SECTION 1. SHORT TITLE.

This Act may be cited as the "National Park Service Concessions Policy Reform Act of 1994".

SEC. 2. FINDINGS AND POLICY.

(a) FINDINGS.—In furtherance of the Act of August 25, 1916 (39 Stat. 535), as amended (16 U.S.C. 1, 2-4), which directs the Secretary of the Interior to administer areas of the National Park System in accordance with the fundamental purpose of conserving their scenery, wildlife, natural and historic objects, and providing for their enjoyment in a manner that will leave them unimpaired for the enjoyment of future generations, the Congress finds that the preservation and conservation of park resources and values requires that such public accommodations, facilities, and services within such areas as the Secretary, in accordance with this Act, determines necessary and appropriate—

(1) should be provided only under carefully controlled safeguards against unregulated and indiscriminate use so that visitation will not unduly impair park resources and values; and

(2) should be limited to locations and designs consistent to the highest practicable degree with the preservation and conservation of park resources and values.

(b) POLICY.—It is the policy of the Congress that—

(1) development on Federal lands within a park shall be limited to those facilities that the Secretary determines are necessary and appropriate for public use and enjoyment of the park in which such facilities and services are located;

(2) development within a park should be consistent to the highest practicable degree with the preservation and conservation of the park's resources and values;

(3) park facilities and services the Secretary determines suitable to be provided by parties other than the Secretary should be provided by private persons, corporations, or other entities, except when no private interest is qualified and willing to provide such facilities and services;

(4) if the Secretary determines that development should occur within a park, such development shall be designed, located, and operated in a manner that is consistent with the purposes for which such park was established;

(5) the right to provide such services and to develop or utilize facilities should be awarded to the person, corporation, or entity submitting the best proposal through a competitive selection process;

(6) such facilities or services should be provided to the public at reasonable rates; and
