

and that we don't encourage our goods and services to be sold overseas.

Congress recently has been working on legislation for beach monitoring and landscape conservation. And those are important issues, but not nearly as important as FHA modernization or the Colombia free

trade agreement or making the tax cuts permanent.

Thank you very much.

NOTE: The President spoke at 10:14 a.m. in the Cabinet Room at the White House.

## Remarks on Presenting the Commander in Chief's Trophy to the United States Naval Academy Midshipmen April 14, 2008

Sit down, please. Welcome to the Rose Garden. Of course, this is an old habit for a lot of the players standing behind me. After all, this is the fifth year in a row that the mighty Navy football team won the Commander in Chief's Trophy. And we're here to congratulate them on that amazing achievement. As a matter of fact, coming to the Rose Garden is as familiar a place as Bancroft Hall. [Laughter]

We welcome you here, and we congratulate you. Coach, thanks for coming, proud you're here. This team has had an historic season. For the third year in a row, had the most rushing yards in the Nation, as well as the Nation's highest graduation rate. You went to your fifth straight bowl game, and of course, you accomplished your most important goal: You beat Army.

I want to thank the House majority leader, Steny Hoyer, strong supporter of the Naval Academy, for joining us. Congressman Hoyer, thanks for being here. Secretary Don Winter, Secretary of the Navy, and Linda; John Dalton, former Secretary of the Navy and a fine Texan, as well as Margaret—thanks for coming. Vice Admiral Jeff Fowler, thanks for being here, sir. Proud you're here. Coach—just Coach—[laughter]—like, you call me George; I'll call you Ken. [Laughter] Glad you all are here. [Laughter]

This team set a school record by scoring 511 points. And with your sixth straight win

over Army, you established the longest winning streak against Army in history. You beat Notre Dame for the first time since 1963. I'm probably not going to spend much time talking to the Pope about it. [Laughter] You had an interesting game in the great State of Texas against North Texas, when you won 74 to 62—136 combined points were the most scored in a regulation game in the history of NCAA's top division. You earned an invitation to play in the Poinsettia Bowl. Forget the score, but you made an exciting finish. In other words, you brought great credit to a fabulous place of higher institute—of learning.

And I want to thank your head coach and welcome him. He's been a big part of the success over the past 6 years, and no doubt in my mind—more importantly, no doubt in the superintendent's mind—that he's going to be a fabulous head coach for years to come. Congratulations.

I've been reading about some of the standout performers on the team, starting with slot back Reggie Campbell, team captain on offense. He holds—he owns eight school records. He was the MVP of the Army-Navy game. Linebacker Irv Spencer, team captain on defense—he led the team with 95 tackles. Adam Ballard, Texan—[laughter]—Lewisville, Texas—he came back from a broken leg in 2006 to score Navy's first touchdown of the season. He's

a bruiser. Cornerback Ketric Buffin, Rowlett, Texas—you think I'm only going to talk about Texans, don't you—[*laughter*—had an interception in each of the first four games. He's the first player in school history to accomplish that feat.

Zerbin Singleton, now there's an inspirational story for all. He faced great challenges growing up. He overcame injuries from a car accident to make it to the Naval Academy. And during the season, he received the Disney Wide World of Sports Spirit Award as college football's most inspirational figure. He's the brigade commander of all 4,200 midshipmen at the Naval Academy. He'll soon begin flight training as a Marine aviator.

Proud to welcome all the individual stars here. But no question, this team played well because you played as a unit. I want to thank every football player for agreeing to put on the uniform of the finest military ever. You've signed up after 9/11. You knew the stakes involved in the war against ex-

tremists and radicals. You knew that your country depended on you, and you didn't hesitate to wear the uniform.

I welcome you as stars on the football field, and I welcome you as soon to be sailors and marines who have a major responsibility to protect the United States from harm and spread the great blessings of liberty so we can have peace. I cannot wait to be able to say to you someday, I'm proud to be your Commander in Chief.

And so I welcome you to the Rose Garden. I congratulate you on being fine football players. More importantly, I congratulate you on being patriotic Americans. May God bless you.

NOTE: The President spoke at 1:16 p.m. in the Rose Garden at the White House. In his remarks, he referred to Ken Niumatalolo, head coach, U.S. Naval Academy football team; Vice Adm. Jeffrey L. Fowler, USN, superintendent, U.S. Naval Academy; and Pope Benedict XVI.

## Statement on the Death of John A. Wheeler *April 14, 2008*

Laura and I are saddened by the death of John Archibald Wheeler, one of America's greatest physicists.

During his distinguished career, Dr. Wheeler collaborated with scientists such as Albert Einstein and Niels Bohr on projects that changed the course of history. His early work with Bohr on how nuclei split apart, his vision of the possibilities of Einstein's curved space, and his work on quantum theory demonstrated his innovation and brilliance. And he will always be remembered for giving the phenomenon of black holes its name.

Dr. Wheeler was also a great teacher who understood that educating young minds would be one of his most significant contributions. As a professor at Princeton University and the University of Texas—Austin, Dr. Wheeler inspired generations of students, such as the late Nobel Prize winning physicist Richard Feynman, to transform their curiosity into scientific discoveries.

Today our thoughts and prayers are with the Wheeler family.
