funding constraints as well as the strong pull of tradition have made extending the school year difficult for most States and school districts; and

"(11) experiments with extended and multi-track school years have been associated with both increased learning and more efficient use of school facilities.

"(b) PURPOSES.—It is the purpose of this part to—

"(1) provide seed money to schools and local educational agencies to enable such agencies to devise and implement strategies and methods for upgrading the quality of, and extending, challenging, engaging learning time geared to high standards for all students; and

"(2) allow the Secretary to provide financial incentives and assistance to States or local educational agencies to enable such States or agencies to substantially increase the amount of time that students spend participating in quality academic programs, and to promote flexibility in school scheduling.

"(c) PROGRAM AUTHORIZED.—

"(1) IN GENERAL.—The Secretary is authorized to award grants to local educational agencies having applications approved under subsection (d) to enable such agencies to carry out the authorized activities described in subsection (e) in public elementary and secondary schools.

"(2) AMOUNT.—The Secretary shall, to the extent practicable, provide an equitable distribution of grants under this section.

"(3) DURATION.—Each grant under subsection (a) shall be awarded for a period of not more than three years.

"(4) PRIORITY.—The Secretary shall give priority to awarding grants under this part to local educational agencies that serve schools with high percentages of students in poverty.

"(d) APPLICATION.—Each local educational agency desiring a grant under this section shall submit an application to the Secretary at such time, in such manner, and accompanied by such information as the Secretary may require. Each such application shall describe—

"(1) the activities for which assistance is sought;

"(2) any study or other information-gathering project for which funds will be used;

"(3) strategies and methods the applicant will use to enrich and extend learning time for all students and to maximize the percentage of common core learning time in the school day, such as block scheduling, team teaching, longer school days or years, and extending learning time through new distance-learning technologies;

"(4) the strategies and methods the applicant will use, including changes in curriculum and instruction, to challenge and engage students

and to maximize the productiveness of common core learning time, as well as the total time students spend in school and in school-related enrichment activities;

"(5) the strategies and methods the applicant intends to employ to provide continuing financial support for the implementation of any extended school day or school year;

"(6) with respect to any application seeking assistance for activities described under subsection (e)(4), a description of any feasibility or other studies demonstrating the sustainability of a longer school year;

"(7) the extent of involvement of teachers and other school personnel in investigating, designing, implementing and sustaining the activities assisted under this part;

"(8) the process to be used for involving parents and other stakeholders in the development and implementation of the activities assisted under this part;

"(9) any cooperation or collaboration among public housing authorities, libraries, businesses, museums, community-based organizations, and other community groups and organizations to extend engaging, high-quality, standards-based learning time outside of the school day or year, at the school or at some other site;

"(10) the training and professional development activities that will be offered to teachers and others involved in the activities assisted under this part;

"(11) the goals and objectives of the activities assisted under this part, including a description of how such activities will assist all students to reach State standards;

"(12) the methods by which the applicant will assess progress in meeting such goals and objectives; and

"(13) how the applicant will use funds provided under this part in coordination with other funds provided under this Act or other Federal laws.

"(e) AUTHORIZED ACTIVITIES.—Funds under this section may be used—

"(1) to study the feasibility of, and effective methods for, extending learning time within or beyond the school day or year, including consultation with other schools or local educational agencies that have designed or implemented extended learning time programs;

"(2) to conduct outreach to and consult with community members, including parents, students, and other stakeholders, such as tribal leaders, to develop a plan to extend learning time within or beyond the school day or year;

"(3) to develop and implement an outreach strategy that will encourage collaboration with public housing authorities, libraries, businesses, museums, community-based organizations, and other community groups and organizations to coordinate challenging, high-quality educational activities outside of the school day or year;

"(4) to support public school improvement efforts that include expansion of time devoted to core academic subjects and the extension of the school year to 210 days;

"(5) to research, develop and implement strategies, including changes in curriculum and instruction, for maximizing the quality and percentage of common core learning time in the school day and extending learning time during or beyond the school day or year;

"(6) to provide professional development for school staff in innovative teaching methods that challenge and engage students, and also increase the productivity of extended learning time; and

"(7) to develop strategies to include parents, business representatives, and other community members in the extended time activities, especially as facilitators of activities that enable teachers to have more time for planning, indi-

vidual student assistance, and professional development activities.

"(f) DEFINITIONS.—For the purpose of this section the term 'common core learning time' means high-quality, engaging instruction in challenging content in each of the following core academic subjects described in the third National Education Goal:

"(1) English.

"(2) Mathematics.

"(3) Science.

"(4) Foreign languages.

"(5) Civics and government.

"(6) Economics.

"(7) Arts.

"(8) History.

"(9) Geography.

"(g) ADMINISTRATION.—

"(1) PEER REVIEW.—The Secretary shall award grants under this section pursuant to a peer review process.

"(2) DIVERSITY.—In awarding grants under this section the Secretary shall ensure that such grants are awarded to a diversity of local educational agencies, including such agencies that serve rural and urban areas.

"(h) APPROPRIATIONS AUTHORIZATION.—

"(1) IN GENERAL.—For the purpose of carrying out this section there are authorized to be appropriated \$90,000,000 for fiscal year 1995 and such sums as may be necessary for each of the four succeeding fiscal years.

"(2) LIMITATION.—Not less than 80 percent of any amount appropriated under paragraph (1) shall be made available to applicants seeking to extend their school year to not fewer than 210 days.

#### "PART M—TERRITORIAL ASSISTANCE

##### "SEC. 10995. GENERAL ASSISTANCE FOR THE VIRGIN ISLANDS.

"There are authorized to be appropriated \$5,000,000 for fiscal year 1995 and for each of the 4 succeeding fiscal years, for the purpose of providing general assistance to improve public education in the Virgin Islands.

#### "TITLE XI—COORDINATED SERVICES

##### "SEC. 11001. FINDINGS AND PURPOSE.

"(a) FINDINGS.—The Congress finds the following:

"(1) Growing numbers of children are negatively affected by influences outside of the classroom which increase such children's risk of academic failure.

"(2) Factors such as poor nutrition, unsafe living conditions, physical and sexual abuse, family and gang violence, inadequate health care, unemployment, lack of child care, and substance abuse, adversely affect family relationships and the ability of a child to learn.

"(3) Parents and other caregivers in today's high pressure society often face demands which place restraints on such parents' and caregivers' time and affect such parents' and caregivers' ability to adequately provide for the needs of the families of such parents and caregivers.

"(4) Access to health and social service programs can address the basic physical and emotional needs of children so that children can fully participate in the learning experiences offered children in school.

"(5) Services for at-risk students need to be more convenient, and less fragmented, regulated and duplicative, in order to meet the needs of children and their families.

"(6) School personnel, parents, and support service providers often lack knowledge of, and access to, available services for at-risk students and their families in the community, and have few resources to coordinate services and make services accessible.

"(7) Service providers, such as teachers, social workers, health care and child care providers, juvenile justice workers and others, are often

trained in separate disciplines that provide little support for the coordination of services.

"(8) Coordination of services is more cost effective because such coordination substitutes prevention for expensive crisis intervention.

"(9) Coordinating health and social services with education can help the Nation meet the National Education Goals by ensuring better outcomes for children.

"(b) PURPOSE OF COORDINATING SERVICES.—The purpose of this title is to provide elementary and secondary school students and their families better access to the social, health and education services necessary for students to succeed in school and for their families to take an active role in ensuring that such students receive the best possible education.

**"SEC. 11002. DEFINITIONS.**

"For the purpose of this title—

"(1) the term 'coordinated services project' means a comprehensive approach to meeting the educational, health, social service, and other needs of children and their families, including foster children and their foster families, through a communitywide partnership that links public and private agencies providing such services or access to such services through a coordination site at or near a school; and

"(b) PROJECT DEVELOPMENT PLAN.—The application for the development of the coordinated services project under this title shall cover a period of not more than 1 year and shall include a plan that—

"(1) demonstrates that an assessment will be performed of the economic, social, and health barriers to educational achievement experienced by children and families, including foster children and their foster families, in the community, and the local, State, Federal, and privately funded services available to meet such needs;

"(2) identifies the measures that will be taken to establish a communitywide partnership that links public and private agencies providing services to children and families; and

"(3) identifies any other measures that will be taken to develop a comprehensive plan for the implementation or expansion of a coordinated services project.

"(c) PROJECT IMPLEMENTATION OR EXPANSION PLAN.—The application for the implementation or expansion of a coordinated services project under this title shall contain a plan that includes—

"(1) the results of a children and families needs assessment, which shall include an assessment of the needs of foster children;

"(2) a description of the entities operating the coordinated services project;

"(3) a description of the proposed coordinated services project, the objectives of such project, where such project will be located, and the staff that will be used to carry out such project;

"(4) a description of how the success of the coordinated services project will be evaluated;

"(5) a description of the training to be provided to teachers and appropriate personnel;

"(6) information regarding whether a sliding scale fee for services will be employed, and if not, an explanation of why such scale is not feasible; and

"(7) when applicable, strategies to ensure that the health and welfare needs of migratory families are addressed.

**"SEC. 11005. USES OF FUNDS.**

"(a) USES.—

"(1) IN GENERAL.—Funds made available under section 14206(b) may be used for planning for, or the implementation or expansion of, activities which include—

"(A) hiring a services coordinator;

"(B) making minor renovations to existing buildings;

"(C) purchasing basic operating equipment;

"(D) improving communications and information-sharing among entities participating in the coordinated services project;

"(E) providing training to teachers and appropriate personnel concerning such teacher's and personnel's role in a coordinated services project; or

"(F) conducting the needs assessment required in section 11004(b)(1).

"(2) PROHIBITION.—Funds made available under section 14206(b) shall not be used for the direct provision of any health or health-related services.

"(b) FEDERAL FUNDS TO SUPPLEMENT, NOT SUPPLANT, NON-FEDERAL FUNDS.—An eligible entity shall use funds received under this title only to supplement the amount of funds that would, in the absence of such Federal funds, be made available from non-Federal sources for coordinated services, and not to supplant such funds.

**"SEC. 11006. CONTINUING AUTHORITY.**

"The Secretary shall prohibit an eligible entity from using funds made available under section 14206(b) if the Secretary determines that the coordinated services project assisted under this title is not achieving effective coordination after two years of implementation of such project.

**"SEC. 11007. FEDERAL AGENCY COORDINATION.**

"(a) AGENCY COORDINATION.—The Secretaries of Education, Health and Human Services, Labor, Housing and Urban Development, Treasury, and Agriculture, and the Attorney General shall review the programs administered by their agencies to identify barriers to service coordination.

"(b) REPORT TO CONGRESS.—Such Secretaries and the Attorney General shall submit jointly a report to the Congress not later than two years after the date of the enactment of the Improving America's Schools Act of 1994, based on the review required under subsection (a) recommending legislative and regulatory action to address such barriers, and during the time preceding the submission of such report, shall use waiver authorities authorized under this and other Acts to address such barriers.

**"TITLE XII—SCHOOL FACILITIES INFRASTRUCTURE IMPROVEMENT ACT**

**"SEC. 12001. SHORT TITLE.**

"This title may be cited as the 'Education Infrastructure Act of 1994'.

**"SEC. 12002. FINDINGS.**

"The Congress finds the following:

"(1) According to a 1991 survey conducted by the American Association of School Administrators, 74 percent of all public school buildings in the United States need to be replaced.

"(2) Almost one-third of such buildings were built prior to World War II.

"(3) It is estimated that one of every four public school buildings in the United States is in inadequate condition, and of such buildings, 61 percent need maintenance or major repairs, 43 percent are obsolete, 42 percent contain environmental hazards, 25 percent are overcrowded, and 13 percent are structurally unsound.

"(4) Large numbers of local educational agencies have difficulties securing financing for school facility improvement, including school libraries, media centers, and facilities.

"(5) Improving the quality of public elementary and secondary schools will help our Nation meet the National Education Goals.

"(6) The challenges facing our Nation's public elementary and secondary schools require the concerted and collaborative efforts of all levels of government and all sectors of the community.

###### "(a) FINDINGS.—The Congress finds that—

"(1) in order to increase our Nation's standard of living and to increase the number of good jobs, the United States must increase its productivity and ability to compete in the international marketplace by improving the educational level of our workforce;

"(2) although efforts are being made to establish higher educational standards and goals, there is a substantial shortage of resources to meet such standards and goals;

"(3) States and local communities are finding it increasingly difficult to meet ever higher educational standards and goals, and States will not be able to fund needed changes without Federal help to reach such standards and goals;

"(4) the Federal Government has established many educational programs but failed to provide adequate funding for such programs, for example one such program provides education to our Nation's disabled students and was established with a promise of 40 percent Federal funding but currently receives only eight percent Federal funding;

"(5) the annual shortfall in Federal education programs is approximately half of the promised funding;

"(6) many needed educational improvements will not need Federal funds, however, other suggested changes such as lengthened school years, better pay, after-school activities, mentoring for students at risk, programs for gifted students, and replacing substandard buildings, will require substantial Federal assistance; and

"(7) the Federal contribution to education is less than two percent of the total Federal budget, and in order to make education a national priority, the total percentage of Federal educational funding should be increased by one

percent each year over the next eight years to reach 10 percent of the total Federal budget.

"(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that the total share of the Federal spending on education should increase by at least one percent each year until such share reaches 10 percent of the total Federal budget.

**"SEC. 14802. SENSE OF CONGRESS; REQUIREMENT REGARDING NOTICE.**

"(a) PURCHASE OF AMERICAN-MADE EQUIPMENT AND PRODUCTS.—In the case of any equipment or products that may be authorized to be purchased with financial assistance provided under this Act, it is the sense of the Congress that entities receiving such assistance should, in expending the assistance, purchase only American-made equipment and products.

"(b) NOTICE TO RECIPIENTS OF ASSISTANCE.—In providing financial assistance under this Act, the head of each Federal agency shall provide to each recipient of the assistance a notice describing the statement made in subsection (a) by the Congress."

###### "SEC. 701. SHORT TITLE.

"This part may be cited as the 'Families of Children With Disabilities Support Act of 1994'.

###### "SEC. 702. FINDINGS, PURPOSES, AND POLICY.

"(a) FINDINGS.—The Congress makes the following findings:

"(1) It is in the best interest of our Nation to preserve, strengthen, and maintain the family.

"(2) Families are the greatest natural resource available to their children and are the major providers of support, care, and training of their children.

"(3) Families of children with disabilities enrich the lives of all citizens through the contributions of such families to the economic, health, and social fabric of their community, State, and Nation.

"(4) A growing number of families are searching for ways to empower themselves to raise their children with disabilities at home and in their communities. Supporting such families to enable them to care for their children with disabilities at home is efficient and can be cost-effective.

"(5) Children, including children with disabilities, benefit from enduring family relationships in a nurturing home environment.

"(6) Many families experience exceptionally high financial outlays and significant physical and emotional challenges in meeting the special needs of their children with disabilities.

"(7) There are financial disincentives for families to care for their children with disabilities at home.

"(8) Most families of children with disabilities do not have access to family-centered and family-directed services to support such families in their efforts to care for their children with disabilities at home.

"(9) There is a need in each State for a comprehensive, coordinated, interagency system of family support for families of children with disabilities that is family-centered and family-directed, is easily accessible, avoids duplication, uses existing resources more efficiently, and prevents gaps in services to families in all areas of the State.

"(10) The goals of the Nation properly include the goal of providing families of children with disabilities the family support necessary to accomplish the following:

"(A) To support the family.

"(B) To enable families of children with disabilities to nurture and enjoy their children at home.

"(C) To enable families of children with disabilities to make informed choices and decisions regarding the nature of services, supports, and resources made available to such families.

"(b) PURPOSES.—The purposes of this part are as follows:

"(1) To provide financial assistance to the States to support systems change activities designed to assist each State to develop and implement, or expand and enhance, a family-centered

and family-directed, culturally competent, community-centered, comprehensive, statewide system of family support for families of children with disabilities that is designed to—

“(A) ensure the full participation, choice and control of families of children with disabilities in decisions related to the provision of such family support for their family;

“(B) ensure the active involvement of families of children with disabilities in the planning, development, implementation, and evaluation of such a statewide system;

“(C) increase the availability of, funding for, access to, and provision of family support for families of children with disabilities;

“(D) promote training activities that are family-centered and family-directed and that enhance the ability of family members of children with disabilities to increase participation, choice, and control in the provision of family support for families of children with disabilities;

“(E) increase and promote interagency coordination among State agencies, and between State agencies and private entities that are involved in carrying out activities under section 708; and

“(F) increase the awareness of laws, regulations, policies, practices, procedures, and organizational structures, which facilitate or impede the availability or provision of family support for families of children with disabilities.

“(2) To enhance the ability of the Federal Government to—

“(A) identify Federal policies that facilitate or impede family support for families of children with disabilities, and that are consistent with the principles in subsection (c);

“(B) provide States with technical assistance and information relating to the provision of family support for families of children with disabilities;

“(C) conduct an evaluation of the program of grants to States; and

“(2) Families of children with disabilities should be supported in determining their needs and in making decisions concerning necessary, desirable, and appropriate services.

“(3) Families should play decisionmaking roles in policies and programs that affect the lives of such families.

“(4) Family needs change over time and family support for families of children with disabilities must offer options that are flexible and responsive to the unique needs and strengths and cultural values of individual families.

“(5) Family support for families of children with disabilities is proactive and not solely in response to a crisis.

“(6) Families must be supported in their efforts to promote the integration and inclusion of their children with disabilities into all aspects of community life.

“(7) Family support for families of children with disabilities should promote the use of existing social networks, strengthen natural sources of support, and help build connections to existing community resources and services.

“(8) Youth with disabilities should be involved in decisionmaking about their own lives, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of each such youth.

“(9) Services and supports must be provided in a manner that demonstrates respect for individ-

ual dignity, personal responsibility, self-determination, personal preferences, and cultural differences of families.

##### "SEC. 1091. GRANTS TO STATES FOR WORKPLACE AND COMMUNITY TRANSITION TRAINING FOR INCARCERATED YOUTH OFFENDERS.

"(a) FINDINGS.—The Congress finds the following:

"(1) Over 150,000 youth offenders age 21 and younger are incarcerated in the Nation's jails, juvenile facilities, and prisons.

"(2) Most youth offenders who are incarcerated have been sentenced as first-time adult felons.

"(3) Approximately 75 percent of youth offenders are high school dropouts who lack basic literacy and life skills, have little or no job experience, and lack marketable skills.

"(4) The average incarcerated youth has attended school only through grade 10.

"(5) Most of these youths can be diverted from a life of crime into productive citizenship with available educational, vocational, work skills, and related service programs.

"(6) If not involved with educational programs while incarcerated, almost all of these youths will return to a life of crime upon release.

"(7) The average length of sentence for a youth offender is about 3 years. Time spent in prison provides a unique opportunity for education and training.

"(8) Even with quality education and training provided during incarceration, a period of intense supervision, support, and counseling is needed upon release to ensure effective reintegration of youth offenders into society.

"(9) Research consistently shows that the vast majority of incarcerated youths will not return to the public schools to complete their education.

"(10) There is a need for alternative educational opportunities during incarceration and after release.

"(b) DEFINITION.—For purposes of this part, the term 'youth offender' means a male or female offender under the age of 25, who is incarcerated in a State prison, including a prerelease facility.

"(c) GRANT PROGRAM.—The Secretary shall establish a program in accordance with this section to provide grants to the State correctional education agencies to assist and encourage incarcerated youths to acquire functional literacy, life, and job skills, through the pursuit of a postsecondary education certificate, or an associate of arts or bachelor's degree while in prison, and employment counseling and other related services which start during incarceration and continue through prerelease and while on parole.

"(d) APPLICATION.—To be eligible for a grant under this section, a State correctional education agency shall submit to the Secretary a proposal for a youth offender program that—

"(1) identifies the scope of the problem, including the number of incarcerated youths in need of postsecondary education and vocational training;

"(2) lists the accredited public or private educational institution or institutions that will provide postsecondary educational services;

"(3) lists the cooperating agencies, public and private, or businesses that will provide related services, such as counseling in the areas of career development, substance abuse, health, and parenting skills;

"(4) describes the evaluation methods and performance measures that the State correctional education agency will employ, provided that such methods and measures are appropriate to meet the goals and objectives of the proposal, and that such methods and measures include measures of—

"(A) program completion;

"(B) student academic and vocational skill attainment;

"(C) success in job placement and retention; and

"(D) recidivism;

"(5) describes how the proposed programs are to be integrated with existing State correctional

education programs (such as adult education, graduate education degree programs, and vocational training) and State industry programs;

"(6) addresses the educational needs of youth offenders who are in alternative programs (such as boot camps); and

"(7) describes how students will be selected so that only youth offenders eligible under subsection (f) will be enrolled in postsecondary programs.

"(e) PROGRAM REQUIREMENTS.—Each State correctional education agency receiving a grant under this section shall—

"(1) integrate activities carried out under the grant with the objectives and activities of the school-to-work programs of such State, including—

"(A) work experience or apprenticeship programs;

"(B) transitional worksite job training for vocational education students that is related to the occupational goals of such students and closely linked to classroom and laboratory instruction;

"(C) placement services in occupations that the students are preparing to enter;

"(D) employment-based learning programs; and

"(E) programs that address State and local labor shortages;

"(2) annually report to the Secretary and the Attorney General on the results of the evaluations conducted using the methods and performance measures contained in the proposal; and

"(3) provide to each State for each student eligible under subsection (f) not more than \$1,500 annually for tuition, books, and essential materials, and not more than \$300 annually for related services such as career development, substance abuse counseling, parenting skills training, and health education, for each eligible incarcerated youth.

"(f) STUDENT ELIGIBILITY.—A youth offender shall be eligible for participation in a program receiving a grant under this section if the youth offender—

"(1) is eligible to be released within five years (including a youth offender who is eligible for parole within such time); and

"(2) is 25 years of age or younger.

"(g) LENGTH OF PARTICIPATION.—A State correctional education agency receiving a grant under this section shall provide educational and related services to each participating youth offender for a period not to exceed 5 years, 1 year of which may be devoted to study in a graduate education degree program or to remedial education services for students who have obtained a secondary school diploma. Educational and related services shall start during the period of incarceration in prison or prerelease and may continue during the period of parole.

"(h) EDUCATION DELIVERY SYSTEMS.—State correctional education agencies and cooperating institutions shall, to the extent practicable, use high-tech applications in developing programs to meet the requirements and goals of this section.

"(i) ALLOCATION OF FUNDS.—From the amounts appropriated pursuant to subsection (j), the Secretary shall allot to each State an amount that bears the same relationship to such funds as the total number of students eligible under subsection (f) in such State bears to the total number of such students in all States.

"(a)(1) The purpose of the standards developed under this section shall be to afford Indian students being served by a Bureau funded school with the same opportunities as all other students to achieve the National Education Goals embodied in the Goals 2000: Educate America Act. Consistent with the provisions of this section and section 1131, the Secretary shall take such actions as are necessary to coordinate standards developed and implemented under this section with those in the State improvement plans developed and implemented pursuant to the Goals 2000: Educate America Act for the States in which each Bureau funded school operates. In developing and reviewing such standards and coordination, the Secretary shall utilize the findings and recommendations of the panel established in section 315(b)(4) of such Act.

"(2) The Secretary shall take immediate steps to encourage school boards of Bureau funded schools to engage their communities in adopting declarations of purposes of education in their communities, analyzing the implications of such purposes for their schools, and determining how such purposes may be made to motivate students and faculties and otherwise animate their schools by May 1, 1995. Such declarations shall represent the aspirations of a community for the kinds of persons such community wants its children to increasingly become, and shall include such purposes as assuring that all learners are

becoming accomplished in ways important to themselves and respected by their parents and communities, shaping worthwhile and satisfying lives for themselves, exemplifying the best values of the community and humankind, and becoming increasingly effective in shaping the character and quality of the world all learners share.

"(b) Within 18 months of the publication of the voluntary national content standards described in section 213(a) of the Goals 2000: Educate America Act, the Secretary, in consultation with the Secretary of Education and Indian organizations and tribes, shall carry out or cause to be carried out by contract with an Indian organization such studies and surveys, making the fullest use possible of other existing studies, surveys, and plans, as are necessary to establish and revise standards for the basic education of Indian children attending Bureau funded schools. Such studies and surveys shall take into account factors such as academic needs, local cultural differences, type and level of language skills, geographic isolation, and appropriate teacher-student ratios for such children, and shall be directed toward the attainment of equal educational opportunity for such children.

"(c)(1) The Secretary shall revise the minimum academic standards published in the Federal Register of September 9, 1985 (50 Fed. Reg. 174) for the basic education of Indian children in accordance with the purpose described in subsection (a) and the findings of the studies and surveys described in subsection (b), and shall publish such revised standards in the Federal Register for the purpose of receiving comments from the tribes and other interested parties. Within 21 months of the date of enactment of the Improving America's Schools Act of 1994, the Secretary shall establish final standards, distribute such standards to all the tribes and publish such final standards in the Federal Register. The Secretary shall revise such final standards periodically as necessary. Prior to any revision of such final standards, the Secretary shall distribute such proposed revision to all the tribes, and publish such proposed revision in the Federal Register, for the purpose of receiving comments from the tribes and other interested parties.

"(2) The standards described in paragraph (1) shall apply to Bureau schools, and subject to subsection (f), to contract or grant schools, and may also serve as a model for educational programs for Indian children in public schools. In establishing and revising such standards, the Secretary shall take into account the special needs of Indian students and the support and reinforcement of the specific cultural heritage of each tribe.

"(d) The Secretary shall provide alternative or modified standards in lieu of the standards established under subsection (c), where necessary, so that the programs of each school shall be in compliance with the minimum standards required for accreditation of schools in the State where the school is located.

"(e) A tribal governing body, or the local school board so designated by the tribal governing body, shall have the local authority to waive, in part or in whole, the standards established under subsection (c) and (d), where such standards are deemed by such body to be inappropriate. The tribal governing body or designated school board shall, within 60 days thereafter, submit to the Secretary a proposal for alternative standards that take into account the specific needs of the tribe's children. Such revised standards shall be established by the Secretary unless specifically rejected by the Secretary for good cause and in writing to the affected tribes or local school board, which rejection shall be final and unreviewable.

"(f)(1) The Secretary, through contracting and grant-making procedures, shall assist school boards of contract or grant schools in the implementation of the standards established under subsections (c) and (d), if the school boards request that such standards, in part or in whole, be implemented. At the request of a contract or grant school board, the Secretary shall provide alternative or modified standards for the standards established under subsections (c) and (d) to take into account the needs of the Indian children and the contract or grant school.

"(2) Within 1 year of the date of the enactment of the Indian Education Technical Amendments Act of 1985, the Bureau shall, either directly or through contract with an Indian organization, establish a consistent system of reporting standards for fiscal control and fund accounting for all contract or grant schools. Such standards shall yield data results comparable to those used by Bureau schools.

"(g) Subject to subsections (e) and (f), the Secretary shall begin to implement the standards established under this section immediately upon the date of their establishment. Not later than January 1, 1995, and at each time thereafter that the annual budget request for Bureau educational services is presented, the Secretary shall submit to the appropriate committees of Congress a detailed plan to bring all Bureau schools and contract or grant schools up to the level required by the applicable standards established under this section. Such plan shall include detailed information on the status of each school's educational program in relation to the applicable standards established under this section, specific cost estimates for meeting such standards at each school, and specific time lines for bringing each school up to the level required by such standards.

"(h)(1) Except as specifically required by statute, no school or peripheral dormitory operated by the Bureau on or after January 1, 1992, may be closed or consolidated or have its program substantially curtailed unless done according to the requirements of this subsection, except that, in those cases where the tribal governing body, or the local school board concerned (if so designated by the tribal governing body), requests closure or consolidation, the requirements of this subsection shall not apply. The requirements of this subsection shall not apply when a temporary closure, consolidation, or substantial curtailment is required by plant conditions which constitute an immediate hazard to health and safety.

"(2) The Secretary shall, by regulation, promulgate standards and procedures for the closing, consolidation, or substantial curtailment of Bureau schools in accordance with the requirements of this subsection.

"(3) Whenever closure, transfer to any other authority, consolidation, or substantial curtailment of a school is under active consideration or review by any division of the Bureau or the Department of the Interior, the affected tribe, tribal governing body, and designated local school board, will be notified as soon as such consideration or review begins, kept fully and currently informed, and afforded an opportunity to comment with respect to such consideration or review. When a formal decision is made to close, transfer to any other authority, consolidate, or substantially curtail a school, the affected tribe, tribal governing body, and designated local school board shall be notified at least 6 months prior to the end of the school year preceding the proposed closure date. Copies of any such notices and information shall be transmitted promptly to the Congress and published in the Federal Register.

"(4) The Secretary shall make a report to Congress, the affected tribe, and the designated

local school board describing the process of the active consideration or review referred to in paragraph (3). At a minimum, the report shall include a study of the impact of such action on the student population, with every effort to identify those students with particular educational and social needs, and to ensure that alternative services are available to such students. Such report shall include the description of the consultation conducted between the potential service provider, current service provider, parents, tribal representative and the tribe or tribes involved, and the Director of the Office of Indian Education Programs within the Bureau regarding such students. No irreversible action may be taken in furtherance of any such proposed school closure, transfer to any other authority, consolidation, or substantial curtailment (including any action which would prejudice the personnel or programs of such school) until the end of the first full academic year after such report is made.

"(5) The Secretary may terminate, contract, transfer to any other authority, or consolidate or substantially curtail the operation or facilities of—

"(A) any Bureau funded school that is operated on or after April 1, 1987,

"(B) any program of such a school that is operated on or after April 1, 1987, or

"(j)(1) All Bureau funded schools shall include within their curriculum a program of instruction relating to alcohol and substance abuse prevention and treatment. The Assistant Secretary shall provide the technical assistance necessary to develop and implement such a program for students in kindergarten and grades 1 through 12, at the request of—

"(A) any Bureau school (subject to the approval of the school board of such school);

"(B) any school board of a school operating under a contract entered into under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.); or

"(C) any school board of a school operating under a grant under the Tribally Controlled Schools Act of 1988.

"(2) In schools operated directly by the Bureau, the Secretary shall provide for—

"(A) accurate reporting of all incidents relating to alcohol and substance abuse; and

"(3) The programs requested under paragraph (1) shall be developed in consultation with the Indian tribe that is to be served by such program and health personnel in the local community of such tribe.

"(4) Schools requesting program assistance under this subsection are encouraged to involve family units and, where appropriate, tribal elders and Native healers in such instructions.

"(k) For purposes of this section, the term 'tribal governing body' means, with respect to any school, the tribal governing body, or tribal governing bodies, that represent at least 90 percent of the students served by such school.

"(l)(1)(A)(i) The Secretary shall only consider the factors described in subparagraphs (B) and (C) in reviewing—

"(I) applications from any tribe for the awarding of a contract or grant for a school that is not a Bureau funded school; and

"(II) applications from any tribe or school board of any Bureau funded school for—

"(i) The adequacy of facilities or the potential to obtain or provide adequate facilities.

"(ii) Geographic and demographic factors in the affected areas.

"(iii) Consistency of available programs with tribal educational codes or tribal legislation on education.

"(iv) The history and success of these services for the proposed population to be served, as determined from all factors and not just standardized examination performance.

"(2)(A) The Secretary shall make a determination of whether to approve any application described in paragraph (1)(A) by not later than the date that is 180 days after the day on which such application is submitted to the Secretary.

"(B) If the Secretary fails to make the determination described in subparagraph (A) with respect to an application by the date described in subparagraph (A), the application shall be treated as having been approved by the Secretary.

"(3)(A) Any application described in paragraph (1)(A) may be submitted to the Secretary only if—

"(B) Each application described in paragraph (1)(A)—

"(i) shall provide information concerning each of the factors described in paragraph (1)(B), and

"(ii) may provide information concerning the factors described in paragraph (1)(C).

"(4) Whenever the Secretary makes a determination to deny approval of any application described in paragraph (1)(A), the Secretary shall—

Any tribe may petition the Secretary for revision of existing attendance area boundaries. Such inspection shall be completed by not later than the date that is 30 days after the date on which the action described in paragraph (1) is taken.

"(ii) The inspection required under clause (i) shall be conducted by a health and safety officer designated jointly by the Secretary and the

tribes affected by the action described in paragraph (1). If the Secretary and such tribes are unable to agree on the designation of the health and safety officer, the Secretary shall designate the health and safety officer and shall provide notice of such designation to each of such tribes before the inspection is conducted by such officer.

"(iii) If the health and safety officer conducting an inspection of a plant required under clause (i) determines that conditions at the plant do not constitute an immediate hazard to health and safety, any consolidation or curtailment that was made by reason of conditions at the plant shall immediately cease and any school closed by reason of conditions at the plant shall be reopened immediately.

"(3) If—

"(A) a Bureau school is temporarily closed or consolidated, or the programs of a Bureau school are substantially curtailed, by reason of plant conditions that constitute an immediate hazard to health and safety, and

"(B) the Secretary estimates that the closure, consolidation, or curtailment will be more than 1 year in duration,

the Secretary shall submit to the Congress, by not later than the date that is 6 months after the date on which the closure, consolidation, or curtailment is initiated, a report which sets forth the reasons for such temporary actions and the actions the Secretary is taking to eliminate the conditions that constitute the hazard.

"(e) There are authorized to be appropriated such sums as may be necessary to carry out subsection (a).

**"SEC. 1126. BUREAU OF INDIAN AFFAIRS EDUCATION FUNCTIONS.**

"(a) The Secretary shall vest in the Assistant Secretary for Indian Affairs all functions with respect to formulation and establishment of policy and procedure, and supervision of programs and expenditures of Federal funds for the purpose of Indian education administered by the Bureau. The Assistant Secretary shall carry out such functions through the Director of the Office of Indian Education.

"(b) The Director of the Office shall direct and supervise the operations of all personnel directly and substantially involved with provision of education services by the Bureau, including school or institution custodial or maintenance personnel. The Assistant Secretary for Indian Affairs shall provide for the adequate coordination between the affected Bureau Offices and the Office to facilitate the consideration of all contract functions relating to education. Except as required by section 1129, nothing in this Act shall be construed to require the provision of separate support services for Indian education.

"(c) Education personnel who are under the direction and supervision of the Director of the Office in accordance with the first sentence of subsection (b) shall—

"(1) monitor and evaluate Bureau education programs,

"(2) provide all services and support functions for education programs with respect to personnel matters involving staffing actions and functions, and

"(3) provide technical and coordinating assistance in areas such as procurement, contracting, budgeting, personnel, and curriculum.

"(d)(1) The Assistant Secretary shall submit in the annual Budget a plan—

"(A) for school facilities to be constructed under the system required by section 1125(c);

"(B) for establishing priorities among projects and for the improvement and repair of education facilities, which together shall form the basis for the distribution of appropriated funds; and

"(C) including a 5-year plan for capital improvements.

"(2)(A) The Assistant Secretary shall establish a program, including the distribution of appropriated funds, for the operation and maintenance of education facilities. Such program shall include—

"(i) a method of computing the amount necessary for each education facility;

"(ii) similar treatment of all Bureau funded schools;

"(iii) a notice of an allocation of appropriated funds from the Director of the Office directly to the appropriate education line officers; and

"(iv) a system for the conduct of routine preventive maintenance.

"(B) The appropriate education line officers shall make arrangements for the maintenance of education facilities with the local supervisors of the Bureau maintenance personnel who are under the authority of the agency superintendent or area directors, respectively. The local supervisors of Bureau maintenance personnel shall take appropriate action to implement the decisions made by the appropriate education line officers, except that no funds under this part may be authorized for expenditure unless such appropriate education line officer is assured that the necessary maintenance has been, or will be, provided in a reasonable manner. Subject to the requirements of subsection (b) of this section, nothing in this Act shall be construed to require the provision of separate operations and maintenance personnel for the Office.

"(3) The requirements of this subsection shall be implemented not later than July 1, 1995.

"(e) Notwithstanding any other provision of law, the Director shall promulgate guidelines for the establishment of mechanisms for the acceptance of gifts and bequests for the use of, and benefit of, particular schools or designated Bureau operated education programs, including, where appropriate, the establishment and administration of trust funds. When a Bureau operated program is the beneficiary of such a gift or bequest, the Director shall make provisions for monitoring its use, and shall report to the appropriate committees of Congress the amount and terms of such gift or bequest, the use to which such gift or bequest is put, and any positive results achieved by such action.

"(f) For the purpose of this section the term 'sections' includes powers and duties.

#### SEC. 1127. ALLOTMENT FORMULA.

"(a)(1) The Secretary shall establish, by regulation adopted in accordance with section 1139, a formula for determining the minimum annual amount of funds necessary to sustain each Bureau funded school. In establishing such formula, the Secretary shall consider—

"(A) the number of eligible Indian students served and size of the school;

"(B) special cost factors, such as—

"(i) the isolation of the school;

"(ii) the need for special staffing, transportation, or educational programs;

"(iii) food and housing costs;

"(iv) maintenance and repair costs associated with the physical condition of the educational facilities;

"(v) special transportation and other costs of isolated and small schools;

"(vi) the costs of boarding arrangements, where determined necessary by a tribal governing body or designated local school board;

"(vii) costs associated with greater lengths of service by educational personnel; and

"(viii) special programs for gifted and talented students;

"(C) the cost of providing academic services which are at least equivalent to those provided by public schools in the State in which the school is located; and

"(D) such other relevant factors as the Secretary determines are appropriate.

"(2) Upon the establishment of the standards required by sections 1121 and 1122, the Secretary shall revise the formula established under this subsection to reflect the cost and funding standards so established. Prior to January 1, 1996, the Secretary shall review the formula established under this section and shall take such steps as may be necessary to increase the availability of counseling services for students in off-reservation boarding schools and other Bureau operated residential facilities. Concurrent with such action, the Secretary shall review the standards established under section 1121 to be certain that adequate provision is made for parental notification regarding, and consent for, such counseling services.

"(b) Notwithstanding any other provisions of law, Federal funds appropriated for the general local operation of Bureau funded schools shall be allotted pro rata in accordance with the formula established under subsection (a).

"(c)(1) For fiscal year 1990, and for each subsequent fiscal year, the Secretary shall adjust the formula established under subsection (a) to—

"(A) use a weighted unit of 1.2 for each eligible Indian student enrolled in the seventh and eighth grades of the school in considering the number of eligible Indian students served by the school;

"(B) consider a school with an enrollment of less than 50 eligible Indian students as having an average daily attendance of 50 eligible Indian students for purposes of implementing the adjustment factor for small schools; and

"(C) take into account the provision of residential services on a less than 9-month basis at a school when the school board and supervisor of the school determine that a less than 9-month basis will be implemented for the school year involved.

"(2)(A) The Secretary shall reserve for national school board training 0.2 percent of the funds appropriated for each fiscal year for distribution under this section. Such training shall be conducted through the same organizations through which, and in the same manner in which, the training was conducted in fiscal year 1992, except that the contracts for distribution of such funds shall require that such funds be distributed to the recipient organizations in a manner that assures the same pro rata share is made available for training for each school board in the system. If the contract for such training is not awarded before May 1 of each fiscal year, the contract under which such training was provided for the fiscal year preceding such fiscal year shall be renewed by the Secretary for such fiscal year. The agenda for the training sessions shall be established by the school boards through their regional or national organizations.

"(B) For each year in which the Secretary uses a weighted unit formula established under subsection (a) to fund Bureau schools, a Bureau school which generates less than 168 weighted units shall receive an additional 2 weighted units to defray school board activities.

"(C) From the funds allotted in accordance with the formula established under subsection (a) for each Bureau school, the local school board of such school may reserve an amount which does not exceed the greater of—

"(i) \$5,000, or

"(ii) the lesser of—

"(I) \$15,000, or

"(II) 1 percent of such allotted funds,

for school board activities for such school, including and notwithstanding any other provision of law, meeting expenses and the cost of membership in, and support of, organizations engaged in activities on behalf of Indian education.

"(3) The Secretary shall adjust the formula established under subsection (a) to use a weight-

ed unit of 2.0 for each eligible Indian student that—

"(A) is gifted and talented, and

"(B) is enrolled in the school on a full-time basis,

in considering the number of eligible Indian students served by the school.

"(4)(A) The Secretary shall adjust the formula established under subsection (a) to use a weighted unit of 0.25 for each eligible Indian student who is enrolled in a year-long credit course in an Indian or Native language as part of the regular curriculum of a school, in considering the number of eligible Indian students served by such school.

"(B) The adjustment required under subparagraph (A) shall be used for such school after—

"(i) the certification of the Indian or Native language curriculum by the school board of such school to the Secretary, together with an estimate of the number of full-time students expected to be enrolled in the curriculum in the second school year following the school year for which the certification is made; and

"(ii) the funds appropriated for allotment under this section are designated by the appropriations Act appropriating such funds as the amount necessary to implement such adjustment at such school without reducing allotments made under this section to any school by virtue of such adjustment.

"(d) The Secretary shall reserve from the funds available for distribution for each fiscal year under this section an amount which, in the aggregate, shall equal 1 percent of the funds available for such purpose for that fiscal year. Such funds shall be used, at the discretion of the Director of the Office, to meet emergencies and unforeseen contingencies affecting the education programs funded under this section. Funds reserved under this subsection may only be expended for education services or programs at a schoolsite (as defined in section 5204(c)(2) of the Tribally Controlled Schools Act of 1988). Funds reserved under this subsection shall remain available without fiscal year limitation until expended. However, the aggregate amount available from all fiscal years may not exceed 1 percent of the current year funds. Whenever the Secretary makes funds available under this subsection, the Secretary shall report such action to the appropriate committees of Congress within the annual budget submission.

"(e) Supplemental appropriations enacted to meet increased pay costs attributable to school level personnel shall be distributed under this section.

"(f) For the purpose of this section, the term 'eligible Indian student' means a student who—

"(1) is a member of or is at least a 1/4 degree Indian blood descendant of a member of an Indian tribe which is eligible for the special programs and services provided by the United States through the Bureau to Indians because of their status as Indians, and

"(2) resides on or near an Indian reservation or meets the criteria for attendance at a Bureau off-reservation boarding school.

"(g)(1) An eligible Indian student may not be charged tuition for attendance at a Bureau school or contract or grant school. A student attending a Bureau school under paragraph (2)(C) may not be charged tuition.

"(2) The Secretary may permit the attendance at a Bureau school of a student who is not an eligible Indian student if—

"(A) the Secretary determines that the student's attendance will not adversely affect the school's program for eligible Indian students because of cost, overcrowding, or violation of standards,

"(B) the school board consents,

"(C) the student is a dependent of a Bureau, Indian Health Service, or tribal government, employee who lives on or near the school site, or

"(D) a tuition is paid for the student that is not more than that charged by the nearest public school district for out-of-district students, is in addition to the school's allocation under this section.

"(3) The school board of a contract or grant school may permit students who are not eligible Indian students under this subsection to attend its contract school or grant school and any tuition collected for those students is in addition to funding under this section.

"(h) Notwithstanding any other provision of law, at the election of the school board of a Bureau school made at any time during the fiscal year, a portion equal to not more than 15 percent of the funds allocated with respect to a school under this section for any fiscal year shall remain available to the school for expenditure without fiscal year limitation. The Assistant Secretary shall take steps as may be necessary to implement this provision immediately.

"(i) Beginning with academic year 1994-1995, tuition for the out-of-State students boarding at the Richfield Dormitory in Richfield, Utah, who attend Sevier County high schools in Richfield, Utah, shall be paid from the Indian school equalization program funds authorized in this section and section 1130 at a rate not to exceed the amount per weighted student unit for that year for the instruction of such students. No additional administrative cost funds shall be added to the grant.

#### SEC. 1128. ADMINISTRATIVE COST GRANTS.

"(a)(1) The Secretary shall, subject to the availability of appropriated funds, provide grants to each tribe or tribal organization operating a contract school or grant school in the amount determined under this section with respect to the tribe or tribal organization for the purpose of paying the administrative and indirect costs incurred in operating contract or grant schools in order to—

"(A) enable tribes and tribal organizations operating such schools, without reducing direct program services to the beneficiaries of the program, to provide all related administrative overhead services and operations necessary to meet the requirements of law and prudent management practice, and

"(B) carry out other necessary support functions which would otherwise be provided by the Secretary or other Federal officers or employees, from resources other than direct program funds, in support of comparable Bureau operated programs.

"(2) Amounts appropriated to fund the grants provided under this section shall be in addition to, and shall not reduce, the amounts appropriated for the program being administered by the contract or grant school.

"(b)(1) The amount of the grant provided to each tribe or tribal organization under this section for each fiscal year shall be determined by applying the administrative cost percentage rate of the tribe or tribal organization to the aggregate of the Bureau elementary and secondary functions operated by the tribe or tribal organization for which funds are received from or through the Bureau. The administrative cost percentage rate determined under subsection (c) does not apply to other programs operated by the tribe or tribal organization.

"(2) The Secretary shall—

"(A) reduce the amount of the grant determined under paragraph (1) to the extent that payments for administrative costs are actually received by an Indian tribe or tribal organization under any Federal education program included in the direct cost base of the tribe or tribal organization, and

"(B) take such actions as may be necessary to be reimbursed by any other department or agency of the Federal Government for the portion of grants made under this section for the costs of

administering any program for Indians that is funded by appropriations made to such other department or agency.

"(c)(1) For purposes of this section, the administrative cost percentage rate for a contract or grant school for a fiscal year is equal to the percentage determined by dividing—

"(A) the sum of—

"(i) the amount equal to—

"(I) the direct cost base of the tribe or tribal organization for the fiscal year, multiplied by

"(II) the minimum base rate, plus

"(ii) the amount equal to—

"(I) the standard direct cost base, multiplied by

"(II) the maximum base rate, by

"(B) the sum of—

"(i) the direct cost base of the tribe or tribal organization for the fiscal year, plus

"(ii) the standard direct cost base.

"(2) The administrative cost percentage rate shall be determined to the  $\frac{1}{100}$  of a decimal point.

"(d)(1)(A) Funds received by a tribe or contract or grant school as grants under this section for tribal elementary or secondary educational programs may be combined by the tribe or contract or grant school into a single administrative cost account without the necessity of maintaining separate funding source accounting.

"(B) Indirect cost funds for programs at the school which share common administrative services with tribal elementary or secondary educational programs may be included in the administrative cost account described in subparagraph (A).

"(2) Funds received as grants under this section with respect to tribal elementary or secondary education programs shall remain available to the contract or grant school without fiscal year limitation and without diminishing the amount of any grants otherwise payable to the school under this section for any fiscal year beginning after the fiscal year for which the grant is provided.

"(3) Funds received as grants under this section for Bureau funded programs operated by a tribe or tribal organization under a contract or agreement shall not be taken into consideration for purposes of indirect cost underrecovery and overrecovery determinations by any Federal agency for any other funds, from whatever source derived.

"(4) In applying this section and section 105 of the Indian Self-Determination and Education Assistance Act with respect to an Indian tribe or tribal organization that—

"(A) receives funds under this section for administrative costs incurred in operating a contract or grant school or a school operated under the Tribally Controlled Schools Act of 1988, and

"(B) operates 1 or more other programs under a contract or grant provided under the Indian Self-Determination and Education Assistance Act,

the Secretary shall ensure that the Indian tribe or tribal organization is provided with the full amount of the administrative costs, and of the indirect costs, that are associated with operating the contract or grant school, a school operated under the Tribally Controlled Schools Act of 1988, and all of such other programs, except that funds appropriated for implementation of this section shall be used only to supply the amount of the grant required to be provided by this section.

"(e) For purposes of this section:

"(1)(A) The term 'administrative cost' means the costs of necessary administrative functions which—

"(i) the tribe or tribal organization incurs as a result of operating a tribal elementary or secondary educational program,

"(ii) are not customarily paid by comparable Bureau operated programs out of direct program funds, and

"(iii) are either—

"(I) normally provided for comparable Bureau programs by Federal officials using resources other than Bureau direct program funds, or

"(II) are otherwise required of tribal self-termination program operators by law or prudent management practice.

"(B) The term 'administrative cost' may include—

"(i) contract or grant (or other agreement) administration;

"(ii) executive, policy, and corporate leadership and decisionmaking;

"(iii) program planning, development, and management;

"(iv) fiscal, personnel, property, and procurement management;

"(v) related office services and record keeping; and

"(vi) costs of necessary insurance, auditing, legal, safety and security services.

"(2) The term 'Bureau elementary and secondary functions' means—

"(A) all functions funded at Bureau schools by the Office;

"(B) all programs—

"(i) funds for which are appropriated to other agencies of the Federal Government, and

"(ii) which are administered for the benefit of Indians through Bureau schools; and

"(C) all operation, maintenance, and repair funds for facilities and government quarters used in the operation or support of elementary and secondary education functions for the benefit of Indians, from whatever source derived.

"(3)(A) Except as otherwise provided in this subparagraph (B), the direct cost base of a tribe or tribal organization for the fiscal year is the aggregate direct cost program funding for all tribal elementary or secondary educational programs operated by the tribe or tribal organization during—

"(i) the second fiscal year preceding such fiscal year, or

"(ii) if such programs have not been operated by the tribe or tribal organization during the 2 preceding fiscal years, the first fiscal year preceding such fiscal year.

"(B) In the case of Bureau elementary or secondary education functions which have not previously been operated by a tribe or tribal organization under contract, grant, or agreement with the Bureau, the direct cost base for the initial year shall be the projected aggregate direct cost program funding for all Bureau elementary and secondary functions to be operated by the tribe or tribal organization during that fiscal year.

"(4) The term 'maximum base rate' means 50 percent.

"(5) The term 'minimum base rate' means 11 percent.

"(6) The term 'standard direct cost base' means \$600,000.

"(7) The term 'tribal elementary or secondary educational programs' means all Bureau elementary and secondary functions, together with any other Bureau programs or portions of programs (excluding funds for social services that are appropriated to agencies other than the Bureau and are expended through the Bureau, funds for major subcontracts, construction, and other major capital expenditures, and unexpended funds carried over from prior years) which share common administrative cost functions, that are operated directly by a tribe or tribal organization under a contract, grant, or agreement with the Bureau.

"(f)(1) Upon the date of enactment of the Indian Education Amendments of 1988, the Secretary shall—

"(A) conduct such studies as may be needed to establish an empirical basis for determining relevant factors substantially affecting the required administrative costs of tribal elementary

and secondary educational programs, using the formula set forth in subsection (c), and

"(B) conduct a study to determine—

"(i) a maximum base rate which ensures that the amount of the grants provided under this section will provide adequate (but not excessive) funding of the administrative costs of the smallest tribal elementary or secondary educational programs,

"(ii) a minimum base rate which ensures that the amount of the grants provided under this section will provide adequate (but not excessive) funding of the administrative costs of the largest tribal elementary or secondary educational programs, and

"(iii) a standard direct cost base which is the aggregate direct cost funding level for which the percentage determined under subsection (c) will—

"(I) be equal to the median between the maximum base rate and the minimum base rate, and

"(II) ensure that the amount of the grants provided under this section will provide adequate (but not excessive) funding of the administrative costs of tribal elementary or secondary educational programs closest to the size of the program.

"(2) The studies required under paragraph (1) shall—

"(A) be conducted in full consultation (in accordance with section 1131) with—

"(i) the tribes and tribal organizations that are affected by the application of the formula set forth in subsection (c), and

"(ii) all national and regional Indian organizations of which such tribes and tribal organizations are typically members;

"(B) be conducted onsite with a representative statistical sample of the tribal elementary or secondary educational programs under a contract entered into with a nationally reputable public accounting and business consulting firm;

"(C) take into account the availability of skilled labor, commodities, business and automatic data processing services, related Indian preference and Indian control of education requirements, and any other market factors found substantially to affect the administrative costs and efficiency of each such tribal elementary or secondary educational program studied in order to assure that all required administrative activities can reasonably be delivered in a cost effective manner for each such program, given an administrative cost allowance generated by the values, percentages, or other factors found in the studies to be relevant in such formula;

"(D) identify, and quantify in terms of percentages of direct program costs, any general factors arising from geographic isolation, or numbers of programs administered, independent of program size factors used to compute a base administrative cost percentage in such formula; and

"(E) identify any other incremental cost factors substantially affecting the costs of required administrative cost functions at any of the tribal elementary or secondary educational programs studied and determine whether the factors are of general applicability to other such programs, and (if so) how the factors may effectively be incorporated into such formula.

"(3) In carrying out the studies required under this subsection, the Secretary shall obtain the input of, and afford an opportunity to participate to, the Inspector General of the Department of the Interior.

"(4) Determinations described in paragraph (2)(C) shall be based on what is pragmatically possible to do at each location studied, given prudent management practice, irrespective of whether required administrative services were actually or fully delivered at these sites, or other services were delivered instead, during the period of the study.

"(5) Upon completion of the studies conducted under paragraph (1), but in no case later than October 1, 1989, the Secretary shall submit to the Congress a report on the findings of the studies, together with determinations based upon such findings that would affect the definitions of terms used in the formula that is set forth in subsection (c).

"(6) The Secretary shall include in the Bureau's justification for each appropriations request for each fiscal year beginning after fiscal year 1989, a projection of the overall costs associated with the formula set forth in subsection (c) for all tribal elementary or secondary educational programs which the Secretary expects to be funded in the fiscal year for which the appropriations are sought.

"(7) For purposes of this subsection, the size of tribal elementary or secondary educational programs is determined by the aggregate direct cost program funding level for all Bureau funded programs which share common administrative cost functions.

"(g)(1) There are authorized to be appropriated for each fiscal year such sums as may be necessary to carry out this section.

"(2) If the total amount of funds necessary to provide grants to tribes and tribal organizations in the amounts determined under subsection (b) for a fiscal year exceeds the amount of funds appropriated to carry out this section for such fiscal year, the Secretary shall reduce the amount of each grant determined under subsection (b) for such fiscal year by an amount that bears the same relationship to such excess as the amount of such grant determined under subsection (b) bears to the total of all grants determined under subsection (b) for all tribes and tribal organizations for such fiscal year.

"(h)(1) Notwithstanding any other provision of this section, the amount of the grants provided under this section for fiscal year 1989 shall—

"(A) in lieu of being determined under subsection (b), be determined for each tribal elementary or secondary educational program on the same basis that indirect costs were determined for such programs for fiscal year 1988, and

"(B) be subject to the provisions of subsection (d).

"(2) Notwithstanding any other provision of this section, the amount of the grant provided under this section for fiscal year 1990 with respect to each tribal elementary and secondary educational program that was operated by a tribe or tribal organization in fiscal year 1989 shall be equal to—

"(A) if the amount of the grant determined under subsection (b) for fiscal year 1990 with respect to such program exceeds the amount received by the tribe or tribal organization with respect to such program for administrative costs for fiscal year 1988 (or fiscal year 1989 if such program was not operated by the tribe or tribal organization during fiscal year 1988), the sum of—

"(i) such amount received, plus

"(ii)  $\frac{1}{3}$  of the excess of—

"(I) such amount determined under subsection (b), over

"(II) such amount received, or

"(B) if such amount received exceeds such amount determined under subsection (b), the excess of—

"(i) such amount received, over

"(ii) an amount equal to  $\frac{1}{3}$  of the excess of—

"(I) such amount received, over

"(II) such amount determined under subsection (b).

"(3) Notwithstanding any other provision of this section, the amount of the grants provided under this section for fiscal year 1991 with respect to each tribal elementary and secondary educational program that was operated by a

tribe or tribal organization in fiscal year 1989 shall be equal to—

"(A) if the amount of the grant determined under subsection (b) for fiscal year 1991 with respect to such program exceeds the amount received by the tribe or tribal organization with respect to such program for administrative costs for fiscal year 1990, the sum of—

"(i) such amount received, plus

"(ii)  $\frac{1}{2}$  of the excess of—

"(I) such amount determined under subsection (b), over

"(II) such amount received, or

"(B) if such amount received exceeds such amount determined under subsection (b), the excess of—

"(i) such amount received, over

"(ii) an amount equal to  $\frac{1}{2}$  of the excess of—

"(I) such amount received, over

"(II) such amount determined under subsection (b).

"(i) The provisions of this section shall also apply to those schools operating under the Tribally Controlled Schools Act of 1988.

#### "SEC. 1129. DIVISION OF BUDGET ANALYSIS.

"(a) Within 24 months of the date of enactment of the Improving America's Schools Act of 1994, the Secretary shall establish within the Office a Division of Budget Analysis (hereinafter referred to as the 'Division'). Such Division shall be under the direct supervision and control of the Director of the Office.

"(b) The Division shall have the capacity to conduct such studies, surveys, or other activities as are necessary to gather demographic information on Bureau-funded schools (current and future) and project the amount necessary to provide Indian students in such schools the educational program set forth in this part.

"(c) The Division shall prepare projections on such amounts, along with such other information as the Director of the Office shall require, for each fiscal year beginning after October 1, 1996. The Director of the Office and the Assistant Secretary for Indian Affairs shall use such reports when preparing their annual budget submissions.

#### "SEC. 1130. UNIFORM DIRECT FUNDING AND SUPPORT.

"(a)(1) Within six months after the date of enactment of the Improving America's Schools Act of 1994, the Secretary shall establish, by regulation adopted in accordance with section 1139, a system for the direct funding and support of all Bureau funded schools. Such system shall allot funds, in accordance with section 1127. All amounts appropriated for distribution under this section may be made available under paragraph (2).

"(2)(A) For the purpose of affording adequate notice of funding available pursuant to the allotments made by section 1127, amounts appropriated in an appropriation Act for any fiscal year shall become available for obligation by the affected schools on July 1 of the fiscal year in which such amounts are appropriated without further action by the Secretary, and shall remain available for obligation through the succeeding fiscal year.

"(B) The Secretary shall, on the basis of the amount appropriated in accordance with this paragraph—

"(i) publish, on July 1 of the fiscal year for which the funds are appropriated, allotments to each affected school made under section 1127 of 85 percent of such appropriation; and

"(ii) publish, not later than September 30 of such fiscal year, the allotments to be made under section 1127 of the remaining 15 percent of such appropriation, adjusted to reflect actual student attendance.

"(3)(A) Notwithstanding any law or regulation, the supervisor of a Bureau school may expend an aggregate of not more than \$35,000 of

the amount allotted the school under section 1127 to acquire supplies and equipment for the school without competitive bidding if—

"(i) the cost for any single item purchased does not exceed \$10,000;

"(ii) the school board approves the procurement;

"(iii) the supervisor certifies that the cost is fair and reasonable;

"(iv) the documents relating to the procurement executed by the supervisor or other school staff cite this paragraph as authority for the procurement; and

"(v) the transaction is documented in a journal maintained at the school clearly identifying when the transaction occurred, what was acquired and from whom, the prices paid, the quantities acquired, and any other information the supervisor or school board considers relevant.

"(B) The Director shall be responsible for determining the application of this paragraph, including the authorization of specific individuals to carry out this paragraph, and shall be responsible for the provision of guidelines on the use of this paragraph and adequate training on such guidelines.

"(4) If a sequestration order issued under the Balanced Budget and Emergency Deficit Control Act of 1985 reduces the amount of funds available for allotment under section 1127 for any fiscal year by more than 7 percent of the amount of funds available for allotment under such section during the preceding fiscal year—

"(A) the Secretary, notwithstanding any other law, may use—

"(i) funds appropriated for the operation of any Bureau school that is closed or consolidated, and

"(ii) funds appropriated for any program that has been curtailed at any Bureau school,

"(B) the Secretary may waive the application of the provisions of section 1121(h) with respect to the closure or consolidation of a school, or the curtailment of a program at a school, during such fiscal year if the funds described in clauses (i) and (ii) of subparagraph (A) with respect to such school are used to fund allotments made under section 1127 for such fiscal year.

"(b) In the case of all Bureau schools, allotted funds shall be expended on the basis of local financial plans which shall be prepared by the local school supervisor in active consultation with the local school board for each school, and the local school board for each school shall have the authority to ratify, reject, or amend such financial plan, and expenditures thereunder, and, on its own determination or in response to the supervisor of the school, to revise such financial plan to meet needs not foreseen at the time of preparation of the financial plan. The supervisor shall provide the appropriate union representative of the education employees with copies of proposed draft financial plans and all amendments or modifications thereto, at the same time such copies are submitted to the local school board. The supervisor of the school may appeal any such action of the local school board to the appropriate education line officer of the Bureau agency by filing a written statement describing the action and the reasons the supervisor believes such action should be overturned. A copy of such statement shall be submitted to the local school board and such board shall be afforded an opportunity to respond, in writing, to such appeal. After reviewing such written appeal and response, the appropriate education line officer may, for good cause, overturn the action of the local school board. The appropriate line education officer shall transmit the determination of such appeal in the form of a written opinion to such board and to such supervisor identifying the reasons for overturning such action.

"(c) Funds for self-determination grants under section 103(a)(2) of the Indian Self-Determination and Education Assistance Act shall not be used for providing technical assistance and training in the field of education by the Bureau unless such services are provided in accordance with a plan, agreed to by the tribe or tribes affected and the Bureau, under which control of education programs is intended to be transferred to such tribe or tribes within a specific period of time negotiated under such agreement. The Secretary may approve applications for funding tribal divisions of education and the development of tribal codes of education from funds appropriated pursuant to section 104(a) of such Act.

"(d) In the exercise of its authority under this section, a local school board may request technical assistance and training from the Secretary, and the Secretary shall, to the greatest extent possible, provide such services, and make appropriate provisions in the budget of the Office for such services.

"(E)(i) Except as provided in clause (ii), the establishment of rates of basic compensation and annual salary rates by the Secretary under subparagraphs (B) and (C) shall not affect the continued employment or compensation of an educator who was employed in an education position on October 31, 1979, and who did not make the election under paragraph (2) of subsection (o).

"(ii) Any individual described in clause (i) may, during the 5-year period beginning on the date on which the Secretary establishes rates of basic compensation and annual salary rates under subparagraph (B), make an irrevocable election to have the basic compensation rate or annual salary rate of such individual determined in accordance with this paragraph.

"(iii) If an individual makes the election described in clause (ii), such election shall not affect the application to the individual of the same retirement system and leave system that applies to the individual during the fiscal year preceding the fiscal year in which such election is made, except that the individual must use leave accrued during a contract period by the end of that contract period.

basic compensation to which such educator is entitled.

"(3)(A) The Secretary may pay a postdifferential not to exceed 25 percent of the rate of basic compensation, on the basis of conditions of environment or work which warrant additional pay as a recruitment and retention incentive.

"(B)(i) Upon the request of the supervisor and the local school board of a Bureau school, the Secretary shall grant the supervisor of the school authorization to provide 1 or more post differentials under subparagraph (A) unless the Secretary determines for clear and convincing reasons (and advises the board in writing of those reasons) that certain of the requested post differentials should be disapproved or decreased because there is no disparity of compensation for the involved employees or positions in the Bureau school, as compared with the nearest public school, that is either—

"(I) at least 5 percent, or

"(II) less than 5 percent and affects the recruitment or retention of employees at the school.

"(ii) The request under clause (i) shall be deemed granted as requested at the end of the 60th day after the request is received in the Central Office of the Bureau unless before that time the request is approved, approved with modification, or disapproved by the Secretary.

"(2) who is an employee of the Federal Government or the municipal government of the District of Columbia and is transferred, promoted, or reappointed, without break in service, from a position under a different leave system to an education position,

##### SEC. 541. SHORT TITLE.

This part may be cited as the "Workers Technology Skill Development Act".

##### SEC. 542. FINDINGS.

The Congress finds and declares the following:

(2) While the United States remains the world leader in science and invention, it has not done well in rapidly making the transition from achievement in its research laboratories to high-quality, competitively priced production of goods and services. This lag and the unprecedented competitive challenge that the United States has faced from abroad have contributed to a drop in real wages and living standards.

(3) Companies that are successfully competitive in the rapid development, commercialization, application, and implementation of advanced technologies, and in the successful delivery of goods and services, recognize that worker participation and labor-management cooperation in the deployment, application, and implementation of advanced workplace technologies make an important contribution to high-quality, competitively priced production of goods and services and in maintaining and improving real wages for workers.

(4) The Federal Government has an important role in encouraging and augmenting private sector efforts relating to the development, application, manufacture, and deployment of new and advanced technologies. The role should be to—

(A) work with private companies, States, worker organizations, nonprofit organizations, and institutions of higher education to ensure the development, application, production, and implementation of new and advanced technologies to promote the improvement of workers' skills, wages, job security, and working conditions, and a healthy environment;

(B) encourage worker and worker organization participation in the development, commercialization, evaluation, selection, application, and implementation of new and advanced technologies in the workplace; and

(C) promote the use and integration of new and advanced technologies in the workplace that enhance workers' skills.

(5) In working with the private sector to promote the technological leadership and economic growth of the United States, the Federal Government has a responsibility to ensure that Federal technology programs help the United States to remain competitive and to maintain and improve living standards and to create and retain secure jobs in economically stable communities.

##### SEC. 543. PURPOSES.

states have the authority to reserve .5% of their state's Title I appropriation as provided for in the state administration section of this bill at the end of Title I. However, the conferees want to ensure that there are sufficient funds to carry out the program improvement requirements in this Act and are unsure whether .5% of a state's Title I funds will be adequate during the entire reauthorization period. Thus, if states determine that such reserve is insufficient, states may request additional funds from Congress through the appropriation process.

Legislative counsel.

77. The House bill provides that the state plan shall "demonstrate" that the state has developed or adopted "high-quality standards" for "children served under this title" that will be used to carry out this Act; the Senate amendment provides that the state plan shall "describe" the high-quality "academic" standards for "all" children "in subjects determined by the state" that will be used to carry out this "part."

The Senate recedes with an amendment inserting "academic" after "high quality" to clarify that if states have content standards or student performance standards developed under Title III of the Goals 2000: Educate America Act, or some other process, those are the standards to be used in Title I program; and to clarify that "states shall not be required to submit such standards to the Secretary."

The Senate recedes with an amendment to add "student" before "performance standards".

81. The House bill says that the performance standards describe two levels of high performance for determining how well children "served under this title" are mastering the material in the content standards; the amendment says state plans shall describe two levels of high performance that will determine how well children are mastering the material in the "State" content standards.

The Senate recedes with an amendment striking "served under this title" and inserting "State" before "content standards".

82. The House bill says that performance standards in the state plan include a "third benchmark below proficient, if necessary," to provide complete information about the progress of children toward achieving the "high" proficient and advanced performance standards; the Senate amendment says that the state plan describe a "third level, partially proficient" to provide complete information about the progress of children toward achieving the "proficient and advanced level of performance".

The House recedes.

203. The House bill requires, that if funds allocated in accordance with the allocations subsection are insufficient to serve all eligible school attendance areas, then a LEA

most annually rank, from highest to lowest according to the percentage of children from low-income families, and without regard to grade spans, its eligible school attendance areas in which the concentration of children from low-income families exceeds 75%, and then the LEA must serve such eligible school attendance areas in rank order; the Senate amendment requires that each LEA receiving part A assistance first serve in rank order schools in which the concentrations of children from low-income families is 75% or greater.

The Senate recedes.

204. The House bill requires that, if funds remain after serving all eligible school attendance areas within which the concentration of children from low-income families exceed 75%, then the LEA must annually rank its remaining eligible school attendance areas from highest to lowest either by grade span or for the entire LEA according to the percentage of children from low-income families, and then serve such eligible school attendance areas in rank order either by grade span or within the LEA as a whole; the Senate amendment requires that, after the LEA first serves, in rank order, the eligible school attendance areas in which the concentrations of children from low-income families is 75% or greater, the LEA then serve, in rank order, schools in which the concentration of children from low-income families is at least 50% and less than 75%, with rank order determined, at the discretion of the LEA, according to grade span or school, and finally serve in rank order schools in which the concentration of children from low-income families is below 50%, with rank order determined according to grade span or by school.

Open.

205. The House bill requires that the LEA shall use as the measure of poverty, with respect to all school attendance areas in the LEA, either (1) the number of children ages 5 to 17 in the poverty count of the most recent census data approved by the Secretary, (2) the number of children eligible for free and reduced price lunches under the National School Lunch Act, (3) the number of children in families receiving assistance under AFDC, or (4) the number of children eligible to receive medical assistance under the Medicaid program, or (5) a composite of the above poverty indicators; the Senate amendment requires that the LEA shall use the same measure of low-income, with respect to all school attendance areas in the LEA, which the LEA shall choose on the basis of the best available verifiable data and which may be a composite of several indicators.

The Senate recedes with an amendment inserting "the same measure of low income, which measures shall be" before "the number".

206. The House bill refers to "each area"; the Senate amendment refers to "each such area".

Legislative counsel.

207. The House bill does not apply the ranking and poverty indicator provisions to LEAs with a total enrollment of less than 1,000 students; the Senate amendment does not apply the ranking and poverty indicator provisions nor the allocation requirements to LEAs with a total enrollment of less than 1,000 students but requires that such LEAs serve school attendance areas or schools in rank order according to grade span or school on the basis of the total number of children from low-income families in the grade levels served.

The Senate recedes but the conferees note that the House exemption affects 45% of all

school districts. The conferees are concerned that this exemption could result in some rural states, made up almost entirely of school districts with enrollments of less than 1,000 children, not achieving the level of targeting that the conferees intend. However, the conferees also recognize that the Senate language might be difficult to administer or be too inflexible for some small districts to serve the neediest students. Thus, it is the conferees' intent that the Secretary should work with and encourage such districts that receive Title I, Part A funds to target their funds to the neediest schools and students in ways appropriate for smaller districts.

208. The Senate amendment, but not the House bill, does not apply the ranking and poverty indicator provisions nor the allocation requirements to a school participating in a desegregation program where the number of economically disadvantaged children served by the school is equal to or greater than 100 or equal to or greater than 25% of the school's total enrollment.

The House recedes with an amendment giving the Secretary of Education the authority to grant a waiver.

While the House recedes with an amendment giving the Secretary the authority to grant a waiver from the requirement to serve schools in rank order for local educational agencies undergoing desegregation plans, the conferees take particular note of the unique situation of the Omaha, Nebraska School District and the particular need for a waiver under the authority given the Secretary in this legislation. While the waiver authority is permissive, the conferees, in light of the unique circumstances brought to their attention, intend that the Secretary of Education shall grant such a waiver to the Omaha School District.

209. The Senate amendment, but not the House bill, includes a special rule which states that the per pupil amount of funds allocated to each school or school attendance area which falls under the Senate exceptions, above, shall be at least 65% of the per pupil amount of funds the LEA received for that year under the poverty criterion described in the LEA plan, except that this shall not apply to a LEA that only serves schools in which at least 50% of children enrolled are from low income families, but allows a LEA to reduce the amount of any supplemental State and local funds expended in the attendance area or school for programs that meet the schoolwide program or targeted assistance school requirements of this part.

The Senate recedes.

210. The House bill, but not the Senate amendment, allows LEAs to designate as eligible any school attendance area or school in which at least 50% of the children are from low-income families.

The Senate recedes.

shall be determined without regard to whether the public school attendance area in which the private school children reside is passed over under Title I services.

The Senate recedes.

212. The House bill, but not the Senate amendment, allows LEAs to use funds received to serve eligible children who reside in school attendance areas served under part A and who attend schools in other attendance areas in accordance with a court-ordered desegregation plan or a plan which continues to be implemented in accordance with a district-wide, court-ordered desegregation plan.

#### Grants for the Outlying Areas and the Secretary of the Interior

Legislative counsel.

521. The Senate amendment, but not the House bill, includes a paragraph heading entitled "In General".

Legislative counsel.

522. The Senate amendment, but not the House bill, provides that all funds reserved for the outlying areas (including the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and—until adoption of its Compact of Free Association—Palau) be distributed in accordance with a competition conducted by the Pacific Regional Educational Laboratory in Hawaii. Five percent of the total amount reserved for the outlying areas may be used to pay the Laboratory's administrative costs. Currently, the Secretary of Education determines the distribution of funds among the outlying areas, except for a portion of these funds (equal to the share allocated in FY 1989 to the Federated States of Micronesia and the Republic of the Marshall Islands) that is distributed through a competition conducted by the Pacific Regional Educational Laboratory.

The House recedes with an amendment that allows the Freely Associated State to be eligible to compete for competitive grants under Title I, authorizes \$5 million as a block grant to PREL for the Freely Associated States to compete for these funds, and allows the Freely Associated States to compete for all discretionary grants under this Act.

#### Allocations to States

523. The House bill provides that an annual share of title I, part A appropriations equal to the FY 1994 amount be allocated according to the basic and concentration grant formulas (sec. 1124 and 1124A). Any additional appropriations will be allocated under the new, targeted grants formula (sec. 1125).

The Senate recedes with an amendment that provides that in Fiscal Year 1995, Title I funds will be distributed under the same formula as in current law. In Fiscal Year 1996, funds would be distributed under a modified form of the House formula. Appropriations equal to the Fiscal Year 1995 level would be distributed under current law, except that local educational agencies with 2 percent poverty or less would receive no funds. Funds in excess of the Fiscal Year 1995 level would be distributed under a new targeted, weighted formula. Where poor children living in high concentrations of poverty receive more funds, a local educational agency with poverty rates of 5 percent would receive no funds.

A small state minimum that is a compromise between the House and Senate provisions applies to both parts of the formula and to the formula for distributing Fiscal Year 1995 funds. Additionally, the formula provides for the use of updated poverty estimates prepared by the Bureau of the Census. Poverty estimates would be updated in Fiscal Year 1997 (school year 1997-98) for counties, and updated in Fiscal Year 1999 for local educational agencies.

The conference agreement also includes a separate authorization of \$200 million to provide additional funds to improve Title I schools that distributes funds to all states based on a measure of their effort and equity.

524. If appropriations are insufficient to pay the full authorized amounts for part A,

then grants will be ratably reduced to the level of available appropriations. However, no local educational agency is to receive less than 85% of its previous year grant (if any) under the basic and targeted grant formulas. There is no hold harmless for concentration grants.

The Senate recedes with an amendment on all of the notes concerning the title I formula (notes 504-557).

#### Basic Grants to Local Educational Agencies

525. Except for Puerto Rico, the maximum basic grant for a local educational agency is equal to the number of poor and other children counted in the formula multiplied by 40% of the State average expenditure per pupil, with bounds of 80% and 120% of the national average applied to the latter.

526. While all basic grants will be calculated by the U.S. Department of Education using data on poor school age children compiled by the Census Bureau, the House bill authorizes State education agencies to use alternative population data (i.e., other than the data on poor school age children compiled by the Census Bureau) to allocate basic grants among the State's smaller local educational agencies only (those serving areas with a total population of 20,000 or fewer persons). Local educational agencies dissatisfied with such determinations by their State education agency may appeal them to the U.S. Secretary of Education.

527. In cases where the Census Bureau has not compiled data on poor school age children for local educational agencies (applies at this point to 8 counties in California), basic grants will be calculated by the U.S. Department of Education by county, with the State education agency responsible for suballocation to local educational agencies in such counties.

528. The basic grant to Puerto Rico is calculated in the same manner as those for local educational agencies in the 50 States plus the District of Columbia, except that the minimum expenditure factor for the States plus D.C. (.4 times 80% of the national average expenditure per pupil) is further multiplied by the ratio of the Puerto Rico average expenditure per pupil divided by the lowest average expenditure per pupil for any of the States plus D.C.

529. In order to be eligible for a basic grant, a local educational agency must have at least 10 poor and other children counted in the formula.

530. The children to be counted for basic grants under the House bill include children aged 5-17 years: (a) in poor families; (b) in families receiving Aid to Families with Dependent Children (AFDC) payments above the poverty level for a family of 4; plus (c) in institutions for the neglected and delinquent, in foster homes, or attending community day programs, and who are not counted for State agency grants for the neglected and delinquent (title I, part D, subpart 3). Except for those in community day programs, these are the same groups of children counted under current law.

531. In making basic grants, the Secretary will use data on the number of school age children in poor families compiled for local educational agencies by the Census Bureau. In cases where such data have not been compiled for local educational agencies, the Secretary will use county aggregate data.

532. In cases where 2 or more counties are completely contained within 1 local education agency (e.g., New York City, Hawaii, and possibly Williamsburg/James City county in Virginia), then each county portion of the local educational agency will be treated

as if it were a separate local educational agency for the calculation of basic grants.

533. If data on the number of poor school age children have been updated by the Census Bureau for local educational agencies, then the updated data must be used by the Secretary of Education to calculate basic grants.

534. Data on children in families receiving Aid to Families with Dependent Children payments above the poverty income level for a family of 4 will be obtained annually for local educational agencies from the Department of Health and Human Services.

535. The Census Bureau shall prepare special updates of the number of children in poor families for local educational agencies when requested by the Secretary of Education.

536. In general, the minimum basic grant for all local educational agencies is the lesser of: (a) 0.25% of total grants; (b) 150% of the State's previous year basic grant; or (c) 150% of the national average basic grant per child counted in the basic grant formula in the previous year, multiplied by the State's total number of such children for that year. In addition, for fiscal years 1995 and 1996 only, no State may be reduced below the level of its FY 1993 basic grant as a result of applying the caps in (b) and (c) of the preceding sentence.

#### Concentration Grants to Local Educational Agencies

537. Local educational agencies are eligible for concentration grants under the House bill if their number of children counted for basic grants in the previous fiscal year exceeds either: (a) 6,500 such children; or (b) 15% of their total school age population. Concentration grant eligibility is limited to the 50 States plus the District of Columbia.

538. The State minimum concentration grant is the lesser of: (a) 0.25% of total grants; (b) 150% of the State's previous year concentration grant; or (c) 150% of the national average concentration grant per child counted for such grants for the year for which grants are being calculated, multiplied by the State's total number of children counted for concentration grants in that year. There is also an "absolute" minimum State concentration grant of \$250,000. (This has been increased to \$340,000 under appropriations legislation of recent years.)

539. The number of children counted in allocating concentration grants is the total number counted for basic grants in the preceding fiscal year if a local educational agency meets the 15% criterion of eligibility, but only the number counted for basic grants in excess of 6,500 children if only the 6,500 criterion is met. This number of children is multiplied by an expenditure factor of the local educational agency's maximum basic grant for the same (not previous) year, divided by its number of children counted for basic grants (which is simply equal to the basic grant expenditure factor for the same fiscal year).

540. While all concentration grants will initially be calculated by the U.S. Department of Education using data on poor school age children compiled by the Census Bureau, the House bill authorizes State education agencies to use alternative population data (i.e., other than the data on poor school age children compiled by the Census Bureau) to allocate concentration grants among the State's smaller local educational agencies (those serving areas with a total population of 20,000 or fewer persons). Local educational agencies dissatisfied with such determinations by their State education agency may

appeal them to the U.S. Secretary of Education.

541. In cases where the Census Bureau has not compiled data on poor school age children for local educational agencies (applies at this point to 8 counties in California), concentration grants will be calculated by the U.S. Department of Education by county, with the State education agency responsible for suballocation to local educational agencies in such counties.

542. Of the total amount appropriated for basic and concentration grants, 10% is reserved for concentration grants.

543. Grants will be ratably reduced, subject to the State minimum, if total appropriations are less than maximum authorized concentration grants.

#### Targeted Grants to Local Educational Agencies

544. To be eligible for targeted formula grants under the House bill, the number of children counted for basic grants in a local educational agency must be at least 10.

545. The maximum targeted grant for a local educational agency is its weighted count of children multiplied by its basic grant expenditure factor.

546. The number of children counted for targeted grants is the greater of two modified counts of the children counted for basic grants for a local educational agency. Local educational agency counts of poor and other formula children are weighted according to two scales, one based on the aggregate number of such children, and the other scale based on the percentage that basic grant formula children represent of a local educational agency's total school age population. For each LEA, the greater of the two weighted pupil counts—that based on numbers and that based on percentages—is used to calculate grants. The weights applied to different numbers of basic grant formula children for a local educational agency vary from 1 to 3, in 5 steps. The steps and weights are as follows:

#### PUPIL WEIGHTS ASSIGNED TO LOCAL EDUCATIONAL AGENCIES FOR TARGETED GRANTS UNDER THE HOUSE VERSION OF H.R. 6

School age child poverty rate for the local educational agency	Number of poor and other formula in the local educational agency	Weight assigned to poor and other formula pupils in the local educational agency
0-14.265%	0-575	1.0
14.266-21.553	576-1,870	1.5
21.554-29.223	1,871-6,910	2.0
29.224-36.538	6,911-42,000	2.5
36.539 or more	more than 42,000	3.0

Each step on each of the two scales contains local educational agencies with approximately one-fifth of all school and age children. The weights are applied stepwise—i.e., each weight is applied only to the share of formula children in a county (local educational agency) falling within the indicated number or percentage range.

547. While all targeted grants will initially be calculated by the U.S. Department of Education using data on poor school age children compiled by the Census Bureau, the House bill authorizes State education agencies to use alternative population data (i.e., other than the data on poor school age children compiled by the Census Bureau) to allocate targeted grants among each State's smaller local educational agencies (those serving areas with a total population of 20,000 or fewer persons). Local educational agencies dissatisfied with such determinations by their State education agency may appeal them to the U.S. Secretary of Education.

548. In cases where the Census Bureau has not compiled data on poor school age children for local educational agencies (applies at this point to 8 counties in California), targeted grants will be calculated by the U.S. Department of Education by county, with the State education agency responsible for suballocation to local educational agencies in such counties.

549. The State minimum targeted grant is the lesser of: (a) 0.25% of all grants; (b) 150% of the national average targeted grant per (unweighted) child counted in the targeted grant formula in the year for which grants are being calculated, multiplied by the State's total number of such (unweighted) children for that year.

#### Special Allocation Procedures.

550. If a local educational agency does not provide educational services to neglected or delinquent children who are counted in determining part A grants to that agency, the State education agency may reallocate part A grants based upon such children.

551. State education agencies may reallocate part A grants as appropriate when multiple local educational agencies serve the same area, or an agency provides educational services to children residing in a different local educational agency.

552. State education agencies may reallocate part A grants not used by the local educational agencies to which they were originally allocated.

#### Carryover and Waiver

553. In general, a local educational agency may carry over no more than 15% of its part A grant for use in the fiscal year after the grant was received (does not apply to local educational agencies receiving less than \$50,000 per year). This limitation may be waived by a State education agency, but no more than once every three years for any particular local educational agency.

#### Allocations to States

554. The Senate bill provides that if appropriations are insufficient to pay maximum authorized part A grants, then allocations will be ratably reduced, subject to a State level hold harmless of 100% of FY 1994 basic plus concentration grants for FY 1995, 90% of previous year grants for FY 1996, and 85% of previous year grants for FY 1997 and beyond. There is also a hold harmless for local educational agencies (see sec. 1124).

#### Grants to States

555. State total grants will be calculated on the basis of local educational agencies if necessary population data are deemed to be satisfactory by the Secretary of Education. Otherwise, State total grants will be calculated on a county basis. In either case, State total grants will be allocated to local educational agencies through a separate process (in sec. 1124). [Note: All allocation estimates under the Senate bill have thus far used county, not local educational agency, population data to calculate State total grants.]

556. Maximum part A grants under the Senate bill are equal to a weighted count of children (by county or local educational agency) multiplied by the State expenditure factor, further multiplied by the State effort factor, and finally multiplied by the State equalization factor. The State expenditure factor is 40% of the State average expenditure per pupil, with bounds on the latter of 85% and 115% of the national average expenditure per pupil (rather than 80% and 120% under current law and the House bill).

557. The State effort factor under the Senate bill is based on a comparison of the State

average expenditure per pupil (as used in the title I expenditure factor) divided by the State personal income per capita, compared to the national average expenditure per pupil divided by the national personal income per capita. The resulting amount would be 1.0 for a State with effort at the national average. The State effort factors are adjusted to be no less than 0.95 nor more than 1.05. The effort factor for Puerto Rico is equal to the lowest factor for any of the States plus D.C. (0.95).

558. The equalization factor under the Senate bill is based upon a measure of variation in average expenditures per pupil among each State's local educational agencies called the coefficient of variation. This is a measure of the average disparity in expenditures per pupil among the local educational agencies of a State, and is expressed as a percentage of the State average expenditure per pupil. In the coefficient of variation calculations under the Senate bill, the expenditures per pupil are weighted to account for differences in the enrollment level of different local educational agencies, with an extra weight (1.4 vs. 1.0) applied to estimated counts of children from poor families. The equalization factor is equal to 1 minus the coefficient of variation, so the lower a State's coefficient of variation, the higher its equalization factor. There are no limits on the equalization factor itself, although there are limits on the effects of applying it for the first 3 years (see below).

559. If a State meets the expenditure disparity standard for equalization under the Impact Aid program regulations (currently Alaska, Kansas, and New Mexico), its coefficient of variation used to calculate the equalization factor is adjusted to be no more than .10.

560. Application of the equalization factor may not cause a State's total allocation to change by more than  $\pm 2\%$  for FY 1995,  $\pm 4\%$  for FY 1996, or  $\pm 6\%$  for FY 1997 compared to what the State would receive if there were no equalization factor. For FY 1997 and beyond, there is no limit on the effect of the equalization factor.

561. For Puerto Rico, the expenditure factor is the minimum applied to the 50 States plus D.C. (.4 times 85% of the national average expenditure per pupil) further multiplied by the ratio of the Puerto Rico average expenditure per pupil divided by the lowest average expenditure per pupil for any of the States plus D.C.

562. The minimum number of poor and neglected/delinquent children in a local educational agency or county to be eligible for a grant is 10.

563. The children to be counted for grants under the Senate bill include children aged 5-17 years: (a) in poor families; plus (b) in institutions for the neglected and delinquent, or in foster homes, and who are not counted for State agency grants for the neglected and delinquent (title I, part E, subpart 3). [The House bill also includes children in families receiving Aid to Families with Dependent Children payments above the poverty level for a family of four, plus children in community day programs.]

564. The number of children counted for grants under the Senate bill is the greater of two modified counts of the poor and neglected/delinquent school age children in a county (or, if the Secretary determines that satisfactory data are available, local educational agency). Counts of poor and other formula children are weighted according to two scales, one based on the aggregate number of such children, and the other scale based on the percentage that such children

represent of the total school age population. For each LEA, the greater of the two weighted pupil counts—that based on numbers and that based on percentages—is used to calculate grants. The weights applied to different numbers of poor and other formula children vary from 1 to 1.4 on the percentage scale, and from 1 to 1.3 on the numbers scale, as follows:

WEIGHTS APPLIED TO FORMULA CHILD COUNTS FOR COUNTIES IN CALCULATING STATE ALLOCATIONS UNDER SENATE VERSION OF H.R. 6

County weight for poor and other formula children	Number range (i.e., number of poor and other formula children)	Percentage range (formula children as a percentage of total school age population)
1.000	0-1,917	0-12.2
1.075	1,918-5,938	
1.100		12.3-17.7
1.150	5,939-20,199	
1.200		17.8-22.8
1.225	20,200-77,999	
1.300	78,000+	22.9-29.7
1.400		29.8+

If grants are tabulated by local educational agency rather than by county, then the number and percentage ranges used for within-state grants under the Senate bill (see below) would be substituted for those above. The weights are applied stepwise—i.e., each weight is applied only to the share of formula children in a county (local educational agency) falling within the indicated number or percentage range. The maximum weighting factor for Puerto Rico is 1.15.

565. The State minimum grant under the Senate bill is the greater of: (a) 0.25% of total grants; or (b) 125% of the amount the State would receive if there were no minimum grant provision.

566. In general, no State may receive for FY 1995 (only) a grant that exceeds 115% of the amount the State would receive under the title I, chapter 1, part A formulas of current law, at the FY 1995 appropriations level.

Within State Allocations

567. After State grants are determined under the provisions of sec. 1123 of the Senate bill, the State totals are allocated to local educational agencies through a separate process. There is no direct connection between county or local educational agency calculations used to set State totals and the amount allocated to a county or local educational agency in this second stage of allocations.

A local educational agency is eligible for a grant only if its number of poor and neglected/delinquent children is greater than both 10 children and 5% of its total school age population.

568. If appropriations are not sufficient to pay maximum authorized grants, allocations to local educational agencies will be ratably reduced, subject to a hold harmless of 85% of the agency's previous year grant. The hold harmless is effective only for FY 1995 for local educational agencies that do not meet the 10 child or 5% thresholds, and only for FY 1995 and 1996 for other local educational agencies.

569. Under the Senate bill, up to 2% of State grants may be reserved by the State education agency for grants to schools in local educational agencies not eligible for grants. Such schools must serve attendance areas with a child poverty rate of at least 25% or the average percentage for the State, and are to be served in rank order, based on their poverty rate. Such funds must be used by a recipient local educational agency only to serve the designated school attendance

areas. The amount of these funds, combined with any hold harmless amounts the local educational agency receives, may not exceed the State average grant per poor and neglected/delinquent child counted in the formula or, for FY 1995, the grant received under title I, chapter 1, part A. Local educational agencies may not modify their pupil assignment policies in order to increase a school's percentage of poor children and therefore its eligibility for this assistance.

570. As with the formula for determining State total grants, the children counted in making grants to local educational agencies include school age children in poor families plus neglected, delinquent, and foster children not counted under title I, part E, subpart 3 (State agency program for the neglected and delinquent).

571. In making allocations to local educational agencies, a State may use one of three data sources: (a) data compiled by the Census Bureau; (b) the sum of (all) school age children in families receiving Aid to Families with Dependent Children (AFDC) payments plus one-third of the number of limited English proficient school age children; or (c) data using other poverty criteria, approved by the Secretary, and equivalent in size to the census count of children from poor families plus neglected/delinquent children.

572. In allocating funds among a State's local educational agencies that meet the 5%/10 child threshold, each agency's count of poor and other formula children is to be reduced by an amount equal to 1% of the LEA's total school-age population.

573. In addition to the 1% absorption factor, the Senate bill provides for allocation within States among eligible local educational agencies on the basis of weighted counts of poor and other children counted in the intrastate formula. The number and percentage ranges and steps are the same as those used for national allocation of targeted grants under the House bill, except that the maximum weights are 1.6 for percentages and 1.4 for numbers of children in the local educational agency counted under the formula. These weights are also applied stepwise—i.e., each weight is applied only to the share of formula children in a local educational agency falling within the indicated number or percentage range. The greater of the two weighted counts for each local educational agency—that based on percentages and that based on numbers—is used to allocate part A funds within States.

574. State education agencies may reallocate part A grants as appropriate when multiple local educational agencies serve the same area, or an agency provides educational services to children residing in a different local educational agency.

575. If a local educational agency does not provide educational services to neglected or delinquent children who are counted in determining part A grants to that agency, the State education agency may reallocate part A grants based upon such children.

576. The Senate bill provides that a local educational agency may reserve up to 2% of its part A grant to serve children in schools not otherwise eligible, as long as the school attendance areas are within 2 rank orders of the lowest poverty eligible school.

Presidential Awards Program

577. The House bill, but not the Senate amendment, allows the Secretary to develop a Presidential awards program that will recognize the person or corporation producing the best education game of the year.

The Senate amendment provides that no payments may be made under this title (should be "part") to any LEA in any State that takes Impact Aid into consideration in determining the eligibility of LEAs for State aid or in determining the amount of such aid to any LEA during that fiscal year or the preceding fiscal year.

The Senate recedes with an amendment substituting its provision, regarding State consideration of Impact Aid payments in providing State aid, for the House provision regarding reductions of State aid.

56. In subsection (b)(1), the House bill permits a State to reduce State aid to an LEA that receives a payment under section 8003 and 8004(b) (except the amount calculated in excess of the 1.0 student weighting) if the

State has in effect a program of State aid that equalizes expenditures among LEAs in the State. Paragraph (2) of the House bill provides that, in considering whether a State aid program is equalized, the Secretary shall disregard LEAs with per-pupil expenditures or revenues above the 95th percentile and below the 5th percentile. A program of State aid equalizes expenditures among LEAs if, in the second preceding fiscal year, the amount of disparity between the per-pupil expenditures or revenues of the remaining LEAs does not exceed 10 percent. Computations to determine the amount of disparity in a State aid program shall utilize any weighting mechanism that a State uses to take into account special cost differentials in allocating State aid. The Senate amendment takes a different approach by providing that a State, which has in effect a program of State aid designed to equalize expenditures among its LEAs, may take into account payments under this title, except for amounts calculated in excess of the 1.0 student weighting on behalf of children with disabilities, children on Indian lands, and heavily impacted LEAs. Additionally, the Senate amendment provides that "State aid" and "equalize expenditures" will be defined by the Secretary except that they shall not be construed in any manner adverse to a State aid program which takes into account the additional cost of providing education for particular groups or additional cost of providing education for particular groups or categories of pupils in meeting the special educational needs of such children.

The Senate recedes with an amendment—(i) clarifying that computations of per-pupil revenue or current expenditures may be based upon units of need as defined by the State; and (ii) providing that, for fiscal years 1995, 1996, and 1997, the disparity standard is 25 percent and, for fiscal years 1998 and 1999, the disparity standard is 20 percent.

57. Both the House bill and the Senate amendment have provisions relating to review of State aid programs. The House provisions are in subsection (c); the Senate provisions are in subsection (b)(4). The House bill requires 120-day written notice to the Secretary which includes the information the Secretary requires, including evidence that the State has notified each LEA of its intention to consider Impact aid payments in providing State aid. The Senate amendment has similar requirements except that the State must provide a 60-day notice to the Secretary (does not specify written notice).

The Senate recedes.

58. The House bill proves that: (i) before making a determination, the Secretary shall afford the State and local educational agencies in the State an opportunity to present their views; (ii) if the Secretary determines that a State aid program qualifies, shall certify program, notify the State, and afford an opportunity for a hearing to any adversely affected LEA; and (iii) if the Secretary determines that a State aid program does not qualify, the Secretary will notify the State and afford a hearing to the State and any adversely affected LEA. The Senate amendment provides: (i) in paragraph (4)(B) that prior to certifying any determination, the Secretary shall give the LEAs in the State an opportunity for a hearing at which such agencies may present their views; and (ii) in paragraph (4)(C) that the Secretary shall not finally deny certification to a State without first giving that State an opportunity for a hearing.

The Senate recedes.

roactive approval of a State aid program during the period 1989-92 if the State's program was approved in 1988 and in at least 1 year during the period 1989-92. This paragraph also provides that, beginning with FY 1993, such State shall not take payments under this title into consideration unless the Secretary has previously certified such State's program.

student bringing a firearm or weapon to a school served by that agency.

*Gun-Free Schools*

Also, sections 404 and 405 of the Senate amendment, mandate disciplinary action for a student possessing a weapon in any school that receives Federal funds, and amend the Individuals with Disabilities Education Act to provide for an alternative setting in cases of life-threatening behavior by a child with a disability.

The conferees expect that this information will assist us in our deliberations around this issue next year when the Individuals with Disabilities Education Act is reauthorized. Additionally, the House recedes with amendments to define the term "weapons" by incorporating by reference the definition used in the Gun-Free Schools Act, i.e., "a firearm as such term is defined in section 921 of title 18, United States Code."; to modify the length of time in the alternative placement is modified by inserting "45 days" in lieu of 90 days; and to clarify the construction clause by adding at the end of the following phrase: "except that this section shall be interpreted in a manner that is consistent with the U.S. Department of Education's Guidance Concerning State and Local Responsibilities Under the Gun-Free Schools Act of 1994, as printed in the Congressional Record of July 28, 1994, at S. 10017."

12. The Senate amendment, but not the House bill, amends Section 723 of the Act to allow a participating institution's escrow funds to be returned when it repays its loan(s) made under this part, as opposed to when all loans made to all institutions under this part are retired.

The House recedes with an amendment to clarify that an eligible institution is required to maintain in escrow an amount equal to, but not in excess of, 10 percent of its own outstanding principal.

13. The Senate amendment, but not the House bill, amends Section 435(o) of the Act to allow borrowers with a 20 percent or greater federal education debt to disposable income ratio, to obtain an "economic hardship deferment" for a maximum of 3 years on their subsidized Title IV student loans (Stafford and FISL loans).

The House recedes with an amendment rewriting the additional criterion for economic hardship deferments to provide such deferments for borrowers whose federal education debt burden equals or exceeds 20 percent of their adjusted gross income (AGI) and whose AGI, minus federal education debt burden, is less than 220 percent of the poverty level measurement specified in the Department of Education's final regulations of June 29, 1994, pertaining to the "economic hardship" deferment.

The Managers adopted this provision to clarify the meaning of the term "economic hardship." Our action should not be interpreted as a change in the course of action we took regarding student loan deferments in the 1992 Higher Education Amendments. Those amendments eliminated categorical deferments for subsidized Title IV Loans, and we continue to support this policy.

The 1992 Higher Education Amendments directed the Secretary of Education to consider income and debt-to-income ratio as primary factors in developing criteria to determine borrower eligibility for the "economic hardship" deferment. Although the Secretary's Notice of Proposed Rulemaking did take into account a borrower's debt-to-income ratio as specified by Section 435(o)(2) of the Higher Education Act as amended, the final regulation does not do so. The Managers, therefore, agreed to language to clarify that borrowers with a very significant federal education debt burden, relative to their level of income, are considered to have an "economic hardship."

In implementing this language, the Managers intend that "federal education debt burden", as used in this amendment to Section 435(o) of the Act, shall consist of the annual total payments a borrower would be expected to make on all his federal education loans pursuant to a standard 10-year repayment schedule.

14. The Senate amendment, but not the House Bill, amends Section 1544 of the Higher Education Amendments of 1992 to permit institutions that practice need-blind admis-

sions to voluntarily agree with other such institutions to: award non-federal HEA financial aid to students only on the basis of demonstrated financial need, determine student financial aid for non-federal HEA aid on common principles of need analysis, use common aid application forms for non-federal HEA aid, and exchange through an independent 3rd party certain financial data on commonly admitted applicants. The Senate amendment does not waive any requirements or obligations imposed under HEA nor does it affect any pending litigation. The provision sunsets on September 30, 1999.

This provision extends for an additional three years the temporary antitrust exemption for certain collegiate financial aid award analysis, which was originally enacted with the Higher Education Amendments of 1992 as a two-year exemption. The temporary exemption has also been revised in light of the "standards of conduct" adopted as part of the settlement of the antitrust action between the Department of Justice and Massachusetts Institute of Technology in the case of *United States v. Brown University, et al.*, Civ. Action No. 91-3274 (E.D. Pa.), on December 22, 1993.

As revised, the temporary exemption applies only to institutions of higher education that admit students on a need-blind basis. The definition of "on a need-blind basis" in subsection (c)(6) is based on language in the "standards of conduct" adopted in the MIT settlement. See also *United States v. Brown University*, 5 F.3d 658(1993).

The managers have decided against elaborating on the need-blind admissions standard in the statutory text. As should be obvious, however, evidence of a practice among admissions personnel at an institution of higher education of examining, discussing, or otherwise considering information relating to a student's financial circumstances that is derived from such student's financial aid application form, or from any other document or record obtained for the purpose of ascertaining such financial circumstances, before the decision is made regarding the student's admission will substantially increase the institution's burden of demonstrating that the school's admissions policy is truly need-blind. Prudence would counsel that schools wishing to make use of this provision insulate their admissions, process and admissions personnel as completely as possible from such student financial aid information, until after the admissions process is complete.

The term "principles of need analysis" in subsection (a)(2) has been substituted for the term "principles of professional judgment" in the earlier provision, and the inclusion of limited exchange of data specified in subsection (a)(4) has been added, in light of the "standards of conduct" adopted in the MIT settlement.

The sunset provision has been extended to September 30, 1997. While the Managers have decided to continue a temporary exemption for this limited period, it is expected that the exemption will not be extended further. Upon the expiration of this extension, those who support extending the exemption must meet the burden of demonstrating that it is truly needed in order to advance the generally pro-competitive goal of enhancing access by needy students to higher education.

15. The Senate amendment, but not the House bill, amends Section 455(f) of the Act to clarify that "old borrowers" (those who took out their first Title IV loan prior to July 1, 1993), who take out a Title IV, Part D loan will be eligible for the same deferment

opportunities on such Part D loans as will "old borrowers" who take out additional Title IV, Part B loans.

The House recedes.

#### *Equity in Athletics Disclosure Act*

16. The Senate amendment, but not the House bill, authorizes the "Equity in Athletics Disclosure Act". This amendment to Section 485 of the Higher Education Act requires each institution that participates in Title IV student aid programs, and has an intercollegiate athletic program, to submit to the Secretary of Education an annual report detailing its expenditures for each of its sports teams, differentiating between the levels of participation and expenditures for its men's, women's, and coeducational teams. The amendment further requires that these expenditures be broken down into various specific categories and that, upon request, the information gathering pursuant to this new authority be disclosed to prospective students and to the public. The amendment requires the Secretary to compile and publish this information, breaking it down by both institution and athletic conference, in an annual report, the first of which is to be issued on or before July 1, 1995. The effective date of the amendment is July 1, 1994.

The House recedes with an amendment eliminating the requirement that institutions submit an annual report to the Secretary of Education. The amendment adds language requiring the Secretary to issue final regulations to eliminate the gender equity provisions within 180 days after enactment of this subsection. Each coeducational institution with an intercollegiate athletic program must, upon request, make available to prospective students, students, and the public its first annual report pertaining to its men's and women's varsity sports teams no later than October 1, 1995.

The House amendment modifies the Senate amendment's definition of "operating expenses" and requires that institutions report each team's total annual "operating expenses". The House amendment allows institutions to, at their discretion, additionally report team operating expenses on a per capita basis. The House amendment also permits institutions to report revenues generated on an individual team basis, in addition to the mandatory reporting of revenues generated across all men's sports and revenues generated across all women's sports.

In developing regulations to implement the gender equity in athletics provisions, the Managers intend that the Secretary ensure that those institutions electing to include the optional reporting elements of per capita operating expenses by team and individual team revenues do so alongside of the total team operating expenses and the total team revenues aggregated by gender, respectively, as required pursuant to (g)(1)(B)(ii) and (g)(1)(F). The Managers agree that these additional reporting elements are to be included at the discretion of the individual institution.

#### MULTIETHNIC PLACEMENT

##### Subtitle A—Multiethnic Placement

#### Multiethnic Foster Care and Adoption Placements

Title VI of the Civil Rights Act of 1964 provides that programs that receive federal funds cannot discriminate on the basis of race, color, or national origin. Although race, color, or national origin may not be used as a basis for providing benefits or services, the federal policy guidelines that interpret Title VI's meaning in the context of adoption and foster care permit officials to consider these factors in making placements. The guidelines state that: "In placing a child in an adoptive or foster home it may be appropriate to consider race, color, or national origin as one of several factors . . . This policy is based on unique aspects of the relationship between a child and his or her adoptive or foster parent. It should not be construed as applicable to any other child welfare or human services area covered by Title VI."

##### Subtitle B—Other Provision

#### Effect of Failure to Carry Out State Plan

The "State plan" titles of the Social Security Act include Aid to Families with Dependent Children (AFDC) (Title IV-A), Child Welfare Services (Title IV-B), Child Support and Establishment of Paternity (Title IV-D), Foster Care and Adoption Assistance (Title IV-E), Job Opportunities and Basic Skills Training (JOBS) (Title IV-F), and Medicaid (Title XIX). Under these titles, as a precondition of funding, each participating State is required to develop a written "State plan" that meets certain statutory requirements in order to be approved by the Secretary of the Department of Health and Human Services (HHS).

The Adoption Assistance and Child Welfare Act of 1980 amended the Social Security Act to require States to provide in their Title IV-E plans that, in the case of each child, reasonable efforts will be made (a) prior to the placement of the child in foster care, to

prevent or eliminate the need for removal of the child from his home, and (b) to make it possible for the child to return to his home (sec. 471(a)(15)).

On March 25, 1992, the U.S. Supreme Court held in *Suter v. Artist M.*, that the "reasonable efforts" clause does not confer a federally-enforceable right on its beneficiaries, nor does it create an implied cause of action on their behalf. In rendering its opinion, the Court also stated that although section 471(a) does place a requirement on the States, that requirement "only goes so far as to ensure that the States have a plan approved by the Secretary which contains the 16 listed features."

#### House Bill

No provision.

#### Senate Amendment

The official title of the Senate Amendment is the Multiethnic Placement Act of 1994. The stated purpose of the Multiethnic Placement Act is to decrease the length of time that children wait to be adopted and to prevent discrimination in the placement of children on the basis of race, color or national origin. It has the following provisions:

#### Prohibition

Agencies or entities receiving Federal funds who are involved in adoption or foster care placements may not, solely on the basis of the race, color, or national origin of the adoptive or foster parent, or the child, involved: (1) categorically deny to any person the opportunity to become an adoptive or foster parent, or (2) delay or deny the placement of a child for adoption or into foster care, or otherwise discriminate in making a placement decision.

#### Permissible Consideration

Any agency or entity may consider the race, color or national origin of child as a factor in making a placement decision if the factor is relevant to the best interests of the child involved and is considered in conjunction with other factors.

#### Definition

The term "placement decision" means the decision to place, or to delay or deny the placement of, a child in a foster care or an adoptive home, and includes the decision of the agency or entity involved to seek the termination of birth parent rights or otherwise make a child legally available for adoptive placement.

#### Limitation

The Secretary of HHS is prohibited from providing funds under Title IV-E of the Social Security Act for placement and administrative expenditures to any agency or entity that is not in compliance with the anti-discrimination policy outlined above.

#### Equitable Relief

The Act would provide a right to bring an action seeking relief in U.S. district court to any individual who is aggrieved by a violation of the anti-discrimination policy outlined above.

#### Construction

Nothing in the Multiethnic Placement Act shall be construed to affect the application of the Indian Child Welfare Act.

#### CONFERENCE AGREEMENT

#### Subtitle A—Multiethnic Placement

#### Multiethnic Foster Care and Adoption Placements

The conference agreement follows the Senate amendment with the following modifications:

#### Purpose

Change the purpose to read: It is the purpose of this Act to promote the best interests of children by: (1) decreasing the length of time that children wait to be adopted; (2) preventing discrimination in the placement of children on the basis of race, color, or national origin; and (3) facilitating the identification and recruitment of foster and adoptive families that can meet children's needs.

#### Permissible Consideration

Change permissible consideration to read: An agency or entity to which the prohibition against discrimination applies may consider the cultural, ethnic, or racial background of the child and the capacity of the prospective foster or adoptive parents to meet the needs of the child of this background as one of a number of factors used to determine the best interests of a child.

#### Limitation

Substitute the following language: Non-compliance with this Act constitutes a violation of Title VI of the Civil Rights Act of 1964.

#### Amendment to Title IV-B Child Welfare Services program

Add the following Title IV-B State plan requirement: The State plan must provide for the diligent recruitment of potential foster and adoptive families that reflect the ethnic and racial diversity of children in the State for whom foster and adoptive homes are needed.

#### Federal Guidance and Deadline for Compliance

Add the following: Not later than 6 months after enactment the Secretary of HHS must publish guidance to concerned public and private agencies and entities with respect to compliance with the Multiethnic Placement Act. An agency or entity that receives Federal assistance and is involved with adoption or foster care placements shall comply not later than 6 months after publication of guidance or 1 year after enactment, whichever is sooner. In cases where a State demonstrates to the Secretary's satisfaction that a particular practice cannot be changed without amending State law, the Secretary may extend the compliance date for such State a reasonable number of days after the closing of the first State legislative session beginning after the Federal guidance is published.

#### Subtitle B—Other Provision

#### Effect of Failure To Carry Out State Plan

The provision would amend Title XI of the Social Security Act by adding a new section that reads as follows: "In an action brought to enforce a provision of the Social Security Act, such provision is not to be deemed unenforceable because of its inclusion in a section of the Act requiring a State plan or specifying the required contents of a State plan. This section is not intended to limit or expand the grounds for determining the availability of private actions to enforce State plan requirements other than by overturning any such grounds applied in *Suter v. Artist M.*, 112 S. Ct. 1360 (1992), but not applied in prior Supreme Court decisions respecting such enforceability; provided, however, that this section is not intended to alter the holding in *Suter v. Artist M.* that section 471(a)(15) of the Act is not enforceable in a private right of action."

The intent of this provision is to assure that individuals who have been injured by a State's failure to comply with the Federal mandates of the State plan titles of the So-

cial Security Act are able to seek redress in the federal courts to the extent they were able to prior to the decision in *Suter v. Artist M.* while also making clear that there is no intent to overturn or reject the determination in *Suter* that the reasonable efforts clause to Title IV-E does not provide a basis for a private right of action.

The amendment would apply to actions pending on the date of enactment and to actions brought on or after the date of enactment.

## EXTENSIONS OF REMARKS

## INTRODUCING THE HEALTH INNOVATION PARTNERSHIP ACT OF 1994

HON. PETER A. DeFAZIO

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. DEFAZIO. Mr. Speaker, 1 year ago, President Clinton stood in this Chamber to announce his health care reform legislation. He told us that our health care system was in crisis and that we are the only industrialized Nation that does not provide health care to all of its citizens. One year later, nothing has changed.

The Congress did not accept the President's proposal, in fact, it did not agree on any proposal. Congress failed to reach a consensus to deliver a national health care plan. If it was impossible to overhaul the health care industry when the national momentum was at its peak, then it would take nothing short of a miracle for reform to take place next year in a more partisan and unfriendly climate.

What is obvious after 2 years of intense health care debate is that many individuals, health care professionals, and policymakers agree some type of reform is needed. What's unresolved is what kind of reform is necessary and how to get there.

In the effort to overhaul the Nation's health care system, the shared goals of cost containment, increased access, and improved quality were lost. In fact, the latest health care reform effort seems to have abandoned the goals of health reform in a last-minute attempt to find the unattainable middle-ground reform solution. According to a statement by Senator DANIEL PATRICK MOYNIHAN in the September 14 CONGRESSIONAL RECORD.

The Mainstream Coalition proposal would be a step backward for New York and other progressive states that have already taken actions to expand coverage and contain costs.

State efforts and innovation should not be thwarted in any national effort. It's ridiculous to ask progressive States to take a step backward and wait while other States try to catch up.

The reforms proposed are all based on programs abroad or theoretical models. As Yale professors Ted Marmor and Jerry Mashaw said in a New York Times editorial of June 12, 1994,

If Congress adopts an unproven and untested \*\*\* plan and it turns out to be the health care equivalent of a train wreck, it would be sensible to not have the country on the same train at the same time.

As we've learned from past Federal legislation, it's difficult to repair a system once it's enacted into law. A one-size fits all bill ignores that what may work in Oregon may not work in Pennsylvania, Connecticut, or Texas.

Without concrete examples of what works, I'm afraid we'll spend future congressional sessions rehashing this year's debate. While Congress abandons this issue, many Americans are left without coverage and some States are moving ahead with reforms of their own.

Six States have already enacted comprehensive health care reform proposals—Oregon, Hawaii, Massachusetts, Minnesota, Florida, and Washington. In addition, 44 States have begun small group insurance reform, 44 have enacted data collection systems and 41 have Medicaid managed care experiments underway.

Mr. Speaker, there is a viable alternative to this congressional impasse. Today, I introduce the Health Innovation Partnership Act. Senators MARK HATFIELD of Oregon and BOB GRAHAM of Florida are the principal sponsors in the Senate. This important legislation allows States the flexibility, with Federal assistance of \$50 billion in State grants, to devise their own health reform plans that increase access, control costs, and improve the quality of care.

The Health Innovation Partnership Act uses States as laboratories to test successful reform efforts, allowing States to adopt single-payer, alliances, managed care, or any other plan that works for their citizens. This bill ensures that all individuals in a State will have equal or superior benefits to those they currently receive. Furthermore, this bill gives priority for grants to States expanding health coverage to children and youth.

At the end of the 5-year State innovation project period, a report will be made to Congress on the progress States made toward reaching the goals of expanding coverage and containing costs. This report will include recommendations for future action at both the national and State level, in addition to highlighting the successes and failures of individual States.

This bill also establishes a process for the creation of minimum national insurance standards, expands the infrastructure for public health and prevention activities in rural and underserved areas, and increases the funding for medical research.

The public health section seeks to promote prevention, public health, cost effective treatment, and health education through: First, strengthening the partnership with capacity of local and State public health departments to carry out core public health functions; second, expanding access to preventative and primary care services for vulnerable and medically underserved populations; third, supporting applied research on prevention and effective public health interventions; and fourth addressing public health work force needs and access problems.

Dr. C. Everett Koop, a leading advocate for preventative medicine, noted that 70 percent of all illness is preventable and that there are approximately 1 million deaths annually that

are preventable. The failure to prevent these illnesses carries a hefty price tag in the billions. Ironically, our Nation invests less than 1 percent of our total health care dollars on public health. Common sense tells us it's time to redirect our priorities and increase funding for vital public health programs.

Our health care system could be more adequately described as a sick-care system. Instead of preventing illness and promoting healthy living, our system focuses on sickness and acute medical care. Keeping communities safe and healthy has long been the priority of public health organizations and departments.

We need to do more than control the costs of health care and rework the payment structure. We need to evaluate our delivery system and find ways to keep our citizens healthy.

The medical research component of the bill dedicates a minimum of 6 billion over the next 5 years to increase the annual appropriations to the National Institutes of Health Research. While I believe prevention should be the cornerstone of any health plan, we must also invest the money and energy needed to find cures for those illnesses that cannot be prevented. Medical research also augments our efforts to discover preventative treatments and genetic patterns that help improve the health of our people.

A mere 2 to 3 percent of our Nation's total health care spending goes to support medical research. At a time when our Nation is on the forefront of major medical research breakthroughs, we're unfortunately funding the fewest number of research grants in 10 years. Cures and preventative treatments will truly help us contain the costs of health care.

This federalist bill forms the Federal-State partnership our forefathers sought. The States can serve as microcosms, giving us accurate data on reform efforts and informing our national debate.

This bill is not the last word in the health care debate—but instead, a sturdy beginning. It's the first step toward improving health care coverage for all Americans.

In closing, I'd like to thank Senator BOB GRAHAM and MARK HATFIELD for their leadership on this legislation and their dedication to health care reform. I look forward to working with them to pass this important bill. I am also glad to work with any of my colleagues and others who have recommendations to improve this bill.

TRIBUTE TO GEBRAN S. ANTON

HON. DAVID E. BONIOR

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. BONIOR. Mr. Speaker, this evening, the southeast Michigan chapter of the March of Dimes Birth Defects Foundation will be hosting

the 11th annual Alexander Macomb Citizen of the Year award dinner. The award, instituted in 1984, is named after my home county's namesake, Gen. Alexander Macomb, a hero of the War of 1812.

This year, the March of Dimes has chosen my long-time friend, Gebran Anton, as a recipient of the award. A native of Mount Clemens, MI, Gabe Anton has worked hard to revitalize our community. As a developer, retailer, business leader, and community activist, Gabe has been instrumental in spearheading a master plan for the city. His leadership has fostered a sense of cooperation between the local business people that has not only given the city a new look, but a new attitude. Mount Clemens has again become a city where people are proud to work, shop, and live. He most recently has provided space for students from Mount Clemens High School to run a music store. His generosity is providing first hand experience to a new generation of Mount Clemens entrepreneurs.

Gabe's commitment to service and hard work are not limited to entrepreneurial endeavors. The Boy Scouts, the YMCA, the Elks Club, and the Knights of Columbus represent only a few of the many organizations to which he has committed his talents.

Through advocacy, education and community service, the March of Dimes has established itself as an organization with an impeccable reputation. And, the southeast Michigan chapter rightly recognizes Gebran Anton for his excellent service and outstanding leadership. Receiving recognition from the March of Dimes is an exceptional honor and I urge my colleagues to join me in saluting Gabe Anton, as a recipient of the Alexander Macomb Citizen of the Year Award.

#### COP COLLECTIBLE CARDS

##### HON. CURT WELDON

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. WELDON. Mr. Speaker, I rise today to bring to the attention of my colleagues an outstanding and innovative program of my district's Brookhaven Police Department which has been enormously successful in teaching young citizens to stay away from the lure of illegal drugs.

As the incidence of juvenile crime and illegal drug use continue to reach near epidemic proportions, it's imperative that we as a nation do all that we can to educate students on the dangers of drugs, crime, and violence.

The Brookhaven Police Department has found a unique way to send positive messages to young people through a very successful program that other departments are now actively seeking for participation. Trading cards, a seemingly old fashioned idea, is once again gaining momentum.

Last year, the department issued its first edition of Cop Collectibles—trading cards, similar to baseball and football cards. However, instead of sports heroes, the card pictures the local police officers. On the back is the officer's biography and an antidrug message which the officer on the card has selected.

The Cop Collectible card program lets young citizens to know their police officer. Children not only receive a positive antidrug message, but get to know the officer as a friend, not a foe.

Police Chief John Eller has initiated Cop Collectible card contests that have gained the attention of the entire Brookhaven community. Youths who gather the largest collection of cop cards have won a variety of gifts including ballpark tickets and bicycles.

This unique program has not only provided a strong and effective antidrug message to the community's young people, but has fostered a stronger relationship between law enforcement and the local kids.

The Brookhaven Police Department has reached out to their community in an effective way that sends positive messages to local children.

I wish to commend Police Chief John Eller and the entire Brookhaven Police Department for their outstanding efforts and congratulate them on the success of the cop card program. It now serves as a model in other parts of the Seventh Congressional District.

I am confident that we will see the positive results of this program for years to come.

#### TRIBUTE TO FRED PRUITT

##### HON. BOB FILNER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. FILNER. Mr. Speaker and colleagues, I rise today to honor a great friend and community leader who passed away this week, Fred Pruitt. Fred always worked to make life better for everyone, believing that activism was better than lip service, progress better than the status quo.

In 1960, a young Fred Pruitt decided to serve his country by joining the U.S. Navy, where he was stationed on the U.S.S. *Black*. He served two tours in Vietnam as a fire control technician and returned home to become a journeyman electrician. He also attended San Diego State University, while juggling the responsibilities of a young family. In 1973, Fred joined the Jaycees. He was named Jaycee of the Year in 1974 and finally president of the national city chapter, but more was ahead for Fred Pruitt.

In 1975, he and his wife Allie opened up the National City home and Hardware Store. By 1977, he continued his service to his community on the board of directors of the National City Chamber of Commerce. He was later appointed the National City Civil Service Commission. In 1978, he was appointed to the National City Planning Commission and became chairman in 1982.

Fred was elected city council in National City in 1986, serving until 1990. During his tenure as city councilman, he also served as vice mayor of the city. For all of his achievements and contributions to his community, Fred and his wife Allie shared the Citizen of the Year Award for National City in 1991.

He was also recognized at the State level, winning the Outstanding Small Business Award for the State of California in 1993. Just

recently, Fred and Allie flew to Oakland to receive the Minority/Supplier/Distributor of the Year Award for 1994 by the U.S. Department of Commerce.

But of all the awards he won, perhaps the most significant was the respect and admiration of his friends, family, and community for his unwavering commitment to hard work, community involvement, and a sincere belief that one person can make a difference.

In this lifetime, we all come across a small number of special people, those who touch our minds, hearts, and souls with their activism, optimism, and dedication to making everyone's life richer. Fred was one of those chosen few. My thoughts and prayers go out to Allie and his family, friends and the community. This world needs more people like Fred Pruitt; he will be sorely missed.

#### RESPONSIBILITY IN GOVERNMENT

##### HON. MARTIN R. HOKE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. HOKE. Mr. Speaker, I want to bring to the attention of my colleagues the efforts of an organization headquartered in my district, whose work should serve as a model for concerned citizens everywhere.

The organization is known as RIGOR, which stands for Responsibility in Government, Our Right, and is comprised of everyday Americans who are not content to sit back and complain about our Nation's state of affairs without doing something about it. RIGOR's mission is to work for responsible and responsive representation in government, and their dedication to this cause has proved an invaluable resource to me during my first term in Congress.

One of RIGOR's most valuable projects in recent months has been their circulation of a petition, reprinted below, calling for Congress to enact a market-based reform of the health care system and oppose a government-run, tax-heavy bureaucratic approach. I commend my colleagues RIGOR's petition, and I urge them to heed RIGOR's good advice when we take up health care reform in the next Congress.

#### PETITION TO CONGRESS ON HEALTH CARE REFORM

Responsibility in Government, Our Right (R.I.G.O.R.) is an organization dedicated to promoting responsible and responsive government action. On behalf of R.I.G.O.R. and in accordance with its philosophy, the Trustees of R.I.G.O.R. hereby petition Congress regarding the present national discussion on Health Care as follows:

A. Any solution to problems in the health care system MUST NOT include comprehensive Federal regulation of health care. Present government intervention has already caused more problems than it has solved.

B. We prefer that a market-based approach favoring private enterprise and empowerment of individual health care consumers be the model for any health care policy changes. We believe that, given the chance, the health care industry will improve the current situation much faster than any government bureaucracy.

C. We fundamentally oppose the establishment of a Federally Mandated or Nationalized Health Care System. In England, Ireland and Canada, national health care systems have resulted in closed hospitals due to money shortages. National health care systems have proven to be expensive and inefficient.

The signers below, both members and non-members of R.I.G.O.R., endorse and support these principles and hereby petition Members of Congress to legislate in accordance with these principles.

**NATIONAL BONE MARROW DONORS  
AWARENESS WEEK**

**HON. ELIZABETH FURSE**

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 28, 1994*

Ms. FURSE. Mr. Speaker, September 12 has been designated National Bone Marrow Donors Awareness Week, and I want to take this opportunity to applaud those who have volunteered to join the National Bone Marrow Registry.

The registry was set up by committed individuals with assistance from Congress in 1987 to help people with leukemia and other blood disorders to find potential bone marrow donors. Since the registry's inception, 1.4 million Americans have signed up and are available to donate their bone marrow to save another's life.

In my district in Oregon there are three donor collection and transplant sites: one in Portland, one in Aloha, and one in Tualatin. There are also 15 other collection and transplant sites around the State of Oregon. I support this program, and encourage all Americans to consider volunteering for the registry.

On this occasion, I want to recognize the efforts of a very special person, Oregon's Dave Frohnmayer. Dave Frohnmayer was formerly State attorney general and is currently the president of the University of Oregon. Along with his noble record of public service, Dave is a true hero for his endless dedication in promoting the marrow registry, recruiting volunteers for the program, and raising public awareness. His personal crusade began when his two daughters, Katie and Kristen, contracted a rare blood disease. In seeking treatment they discovered a lack of donors around the country. Katie Frohnmayer died September 26, 1991. Dave and his wife, Lynn, honor her life by continuing to work to expand the donor registry.

During National Bone Marrow Donors Awareness Week, I call on all Americans to join with Dave Frohnmayer and other American heroes and volunteer for the registry.

**HON. DAVID E. BONIOR**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 28, 1994*

Mr. BONIOR. Mr. Speaker, this evening, the southeast Michigan chapter of the March of

Dimes Birth Defects Foundation will be hosting the 11th annual Alexander Macomb Citizen of the Year award dinner. The award, instituted in 1984, is named after my home county's namesake, Gen. Alexander Macomb, a hero of the War of 1812.

This year, the March of Dimes has chosen Dominic and Fred Severini, Jr., to be recipients of the second annual Family of the Year Award. Committed to improving the health of America's babies, the March of Dimes in southeast Michigan is paying tribute to the Severinis for their service and leadership in the community. The family is perhaps best known for the Fern Hill Country Club which offers golfing, racquetball, bowling, and excellent banquet facilities.

The sons of immigrant Italian parents, the Severinis have discovered the American dream while never forgetting the needs of the less fortunate. Their success has enabled them to bless the March of Dimes and many other community organizations with their skills and talents.

Through advocacy, education, and community service, the March of Dimes has established itself as an organization with an impeccable reputation. And, the southeast Michigan chapter rightly recognizes the Severinis for their commitment to our community. Receiving recognition from the March of Dimes is an exceptional honor and I urge my colleagues to join me in saluting Dominic and Fred Severini, as recipients of the Alexander Macomb Family of the Year Award.

**TRIBUTE TO AL SCHACHT**

**HON. CURT WELDON**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 28, 1994*

Mr. WELDON. Mr. Speaker, after nearly 35 years with the Forest Service, Al Schacht, a resident of my congressional district, will retire tomorrow as Director of State and Private Forestry for the Northeastern Area.

Al joined the Forest Service in 1959 as an engineer, laying out roads for timber sales. Later, he served as a wildlife biologist at the Beaverhead National Forest. In 1966, Al joined the State and Private Forestry division, where he would remain for the rest of his career. His accomplishments there were many. He wrote legislation for the Forestry Incentive and Urban and Community Forestry Programs. He did the staff work for development of the rural community fire protection legislation guidelines and implementing procedures. He conceived and developed the State Forest Resource Planning Program.

Through his long career, Al demonstrated outstanding leadership qualities and a strong commitment to people and forests. He has made a very real contribution toward the conservation of our Nation's forests. Al will certainly be missed within the Forest Service, but his retirement is well earned. I wish him and his wife, Judy, much happiness in the future.

**THE DUTY DRAWBACK DISASTER  
RELIEF ACT OF 1994**

**HON. HOWARD L. BERMAN**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 28, 1994*

Mr. BERMAN. Mr. Speaker, more than 9 months after the devastating January 17 Northridge earthquake, many individuals, families, and businesses in the Los Angeles area are still picking up the pieces and trying to return to a normal existence. The Federal Government has played a central role in the recovery effort from day one, and to date significant progress has been made. FEMA Director James Lee Witt, SBA Administrator Erskine Bowles, and HUD Secretary Henry Cisneros deserve a great deal of credit for their willingness to go the extra mile to help those in need.

Despite the unprecedented flexibility demonstrated by Federal, State and local officials, some earthquake-damaged companies have been unable to obtain disaster assistance. A number of businesses face relatively unique problems that had not been previously experienced or anticipated, and are thus having trouble qualifying for the standard Federal disaster assistance programs.

To help ensure that some victims of the Northridge earthquake and other disasters don't fall through the cracks, I am introducing legislation today that would provide an 18 month extension of the duty drawback filing period for businesses that sustain damage in a presidentially declared disaster. Under current law, the Commissioner of Customs has no discretion to provide such an extension even if, through no fault of their own, businesses lose their records in a fire, flood, hurricane, tornado, earthquake or other disaster.

This legislation would have an almost negligible budgetary impact, yet would be of crucial importance to the small number of businesses unable to file drawbacks when disaster strikes. The Customs Service, the Treasury Department, and the Office of the United States Trade Representative have all signaled their support for this legislation, and I hope it will be enacted by the Congress in a timely fashion.

H.R. —

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. SPECIAL RULE FOR EXTENDING TIME FOR FILING DRAWBACK CLAIMS**

Section 313(r) of the Tariff Act of 1930 (19 U.S.C. 1313(r)), is amended by adding at the end the following:

“(3)(A) Notwithstanding the limitation set forth in paragraph (1), the Customs Service may extend the time for filing a drawback claim for a period not to exceed 18 months, if—

“(i) the claimant establishes to the satisfaction of the Customs Service that the claimant was unable to file the drawback claim because of an event declared by the President to be a major disaster on or after January 1, 1994, and

“(ii) the claimant files a request for each extension with the Customs Service within 1 year from the last day of the 3-year period referred to in paragraph (1).

"(B) If an extension is granted with respect to a request filed under this paragraph, the periods of time for retaining records set forth in subsection (t) of this section and section 508(c)(3) shall be extended for an additional 18 months.

"(C) For purposes of this paragraph the term 'major disaster' has the meaning given such term in section 102(2) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5122(2))."

## THE PANAMA CANAL AND THE NEXT 5 YEARS

HON. PETER T. KING

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. KING. Mr. Speaker, in just a little over 5 years, the Panama Canal will be transferred to Panama in accordance with the Carter-Torrijos Treaty.

The Panama Canal remains very important to the economic trade interests of the United States. We are the largest users of the Panama Canal with well over 50 percent of the cargo volume. Additionally, the metropolitan area of New York City relies significantly on the Panama Canal. According to the Port Authority of New York and New Jersey, some 60,000 jobs in our area are the result of traffic through the Panama Canal.

There are questions as to whether Panama has the capacity to operate the canal with the same safety and efficiency as the United States. Dealing with these questions, Robert R. McMillan, a fellow Long Islander and Chairman of the Board of the Panama Canal Commission, recently delivered an address in New York City to the Propeller Club of the United States. As a supporter of the American Merchant Marine, the Propeller Club has an obvious interest in the canal's future. After 5 years on the Board of the Panama Canal Commission and having served as Chairman for the last year, Mr. McMillan's remarks will be of great interest to my colleagues.

### THE PANAMA CANAL AND THE NEXT FIVE YEARS

(By Robert R. McMillan)

At the outset, let me set the stage for our discussion. The Panama Canal is a business which employs some 7,500 people and has annual revenues in excess of \$530 million. The Canal operates without any burden to the taxpayers of the United States. Based on the annuity and commissions paid to Panama, it can actually be said that the Panama Canal Commission makes a profit. The Canal represents almost twenty percent of the Panamanian economy. And while significant to the commercial activity of the United States, the Panama Canal no longer has as important a strategic military value as in the past.

What I want to deal with today is how the Panama Canal Commission and the respective governments of Panama and the United States are doing in the transition process—a process which will transfer the Canal to Panama at noon on December 31, 1999. First, keep in mind that the Panama Canal is much more than an international waterway. It is also a highly sophisticated industrial-maritime business complex—and I emphasize business. While obvious, it should be noted that

operating in Panama is not similar to conditions at the St. Lawrence Seaway. The infrastructure in Panama does not have a bevy of electricians, divers, communications specialists, welders, carpenters, machine tool operators and other technically qualified people ready for call at a moment's notice. As a result, it is necessary to have in place, not only skilled management and engineers to supervise Canal operations, but it is essential to have the support crafts available at all times. It is important to understand the dimensions of the Canal as we lead up to a "seamless transfer" to Panama in just five years. By "seamless," the Board of Directors of the Panama Canal Commission means that there will be no perceivable bump in operations as Panama assumes responsibility for the business. Such will be the challenge for both the governments of Panama and the United States as well as the Panama Canal Commission and the entity to be created by Panama to manage the Canal. It is extremely important that you understand our mutual objectives and have faith in the implementation of our plans.

### PANAMA

While all parties have a responsibility for the transfer of the business, let me begin with Panama. Key to the success, in our envisioned "seamless transfer," will be the actions of the Government of Panama. In that connection, I feel that Ernesto Perez Balladeres, the newly inaugurated President of Panama, could well be the right person at the right time. In my meetings with him since his May 8 election, I have found him decisive, full of confidence and greatly aware of the burden he has to prepare Panama for effective stewardship of the Panama Canal. In telling a friend about my confidence in the new President, I was greeted with a smile and the declaration, "It doesn't surprise me. We are both Notre Dame graduates!" Add to this President Perez Balladeres' Wharton School education, employment with a major international bank, and political experience—and it is clear why people are impressed with the new President. In preparing to assume the Presidency, he has used business-like approaches to issues facing Panama. In addition, he has selected many outstanding people for important government posts—individuals who have real ability and credibility. In addition, the new President will have a "workable" majority in Panama's legislative body, the National Assembly.

I have absolutely no doubt about the capability of Panamanians to run the Canal from the top to the bottom. Gilberto Guardia, a Panamanian, has done a first-rate job as Administrator. In all, Panamanians occupy almost 90 percent of Canal positions. They are making the operating decisions today—now—as I speak. Let me emphasize this point again. Panamanians, as I speak, are making Canal decisions affecting operations today and well past the year 1999. The transition has been under way for over fifteen years and is accelerating.

In addition to the Administrator, two of the three top Bureau heads are Panamanian. Panamanian managers are at every level within the Canal organization. They are all performing in an outstanding manner. I have little doubt that more Panamanians will move into management positions over the next several years, because that is the stated and unequivocal policy of the Panama Canal Commission's Board of Directors. This policy is fully supported by Canal management. The concern expressed, by some government officials in Panama, about having more Pan-

amanians in management positions, while somewhat overstated for internal political purposes, is a constant reminder to the Commission of our responsibility in this area. Believe me—we take the responsibility very seriously.

Of most concern to Panama should be the creation of the entity which will assume responsibility for the Canal on the date of transfer. The National Assembly has already passed for the first time a new Constitutional Amendment which would create the Panama Canal Authority. The current National Assembly, which assumed office on September 1, will now have to consider passing this measure for a second time in order for it to become part of the Panamanian Constitution. Insulating Canal business operations from day to day politics in Panama is one of the major and most important features of this proposed Amendment. Treating the Canal as a business and not as an appendage of the government will be in the best interests of all users and those working for the Canal. There are now some doubts as to whether the Amendment will be approved for a second time by the current National Assembly. This is a decision for Panama. World shipping, anxious about the future, will be carefully observing what substitute is arranged should the Amendment be shelved.

The importance of this Panamanian Canal entity is best seen through some of the issues which must be considered. It will have to consider toll-rates, negotiations with labor unions, major capital expenditures committed to before 1999 and delivered well into the next century (The Gaillard Cut widening program is one example), budgets, financing, insurance and many other details—all of which should flow in an uninterrupted way through our "seamless transfer."

Another area of concern is the enactment of laws which will govern the Canal after 1999. Today, United States law covers most aspects of the Canal business. While the proposed Constitutional Amendment sets the tone and even incorporates certain laws of the United States, further legislative action by Panama is required. Codifying laws to cover ship liability, procurement, ethics and an entire personnel structure remain high on the list of priorities for Panama. The Commission is currently cooperating with the Government of Panama in drafting such legislation.

While these issues and many more remain on Panama's plate for consideration, I would be remiss if I did not comment on the fine work of the Presidential Commission headed by J.J. Vallarino. Mr. Vallarino, a Panamanian member of the Commission's Board, took on the responsibility for his country to develop the Constitutional Amendment mentioned earlier and worked arduously to frame the core laws needed to supplement the Constitutional Amendment. This Commission has made significant progress and should be complimented for its untiring and careful work.

It is a given that most people can correctly observe the scope of a problem. Fewer, then, have the capacity to lay out the necessary plans. And still fewer have the capability to execute the plans. With regard to the transfer, much of the execution is up to Panama. The next five years are critical. President Perez Balladeres has the "watch" during this critical period. From what I have seen to date, I believe he will lead Panama effectively through the transition process—so long as he is not distracted by internal Panamanian politics.

UNITED STATES AND PANAMA CANAL  
COMMISSION

During the transition period, the Panama Canal Commission must continue to maintain and operate a world class waterway. In that connection, the Canal management must constantly review operations to insure that innovation, creativity, cost savings and dedication to efficiency remain high priorities. There are several areas where the United States has a responsibility. First, is the passage of President Clinton's recommendations to the Congress for changes in the Panama Canal Commission. Turning the Panama Canal Commission into a Government Corporation is his key proposal. In calling for the Commission to become a corporation, the President's report said, "As an agency with a commercial mission, an organizational structure that allows market responsiveness and operational flexibility is, most desirable." A government corporation would be able to consider implementing operating conditions and regulations more conducive to transferring the Canal to a Panamanian entity—all which could be assured by that entity.

Other recommendations relate to greater Board involvement, qualifications for Board members, the toll-rate process, a study to cover budgeting, procurement, personnel, ethics, audits and liquidation of liabilities. This proposed legislation will probably be considered in the next Congress. Passage of President Clinton's proposals are essential to achieving a "seamless transfer" of the Canal to Panama.

Another topic of importance is the continuing necessity to increase the number of Panamanians moving into management positions. The Canal has marvelous training programs which are invaluable in meeting that objective. From the crafts to off Isthmus courses at U.S. Government facilities and universities, Panamanians are being prepared to handle the business. Training of people is one of the critical elements of our transition.

The PCC has taken steps to help in the transition. The Board of Directors, last April, created the Transition Affairs Committee which is made up of two U.S. and two Panamanian Directors. This Committee has the responsibility to monitor and supervise transition activities of the Commission. In addition, a special Office under the Administrator and Deputy Administrator has been created to coordinate transition matters within the Commission. The Panama Canal Commission will also have to provide assistance to the new Panamanian entity on a wide range of administrative matters—some of which I referred to earlier in these remarks. Full and open communications between the Panama Canal Commission and the Panamanian entity to be responsible for the Canal will be essential. This will require some mind set shifts for both Canal management and Panama.

There is one other area of concern which is applicable to both the United States and Panama. The preservation of Canal institutional memory and building on the trust developed over the last five years requires continuity in top management and the Board of Directors. The wholesale replacement of U.S. Board members would, in my opinion, seriously impact on the transition process as well as Canal operations.

Finally, from the viewpoint of the transition, I am constrained to comment on the role of the U.S. military in Canal affairs. It is a given that without the engineering capabilities of the U.S. Army Corps of Engineers,

in cooperation with our Nation's industrial ingenuity, the Canal would probably not have been completed. But, today is a new day. Almost one year ago, I became the first non-Department of Defense person to Chair the Board of the Panama Canal Commission—and the Canal is still operating. That step sent an important and positive message to Panama. The Panama Canal should not be dominated by the U.S. Department of Defense. The Canal must be viewed—again quoting from President Clinton's report to the Congress—"As an agency with a commercial mission. . . ." That is the right message and example for Panama as we convert to a government corporation and prepare to transfer the Canal.

## CONCLUSION

I have been privileged to serve on the Board of the Panama Canal for the last five years. It has been one of the most interesting experiences of my life. And I have to admit that I am enthralled by the Canal. In fact, much of America has had a love affair with the Panama Canal for some ninety years. Our ties are deep and emotional. After all, it was American perseverance, diplomacy, engineering, industrial might and medical know-how which completed the Canal after France's failure.

But the Canal is much more than an engineering triumph and complex maritime industrial business. When completed in 1914, the Panama Canal was the world's most expensive peace time project ever undertaken. It was completed ahead of schedule and under budget. With President Teddy Roosevelt at its side, the construction of the Canal also marked the entry of our nation onto the world stage. Further, it fulfilled the earlier visions which had inspired the explorations of Columbus, Balboa and Magellan. The Canal truly remains one of the World's wonders.

The maritime industry and the entire world economic community will be watching very carefully as the United States and Panama prepare to meet the Treaty commitments. Our customers want to continue doing business with the Canal. We want to continue doing business with them. Our employees and management are ready to uphold the traditions and world class service provided by the Canal over the last eighty years. It is now up to Panama and the United States to execute the transfer and permit the dedicated employees to operate the Canal without interference. As of this date, the "seamless transfer" is definitely on track—with only understandable caution lights flashing down the road.

## HONORING SUZIE PUSKAS

## HON. DALE E. KILDEE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. KILDEE. Mr. Speaker, I rise today to honor the recipient of the 1994 Golden Door Award, Mrs. Suzie Puskas. Mrs. Puskas will receive the award at the annual dinner meeting of the International Institute of Flint on Tuesday, October 11.

The International Institute of Flint presents this award annually to a foreign-born citizen who has substantially improved life in the Flint community. Suzie Puskas's service to newly arrived immigrants in Flint has spanned the

last seven decades. She is an unwavering pillar of the International Institute's commitment to serving those who come to the United States seeking a better life.

Born in Hungary on February 16, 1895, Suzie emigrated to the United States in 1914. She worked in New York as a live-in maid during her first years in the United States. She was all alone in this country and corresponded with Andrew Puskas during World War I. Andrew was a U.S. soldier serving overseas. The couple married after the war and moved to Flint in 1919. They opened a grocery store in the St. John Street community serving the new immigrants. In 1923 Suzie met Beatrice Baker, the Institute's first executive secretary. Mrs. Baker asked Suzie to become a volunteer board member with the Institute. It was the beginning of a relationship that has lasted through the years.

Suzie Puskas has served where she was needed most. In addition to serving on the International Institute's board, she counseled new arrivals, taught English, located jobs, provided shelter and basic life necessities. She translated letters from soldiers to their families during World War II. She assisted war brides writing to their husbands. She worked as a volunteer for the American Red Cross during this time. During the influx of refugees from Hungary in the 1950's, Suzie coordinated efforts to settle them in the community. She is known affectionately by the nickname of Aunt Suzie among those she aided.

The same strength of spirit that motivated this lifetime of caring for others also inspired Suzie as she raised two children, Edward and Susan, and has witnessed the birth of her nine grandchildren. Her husband died in 1968.

Mr. Speaker, it is with great honor that I ask the U.S. Congress to rise with me today to applaud a truly great American, Suzie Puskas. Her humility and selfless devotion to service is an inspiration to all.

LEGISLATION TO RECTIFY PROBLEMS IN THE SECTION 8  
PROJECT-BASED PROGRAM

## HON. COLLIN C. PETERSON

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. PETERSON of Minnesota. Mr. Speaker, today I am introducing legislation to rectify widespread problems in the Section 8 Project-Based Assistance Program. This Section 8 Project-Based Program is separate from the more widely known Section 8 Voucher Program in that the subsidy attaches to the apartment rather than to the tenant. Tenants do not have the choice to move to another apartment building because their rental subsidy cannot be used elsewhere.

The Employment, Housing and Aviation Subcommittee which I Chair has been investigating this program. We held a hearing on July 26, 1994 and will have a second hearing next week on October 6. The results from the first hearing were startling. The Department of Housing and Urban Development [HUD], the agency that administers this program, could not even identify for the subcommittee which

projects were troubled either financially or physically.

The HUD Inspector General reported that, to date, HUD has provided over \$131 billion in assistance to over 20,000 projects. More than 30 percent of these projects are troubled. Many are in deplorable shape: families are living with rat infestation; leaking toilets, sinks and roofs; no heat or smoke detectors; and holes in walls and ceilings.

HUD has not done a complete assessment of its inventory of troubled projects, which this bill would require. This assessment would include a financial and cost-benefit analysis of each troubled property to determine appropriate remedial action. It would also examine the social impact these properties have on tenants, owners, and communities.

In addition, this bill would require HUD to identify its troubled properties, collect and analyze the financial information for each project, and weigh its options for remedial action. HUD would then choose the most cost-effective action to take, while considering its affect on tenants, owners, and the community. Without a systematic method of determining what actions it should take on troubled projects, HUD could be wasting millions of dollars on projects that should not receive further assistance.

One solution, included in the bill, would permit HUD to recapture section 8 project-based funds for reuse as vouchers or certificates. This would allow tenants who live in substandard apartments to move to another building.

In addition to being in deplorable shape, many apartments have rents that are higher, in some cases double, the rent of comparable apartments in the same neighborhood that do not receive a subsidy. The General Accounting Office found a troubled section 8 property in Chicago where rent for a two-bedroom apartment was over \$800 and a comparable apartment in a nearby building was just over \$400. Some owners of section 8 assisted projects may be receiving undue profit at taxpayers' expense. The bill contains provisions that will control section 8 rent increases and make the rents comparable to unassisted rents in the area.

I hope that with this bill, requiring more efficient and cost-effective HUD oversight of section 8 properties, we can improve the management and financial and physical condition of these properties; properties that, by law, are intended to provide habitable rental units for thousands of low-income Americans.

A summary of the legislation follows:

#### CONGRESSIONAL FINDINGS

The Subcommittee on Employment, Housing, and Aviation held a hearing on July 26, 1994 to examine problems in the Section 8 Project-Based Assistance Program. The findings from the hearing follow:

Approximately 30% of the projects do not meet HUD's housing quality standards and are classified as "troubled". Of the total inventory of over 20,000 projects, about 10,000 are insured by HUD;

HUD cannot identify which projects in its inventory are troubled;

HUD is neither adequately inspecting projects nor ensuring that repairs are made;

HUD is not taking aggressive enforcement action against owners of troubled projects. According to the HUD Inspector General, aggressive enforcement action is the "except-

tion at HUD, not the rule." Although some of the sanctions available to HUD may hurt tenants, several of the administrative sanctions would not.

The inability of HUD to address the problems of troubled projects is due to a variety of factors, including ineffective management, inadequate data systems, staffing shortages, and a lack of program accountability.

HUD has not done a complete assessment of its inventory of troubled projects. This would include a financial and cost-benefit analysis of each troubled property to determine remedial action. It would also examine the social impact these properties have on tenants, owners and communities.

Many Section 8 apartments have rents that are excessive compared to comparable unassisted apartments in the same area. A 1993 HUD report analyzed 4,125 properties and concluded that 42% of those properties had assisted rents at, or exceeding, 140% of market rents in the area.

In 1989, Congress directed HUD to issue regulations for conducting rent comparability reviews, which examine the difference between HUD-assisted and unassisted rents charged for similar apartments in the same neighborhood. Although HUD issued a proposed rule in 1992, it has yet to issue a final rule—four and one-half years later. HUD placed a moratorium on conducting comparability reviews until the final rule is published. In the meantime, HUD is not doing comparability reviews, and owners are receiving automatic rent adjustments.

In order for HUD to take appropriate remedial actions, statutory changes may be required. For example, under current law, HUD cannot "recapture" Section 8 funds for reuse as vouchers or certificates.

**BILL SUMMARY—SECTION 8 PROJECT-BASED PROGRAM MANAGEMENT IMPROVEMENT ACT OF 1994, H.R. 5115**

The Section 8 Project-Based Management Improvement Act of 1994 would address many of the problems with Section 8 project-based properties. It would:

Require HUD to identify troubled Section 8 project-based projects within 30 days of the bill's enactment. HUD will establish two categories for projects—severely troubled and troubled.

Require HUD to have completed a financial and social impact analysis on all of its severely troubled and troubled projects. HUD will have 18 months after the bill's enactment to complete the analyses.

HUD is required to complete the analysis for all severely troubled projects in the first six months after the bill's enactment. HUD is required to complete the analysis for all troubled projects within eighteen months of the bill's enactment.

The financial and social impact analysis would assist HUD in determining remedial actions to be taken on projects. There are several actions that HUD can choose to take on each troubled project; such as providing funds to renovate the property; enforcing sanctions against the owner; providing Section 8 vouchers and certificates to tenants; and, in cases where a project is beyond repair, foreclosing on the building. HUD is required to collect and analyze the appropriate information on each project, and weigh the possible options. It should then choose the most cost-effective action to take, while considering its effect on tenants, owners, and the community.

In performing the financial and social impact analysis, HUD is required to include the following (1) background information (2) fi-

ancial information (such as the project's estimated rehabilitation costs, alternative financing mechanisms, and income and expenses) (3) comparison of options for remedial action. (4) an assessment of the social impact of each option, and (5) any other information as determined by the Secretary of HUD.

Require HUD to develop the guidelines it will use for determining remedial actions to take on each project. HUD must submit these guidelines to Congress within 30 days of the bill's enactment.

Permit HUD to "recapture" project-based Section 8 funds for reuse as vouchers or certificates (under current law, terminated Section 8 funds had to be returned to the Treasury and could not be used for vouchers or certificates).

Repeal a prohibition on lowering Section 8 rents that were in effect on or after April 15, 1987 for certain projects.

Require HUD to develop final regulations on conducting comparability reviews within 30 days of the bill's enactment.

Permit HUD to switch between applying the two methods of determining rent increases for Section 8 projects when refinancing (Annual Adjustment Factors and budget-based).

**SHIRLEY COLETTI HONORED FOR 25 YEARS OF SERVICE IN THE FIGHT AGAINST SUBSTANCE ABUSE**

**HON. C.W. BILL YOUNG**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 28, 1994*

Mr. YOUNG of Florida. Mr. Speaker, the board of directors of Operation PAR, one of our Nation's leading substance abuse treatment programs located in St. Petersburg, FL, which I have the privilege to represent, will honor its president, Shirley Coletti, Thursday for her lifetime of service to treat and prevent substance abuse throughout our Nation.

In a fitting tribute to her 25 years of service in this field, the board will name its recently completed Academy for Behavioral Change for Adolescents and Their Families the Shirley D. Coletti Academy. While providing treatment, support, and encouragement for substance abusers of all ages, Shirley has taken a special interest over the years in the impact substance abuse has had on young women and their children. In fact, many of the programs she has developed at Operation PAR have been nationally recognized for their effectiveness and have been replicated elsewhere.

Since its founding in 1969, Operation PAR has developed the largest and most comprehensive nonprofit system of drug and alcohol abuse prevention, intervention, research, education, and treatment services in the southeastern United States. Operation PAR provides services to more than 50,000 individuals a year.

Shirley Coletti was a leading force in the establishment of Operation PAR and has been a driving force throughout its quarter century of service to expand the number of people touched by the program. A nurse by training, Shirley is recognized as an international expert on drugs and substance abuse. She

served on the President's bipartisan Commission of Model State Drug Laws, was appointed by President Reagan to the U.S. Senate Caucus on International Narcotics Control, and has been a special representative of the State Department to many countries.

Her work has been nationally recognized by Presidents of the United States, the Congress, the Florida State Legislature, the Pinellas County Board of County Commissioners, and by her peers in the field. She has received the Outstanding Service Award from the Alcohol and Drug Problems Association of North America, the Special Award of Honor from the International Narcotics Enforcement Officers Association, the Administrator of the Year Award from the Florida Alcohol and Drug Abuse Associations, and the Distinguished Layman Award from the Florida Medical Association.

Mr. Speaker, I join the board of directors of Operation PAR and the people of Pinellas County, FL, as they honor Shirley Coletti for her lifetime of service to the victims of substance abuse. As a pioneer in the field of substance abuse treatment and prevention, she has been a champion of children, adults, and families in the battle against drug use and abuse. The true testament to her work are the thousands of lives she has touched over the past 25 years. With her support and encouragement, many have thrown off the scourge of drugs to reclaim their lives. Many more will be touched in the future by her work through the new Shirley D. Coletti Academy in St. Petersburg.

Shirley Coletti is a remarkable woman who has brought so much attention and energy to our Nation's ongoing battle against substance abuse, and I salute her for her lifetime of work.

TRIBUTE TO MS. CYNTHIA  
LANGLEY

HON. RICHARD E. NEAL

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. NEAL of Massachusetts. Mr. Speaker, today I recognize a fine member of the community of Northampton, MA. Ms. Cynthia Langley, director of the Northampton Council on Aging for 19 years, has performed a number of valuable services for her community.

Ms. Langley, in her capacity as director of the Council on Aging, developed a number of creative programs with limited resources. Ms. Langley's commitment stretched beyond her duties as the director of the Council, including service on a number of human service organizations throughout Hampshire County. Her innovation and dedication have won the loyalty and respect of the people of Northampton, especially those most touched by her efforts—the elderly of that community.

Ms. Langley will now enter into employment with the American Association of Retired Persons, continuing her service to elderly and retired persons in this country. Her services will be missed by the people of Northampton. It is most difficult to replace a public servant with a distinguished record of service like Ms. Langley's.

For her tireless efforts on behalf of the elderly and her service to her community, I salute Ms. Cynthia Langley of Northampton, MA.

TRIBUTE TO REV. D. KEITH  
OWENS, PASTOR OF THE SALEM  
BAPTIST CHURCH

HON. ROBERT MENENDEZ

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. MENENDEZ. Mr. Speaker, I rise today before the House of Representatives to pay tribute to Rev. D. Keith Owens, Salem Baptist Church of Jersey City's new pastor.

The Salem Baptist Church was founded in 1870 and was born the Second Baptist Mission, when the congregation worshipped in the home of Joseph and Mary Bailey. In 1871, Rev. Hutchingson, the mission's second leader, secured the larger Carr's Hall for worship. In 1875 the mission was organized as the Salem Baptist Church and Rev. Hutchingson was ordained pastor. In 1877 Rev. Richard A. Motley accepted the pastorate and served until 1904. During this time a building was purchased and Joseph Bailey and Matthew Brown were ordained Salem's first deacons. From 1929 to 1934 the church was under the leadership of Rev. Furman W. Means. During these 14 years the Sunday school flourished, the auxiliaries expanded, and the church gained the national recognition of Baptists. The years to follow saw the church negotiate and pay for the present site of Salem at the corner of Clinton and Madison Avenues.

Rev. D. Keith Owens, born in Dillon, SC and raised in Newark, NJ, comes to Salem by way of Kaighn Avenue Baptist Church in Camden, NJ where he was senior pastor for 5 years. Emphasizing the importance of youth and education, Rev. Owens established a scholarship and endowment fund to help students in poor communities in Camden to afford college educations.

Living by the creeds of the greats who preceded him, including his parents, and other family members who were ministers, Rev. Owens' own achievements speak for themselves. At 32 years of age, he has written a weekly column on religion and current events for a local Camden area newspaper, taught speaking and English at a county college, directed public relations for the National Ministries, lectured throughout the United States and Africa, and made numerous television appearances in addition to pastoring. The list of accolades, memberships, and activities is endless.

I'm proud to have the opportunity to recognize Rev. D. Keith Owens and the Salem Baptist Church before the House, and I ask my colleagues to join me in thanking them for their service to the community and commending their achievements.

COMMUNITY REINVESTMENT  
IMPROVEMENT ACT OF 1994

HON. MARGE ROUKEMA

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mrs. ROUKEMA. Mr. Speaker, today I am introducing legislation which would amend the Community Reinvestment Act of 1977 in order to make additional funds available for low- and moderate-income housing in certain distressed neighborhoods.

The Community Reinvestment Act was passed by the Congress in 1977 to curb the disinvestment in certain communities by insured depositories. The intention of the law was, in part, to ensure that lending institutions did not ignore the credit needs of certain communities in their home areas.

Over the years, however, we have seen the departure of most, if not all, lending institutions from certain distressed communities. These decisions were often good business decisions but they did leave very large gaps in the availability credit in those areas.

Under current law, if a local lender originates or participates in an affordable housing loan outside of its designated CRA lending area, the lender does not receive full CRA credit for that investment. My legislation would allow the appropriate bank regulator to grant full CRA credit for these types of activities.

Recently, in my State of New Jersey, the Federal Homes Loan Bank of New York, in cooperation with the New Jersey Savings League, established what has become known as the Regional Lender Consortia. This consortia, consisting of 86 members, acting through a lending organization known as the Thrift Institutions Community Investment Corporation (TICIC), is providing funding for low-income housing projects throughout the entire State.

At this time, the TICIC is processing loans for some \$150 million in low- and moderate-income housing projects.

Despite the initial interest in this program, most of the participating institutions cannot receive full CRA credit for their participation because of the current CRA law. Consequently, they are reluctant to commit additional funds beyond their initial contribution.

Passage of my legislation would assure institutions that no matter where they were located or what their defined geographic lending area was, they could receive full CRA credit for the amount of funds they contribute to the consortium's effort.

Passage of this legislation could pave the way for many millions of dollars in loans for low- and moderate-income housing in many more of our communities so desperate for development and so in need of credit.

Mr. Speaker, many criticize our private sector financial institutions for not making credit available to our communities most in need. Often, this criticism is just not justified. The New Jersey Regional consortia is just the kind of proof that our lending institutions want to help. To encourage their greater participation, I believe this simple change in the CRA law is all that is needed. I urge the passage of my legislation.

TRIBUTE TO RUTH I. HOWELL, D.O.

**HON. DAVID E. BONIOR**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 28, 1994*

Mr. BONIOR. Mr. Speaker, this evening, the Southeast Michigan Chapter of the March of Dimes Birth Defects Foundation will be hosting the 11th annual "Alexander Macomb Citizen of the Year" award dinner. The award, instituted in 1984, is named after my home county's namesake, Gen. Alexander Macomb, a hero of the War of 1812.

This year, the March of Dimes has chosen my long-time friend, Dr. Ruth Howell, as a recipient of the award. Being a physician is not simply a job for Ruth, it is an avocation. In addition to her responsibilities with her practice, she always finds time to devote energy to several service and professional organizations, including the Downriver Community Services where she cares for underserved obstetrical patients.

Ruth's devotion to her profession and the community are second to none. She has delivered and cared for thousands of children. In recent years she has begun to deliver a second generation. It is evident that her patients respect her at least as much as do her peers. Ruth was named Michigan General Practitioner of the Year in 1983 and was appointed as a member of the State of Michigan Board of Licensing and Registration. She is rightly recognized for her many contributions.

Through advocacy, education, and community service, the March of Dimes has established itself as an organization with an impeccable reputation. And, the southeast Michigan chapter rightly recognizes Dr. Howell for her excellent service and outstanding leadership. Receiving recognition from the March of Dimes is an exceptional honor and I urge my colleagues to join me saluting Dr. Ruth Howell, as a recipient of the "Alexander Macomb Citizen of the Year Award."

TRIBUTE TO DOCTOR PAUL VICINANZA, HEAD START

**HON. CURT WELDON**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 28, 1994*

Mr. WELDON. Mr. Speaker, this week marks an important milestone for Dr. Paul Vicinanza, a distinguished gentleman from Delaware County, PA. His family and friends will come together to wish him well as he enters retirement.

Dr. Paul Vicinanza is an individual who has been fully involved with the Delaware County Head Start Program for over 28 years. He began working with low-income families in 1965, at the beginning of his career. Then, under a grant from the Office of Economic Opportunity to the State, he became a regional Head Start training officer.

Operated by local nonprofit organizations in almost every county in the country, Head Start provides a great service of educating underprivileged and disabled children throughout our Nation.

Most recently, as Supervisory Head Start and Youth Program Specialist, Dr. Vicinanza broadened his functions to include managing staff and resources for both Head Start and Runaway and Homeless Youth Programs. As a Federal manager, he has been a leading advocate for children and families and for the development of effective family-based prevention and intervention strategies.

Dr. Paul Vicinanza is a rare individual who has served low-income families in the Delaware Valley region and helped thousands of children succeed. I commend him for his public service and civic involvement.

**SWEZEY'S: A CENTURY OF SERVICE**

**HON. GEORGE J. HOCHBRUECKNER**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 28, 1994*

Mr. HOCHBRUECKNER. Mr. Speaker, I rise today with great pleasure to pay tribute to Swezey's Department Stores on their 100th anniversary. Swezey's and the Swezey family will be honored by the Greater Patchogue (New York) Chamber of Commerce on October 1 for this remarkable achievement.

In today's commercial market, with businesses rapidly changing hands, Swezey's has been an economic rock of stability for Long Island. Swezey's success is particularly impressive and notable because it has continued to operate at the same Patchogue, Long Island location for its entire century of service. The historical significance of this 100 years of continuous operation is unquestionable—particularly because the fourth generation of the Swezey family continues to manage the business. Longtime residents of Long Island carry many fond memories of Swezey's which include the old clock, various store expansions, and the overall significant contribution the store has made to the vitality of the Patchogue business community.

Importantly, the Swezey family continues to be as committed to improving their community through volunteerism as they are to the success of their business. The Patchogue Chamber of Commerce is proud to have Bill Knapp, the secretary-treasurer of Swezey's, as its current president. Bill is the son of Priscilla Swezey-Teich. Priscilla's other son David is a vice president of the firm. Carroll Swezey, Jr. is the chairman of the board. His son John is president of the firm and daughter Karen is vice president.

Mr. Speaker, it is with great pleasure that I pay tribute to the Swezey family and organization on their centennial celebration. Swezey's historic presence serves as a fine example to other Long Island businesses on the importance of hard work, excellence in service, and commitment to the community. I wish Swezey's another 100 years of success on Long Island. The Swezey family should be extremely proud of their accomplishments.

OBSERVANCE OF 75TH ANNIVERSARY OF ST. JAMES CATHOLIC CHURCH

**HON. SANDER M. LEVIN**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 28, 1994*

Mr. LEVIN. Mr. Speaker, I wish to extend my congratulations to St. James Catholic Church in Ferndale, MI, upon their 75th anniversary. This weekend the church not only celebrates a birthday but also a remarkable record of community involvement.

At St. James Catholic Church the history is rich and the commitment is great. As congregants walk down memory lane this weekend, they will see how far the church has come since it was started by 50 families on October 1, 1919. Today the church has grown to over 1,000 people and touches the lives of countless others.

Families used to gather at the chicken coop at the Arthur Porter farm, which was located across Woodward Avenue from the church. The chicken coop served as home until 1920, when the church moved to a classroom at the old Central School to celebrate with Father James E. O'Brien.

In 1920, a chapel was built which later became the basement of St. James School. The school was completed in 1925, and until 1949 masses were held there. The cornerstone for the existing church was laid in 1949, and the first mass held in the church was Easter Sunday, April 1950.

Throughout the years, St. James Catholic Church has held war bond drives, directed cancer projects, collected money for victims of the 1967 Detroit riots, and most recently the church has sponsored a Habitat for Humanity house. I was privileged to attend the groundbreaking for this house and was once again reminded of the exceptional dedication which is abundant at St. James.

I applaud the many efforts of the St. James community on this significant anniversary and extend my warmest wishes to Father Robert Wurm and Dr. Robert Locey as they kick off this special celebration.

**SHOWDOWN IN CAIRO**

**HON. JOHN J. LaFALCE**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 28, 1994*

Mr. LaFALCE. Mr. Speaker, earlier this month the United Nations concluded its Conference on Population and Development in Cairo. After a long and difficult debate, conferees defeated U.S. attempts to establish abortion as a fundamental right of all women.

That is fortunate, for the original U.S. proposal would have run roughshod over the deeply held moral and religious beliefs of millions of people here and around the world.

Abortion cuts to the heart of the most fundamental right we cherish as Americans—the right to life. Statistics show that most Americans do not support unlimited access to abortion at any time for any reason. Why then

should we attempt to force this proabortion scheme on the rest of the world—particularly on countries that have a strong religious and cultural tradition of respect for life?

Abortion advocates were unable to provide a satisfactory answer, and were forced to moderate their extreme proabortion agenda. John Leo of U.S. News and World Report has written an insightful analysis of the Cairo Conference, and of the internal dynamics which produced the final consensus. I commend this excellent article to the attention of my colleagues.

[From U.S. News and World Report, Sept. 19, 1994]

#### PLAYING HARBALL AT CAIRO

(By John Leo)

The Cairo population conference will have to go down as one of the oddest adventures of the Clinton administration. Like many a Clinton saga, it follows the basic Lani Guinier story line; the staking out of a highly controversial position, an attempt to discredit opposition, followed by a quiet collapse and an explanation that "we never meant to do anything like that at all."

First the staking out. In March, a State Department "action cable" instructed all U.S. embassies to tell their host governments: "The United States believes that access to safe, legal and voluntary abortion is a fundamental right of all women. \* \* \*

The use of the term "fundamental right," as part of an aggressive U.S. lobbying effort, was a breathtaking leap. Since abortion is a fundamental right nowhere outside of North America, this amounted to an attempt to impose the ideological structure of Roe v. Wade on the rest of the world.

This was not an offer to fund abortion for poor nations that want it. It was an attempt to override laws and customs by establishing some sort of internationally recognized right that might be financially enforced in the future by the U.N. or international aid organizations.

Tim Wirth, under secretary of state and point man in the U.S. abortion lobbying effort, said that "a government which is violating basic human rights should not hide behind the defense of sovereignty." He meant that once international organizations accept abortion as a fundamental right, it can be cited to trump the laws, constitutions and sovereignty of any nation.

#### COSTLY RESISTANCE

Most Third World nations are heavily dependent on U.S. foreign aid, so the implication left hanging in the air is that resistance to the worldwide version of Roe v. Wade might prove costly. The March cable made it clear that the United States intended to play hardball, stating that "senior-level diplomatic interventions" with the World Bank and the International Monetary Fund would "advance U.S. population policy interest."

A spokesman for the U.S. Catholic bishops quoted a Guatemalan government minister as saying: "If I don't go along on abortion, there goes all my aid money." Miguel Prado, an adviser to Peru's delegation, told me much the same thing, complaining about the "fanatical agenda" and "big engine" of the U.S. abortion lobby at the conference.

Does the United States have the right to throw its weight around like this in the Third World? It depends on your taste for cultural imperialism and American arrogance.

Pushing other nations this hard was an extraordinary decision for Clinton to make. He

picked a hard-line, hard-edged delegation, with a very aggressive game plan based on domestic "pro-choice" lobbying: Moral or cultural qualms were dismissed. Abortion was positioned as a woman's issue or a health issue. Abortion was a legitimate tool of population control, a fundamental right. Laws protecting the fetus were "coercive." Abortion should be covered by national health plans.

Many of the controversial American positions in the draft program of action were set forth in a fog of protective euphemisms. "Reproductive health services," it turned out, included abortion, and the persistent linking of the words "family planning" and "reproductive health services" was a devious way of expressing an idea that the American delegates didn't dare say out loud: that abortion should be a legitimate family planning method.

Because the Vatican challenged these linguistic sinkholes and rallied 20 to 30 nations to resist, the Clinton administration backed down. (Surprise!) By week's end, abortion was gone from the document's family planning section. Al Gore was acknowledging national sovereignty and disavowing both the "fundamental right" language and abortion as population control.

The press was so preoccupied writing articles about the pope as a fuddy-duddy obstructionist that it barely noticed that the Vatican had successfully picked apart the American word games and had the Clintonites in full retreat. The Vatican has its own problems here, notably its refusal to accept birth control; but in this case it exerted clear moral leadership, coming to the aid of poor nations being bullied by one particular rich one.

This whole episode raises serious questions about the Clinton administration. This wasn't an attempt by a "pro-choice" team to consult and persuade, or to offer clinics to nations that want them. It was a highhanded attempt to "push the envelope," as one delegate put it, by going way beyond what other nations want, and what the American people are willing to have done in their name.

The administration may be in favor of abortion rights, but it might have shown a decent respect for the obvious moral uneasiness Americans feel on this issue. This is an administration representing 43 percent of the voters in a nation where half the people consider abortion immoral and a fairly large majority thinks the government shouldn't be involved in abortion at all. There is no mandate here for turning America into the world's largest and pushiest abortion lobbyist. This is an administration that needs to get its constituent pressure groups under control.

#### RETIREMENT OF SAM CHALFIN

##### HON. HERB KLEIN

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. KLEIN. Mr. Speaker, I rise today to pay tribute to one of Paterson, NJ's most important and loyal employers, Mr. Sam Chalfin. It is with great pleasure that I join IPF International, Inc., along with Sam's many friends and family in congratulating him on the occasion of his retirement on Thursday, September 29, 1994.

Born on September 10, 1910, Mr. Chalfin's first job was as a shipping clerk in a clothing

factory in New York. Sam saved over \$500 and used the money to purchase half of his father's furniture business. They later moved to Paterson in 1935 as partners, and IPF soon became famous for exceptional furniture design and quality manufacture.

Mr. Chalfin has always prided his family's hands-on care and involvement with IPF. As Rod Allee of the Bergen Record recently documented, "Other old-time values still have meaning at the IPF plant, where furniture has evolved into an art form." Many of the 100 employees have been with the company for over 42 years and are addressed by their first names.

In addition to his work at IPF, Sam was a founder of the Fair Lawn Jewish Center and also an active member of the United Jewish Appeal in Fair Lawn.

Sam is 84 years old, and is retiring to Florida with his wife of over 53 years, Rhoda. I know that Paterson and IPF will miss his spirit and loyalty to his employees, yet I am told that the team of craftsmen, managers, and staff personnel will continue the IPF tradition of quality service and design.

#### A SPECIAL SALUTE TO JOHN BURRY, JR., RECIPIENT OF THE FRANKLIN ROOSEVELT SERVICE AWARD FOR EXCELLENCE

##### HON. LOUIS STOKES

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. STOKES. Mr. Speaker, I am proud to salute a very special individual who is being honored in my congressional district. On Saturday, October 1, 1994, the Northern Ohio Chapter of the March of Dimes will present its first Franklin Delano Roosevelt Service Award for Excellence. The inaugural recipient of the award is John Burry, Jr., chairman and chief executive officer of Blue Cross and Blue Shield of Ohio. I rise to share with my colleagues some pertinent information regarding this distinguished business leader who is being honored.

Jack Burry came to Cleveland in 1981 as president and chief administrative officer of Medical Mutual, Inc. [Blue Shield], having spent the previous 5 years with Blue Cross and Blue Shield of Michigan. In 1983, he was promoted to chief executive officer, and the following year he planned a merger with Blue Cross of Northern Ohio. In 1986, Jack Burry oversaw the merger with Blue Cross of Northwest Ohio, to form Blue Cross and Blue Shield of Ohio.

Under the strong leadership of Jack Burry, Blue Cross and Blue Shield in 1993 became the fastest growing Blue Cross plan in the country, with 120,000 new members. That same year, the company achieved a record surplus for the benefit of its policyholders of over \$291 million.

Mr. Speaker, I am proud that the March of Dimes has selected Jack Burry to receive its first Franklin Delano Roosevelt Service Award for Excellence. We are aware of the important role the March of Dimes plays through its campaign to prevent birth defects. The organization instituted Service Award for Excellence

to recognize outstanding volunteers who have demonstrated exemplary service to the March of Dimes and its mission.

For the past 6 years, Jack Burry has been the honorary chairman of the annual March of Dimes Celebrity Golf Classic, with Blue Cross and Blue Shield of Ohio serving as the event's largest corporate sponsor. The March of Dimes credits Jack and Blue Cross with turning the Celebrity Golf Classic into its largest and most successful golf fundraiser in the Nation, in terms of both dollars raised and number of participants. Over the past 5 years, the tournament has raised more than \$750,000 to support the fight against birth defects.

Mr. Speaker, I am pleased to note that Blue Cross and Blue Shield has also donated resources and services to assist in printing brochures for educational outreach programs. This allows thousands of pregnant women to understand the importance of early prenatal care and other information to benefit their child's health. Through his tireless efforts, Jack Burry has supported the March of Dimes in meeting its mission, helping mothers and babies to live healthier lives.

In addition to his work with the March of Dimes, Jack Burry is a member of various boards, including the Greater Cleveland Growth Association, Cleveland Tomorrow, and the Weatherhead School of Case Western Reserve University board of visitors.

Mr. Speaker, as he receives the Franklin Delano Roosevelt Service Award for Excellence, I join his colleagues and friends throughout the community in congratulating Jack Burry. Over the years, I have benefitted from a close friendship and outstanding working relationship with him. Jack is an individual whom I greatly admire and respect, and I am pleased to salute him upon this important occasion.

#### INTRODUCTION OF LEGISLATION TO PROVIDE INCENTIVES FOR EQUITY FINANCING OF CORPORATIONS

##### HON. MEL REYNOLDS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. REYNOLDS. Mr. Speaker, today I rise to introduce the Debt/Equity Financing Act of 1994. I urge my colleagues to cosponsor this important legislation.

The purpose of the legislation is to provide incentives for equity financing of most American corporations while discouraging the implied risks of heavily leveraged companies.

This legislation seeks to amend the tax code by reducing the deduction on debt interest expense by 20 percent while increasing the deduction on dividends paid to 50 percent of the amount paid. As written, the legislation is designed to be revenue neutral. In the long run, it should actually be a revenue raiser as it rewards prudent, productive corporate management.

Mr. Speaker, at present, interest expense is fully deductible under the tax code, while dividends are not. As a result, the tax code implicitly favors debt financing.

As we have all seen, the accumulation of significant debt by corporations has put the long-term economic health of such corporations in jeopardy. Some survive such fiscal high wire acts, while many others have not. Those that have fallen under the weight of their leveraged debt have cost thousands of dedicated American workers their jobs, and impacted communities. This legislation seeks to encourage debate in the Congress and in the country regarding the financing of American business.

My colleague from Illinois, Senator PAUL SIMON has introduced this legislation in the Senate. I urge my colleagues to examine the legislation, and lend their support.

I thank the Chair.

#### CONGRATULATIONS TO THE REPUBLIC OF CHINA ON ITS 83D BIRTHDAY

##### HON. DAN SCHAEFER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. SCHAEFER. Mr. Speaker, the Republic of China on Taiwan will soon be celebrating its 83d birthday. It has much to celebrate. After 40 years of hard work, Taiwan is the world's 13th largest economic entity with one of the largest foreign reserves of any country. Such success deserves the admiration and envy of all nations. I believe that the Republic of China is more than qualified to be an active participant in global affairs. I am sure Taiwan will continue to prosper and assume a major international role in the post-cold war era.

In terms of U.S.-Taiwan relations, I am glad to see that in recent years we have a far better understanding of issues of mutual concern. Much of this improvement in relations between our two countries was due to the efforts made by Ambassador Mou-shih Ding, who has returned to Taipei to assume the post of director general of the ROC's National Security Council. I believe that Ambassador Ding's successor, Ambassador Benjamin Lu, will continue to work toward mutual understanding and a strengthening of ties between Taipei and Washington.

On behalf of my constituents, I wish President Lee Teng-hui and Premier Lien Chan the best of luck and a happy 83d to the Republic of China on Taiwan.

#### CONGRATULATING PHIL GARVER OF LIMA, OH

##### HON. MICHAEL G. OXLEY

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. OXLEY. Mr. Speaker, today, I congratulate 13-year-old Phil Garver, of Lima, OH, who recently received a National Medal of Merit from the National Office of the Boy Scouts of America. He is the son of Mike and Marcia Garver.

More important than the award, however, is what Phil did to receive this recognition. In

June of 1992, he rescued a 4-year-old girl who had accidentally fallen into a lake in Arlington, OH. She was fortunate to have a hero nearby.

Phil is a member of Boy Scout Troop 106 in Lima and received his award from the Black Swamp Area Boy Scout Council. Only 1 percent of all Boy Scouts qualify for this recognition.

My best wishes to Phil Garver and his family on the occasion of this important recognition.

#### SUPPORTS THE INITIATION OF A SUPER 301 INVESTIGATION AGAINST JAPAN

##### HON. MARTIN FROST

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. FROST. Mr. Speaker, the President set September 30, 1994, as the deadline for initiating Super 301 investigations against Japan if progress is not made in the United States-Japan Framework negotiations to open the Japanese flat glass market. The deadline has been reached, and restrictive trade barriers remain in place to prevent United States access to Japanese markets. Given Japan's refusal to comply with U.S. demands to reform its exclusionary trade practices, I believe it is imperative that the administration initiate a section 301 investigation of Japan's flat glass market and take appropriate action to eliminate Japan's barriers.

For the U.S. flat glass industry, the stakes include retaining thousands of jobs here at home and sustaining its position of leadership in the international marketplace. The U.S. flat glass industry is responsible for creating over 100,000 high-quality American jobs. U.S. companies exported \$722 million in flat glass products worldwide in 1992.

While United States flat glass manufacturers compete successfully around the globe, the United States share of the Japanese market is less than 1 percent. The United States will be at a severe competitive disadvantage if it is unable to compete on equal terms in the Japanese market.

It is time to show Japan that the United States will not tolerate its unfair and anti-competitive trade practices. I urge the administration to initiate a Super 301 investigation of Japan's flat glass market.

#### THE PASSING OF DONA FELA

##### HON. RON de LUGO

OF THE VIRGIN ISLANDS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. DE LUGO. Mr. Speaker, one of the great figures of Puerto Rican history passed away last week. I was privileged to know her and I want to note her death and some of the accomplishments of her life of 97 years.

Felisa Rincon de Cautier, known respectfully as Dona Fela, is famous for her service as Mayor of San Juan from 1946 to 1969. In this

post she was, in the words of the San Juan Star, "at heart a social worker who never tired of meeting people, listening to their hopes and needs, and taking heed of their complaints."

No problem was ever too small to deal with. "The hand out and the personal touch were the hallmarks of her administration," as an obituary aptly put it. She regularly visited the worst slums and held weekly open houses for constituents.

But Dona Fela's service was not simply limited to individual problems. Her goals were social reform and improving the lives of people as a whole, particularly society's needy.

She spent decades fighting for child care programs, legal aid for the poor, senior citizens' centers, and Head Start. She also built health dispensaries, schools, and public housing with nurseries. And she sought fair treatment for the least-powerful municipal employees, such as the street cleaners.

She was also a leader with flair. For 3 years, she convinced Eastern Airlines to fly planeloads of snow to Puerto Rico so that island children would have a "White Christmas."

An early struggle was helping women in Puerto Rico obtain the right to vote. She later helped found the Popular Democratic Party, which is identified with the island's commonwealth government.

I knew her best as a leader of that party and the national Democratic Party. We met when we both served on the Democratic National Committee—a position that she only vacated with her passing.

It was as a national Democrat that she was, perhaps, best known to politicians in the States. She became a friend of the late, great Hubert Humphrey when they both served as mayors and she was fondly remembered by President Kennedy for her campaigning for him in New York.

She had the distinction of being the oldest delegate, at 95, to the 1992 Democratic National Convention in New York.

Mr. Speaker, I will not say that I noted the passing of Felisa Rincon de Gautier with regret because her life was so full and productive. I will say, though, that I was blessed in having known her.

#### THE TRUTH ABOUT REPUBLICAN RECKLESSNESS IS THE DEMOCRATS' BEST WEAPON

### HON. MAJOR R. OWENS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. OWENS. Mr. Speaker, under the new administration this 103d Congress has accomplished a great deal to improve the lives of the American people. So much more would have been achieved if the Republicans had not adopted a posture of irresponsibility and recklessness. Beginning with the stimulus program and ending with health care the Republicans have used the filibuster to wreck the wheels of progress. Now, these mad elephants are boasting that this is a strategy that will win them control of the Congress. Only if Democrats are stupid enough to refuse to play the blame game will the Republicans continue to

confuse the American people. The only game in town is the blame game and the burden of blame rests squarely on the shoulders of the Republicans. Democrats must shove the truth about their outrageous performance squarely into the faces of the Republicans. Republicans are the murderers of the jobs that would have been created by the Clinton stimulus package. Republicans are the killers of health care. With the filibuster the Republicans have made a joke of the concept of a one-person, one-vote democracy. On the floor of the House Republicans have taken mean spiritedness to new depths in their cesspool. Democrats have a duty to fervently tell the American people the truth about the current Republican madness.

#### MAD ELEPHANTS

Gridlock guerrillas,  
Health care killers,  
Mad elephants are coming,  
GOP stampede running.  
Hide all grandmothers,  
Protect the old,  
Chiefs from Kansas,  
Are merciless and cold.  
Sound the survival alarm,  
Mad elephants marching.  
Do murderous and heavy harm.  
Health care killers,  
Gridlock guerrillas,  
Circus Master Ollie North,  
Assassin signed to train,  
Beasts blindly pushing,  
Great tons of public pain.  
Mad elephants are coming,  
Let the ghost of Paul Revere,  
Ride real hard and show no fear.  
The air is filled with lies,  
Americans arise,  
Before plain decency dies.  
Mad elephants are stomping,  
To kill all conscience,  
And harden hearts,  
They play their parts.  
They know their role,  
Kansas chiefs on elephants,  
Are merciless and cold.  
Gridlock guerrillas,  
Health care killers,  
The elephants stampede on,  
Patriotism and pity.  
Are now long gone.

#### TOMMY NUNEZ

### HON. ED PASTOR

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. PASTOR. Mr. Speaker, I would like to take this opportunity to congratulate Mr. Tommy Nunez, who was recently honored at the Hispanic Heritage Awards Dinner for excellence in sports.

An Arizona native, Mr. Nunez grew up in the Dupa Villa projects of East Central Phoenix. He joined the Marines and worked as a phone company switchboard repairman before he began his career as a referee for the National Basketball Association in 1973. As 1 of only 28 men who are officials with the National Basketball Association, he is the only Mexican-American to referee in the ranks of professional basketball.

Mr. Nunez' accomplishments alone serve as an inspiration to minority and underprivileged youth. Besides serving as a role model, he is

dedicated to improving the lives of others around him. When he is not working for the NBA, Mr. Nunez works for the Arizona Department of Economic Security Job Training Administration as a summer youth employment monitor and coordinates the Tommy Nunez Hispanic Basketball Classic. In addition, Mr. Nunez travels to local schools speaking on the importance of education and teaching students how to cope with peer pressure. He serves on the Governor's Council on Fitness, the Phoenix Youth Commission, and the Mayor's Advisory Committee for Substance Abuse and Community Education.

Mr. Speaker, Tommy Nunez is an exceptional person whom I am honored to know and proud to recognize. His high sense of integrity and outstanding leadership have made a profound impact on the young people of Arizona. His many achievements and his active participation in the community make him a role model that we can all admire and learn from. Again, I would like to take this opportunity to congratulate Mr. Nunez and especially to thank him for all he is doing to make a positive influence in the lives of the people of Arizona and throughout the Nation.

#### PAKISTAN CONTINUES MISSILE PURCHASES FROM CHINA AND ESCALATES TENSIONS IN SOUTH ASIA

### HON. MAURICE D. HINCHEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. HINCHEY. Mr. Speaker, I want to call to the attention of my colleagues an article that appeared in the September 7 edition of the Washington Times regarding a major arms deal between the Islamic Republic of Pakistan and the People's Republic of China. This article, written by Bill Gertz, notes that United States intelligence agencies in August found new evidence that Pakistan is going forward with a plan to purchase M-11 missiles from China. The M-11 is capable of delivering a nuclear warhead. This disclosure is very ominous because it comes less than 2 weeks after the former Pakistani Prime Minister, Nawaz Sharif, announced publicly that Pakistan has possessed nuclear weapons for some time. The United States Government has suspected Pakistan of possessing the bomb for many years. For this reason, in 1987 Congress passed and President Reagan signed into law the Pressler amendment, which prohibits the United States from providing Pakistan with foreign aid unless the President certifies that Pakistan does not have a nuclear device. Although both President Bush and President Clinton have been unable to make such a certification, Pakistan has told the United States and the world community it does not possess nuclear weapons. Now, as the article correctly points out, nuclear proliferation experts are worried that Pakistan will use these weapons against India in a future war over Kashmir. Pakistan has gone to war with India over Kashmir three times in the last 40 years.

Mr. Speaker, the issue of Pakistan buying M-11 missile technology from China is not

new. In 1992, Pakistan paid \$83 million to China for delivery of M-11 components and apparently the missiles themselves. The 1992 shipments caused the Clinton administration to impose sanctions on China last year for violating the provisions of the Missile Technology Control Regime [MTCR]. The MTCR is an international nonproliferation agreement which China has not signed but which Beijing assured the United States in 1992 it would abide by. Despite this sanction, China continues to sell and Pakistan continues to purchase M-11 missiles as part of a plan to build a nuclear weapon delivery system which can be deployed in South Asia.

Mr. Speaker, I urge my colleagues to read the Times article. The article clearly shows that Pakistan's nuclear ambitions are a source of grave concern for the United States and every nation which is opposed to the growth of nuclear weaponry and the dangers it creates. The article also is ample evidence that any attempt by our Government to fashion a nuclear proliferation policy in the South Asian region that does not include China is destined to fail.

Mr. Speaker, I ask unanimous consent to have the Times article placed in the RECORD at this point.

[From the Washington Times, Sept. 7, 1994]

**PAKISTAN-CHINA DEAL FOR MISSILES EXPOSED: NUCLEAR AMBITIONS SPUR UNITED STATES CONCERN**

(By Bill Gertz)

U.S. intelligence agencies last month uncovered fresh evidence that Pakistan was moving ahead with a deal to buy M-11 missiles from China, and this month Chinese missile technicians are expected to arrive in Pakistan to help train forces in their use, Pentagon and intelligence officials say.

The missile transfer, the subject of U.S. sanctions against China last year, has fueled new concerns among proliferation experts in government that Pakistan will use the missiles to deliver nuclear weapons.

Adding to the concern was the announcement two weeks ago by Pakistan's former prime minister, Nawaz Sharif, that Pakistan possesses a nuclear bomb. The statement confirmed long-held suspicions about Islamabad's nuclear program.

According to U.S. officials, Pakistan on Aug. 22 agreed to pay China a \$15 million installment on its 1988 contract with the China Precision Machinery Import & Export Corp., a government-owned missile producer, for an unspecified number of M-11 missiles, launchers and support equipment.

The last payment of \$83 million took place in late 1992 and coincided with the delivery of M-11 components, and possibly missiles themselves, from China to Pakistan.

The M-11 is a ballistic missile with an estimated range of 186 miles, a factor that restricts sales of the missile under the Missile Technology Control Regime (MTCR). The MTCR is an agreement among 25 nations to limit the transfer of missile technology.

A solid-fuel valiant of the Soviet Soud, the missile is capable of carrying nuclear and high-explosive payloads, U.S. officials have said.

The 1992 shipment from China led the Clinton administration to impose sanctions on Beijing in August 1993 for transferring equipment that violates the MTCR. U.S. law requires the imposition of sanctions for violations of the agreement, which limit transfers of missiles with a range of 186 miles and payload capacities of 1,100 pounds.

Beijing officials had assured Secretary of State James A. Baker III in 1992 that China would abide by the MTCR.

The sanctions were imposed against the China Precision Machinery Import & Export Corp. which manufactures and exports M-11s and similar missiles.

U.S. officials said there is strong evidence M-11s were shipped as part of the cargo in November 1992, but spy satellites have been unable to confirm their presence in Pakistan.

A team of Chinese missile technicians is expected in Sargodha, Pakistan, within the next two weeks to train the Pakistan military in using the M-11, according to officials who spoke on the condition of anonymity.

A separate team of Chinese technicians will go to Pakistan to unpack and assemble the M-11s later this year after the Sargodha missile facility is completed, the officials said.

Pakistan repeatedly has delayed the arrival of the assembly team because of concerns the missiles will be detected by spy satellites, the officials said.

Some intelligence reports indicate M-11s already are being stored in Pakistan at Sargodha, but operational missiles have not been seen.

Spy satellite photographs taken this spring showed canisters at the facility identical to those spotted at the M-11 production facility in China.

Intelligence analysts believed the canisters photographed at Sargodha were mock-ups used as part of a training exercise, although Pentagon officials believe the actual missiles are in Pakistan.

The latest action on the Pakistan-China missile transfer, outlined in intelligence reports to senior U.S. officials last week could unravel administration efforts to develop closer ties with Beijing.

Defense Secretary William Perry is expected to raise the issue of the M-11 transfers, as well as a planned Chinese underground nuclear test expected next month, in talks with Chinese officials when he visits Beijing next month.

Spokesmen for the Chinese and Pakistani embassies could not be reached for comment. Both governments have denied that M-11s or components have been or will be transferred.

Pakistan is developing a family of missiles known as the Hatf. The Hatf-1 has a range of 50 miles, and the Hatf-2 has a range of about 186 miles. A 372-mile range version, known as the Hatf-3, also is being developed.

Pentagon sources said the M-11s will either replace the Hatf-2s or serve as a temporary system until the Hatf-2 is fully developed and deployed.

"Selling out for money has bought the Clinton administration nothing but contempt from Chinese arms dealers," said a U.S. government specialist on China, referring to a recent trip to China by Commerce Secretary Ron Brown.

Mr. Brown announced in China that the administration is more concerned about promoting U.S. business than pressuring Beijing to improve its human rights record or halting the proliferation of Chinese weapons of mass destruction and missile-delivery systems.

A State Department official said the actual delivery of M-11s by China, which has not been confirmed by U.S. intelligence, automatically would prompt tighter sanctions against Beijing than the current restrictions imposed last year. "This would be extremely serious," he said.

The State Department official said the missile transfers would affect U.S. Chinese

relations but that the administration is trying to separate out concerns about weapons proliferation from its overall strategic relationship with China.

"There're going to be lots of problems with China," the official said. "But it's too complex a relationship to have every issue linked."

The official said the Defense Intelligence Agency's view of China's proliferation activities has been "pretty aggressive and verges on hysterical."

A DIA report to the Senate in May stated that China is "still actively supporting proliferation of weapons of mass destruction" with the approval of senior Chinese officials.

Undersecretary of State Lynn Davis told reporters at the time sanctions were first imposed that the administration did not have evidence M-11s were in Pakistan, but that there was "conclusive evidence they're received from China material relating to an M-11 missile."

Reports of the M-11 deal coincided with the visit by a four-member team of MTCR officials to Pakistan and India last week.

Robert Einhorn, a senior official with the State Department's bureau of political-military affairs, took part in the visit, which a spokesman call "an educational visit" aimed at informing the Pakistanis about the missile agreement.

**U.S. SCIENCE POLICY**

**HON. LEE H. HAMILTON**

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. HAMILTON. Mr. Speaker, I would like to insert my Washington report for Wednesday, September 28, 1994 into the CONGRESSIONAL RECORD:

**U.S. SCIENCE POLICY**

Most of us probably do not realize how important science is. Without scientific progress the national health would deteriorate, we could not hope for improvement in our standard of living or increased number of jobs, and we could not have maintained our liberties against our adversaries. We have many social and economic problems besetting the United States. A vigorous science program can generate solutions to many of these problems.

**ADMINISTRATION POLICY**

Last month President Clinton issued a national science policy statement which underscores this nation's commitment to maintaining world leadership in science, math and engineering. The statement, the first in over 15 years, sets five national goals for U.S. science policy: (1) maintaining our leadership in the sciences; (2) enhancing connections between science research and national goals; (3) stimulating partnerships that promote investment in science and engineering; (4) producing the finest scientists and engineers for the twenty-first century; and (5) raising scientific and technological literacy of all Americans.

**FEDERAL FUNDING**

Research is the building block for scientific discovery and technological innovation. The White House report recognizes the need to sustain strong funding levels for basic and applied research. The federal government provides about two-thirds of U.S. investment in basic research—research involved with increasing general scientific

knowledge. In contrast, the private sector provides most of the investment in applied research—research involved with finding commercial applications for scientific breakthroughs.

An important concern is that overall U.S. investment in basic and applied research has not kept pace with our principal economic competitors, Germany and Japan. Total U.S. support of non-defense research and development (R&D)—the key source for technological innovations—is about 1.9% of our Gross Domestic Product (GDP), while in Germany it is 2.5% of GDP and in Japan 3% of GDP. Our overall level of investment rises to 2.6% of GDP if defense-related R&D is included.

The report's long-term goal is to achieve a level of 3% of GDP investment in total civilian and defense R&D, with more defense dollars shifted to research into technologies with both civilian and military applications. This 3% of GDP would come from both government and the private sector.

#### SETTING PRIORITIES

The report acknowledges the importance of setting clear priorities for national science spending in the current budget climate and linking priorities to agreed-upon national goals. The recent deficit-reduction package places a hard freeze on domestic spending over the next several years. Consequently, increased federal investment in research must involve shifting of resources from other domestic programs as well as allocating limited science dollars in a more productive manner.

The report highlights two important science priorities: science infrastructure and science education. First, it underscores the need to modernize many of our country's academic research facilities, and commits the federal government to work with state governments and the private sector to renovate and upgrade these facilities. Second, it stresses the importance of educating a new generation of American scientists and making young Americans scientifically literate. The report concludes that scientific and technological literacy and critical to the economic competitiveness of our future workforce.

#### COOPERATIVE FEDERAL ROLE

The report seeks to promote science investment by increasing private sector and foreign involvement in U.S. science efforts. The private sector plays a critical role in developing new technologies that will have commercial applications in the marketplace. Government and the private sector can also work together to improve the science and math curriculum in our schools, expand research facilities in our universities, and boost investment in high tech industry.

Another way to meet the high cost of science research, particularly "big science" research on high energy physics, space exploration nuclear fusion and the like, is by pursuing joint funding efforts with other countries. The end of the Cold War provides us with new opportunities for cooperation. The U.S., of course, should have concerns about giving our international competitors unrestrained access to our most advanced technologies and relinquishing control over important scientific efforts. Even so, joint efforts, where appropriate, can offer substantial benefits to this country and its long-term economic strength.

#### FEDERAL LABS

The report calls for an interagency federal review of the role of federal labs in supporting national goals and the effectiveness of

their contributions to scientific research. The nation's 700-plus federal laboratories are coming under closer scrutiny since the end of the Cold War. Some critics suggest they should be cut back and many of their scientists—over 70,000 scientists and engineers work in federal labs—transferred to private research facilities.

A more effective way to maximize their utility in the post-Cold War world may be through the promotion of commercial partnerships with the private sector. The vast network of federal laboratories continues to perform vital work for our national security, particularly in defense-related areas that cannot be undertaken by the private sector. A key challenge is finding commercial applications for defense-related technologies. The Idaho National Engineering Laboratory, for example, is working with farmers to use ultrasound technology to detect fibers that can contaminate wool and cotton. Federal labs can provide a model for a new cooperative relationship between government and the private sector in promoting and applying scientific research.

#### CONCLUSION:

I strongly believe that we must invest in science, both by allocating more dollars from the public and private sectors, and by making certain that the dollars are spent more wisely. I think there is widespread agreement in Washington that we are a nation under investing in scientific research and development. We must promote our sciences because they are necessary for the national defense; they make our industries more competitive; and they satisfy human needs.

### ENGLISH-ONLY RULER: UNFAIR DISCRIMINATION

#### HON. ROBERT A. UNDERWOOD

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 1994

Mr. UNDERWOOD. Mr. Speaker, in the United States, we pride ourselves on our freedom. We have the freedom to speak our minds and the freedom to pray as we wish. We have the freedom to assemble and the freedom to vote. And we have the freedom from unfair discrimination. But to this day we continue to define the contours of those freedoms in the country's courts and legislatures.

That is why I must bring to my colleagues' attention a development that threatens to take away many of our citizens' capacity to communicate. Bilingual Americans are being prevented from speaking in a language other than English while on the job, even if doing so will have no effect on their performance. Today, I am introducing a bill to correct this unfortunate situation.

Last year, the Ninth Circuit Court of Appeals said, in *Garcia versus Spun Steak*, that businesses can require their employees to speak only English on the job. In that case, bilingual Latino workers at a meat processing plant spoke to each other in Spanish. A Chinese-American employee and an African-American employee suspected that their Latino coworkers were making derogatory comments in Spanish. The employer responded by requiring all workers to speak English at all times while on the job. The Latino workers sued the

employer, claiming that their rights under title VII of the Civil Rights Act of 1964 had been violated.

The Spun Steak court held that title VII had not been violated by the employer's English-only rule. It pointed to guidelines issued by the Equal Employment Opportunity Commission [EEOC] in 1980. Those guidelines stated that English-only rules place a burden on employees and are only allowed if required by a business necessity. Business necessity would mean, for example, that a telephone operator should be able to speak English while on the job, but a painter's job does not have the same language requirements. The court reasoned that the EEOC guidelines were not supported by any statutory or regulatory authority and therefore should not bear upon the court's decision. The court therefore rejected the EEOC's guidelines.

On appeal, the Supreme Court denied certiorari, which meant that throughout the ninth circuit, where one-third of the Nation's bilingual citizens live, businesses can establish English-only rules. But other circuits throughout the Nation have different interpretations of title VII, or have not yet addressed this issue.

I believe Congress must clarify our stance on English-only rules once and for all. I believe we must overturn *Spun Steak* and establish that, for the purposes of title VII, English-only rules are unfairly discriminatory and should only be allowed when justified by a legitimate business purpose. In other words, Congress must give the EEOC statutory authority to establish regulations on this matter, such as the guidelines cited in *Spun Steak*.

We are faced with a significant problem. In 1993, 14,394 complaints were filed with the EEOC for linguistic discrimination. This was a 30 percent increase from 1989. As the number of bilingual Americans increases, we cannot afford to ignore this development. There is no proof that English-only rules increase business productivity. However, many scholars have concluded that such rules create an atmosphere of isolation and intimidation.

Title VII of the Civil Rights Act forbids employment discrimination based on race, color, religion, sex, or national origin. English-only rules fall into the category of discrimination based on national origin. It is well established that, under title VII, discriminatory practices are those that cause a disparate impact on members of a group and cannot be justified by business necessity. The United States Solicitor General, in an *amicus curiae* brief to the Supreme Court, stated:

English-only rules \* \* \* disproportionately burden national origin minorities because they preclude many members of national origin minority groups from speaking the language in which they are best able to communicate, while rarely, if ever, having that effect on non-minority employees.

Thus, English-only rules are discriminatory because they put a burden on certain minority employees while leaving other employees unscathed. This is unfair. Congress can, and should, act to prevent it.

My bill offers a simple solution to this problem. It simply states that, under title VII, an English-only rule creates an adverse and disparate effect on employees. By amending the law this way, Congress gives the EEOC authority to conclude, as it did way back in 1980,

that English-only rules are inherently discriminatory and should only be allowed if required for business purposes.

Mr. Speaker, it is late in the session and I have no illusions about this bill passing in the 103d Congress. I am not introducing it today with the intent of passage before October 7. Instead, I am introducing it in preparation for next Congress, when I will bring this measure forward again and, with my colleagues on the congressional Hispanic caucus and the Asian/Pacific Islander caucus, push for Congress to address this critical issue.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.
