[H. Con. Res. 369]

DEPARTMENT OF STATE—CONGRATULATING SCIENCE AND TECHNOLOGY OFFICERS

Whereas scientific and technological strength is closely associated with the economic and political strength of this Nation;

Whereas the increasingly global nature of scientific and technological activities has broadened opportunities for both competition and cooperation in these activities;

Whereas the Congress is increasingly concerned with a number of issues related to international cooperation and competition in science and technology, including the role of cooperative science and technology in global development; the balance between international cooperation and national security; exchange of scientific and technological personnel; and access to scientific and technological facilities and knowledge;

Whereas the Department of State's Science and Technology Officers have for many years provided the United States Government with excellent information and advice on these and other matters, both in the United States and abroad;

Whereas the Department of State's Science and Technology Officers carry out a variety of functions in an extraordinarily competent manner, including providing liaison between scientific communities in the United States and overseas, informing the United States Government of foreign science and technology policies and developments, participating in international negotiations, and managing cooperative bilateral science and technology programs;

Whereas the Department of State's Science and Technology Officers are often outnumbered by their counterparts from other nations, placing the United States at a distinct disadvantage in terms of monitoring and influencing international science and technology;

Whereas periodic informal meetings between the Congress and the Department of State's Science and Technology Officers have yielded timely, relevant and valuable guidance and perspective with respect to foreign policy considerations; and

Whereas it is the desire of the Congress to ensure that the corps of Science and Technology Officers abroad and at the Department of State remain strong not only in its scientific abilities, which are of high quality, but also in number, so that United States policy on science, technology, and diplomacy may be well coordinated: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring),
That—

(1) the Congress congratulates the Department of State's Science and Technology Officers on executing their duties in a meritorious manner under difficult circumstances;

(2) the Congress urges the Secretary of State to make every effort to enhance the number and professional standing of Science and Technology Officers in order to reflect greater emphasis upon science and technology in the United States diplomatic agenda as stated pursuant to title V of Public Law 95-426, the Science, Technology, and American Diplomacy Act; and

(3) the Congress and the Department of State maintain, and take steps to expand, both formal and informal communications with regard to science, technology, and diplomacy.

Agreed to October 19, 1988.

ENROLLMENT CORRECTIONS—H.R. 2642

Oct. 19, 1988

[S. Con. Res. 162]

Resolved by the Senate (the House of Representatives concurring), That, in the enrollment of the Act (H.R. 2642) to facilitate and implement the settlement of Colorado Ute Indian reserved water rights claims in southwest Colorado, and for other purposes, the Clerk of the House of Representatives shall make the following corrections:

Strike out paragraph (1) of section 5(c) and insert in lieu thereof the following:

Ante, p. 2975.

"(1) The use of the rights referred to in subsection (a) within the State of Colorado shall be governed solely as provided in the Agreement as modified pursuant to section 11 of this Act and this subsection. The Agreement is hereby modified to provide that a Tribe may voluntarily elect to sell, exchange, lease, use, or otherwise dispose of any portion of a water right confirmed in the Agreement and final consent decree off its reservation. If either the Southern Ute Indian Tribe or the Ute Mountain Ute Indian Tribe so elects, and as a condition precedent to such sale, exchange, lease, use, or other disposition, that portion of the Tribe's water right shall be changed to a Colorado State water right, but be such a State water right only during the use of
