

crease for taxpayers with two or more children, and end the credit for workers who do not live with qualifying children. Even after accounting for other tax cuts in this bill, about eight million families would face a net tax increase.

The bill would threaten the retirement benefit of workers and increase the exposure of the Pension Benefit Guaranty Corporation by making it easy for companies to withdraw tax-favored pension assets for nonpension purposes. It also would raise Federal employee retirement contributions, unduly burdening Federal workers. Moreover, the bill would eliminate the low-income housing tax credit and the community development corporation tax credit, which address critical housing needs and help rebuild communities. Finally, the bill would repeal the tax credit that encourages economic activity in Puerto Rico. We must not ignore the real needs of our citizens in Puerto Rico, and any legislation must contain effective mechanisms to promote job creation in the islands.

Title XII includes many welfare provisions. I strongly support real welfare reform that strengthens families and encourages work and responsibility. But the provisions in this bill, when added to the EITC cuts, would cut low-income programs too deeply. For welfare reform to succeed, savings should result from moving people from welfare to work, not from cutting people off and shifting costs to the States. The cost of excessive program cuts in human terms—to working families, single mothers with small children, abused and neglected children, low-income legal immigrants, and disabled children—would be grave. In addition, this bill threatens the national nutritional safety net by making unwarranted changes in child nutrition programs and the national food stamp program.

The agriculture provisions would eliminate the safety net that farm programs provide for U.S. agriculture. Title I would provide windfall payments to producers when prices are high, but not protect family farm income when prices are low. In addition, it would slash spending for agricultural export assistance and reduce the environmental benefits of the Conservation Reserve Program.

For all of these reasons, and for others detailed in the attachment, this bill is unacceptable.

Nevertheless, while I have major differences with the Congress, I want to work with Members to find a common path to balance the budget in a way that will honor our commitment to senior citizens, help working families, provide a better life for our children, and improve the standard of living of all Americans.

In order to take additional steps with respect to the national emergency described and declared in Executive Order No. 12924 of August 19, 1994, and continued on August 15, 1995, necessitated by the expiration of the Export Administration Act of August 20, 1994, I hereby report to the Congress that pursuant to section 204(b) of the International Emergency Economic Powers Act, 50 U.S.C. 1703(b) ("the Act"), I have today exercised the authority granted by the Act to issue an Executive order (a copy of which is attached) to revise the existing procedures for processing export license applications submitted to the Department of Commerce.

The Executive order establishes two basic principles for processing export license applications submitted to the Department of Commerce under the Act and the Regulations, or under any renewal of, or successor to, the Export Administration Act and the Regulations. First, all such license applications must be resolved or referred to me for resolution no later than 90 calendar days after they are submitted to the Department of Commerce. Second, the Departments of State, Defense, and Energy, and the Arms Control and Disarmament Agency will have the authority to review any such license application. In addition, the Executive

order sets forth specific procedures including intermediate time frames, for review and resolution of such license applications.
