"(B) The Secretary may authorize a State agency to expend an amount less than the amount described in subparagraph (A)(ii) for purposes of breastfeeding promotion and support activities if—

"(i) the State agency so requests; and

“(ii) the request is accompanied by documentation that other funds will be used to conduct nutrition education activities at a level commensurate with the level at which such activities would be conducted if the amount described in subparagraph (A)(ii) were expended for such activities.

“(C) The Secretary may authorize a State agency to expend for purposes of nutrition education an amount that is less than the difference between the aggregate amount described in subparagraph (A) and the amount expended by the State for breastfeeding promotion and support programs if—

“(i) the State agency so requests; and

“(ii) the request is accompanied by documentation that other funds will be used to conduct such activities.

“(D) The Secretary shall limit to a minimal level any documentation required under this paragraph.

“(4) The Secretary shall—

“(A) in consultation with the Secretary of Health and Human Services, develop a definition of breastfeeding for the purposes of the program under this section;

“(B) authorize the purchase of breastfeeding aids by State and local agencies as an allowable expense under nutrition services and administration;

“(C) require each State agency to designate an agency staff member to coordinate breastfeeding promotion efforts identified in the State plan of operation and administration; and

“(D) require the State agency to provide training on the promotion and management of breastfeeding to staff members of local agencies who are responsible for counseling participants in the program under this section concerning breastfeeding.

“(5)(A) Subject to subparagraph (B), in any fiscal year that a State agency achieves, through use of acceptable measures, participation that exceeds the participation level estimated for such State agency under paragraph (2)(A)(ii)(I), such State agency may convert amounts allocated for food benefits for such fiscal year for costs of nutrition services and administration to the extent that such conversion is necessary—

“(i) to cover allowable expenditures in such fiscal year; and

“(ii) to ensure that the State agency maintains the level established for the per participant grant for nutrition services and administration for such fiscal year.

“(B) If a State agency increases its participation level through measures that are not in the nutritional interests of participants or not otherwise allowable (such as reducing the quantities of foods provided for reasons not related to nutritional need), the Secretary may refuse to allow the State agency to convert amounts allocated for food benefits to defray costs of nutrition services and administration.

“(C) For the purposes of this paragraph, the term ‘acceptable measures’ includes use of cost containment measures, curtailment of vendor abuse, and breastfeeding promotion activities.

“(6) In each fiscal year, each State agency shall provide, from the amounts allocated to such agency for such year for costs of nutrition services and administration, an amount to each local agency for its costs of nutrition services and administration. The amount to be provided to each local agency under the preceding sentence shall be determined under allocation standards developed by the State agency in cooperation with the several local agencies, taking into

account factors deemed appropriate to further proper, efficient, and effective administration of the program, such as—

- “(A) local agency staffing needs;
- “(B) density of population;
- “(C) number of individuals served; and
- “(D) availability of administrative support from other sources.

“(7) The State agency may provide in advance to any local agency any amounts for nutrition services and administration deemed necessary for successful commencement or significant expansion of program operations during a reasonable period following approval of—

- “(A) a new local agency;
- “(B) a new cost containment measure; or
- “(C) a significant change in an existing cost containment measure.

“(8)(A) No State may receive its allocation under this subsection unless on or before August 30, 1989 (or a subsequent date established by the Secretary for any State) such State has—

“(i) examined the feasibility of implementing cost containment measures with respect to procurement of infant formula, and, where practicable, other foods necessary to carry out the program under this section; and

“(ii) initiated action to implement such measures unless the State demonstrates, to the satisfaction of the Secretary, that such measures would not lower costs or would interfere with the delivery of formula or foods to participants in the program.

“(B)(i) Except as provided in subparagraphs (C), (D), and (E)(iii), in carrying out subparagraph (A), any State that provides for the purchase of foods under the program at retail grocery stores shall, with respect to the procurement of infant formula, use—

- “(I) a competitive bidding system; or
- “(II) any other cost containment measure that yields savings equal to or greater than savings generated by a competitive bidding system when such savings are determined by comparing the amounts of savings that would be provided over the full term of contracts offered in response to a single invitation to submit both competitive bids and bids for other cost containment systems for the sale of infant formula.

“(ii) In determining whether a cost containment measure other than competitive bidding yields equal or greater savings, the State, in accordance with regulations issued by the Secretary, may take into account other cost factors (in addition to rebate levels and procedures for adjusting rebate levels when wholesale price levels rise), such as—

“(I) the number of infants who would not be expected to receive the contract brand of infant formula under a competitive bidding system;

“(II) the number of cans of infant formula for which no rebate would be provided under another rebate system; and

“(III) differences in administrative costs relating to the implementation of the various cost containment systems (such as costs of converting a computer system for the purpose of operating a cost containment system and costs of preparing participants for conversion to a new or alternate cost containment system).

“(C) In the case of any State that has a contract in effect on the date of the enactment of the Child Nutrition and WIC Reauthoriza-

Contracts.

tion Act of 1989, subparagraph (B) shall not apply to the program operated by such State under this section until the term of such contract, as such term is specified by the contract as in effect on such date, expires. In the case of any State that has more than 1 such contract in effect on the date of the enactment of such Act, subparagraph (B) shall not apply until the term of the contract with the latest expiration date, as such term is specified by such contract as in effect on the date of the enactment of such Act, expires.

“(D)(i) The Secretary shall waive the requirement of subparagraph (B) in the case of any State that demonstrates to the Secretary that—

“(I) compliance with subparagraph (B) would be inconsistent with efficient or effective operation of the program operated by such State under this section; or

“(II) the amount by which the savings yielded by an alternative cost containment system would be less than the savings yielded by a competitive bidding system is sufficiently minimal that the difference is not significant.

“(ii) The Secretary shall prescribe criteria under which a waiver may be granted pursuant to clause (i).

“(iii) The Secretary shall provide information at 6-month intervals to the Committee on Education and Labor of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on waivers that have been granted under clause (i).

Indians.

“(E)(i) The Secretary shall provide technical assistance to small Indian State agencies carrying out this paragraph in order to assist such agencies to achieve the maximum cost containment savings feasible.

“(ii) The Secretary shall also provide technical assistance, on request, to State agencies that do not have large caseloads and that desire to consider a cost containment system that covers more than 1 State agency.

“(iii) The Secretary may waive the requirement of subparagraph (B) in the case of any Indian State agency that has not more than 1,000 participants.

“(F) No State may enter into a cost containment contract (in this subparagraph referred to as the “original contract”) that prescribes conditions that would void, reduce the savings under, or otherwise limit the original contract if the State solicited or secured bids for, or entered into, a subsequent cost containment contract to take effect after the expiration of the original contract.

Regulations.

“(G) Not later than the expiration of the 120-day period beginning on the date of the enactment of the Child Nutrition and WIC Reauthorization Act of 1989, the Secretary shall prescribe regulations to carry out this paragraph. Such regulations shall address issues involved in comparing savings from different cost containment measures, as provided under subparagraph (B).

“(9) For purposes of this subsection, the term ‘cost containment measure’ means a competitive bidding, rebate, direct distribution, or home delivery system implemented by a State agency as described in its approved plan of operation and administration.”;

(C) by adding at the end the following new paragraph:

"(7) In addition to any amounts expended under paragraph (3)(A)(i), any State agency using cost containment measures as defined in subsection (h)(9) may temporarily use amounts made available to such agency for the first quarter of a fiscal year to defray expenses for costs incurred during the final quarter of the preceding fiscal year. In any fiscal year, any State agency that uses amounts made available for a succeeding fiscal year under the authority of the preceding sentence shall restore or reimburse such amounts when such agency receives payment as a result of its cost containment measures for such expenses.";

(1) by amending paragraph (1) to read as follows:

“(1)(A) The national average value of donated foods, or cash payments in lieu thereof, shall be 11 cents, adjusted on July 1, 1982, and each July 1 thereafter to reflect changes in the Price Index for Food Used in Schools and Institutions. The Index shall be computed using 5 major food components in the Bureau of Labor Statistics’ Producer Price Index (cereal and bakery products, meats, poultry and fish, dairy products, processed fruits and vegetables, and fats and oils). Each component shall be weighed using the same relative weight as determined by the Bureau of Labor Statistics.

“(B) The value of food assistance for each meal shall be adjusted each July 1 by the annual percentage change in a 3-month average

value of the Price Index for Foods Used in Schools and Institutions for March, April, and May each year. Such adjustment shall be computed to the nearest $\frac{1}{4}$ cent.

“(C) For each school year, the total commodity assistance or cash in lieu thereof available to a State for the school lunch program shall be calculated by multiplying the number of lunches served in the preceding school year by the rate established by subparagraph (B). After the end of each school year, the Secretary shall reconcile the number of lunches served by schools in each State with the number of lunches served by schools in each State during the preceding school year and increase or reduce subsequent commodity assistance or cash in lieu thereof provided to each State based on such reconciliation.
