

B. INDEX TO ENTRIES FOR WHICH A REGULATORY FLEXIBILITY ANALYSIS IS REQUIRED

The Regulatory Flexibility Act (5 U.S.C. 601) requires that agencies publish regulatory agendas identifying those rules that may have a significant economic impact on a substantial number of small entities. Agencies meet that requirement by including the information in their submissions for the Unified Agenda.

The following index lists the regulatory actions in this publication for which agencies believe that the Act may require a Regulatory Flexibility Analysis because the rule is likely to have such effects on small businesses, small governmental jurisdictions, or small organizations. The Sequence Number (Seq. No.) of the entry identifies the location of the entry in this edition. For further information, see the Regulatory Information Service Center's Introduction in part II of this issue.
