**4040. • REVISION TO OIL PIPELINE REGULATIONS PURSUANT TO THE ENERGY POLICY ACT OF 1992**

**Priority:** Substantive, Nonsignificant

**Legal Authority:** 42 USC 7172 note (West Supp. 1993)

**CFR Citation:** 18 CFR 342

**Legal Deadline:** None

**Abstract:** The Commission issued Order No. 561 on October 22, 1993, in response to the Energy Policy Act of 1992, Title X VIII. Among other things, Order No. 561 established a price cap for oil pipeline rates to be adjusted annually based on changes to the Producer Price Index for Finished Goods that it would review every 5 years. On July 27, 2000, the Commission issued an NOI in RM00-11-000 on the 5-year review of the oil pricing index. After receiving and reviewing comments, the Commission concluded the PPI-1 closely approximated the actual cost changes reported in FERC Form 6 and concluded the index satisfied the Energy Policy Act requirements. American Association of Oil Pipelines sought review of this order and on March 1, 2002, the Court remanded the proceeding for further review and explanation. On February 24, 2003, the Commission issued its Order on Remand, determining use of the Producer Price Index was appropriate. Shippers sought Court review and on April 9, 2004, the Court affirmed the Commission. (Docket No. RM93-11-000.)
