Completed/Longterm Actions

Abstract: The proposed rule would amend the sections in the final uniform regulations to implement recent amendments to the Archaeological Resources Protection Act of 1979. Principally, these changes address public awareness programs, archaeological surveys and schedules, and guidance to Federal agencies on the disposition of human remains and directly associated objects found at archaeological sites. No direct costs to the public are anticipated, as the proposed rule would deal primarily with management and protection of archaeological resources by Federal agencies.
