SEC. 103. DEFINITIONS.

As used in this Act—

Such measures may be adopted by global, regional, or sub-regional fisheries organizations, subject to the rights and obligations of their members, or by treaties or other international agreements.

(6) The term "length" means—

(A) for any high seas fishing vessel built after July 18, 1982, 96 percent of the total length on a waterline at 85 percent of the least molded depth measured from the top of the keel, or the length from the foreside of the stem to the axis of the rudder stock on that waterline, if that is greater. SEC. 104. LICENSING.

(a) IN GENERAL.—No high seas fishing vessel shall engage in harvesting operations on the high seas unless the vessel has on board a valid license issued under this section.

(b) ELIGIBILITY.—

(1) Any vessel of the United States is eligible to receive a license under this section, unless the vessel was previously authorized to be used for fishing on the high seas by a foreign nation, and

(A) the foreign nation suspended such authorization because the vessel undermined the effectiveness of international conservation and management measures, and the suspension has not expired; or

(B) the foreign nation, within the last three years preceding application for a license under this section, withdrew such authorization because the vessel undermined the effectiveness of international conservation and management measures.

(2) The restriction in paragraph (1) does not apply if ownership of the vessel has changed since the vessel undermined the effectiveness of international conservation and management measures, and the new owner has provided sufficient evidence to the Secretary demonstrating that the previous owner or operator has no further legal, beneficial or financial interest in, or control of, the vessel.

(3) The restriction in paragraph (1) does not apply if the Secretary makes a determination that issuing a license would not subvert the purposes of the Agreement.

(4) The Secretary may not issue a license to a vessel unless the Secretary is satisfied that the United States will be able to exercise effectively its responsibilities under the Agreement with respect to that vessel.

(c) APPLICATION.—

(1) The owner or operator of a high seas fishing vessel may apply for a license under this section by completing an application form prescribed by the Secretary.

(2) The application form shall contain—

(A) the vessel's name, previous names (if known), official numbers, and port of record;

(B) the vessel's previous flags (if any);

(C) the vessel's International Radio Call Sign (if any);

(D) the names and addresses of the vessel's owners and operators;

(E) where and when the vessel was built;

(F) the type of vessel;

(G) the vessel's length; and

(H) any other information the Secretary requires.

(d) CONDITIONS.—The Secretary shall establish such conditions and restrictions on each license issued under this section as are necessary and appropriate to carry out the obligations of the United States under the Agreement, including but not limited to the following:

(1) The vessel shall be marked in accordance with the FAO Standard Specifications for the Marking and Identification of Fishing Vessels, or with regulations issued under section 305 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1855); and

(2) The license holder shall report such information as the Secretary by regulation requires, including area of fishing operations and catch statistics. The Secretary shall promulgate regulations concerning conditions under which information submitted under this paragraph may be released.

(e) FEES.—

(1) The Secretary may by regulation establish the level of fees to be charged for licenses issued under this section. The amount of any fee charged for a license issued under this section may not exceed the administrative costs incurred in issuing such licenses. The licensing fee shall be in addition to any fee required under any regional licensing regime applicable to high seas fishing vessels.

(2) The fees authorized by paragraph (1) shall be collected and credited to the Operations, Research and Facilities account of the National Oceanic and Atmospheric Administration. Fees collected under this subsection shall be available for the necessary expenses of the National Oceanic and Atmospheric Administration in implementing this Act, and shall remain available until expended.

(f) DURATION.—A license issued under this section is valid for the period specified in regulations issued under section 105(d). A license issued under this section is void in the event the vessel is no longer eligible for U.S. documentation, such documentation is revoked or denied, or the vessel is deleted from such documentation.

SEC. 105. RESPONSIBILITIES OF THE SECRETARY.

(a) RECORD.—The Secretary shall maintain an automated file or record of high seas fishing vessels issued licenses under section 104, including all information submitted under section 104(c)(2).

(2) promptly notify FAO of changes in such information;

(3) promptly notify FAO of additions to or deletions from the record, and the reason for any deletion;

(4) convey to FAO information relating to any license granted under section 104(b)(3), including the vessel's identity, owner or operator, and factors relevant to the Secretary's determination to issue the license;

(5) report promptly to FAO all relevant information regarding any activities of high seas fishing vessels that undermine the effectiveness of international conservation and management measures, including the identity of the vessels and any sanctions imposed; and

(6) provide the FAO a summary of evidence regarding any activities of foreign vessels that undermine the effectiveness of international conservation and management measures.

(c) INFORMATION TO FLAG NATIONS.—If the Secretary, in cooperation with the Secretary of State and the Secretary of the department in which the Coast Guard is operating, has reasonable grounds to believe that a foreign vessel has engaged in activities undermining the effectiveness of international conservation and management measures, the Secretary shall—

(1) provide to the flag nation information, including appropriate evidentiary material, relating to those activities; and

(2) when such foreign vessel is voluntarily in a United States port, promptly notify the flag nation and, if requested by the flag nation, make arrangements to undertake such lawful investigatory measures as may be considered necessary to establish whether the vessel has been used contrary to the provisions of the Agreement.

(d) REGULATIONS.—The Secretary, after consultation with the Secretary of State and the Secretary of the department in which the Coast Guard is operating, may promulgate such regulations, in accordance with section 553 of title 5, United States Code, as may be necessary to carry out the purposes of the Agreement and this title. The Secretary shall coordinate such regulations with any other entities regulating high seas fishing vessels, in order to minimize duplication of license application and reporting requirements. To the extent practicable, such regulations shall also be consistent with regulations implementing fishery management plans under the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.).

(e) NOTICE OF INTERNATIONAL CONSERVATION AND MANAGEMENT MEASURES.—The Secretary, in consultation with the Secretary of State, shall publish in the Federal Register, from time to time, a notice listing international conservation and management measures recognized by the United States.

SEC. 106. UNLAWFUL ACTIVITIES.

It is unlawful for any person subject to the jurisdiction of the United States—

(1) to use a high seas fishing vessel on the high seas in contravention of international conservation and management measures described in section 105(e);

(3) to use a high seas fishing vessel in violation of the conditions or restrictions of a license issued under section 104;

(4) to falsify any information required to be reported, communicated, or recorded pursuant to this title or any regulation issued under this title, or to fail to submit in a timely fashion any required information, or to fail to report to the Secretary immediately any change in circumstances that has the effect of rendering any such information false, incomplete, or misleading;

(5) to refuse to permit an authorized officer to board a high seas fishing vessel subject to

such person's control for purposes of conducting any search or inspection in connection with the enforcement of this title or any regulation issued under this title;

(d) ISSUANCE OF CITATIONS.—If any authorized officer finds that a high seas fishing vessel is operating or has been operated in violation of any provision of this title, such officer may issue a citation to the owner or operator of such vessel in lieu of proceeding under subsection (c). If a permit has been issued pursuant to this title for such vessel, such officer shall note the issuance of any citation under this subsection, including the date thereof and the reason therefor, on the permit. The Secretary shall maintain a record of all citations issued pursuant to this subsection.

SEC. 108. CIVIL PENALTIES AND LICENSE SANCTIONS.

(a) CIVIL PENALTIES.—

(1) Any person who is found by the Secretary, after notice and opportunity for a hearing in accordance with section 554 of title 5, United States Code, to have committed an act prohibited by section 106 shall be liable to the United States for a civil penalty. The amount of the civil penalty shall not exceed \$100,000 for each violation. Each day of a continuing violation shall constitute a separate offense. The amount of such civil penalty shall be assessed by the Secretary by written notice. In determining the amount of such penalty, the Secretary shall take into account the nature, circumstances, extent, and gravity of the prohibited acts committed and, with respect to the violation, the degree of culpability, any history of prior offenses, and such other matters as justice may require.

(2) The Secretary may compromise, modify, or remit, with or without conditions, any civil penalty that is subject to imposition or that has been imposed under this section.

(b) LICENSE SANCTIONS.—

(1) In any case in which—

(A) a vessel of the United States has been used in the commission of an act prohibited under section 106;

(B) the owner or operator of a vessel or any other person who has been issued or has applied for a license under section 104 has acted in violation of section 106; or

(C) any amount in settlement of a civil forfeiture imposed on a high seas fishing vessel or other property, or any civil penalty or criminal fine imposed on a high seas fishing vessel or on an owner or operator of such a vessel or on any other person who has been issued or has applied for a license under any fishery resource statute enforced by the Secretary, has not been paid and is overdue, the Secretary may—

(i) revoke any license issued to or applied for by such vessel or person under this title, with or without prejudice to the issuance of subsequent licenses;

(ii) suspend such license for a period of time considered by the Secretary to be appropriate;

(iii) deny such license; or

(iv) impose additional conditions and restrictions on such license.

Before executing the transfer of ownership of a vessel, by sale or otherwise, the owner shall disclose in writing to the prospective transferee the existence of any license sanction that will be in effect or pending with respect to the vessel at the time of the transfer. The Secretary may waive or compromise a sanction in the case of a transfer pursuant to court order.

(4) In the case of any license that is suspended under this subsection for nonpayment of a civil penalty or criminal fine, the Secretary shall reinstate the license upon payment of the penalty or fine and interest thereon at the prevailing rate.

(5) No sanctions shall be imposed under this subsection unless there has been prior opportunity for a hearing on the facts underlying the violation for which the sanction is imposed, either in conjunction with a civil penalty proceeding under this section or otherwise.

(c) HEARING.—For the purposes of conducting any hearing under this section, the Secretary may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents, and may administer oaths. Witnesses summoned shall be paid the same fees and mileage that are paid to witnesses in the courts of the United States. In case of contempt or refusal to obey a subpoena served upon any person pursuant to this subsection, the district court of the United States for any district in which such person is found, resides, or transacts business, upon application by the United States and after notice to such person, shall have jurisdiction to issue an order requiring such person to appear and give testimony before the Secretary or to appear and produce documents before the Secretary, or both, and any failure to obey such order of the court may be punished by such court as a contempt thereof.

(d) JUDICIAL REVIEW.—Any person against whom a civil penalty is assessed under subsection (a) or against whose vessel a license sanction is imposed under subsection (b) (other than a license suspension for nonpayment of penalty or fine) may obtain review thereof in the United States district court for the appropriate district by filing a complaint against the Secretary in such court within 30 days from the date of such penalty or sanction. The Secretary shall promptly file in such court a certified copy of the record upon which such penalty or sanction was imposed, as provided in section 2112 of title 28, United States Code. The findings and order of the Secretary shall be set aside by such court if they are not found to be supported by substantial evidence, as provided in section 706(2) of title 5, United States Code.

(e) COLLECTION.—

(1) If any person fails to pay an assessment of a civil penalty after it has become a final and unappealable order, or after the appropriate court has entered final judgment in favor of the Secretary, the matter shall be referred to the Attorney General, who shall recover the amount assessed in any appropriate district court of the United States. In such action the validity and appropriateness of the final order imposing the civil penalty shall not be subject to review.

(2) A high seas fishing vessel (including its fishing gear, furniture, appurtenances, stores, and cargo) used in the commission of an act prohibited by section 106 shall be liable in rem for any civil penalty assessed for such violation under subsection (a) and may be proceeded against in any district court of

the United States having jurisdiction thereof. Such penalty shall constitute a maritime lien on such vessel that may be recovered in an action in rem in the district court of the United States having jurisdiction over the vessel.

SEC. 109. CRIMINAL OFFENSES.

(a) OFFENSES.—A person is guilty of an offense if the person commits any act prohibited by paragraph (6), (7), (8), or (9) of section 106.

(b) PUNISHMENT.—Any offense described in subsection (a) is a class A misdemeanor punishable by a fine under title 18, United States Code, or imprisonment for not more than one year, or both; except that if in the commission of any offense the person uses a dangerous weapon, engages in conduct that causes bodily injury to any authorized officer, or places any such officer in fear of imminent bodily injury, the offense is a felony punishable by a fine under title 18, United States Code, or imprisonment for not more than 10 years, or both.

SEC. 110. FORFEITURES.

(a) IN GENERAL.—Any high seas fishing vessel (including its fishing gear, furniture, appurtenances, stores, and cargo) used, and any living marine resources (or the fair market value thereof) taken or retained, in any manner, in connection with or as a result of the commission of any act prohibited by section 106 (other than an act for which the issuance of a citation under section 107 is a sufficient sanction) shall be subject to forfeiture to the United States. All or part of such vessel may, and all such living marine resources (or the fair market value thereof) shall, be forfeited to the United States pursuant to a civil proceeding under this section.

(b) JURISDICTION OF DISTRICT COURTS.—Any district court of the United States shall have jurisdiction, upon application of the Attorney General on behalf of the United States, to order any forfeiture authorized under subsection (a) and any action provided for under subsection (d).

(c) JUDGMENT.—If a judgment is entered for the United States in a civil forfeiture proceeding under this section, the Attorney General may seize any property or other interest declared forfeited to the United States, which has not previously been seized pursuant to this title or for which security has not previously been obtained. The provisions of the customs laws relating to—

(1) the seizure, forfeiture, and condemnation of property for violation of the customs law;

(2) the disposition of such property or the proceeds from the sale thereof; and

(3) the remission or mitigation of any such forfeiture;

shall apply to seizures and forfeitures incurred, or alleged to have been incurred, under the provisions of this title, unless such provisions are inconsistent with the purposes, policy, and provisions of this title.

(d) PROCEDURE.—

(1) Any officer authorized to serve any process in rem that is issued by a court under section 107(b) shall—

(A) stay the execution of such process; or

Judgment shall be recoverable on such bond or other security against both the principal and any sureties in the event that any condition thereof is breached, as determined by such court.

(2) Any living marine resources seized pursuant to this title may be sold, subject to the approval of the appropriate court, for not less than the fair market value thereof. The proceeds of any such sale shall be deposited with such court pending the disposition of the matter involved.

(e) REBUTTABLE PRESUMPTION.—For purposes of this section, all living marine resources found on board a high seas fishing vessel and which are seized in connection with an act prohibited by section 106 are presumed to have been taken or retained in violation of this title, but the presumption can be rebutted by an appropriate showing of evidence to the contrary.

SEC. 408. SENSE OF THE CONGRESS REGARDING CONSERVATION AND MANAGEMENT OF ATLANTIC BLUEFIN TUNA.

(a) Finding.—The Congress finds the following:

(1) Atlantic bluefin tuna are a valuable commercial and recreational fishery of the United States.

(2) Many other countries also harvest Atlantic bluefin tuna in the Atlantic Ocean and the Mediterranean Sea.

(3) The International Commission for the Conservation of Atlantic Tunas (hereinafter in this section referred to as the “Commission”), was established in 1969 to develop conservation and management recommendations for Atlantic bluefin tuna and other highly migratory species in the Atlantic Ocean and the Mediterranean Sea.

(4) The Commission adopted conservation and management recommendations in 1974 to ensure the recovery and sustainability of Atlantic bluefin tuna throughout the Atlantic Ocean and the Mediterranean Sea.

(5) In 1981, the Commission adopted a management strategy for Atlantic bluefin tuna predicated on a hypothesis that 2 stocks of the fish existed: a western stock found in the Atlantic west of 45 degrees west longitude (hereinafter in this section referred to as the “45 degree line”), and an eastern stock found in the Atlantic Ocean east of the 45 degree line and in the Mediterranean Sea.

(6) Since 1981, the Commission has adopted additional, more restrictive conservation and management recommendations for Atlantic bluefin tuna for countries that harvest bluefin tuna west of the 45 degree line, including a 25 percent quota reduction since 1991 with an additional 40 percent quota reduction scheduled for 1995.

(7) The United States and other Commission members that harvest bluefin tuna west of the 45 degree line have implemented all conservation and management recommenda-

tions adopted by the Commission for Atlantic bluefin tuna west of the 45 degree line.

(8) Many other Commission members do not comply with the conservation and management recommendations adopted by the Commission for Atlantic bluefin tuna east of the 45 degree line.

(9) A recent National Academy of Sciences review of the scientific data used by the Commission concluded that the available data is consistent with a 1-stock management strategy for bluefin tuna in the North Atlantic.

(10) The National Academy of Sciences review also found that abundance of Atlantic bluefin tuna in the western Atlantic has remained stable since 1988, in contrast to the roughly 50 percent decline in abundance reported by the Commission.

(11) The continued unrestricted harvesting of Atlantic bluefin tuna east of the 45 degree line and in the Mediterranean Sea will undermine the conservation recommendations being implemented west of the line to rebuild Atlantic bluefin tuna.

(12) In order to successfully rebuild the Atlantic bluefin tuna stock, conservation and management recommendations must be adopted and implemented throughout the Atlantic Ocean and the Mediterranean Sea.

(b) Sense of Congress.—It is the sense of the Congress that—

(1) the United States and the Commission should continue to promote the conservation and management of Atlantic bluefin tuna throughout the Atlantic Ocean and Mediterranean Sea and develop a program to rebuild Atlantic bluefin tuna that requires the participation of all nations that harvest this species;

(2) the United States should ensure that the scientific findings and recommendations of the National Academy of Sciences Atlantic bluefin tuna review panel are made available to and included in the considerations of the Commission's scientific advisory panel;

(3) the United States should oppose any further quota reductions for nations harvesting Atlantic bluefin tuna west of the 45 degree line and insist that all nations harvesting Atlantic bluefin tuna west and east of the 45 degree line implement comparable conservation and rebuilding programs for the Atlantic bluefin tuna resource;

(4) the continued harvesting by fishermen from any country which is a member of the Commission and which does not comply with the conservation and management recommendations of the Commission will be considered by the Congress to diminish the effectiveness of an international fishery conservation program and, as such, will be considered by the Congress to be subject to the embargo provision in section 6 of the Atlantic Tunas Convention Act;

(5) the United States should encourage other nations with significant markets for Atlantic bluefin tuna to prohibit the importation of that species from harvesting nations which do not comply with the conservation and management recommendations adopted by the Commission; and

(6) the United States should encourage the Commission to adopt recommendations encouraging the use of trade actions by member nations as enforcement measures when the actions of a nation are undermining the effectiveness of conservation and management recommendations of the Commission.

TITLE V—FISHERMEN'S PROTECTIVE ACT

SEC. 501. FINDINGS.

The Congress finds that—

(1) customary international law and the United Nations Convention on the Law of the Sea guarantee the right of passage, including innocent passage, to vessels through the waters commonly referred to as the “In-

side Passage” off the Pacific Coast of Canada;

(2) Canada recently required all commercial fishing vessels of the United States to pay 1,500 Canadian dollars to obtain a “license which authorizes transit” through the Inside Passage;

(3) this action was inconsistent with international law, including the United Nations Convention on the Law of the Sea, and, in particular, Article 26 of that Convention, which specifically prohibits such fees, and threatened the safety of United States commercial fishermen who sought to avoid the fee by traveling in less protected waters;

(4) the Fishermen's Protective Act of 1967 provides for the reimbursement of vessel owners who are forced to pay a license fee to secure the release of a vessel which has been seized, but does not permit reimbursement of a fee paid by the owner in advance in order to prevent a seizure;

(5) Canada required that the license fee be paid in person in 2 ports on the Pacific Coast of Canada, or in advance by mail;

(6) significant expense and delay was incurred by commercial fishing vessels of the United States that had to travel from the point of seizure back to one of those ports in order to pay the license fee required by Canada, and the costs of that travel and delay can not be reimbursed under the Fishermen's Protective Act;

(7) the Fishermen's Protective Act of 1967 should be amended to permit vessel owners to be reimbursed for fees required by a foreign government to be paid in advance in order to navigate in the waters of that foreign country if the United States considers that fee to be inconsistent with international law;

(8) the Secretary of State should seek to recover from Canada any amounts paid by the United States to reimburse vessel owners who paid the transit license fee;

(9) the United States should review its current policy with respect to anchorage by commercial fishing vessels of Canada in waters of the United States off Alaska, including waters in and near the Dixon Entrance, and should accord such vessels the same treatment that commercial fishing vessels of the United States are accorded for anchorage in the waters of Canada off British Columbia;

(10) the President should ensure that, consistent with international law, the United States Coast Guard has available adequate resources in the Pacific Northwest and Alaska to provide for the safety of United States citizens, the enforcement of United States law, and to protect the rights of the United States and keep the peace among vessels operating in disputed waters;

(11) the President should continue to review all agreements between the United States and Canada to identify other actions that may be taken to convince Canada that any reinstatement of the transit license fee would be against Canada's long-term interests, and should immediately implement any actions which the President deems appropriate if Canada reinstates the fee;

(12) the President should continue to convey to Canada in the strongest terms that the United States will not now, nor at any time in the future, tolerate any action by Canada which would impede or otherwise restrict the right of passage of vessels of the United States in a manner inconsistent with international law; and

(13) the United States should redouble its efforts to seek expeditious agreement with Canada on appropriate fishery conservation and management measures that can be implemented through the Pacific Salmon Treaty to address issues of mutual concern.

SEC. 502. AMENDMENT TO THE FISHERMEN'S PROTECTIVE ACT OF 1967.

(a) The Fishermen's Protective Act of 1967 (22 U.S.C. 1971 et seq.) is amended by adding at the end the following new section:

"Sec. 11. (a) In any case on or after June 15, 1994, in which a vessel of the United States exercising its right of passage is charged a fee by the government of a foreign country to engage in transit passage between points in the United States (including a point in the exclusive economic zone or in an area over which jurisdiction is in dispute), and such fee is regarded by the United States as being inconsistent with international law, the Secretary of State shall reimburse the vessel owner for the amount of any such fee paid under protest.

"(b) In seeking such reimbursement, the vessel owner shall provide, together with such other information as the Secretary of State may require—

"(1) a copy of the receipt for payment;

"(2) an affidavit attesting that the owner or the owner's agent paid the fee under protest; and

"(3) a copy of the vessel's certificate of documentation.

"(c) Requests for reimbursement shall be made to the Secretary of State within 120 days after the date of payment of the fee, or within 90 days after the date of enactment of this section, whichever is later.

"(d) Such funds as may be necessary to meet the requirements of this section may be made available from the unobligated balances of previously appropriated funds remaining in the Fishermen's Guaranty Fund established under section 7 and the Fishermen's Protective Fund established under section 9. To the extent that requests for reimbursement under this section exceed such funds, there are authorized to be appropriated such sums as may be needed for reimbursements authorized under subsection (a).

"(e) The Secretary of State shall take such action as the Secretary deems appropriate to make and collect claims against the foreign country imposing such fee for any amounts reimbursed under this section.

"(f) For purposes of this section, the term 'owner' includes any charterer of a vessel of the United States.

"(g) This section shall remain in effect until October 1, 1995."

SEC. 2102. FINDINGS.

Congress finds and declares the following:

(1) Throughout human history, the oceans and Great Lakes have been an important source of food and a wealth of other natural products.

(2) Marine biotechnology holds tremendous promise for expanding the range and increasing the utility of products from the oceans, understanding and treating human illness, and enhancing the quality and quantity of seafood.

(3) Marine biotechnology offers opportunities to improve the stewardship of marine resources through the development and application of effective methods to restore and protect marine ecosystems, to manage fisheries, to promote the economic growth of coastal economies (particularly those which rely substantially on income from traditional fisheries), and to monitor marine biological and geochemical processes.

(4) The United States currently is a world leader in marine biotechnology, a position with the potential for contributing to business and manufacturing innovations, creation of new jobs, and stimulation of private sector investment.

(5) Maintaining national leadership in the face of growing foreign competition will require federal investment in a well-defined and coordinated national program of research, development and private sector partnership, based on the existing responsibilities and expertise of the National Oceanic and Atmospheric Administration and other federal agencies.

(6) In particular, the National Sea Grant College Program should play a leading role in the development of marine biotechnology in the United States, building on proven ca-

pabilities in research, technology transfer, and education.
