¶58.6 MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. Brian Pate, one of his secretaries.

¶58.7 COMMUNICATION FROM THE CLERK—MESSAGE FROM THE SENATE

The SPEAKER pro tempore, Mr. SIMPSON, laid before the House a communication, which was read as follows:

OFFICE OF THE CLERK,
U.S. HOUSE OF REPRESENTATIVES,
Washington, DC, May 9, 2012.

Hon. JOHN A. BOEHNER,
Speaker, U.S. Capitol, House of Representatives,
Washington, DC.

DEAR MR. SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on May 9, 2012 at 9:22 a.m.:

¶58.8 MESSAGE FROM THE PRESIDENT—
NATIONAL EMERGENCY WITH RESPECT
TO SYRIA

The SPEAKER pro tempore, Mr. SIMPSON, laid before the House a message from the President, which was read as follows:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act, 50 U.S.C. 1622(d), provides for the automatic termination of a national emergency, unless, within 90 days prior to the anniversary date of its declaration, the President publishes in the Federal Register and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent to the Federal Register for publication the enclosed notice stating that the national emergency with respect to the actions of the Government of Syria declared in Executive Order 13338 of May 11, 2004, as modified in scope and relied upon for additional steps taken in Executive Order 13399 of April 25, 2006, Executive Order 13460 of February 13, 2008, Executive Order 13572 of April 29, 2011, Executive Order 13573 of May 18, 2011, Executive Order 13582 of August 17, 2011, Executive Order 13606 of April 22, 2012, and Executive Order 13608 of May 1, 2012, is to continue in effect beyond May 11, 2012.

While the Syrian regime has reduced the number of foreign fighters bound for Iraq, the regime's own brutality and repression of its citizens who have been calling for freedom and a representative government endangers not only the Syrian people themselves, but could yield greater instability throughout the region. The Syrian regime's actions and policies, including obstructing the Lebanese government's ability to function effectively, pursuing chemical and biological weapons, and supporting terrorist organizations, continue to pose an unusual and extraordinary threat to the national security, foreign policy, and economy of the United States. For these reasons, I have determined that it is necessary to continue in effect the national emergency declared with respect to this threat and to maintain in force the sanctions to address this national emergency.

In addition, the United States condemns the Asad regime's use of brutal

violence and human rights abuses and calls on the Asad regime to step aside and immediately begin a transition in Syria to a political process that will forge a credible path to a future of greater freedom, democracy, opportunity, and justice. The United States will consider changes in the composition, policies, and actions of the Government of Syria in determining whether to continue or terminate this national emergency in the future.

BARACK OBAMA.
THE WHITE HOUSE, May 9, 2012.

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on Foreign Affairs and ordered to be printed (H. Doc. 112-107).

Subtitle B—Home Affordable Modification Program

SEC. 321. SHORT TITLE.
This subtitle may be cited as the “HAMP Termination Act of 2012”.

SEC. 322. CONGRESSIONAL FINDINGS.
The Congress finds the following:

(1) According to the Department of the Treasury—

(A) the Home Affordable Modification Program (HAMP) is designed to “help as many as 3 to 4 million financially struggling homeowners avoid foreclosure by modifying loans to a level that is affordable for borrowers now and sustainable over the long term”; and

(B) as of February 2012, only 782,609 active permanent mortgage modifications were made under HAMP.

(2) Many homeowners whose HAMP modifications were canceled suffered because they made futile payments and some of those homeowners were even forced into foreclosure.

(3) The Special Inspector General for TARP reported that HAMP “benefits only a small portion of distressed homeowners, offers others little more than false hope, and in certain cases causes more harm than good”.

(4) Approximately \$30 billion was obligated by the Department of the Treasury to HAMP, however, approximately only \$2.54 billion has been disbursed.

(5) Terminating HAMP would save American taxpayers approximately \$2.84 billion, according to the Congressional Budget Office.

SEC. 323. TERMINATION OF AUTHORITY.

Section 120 of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5230) is amended by adding at the end the following new subsection:

“(3) DEFICIT REDUCTION.—

“(A) USE OF UNOBLIGATED FUNDS.—Notwithstanding any other provision of this title, the amounts described in subparagraph (B) shall not be available after the date of the enactment of this subsection for obligation or expenditure under the Home Affordable Modification Program of the Secretary, but should be covered into the General Fund of the Treasury and should be used only for reducing the budget deficit of the Federal Government.

“(B) IDENTIFICATION OF UNOBLIGATED FUNDS.—The amounts described in this subparagraph are any amounts made available under title I of the Emergency Economic Stabilization Act of 2008 that—

“(ii) are not necessary for providing assistance under such Program on behalf of homeowners who, pursuant to paragraph (2), may be provided assistance after the date of the enactment of this subsection.

“(4) STUDY OF USE OF PROGRAM BY MEMBERS OF THE ARMED FORCES, VETERANS, AND GOLD STAR RECIPIENTS.—

“(A) STUDY.—The Secretary shall conduct a study to determine the extent of usage of the Home Affordable Modification Program by, and the impact of such Program on, covered homeowners.

“(iii) eligible to receive a Gold Star lapel pin under section 1126 of title 10, United States Code, as a widow, parent, or next of kin of a member of the Armed Forces person who died in a manner described in subsection (a) of such section.

“(5) PUBLICATION OF MEMBER AVAILABILITY FOR ASSISTANCE.—Not later than 5 days after the date of the enactment of this subsection, the Secretary of the Treasury shall publish

to its Website on the World Wide Web in a prominent location, large point font, and boldface type the following statement: ‘The Home Affordable Modification Program (HAMP) has been terminated. If you are having trouble paying your mortgage and need help contacting your lender or servicer for purposes of negotiating or acquiring a loan modification, please contact your Member of Congress to assist you in contacting your lender or servicer for the purpose of negotiating or acquiring a loan modification.’.

“(6) NOTIFICATION TO HAMP APPLICANTS REQUIRED.—Not later than 30 days after the date of the enactment of this subsection, the Secretary of the Treasury shall inform each individual who applied for the Home Affordable Modification Program and will not be considered for a modification under such Program due to termination of such Program under this subsection—

“(A) that such Program has been terminated;

“(bb) any existing loan that is secured by the property is increased, extended, or renewed.

“(6) RULE OF CONSTRUCTION.—Nothing in this subsection may be construed to affect the applicability of a designation of any area as an area having special flood hazards for purposes of the availability of flood insurance coverage, criteria for land management and use, notification of flood hazards, eligibility for mitigation assistance, or any other purpose or provision not specifically referred to in paragraph (2).

In developing such proposed standards the Council shall—

(A) ensure that the flood insurance rate maps reflect true risk, including graduated risk that better reflects the financial risk to each property; such reflection of risk should be at the smallest geographic level possible (but not necessarily property-by-property) to ensure that communities are mapped in a manner that takes into consideration different risk levels within the community;

(B) ensure the most efficient generation, display, and distribution of flood risk data, models, and maps where practicable through dynamic digital environments using spatial database technology and the Internet;

(C) ensure that flood insurance rate maps reflect current hydrologic and hydraulic data, current land use, and topography, incorporating the most current and accurate ground and bathymetric elevation data;

(D) determine the best ways to include in such flood insurance rate maps levees, decertified levees, and areas located below dams, including determining a methodology for ensuring that decertified levees and other protections are included in flood insurance rate maps and their corresponding flood zones reflect the level of protection conferred;

(E) consider how to incorporate restored wetlands and other natural buffers into flood insurance rate maps, which may include wetlands, groundwater recharge areas, erosion

zones, meander belts, endangered species habitat, barrier islands and shoreline buffer features, riparian forests, and other features;

(F) consider whether to use vertical positioning (as defined by the Administrator) for flood insurance rate maps;

(G) ensure that flood insurance rate maps differentiate between a property that is located in a flood zone and a structure located on such property that is not at the same risk level for flooding as such property due to the elevation of the structure;

(H) ensure that flood insurance rate maps take into consideration the best scientific data and potential future conditions (including projections for sea level rise); and

(I) consider how to incorporate the new standards proposed pursuant to this paragraph in existing mapping efforts.

(2) ONGOING DUTIES.—The Council shall, on an ongoing basis, review the mapping protocols developed pursuant to paragraph (1), and make recommendations to the Administrator when the Council determines that mapping protocols should be altered.

(3) MEETINGS.—In carrying out its duties under this section, the Council shall consult with stakeholders through at least 4 public meetings annually, and shall seek input of all stakeholder interests including State and local representatives, environmental and conservation organizations, insurance industry representatives, advocacy groups, planning organizations, and mapping organizations.

(2) LETTERS OF MAP CHANGE.—During the period described in paragraph (1), the Administrator may revise, update, and change the flood insurance rate maps in effect for the national flood insurance program only pursuant to a letter of map change (including a letter of map amendment, letter of map revision, and letter of map revision based on fill).

(C) take into consideration the impacts and use of fill and the flood risks associated with altered hydrology;

(D) differentiate between a property that is located in a flood zone and a structure located on such property that is not at the same risk level for flooding as such property due to the elevation of the structure;

(E) identify and incorporate natural features and their associated flood protection benefits into mapping and rates; and

(F) identify, analyze, and incorporate the impact of significant changes to building and development throughout any river or costal water system, including all tributaries, which may impact flooding in areas downstream; and

(3) provide that such rate maps are developed on a watershed basis.

(c) REPORT.—If, in establishing new standards for flood insurance rate maps pursuant to subsection (a) of this section, the Administrator does not implement all of the recommendations of the Council made under the proposed new mapping standards developed by the Council pursuant to section 346(c), upon establishment of the new standards the Administrator shall submit a report to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate specifying which such recommendations were not adopted and explaining the reasons such recommendations were not adopted.

(2) REVIEW OF CERTIFICATE.—The Administrator shall accept as conclusive each elevation certificate submitted under paragraph (1) unless the Administrator conducts a subsequent elevation survey and determines that the lowest level of the primary residence on the property in question is not at an elevation that is at least three feet higher than the elevation of the 100-year flood plain. The Administrator shall provide any such subsequent elevation survey to the owner of such property.

(3) DETERMINATIONS FOR PROPERTIES ON BORDERS OF SPECIAL FLOOD HAZARD AREAS.—

(A) EXPEDITED DETERMINATION.—In the case of any survey for a property submitted to the Administrator pursuant to paragraph (1) showing that a portion of the property is located within an area having special flood hazards and that a structure located on the property is not located within such area having special flood hazards, the Administrator shall expeditiously process any request made by an owner of the property for a determination pursuant to paragraph (2) or a determination of whether the structure is located within the area having special flood hazards.

(B) PROHIBITION OF FEE.—If the Administrator determines pursuant to subparagraph (A) that the structure on the property is not located within the area having special flood hazards, the Administrator shall not charge a fee for reviewing the flood hazard data and shall not require the owner to provide any additional elevation data.

(3) the presence of a foreign body, which has no therapeutic or diagnostic purpose or effect, in the person of the injured person.

Actions by a minor shall be commenced within 3 years from the date of the alleged manifestation of injury except that actions by a minor under the full age of 6 years shall be commenced within 3 years of manifestation of injury or prior to the minor’s 8th birthday, whichever provides a longer period. Such time limitation shall be tolled for minors for any period during which a parent or guardian and a health care provider or health care organization have committed fraud or collusion in the failure to bring an action on behalf of the injured minor.

SEC. 403. COMPENSATING PATIENT INJURY.

(a) UNLIMITED AMOUNT OF DAMAGES FOR ACTUAL ECONOMIC LOSSES IN HEALTH CARE LAWSUITS.—In any health care lawsuit, nothing in this title shall limit a claimant’s recovery of the full amount of the available economic damages, notwithstanding the limitation in subsection (b).

(b) ADDITIONAL NONECONOMIC DAMAGES.—In any health care lawsuit, the amount of noneconomic damages, if available, may be as much as \$250,000, regardless of the number of parties against whom the action is brought or the number of separate claims or actions brought with respect to the same injury.

(c) NO DISCOUNT OF AWARD FOR NONECONOMIC DAMAGES.—For purposes of applying the limitation in subsection (b), future noneconomic damages shall not be discounted to present value. The jury shall not be informed about the maximum award for noneconomic damages. An award for noneconomic damages in excess of \$250,000 shall be reduced either before the entry of judgment, or by amendment of the judgment after entry of judgment, and such reduction shall be made before accounting for any other reduction in damages required by law. If separate awards are rendered for past and

future noneconomic damages and the combined awards exceed \$250,000, the future noneconomic damages shall be reduced first.

(d) **FAIR SHARE RULE.**—In any health care lawsuit, each party shall be liable for that party's several share of any damages only and not for the share of any other person. Each party shall be liable only for the amount of damages allocated to such party in direct proportion to such party's percentage of responsibility. Whenever a judgment of liability is rendered as to any party, a separate judgment shall be rendered against each such party for the amount allocated to such party. For purposes of this section, the trier of fact shall determine the proportion of responsibility of each party for the claimant's harm.

SEC. 404. MAXIMIZING PATIENT RECOVERY.

(a) **COURT SUPERVISION OF SHARE OF DAMAGES ACTUALLY PAID TO CLAIMANTS.**—In any health care lawsuit, the court shall supervise the arrangements for payment of damages to protect against conflicts of interest that may have the effect of reducing the amount of damages awarded that are actually paid to claimants. In particular, in any health care lawsuit in which the attorney for a party claims a financial stake in the outcome by virtue of a contingent fee, the court shall have the power to restrict the payment of a claimant's damage recovery to such attorney, and to redirect such damages to the claimant based upon the interests of justice and principles of equity. In no event shall the total of all contingent fees for representing all claimants in a health care lawsuit exceed the following limits:

(1) Forty percent of the first \$50,000 recovered by the claimant(s).

(2) Thirty-three and one-third percent of the next \$50,000 recovered by the claimant(s).

(3) Twenty-five percent of the next \$500,000 recovered by the claimant(s).

(4) Fifteen percent of any amount by which the recovery by the claimant(s) is in excess of \$600,000.

(b) **APPLICABILITY.**—The limitations in this section shall apply whether the recovery is by judgment, settlement, mediation, arbitration, or any other form of alternative dispute resolution. In a health care lawsuit involving a minor or incompetent person, a court retains the authority to authorize or approve a fee that is less than the maximum permitted under this section. The requirement for court supervision in the first two sentences of subsection (a) applies only in civil actions.

SEC. 405. PUNITIVE DAMAGES.

(a) **IN GENERAL.**—Punitive damages may, if otherwise permitted by applicable State or Federal law, be awarded against any person in a health care lawsuit only if it is proven by clear and convincing evidence that such person acted with malicious intent to injure the claimant, or that such person deliberately failed to avoid unnecessary injury that such person knew the claimant was substantially certain to suffer. In any health care lawsuit where no judgment for compensatory damages is rendered against such person, no punitive damages may be awarded with respect to the claim in such lawsuit. No demand for punitive damages shall be included in a health care lawsuit as initially filed. A court may allow a claimant to file an amended pleading for punitive damages only upon a motion by the claimant and after a finding by the court, upon review of supporting and opposing affidavits or after a hearing, after weighing the evidence, that the claimant has established by a substantial probability that the claimant will prevail on the claim for punitive damages. At the request of any party in a health care lawsuit, the trier of fact shall consider in a separate proceeding—

(1) whether punitive damages are to be awarded and the amount of such award; and

(2) the amount of punitive damages following a determination of punitive liability. If a separate proceeding is requested, evidence relevant only to the claim for punitive damages, as determined by applicable State law, shall be inadmissible in any proceeding to determine whether compensatory damages are to be awarded.

(b) **DETERMINING AMOUNT OF PUNITIVE DAMAGES.**—

(1) **FACTORS CONSIDERED.**—In determining the amount of punitive damages, if awarded, in a health care lawsuit, the trier of fact shall consider only the following—

(A) the severity of the harm caused by the conduct of such party;

(B) the duration of the conduct or any concealment of it by such party;

(C) the profitability of the conduct to such party;

(D) the number of products sold or medical procedures rendered for compensation, as the case may be, by such party, of the kind causing the harm complained of by the claimant;

(E) any criminal penalties imposed on such party, as a result of the conduct complained of by the claimant; and

(F) the amount of any civil fines assessed against such party as a result of the conduct complained of by the claimant.

(2) **MAXIMUM AWARD.**—The amount of punitive damages, if awarded, in a health care lawsuit may be as much as \$250,000 or as much as two times the amount of economic damages awarded, whichever is greater. The jury shall not be informed of this limitation.

(c) **NO PUNITIVE DAMAGES FOR PRODUCTS THAT COMPLY WITH FDA STANDARDS.**—

(1) **IN GENERAL.**—

(A) No punitive damages may be awarded against the manufacturer or distributor of a medical product, or a supplier of any component or raw material of such medical product, based on a claim that such product caused the claimant's harm where—

(i) (I) such medical product was subject to premarket approval, clearance, or licensure by the Food and Drug Administration with respect to the safety of the formulation or performance of the aspect of such medical product which caused the claimant's harm or the adequacy of the packaging or labeling of such medical product; and

(II) such medical product was so approved, cleared, or licensed; or

(ii) such medical product is generally recognized among qualified experts as safe and effective pursuant to conditions established by the Food and Drug Administration and applicable Food and Drug Administration regulations, including without limitation those related to packaging and labeling, unless the Food and Drug Administration has determined that such medical product was not manufactured or distributed in substantial compliance with applicable Food and Drug Administration statutes and regulations.

(B) **RULE OF CONSTRUCTION.**—Subparagraph (A) may not be construed as establishing the obligation of the Food and Drug Administration to demonstrate affirmatively that a manufacturer, distributor, or supplier referred to in such subparagraph meets any of the conditions described in such subparagraph.

(2) **LIABILITY OF HEALTH CARE PROVIDERS.**—A health care provider who prescribes, or who dispenses pursuant to a prescription, a medical product approved, licensed, or cleared by the Food and Drug Administration shall not be named as a party to a product liability lawsuit involving such product and shall not be liable to a claimant in a class action lawsuit against the manufacturer, distributor, or seller of such product. Nothing in this paragraph prevents a court

from consolidating cases involving health care providers and cases involving products liability claims against the manufacturer, distributor, or product seller of such medical product.

(3) **PACKAGING.**—In a health care lawsuit for harm which is alleged to relate to the adequacy of the packaging or labeling of a drug which is required to have tamper-resistant packaging under regulations of the Secretary of Health and Human Services (including labeling regulations related to such packaging), the manufacturer or product seller of the drug shall not be held liable for punitive damages unless such packaging or labeling is found by the trier of fact by clear and convincing evidence to be substantially out of compliance with such regulations.

(4) **EXCEPTION.**—Paragraph (1) shall not apply in any health care lawsuit in which—

(A) a person, before or after premarket approval, clearance, or licensure of such medical product, knowingly misrepresented to or withheld from the Food and Drug Administration information that is required to be submitted under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.) or section 351 of the Public Health Service Act (42 U.S.C. 262) that is material and is causally related to the harm which the claimant allegedly suffered

(B) a person made an illegal payment to an official of the Food and Drug Administration for the purpose of either securing or maintaining approval, clearance, or licensure of such medical product; or

(C) the defendant caused the medical product which caused the claimant's harm to be misbranded or adulterated (as such terms are used in chapter V of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 351 et seq.)).

SEC. 406. AUTHORIZATION OF PAYMENT OF FUTURE DAMAGES TO CLAIMANTS IN HEALTH CARE LAWSUITS.

(a) **IN GENERAL.**—In any health care lawsuit, if an award of future damages, without reduction to present value, equaling or exceeding \$50,000 is made against a party with sufficient insurance or other assets to fund a periodic payment of such a judgment, the court shall, at the request of any party, enter a judgment ordering that the future damages be paid by periodic payments, in accordance with the Uniform Periodic Payment of Judgments Act promulgated by the National Conference of Commissioners on Uniform State Laws.

(b) **APPLICABILITY.**—This section applies to all actions which have not been first set for trial or retrial before the effective date of this title.

The provisions governing health care lawsuits set forth in this title supersede chapter 171 of title 28, United States Code, to the extent that such chapter—

(1) provides for a greater amount of damages or contingent fees, a longer period in which a health care lawsuit may be commenced, or a reduced applicability or scope of periodic payment of future damages, than provided in this title; or

(2) prohibits the introduction of evidence regarding collateral source benefits, or mandates or permits subrogation or a lien on collateral source benefits.

(b) PROTECTION OF STATES' RIGHTS AND OTHER LAWS.—(1) Any issue that is not governed by any provision of law established by or under this title (including State standards of negligence) shall be governed by otherwise applicable State or Federal law.

(1) nearly 5,000 kilograms of uranium-235 enriched to 3.5 percent; and

(2) 79.7 kilograms of uranium-235 enriched to 20 percent;

Whereas, on January 9, 2011, IAEA inspectors confirmed that the Iranian Government had begun enrichment activities at the Fordow site, including possibly enrichment of uranium-235 to 20 percent;

Whereas Iran has repeatedly refused requests by IAEA inspectors to visit its Parchin military facility, a suspected site of Iranian activities related to testing of a nuclear weapon;

Whereas if Iran were successful in acquiring a nuclear weapon capability, it would likely spur other countries in the region to consider developing their own nuclear weapons capabilities;

Whereas, on December 6, 2011, Prince Turki al-Faisal of Saudi Arabia stated that if inter-

national efforts to prevent Iran from obtaining nuclear weapons fail, "we must, as a duty to our country and people, look into all options we are given, including obtaining these weapons ourselves";

Whereas top Iranian leaders have repeatedly threatened the existence of the State of Israel, pledging to "wipe Israel off the map";

Whereas the Department of State—

(1) has designated Iran as a "state sponsor of terrorism" since 1984; and

(2) has characterized Iran as the "most active state sponsor of terrorism";

Whereas Iran has provided weapons, training, funding, and direction to terrorist groups, including Hamas, Hezbollah, and Shiite militias in Iraq that are responsible for the murders of hundreds of American forces and innocent civilians;

Whereas, on July 28, 2011, the Department of the Treasury charged that the Government of Iran had forged a "secret deal" with al Qaeda to facilitate the movement of al Qaeda fighters and funding through Iranian territory;

Whereas in October 2011, senior leaders of Iran's Islamic Revolutionary Guard Corps (IRGC) Quds Force were implicated in a terrorist plot to assassinate Saudi Arabia's Ambassador to the United States on United States soil;

Whereas, on December 26, 2011, the United Nations General Assembly passed a resolution denouncing the serious human rights abuses occurring in Iran, including torture, cruel and degrading treatment in detention, the targeting of human rights defenders, violence against women, and "the systematic and serious restrictions on freedom of peaceful assembly", as well as severe restrictions on the rights to "freedom of thought, conscience, religion or belief";

Whereas the Governments of the P5+1 nations (the United States, the United Kingdom, France, Russia, China, and Germany) have made repeated efforts to engage the Iranian Government in dialogue about Iran's nuclear program and its international commitments under the Treaty on the Non-Proliferation Nuclear Weapons;

Whereas talks between the P5+1 and Iran regarding Iran's nuclear program resumed on April 14, 2012, in Istanbul, Turkey, and the parties agreed to meet again on May 23, 2012, in Baghdad, Iraq;

Whereas in the 2006 State of the Union Address, President Bush stated that "The Iranian Government is defying the world with its nuclear ambitions, and the nations of the world must not permit the Iranian regime to gain nuclear weapons.";

Whereas, on March 31, 2010, President Obama stated that the "consequences of a nuclear-armed Iran are unacceptable";

Whereas in his State of the Union Address on January 24, 2012, President Obama stated, "Let there be no doubt: America is determined to prevent Iran from getting a nuclear weapon, and I will take no options off the table to achieve that goal.";

Whereas Secretary of Defense Panetta stated, in December 2011, that it was unacceptable for Iran to acquire nuclear weapons, reaffirmed that all options were on the table to thwart Iran's nuclear weapons efforts, and vowed that if the United States gets "intelligence that they are proceeding with developing a nuclear weapon then we will take whatever steps necessary to stop it";

Whereas, on December 1, 2011, Deputy Secretary of State William J. Burns and Israeli Deputy Foreign Minister Daniel Ayalon issued a joint statement in Washington, DC, which emphasized that "Iran is the greatest challenge we face today in the Middle East" and that "[c]ontinued efforts by the international community are critical to bringing about change in Iranian behavior and pre-

venting Iran from developing a nuclear weapons capability.”;

Whereas the Department of Defense’s January 2012 Strategic Guidance stated that United States defense efforts in the Middle East would be aimed “to prevent Iran’s development of a nuclear weapons capability and counter its destabilizing policies”;

Whereas, on March 4, 2012, President Obama stated that “Iran’s leaders should understand that I do not have a policy of containment; I have a policy to prevent Iran from obtaining a nuclear weapon.”; and

Whereas, on April 9, 2012, President Obama stated “[T]his continuing pursuit of nuclear weapons capability continues to be a major challenge.”; Now, therefore, be it

Resolved, That the House of Representatives—

(1) warns that time is limited to prevent the Government of Iran from acquiring a nuclear weapons capability;

(2) urges continued and increasing economic and diplomatic pressure on Iran to secure an agreement with the Government of Iran that includes—

(A) the full and sustained suspension of all uranium enrichment-related and reprocessing activities;

(B) complete cooperation with the IAEA on all outstanding questions related to Iran’s nuclear activities, including—

(i) the implementation of the Additional Protocol to the Treaty on the Non-Proliferation of Nuclear Weapons; and

(ii) the verified end of Iran’s ballistic missile programs; and

(C) a permanent agreement that verifiably assures that Iran’s nuclear program is entirely peaceful;

(3) expresses support for the universal rights and democratic aspirations of the Iranian people;

(4) affirms that it is a vital national interest of the United States to prevent the Government of Iran from acquiring a nuclear weapons capability;

(5) strongly supports United States policy to prevent the Government of Iran from acquiring a nuclear weapons capability;

(6) rejects any policy that would rely on efforts to contain a nuclear weapons-capable Iran; and

(7) urges the President to reaffirm the unacceptability of an Iran with nuclear-weapons capability and opposition to any policy that would rely on containment as an option in response to the Iranian nuclear threat.

¶62.6 MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. Brian Pate, one of his secretaries.

¶62.7 PROVIDING FOR CONSIDERATION OF H.R. 4970 AND H.R. 4310

Ms. FOXX, by direction of the Committee on Rules, called up the following resolution (H. Res. 656):

Resolved, That upon the adoption of this resolution it shall be in order to consider in the House the bill (H.R. 4970) to reauthorize the Violence Against Women Act of 1994. All points of order against consideration of the bill are waived. The amendment in the nature of a substitute recommended by the Committee on the Judiciary now printed in the bill, modified by the amendment printed in the report of the Committee on Rules accompanying this resolution, shall be considered as adopted. The bill, as amended, shall be considered as read. All points of order against provisions in the bill, as amended, are waived. The previous question shall be considered as ordered on the bill, as amended, and any amendment thereto to final passage without intervening motion except: (1) one hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on the Judiciary; and (2) one motion to recommit with or without instructions.

SEC. 2. At any time after the adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for consideration of the bill (H.R. 4310) to authorize appropriations for fiscal year 2013 for military activities of the Department of Defense, to prescribe military personnel strengths for fiscal year 2013, and for other purposes. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chair and ranking minority member of the Committee on Armed Services. After general debate, the Committee of the Whole shall rise without motion. No further consideration of the bill shall be in order except pursuant to a subsequent order of the House.

Pending consideration of said resolution,

¶62.8 POINT OF ORDER

Ms. MOORE made a point of order against consideration of said resolution, and said:

"Mr. Speaker, I raise a point of order against H. Res. 656 because the resolution violates section 426(a) of the Congressional Budget Act. The resolution contains a waiver of all points of order against consideration of the bill, except those arising under clause 10 of rule XXI, which includes a waiver of section 425 of the Congressional Budget Act, which causes a violation of section 426(a)."

The SPEAKER pro tempore, Mr. DENHAM, responded to the point of order, and said:

"The gentlewoman from Wisconsin makes a point of order that the resolution violates section 426(a) of the Congressional Budget Act of 1974.

"The gentlewoman has met the threshold burden under the rule and the gentlewoman from Wisconsin and a

Member opposed each will control ten minutes of debate on the question of consideration. After that debate, the Chair will put the question of consideration."

Ms. MOORE was further recognized and said:

"Mr. Speaker, I raise this point of order not necessarily out of concern for unfunded mandates, although there are some unfunded mandates in the underlying bill, H.R. 4970; rather, I am here today because this is the only opportunity to voice opposition to this bill, given the strict, closed terms of our debate today.

"It is baffling to me, Mr. Speaker, that we would be so shut out of today's debate and that House Republicans would so completely abandon any pretense of bipartisanship on a bill like the Violence Against Women Act. This bill has always been a bipartisan effort, and I would argue that on an issue like this, it is incredibly important to have a well-rounded discussion.

"We obviously disagree about the key elements that are critical to include in a Violence Against Women Act reauthorization. Well, why not allow us to have a healthy debate? More importantly, Mr. Speaker, why not allow us our chance to try to improve the legislation before us?

"Our allies in the domestic violence and sexual assault advocacy community have literally spent years compiling input and data from service providers, law enforcement, and victims themselves about what we must do to update VAWA in a reauthorization. And I am here to be a voice of protest because their input is invaluable; yet, for the very first time, their input has been cast aside.

"Last night I offered a substitute, along with Representative CONYERS and Representative LOFGREN, that would have allowed us to consider the Senate-passed version of the Violence Against Women Act, a version which I proudly introduced in March here in this House of Representatives. This legislation was passed in the Senate with sound bipartisan support and includes the improvements that have been endorsed by a broad array of individuals and organizations, including law enforcement agencies.

"But, unfortunately, today we will not be allowed to vote on the Senate bill. We will have to vote on the Adams bill, which is now officially opposed by over 325 organizations. Yes, Mr. Speaker, you heard it right—325 organizations."

Ms. FOXX was recognized to speak to the point of order and said:

"The question before the House is: 'Should the House now consider H. Res. 656?' Section 4 of the Unfunded Mandates Reform Act, or UMRA, excludes from the application of that act any legislative provision that establishes or enforces statutory rights prohibiting discrimination.

"The Congressional Budget Office has stated that while they have not reviewed a provision in section 3 of H.R.

4970 for intergovernmental or private-sector mandates, since that provision prohibits discrimination on the basis of race, color, religion, national origin, sex, or disability, other provisions of H.R. 4970 would impose no intergovernmental mandates as defined in UMRA.

“CBO goes on to say the bill would impose private-sector mandates as defined in UMRA on brokers of international marriage and certain supervisors over persons under official control of the United States. However, CBO estimates that the cost of those mandates would fall well below the annual threshold established in UMRA: \$146 million in 2012, adjusted annually for inflation.

“Mr. Speaker, the motion of the gentlewoman is dilatory. In order to allow the House to continue its scheduled business for the day, I urge Members to vote ‘yes’ on the question of consideration of the resolution, and I reserve the balance of my time.”

Ms. MOORE was further recognized and said:

“I do appreciate the woman walking us through the protocols for the unfunded mandates. And I would submit to her that the National Network to End Domestic Violence, who does a point-in-time counting of domestic violence services nationwide, would indicate that it costs not only personal anguish, but there are costs in society, actual fiscal costs, to not protecting women who are suffering in violent situations.

“Right in my own State of Wisconsin, 714,000 women have been assaulted, raped, or stalked by an intimate partner. This number actually exceeds the population of the entire city of Milwaukee. Imagine the cost to employers when people don’t show up at work. Imagine the cost in emergency rooms when people show up battered and bruised and broken and have no health insurance.

“Approximately half a million of these women were fearful or concerned for their safety. Two hundred and eighty thousand Wisconsin women, 12.7 percent of our population, have been stalked in their lifetime. Imagine the cost of additional police work when these women call the police and nothing has been done in terms of making arrests and asking for accountability.

“A study of childhood exposure to violence in Milwaukee has found that 16 percent of Wisconsin adults report having experienced recurring violence between adults in their childhood. Imagine the loss of productivity at schools. There’s often a lot of talk about kids being inattentive in school and not being able to pass and succeed in school. Next to hunger, imagine the cost of witnessing and experiencing violence in the home as a cost to society.

“I would now like to yield to the gentle lady for a question.

“There were several amendments that were introduced in the Rules Committee last evening, and I was wondering if you were aware of any amendments that were adopted after we left

the Rules Committee last evening. I know there had been a hearing. I was wondering if any of the amendments that Democrats had introduced were adopted.”

Ms. FOXX was further recognized and said:

“None of the amendments were made in order except the manager’s amendment, which brings the bill closer to the Senate version of the bill.”

Ms. MOORE was further recognized and said:

“The manager’s amendment, thankfully, was adopted, because the manager’s amendment did have one little piece in there that helps out immigrant women. But there are 325 groups and organizations, everything from national women organizations to evangelical women and the bishops, that oppose even the manager’s amendment because they say that not only are there just simply rollbacks to the Violence Against Women Act, but it actually puts immigrant women in danger, as the balance is tipped from current law in favor of these batterers, sexual assaulters, abusers, and killers.

“I would like to yield to the gentle lady for one more question.

“Will this body ever have an opportunity to vote on the bipartisan bill from the Senate that passed 68-31? Will this body ever have the opportunity? Will that bill ever be before us?”

Ms. FOXX was further recognized and said:

“Mr. Speaker, it really pains me to see my colleagues across the aisle make the kind of accusations that they make about Republicans being unconcerned about the issue of violence against women. How could they possibly accuse us of not being concerned about that issue? All Republicans are concerned about violence against anyone. Violence, we are very concerned about that. I personally won’t even watch any kind of movie that has any kind of violence in it because I can’t stand to see violence perpetrated on another human being. So Republican men and women both abhor violence against women.

“But what we have done in the legislation that we are proposing is we are asking for increased accountability and to see that more services are directly offered to women who have violence perpetrated against them. In fact, I would say that we are more concerned about violence for women because we want to see those women served better and we want to see the money spent better.

“Mr. Speaker, helping victims of abuse and domestic violence is not a Republican or Democrat issue. I have been pleased to work with Congresswoman Loretta SANCHEZ on H.R. 196, Simplifying the Ambiguous Law Keeping Everyone Reliably Safe, or STALKERS, Act which she has championed for the last two Congresses. The Democrats wouldn’t bring this bill up when they were in control of the House.

“The STALKERS Act updates the Federal stalking statute to include

electronic surveillance and other means of cyber-stalking to ensure that potential stalking victims are protected as technology changes. In addition, the STALKERS Act increases criminal penalties by 5 years for offenders who have violated a protective order or whose victims are under the age of 18 or elderly.

“Congresswoman SANCHEZ and I worked together regardless of which party was in charge of the House, and I’m pleased that legislation with the original cosponsor, who’s a Democrat, has been included in the VAWA reauthorization bill that the House will vote on today. The VAWA reauthorization bill also adds stalking as an allowable grant purpose to continue the work of protecting these victims.

“As we all know, law enforcement and prosecutors must have the resources they need to pursue violent criminals, and I hope my colleagues on both sides of the aisle will join me in voting for H.R. 4970 after voting for this rule providing for its consideration, or the rule we will consider in just a few minutes.

“I’m not going to impugn the character of my colleagues on the other side of the aisle. We all want to stop violence against women. That’s why Republicans have brought forth this bill. Again, the STALKERS Act could have been brought forward under Democrat control of the House. It was not, and I’m very disappointed. But I’m proud of Republicans, that we’re doing it and we’re strengthening the Violence Against Women Act, not weakening the act.”

After debate,

The question being put, viva voce,

Will the House now consider the resolution?

The SPEAKER pro tempore, Mr. DENHAM, announced that the yeas had it.

Ms. FOXX demanded that the vote be taken by the yeas and nays, which demand was supported by one-fifth of the Members present, so the yeas and nays were ordered.

The vote was taken by electronic device.

The SPEAKER pro tempore, Mrs. EMERSON, laid before the House a message from the President, which was read as follows:

To the Congress of the United States:

Pursuant to the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.) (IEEPA), I hereby report that I have issued an Executive Order (the "order") declaring a national emergency with respect to the unusual and extraordinary threat to the national security and foreign policy of the United States posed by the actions and policies of certain members of the Government of Yemen and others to threaten Yemen's peace, security, and stability.

The order does not target the entire country of Yemen or its government, but rather targets those who threaten the peace, security, or stability of Yemen, including by obstructing the implementation of the agreement of November 23, 2011, between the Government of Yemen and those in opposition to it, which provides for a peaceful transition of power that meets the legitimate demands and aspirations of the Yemeni people for change, or by obstructing the political process in Yemen. The order provides criteria for the blocking of property and interests in property of persons determined by the Secretary of the Treasury, in consultation with the Secretary of State, to: have engaged in acts that directly or indirectly threaten the peace, security, or stability of Yemen, such as acts that obstruct the implementation of the agreement of November 23, 2011, between the Government of Yemen and those in opposition to it, which provides for a peaceful transition of power in Yemen, or that obstruct the political process in Yemen; be a political or military leader of an entity that has

engaged in the acts described above; have materially assisted, sponsored, or provided financial, material, or technological support for, or goods or services to or in support of, the acts described above or any person whose property and interests in property are blocked pursuant to the order; or be owned or controlled by, or to have acted or purported to act for or on behalf of, directly or indirectly, any person whose property and interests in property are blocked pursuant to the order.

The designation criteria will be applied in accordance with applicable Federal law including, where appropriate, the First Amendment to the United States Constitution.

I have delegated to the Secretary of the Treasury, in consultation with the Secretary of State, the authority to take such actions, including the promulgation of rules and regulations, and to employ all powers granted to the President by IEEPA as may be necessary to carry out the purposes of the order. All agencies of the United States Government are directed to take all appropriate measures within their authority to carry out the provisions of the order.

I am enclosing a copy of the Executive Order I have issued.

¶63.7 MESSAGE FROM THE PRESIDENT— NATIONAL EMERGENCY WITH RESPECT TO BURMA

The SPEAKER pro tempore, Mrs. MILLER of Michigan, laid before the House a message from the President, which was read as follows:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, within 90 days prior to the anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent to the *Federal Register* for publication the enclosed notice stating that the national emergency with respect to Burma that was declared on May 20, 1997, is to continue in effect beyond May 20, 2012.

The Burmese government has made progress in a number of areas including releasing hundreds of political prisoners, pursuing cease-fire talks with several armed ethnic groups, and pursuing a substantive dialogue with Burma's leading pro-democracy opposition party. The United States is committed to supporting Burma's reform effort,

but the situation in Burma continues to pose an unusual and extraordinary threat to the national security and foreign policy of the United States. Burma has made important strides, but the political opening is nascent, and we continue to have concerns, including remaining political prisoners, ongoing conflict, and serious human rights abuses in ethnic areas. For this reason, I have determined that it is necessary to continue the national emergency with respect to Burma and to maintain in force the sanctions that respond to this threat.

BARACK OBAMA.

THE WHITE HOUSE, May 17, 2012.

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on Foreign Affairs and ordered to be printed (H. Doc. 112-110).

¶63.8 PROVIDING FOR FURTHER CONSIDERATION OF H.R. 4310

Mr. BISHOP of Utah, by direction of the Committee on Rules, called up the following resolution (H. Res. 661):

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for further consideration of the bill (H.R. 4310) to authorize appropriations for fiscal year 2013 for military activities of the Department of Defense, to prescribe military personnel strengths for fiscal year 2013, and for other purposes. No further general debate shall be in order.

SEC. 2. (a) In lieu of the amendment in the nature of a substitute recommended by the Committee on Armed Services now printed in the bill, it shall be in order to consider as an original bill for the purpose of amendment under the five-minute rule an amendment in the nature of a substitute consisting of the text of Rules Committee Print 112 22. That amendment in the nature of a substitute shall be considered as read. All points of order against that amendment in the nature of a substitute are waived.

(b) No amendment to the amendment in the nature of a substitute made in order as original text shall be in order except those printed in the report of the Committee on Rules accompanying this resolution and amendments en bloc described in section 3 of this resolution.

(c) Each amendment printed in the report of the Committee on Rules shall be considered only in the order printed in the report, may be offered only by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole.

(d) All points of order against amendments printed in the report of the Committee on Rules or against amendments en bloc described in section 3 of this resolution are waived.

SEC. 3. It shall be in order at any time for the chair of the Committee on Armed Services or his designee to offer amendments en bloc consisting of amendments printed in the report of the Committee on Rules accompanying this resolution not earlier disposed of. Amendments en bloc offered pursuant to this section shall be considered as read, shall be debatable for 20 minutes equally divided

and controlled by the chair and ranking minority member of the Committee on Armed Services or their designees, shall not be subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole. The original proponent of an amendment included in such amendments en bloc may insert a statement in the Congressional Record immediately before the disposition of the amendments en bloc.

SEC. 4. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. Any Member may demand a separate vote in the House on any amendment adopted in the Committee of the Whole to the bill or to the amendment in the nature of a substitute made in order as original text. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

Pending consideration of said resolution,

¶63.9 POINT OF ORDER

Mr. LARSON of Connecticut, made a point of order against consideration of the resolution, and said:

"Madam Speaker, I make a point of order against the consideration of the resolution. The resolution violates clause 9 of rule XXI by waiving that rule against consideration of amendment no. 1 by Mr. McKEON."

The SPEAKER pro tempore, Mrs. MILLER of Michigan, responded to the point of order, and said:

"The gentleman from Connecticut makes a point of order that the resolution violates clause 9(c) of rule XXI.

"Under clause 9(c) of rule XXI, the gentleman from Connecticut and the gentleman from Utah each will control 10 minutes of debate on the question of consideration.

"After that debate, the Chair will put the question of consideration."

Mr. LARSON of Connecticut, was further recognized and said:

"I rise to speak on behalf of so many families of our men and women in service who are in need of our help. I'm proud to be joined on the floor this afternoon by my dear friend and colleague, Walter JONES.

"I think, Madam Speaker, what we have here is just simply—as the line from 'Cool Hand Luke' says—a failure to communicate. These things can happen. But I know that there are honorable people on both sides who are in agreement with the plight of what happens to the Kenyon family, that I have pictured here. I use this picture and rise on their behalf because these are constituents of mine who brought to my attention a concern that while men and women deployed in our armed services—and in this case, Sergeant Major William Kenyon, deployed twice while his daughter, Rachel, deals with autism.

"Autism is near epidemic in this country, and for military families especially, when someone is abroad in the service of their country, it's hard enough when two parents are at home to deal with autism, but it's even more

complicated when a father or mother is away from their child. And so we heard from thousands of family members across this Nation, and in the process we learned how important this was.

"What they seek is applied behavior analysis, which, unfortunately for them, there's a cap that's placed on this. Imagine you're the mother at home. This loving mother, Rachel, with her daughter, Rachel Margaret, with caps imposed on them, can't afford or can't get the service.

"This amendment is simple and straightforward and has been accepted by the committee. And what happened in the process—and this is why I say that there is miscommunication—is that when the agreed pay-for was asked to be modified, it indeed was, but there was a miscommunication between Rules and the committee.

"I know in my heart that not only Mr. JONES, Mr. BISHOP, who is here, Mr. SESSIONS, who's part of the committee and the Caucus on Autism, and the number of like-minded people in both caucuses care deeply about these results.

"As we approach Memorial Day, certainly we want the message to be to our men and women in the field that we will leave no soldier behind on the battlefield. We also have to know that we will leave no child behind at home.

"This is a compelling case that the Kenyons make on behalf of all Americans—men and women who serve in our military—and one that has been underscored by my dear friend in his experience at Camp Lejeune."

Mr. JONES was recognized to speak to the point of order and said:

"I want to say to both parties, he is exactly right. I have Camp Lejeune Marine Base in my district. The last 4 years I've met two different times with Marine husbands and wives and their children with autism. It is a serious problem. And as Mr. LARSON has said, this was fixed, but somewhere along the way the communication breaks down, like it does too often here in Washington.

"As Mr. LARSON said, let's try to fix this problem today. Let's get it in the base bill. Let's send it over to the Senate on behalf of all of our men and women in uniform and the families who have children with autism.

"Please, God, let us fix this for those families."

Mr. LARSON of Connecticut, was further recognized and said:

"This is a pretty remarkable family. And about a month ago I was in New York City on the Intrepid where we heard from several military families, families in general that are dealing with the issue of autism. So many like-minded people in this caucus, and frankly in this Congress, understand the predicament that the Kenyons face.

"Imagine, Sergeant Major Kenyon, having done two tours of duty in Afghanistan. I rise today on behalf of him and his daughter, who only ask of this Congress what I know everyone would like to deliver on. We can't let a

miscommunication stand between their getting the relief that they and so many American families need.

"I would hope, and I'm told through our process that because, as the resolution was read, that because Chairman McKEON has en bloc capability, that we are able to work out something and have this amendment as it was intended, as it was agreed to in the process, and as the corrections were made that were asked of the majority so that it could be made in order and placed en bloc, that this may occur for this family and the thousands others that are like them.

"I ask my colleague from Utah, a man of great distinction—and I don't know that he will use his 10 minutes or if we could enter into a colloquy—as to how we might proceed on this."

Mr. BISHOP of Utah, was recognized to speak to the point of order and said:

"Would you like to start the colloquy, because I really don't have the best answer for you right now."

Mr. LARSON of Connecticut, was further recognized and said:

"It is my hope and understanding that this may not be a remedy that we can have through the Rules Committee, and rather than put the body through a series of votes, if we could work with the committee and the committee of cognizance, the Armed Services Committee, I know that Ranking Member SMITH is here and certainly will work with and strive to correct this anomaly that has occurred, and I believe that like-minded people on both sides of the aisle want to see this succeed."

Mr. BISHOP of Utah, was further recognized and said:

"There are a couple of different levels on which we need to respond. I have the utmost respect for the gentleman from Connecticut, as well as the gentleman from North Carolina, on this issue. I have a great deal of empathy on this issue. There is the technical approach about which this rule deals, as well as the potential of how we can actually solve the problem, and those are two different concepts. I think you alluded to that fact.

"The first one, as to the specifics of this, and as I would then obviously claim the time in favor of the consideration of the resolution, the question before the House is: 'Should the House now consider House Resolution 661?' And while the resolution waives all points of order against the amendment in the nature of a substitute and the amendment printed in the Rules Committee report, the committee is not aware of any points of order and the waivers are prophylactic in nature, which means Chairman McKEON has filed an earmark statement regarding his manager's amendment and the statement we will read at some time in the future.

"There is the ability, though, of obviously trying to find a solution to a problem that has developed, whether it is from miscommunication or not. From my position as managing this

particular rule, I cannot commit to that. But I am aware, and I am sure that the committee is obviously recognizing the fact that we have multiple steps as we go forward. The Senate still has to produce a piece of work, and it has to go to a conference committee. At any of those steps along the way, there is the opportunity of trying to find a good solution to this particular issue. Though I cannot make a commitment on my part at this time, I think we can talk about that in the future.”

Mr. LARSON of Connecticut, was further recognized and said:

“I thank the gentleman from Utah. I know that he is a man of great integrity and respect, and I understand the dilemma that he is placed in in terms of the Rules Committee.

“It is my understanding and hope, and we will work with the committee of cognizance because we do think, with so many people having signed on to this bill and so many people watching and knowing that there was good-faith agreements on all sides—and this is not about finger-pointing or blame. This is about helping these kids out. It’s about helping these families out. I’m not here to obstruct the process, you’re right. I raised the point of order so I would have an opportunity to talk about the Kenyons, not about the point of order. But that’s the only tool that I had available to me, and I will continue to proceed down the road. And I know that I will be joined by Members on both sides, and hopefully we can have the will of the House be known and not rely on the Senate in the process of conference.”

Mr. BURTON of Indiana, was recognized to speak to the point of order and said:

“When I was chairman of Government Reform and Oversight, we had hearings for about 2 years on the autism issue. And while I’m not going to speak on this particular motion, I would just like to say that it is a real tragedy that we are facing in this country. We used to have one in 10,000 people that were autistic—kids—and now it is 1 in 88. It is an absolute epidemic, and there’s really not much of a recourse for the parents. These kids are going to live a normal life expectancy, and it’s going to cost the taxpayers of this country and all the States a ton of money. And so we have to get a handle on this as quickly as possible.

“So I appreciate the gentleman raising the issue. I’m not going to be able to support his position, but if I can work with you in any way to deal with this problem, I hope you’ll contact me.”

Mr. BISHOP of Utah, was further recognized and said:

“Madam Speaker, at this time, I am limited in the kinds of responses I have here. Once again, I appreciate the gentleman from Connecticut bringing this issue up. It is a significant issue. We have a great deal of empathy for this particular issue, and I’m sure that as we go along through the process of this

bill, this issue and some others may be able to be worked out in other venues.

“At this stage of the game, though, there are certain restrictions procedurally on what we can and cannot do with this particular issue. This issue, as I said, has had the statement by Chairman MCKEON as to the amendments. His statement was simply as follows:

‘The amendments to be offered by Representative MCKEON to H.R. 4310, the National Defense Authorization Act for Fiscal Year 2013, does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 under rule XXI.’

“So with that, there are certain restrictions which we have to do procedurally to go forward with this particular piece of legislation, realizing there are other discussions that will take place before we come to a final conclusion. So in order to allow the House to continue its scheduled business for the day, I would urge Members to vote ‘yes’ on the question of consideration of this resolution so that we can continue on with the 141 amendments that were made in order and then talk about procedurally how to do some others that may be coming down at some other time.”

After debate,
The question being put, viva voce,
Will the House now consider the resolution?

The SPEAKER pro tempore, Mrs. MILLER of Michigan, announced that the yeas had it.

So the House decided to consider said resolution.

A motion to reconsider the vote whereby the House decided to consider said resolution was, by unanimous consent, laid on the table.

Accordingly,
When said resolution was considered.

At the end of subtitle H of title X, add the following new section:

SEC. ____ CONDITIONAL REPLACEMENT FOR FY 2013 SEQUESTER.

(2) similar legislation that at least offsets the outlay reductions flowing from the budget authority reductions mandated by section 251A(7)(A) and 251A(8) as it applies to direct spending in the defense function for fiscal year 2013 of the Balanced Budget and Emergency Deficit Control Act of 1985, as in force immediately before the date of enactment of this Act, combined with the outlay reductions flowing from the amendment to section 251A(7)(A)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985 made by subsection (c), within five years of enactment.

(b) REVISED 2013 DISCRETIONARY SPENDING LIMIT.—Paragraph (2) of section 251(c) of the Balanced Budget and Emergency Deficit Control Act of 1985 is amended to read as follows:

“(2) with respect to fiscal year 2013, for the discretionary category, \$1,047,000,000,000 in new budget authority;”.

(c) DISCRETIONARY SAVINGS.—Section 251A(7)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985 is amended to read as follows:

“(A) FISCAL YEAR 2013.—

“(ii) SUPPLEMENTAL SEQUESTRATION ORDER.—On January 15, 2013, OMB shall issue a supplemental sequestration report for fiscal year 2013 and take the form of a final sequestration report as set forth in section 254(f)(2) and using the procedures set forth in section 253(f), to eliminate any discretionary spending breach of the spending limit set forth in section 251(c)(2) as adjusted by clause (i), and the President shall order a sequestration, if any, as required by such report.”.

(d) ELIMINATION OF THE FISCAL YEAR 2013 SEQUESTRATION FOR DEFENSE DIRECT SPENDING.—Any sequestration order issued by the President under the Balanced Budget and Emergency Deficit Control Act of 1985 to carry out reductions to direct spending for the defense function (050) for fiscal year 2013 pursuant to section 251A of such Act shall have no force or effect.

(e) REPORT.—

(1) IN GENERAL.—Not later than August 15, 2012, the Secretary of Defense shall submit to the Committees on Armed Services of the House of Representatives and the Senate a detailed report on the impact of the sequestration of funds authorized and appropriated for Fiscal Year 2013 for the Department of Defense, if automatically triggered on January 2, 2013, as required by section 251A of the Balanced Budget and Emergency Deficit

(C) a listing of the programs, projects, and activities across the military departments and components that would be reduced or terminated as a result of automatically triggered cuts;

(D) an estimate of the number and value of all contracts that will be terminated, restructured, or rescoped due to sequestration, including an estimate of potential termination costs and increased contracts costs due to renegotiation and reinstatement of the contract; and

(E) an estimate of the number of civilian, contract, and uniformed personnel whose employment would be terminated due to sequestration, including the estimated cost to the Department of executing such a draw-down.

¶64.32 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment numbered 48, printed in House Report 112-485, submitted by Mr. COFFMAN of Colorado:

At the end of title XII, add the following new section:

SEC. 12 . . . REMOVAL OF BRIGADE COMBAT TEAMS FROM EUROPE.

(a) FINDING.—Congress finds that, because defense spending among European NATO countries fell 12% since 2008, from \$314 billion to \$275 billion, so that currently only 4 out of the 28 NATO allies of the United States are spending the widely agreed-to

standard of 2% of their GDP on defense, the United States must look to more wisely allocate scarce resources to provide for the national defense.

(b) REMOVAL AUTHORIZED.—The President is authorized and requested to end the permanent basing of units of the United States Armed Forces in European member nations of the North Atlantic Treaty Organization and return the four Brigade Combat Teams currently stationed in Europe to the United States.

(c) USE OF ROTATIONAL FORCES TO SATISFY SECURITY NEEDS.—It is the policy of the United States that the deployment of units of the United States Armed Forces on a rotational basis at military installations in European member nations of the North Atlantic Treaty Organization pursuant to the Army Force Generation (ARFORGEN) process is a force-structure arrangement sufficient to permit the United States—

(1) to satisfy the commitments undertaken by United States pursuant to Article 5 of the North Atlantic Treaty, signed at Washington, District of Columbia, on April 4, 1949, and entered into force on August 24, 1949 (63 Stat. 2241; TIAS 1964);

(2) to address the current security environment in Europe; and

(3) to contribute to peace and stability in Europe.

It was decided in the { Yeas 226 affirmative } Nays 196

64.34 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the

Whole on the following amendment numbered 49, printed in House Report 112-485, submitted by Ms. LEE:

At the appropriate place in title XII of division A of the bill, add the following:

Subtitle—PREVENT IRAN FROM ACQUIRING NUCLEAR WEAPONS AND STOP WAR THROUGH DIPLOMACY ACT

SEC. 1. SHORT TITLE.

This subtitle may be cited as the “Prevent Iran from Acquiring Nuclear Weapons and Stop War Through Diplomacy Act”.

SEC. 2. FINDINGS.

Congress finds the following:

(1) In his Nobel Peace Prize acceptance speech on December 10, 2009, President Obama said, “I know that engagement with repressive regimes lacks the satisfying purity of indignation. But I also know that sanctions without outreach—and condemnation without discussion—can carry forward a crippling status quo. No repressive regime can move down a new path unless it has the choice of an open door.”

(2) In his address to the American Israel Public Affairs Committee on March 4, 2012, President Obama said, “I have said that when it comes to preventing Iran from obtaining a nuclear weapon, I will take no options off the table, and I mean what I say. That includes all elements of American power. A political effort aimed at isolating Iran; a diplomatic effort to sustain our coalition and ensure that the Iranian program is monitored; an economic effort to impose crippling sanctions; and, yes, a military effort to be prepared for any contingency.”

(3) While the Obama Administration has rejected failed policies of the past by engaging in negotiations with Iran without preconditions, only four of such meetings have occurred.

(4) Official representatives of the United States and official representatives of Iran have held only two direct, bilateral meetings in over 30 years, both of which occurred in October 2009, one on the sidelines of the United Nations Security Council negotiations in Geneva, and one on the sidelines of negotiations brokered by the United Nations International Atomic Energy Agency (referred to in this Act as the “IAEA”) in Vienna.

(5) All of the outstanding issues between the United States and Iran cannot be resolved instantaneously. Resolving such issues will require a robust, sustained effort.

(6) Under the Department of State’s current “no contact” policy, officers and employees of the Department of State are not permitted to make any direct contact with official representatives of the Government of Iran without express prior authorization from the Secretary of State.

(7) On September 20, 2011, then-Chairman of the Joint Chiefs of Staff Admiral Mike Mullen, called for establishing direct communications with Iran, stating, “I’m talking about any channel that’s open. We’ve not had a direct link of communication with Iran since 1979. And I think that has planted many seeds for miscalculation. When you miscalculate, you can escalate and misunderstand.”

(8) On November 8, 2011, the IAEA issued a report about Iran’s nuclear program and expressed concerns about Iran’s past and ongoing nuclear activities.

(9) On December 2, 2011, Secretary of Defense Leon Panetta warned that an attack on Iran would result in “an escalation that would take place that would not only involve many lives, but I think it could consume the Middle East in a confrontation and a conflict that we would regret.”

SEC. 3. STATEMENT OF POLICY.

It should be the policy of the United States—

(1) to prevent Iran from pursuing or acquiring a nuclear weapon and to resolve the concerns of the United States and of the international community about Iran’s nuclear program and Iran’s human rights obligations under international and Iranian law;

(2) to ensure inspection of cargo to or from Iran, as well as the seizure and disposal of prohibited items, as authorized by United Nations Security Council Resolution 1929 (June 9, 2010);

(3) to pursue sustained, direct, bilateral negotiations with the Government of Iran without preconditions in order to reduce tensions, prevent war, prevent nuclear proliferation, support human rights, and seek resolutions to issues that concern the United States and the international community;

(4) to utilize all diplomatic tools, including direct talks, targeted sanctions, Track II diplomacy, creating a special envoy described in section 4, and enlisting the support of all interested parties, for the purpose of establishing an agreement with Iran to put in place a program that includes international safeguards, guarantees, and robust transparency measures that provide for full IAEA oversight of Iran’s nuclear program, including rigorous, ongoing inspections, in order to verify that Iran’s nuclear program is exclusively for peaceful purposes and that Iran is not engaged in nuclear weapons work;

(5) to pursue opportunities to build mutual trust and to foster sustained negotiations in good faith with Iran, including pursuing a fuel swap deal to remove quantities of low enriched uranium from Iran and to refuel the Tehran Research Reactor, similar to the structure of the deal that the IAEA, the United States, China, Russia, France, the United Kingdom, and Germany first proposed in October 2009;

(6) to explore areas of mutual benefit to both Iran and the United States, such as regional security, the long-term stabilization of Iraq and Afghanistan, the establishment of a framework for peaceful nuclear energy production, other peaceful energy modernization programs, and counter-narcotics efforts; and

(7) that no funds appropriated or otherwise made available to any executive agency of the Government of the United States may be used to carry out any military operation or activity against Iran unless the President determines that a military operation or activity is warranted and seeks express prior authorization by Congress, as required under article I, section 8, clause 2 of the United States Constitution, which grants Congress the sole authority to declare war, except that this requirement shall not apply to a military operation or activity—

(A) to directly repel an offensive military action launched from within the territory of Iran against the United States or any ally with whom the United States has a mutual defense assistance agreement;

(B) in hot pursuit of forces that engage in an offensive military action outside the territory of Iran against United States forces or an ally with whom the United States has a mutual defense assistance agreement and then enter into the territory of Iran; or

(C) to directly thwart an imminent offensive military action to be launched from within the territory of Iran against United States forces or an ally with whom the United States has a mutual defense assistance agreement.

SEC. 4. APPOINTMENT OF HIGH-LEVEL U.S. REPRESENTATIVE OR SPECIAL ENVOY.

(a) APPOINTMENT.—At the earliest possible date, the President, in consultation with the Secretary of State, shall appoint a high-level United States representative or special envoy for Iran.

(b) CRITERIA FOR APPOINTMENT.—The President shall appoint an individual under subsection (a) on the basis of the individual's knowledge and understanding of the issues regarding Iran's nuclear program, experience in conducting international negotiations, and ability to conduct negotiations under subsection (c) with the respect and trust of the parties involved in the negotiations.

(c) DUTIES.—The high-level United States representative or special envoy for Iran shall—

(1) seek to facilitate direct, unconditional, bilateral negotiations with Iran for the purpose of easing tensions and normalizing relations between the United States and Iran;

(2) lead the diplomatic efforts of the Government of the United States with regard to Iran;

(3) consult with other countries and international organizations, including countries in the region, where appropriate and when necessary to achieve the purpose set forth in paragraph (1);

(4) act as liaison with United States and international intelligence agencies where appropriate and when necessary to achieve the purpose set for in paragraph (1); and

(5) ensure that the bilateral negotiations under paragraph (1) complement the ongoing international negotiations with Iran.

SEC. 5. DUTIES OF THE SECRETARY OF STATE.

(a) ELIMINATION OF "NO CONTACT" POLICY.—Not later than 30 days after the date of enactment of this Act, the Secretary of State shall rescind the "no contact" policy that prevents officers and employees of the Department of State from making any direct contact with official representatives of the Government of Iran without express prior authorization from the Secretary of State.

(b) OFFICE OF HIGH-LEVEL U.S. REPRESENTATIVE OR SPECIAL ENVOY.—Not later than 30 days after the appointment of a high-level United States representative or special envoy under section 4(a), the Secretary of State shall establish an office in the Department of State for the purpose of supporting the work of the representative or special envoy.

SEC. 6. REPORTING TO CONGRESS.

(a) REPORTS.—Not later than 60 days after the high-level United States representative or special envoy for Iran is appointed under section 4, and every 180 days thereafter, the United States representative or special envoy shall report to the committees set forth in subsection (b) on the steps that have been taken to facilitate direct, bilateral diplomacy with the government of Iran under section 4(c). Each such report may, when necessary or appropriate, be submitted in classified and unclassified form.

(b) COMMITTEES.—The committees referred to in subsection (a) are—

(1) the Committee on Appropriations, the Committee on Foreign Affairs, the Committee on Armed Services, and the Permanent Select Committee on Intelligence of the House of Representatives; and

(2) the Committee on Appropriations, the Committee on Foreign Relations, the Committee on Armed Services, and the Select Committee on Intelligence of the Senate.

SEC. 7. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to carry out this subtitle such sums as may be necessary for fiscal year 2013.

¶64.36 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment numbered 54, printed in House Report 112-485, submitted by Mr. FRANKS of Arizona:

At the end of subtitle B of title XXXI, add the following new section:

SEC. 3123. LIMITATION ON AVAILABILITY OF FUNDS FOR NUCLEAR NON-PROLIFERATION ACTIVITIES WITH RUSSIAN FEDERATION.

(a) LIMITATION.—None of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2013 for defense nuclear nonproliferation may be obligated or expended for nuclear nonproliferation activities with the Russian Federation until the date that is 30 days after the date on which the Secretary of Energy certifies, in coordination with the Secretary of State and the Secretary of Defense, to the appropriate congressional committees that—

(1) Russia is no longer—
(A) providing direct or indirect support to the government of Syria's suppression of the Syrian people; and

(B) transferring to Iran, North Korea, or Syria equipment and technology that have the potential to make a material contribution to the development of weapons of mass destruction or cruise or ballistic missile systems controlled under multilateral control lists; or

(2) funds planned to be obligated or expended for nuclear nonproliferation activities with the Russian Federation are strictly for project closeout activities and will not be used for new activities or activities that will extend beyond fiscal year 2013.

(b) WAIVER.—The Secretary of Energy may waive the limitation in subsection (a) if—

(1) the Secretary determines that such waiver is in the national security interests of the United States;

(2) the Secretary briefs, in an unclassified form, the appropriate congressional committees on the justifications of such waiver; and
(3) a period of 90 days has elapsed following the date on which such briefing is held.

(c) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this section, the term “appropriate congressional committees” means—

(1) the Committee on Armed Services and the Committee on Foreign Affairs of the House of Representatives; and

(2) the Committee on Armed Services and the Committee on Foreign Relations of the Senate.

SEC. 318. SENSE OF CONGRESS REGARDING DECONTAMINATION OF FORMER BOMBARDMENT AREA ON ISLAND OF CULEBRA, PUERTO RICO.

(a) FINDINGS.—The Congress finds the following—

(1) Section 2815 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383; 124 Stat. 4464) requires the Secretary of Defense within 270 days of receiving a request from the government of Puerto Rico, to conduct a study assessing the presence of unexploded ordnance, and any threat to public health, public safety and the environment posed by such unexploded ordnance, in the portion of the former bombardment area on the island of Culebra, Puerto Rico, that was transferred to the government of Puerto Rico by quitclaim deed on August 11, 1982.

(2) On April 25, 2011, the Governor of Puerto Rico formally requested by letter that the Secretary of Defense commence this study.

(3) On May 25, 2011, the Deputy Under Secretary of Defense for Installations and Environment acknowledged receipt of the Governor’s letter on behalf of the Secretary of Defense, and affirmed that the Department of Defense would conduct the study in accordance with such section 2815 and provide the final report to Congress no later than 270 days from the date of the Governor’s letter.

(4) January 20, 2012, marked the date 270 days after the Governor’s letter of April 25, 2011.

(5) Section 204(c) of the Military Construction Authorization Act, 1974 (Public Law 93-166; 87 Stat. 668) stated that “the present bombardment area on the island of Culebra shall not be utilized for any purpose that would require decontamination at the expense of the United States.” The Department of Defense has interpreted this provision to constitute a permanent prohibition on the use of Federal funds in the area of Culebra

referenced in such section to pay for decontamination and removal of unexploded ordnance, although it may be warranted to protect public health, public safety, and the environment.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the Secretary of Defense should expeditiously submit to the Committees on Armed Services of the Senate and House of Representatives the final report prepared in accordance with section 2815 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383; 124 Stat. 4464);

(2) if that report indicates that decontamination and removal of unexploded ordnance in the portion of the former bombardment area on Culebra that was transferred to the government of Puerto Rico by quitclaim deed on August 11, 1982, could be conducted at reasonable cost to the Federal Government, it is appropriate for Congress to amend section 204(c) of the Military Construction Authorization Act, 1974 (Public Law 93-166; 87 Stat. 668) to authorize such decontamination and removal of unexploded ordnance; and

(3) any removal of unexploded ordnance should be accomplished pursuant to the normal prioritization process established by the Department of Defense under the Military Munitions Response Program within the Defense Environmental Restoration Program.

(b) **DEFINITION OF SUBSTANTIATED.**—For purposes of implementing this section, the Secretary of Defense shall use the definition of substantiated developed for the annual report on sexual assaults involving members of the Armed Forces prepared under section 1631 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383; 124 Stat. 4433; 10 U.S.C. 1561 note).

SEC. 584. SENSE OF CONGRESS ON MILITARY SEXUAL TRAUMA.

(a) **FINDINGS.**—Congress finds the following:

(1) The Department of Defense conducted a survey of members of the Armed Forces serving on active duty that revealed that only 13.5 percent of such members reported incidents of sexual assault, which means that more than 19,000 incidents of sexual assault of members of the Armed Forces actually occurred in 2010 alone.

(2) Despite attempts, the Department of Defense has failed to address the chronic under reporting of incidents of sexual assault and harassment, as by the Department's own estimates, 86 percent of sexual assaults went unreported in 2010.

(3) Sexual assault in the military is an ongoing problem leading many victims to seek help after separation from the Armed Forces from the Department of Veterans Affairs.

(4) About 1 in 5 women and 1 in 100 men seen in Veterans Health Administration respond “Yes” when screened for military sexual trauma.

(5) Among users of healthcare provided by the Department of Veterans Affairs, medical record data indicates that diagnoses of post-traumatic stress disorder and other anxiety disorders, depression and other mood disorders, and substance use disorders are most frequently associated with military sexual trauma.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the Secretary of Veterans Affairs should expand efforts to raise awareness about military sexual trauma and the treatment and services that the Department provides to victims; and

(2) in light of the fact that the available data shows an overwhelming number of military sexual trauma claims go unreported within the Department of Defense, making it very difficult for veterans to show proof of

the assault when filing claims with the Department of Veterans Affairs for post-traumatic stress disorder and other mental health conditions caused by military sexual trauma, the Secretary of Veterans Affairs should review the disability process to ensure that victims of military sexual trauma who file claims for service connection do not face unnecessary or overly burdensome requirements in order to claim disability benefits with the Department.

SEC. 596. SENSE OF CONGRESS REGARDING THE RECOVERY OF THE REMAINS OF CERTAIN MEMBERS OF THE ARMED FORCES KILLED IN THURSTON ISLAND, ANTARCTICA.

(a) FINDINGS.—Congress makes the following findings:

(1) Commencing August 26, 1946, though late February 1947 the United States Navy Antarctic Developments Program Task Force 68, codenamed “Operation Highjump” initiated and undertook the largest ever-to-date exploration of the Antarctic continent.

(2) The primary mission of the Task Force 68 organized by Rear Admiral Richard E. Byrd Jr. USN, (Ret) and led by Rear Admiral Richard H. Cruzen, USN, was to do the following:

(A) Establish the Antarctic research base Little America IV.

(B) In the defense of the United States of America from possible hostile aggression from abroad - to train personnel test equipment, develop techniques for establishing, maintaining and utilizing air bases on ice, with applicability comparable to interior Greenland, where conditions are similar to those of the Antarctic.

(C) Map and photograph a full two-thirds of the Antarctic Continent during the classified, hazardous duty/volunteer-only operation involving 4700 sailors, 23 aircraft and 13 ships including the first submarine the U.S.S. Sennet, and the aircraft carrier the U.S.S. Philippine Sea, brought to the edge of the ice pack to launch (6) Navy ski-equipped, rocket-assisted R4Ds.

(D) Consolidate and extend United States sovereignty over the largest practicable area of the Antarctic continent.

(E) Determine the feasibility of establishing, maintaining and utilizing bases in the Antarctic and investigating possible base sites.

(3) While on a hazardous duty/all volunteer mission vital to the interests of National Security and while over the eastern Antarctica coastline known as the Phantom Coast, the PBM-5 Martin Mariner “Flying Boat” “George 1” entered a whiteout over Thurston Island. As the pilot attempted to climb, the aircraft grazed the glacier’s ridgeline and exploded within 5 seconds instantly killing Ensign Maxwell Lopez, Navigator and Wendell “Bud” Hendersin, Aviation Machinists Mate 1st Class while Frederick Williams, Aviation Radioman 1st Class died several hours later. Six other crewmen survived including the Captain of the “George 1’s” seaplane tender U.S.S. Pine Island.

(4) The bodies of the dead were protected from the desecration of Antarctic scavenging birds (Skuas) by the surviving crew wrapping the bodies and temporarily burying the men under the starboard wing engine nacelle.

(5) Rescue requirements of the “George-1” survivors forced the abandonment of their crewmates’ bodies.

(6) Conditions prior to the departure of Task Force 68 precluded a return to the area to the recover the bodies.

(7) For nearly 60 years Navy promised the families that they would recover the men: “If the safety, logistical, and operational prerequisites allow a mission in the future, every effort will be made to bring our sailors home.”

(8) The Joint POW/MIA Accounting Command twice offered to recover the bodies of this crew for Navy.

(9) A 2004 NASA ground penetrating radar overflight commissioned by Navy relocated the crash site three miles from its crash position.

(10) The Joint POW/MIA Accounting Command offered to underwrite the cost of an aerial ground penetrating radar (GPR) survey of the crash site area by NASA.

(11) The Joint POW/MIA Accounting Command studied the recovery with the recognized recovery authorities and national scientists and determined that the recovery is only “medium risk”.

(12) National Science Foundation and scientists from the University of Texas, Austin, regularly visit the island.

(13) The crash site is classified as a “perishable site”, meaning a glacier that will calve into the Bellingshausen Sea.

(14) The National Science Foundation maintains a presence in area - of the Pine Island Glacier.

(15) The National Science Foundation Director of Polar Operations will assist and provide assets for the recovery upon the request of Congress.

(16) The United States Coast Guard is presently pursuing the recovery of 3 WWII air crewmen from similar circumstances in Greenland.

(17) On Memorial Day, May 25, 2009, President Barack Obama declared: “* * * the support of our veterans is a sacred trust * * * we need to serve them as they have served us * * * that means bringing home all our POWs and MIAs * * *”.

(18) The policies and laws of the United States of America require that our armed service personnel be repatriated.

(19) The fullest possible accounting of United States fallen military personnel means repatriating living American POWs and MIAs, accounting for, identifying, and recovering the remains of military personnel who were killed in the line of duty, or providing convincing evidence as to why such a repatriation, accounting, identification, or recovery is not possible.

(20) It is the responsibility of the Federal Government to return to the United States for proper burial and respect all members of the Armed Forces killed in the line of duty who lie in lost graves.

(b) SENSE OF CONGRESS.—In light of the findings under subsection (a), Congress—

(1) reaffirms its support for the recovery and return to the United States, the remains and bodies of all members of the Armed Forces killed in the line of duty, and for the efforts by the Joint POW-MIA Accounting Command to recover the remains of members of the Armed Forces from all wars, conflicts and missions;

(2) recognizes the courage and sacrifice of all members of the Armed Forces who participated in Operation Highjump and all missions vital to the national security of the United States of America;

(3) acknowledges the dedicated research and efforts by the US Geological Survey, the National Science Foundation, the Joint POW/MIA Accounting Command, the Fallen American Veterans Foundation and all persons and organizations to identify, locate, and advocate for, from their temporary Antarctic grave, the recovery of the well-preserved frozen bodies of Ensign Maxwell Lopez, Naval Aviator, Frederick Williams, Aviation Machinist’s Mate 1ST Class, Wendell Hendersin, Aviation Radioman 1ST Class of the “George 1” explosion and crash; and

Subtitle C—Reports and Other Matters

SEC. 723. ESTABLISHMENT OF TRICARE WORKING GROUP.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) children of members of the Armed Forces deserve health-care practices and policies that—

(A) are designed to meet their pediatric-specific needs;

(B) are developed and determined proactively and comprehensively; and

(C) ensure and maintain their access to pediatric-specific treatments, providers, and facilities.

(2) children’s health-care needs and standards of care are different and distinct from those of adults, therefore the TRICARE program should undertake a proactive, comprehensive approach to review and analyze its policies and practices to meet the needs of children to ensure that children and their families receive appropriate care in proper settings and avoid unnecessary challenges in seeking or obtaining proper health care;

(3) a proactive and comprehensive review is necessary because the reimbursement structure of the TRICARE program is patterned upon Medicare and the resulting policies and practices of the TRICARE program do not always properly reflect appropriate standards for pediatric care;

(4) one distinct aspect of children’s health care is the need for specialty care and serv-

ices for children with special-health-care needs and chronic-health conditions;

(5) the requirement for specialized health care and developmental support is an ongoing and serious matter of day-to-day life for families with children with special or chronic-health-care needs;

(6) the Department of Defense and the TRICARE program, recognizing the special needs of certain children, have instituted special-needs programs, including the ECHO program, but there are collateral needs that are not being met, generally because the services are provided in the local community rather than by the Department of Defense, who may not always have the best tools or knowledge to access these State and local resources;

(7) despite wholehearted efforts by the Department of Defense, a gap exists between linking military families with children with special-health-care needs and chronic conditions with the resources and services available from local or regional highly specialized providers and the communities and States in which they reside;

(8) the gap is especially exacerbated by the mobility of military families, who often move from State to State, because special-needs health care, educational, and social services are very specific to each local community and State and such services often have lengthy waiting lists; and

(9) the Department of Defense will be better able to assist military families with children with special-health-care needs fill the gap by collaborating with special-health-care needs providers and those knowledgeable about the opportunities for such children that are provided by States and local communities.

(b) ESTABLISHMENT.—

(1) IN GENERAL.—The Secretary of Defense shall establish a working group to carry out a review of the TRICARE program with respect to—

(A) pediatric health care needs under paragraph (2); and

(B) pediatric special and chronic health care needs under paragraph (3).

(i) comprehensively review the policy and practices of the TRICARE program with respect to providing pediatric health care;

(I) children receive appropriate care in an appropriate manner, at the appropriate time, and in an appropriate setting; and

(II) access to care and treatment provided by pediatric providers and children's hospitals remains available for families with children; and

(iii) develop a plan to implement such changes.

(B) REVIEW.—In carrying out the duties under subparagraph (A), the working group shall—

(i) identify improvements in policies, practices, and administration of the TRICARE program with respect to pediatric-specific health care and pediatric-specific healthcare settings;

(ii) analyze the direct and indirect effects of the reimbursement policies and practices of the TRICARE program with respect to pediatric care and care provided in pediatric settings;

(iii) consider case management programs with respect to pediatric complex and chronic care, including whether pediatric specific programs are necessary;

(iv) develop a plan to ensure that the TRICARE program addresses pediatric-specific health care needs on an on-going basis beyond the life of the working group;

munity to ensure access, promote communication and collaboration, and optimize experiences of military families seeking and receiving health care services for children; and

(3) PEDIATRIC SPECIAL AND CHRONIC HEALTH CARE NEEDS.—

(A) DUTIES.—The working group shall—

(i) review the methods in which families in the TRICARE program who have children with special-health-care needs access community resources and health-care resources;

(ii) review how having access to, and a better understanding of, community resources may improve access to health care and support services;

(iii) recommend methods to accomplish improved access by such children and families to community resources and health-care resources, including through collaboration with children's hospitals and other providers of pediatric specialty care, local agencies, local communities, and States;

(iv) consider approaches and make recommendations for the improved integration of individualized or compartmentalized medical and family support resources for military families;

(v) work closely with the Office of Community Support for Military Families with Special Needs of the Department of Defense and other relevant offices to avoid redundancies and target shared areas of concern for children with special or chronic-health-care needs; and

(vi) review any relevant information learned and findings made by the working group under this paragraph that may be considered or adopted in a consistent manner with respect to improving access, resources, and services for adults with special needs.

(B) REVIEW.—In carrying out the duties under subparagraph (A), the working group shall—

(i) discuss improvements to special needs health care policies and practices;

(ii) determine how to support and protect families of members of the National Guard or Reserve Components as the members transition into and out of the relevant Exceptional Family Member Program or the ECHO program;

(iii) analyze case management services to improve consistency, communication, knowledge, and understanding of resources and community contacts;

(iv) identify areas in which a State may offer services that are not covered by the TRICARE program or the ECHO program and how to coordinate such services;

(v) identify steps that States and communities can take to improve support for military families of children with special health care needs;

(vi) consider how the TRICARE program and other programs of the Department of Defense can work with specialty pediatric providers and resource communities to ensure access, promote communication and collaboration, and optimize experiences of military families seeking and receiving health care services for their children with special or chronic health care needs;

(vii) consider special and chronic health care in a comprehensive manner without focus on one or more conditions or diagnoses to the exclusion of others;

(viii) focus on ways to create innovative partnerships, linkages, and access to information and resources for military families across the spectrum of the special-needs community and between the medical community and the family support community; and

(ix) review matters that further the mission of the working group.

(3) Primary customers of the surveillance data from the TARS program are the Department of Homeland Security, the United States Northern Command, the United States Southern Command, and the North American Aerospace Defense Command.

(4) In the past two years, the radars in two of the eight tethered aerostat systems have been destroyed in strong weather conditions, namely the radar at Lajas, Puerto Rico, which was destroyed in April 2011, and the radar at Marfa, Texas, which was destroyed in February 2012.

(5) The Air Force has indicated that it does not have sufficient spare parts in its inventory to replace either of these two radars or the funding necessary to purchase any new radars. As a result, there are no current plans to resume operations at Lajas, Puerto Rico or Marfa, Texas.

(6) The loss of these two tethered aerostats systems substantially degrades counterdrug capabilities in the Caribbean corridor and along the Southwest border.

(7) The loss of the tethered aerostat system in Lajas, Puerto Rico, is particularly detrimental to the national counterdrug mission. In Section 1023 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163), Congress found that—

(A) “Drug traffickers use the Caribbean corridor to smuggle narcotics to the United States via Puerto Rico and the Dominican Republic. This route is ideal for drug trafficking because of its geographic expanse, numerous law enforcement jurisdictions, and fragmented investigative efforts.”; and

(B) “The tethered aerostat system in Lajas, Puerto Rico, contributes to deterring and detecting smugglers moving illicit drugs into Puerto Rico. The aerostat’s range and operational capabilities allow it to provide surveillance coverage of the eastern Caribbean corridor and the strategic waterway between Puerto Rico and the Dominican Republic, known as the Mona Passage.”

(8) In such section 1023, Congress expressed that “Congress and the Department of Defense should fund the Counter-Drug Tethered Aerostat program.”

(9) In recent years, Puerto Rico and the United States Virgin Islands have been increasingly impacted by the drug trade and related violence. Both jurisdictions have homicide rates that are roughly six times the national average and about three times higher than any State, and many of these homicides are linked to the drug trade.

(10) The Department of Defense has raised questions as to whether it should continue to administer the TARS program or, alternatively, whether responsibility for this program should be vested in the Department of Homeland Security.

(b) SENSE OF CONGRESS.—In light of the findings under subsection (a), it is the sense of Congress that—

(1) irrespective of whether the Department of Defense continues to be responsible for the Counterdrug Tethered Aerostat Radar System (TARS) program or such responsibility is assigned to another agency, Congress and the responsible agency should fund the TARS program; and

(2) Congress and the responsible agency should take all appropriate steps to ensure that the eight current tethered aerostat systems are fully functional and, in particular, to ensure that the TARS program is providing coverage to protect jurisdictions of the United States in the Caribbean region, as well as jurisdictions of the United States along the United States-Mexico border and in the Florida Straits.

Subtitle D—Counterterrorism

SEC. 1031. FINDINGS ON DETENTION PURSUANT TO THE AUTHORIZATION FOR USE OF MILITARY FORCE ENACTED IN 2001.

Congress finds the following:

(1) In 2001, Congress passed, and the President signed, the Authorization for Use of Military Force (Public Law 107-40; 50 U.S.C. 1541 note) (hereinafter referred to as the “AUMF”), which authorized the President to “use all necessary and appropriate force” against those responsible for the attacks of September 11, 2001, and those who harbored them “in order to prevent any future acts of international terrorism against the United States”.

(2) In 2004, the Supreme Court held in *Hamdi v. Rumsfeld* that the AUMF authorized the President to detain individuals, including a United States citizen captured in Afghanistan and later detained in the United States, legitimately determined to be “engaged in armed conflict against the United States” until the end of hostilities, noting that “[W]e understand Congress’ grant of authority for the use of ‘necessary and appropriate force’ to include the authority to detain for the duration of the relevant conflict, and our understanding is based on long-standing law-of-war principles”.

(3) The Court reaffirmed the long-standing principle of American law that a United States citizen may not be detained in the United States pursuant to the AUMF without due process of law, stating the following:

(A) “Striking the proper constitutional balance here is of great importance to the Nation during this period of ongoing combat.

But it is equally vital that our calculus not give short shrift to the values that this country holds dear or to the privilege that is American citizenship.”

(B) “It is during our most challenging and uncertain moments that our Nation’s commitment to due process is most severely tested; and it is in those times that we must preserve our commitment at home to the principles for which we fight abroad.”

(C) “[A] state of war is not a blank check for the President when it comes to the rights of the Nation’s citizens.”

(D) “[A]bsent suspension, the writ of habeas corpus remains available to every individual detained within the United States.”

(E) “All agree suspension of the writ has not occurred here.”

(F) “[A]n enemy combatant must receive notice of the factual basis for his classification, and a fair opportunity to rebut the Government’s factual assertions before a neutral decisionmaker.”

(G) “Whatever power the United States Constitution envisions for the Executive in its exchanges with other nations or with enemy organizations in times of conflict, it most assuredly envisions a role for all three branches when individual liberties are at stake.”

(H) “[U]nless Congress acts to suspend it, the Great Writ of habeas corpus allows the Judicial Branch to play a necessary role in maintaining this delicate balance of governance, serving as an important judicial check on the Executive’s discretion in the realm of detentions.”

(I) “We reaffirm today the fundamental nature of a citizen’s right to be free from involuntary confinement by his own government without due process of law, and we weigh the opposing governmental interests against the curtailment of liberty that such confinement entails.”

(4) In 2008, in *Boumediene v. Bush*, the Supreme Court also extended the constitutional right to habeas corpus to the foreign detainees held pursuant to the AUMF at the United States Naval Station, Guantanamo Bay, Cuba.

(5) Chapter 47A of title 10, United States Code, as originally enacted by the Military Commissions Act of 2006 (Public Law 109-366), only allows for prosecution of foreign terrorists by military commission.

(6) In 2011, with the enactment of the National Defense Authorization Act for Fiscal Year 2012 (Public Law 112-81), Congress and the President affirmed the authority of the Armed Forces of the United States to detain pursuant to the AUMF a person who planned, authorized, committed, or aided the terrorist attacks that occurred on September 11, 2001, or harbored those responsible for those attacks, or a person who was a part of or substantially supported al-Qaeda, the Taliban, or associated forces that are engaged in hostilities against the United States or its coalition partners, including any person who has committed a belligerent act or has directly supported such hostilities in aid of such enemy forces.

(7) The interpretation of the detention authority provided by the AUMF under the National Defense Authorization Act for Fiscal Year 2012 is the same as the interpretation used by the Obama administration in its legal filings in Federal court and is nearly identical to the interpretation used by the Bush administration. This interpretation has also been upheld by the United States Court of Appeals for the District of Columbia Circuit.

(8) Such Act also requires the Secretary of Defense to regularly brief Congress regarding the application of the detention authority provided by the AUMF.

(9) Section 1021 of such Act states that “Nothing in this section shall be construed

to affect existing law or authorities relating to the detention of United States citizens, lawful resident aliens of the United States, or any other persons who are captured or arrested in the United States.”.

SEC. 1032. FINDINGS REGARDING HABEAS CORPUS RIGHTS.

Congress finds the following:

(1) Article 1, section 9 of the Constitution states “The Privilege of the Writ of Habeas Corpus shall not be suspended, unless when in Cases of Rebellion or Invasion the public Safety may require it.”.

(2) Regarding the Great Writ, the Supreme Court has noted “The writ of habeas corpus is the fundamental instrument for safeguarding individual freedom against arbitrary and lawless state action.”.

SEC. 1033. RIGHTS UNAFFECTED.

(a) **RULE OF CONSTRUCTION.**—Nothing in the Authorization for Use of Military Force (Public Law 107-40; 50 U.S.C. 1541 note) or the National Defense Authorization Act for Fiscal Year 2012 (Public Law 112-81) shall be construed to deny the availability of the writ of habeas corpus or to deny any Constitutional rights in a court ordained or established by or under Article III of the Constitution for any person who is lawfully in the United States when detained pursuant to the Authorization for Use of Military Force (Public Law 107-40; 50 U.S.C. 1541 note) and who is otherwise entitled to the availability of such writ or such rights.

SEC. 1052. COMMITMENTS FOR NUCLEAR WEAPONS STOCKPILE MODERNIZATION.

(a) FINDINGS.—Congress finds the following:

(1) In 2008, then Secretary of Defense Robert Gates warned that “to be blunt, there is absolutely no way we can maintain a credible deterrent and reduce the number of weapons in our stockpile without either resorting to testing our stockpile or pursuing a modernization program.”.

(2) Secretary Gates also warned in September 2009 that modernization is a prerequisite to nuclear force reductions, stating that modernizing the nuclear capability of the United States is an “enabler of arms control and our ability to reduce the size of our nuclear stockpile. When we have more confidence in the long-term viability of our weapons systems, then our ability to reduce the number of weapons we must keep in the stockpile is enhanced.”.

(3) President Obama’s 2010 Nuclear Posture Review stated that—

(A) “In order to sustain a safe, secure, and effective United States nuclear stockpile as long as nuclear weapons exist, the United States must possess a modern physical infrastructure—comprised of the national security laboratories and a complex of supporting facilities.”; and

(B) “[I]mplementation of the Stockpile Stewardship Program and the nuclear infrastructure investments recommended in the NPR will allow the United States to shift away from retaining large numbers of non-deployed warheads as a hedge against technical or geopolitical surprise, allowing major reductions in the nuclear stockpile. These investments are essential to facilitating reductions while sustaining deterrence under New START and beyond.”.

(4) Section 1251 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84; 123 Stat. 2549) required the President to submit a report to Congress on the plan for the nuclear weapons stockpile, nuclear weapons complex, and delivery platforms at the time a follow-on treaty to the Strategic Arms Reduction Treaty was submitted by the President to the Senate. The President submitted such report in May 2010 and submitted updates in November 2010 and February 2011.

(5) Such section 1251 also contained a sense of Congress that “the enhanced safety, secu-

ity, and reliability of the nuclear weapons stockpile, modernization of the nuclear weapons complex, and maintenance of nuclear delivery systems are key to enabling further reductions in the nuclear forces of the United States.”

(6) Forty-one Senators wrote to President Obama on December 15, 2009, stating, “we don’t believe further reductions can be in the national security interest of the United States in the absence of a significant program to modernize our nuclear deterrent.”

(7) Former Secretary of Defense and Secretary of Energy James Schlesinger stated, while testifying before the Committee on Foreign Relations of the Senate in April 2010, “I believe that it is immensely important for the Senate to ensure, what the Administration has stated as its intent, i.e., that there be a robust plan with a continuation of its support over the full 10 years, before it proceeds to ratify this START follow-on treaty.”

(8) Former Secretary of State James Baker stated in testimony before the Committee on Foreign Relations of the Senate in May 2010 that “because our security is based upon the safety and reliability of our nuclear weapons, it is important that our Government budget enough money to guarantee that those weapons can carry out their mission.”

(9) Former Secretary of State Henry Kissinger also stated in May 2010 while testifying before the Committee on Foreign Relations of the Senate that “as part of a number of recommendations, my colleagues, Bill Perry, George Shultz, Sam Nunn, and I have called for significant investments in a repaired and modernized nuclear weapons infrastructure and added resources for the three national laboratories.”

(10) Then Secretary of Defense Robert Gates, while testifying before the Committee on Armed Services of the Senate in June 2010, stated, “I see this treaty as a vehicle to finally be able to get what we need in the way of modernization that we have been unable to get otherwise * * *. We are essentially the only nuclear power in the world that is not carrying out these kinds of modernization programs.”

(11) Secretary Gates further stated that “I’ve been up here for the last four springs trying to get money for this and this is the first time I think I’ve got a fair shot of actually getting money for our nuclear arsenal.”

(12) The Directors of the national nuclear weapons laboratories wrote to the chairman and ranking member of the Committee on Foreign Relations of the Senate in December 2010 that “We are very pleased by the update to the Section 1251 Report, as it would enable the laboratories to execute our requirements for ensuring a safe, secure, reliable and effective stockpile under the Stockpile Stewardship and Management Plan. In particular, we are pleased because it clearly responds to many of the concerns that we and others have voiced in the past about potential future-year funding shortfalls, and it substantially reduces risks to the overall program. In summary, we believe that the proposed budgets provide adequate support to sustain the safety, security, reliability and effectiveness of America’s nuclear deterrent within the limit of 1,550 deployed strategic warheads established by the New START Treaty with adequate confidence and acceptable risk.”

(13) President Obama pledged, in a December 2010 letter to several Senators, “I recognize that nuclear modernization requires investment for the long-term * * *. That is my commitment to the Congress—that my Administration will pursue these programs and capabilities for as long as I am President.”

(14) Secretary Gates added in May 2011 that, “this modernization program was very carefully worked out between ourselves and

the Department of Energy; and, frankly, where we came out on that played a fairly significant role in the willingness of the Senate to ratify the New START agreement.”

(15) The Administrator for Nuclear Security, Thomas D’Agostino, testified before Congress in November 2011 that, “it is critical to accept the linkage between modernizing our current stockpile in order to achieve the policy objective of decreasing the number of weapons we have in our stockpile, while still ensuring that the deterrent is safe, secure, and effective.”

(b) NEW START TREATY DEFINED.—In this subtitle, the term “New START Treaty” means the Treaty between the United States of America and the Russian Federation on Measures for the Further Reduction and Limitation of Strategic Offensive Arms, signed on April 8, 2010, and entered into force on February 5, 2011.

SEC. 1053. LIMITATION AND REPORT IN THE EVENT OF INSUFFICIENT FUNDING FOR MODERNIZATION OF NUCLEAR WEAPONS STOCKPILE.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) consistent with Condition 9 of the Resolution of Advice and Consent to Ratification of the New START Treaty of the Senate, agreed to on December 22, 2011, the United States is committed to ensuring the safety, security, reliability, and credibility of its nuclear forces; and

(2) the United States is committed to—

(A) proceeding with a robust stockpile stewardship program and maintaining and modernizing nuclear weapons production capabilities and capacities of the United States to ensure the safety, security, reliability, and credibility of the nuclear arsenal of the United States at the New START Treaty levels and meeting requirements for hedging against possible international developments or technical problems;

(B) reinvigorating and sustaining the nuclear security laboratories of the United States and preserving the core nuclear weapons competencies therein; and

(C) providing the resources needed to achieve these objectives, at a minimum at the levels set forth in the President’s 10-year plan provided to Congress in November 2010 pursuant to section 1251 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84; 123 Stat. 2549).

(b) INSUFFICIENT FUNDING REPORT AND LIMITATION.—

(1) IN GENERAL.—Paragraph (2) of section 1045(a) of the National Defense Authorization Act for Fiscal Year 2012 (50 U.S.C. 2523b) is amended to read as follows:

“(2) INSUFFICIENT FUNDING.—

“(A) REPORT.—During each year in which the New START Treaty is in force, if the President determines that an appropriations Act is enacted that fails to meet the resource levels set forth in the November 2010 update to the plan referred to in section 1251 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84; 123 Stat. 2549) or if at any time determines that more resources are required to carry out such plan than were estimated, the President shall submit to the appropriate congressional committees, within 60 days of making such a determination, a report detailing—

“(i) a plan to remedy the resource shortfall;

“(ii) if more resources are required to carry out the plan than were estimated—

“(I) the proposed level of funding required; and

“(II) an identification of the stockpile work, campaign, facility, site, asset, program, operation, activity, construction, or project for which additional funds are required;

“(iii) any effects caused by the shortfall on the safety, security, reliability, or credibility of the nuclear forces of the United States; and

“(iv) whether and why, in light of the shortfall, remaining a party to the New START Treaty is in the national interest of the United States.

“(B) LIMITATION.—If the President submits a report under subparagraph (A), none of the funds made available for fiscal year 2012 or any fiscal year thereafter for the Department of Defense or the National Nuclear Security Administration may be used to reduce the number of deployed nuclear warheads until—

“(i) after the date on which such report is submitted, the President certifies in writing to the appropriate congressional committees that the resource shortfall identified in such report has been addressed; and

“(ii) a period of 120 days has elapsed following the date on which such certification is made.

“(C) EXCEPTION.—The limitation in subparagraph (B) shall not apply to—

“(i) reductions made to ensure the safety, security, reliability, and credibility of the nuclear weapons stockpile and strategic delivery systems, including activities related to surveillance, assessment, certification, testing, and maintenance of nuclear warheads and strategic delivery systems; or

“(ii) nuclear warheads that are retired or awaiting dismantlement on the date of the report under subparagraph (A).

“(D) DEFINITIONS.—In this paragraph:

“(i) The term ‘appropriate congressional committees’ means—

“(I) the congressional defense committees; and

“(II) the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives.

“(ii) The term ‘New START Treaty’ means the Treaty between the United States of America and the Russian Federation on Measures for the Further Reduction and Limitation of Strategic Offensive Arms, signed on April 8, 2010, and entered into force on February 5, 2011.”

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall take effect on October 1, 2012.

SEC. 1054. PROGRESS OF MODERNIZATION.

(a) FINDINGS.—Congress finds the following:

(1) In 2008, then Secretary of Defense Robert Gates warned that “to be blunt, there is absolutely no way we can maintain a credible deterrent and reduce the number of weapons in our stockpile without either resorting to testing our stockpile or pursuing a modernization program.”

(2) The 2010 Nuclear Posture Review stated that “the President has directed a review of post-New START arms control objectives, to consider future reductions in nuclear weapons. Several factors will influence the magnitude and pace of future reductions in United States nuclear forces below New START levels”, including—

(A) “First, any future nuclear reductions must continue to strengthen deterrence of potential regional adversaries, strategic stability vis-à-vis Russia and China, and assurance of our allies and partners. This will require an updated assessment of deterrence requirements; further improvements in United States, allied, and partner non-nuclear capabilities; focused reductions in strategic and non-strategic weapons; and close consultations with allies and partners. The United States will continue to ensure that, in the calculations of any potential opponent, the perceived gains of attacking the United States or its allies and partners would be far outweighed by the unacceptable costs of the response.”;

(B) “Second, implementation of the Stockpile Stewardship Program and the nuclear infrastructure investments recommended in the NPR will allow the United States to shift away from retaining large numbers of non-deployed warheads as a hedge against technical or geopolitical surprise, allowing major reductions in the nuclear stockpile. These investments are essential to facilitating reductions while sustaining deterrence under New START and beyond.”; and

(C) “Third, Russia’s nuclear force will remain a significant factor in determining how much and how fast we are prepared to reduce United States forces. Because of our improved relations, the need for strict numerical parity between the two countries is no longer as compelling as it was during the Cold War. But large disparities in nuclear capabilities could raise concerns on both sides and among United States allies and partners, and may not be conducive to maintaining a stable, long-term strategic relationship, especially as nuclear forces are significantly reduced. Therefore, we will place importance on Russia joining us as we move to lower levels.”.

(3) The 2010 Nuclear Posture Review also stated that the Administration would “conduct follow-on analysis to set goals for future nuclear reductions below the levels expected in New START, while strengthening deterrence of potential regional adversaries, strategic stability vis-à-vis Russia and China, and assurance of our allies and partners.”.

(4) The Secretary of Defense has warned in testimony before the Committee on Armed Services of the House of Representatives regarding the sequestration mechanism under section 251A of the Balanced Budget and Emergency Deficit Control Act of 1985 that “if this sequester goes into effect and it doubles the number of cuts, then it’ll truly devastate our national defense, because it will then require that we have to go at our force structure. We will have to hollow it out * * * [I]t will badly damage our capabilities for the future * * *. And if you have a smaller force, you’re not going to be able to be out there responding in as many areas as we do now.”.

(5) The 2010 Nuclear Posture Review also stated that “by modernizing our aging nuclear facilities and investing in human capital, we can substantially reduce the number of nuclear weapons we retain as a hedge.”.

(6) The President requested the promised \$7,600,000,000 for weapons activities of the National Nuclear Security Administration in fiscal year 2012 but signed an appropriations Act for fiscal year 2012 that provided only \$7,233,997,000, a substantial reduction to only the second year of the ten-year plan under section 1251 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84; 123 Stat. 2549).

(7) The President requested only \$7,577,341,000 for weapons activities of the National Nuclear Security Administration in fiscal year 2013 while the President’s section 1251 plan promised \$7,900,000,000.

(8) The President’s section 1251 plan further promised to request \$8,400,000,000 in fiscal year 2014, \$8,700,000,000 in fiscal year 2015, \$8,900,000,000 in fiscal year 2016, at least \$8,900,000,000 in fiscal year 2017, at least \$9,200,000,000 in fiscal year 2018, at least \$9,400,000,000 in fiscal year 2019, at least \$9,400,000,000 in fiscal year 2020, and at least \$9,500,000,000 in fiscal year 2021.

(9) While the administration has not yet shared with Congress the terms of reference of the so-called Nuclear Posture Review Implementation Study, or the Department of Defense’s instructions for that review, the only publicly available statements by the administration, including language from the Nuclear Posture Review, suggest the review

was specifically instructed by the President and his senior political appointees to only consider reductions to the nuclear forces of the United States.

(10) When asked at a hearing if the New START Treaty allowed the United States “to maintain a nuclear arsenal that is more than is needed to guarantee an adequate deterrent,” then Commander of the United States Strategic Command, General Kevin P. Chilton said, “I do not agree that it is more than is needed. I think the arsenal that we have is exactly what is needed today to provide the deterrent.”.

(b) NUCLEAR EMPLOYMENT STRATEGY.—Section 491 of title 10, United States Code, as amended by section 1051, is amended by adding after subsection (b) the following:

“(c) LIMITATION.—With respect to a new nuclear weapons employment strategy described in a report submitted to Congress under subsection (a), none of the funds made available for fiscal year 2012 or any fiscal year thereafter for the Department of Defense may be used to implement such strategy until a period of one year has elapsed following the date on which such report is submitted to Congress.”.

(c) LIMITATION.—During each of fiscal years 2012 through 2021, none of the funds made available for each such fiscal year for the Department of Defense may be used to carry out the results of the decisions made pursuant to the 2010 Nuclear Posture Review Implementation Study that would alter the nuclear weapons employment strategy, guidance, plans, or options of the United States until the date on which the President certifies to the congressional defense committees that—

(1) the President has included the resources necessary to carry out the February 2011 update to the report required under section 1251 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84; 123 Stat. 2549) in the budget of the President submitted to Congress under section 1105(a) of title 31, United States Code, for such fiscal year;

(2) the resources described in paragraph (1) have been provided to the President in an appropriations Act; and

(3) the sequestration mechanism under section 251A of the Balanced Budget and Emergency Deficit Control Act of 1985 has been repealed or the sequestration mechanism under such section for the security category has otherwise been terminated.

SEC. 1055. LIMITATION ON STRATEGIC DELIVERY SYSTEM REDUCTIONS.

(a) FINDINGS.—Congress finds the following:

(1) The Nuclear Posture Review of 2010 said, with respect to modernizing the triad, “for planned reductions under New START, the United States should retain a smaller Triad of SLBMs, ICBMs, and heavy bombers. Retaining all three Triad legs will best maintain strategic stability at reasonable cost, while hedging against potential technical problems or vulnerabilities.”.

(2) The Senate stated in Declaration 13 of the Resolution of Advice and Consent to Ratification of the New START Treaty that “In accordance with paragraph 1 of Article V of the New START Treaty, which states that, ‘Subject to the provisions of this Treaty, modernization and replacement of strategic offensive arms may be carried out,’ it is the sense of the Senate that United States deterrence and flexibility is assured by a robust triad of strategic delivery vehicles. To this end, the United States is committed to accomplishing the modernization and replacement of its strategic nuclear delivery vehicles, and to ensuring the continued flexibility of United States conventional and nuclear delivery systems.”.

(3) The Senate required the President, prior to the entry into force of the New START Treaty, to certify to the Senate that the President intended to modernize or replace the triad of strategic nuclear delivery systems.

(4) The President made this certification in a message to the Senate on February 2, 2011, in which the President stated, “I intend to (a) modernize or replace the triad of strategic nuclear delivery systems: a heavy bomber and air-launched cruise missile, an ICBM, and a nuclear-powered ballistic missile submarine (SSBN) and SLBM; and (b) maintain the United States rocket motor industrial base.”.

(b) LIMITATION.—

(1) IN GENERAL.—Chapter 24 of title 10, United States Code, as added by section 1051, is amended by adding at the end the following new section:

“§ 494. Strategic delivery system reductions

“(a) ANNUAL CERTIFICATION.—Beginning fiscal year 2013, the President shall annually certify in writing to the congressional defense committees whether plans to modernize or replace strategic delivery systems are fully resourced and being executed at a level equal to or more than the levels set forth in the November 2010 update to the plan referred to in section 1251 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84; 123 Stat. 2549), including plans regarding—

“(1) a heavy bomber and air-launched cruise missile;

“(2) an intercontinental ballistic missile;

“(3) a submarine-launched ballistic missile;

“(4) a ballistic missile submarine; and

“(5) maintaining—

“(A) the nuclear command and control system; and

“(B) the rocket motor industrial base of the United States.

“(b) LIMITATION.—If the President certifies under subsection (a) that plans to modernize or replace strategic delivery systems are not fully resourced or being executed, none of the funds made available for fiscal year 2012 or any fiscal year thereafter for the Department of Defense may be used to reduce, convert, or eliminate strategic delivery systems, whether deployed or nondeployed, pursuant to the New START Treaty or otherwise until a period of 120 days has elapsed following the date on which such certification is made.

“(c) EXCEPTION.—The limitation in subsection (b) shall not apply to—

“(1) reductions made to ensure the safety, security, reliability, and credibility of the nuclear weapons stockpile and strategic delivery systems, including activities related to surveillance, assessment, certification, testing, and maintenance of nuclear warheads and delivery systems; or

“(2) strategic delivery systems that are retired or awaiting dismantlement on the date of the certification under subsection (a).

“(d) DEFINITIONS.—In this section:

“(1) The term ‘New START Treaty’ means the Treaty between the United States of America and the Russian Federation on Measures for the Further Reduction and Limitation of Strategic Offensive Arms, signed on April 8, 2010, and entered into force on February 5, 2011.

“(2) The term ‘strategic delivery system’ means a delivery platform for nuclear weapons.”.

(2) CLERICAL AMENDMENTS.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“494. Strategic delivery system reductions.”.

SEC. 1056. PREVENTION OF ASYMMETRY OF NUCLEAR WEAPON STOCKPILE REDUCTIONS.

(a) FINDINGS.—Congress finds the following:

(1) Then Secretary of Defense Robert Gates warned in 2008 that, “There is no way to ignore efforts by rogue states such as North Korea and Iran to develop and deploy nuclear weapons or Russian or Chinese strategic modernization programs. To be sure, we do not consider Russia or China as adversaries, but we cannot ignore these developments and the implications they have for our national security.”

(2) The 2010 Nuclear Posture Review stated that, “large disparities in nuclear capabilities could raise concerns on both sides and among United States allies and partners, and may not be conducive to maintaining a stable, long-term strategic relationship, especially as nuclear forces are significantly reduced.”

(3) The Senate stated in the Resolution of Advice and Consent to Ratification of the New START Treaty that, “It is the sense of the Senate that, in conducting the reductions mandated by the New START Treaty, the President should regulate reductions in United States strategic offensive arms so that the number of accountable strategic offensive arms under the New START Treaty possessed by the Russian Federation in no case exceeds the comparable number of accountable strategic offensive arms possessed by the United States to such an extent that a strategic imbalance endangers the national security interests of the United States.”

(4) At a hearing before the Committee on Armed Services of the House of Representatives in 2011, Secretary of Defense Leon Panetta said, with respect to unilateral nuclear reductions by the United States, “I don’t think we ought to do that unilaterally—we ought to do that on the basis of negotiations with the Russians and others to make sure we are all walking the same path.”

(b) CERTIFICATION.—Section 1045 of the National Defense Authorization Act for Fiscal Year 2012 (50 U.S.C. 2523b) is amended by adding at the end the following new subsection:

“(d) PREVENTION OF ASYMMETRY IN REDUCTIONS.—

“(1) CERTIFICATION.—During any year in which the President recommends to reduce the number of nuclear weapons in the active and inactive stockpiles of the United States by a number that is greater than one percent of the number of nuclear weapons in such stockpiles, the President shall certify in writing to the congressional defense committees whether such reductions will cause the number of nuclear weapons in such stockpiles to be fewer than the number of nuclear weapons in the active and inactive stockpiles of the Russian Federation.

“(2) LIMITATION.—If the President certifies under paragraph (1) that the recommended number of nuclear weapons in the active and inactive stockpiles of the United States is fewer than the number of nuclear weapons in the active and inactive stockpiles of the Russian Federation, none of the funds made available for fiscal year 2012 or any fiscal year thereafter for the Department of Defense or the National Nuclear Security Administration may be used to carry out any reduction to such stockpiles of the United States until—

“(A) after the date on which such certification is made, the President transmits to the congressional defense committees a report by the Commander of the United States Strategic Command, without change, detailing whether the recommended reduction would create a strategic imbalance between the total nuclear forces of the United States and the total nuclear forces of the Russian Federation; and

“(B) a period of 180 days has elapsed following the date on which such report is transmitted.

“(3) EXCEPTION.—The limitation in paragraph (2) shall not apply to—

“(A) reductions made to ensure the safety, security, reliability, and credibility of the nuclear weapons stockpile and strategic delivery systems, including activities related to surveillance, assessment, certification, testing, and maintenance of nuclear warheads and strategic delivery systems; or

“(B) nuclear warheads that are retired or awaiting dismantlement on the date of the certification under paragraph (1).”

SEC. 1057. CONSIDERATION OF EXPANSION OF NUCLEAR FORCES OF OTHER COUNTRIES.

(a) FINDINGS.—Congress finds the following:

(1) The Resolution of Advice and Consent to Ratification of the New START Treaty of the Senate said, “It is the sense of the Senate that if, during the time the New START Treaty remains in force, the President determines that there has been an expansion of the strategic arsenal of any country not party to the New START Treaty so as to jeopardize the supreme interests of the United States, then the President should consult on an urgent basis with the Senate to determine whether adherence to the New START Treaty remains in the national interest of the United States.”

(2) In 2011, experts testified before the Committee on Armed Services of the House of Representatives that—

(A) “Russia is modernizing every leg of its nuclear triad with new, more advanced systems”, including new ballistic missile submarines, new heavy intercontinental ballistic missiles carrying up to 15 warheads each, new shorter range ballistic missiles, and new low-yield warheads; and

(B) “China is steadily increasing the numbers and capabilities of the ballistic missiles it deploys and is upgrading older ICBMs to newer, more advanced systems. China also appears to be actively working to develop a submarine-based nuclear deterrent force, something it has never had * * *. A recent unclassified Department of Defense report says that this network of tunnels could be in excess of 5,000 kilometers and is used to transport nuclear weapons and forces.”

(b) REPORT AND CERTIFICATION.—

(1) IN GENERAL.—Chapter 24 of title 10, United States Code, as added by section 1051, is amended by adding at the end the following new section:

“§ 495. Consideration of expansion of nuclear forces of other countries

“(a) REPORT AND CERTIFICATION.—During any year in which the President recommends any reductions in the nuclear forces of the United States, none of the funds made available for fiscal year 2012 or any fiscal year thereafter for the Department of Defense or the National Nuclear Security Administration may be used for such recommended reduction until the date on which—

“(1) the President transmits to the appropriate congressional committees a report detailing, for each country with nuclear weapons—

“(A) the number of each type of nuclear weapons possessed by such country;

“(B) the modernization plans for such weapons of such country;

“(C) the production capacity of nuclear warheads and strategic delivery systems (as defined in section 491(c) of this title) of such country; and

“(D) the nuclear doctrine of such country; and

“(2) the Commander of the United States Strategic Command certifies to the appropriate congressional committees whether

such recommended reductions in the nuclear forces of the United States will—

“(A) impair the ability of the United States to address—

“(i) unplanned strategic or geopolitical events; or

“(ii) technical challenge; or

“(B) degrade the deterrence or assurance provided by the United States to friends and allies of the United States.

“(b) FORM.—The reports required by subsection (a)(1) shall be submitted in unclassified form, but may include a classified annex.

“(c) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this section, the term ‘appropriate congressional committees’ means the following:

“(1) The congressional defense committees.

“(2) The Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate.”

(2) The table of sections at the beginning of chapter 24 of title 10, United States Code, is amended by inserting after the item relating to section 494 the following new item:

“495. Consideration of expansion of nuclear forces of other countries.”

SEC. 1058. CHEMISTRY AND METALLURGY RESEARCH REPLACEMENT NUCLEAR FACILITY AND URANIUM PROCESSING FACILITY.

(a) FINDINGS.—Congress finds the following:

(1) Administrator for Nuclear Security Thomas D’Agostino testified before the Committee on Armed Services of the House of Representatives in February 2008 that “Infrastructure improvements are a major part of the complex transformation plan that we have, and we’ve made important progress, but we have a lot more to do. Some major facilities that we have date back to World War II and cannot readily meet today’s safety and security requirements. Let me give you just two quick examples, if I could. A sufficient capability to work with plutonium is an essential part of a national security enterprise and is required for as long as we retain a nuclear deterrent, and most likely even longer. Currently, we have a very small production capacity at Los Alamos, about 10 pits per year, at our TA-55 area. Our building at Los Alamos, the Chemistry and Metallurgy Research Facility, is well over 50 years old and is insufficient to support the national security requirements for the stockpile and for future national security mission areas. So, whether we continue on our existing path or move towards a replacement modern warhead-type stockpile, we still need the capacity to produce about 50 to 80 pits per year, which is less than one-tenth of our Cold War level, as well as the ability to carry out pit surveillance, which is an essential part of maintaining our stockpile.”

(2) Then Commander of the United States Strategic Command General Kevin P. Chilton also testified in February 2008 that “When you have a responsive complex that has the capacity to flex to production as you may need it or adjust your deployed force posture in the future, should you need it—in other words, if we go to a lower number, you need to be certain that you can come back up, should the strategic environment change, and you can’t necessarily without that flexible or responsive infrastructure behind it, and that’s probably one of my great concerns. And then how you posture both the portion of your stockpile that you hold in reserve and your confidence in the weapons that you have deployed is very much a function of modernizing, in my view, the weapons systems that we have available today, which are, as the secretary described, of Cold War legacy design, and the associated issues with them.”

(3) The Congressional Commission on the Strategic Posture of the United States reported in May 2009, with respect to the timing of the replacement of the nuclear weapons infrastructure of the United States, that “This raises an obvious question about whether these two replacement programs might proceed in sequence rather than concurrently. There are strong arguments for moving forward concurrently. Existing facilities are genuinely decrepit and are maintained in a safe and secure manner only at high cost. Moreover, the improved production capabilities they promise are integral to the program of refurbishment and modernization described in the preceding chapter. If funding can be found for both, this would best serve the national interest in maintaining a safe, secure, and reliable stockpile of weapons in the most effective and efficient manner.”

(4) The 2010 Nuclear Posture Review states—

(A) “The National Nuclear Security Administration (NNSA), in close coordination with DoD, will provide a new stockpile stewardship and management plan to Congress within 90 days, consistent with the increases in infrastructure investment requested in the President’s FY 2011 budget. As critical infrastructure is restored and modernized, it will allow the United States to begin to shift away from retaining large numbers of non-deployed warheads as a technical hedge, allowing additional reductions in the United States stockpile of non-deployed nuclear weapons over time.”

(B) “In order to sustain a safe, secure, and effective United States nuclear stockpile as long as nuclear weapons exist, the United States must possess a modern physical infrastructure—comprised of the national security laboratories and a complex of supporting facilities.”

(C) “Funding the Chemistry and Metallurgy Research Replacement Project at Los Alamos National Laboratory to replace the existing 50-year old Chemistry and Metallurgy Research facility in 2021.”

(D) “Developing a new Uranium Processing Facility at the Y-12 Plant in Oak Ridge, Tennessee to come on line for production operations in 2021.”

(E) “Without an ability to produce uranium components, any plan to sustain the stockpile, as well as support for our Navy nuclear propulsion, will come to a halt. This would have a significant impact, not just on the weapons program, but in dealing with nuclear dangers of many kinds.”; and

(F) “The non-deployed stockpile currently includes more warheads than required for the above purposes, due to the limited capacity of the National Nuclear Security Administration (NNSA) complex to conduct LEPs for deployed weapons in a timely manner. Progress in restoring NNSA’s production infrastructure will allow these excess warheads to be retired along with other stockpile reductions planned over the next decade.”

(5) In the memorandum of agreement between the Department of Defense and the Department of Energy concerning the modernization of the nuclear weapon stockpile of the United States dated May 3, 2010, then Secretary of Defense Robert Gates and Secretary of Energy Steven Chu agreed that “DOE Agrees to * * * increase pit production capacity * * * plan and program to ramp up to a minimum of 50–80 PPY in 2022.”

(6) The plan required under section 1251 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111–84; 123 Stat. 2549) submitted by the President states that the Chemistry and Metallurgy Research Replacement building and the Uranium Processing Facility will complete construction by 2021 and will achieve full operational functionality by 2024.

(7) The Senate required that, prior to the entry into force of the New START Treaty, the President certifies to the Senate that the President intends to—

(A) accelerate to the extent possible the design and engineering phase of the Chemistry and Metallurgy Research Replacement building and the Uranium Processing Facility; and

(B) request full funding, including on a multiyear basis as appropriate, for the Chemistry and Metallurgy Research Replacement building and the Uranium Processing Facility upon completion of the design and engineering phase for such facilities.

(8) The President did request full funding for such facilities on February 2, 2011, when the President stated, “I intend to (a) accelerate, to the extent possible, the design and engineering phase of the Chemistry and Metallurgy Research Replacement (CMRR) building and the Uranium Processing Facility (UPF); and (b) request full funding, including on a multi-year basis as appropriate, for the CMRR building and the UPF upon completion of the design and engineering phase for such facilities.”

(b) LIMITATION.—Section 1045 of the National Defense Authorization Act for Fiscal Year 2012 (50 U.S.C. 2523b), as amended by section 1056(b), is amended by adding at the end the following new subsection:

“(c) CMRR AND UPF.—

“(1) ANNUAL CERTIFICATION.—Beginning fiscal year 2013, the President shall annually certify in writing to the congressional defense committees whether—

“(A) the construction of both the Chemistry and Metallurgy Research Replacement building and the Uranium Processing Facility will be completed by not later than 2021; and

“(B) both facilities will be fully operational by not later than 2024.

“(2) LIMITATION.—If the President certifies under paragraph (1) that the Chemistry and Metallurgy Research Replacement building and the Uranium Processing Facility will be completed by later than 2021 or be fully operational by later than 2024, none of the funds made available for fiscal year 2012 or any fiscal year thereafter for the National Nuclear Security Administration may be used to reduce the nondeployed nuclear warheads in the nuclear weapons stockpile of the United States until a period of 120 days has elapsed following the date of such certification.

“(3) EXCEPTION.—The limitation in paragraph (2) shall not apply to—

“(A) reductions made to ensure the safety, security, reliability, and credibility of the nuclear weapons stockpile and delivery systems, including activities related to surveillance, assessment, certification, testing, and maintenance of nuclear warheads and strategic delivery systems; or

“(B) nuclear warheads that are retired or awaiting dismantlement on the date of the certification under paragraph (1).

“(4) TERMINATION.—The requirement in paragraph (1) shall terminate on the date on which the President certifies in writing to the congressional defense committees that the Chemistry and Metallurgy Research Replacement building and the Uranium Processing Facility are both fully operational.”

SEC. 1059. NUCLEAR WARHEADS ON INTERCONTINENTAL BALLISTIC MISSILES OF THE UNITED STATES.

(a) SENSE OF CONGRESS.—It is the sense of Congress that reducing the number of nuclear warheads contained on each intercontinental ballistic missile of the United States does not promote strategic stability if at the same time other nuclear weapons states, including the Russian Federation and the People’s Republic of China, are rapidly increas-

ing the warhead-loading of their land-based missile forces.

(b) LIMITATION.—

(1) IN GENERAL.—Chapter 24 of title 10, United States Code, as added by section 1051, is amended by adding at the end the following new section:

“§ 496. Nuclear warheads on intercontinental ballistic missiles of the United States

“(a) IN GENERAL.—During any year in which the President proposes to reduce the number of nuclear warheads contained on an intercontinental ballistic missile of the United States, none of the funds made available for fiscal year 2012 or any fiscal year thereafter for the Department of Defense or the National Nuclear Security Administration may be used for such proposed reduction if the reduction results in such missile having only a single nuclear warhead unless the President certifies in writing to the congressional defense committees that the Russian Federation and the People’s Republic of China are both also carrying out a similar reduction.

“(b) EXCEPTION.—The limitation in subsection (a) shall not apply to reductions made to ensure the safety, security, reliability, and credibility of the nuclear weapons stockpile and delivery systems, including activities related to surveillance, assessment, certification, testing, and maintenance of nuclear warheads and strategic delivery systems.”

(2) The table of sections at the beginning of chapter 24 of title 10, United States Code, is amended by inserting after the item relating to section 495 the following:

“496. Nuclear warheads on intercontinental ballistic missiles of the United States.”

SEC. 1060. NONSTRATEGIC NUCLEAR WEAPON REDUCTIONS AND EXTENDED DETERRENCE POLICY.

(a) FINDINGS.—Congress finds the following:

(1) The NATO Strategic Concept of 2010 endorsed the continued role of nuclear weapons in the security of the NATO alliance, stating—

(A) “The supreme guarantee of the security of the Allies is provided by the strategic nuclear forces of the Alliance, particularly those of the United States; the independent strategic nuclear forces of the United Kingdom and France, which have a deterrent role of their own, contribute to the overall deterrence and security of the Allies.”

(B) “We will ensure that NATO has the full range of capabilities necessary to deter and defend against any threat to the safety and security of our populations. Therefore, we will * * * maintain an appropriate mix of nuclear and conventional forces”; and

(C) “[NATO will] ensure the broadest possible participation of Allies in collective defence planning on nuclear roles, in peacetime basing of nuclear forces, and in command, control and consultation arrangements.”

(2) However, the 2010 Strategic Concept also walked away from the decades-long policy encapsulated by the 1999 Strategic Concept that said, “The presence of United States conventional and nuclear forces in Europe remains vital to the security of Europe, which is inseparably linked to that of North America.”

(3) Former Secretary of Defense William Perry said in March 2011 testimony before the Subcommittee on Strategic Forces of the Committee on Armed Services of the House of Representatives that “the reason we have nuclear weapons in Europe in the first place, is not because the rest of our weapons are not capable of deterrence, but because, during the Cold War at least, our allies in Eu-

rope felt more assured when we had nuclear weapons in Europe. That is why they were deployed there in the first place. Today the issue is a little different. The issue is the Russians in the meantime have built a large number of nuclear weapons, and we keep our nuclear weapons there as somewhat of a political leverage for dealing with an ultimate treaty in which we may get Russia and the United States to eliminate tactical nuclear weapons. My own view is it would be desirable if both the United States and Russia would eliminate tactical nuclear weapons, but I see it as very difficult to arrive at that conclusion if we were to simply eliminate all of our tactical nuclear weapons unilaterally."

(4) During testimony before the Subcommittee on Strategic Forces of the Committee on Armed Services of the House of Representatives in July 2011—

(A) former Department of Defense official Frank Miller stated, "as long as United States allies believe that those weapons need to be there, we need to make sure that we provide that security."; and

(B) former Department of Defense official Mort Halperin stated, "I do not think we should be willing to trade our withdrawal of our nuclear weapons from Europe for some reduction, even a substantial reduction, in Russian tactical nuclear weapons because if it is * * * that the credibility of the American nuclear deterrent for our NATO allies depends on the presence of nuclear weapons in Europe, that will not change if the Russians cut their tactical nuclear arsenal by two thirds, or even eliminate it because they will still have their strategic weapons, which, while they can't have intermediate range missiles, they can find a way to target them on the NATO countries."

(5) Section 1237(b) of the National Defense Authorization Act for Fiscal Year 2012 (Public Law 112-81) expressed the sense of Congress that—

(A) the commitment of the United States to extended deterrence in Europe and the nuclear alliance of NATO is an important component of ensuring and linking the national security of the United States and its European allies;

(B) the nuclear forces of the United States are a key component of the NATO nuclear alliance; and

(C) the presence of the nuclear weapons of the United States in Europe—combined with NATO's unique nuclear sharing arrangements under which non-nuclear members participate in nuclear planning and possess specially configured aircraft capable of delivering nuclear weapons—provides reassurance to NATO allies who feel exposed to regional threats.

(b) LIMITATION.—Chapter 24 of title 10, United States Code, as added by section 1051, is amended by adding at the end the following new section:

"§ 497. Limitation on reduction, consolidation, or withdrawal of nuclear forces based in Europe

"(a) POLICY ON NONSTRATEGIC NUCLEAR WEAPONS.—It is the policy of the United States—

"(1) to pursue negotiations with the Russian Federation aimed at the reduction of Russian deployed and nondeployed, nonstrategic nuclear forces;

"(2) that nonstrategic nuclear weapons should be considered when weighing the balance of the nuclear forces of the United States and the Russian Federation;

"(3) that any geographical relocation or storage of nonstrategic nuclear weapons by the Russian Federation does not constitute a reduction or elimination of such weapons;

"(4) the vast advantage of the Russian Federation in nonstrategic nuclear weapons con-

stitutes a threat to the United States and its allies and a growing asymmetry in Western Europe; and

"(5) the forward-deployed nuclear forces of the United States are an important contributor to the assurance of the allies of the United States and constitute a check on proliferation and a tool in dealing with neighboring states hostile to NATO.

"(b) POLICY ON EXTENDED DETERRENCE COMMITMENT TO EUROPE.—It is the policy of the United States that—

"(1) it maintain its commitment to extended deterrence, specifically the nuclear alliance of the North Atlantic Treaty Organization, as an important component of ensuring and linking the national security interests of the United States and the security of its European allies;

"(2) forward-deployed nuclear forces of the United States shall remain based in Europe in support of the nuclear policy and posture of NATO;

"(3) the presence of nuclear weapons of the United States in Europe—combined with NATO's unique nuclear sharing arrangements under which non-nuclear members participate in nuclear planning and possess specially configured aircraft capable of delivering nuclear weapons—contributes to the cohesion of NATO and provides reassurance to allies and partners who feel exposed to regional threats; and

"(4) only the President and Congress can articulate when and how the United States will employ the nuclear forces of the United States and no multilateral organization, not even NATO, can articulate a declaratory policy concerning the use of nuclear weapons that binds the United States.

"(c) LIMITATION ON REDUCTION, CONSOLIDATION, OR WITHDRAWAL OF NUCLEAR FORCES BASED IN EUROPE.—In light of the policy expressed in subsections (a) and (b), none of the funds made available for fiscal year 2012 or any fiscal year thereafter for the Department of Defense may be used to effect or implement the reduction, consolidation, or withdrawal of nuclear forces of the United States that are based in Europe unless—

"(1) the reduction, consolidation, or withdrawal of such nuclear forces is requested by the government of the host nation in the manner provided in the agreement between the United States and the host nation regarding the forces;

"(2) the President certifies that—

"(A) NATO member states have considered the reduction, consolidation, or withdrawal in the High Level Group;

"(B) NATO has decided to support such reduction, consolidation, or withdrawal;

"(C) the remaining nuclear forces of the United States that are based in Europe after such reduction, consolidation, or withdrawal would provide a commensurate or better level of assurance and credibility as before such reduction, consolidation, or withdrawal; and

"(D) there has been reciprocal action by the Russian Federation, not including the Russian Federation relocating nuclear forces from one location to another; or

"(3) the reduction, consolidation, or withdrawal of such nuclear forces is specifically authorized by an Act of Congress.

"(d) NOTIFICATION.—Upon any decision to reduce, consolidate, or withdraw the nuclear forces of the United States that are based in Europe, the President shall submit to the appropriate congressional committees a notification containing—

"(1) the certification required by paragraph (2) of subsection (c) if such reduction, consolidation, or withdrawal is based upon such paragraph;

"(2) justification for such reduction, consolidation, or withdrawal; and

"(3) an assessment of how NATO member states, in light of such reduction, consolidation, or withdrawal, assess the credibility of the deterrence capability of the United States in support of its commitments undertaken pursuant to article 5 of the North Atlantic Treaty, signed at Washington, District of Columbia, on April 4, 1949, and entered into force on August 24, 1949 (63 Stat. 2241; TIAS 1964).

"(e) NOTICE AND WAIT REQUIREMENT.—The President may not commence a reduction, consolidation, or withdrawal of the nuclear forces of the United States that are based in Europe for which the certification required by subsection (c)(2) is made until the expiration of a 180-day period beginning on the date on which the President submits the notification under subsection (d) containing the certification.

"(f) APPROPRIATE CONGRESSIONAL COMMITTEES.—In this section, the term 'appropriate congressional committees' means—

"(1) the Committees on Armed Services of the House of Representatives and the Senate; and

"(2) the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate."

(c) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 24 of title 10, United States Code, is amended by inserting after the item relating to section 496 the following:

"497. Limitation on reduction, consolidation, or withdrawal of nuclear forces based in Europe."

SEC. 1085. THE HOUSE OF REPRESENTATIVES HONORS.

(a) FINDINGS.—The House of Representatives finds the following:

(1) The spread of warfare across Europe and Asia led to the establishment on May 20, 1941, of the United States Office of Civilian Defense by Executive Order No. 8757 of President Franklin D. Roosevelt, to “assure effective coordination of Federal relations with State and local governments engaged in defense activities, to provide for necessary cooperation with States and local governments in respect to measures for adequate protection of the civilian population in emergency periods, to facilitate constructive civilian participation in the defense program, and to sustain national morale”.

(2) The December 7, 1941, attack by the Empire of Japan on Pearl Harbor, Hawaii, precipitated the entry of the United States into the worldwide conflict and signaled a new era of warfare that demanded new efforts to protect the people of the United States from airborne assault by an overseas enemy.

(3) In response to this new threat, the United States Office of Civilian Defense mobilized millions of volunteers to participate in efforts to enhance the preparedness of the United States in case of attack, including fire protection, communication and logistics, construction of bomb shelters, and air raid blackout drills.

(4) Thousands of Americans unable to serve in the United States Armed Forces volunteered their service as Air Raid Wardens in communities across the United States during World War II, contributing to America’s defense against potential enemy assault and the ultimate victory of the Allied nation.

(5) A training manual distributed to Air Raid Wardens during World War II noted that “In the system of civilian defense, the Air Raid Warden occupies the key position. He is the field officer under whose supervision the efforts of the civilian population are directed in the tremendous task of effective defense. Through the Air Raid Wardens, civilian activity is coordinated with that of the police and fire departments and other vital services.”.

(6) Training manuals distributed to Air Raid Wardens included “I am an Air Raid Warden”, by Frank W. Atherton, Chief Air Raid Warden, 1st District, United States Citizens’ Defense Corps of Michigan, which read, in part that “I am an Air Raid Warden. My country, my state and my community have given me many pleasant and fruitful years and now in time of trouble I feel that it is my duty to do my part in the work assigned to me in helping to reduce to a minimum any harm that may come from without or within.”.

(7) Tony Pastor and His Orchestra released a song in 1942, titled “Obey Your Air Raid Warden”, which was widely distributed as a public service announcement and contained the following lyrics: “One, be calm. Two, get under shelter. Three, don’t run. Obey your air-raid warden. Four, stay home. Five, keep off the highway. Six, don’t phone. Obey your air-raid warden. There are rules that you should know, What to do and where to go, When you hear the sirens blow, Stop, look, and listen. Seven, don’t smoke. Eight, help all the kiddies. Most of all, obey your air-raid warden. Stop, look, and listen. Dim the lights, Wait for information, Most of all, obey your air-raid warden. Stop the panic, Don’t get in a huff, Our aim today is to call their bluff. Follow these rules and that is enough. Obey your air-raid warden.”.

SEC. 1091. SENSE OF CONGRESS ON RECOGNIZING AIR MOBILITY COMMAND ON ITS 20TH ANNIVERSARY.

(a) FINDINGS.—Congress finds the following:

(1) On June 1, 1992, Air Mobility Command was established as the Air Force’s functional command for cargo and passenger delivery, air refueling, and aeromedical evacuation.

(2) As the lead Major Command for all Mobility Air Forces, Air Mobility Command ensures that the Air Force’s core functions of global vigilance, power, and reach are fulfilled.

(3) The ability of the United States to rapidly respond to humanitarian disasters and the outbreak of hostilities anywhere in the world truly defines the United States as a global power.

(4) Mobility Air Forces Airmen are unified by one single purpose: to answer the call of others so they may prevail.

(5) The United States’ hand of friendship to the world many times takes the form of Mobility Air Forces aircraft delivering humanitarian relief. Since its inception, Air Mobility Command has provided forces for 43 humanitarian relief efforts at home and abroad, from New Orleans, Louisiana, to Bam, Iran.

(6) A Mobility Air Forces aircraft departs every 2 minutes, 365 days a year. Since September 11, 2001, Mobility Air Forces aircraft have flown 18.9 million passengers, 6.8 million tons of cargo, and offloaded 2.2 billion pounds of fuel. Many of these flights have assisted combat aircraft protection United States forces from overhead.

(7) The United States keeps its solemn promise to its men and women in uniform with Air Mobility Command, accomplishing 186,940 patient movements since the beginning of Operation Iraqi Freedom.

(8) Mobility Air Forces Airmen reflect the best values of the Nation: delivering hope, saving lives, and fueling the fight.

SEC. 1092. CONSOLIDATION OF DATA CENTERS.

Section 2867 of the National Defense Authorization Act for Fiscal Year 2012 (10 U.S.C. 2223a note) is amended—

(2) in subsection (d)(1), by adding at the end the following: “Beginning after the date of the enactment of the National Defense Authorization Act for Fiscal Year 2013, such report shall include progress updates on consolidation goals achieved during the preceding fiscal year consistent with the framework outlined by the July 2011 Government Accountability Office report to Congress, entitled ‘Data Center Consolidation Agencies Need to Complete Inventories and Plans to Achieve Expected Savings’ (GAO-11-565), as updated by quarterly consolidation progress reports submitted by the Department of Defense to the Office of Management and Budget.”.

SEC. 1093. SENSE OF CONGRESS REGARDING PRESERVATION OF SECOND AMENDMENT RIGHTS OF ACTIVE DUTY MILITARY PERSONNEL STATIONED OR RESIDING IN THE DISTRICT OF COLUMBIA.

(a) FINDINGS.—Congress finds the following:

(1) The Second Amendment to the United States Constitution provides that the right of the people to keep and bear arms shall not be infringed.

(2) Approximately 40,000 servicemen and women across all branches of the Armed

Forces either live in or are stationed on active duty within the Washington, DC metropolitan area. Unless these individuals are granted a waiver as serving in a law enforcement role, they are subject to the District of Columbia's onerous and highly restrictive laws on the possession of firearms.

(3) Military personnel, despite being extensively trained in the proper and safe use of firearms, are therefore deprived by the laws of the District of Columbia of handguns, rifles, and shotguns that are commonly kept by law-abiding persons throughout the United States for sporting use and for lawful defense of their persons, homes, businesses, and families.

(4) The District of Columbia has one of the highest per capita murder rates in the Nation, which may be attributed in part to previous local laws prohibiting possession of firearms by law-abiding persons who would have otherwise been able to defend themselves and their loved ones in their own homes and businesses.

(5) The Gun Control Act of 1968, as amended by the Firearms Owners' Protection Act, and the Brady Handgun Violence Prevention Act, provide comprehensive Federal regulations applicable in the District of Columbia as elsewhere. In addition, existing District of Columbia criminal laws punish possession and illegal use of firearms by violent criminals and felons. Consequently, there is no need for local laws that only affect and disarm law-abiding citizens.

(6) On June 26, 2008, the Supreme Court of the United States in the case of District of Columbia v. Heller held that the Second Amendment protects an individual's right to possess a firearm for traditionally lawful purposes, and thus ruled that the District of Columbia's handgun ban and requirements that rifles and shotguns in the home be kept unloaded and disassembled or outfitted with a trigger lock to be unconstitutional.

(7) On July 16, 2008, the District of Columbia enacted the Firearms Control Emergency Amendment Act of 2008 (D.C. Act 17-422; 55 DCR 8237), which places onerous restrictions on the ability of law-abiding citizens from possessing firearms, thus violating the spirit by which the Supreme Court of the United States ruled in District of Columbia v. Heller.

(8) On February 26, 2009, the United States Senate adopted an amendment on a bipartisan vote of 62-36 by Senator John Ensign to S. 160, the District of Columbia House Voting Rights Act of 2009, which would fully restore Second Amendment rights to the citizens of the District of Columbia.

(b) SENSE OF CONGRESS.—It is the sense of Congress that active duty military personnel who are stationed or residing in the District of Columbia should be permitted to exercise fully their rights under the Second Amendment to the Constitution of the United States and therefore should be exempt from the District of Columbia's restrictions on the possession of firearms.

SEC. 1094. CONDITIONAL REPLACEMENT FOR FY 2013 SEQUESTER.

(a) CONTINGENT EFFECTIVE DATE.—This section and the amendments made by it shall take effect upon the enactment of—

(2) similar legislation that at least offsets the outlay reductions flowing from the budget authority reductions mandated by section 251A(7)(A) and 251A(8) as it applies to direct spending in the defense function for fiscal year 2013 of the Balanced Budget and Emergency Deficit Control Act of 1985, as in force immediately before the date of enactment of this Act, combined with the outlay reduc-

“(2) with respect to fiscal year 2013, for the discretionary category, \$1,047,000,000,000 in new budget authority;”.

(c) DISCRETIONARY SAVINGS.—Section 251A(7)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985 is amended to read as follows:

“(A) FISCAL YEAR 2013.—

“(i) FISCAL YEAR 2013 ADJUSTMENT.—On January 2, 2013, the discretionary category set forth in section 251(c)(2) shall be decreased by \$19,104,000,000 in budget authority.

“(ii) SUPPLEMENTAL SEQUESTRATION ORDER.—On January 15, 2013, OMB shall issue a supplemental sequestration report for fiscal year 2013 and take the form of a final sequestration report as set forth in section 254(f)(2) and using the procedures set forth in section 253(f), to eliminate any discretionary spending breach of the spending limit set forth in section 251(c)(2) as adjusted by clause (i), and the President shall order a sequestration, if any, as required by such report.”.

(d) ELIMINATION OF THE FISCAL YEAR 2013 SEQUESTRATION FOR DEFENSE DIRECT SPENDING.—Any sequestration order issued by the President under the Balanced Budget and Emergency Deficit Control Act of 1985 to carry out reductions to direct spending for the defense function (050) for fiscal year 2013 pursuant to section 251A of such Act shall have no force or effect.

(2) CONTENTS OF REPORT.—The report required by this section shall include—

(A) an assessment of the potential impact of sequestration on the readiness of the Armed Forces, including impacts to steaming hours, flying hours, full spectrum training miles, and all other readiness metrics;

(B) an assessment of the impact on ability of the Department of Defense to carry out the National Military Strategy of the United States and any changes to the most recent Chairman's Risk Assessment required by section 153 of title 10, United States Code;

(C) a listing of the programs, projects, and activities across the military departments and components that would be reduced or terminated as a result of automatically triggered cuts;

(D) an estimate of the number and value of all contracts that will be terminated, restructured, or rescoped due to sequestration, including an estimate of potential termination costs and increased contracts costs due to renegotiation and reinstatement of the contract; and

(E) an estimate of the number of civilian, contract, and uniformed personnel whose employment would be terminated due to sequestration, including the estimated cost to the Department of executing such a draw-down.
