¶3.5 MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. Edwin Thomas, one of his secretaries.

¶3.6 MESSAGE FROM THE PRESIDENT— STATE OF SMALL BUSINESS

The SPEAKER pro tempore, Mr. VOLKMER, laid before the House a message from the President, which was read as follows:

To the Congress of the United States:

I am pleased to present my first annual report on the state of small business. This report covers data for fiscal year 1992, a period of slow economic recovery that occurred just before my Administration took office.

Small businesses create many new jobs and are an important part of our Nation's economic growth. That is why, in my first address to the Joint Session of the Congress, I proposed some of the boldest targeted incentives for small business in history. These measures will benefit not only small businesses, but the American work force, our Nation's economy, and our international competitiveness.

At the same time, we must undertake some major corrective efforts. As small business owners will testify, the best thing the government could do for small business and the economy is to reduce the deficit. The primary goal of the economic program is to set the economy on the proper course for the short- and long-term future. Deficit reduction and shifting consumption to investment are the ways to accomplish that goal.

Reducing health care costs while ensuring that all Americans have access to health care is another national imperative. I have said it before: bringing health spending in line with inflation would do more for the private sector than almost any incentive or tax cut we could promote. At the same time, we must find a way to provide health care for everyone. Currently two-thirds of the Americans without health insurance are employed—many in small businesses. My health care task force has evaluated many proposals to ensure that health care is available to small business employees and affordable for small business owners. It will take time to change our health care system, but we are taking the important first steps.

We will also need to keep looking for better ways to provide for workers upon retirement. As this report documents, pension plans, like health plans, are much less available and affordable in small businesses. And as the baby boom generation moves toward retirement, issues related to Social Security and pension plan availability take on new urgency.

Beyond these long-range efforts, I have asked the Congress to join me in investing in small business and economic growth through specific tax incentives, capital formation initiatives, enterprise and empowerment zones, technology investments, and education and job training efforts.

To encourage long-term investment in small business, I supported—and the Congress passed—a 50 percent tax exclusion on capital gains from invest-
