

Statement by Press Secretary Fitzwater on the End of the Civil War in Mozambique

October 5, 1992

We welcome the agreement signed October 4 in Rome ending the civil war in Mozambique and establishing the basis for democratic multiparty elections by October 1993. We congratulate the Government of Mozambique, RENAMO, and the Italian mediators on this important breakthrough.

Now that a cease-fire has been agreed to, we expect that all parties will redouble their efforts to overcome the severe humanitarian crisis in Mozambique brought about by the war and drought. Tens of thousands of Mozambicans in remote areas of the

country are reported to be facing famine. While limited deliveries have been made to some areas, a much wider effort is required to avert a large-scale human catastrophe. We call on the United Nations, international relief agencies, and all Mozambicans to work together to address this crisis promptly. The U.S., which contributed over \$150 million in food and other humanitarian assistance to Mozambique in FY 1992, is prepared to participate generously in this effort.

Statement on Signing Legislation Waiving Federal Immunity Relating to Solid and Hazardous Waste

October 6, 1992

I am signing into law H.R. 2194, which waives Federal sovereign immunity for violation of Federal, State, and local laws and regulations related to solid and hazardous waste.

Four years ago I promised the American people that I would make the Federal Government live up to the same environmental standards that apply to private citizens. By signing this bill, we take another step toward fulfillment of that promise.

My Administration has made a concerted effort to ensure that Federal facilities have the resources to meet the requirements of our Nation's environmental laws. Since

1989, we have tripled funding for the clean-up of wastes at Federal facilities and for bringing them into compliance with applicable environmental laws. Our FY 1993 budget proposed \$9.5 billion for environmental cleanup and compliance at Federal facilities. The \$5.5 billion request for Department of Energy environmental restoration and waste management activities represented an increase of \$1.1 billion. This was approximately 26 percent above enacted FY 1992 levels. I am pleased that the Congress has agreed to fund these requests.

The objective of the bill is to bring all
