**Abstract:** Title III of the Energy Conservation and Production Act as amended by the Energy Policy Act of 1992 directs DOE to establish Federal building energy standards that require in new Federal buildings those energy efficiency measures that are technologically feasible and economically justified. The standards for Federal buildings are intended to parallel closely the voluntary building energy codes of the Energy Policy Act for private sector construction. Interim energy performance standards which DOE had issued before enactment of the Energy Policy Act are to remain in effect for the Federal sector until the new Federal building energy standards become effective.
