61.18 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment submitted by Mr. SOLOMON:

Page 10, after line 13, insert the following new section 4 and redesignate existing sections 4 through 7 accordingly:

SEC. 4. SUPPORT FOR UNITED STATES ARMED FORCES IN SOMALIA.

(a) FINDINGS.—The Congress finds that—

(1) prior to United Nations-authorized operations in Somalia, over 300,000 Somalis (including one fourth of the children under the age of five) died due to civil strife, disease, and famine, and at least one-half of Somalia's population of 8,000,000 people, were considered at risk of starvation;

(2) the number of deaths from starvation in Somalia has declined significantly since the arrival of the United States-led force in Somalia; and

(3) the United States contributed immeasurably to the United States-led force in So-

malia, including the deployment of over 20,000 members of the Armed Forces and the loss of American lives.

(b) COMMENDATION OF U.S. ARMED FORCES.—The Congress commended the United States Armed Forces for successfully establishing a secure environment for the humanitarian relief operations in Somalia.

So the amendment was agreed to.

The following amendment, as amended, was then agreed to:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This joint resolution may be cited as the "Resolution Authorizing the Use of United States Armed Forces in Somalia".

SEC. 2. CONGRESSIONAL FINDINGS.

The Congress finds the following:

(1) An estimated 300,000 Somalis have died as a result of hunger and widespread violence since the fall of Siad Barre in January 1991.

(2) On December 3, 1992, the United Nations Security Council adopted Resolution 794 in which the Security Council—

(A) determined that "the magnitude of the human tragedy caused by the conflict in Somalia, further exacerbated by the obstacles being created to the distribution of humanitarian assistance, constitutes a threat to international peace and security", and

(B) acting under Chapter VII of the Charter of the United Nations, authorized the use of "all necessary means to establish as soon as possible a secure environment for humanitarian relief operations in Somalia".

(3) United States Armed Forces entered Somalia on December 9, 1992, in response to Security Council Resolution 794.

(4) The United Nations Secretary General concluded in his report of March 3, 1993, that without improved security throughout Somalia "the political process cannot prosper and humanitarian relief operations will remain vulnerable to disruption".

(5) The Secretary General recommended in his report that the United Nations Security Council adopt a resolution effecting the transition from the United States-led force in Somalia to a United Nations-led force, with the formal date of transfer of command to be May 1, 1993.

(6) The Secretary General's report envisioned a United Nations-led force having a multinational military component of 20,000 personnel, plus an additional 8,000 personnel to provide logistic support.

(7) On March 26, 1993, the United Nations Security Council, acting under Chapter VII of the Charter of the United Nations, adopted Resolution 814 in response to the Secretary General's report. This resolution provides for the establishment of the United Nations-led force in Somalia by expanding the size and mandate of the original United Nations peacekeeping force in Somalia (commonly referred to as "UNOSOM") in accordance with the recommendations contained in the report of the Secretary General.

(8) United States Armed Forces will participate in the United Nations-led force in Somalia as part of the multinational logistic support contingent, providing logistical, communications, and intelligence support.

(9) In addition to logistic forces, the United States will make available a battalion-sized tactical quick reaction force to respond to requests for emergency assistance from the United Nations Force Commander in Somalia. This quick reaction force will be under United States operational control.

(10) The transfer of operations in Somalia from the United States-led force to the United Nations-led force will result in a substantial reduction in the number of members of the United States Armed Forces that are deployed in Somalia and in the costs incurred by the United States as a result of United Nations-authorized operations in Somalia.

(11) The Congress should authorize any use of United States Armed Forces to implement United Nations Security Council Resolutions 794 and 814.

(12)(A) The Congress does not anticipate that United States Armed Forces will need to remain in Somalia for more than 12 months after the date of enactment of this joint resolution to implement United Nations Security Council Resolution 814.

(B) Given the importance of the mission of the United Nations-led force in Somalia, however, the Congress will give strong consideration to extending the authorization for the use of United States Armed Forces to implement Resolution 814 should such continued use be necessary to ensure the success of the United Nations-led force in Somalia.
