the U.S. Government Printing Office. There have been no license applications under the program.

3. The expenses incurred by the Federal Government in the 6-month period from September 18, 1995, through March 25, 1996, that are directly attributable to the exercise of powers and authorities conferred by the declaration of a national emergency with respect to Angola (UNITA) are reported to be about $226,000, most of which represents wage and salary costs for Federal personnel. Personnel costs were largely centered in the Department of the Treasury (particularly in the Office of Foreign Assets Control, the U.S. Customs Service, the Office of the Under Secretary for Enforcement, and the Office of the General Counsel) and the Department of State (particularly the Office of Southern African Affairs).

I will continue to report periodically to the Congress on significant developments, pursuant to 50 U.S.C. 1703(c).

Statement on Signing the Land Disposal Program Flexibility Act of 1996
March 26, 1996

Today I am pleased to sign into law H.R. 2036, the “Land Disposal Program Flexibility Act of 1996,” which brings needed reforms to the Solid Waste Disposal Act (SWDA).

This Act would eliminate a statutory mandate that requires the Environmental Protection Agency (EPA) to promulgate stringent and costly treatment requirements for certain low-risk wastes that already are regulated under the Clean Water Act or Safe Drinking Water Act. The EPA considers these wastes to present little or no risk, due to existing regulation under State and Federal law.

The Act requires EPA to conduct a study to determine whether, following elimination of this mandate, there will be any risks that might not be addressed by State or other Federal laws. It also preserves EPA’s authority to impose any additional controls that are needed to protect public health and the environment. In addition, H.R. 2036 reforms certain municipal landfill ground water monitoring requirements under current law, thereby easing burdens on local governments.

The Administration’s support for H.R. 2036 originated in its initiative for Reinventing Environmental Regulation, as announced on March 16, 1995. As part of that initiative, I made a commitment to support commonsense reforms to the SWDA—if those reforms could be developed through a bipartisan process. This Act addresses one of the most important issues that the Administration identified in our initiative. Once implemented by EPA, it will eliminate an unnecessary and duplicative layer of costly regulation, yielding tens of millions of dollars in savings to private industry.

WILLIAM J. CLINTON
The White House,
March 26, 1996.

NOTE: H.R. 2036, approved March 26, was assigned Public Law No. 104–119. This statement was released by the Office of the Press Secretary on March 27.
