#### PART D—MATTERS RELATED TO ALLIES AND OTHER NATIONS

##### SEC. 1041. SENSE OF CONGRESS REGARDING UNITED STATES TROOPS IN EUROPE.

It is the sense of Congress that—

(1) the United States has a strong interest in continuing and strengthening the North Atlantic Treaty Organization (NATO) to preserve world peace and security and to aid in the transition to a Europe that is whole and free;

(2) the United States should work with its NATO allies to adapt NATO to better respond to the changing world situation, which includes—

(A) the dissolution of the Warsaw Pact as a military and political alliance;

(B) the reduction in the threat of attack on western Europe posed by the Soviet Union;

(C) the reduction in the amount of financial resources that the United States is able to devote to defense spending; and

(D) the improved ability of other member nations of NATO to carry a greater share of the common NATO defense burden;

(3) barring unforeseen developments which result in a substantial increase in the threat to the national security of the United States, the Armed Forces should plan for an end strength level of members of the Armed Forces assigned to permanent duty ashore in European member nations of NATO that should not exceed approximately 100,000 members by the end of fiscal year 1995; and

(4) a principal function of the members so assigned should be to facilitate the rapid and large-scale reception of reinforcing United States troops in the event of a military necessity.

**SEC. 1042. REDUCTION IN AUTHORIZED END STRENGTH FOR THE NUMBER OF MILITARY PERSONNEL IN EUROPE.**

(a) **REDUCTION.**—Section 1002(c)(1) of the Department of Defense Authorization Act, 1985 (22 U.S.C. 1928 note), is amended in the first sentence by striking out “261,855” and inserting in lieu thereof “235,700”.

(b) **WAIVER AUTHORITY.**—Such section is amended in the third sentence—

(1) by striking out “261,855” and inserting in lieu thereof “235,700”; and

(2) by striking out “311,855” and inserting in lieu thereof “261,855”.

**SEC. 1043. STRATEGIC FRAMEWORK AND DISTRIBUTION OF RESPONSIBILITIES FOR THE SECURITY OF ASIA AND THE PACIFIC.**

(a) **FINDINGS.**—Congress makes the following findings:

(1) The alliance between the United States and its allies in East Asia contributes greatly to the security of that region.

(2) It is in the national interest of the United States to maintain a forward military and naval presence in East Asia.

(3) The pace of economic, political, and social advances in many of the East Asian countries, particularly Japan and South Korea, continues to accelerate.

(4) As a result of such advances the capacity of those countries to contribute to the responsibilities for their own defense has increased dramatically.

(5) While the level of defense burdensharing by Japan and South Korea has increased, continued acceleration of the rate of transfer of that burden is desirable.

(6) The United States remains committed to the security of its friends and allies in Asia and the Pacific Rim region.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the United States should regularly review the missions, force structure, and locations of its military forces in Asia and the Pacific, including Hawaii;

(2) the United States should also regularly review its basing structure in the Pacific and Asia, with special attention to developments in the Philippines, Japan, and South Korea, and determine basing, forward deployments, maritime and land base prepositioning, amphibious forces, and strategic lift to meet evolving strategic needs;

(3) the United States should regularly review the threats and potential threats to regional peace, the United States, and its friends and allies;

(4) the United States should continue to assess the feasibility and desirability of the ongoing partial, gradual reduction of military forces in Asia and the Pacific;

(5) in view of the advances referred to in subsection (a)(3), Japan and South Korea should continue to assume increased responsibility for their own security and the security of the region;

(6) Japan and South Korea should continue to offset the direct costs incurred by the United States in deploying military forces for the defense of those countries including costs related to the presence of United States military forces in those countries; and

(7) Japan should continue to contribute to improvements to global stability by contributing to countries in regions of impor-

tance to world stability through the Official Development Assistance Program of Japan.

(c) **REPORT REQUIRED.**—Not later than April 1, 1992, the President shall submit to the congressional defense committees, the Committee on Foreign Relations of the Senate, and the Committee on Foreign Affairs of the House of Representatives a report on the strategic posture and military force structure of the United States in Asia and the Pacific, including the forces in Hawaii. The President shall include in such report a strategic plan relating to the continued United States presence in that region.

(d) **CONTENT OF REPORT.**—The report required by subsection (c) shall specifically include the following matters:

(1) An assessment of the trends in the regional military balance involving potential threats to the United States and its allies and friends in Asia and the Pacific, with special attention to—

(A) the implications of recent developments in the Soviet Union and the People's Republic of China for United States and allied security planning in Asia and the Pacific; and

(B) regional conflicts, such as the struggle in Cambodia.

(2) An assessment of the trends in acquiring and deploying nuclear, biological, and chemical weapons and long range missiles and other delivery systems and other destabilizing transfers of arms and technology.

(3) An assessment of the extent to which a requirement continues to exist for a regional security role for the United States in East Asia.

(4) An identification of any changes—

(A) in the missions, force structure, and locations of United States military forces in Asia and the Pacific that could strengthen the capabilities of such forces and lower the costs of maintaining such forces; and

(B) in contingency and reserve armed forces in the United States and other areas.

(5) A review of the United States basing structure in the Pacific and Asia with special attention to developments in the Philippines, Japan, and South Korea, including a review of the implications for basing, forward deployments, maritime, and land base prepositioning, amphibious forces, and strategic lift to meet evolving strategic needs.

(6) A discussion of the strategic implications of the departure of United States forces from Clark Air Force Base and of the remaining facilities in the Philippines.

(7) A discussion of the need for expanding the United States access to facilities in Singapore and other states in East Asia that are friendly to the United States.

(8) A discussion of the recent trends in the contributions to burdensharing and the common defense being made by the friends and allies of the United States in Asia and the ways in which increased defense responsibilities and costs presently borne by the United States can be transferred to the friends and allies of the United States in Asia and the Pacific.

(9) An assessment of the feasibility of relocating United States military personnel and facilities in Japan and South Korea to reduce friction between such personnel and the people of those countries.

(10) A discussion of any changes in bilateral command arrangements that would facilitate a transfer of military missions and command to allies of the United States in East Asia.

(11) A discussion of the changes in—

(A) the flow of arms and military technology between the United States and its friends and allies;

(B) the balance of trade in arms and technology; and

(C) the dependence and interdependence between the United States and its friends and allies in military technology.

**SEC. 1044. UNITED STATES TROOPS IN KOREA.**

(a) **FINDINGS.**—Congress makes the following findings:

(1) The United States plans to reduce its troop presence in the Republic of Korea to 36,500 personnel by the end of 1992.

(2) The Department of Defense has not announced specific plans for further personnel reductions below that level.

(3) The National Unification Board of South Korea estimates the gross national product (GNP) of North Korea to have been \$21,000,000,000 in 1989, while the Bank of Korea estimates that the size of the Republic of Korea's economy in that year was \$210,000,000,000, a factor of 10 larger. At its current growth rate, as estimated by the Economic Planning Board of the Republic of Korea, the annual expansion of the economy of the Republic of Korea is nearly equivalent in size to the entire North Korean economy.

(4) The Republic of Korea continues to face a substantial military threat from North Korea that requires a vigorous response on both military and diplomatic levels.

(5) The Republic of Korea has decided to increase its level of host nation support, although such support still falls short of the actual cost involved and short of the relative level provided by the Government of Japan.

(6) While recognizing that the Republic of Korea has consistently increased its defense budget in real terms by an average of about 6 percent annually for the past five years, to a current level of 4.2 percent of gross national product, the Republic of Korea devotes a smaller share of its economy to defense than does the United States, at 4.9 percent of gross national product.

(b) **SENSE OF CONGRESS.**—It is the sense of the Congress that—

(1) the Republic of Korea remains an important ally of the United States, with the two countries sharing important political, economic, and security interests;

(2) commensurate with the security situation on the Korean peninsula and the size and vitality of the economy of the Republic of Korea—

(A) the Department of Defense should consider whether future reductions of United States military forces from the Republic of Korea beyond those now planned to be completed by the end of 1992 can be made in a way that does not undermine the credibility or effectiveness of those forces against an attack by North Korea; and

(B) the Republic of Korea should undertake greater efforts to meet its security requirements, particularly in the area of force modernization; and

(3) the Government of the Republic of Korea should increase the level of host nation support it provides to United States

forces in the area so that its relative level more closely approximates that of Japan.

(c) **PRESIDENTIAL REPORT.**—(1) The President shall transmit to Congress, either separately or as part of another relevant report, a report on the overall security situation on the Korean peninsula, the implications of relevant political and economic developments in the area for the security situation there, and United States policy for the area.

(2) Issues covered in the report shall include—

(A) a qualitative and quantitative assessment of the military balance on the Korean peninsula;

(B) a description of the material requirements of the armed forces of the Republic of Korea;

(C) a description of United States military personnel requirements;

(D) a description of the state of United States-Republic of Korea relations, the state of China-Republic of Korea relations, and the state of Soviet-Republic of Korea relations; and

(E) a description of prospects for change in North Korea.

(3) The report shall be transmitted not later than June 30, 1992, and shall be transmitted in both classified and unclassified form.

**SEC. 1045. BURDENSARING CONTRIBUTIONS BY JAPAN AND THE REPUBLIC OF KOREA.**

(a) **AUTHORITY TO ACCEPT CONTRIBUTIONS.**—During fiscal years 1992 and 1993, the Secretary of Defense may accept cash contributions from Japan and the Republic of Korea for the purposes specified in subsection (c).

(b) **CREDIT TO APPROPRIATIONS.**—Contributions accepted in a fiscal year under subsection (a) shall be credited to appropriations of the Department of Defense that are available for that fiscal year for the purposes for which the contributions are made. The contributions so credited shall be—

(1) merged with the appropriations to which they are credited; and

(2) available for the same time period as those appropriations.

(c) **AVAILABILITY OF CONTRIBUTIONS.**—Contributions accepted under subsection (a) shall be available only for the payment of the following costs in the country making the contributions:

(1) Compensation for local national employees of the Department of Defense.

(2) Military construction projects of the Department of Defense.

(3) Supplies and services of the Department of Defense.

(d) **AUTHORIZATION OF MILITARY CONSTRUCTION.**—Contributions credited under subsection (b) to an appropriation account of the Department of Defense may be used—

(1) by the Secretary of Defense to carry out a military construction project that is consistent with the purposes for which the contributions were made and is not otherwise authorized by law; or

(2) by the Secretary of a military department, with the approval of the Secretary of Defense, to carry out such a project.

(e) **NOTICE AND WAIT REQUIREMENTS.**—(1) When a decision is made to carry out a military construction project under subsection (d), the Secretary of Defense shall submit a report to the congressional defense committees containing—

- (A) an explanation of the need for the project;
- (B) the then current estimate of the cost of the project; and
- (C) a justification for carrying out the project under that subsection.

(2) The Secretary of Defense or the Secretary of a military department may not commence a military construction project under subsection (d) until the end of the 21-day period beginning on the date on which the Secretary of Defense submits the report under paragraph (1) regarding the project.

(f) **REPORTS.**—Not later than 30 days after the end of each quarter of fiscal years 1992 and 1993, the Secretary of Defense shall submit to the congressional defense committees a report specifying separately for Japan and the Republic of Korea—

- (1) the amount of the contributions accepted by the Secretary during the preceding quarter under subsection (a) and the purposes for which the contributions were made; and
- (2) the amount of the contributions expended by the Secretary during the preceding quarter and the purposes for which the contributions were expended.

22 USC 1928  
note.

(2) The foreign nations referred to in paragraph (1) are—

- (A) each member nation of the North Atlantic Treaty Organization (other than the United States); and
- (B) every other foreign nation with which the United States has a bilateral or multilateral defense agreement that provides for the assignment of combat units of the Armed Forces of the United States to permanent duty in the nation or the placement of combat equipment of the United States in the nation.

(3) Each defense cost-sharing agreement entered into under paragraph (1) should provide that the foreign nation agrees to share equitably with the United States, through cash compensation or in-kind contributions, or a combination thereof, the costs to the United States that arise solely from the implementation of the provisions of the bilateral or multilateral defense agreement with that nation.

(b) **EXCEPTION.**—The provisions of subsection (a) shall not apply to those foreign nations that receive assistance under section 23 of the Arms Export Control Act (22 U.S.C. 2763) relating to the foreign military financing program or under chapter 4 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2346 et seq.) relating to the Economic Support Fund.

(c) **CONSULTATIONS.**—In conducting the consultations required under subsection (a), the President should make maximum feasible use of the Department of Defense and the post of Ambassador-at-Large created by section 8125(c) of the Department of Defense Appropriations Act, 1989 (10 U.S.C. 113 note).

- (1) describing the efforts undertaken and the progress made by the President in carrying out subsections (a) and (c) during the period covered by the report;
- (2) specifying the accounting of defense cost-sharing contributions maintained under subsection (d) during that period; and
- (3) assessing how equitably foreign nations not described in subsection (a) or excepted under subsection (b) are sharing the costs and burdens of implementing defense agreements with the United States and how those defense agreements serve the national security interests of the United States.

## PART F—CONGRESSIONAL FINDINGS, POLICIES, AND COMMENDATIONS

## SEC. 1071. SENSE OF CONGRESS RELATING TO THE CONTRIBUTIONS TO OPERATION DESERT STORM MADE BY THE DEFENSE-RELATED INDUSTRIES OF THE UNITED STATES.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The United States and its coalition allies achieved a great victory in Operation Desert Storm, carried out in the Persian Gulf region in the winter of 1991.

(2) The outstanding success of Operation Desert Storm was due in great measure to the ready availability of weapons and weapon systems exhibiting remarkable accuracy through advanced technological design.

(3) These weapons and weapon systems were designed and produced by the defense-related industries of the United States.

(4) The battle plan for Operation Desert Storm formulated by the commander of the United States Central Command relied on the availability and performance of these weapons and weapon systems.

(5) The successful use of these weapons and weapon systems in accordance with that plan resulted in astonishingly small numbers of killed and wounded among the Armed Forces of the United States and of allied coalition forces in general.

(b) SENSE OF CONGRESS.—It is the sense of Congress—

(1) that the defense-related industries of the United States, and the men and women who work in those industries, deserve the gratitude and appreciation of the Congress and of the United States for the design and production of the technologically-advanced weapons and weapon systems that helped to ensure victory in Operation Desert Storm;

(2) that future decisions relating to the national security of the United States must take into account the need to maintain strong defense-related industries in the United States; and

(3) that it is vitally important to the United States that the defense-related industries of the United States be capable of responding to the national security requirements of the United States.

SEC. 1072. SENSE OF CONGRESS RELATING TO COOPERATION BETWEEN THE MILITARY DEPARTMENTS AND BIG BROTHERS AND BIG SISTERS ORGANIZATIONS.

(a) FINDINGS.—Congress makes the following findings:

(1) The Big Brothers of America and the Big Sisters of America, consisting of 499 independent organizations located across the United States, assist at-risk children and the families of such children by establishing mentor programs that foster one-to-one relationships between such children and concerned adult mentors.

(2) The Big Brothers and Big Sisters organizations annually assist approximately 110,000 such children.

(3) As a result of cooperation between the Department of Defense and Big Brothers and Big Sisters organizations, successful mentor programs have been established at several military installations located in the United States and overseas.

(4) There are an estimated 80,000 single-parent families, and at least 80,000 at-risk youth in those families, that are headed by members of the Armed Forces.

(5) Appropriately trained members of the Armed Forces are exceptionally qualified to serve as concerned adult mentors of at-risk youths in Big Brothers and Big Sisters mentor programs.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) additional cooperation between the Department of Defense and the Big Brothers and Big Sisters organizations located in communities near military installations will assist members of the Armed Forces serving at those installations and those communities in responding to the family support needs of those members and communities; and

(2) the Secretary of Defense should take all practicable steps necessary to encourage such cooperation at military installations located in the United States and to promote the establishment of additional Big Brothers and Big Sisters organizations at such installations located overseas.

**SEC. 1073. COMMENDATION OF THE MILITARY COLLEGES FOR THEIR CONTRIBUTIONS TO TRAINING CITIZEN-SOLDIERS.****(a) FINDINGS.—**Congress makes the following findings:

(1) The number of essential military colleges (institutions that the Department of Defense has recognized as constituting a special aspect of American higher education) has decreased from 11 institutions in 1914 to only 4 today: Norwich University, founded in 1819; Virginia Military Institute, established in 1839; The Citadel, The Military College of South Carolina, chartered in 1842; and North Georgia College, which opened in 1873.

(2) The hallmark of these institutions has been their dedication to the principle of the citizen-soldier, and in this regard they are joined in spirit and devotion by the Cadet Corps at Texas A & M University and at Virginia Polytechnic Institute and State University.

(3) Citizen-soldiers are educated, trained, and inspired to become productive members of society in any calling, but are also prepared to serve their country in a military role during times of war or national peril.

(4) These citizen-soldiers have accepted as their duty an obligation to serve their country in every instance of war since the Mexican War, and have without fail or hesitation answered the call to arms—most recently with service in Southwest Asia as part of Operation Desert Storm.

**(b) RECOGNITION AND COMMENDATION.—**In light of the findings in subsection (a), the Congress—

(1) recognizes and commends military colleges for the unique contributions they have made and continue to make; and

(2) urges citizens of the United States to support the concept of the citizen-soldier to which these colleges are dedicated.

**SEC. 1074. SENSE OF CONGRESS RELATING TO THE CHEMICAL DECONTAMINATION TRAINING FACILITY, FORT MCCLELLAN, ALABAMA.****(a) FINDINGS.—**Congress makes the following findings:

(1) The possibility of use of chemical weapons by Iraqi forces was the most significant military threat confronted by members of the Armed Forces of the United States who served in the Persian Gulf region in connection with Operation Desert Storm.

(2) There continues to be extreme concern with respect to the ever more rapid proliferation of chemical weapons and agents, especially among nations in the Middle East.

(3) This proliferation makes it increasingly necessary that members of the Armed Forces have the capability of self-defense against chemical weapons and agents.

(4) Combat training with live chemical agents directly promotes this capability by reducing the life-threatening fear and self doubt that some soldiers experience on a battlefield contaminated by chemical weapons or agents.

(5) Such training further promotes this capability by enhancing the professional credibility of the members of the Armed Forces who train others with respect to chemical weapons and agents.

(6) The Chemical Decontamination Training Facility (CDTF) located at Fort McClellan, Alabama, is the only facility for

conducting combat training with live chemical agents in the Western Hemisphere.

(7) The operations of the Chemical Decontamination Training Facility depend upon the support activities of the Army Chemical School which is also located at Fort McClellan, Alabama.

(8) The Defense Base Closure and Realignment Commission has reported that the closure or diminished operation of the Chemical Decontamination Training Facility could have an adverse impact on the capability of the Armed Forces to defend against the use of chemical weapons and agents and, thus, on the national security of the United States.

(9) The capability of members of the Armed Forces to defend against chemical weapons and agents depends upon maintaining a fully operating facility for conducting combat training with live chemical agents located in the Western Hemisphere including maintaining associated support activities.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the necessity for the Armed Forces to have an effective live chemical agent training facility requires that the Chemical Decontamination Training Facility and the Army Chemical School be continued in operation at Fort McClellan, Alabama, unless a new facility for conducting combat training with live chemical agents is constructed.

SEC. 1075. POLICY REGARDING CONTRACTING WITH FOREIGN FIRMS THAT PARTICIPATE IN THE SECONDARY ARAB BOYCOTT.

(a) RESTATEMENT OF POLICY REGARDING TRADE BOYCOTTS.—As stated in section 3(5)(A) of the Export Administration Act of 1979 (50 U.S.C. App. 2402(5)(A)), it is the policy of the United States to oppose restrictive trade practices or boycotts fostered or imposed by foreign countries against other countries friendly to the United States or against any other United States person.

(b) SENSE OF CONGRESS.—Consistent with the policy referred to in subsection (a), it is the sense of Congress that—

(1) no Department of Defense prime contract should be awarded to a foreign person unless that person certifies to the Secretary of Defense that it does not comply with the secondary Arab boycott of Israel; and

(2) the Secretary of Defense should consider developing a procurement policy to implement the policy expressed in paragraph (1).

SEC. 1076. SENSE OF CONGRESS CONCERNING ISSUANCE OF COMMEMORATIVE CARD FOR OPERATION DESERT STORM SERVICEMEMBERS.

(a) ISSUANCE OF CARD.—It is the sense of Congress that the Secretary of Defense may issue a special commemorative card to each member of the Armed Forces who—

(1) served in the Persian Gulf theater of operations in connection with the Persian Gulf conflict (including service as a member of an air crew over that theater); or

In computing the limitation prescribed in the preceding sentence, there shall be excluded warrant officers described in section 582 of this title.

**“§ 572. Warrant officers: original appointment; service credit**

However, such a person may not be credited with a period of service greater than the period of active service performed in the grade, or pay grade corresponding to the grade, in which so appointed, or in any higher grade or pay grade.

**“§ 573. Convening of selection boards**

“(a)(1) Whenever the Secretary of a military department determines that the needs of the service so require, he shall convene a selection board to recommend for promotion to the next higher warrant officer grade warrant officers on the warrant officer active-

duty list who are in the grade of chief warrant officer, W-2, chief warrant officer, W-3, or chief warrant officer, W-4.

"(2) Warrant officers serving on the warrant officer active duty list in the grade of warrant officer, W-1, shall be promoted to the grade of chief warrant officer, W-2, in accordance with regulations prescribed by the Secretary of the military department concerned. Such regulations shall require that an officer have served not less than 18 months on active duty in the grade of warrant officer, W-1, before promotion to the grade of warrant officer, W-2.

"(b) A selection board shall consist of five or more officers who are on the active-duty list of the same armed force as the warrant officers under consideration by the board. At least five members of a selection board must be serving in a permanent grade above major or lieutenant commander. The Secretary concerned may appoint warrant officers, senior in grade to those under consideration, as additional members of the selection board. If warrant officers are appointed members of the selection board and if competitive categories have been established by the Secretary under section 574(b) of this title, at least one must be appointed from each warrant officer competitive category under consideration by the board, unless there is an insufficient number of warrant officers in the competitive category concerned who are senior in grade to those under consideration and qualified, as determined by the Secretary concerned, to be appointed as additional members of the board.

"(c) The Secretary concerned may convene selection boards to recommend regular warrant officers for continuation on active duty under section 580 of this title and for retirement under section 581 of this title.

"(d) When reserve warrant officers of one of the armed forces are to be considered by a selection board convened under subsection (a), the membership of the board shall, if practicable, include at least one reserve officer of that armed force, with the exact number of reserve officers to be determined by the Secretary concerned.

"(b) The Secretary of each military department may establish competitive categories for promotion. Warrant officers in the same competitive category shall compete among themselves for promotion.

"(c) Before convening a selection board under section 573 of this title, the Secretary concerned shall determine for each grade (or grade and competitive category) to be considered by the board the following:

“(1) The maximum number of warrant officers to be recommended for promotion.

“(2) Warrant officers serving in the same grade shall be carried in the order of their rank in that grade.

“(3) A warrant officer on the warrant officer active-duty list who receives a temporary appointment or a temporary assignment in a grade other than a warrant officer grade or chief warrant officer grade shall retain his position on the warrant officer active duty list while so serving.

“(a) A selection board convened under section 573(a) of this title shall recommend for promotion to the next higher grade those warrant officers considered by the board whom the board, giving due consideration to the needs of the armed force concerned for warrant officers with particular skills, considers best qualified for promotion within each grade (or grade and competitive category) considered by the board.

“(b)(1) In the case of a selection board to consider warrant officers for selection for promotion to the grade of chief warrant officer, W-4, or chief warrant officer, W-5, the Secretary concerned shall establish the number of warrant officers that the selection board may recommend from among warrant officers being considered from below the promotion zone within each grade (or grade and competitive category). The number of warrant officers recommended for promotion from below the promotion zone does not increase the maximum number of warrant officers which the board is authorized under section 574 of this title to recommend for promotion.

“(2) The number of officers recommended for promotion from below the promotion zone may not exceed 10 percent of the total number recommended, except that the Secretary of Defense may authorize such percentage to be increased to not more than 15 percent.

“(c) A selection board convened under section 573(a) of this title may not recommend a warrant officer for promotion unless—

“(1) the officer receives the recommendation of a majority of the members of the board; and

“(2) a majority of the members of the board find that the officer is fully qualified for promotion.

“(d) Each time a selection board is convened under section 573(a) of this title to consider warrant officers in a competitive category for promotion to the next higher grade, each warrant officer in the promotion zone, and each warrant officer above the promotion zone, for the grade and competitive category under consideration shall be considered for promotion.

**“§ 576. Information to be furnished to selection boards; selection procedures**

“(a) The Secretary of the military department concerned shall furnish to each selection board convened under section 573 of this title the following:

“(1) The maximum number of warrant officers that may be recommended for promotion from those serving in any grade (or grade and competitive category) to be considered, as determined in accordance with section 574 of this title.

“(2) The names and pertinent records of all officers in each grade (or grade and competitive category) to be considered.

“(3) Such information or guidelines relating to the needs of the armed force concerned for warrant officers having particular skills, including guidelines or information relating to the need for either a minimum number or a maximum number of officers with particular skills within a grade or competitive category, as the Secretary concerned determines to be relevant in relation to the requirements of that armed force.

“(b) From each promotion zone for a grade (or grade and competitive category), the selection board shall recommend for promotion to the next higher warrant officer grade those warrant officers whom it considers best qualified for promotion, but no more than the number specified by the Secretary concerned.

“(c) The names of warrant officers selected for promotion under this section shall be arranged in the board’s report in order of the seniority on the warrant officer active-duty list.

Regulations.

“(d) Under such regulations as the Secretary concerned may prescribe, the selection board shall report the names of those warrant officers considered by it whose records establish, in its opinion, their unfitness or unsatisfactory performance. A regular warrant officer whose name is so reported shall be considered, under regulations provided by the Secretary concerned, for retirement or separation under section 1166 of this title.

Reports.

“(e) The report of the selection board shall be submitted to the Secretary of the military department concerned. The Secretary may approve or disapprove all or part of the report.

“(f)(1) Upon receipt of the report of a selection board submitted to him under subsection (e), the Secretary concerned shall review the report to determine whether the board has acted contrary to law or regulation or to guidelines furnished the board under this section. Following such review, unless the Secretary concerned makes a determination as described in paragraph (2), the Secretary shall submit the report as required by subsection (e).

“(2) If, on the basis of a review of the report under paragraph (1), the Secretary of the military department concerned determines that the board acted contrary to law or regulation or to guidelines furnished the board under this section, the Secretary shall return the report, together with a written explanation of the basis for such determination, to the board for further proceedings. Upon receipt of a report returned by the Secretary concerned under this paragraph, the selection board (or a subsequent selection board convened under section 573 of this title for the same grade and competitive category) shall conduct such proceedings as may be necessary in order to revise the report to be consistent with law, regulation, and such guidelines and shall resubmit the report, as revised, to the Secretary in accordance with subsection (e).

**“§ 577. Promotions: effect of failure of selection for**

“A warrant officer who has been considered for promotion by a selection board convened under section 573 of this title, but not selected, shall be considered for promotion by each subsequent selection board that considers officers in his grade (or grade and competitive category) until he is retired or separated or he is selected for promotion. However, the Secretary concerned may, by regulation, preclude from consideration by a selection board by which he would otherwise be eligible to be considered, a warrant officer who has an established separation date that is within 90 days after the date on which the board is convened.

**“§ 578. Promotions; how made; effective date**

“(a) When the report of a selection board convened under this chapter is approved by the Secretary concerned, the Secretary shall place the names of the warrant officers approved for promotion on a single promotion list for each grade (or grade and competitive category), in the order of the seniority of such officers on the warrant officer active-duty list.

“(b) Promotions of warrant officers on the warrant officer promotion list shall be made when, in accordance with regulations issued by the Secretary concerned, additional warrant officers in that grade (or grade and competitive category), are needed.

“(c) A regular warrant officer who is promoted is appointed in the regular grade to which promoted, and a reserve warrant officer who is promoted is appointed in the reserve grade to which promoted. The date of appointment in that grade and date of rank shall be prescribed by the Secretary concerned. A warrant officer is entitled to the pay and allowances for the grade to which appointed from the date specified in the appointment order.

“(d) Promotions shall be made in the order in which the names of warrant officers appear on the promotion list and after warrant officers previously selected for promotion in the applicable grade (or grade and competitive category) have been promoted.

**“§ 579. Removal from a promotion list**

“(a) The name of a warrant officer recommended for promotion by a selection board convened under this chapter may be removed from the report of the selection board by the President.

“(b) The Secretary concerned may remove the name of a warrant officer who is on a promotion list as a result of being recommended for promotion by a selection board convened under this chapter at any time before the promotion is effective.

“(c) An officer whose name is removed from the list of officers recommended for promotion by a selection board continues to be eligible for consideration for promotion.

“(d) If the next selection board that considers the warrant officer for promotion under this chapter selects the warrant officer for promotion and the warrant officer is promoted, the Secretary concerned may, upon his promotion, grant him the same effective date for pay and allowances and the same date of rank, and the same position on the warrant officer active-duty list as the warrant officer would have had if his name had not been so removed.

“(e) If the next selection board does not select the warrant officer for promotion, or if his name is again removed under subsection (a) from the list of officers recommended for promotion by the selection

board or under subsection (b) from the warrant officer promotion list, he shall be treated for all purposes as if he has twice failed of selection for promotion.

**“§ 580. Regular warrant officers twice failing of selection for promotion: involuntary retirement or separation**

“(a)(1) Unless retired or separated sooner under some other provision of law, a regular chief warrant officer who has twice failed of selection for promotion to the next higher regular warrant officer grade shall be retired under paragraph (2) or (3) or separated from active duty under paragraph (4).

“(2) If a warrant officer described in paragraph (1) has more than 20 years of creditable active service on (A) the date on which the Secretary concerned approves the report of the board under section 576(e) of this title, or (B) the date on which his name was removed from the recommended list under section 579 of this title, whichever applies, the warrant officer shall be retired. The date of such retirement shall be not later than the first day of the seventh calendar month beginning after the applicable date under the preceding sentence, except as provided by section 8301 of title 5. A warrant officer retired under this paragraph shall receive retired pay computed under section 1401 of this title.

“(3) If a warrant officer described in paragraph (1) has at least 18 but not more than 20 years of creditable active service on (A) the date on which the Secretary concerned approves the report of the board under section 576(e) of this title, or (B) the date on which his name was removed from the recommended list under section 579 of this title, whichever applies, the warrant officer shall be retired not later than the date determined under the next sentence unless he is selected for promotion to the next higher regular warrant officer grade before that date. The date of the retirement of a warrant officer under the preceding sentence shall be on a date specified by the Secretary concerned, but not later than the first day of the seventh calendar month beginning after the date upon which he completes 20 years of active service, except as provided by section 8301 of title 5. A warrant officer retired under this paragraph shall receive retired pay computed under section 1401 of this title.

“(4)(A) If a warrant officer described in paragraph (1) has less than 18 years of creditable active service on (i) the date on which the Secretary concerned approves the report of the board under section 576(e) of this title, or (ii) the date on which his name was removed from the recommended list under section 579 of this title, whichever applies, the warrant officer shall be separated. The date of such separation shall be not later than the first day of the seventh calendar month beginning after the applicable date under the preceding sentence.

“(B) A warrant officer separated under this paragraph shall receive separation pay computed under section 1174 of this title except in a case in which—

“(6) In this subsection, the term ‘creditable active service’ means active service that could be credited to a warrant officer under section 511 of the Career Compensation Act of 1949, as amended (70 Stat. 114).

“(b) The Secretary concerned may defer, for not more than four months, the retirement or separation under this section of a warrant officer if, because of unavoidable circumstances, evaluation of his physical condition and determination of his entitlement to retirement or separation for physical disability require hospitalization or medical observation that cannot be completed before the date on which he would otherwise be required to retire or be separated under this section.

“(c) The Secretary concerned may defer, until such date as he prescribes, the retirement under subsection (a) of a warrant officer who is serving on active duty in a grade above chief warrant officer, W-5, and who elects to continue to so serve.

“(d) If a warrant officer who also holds a grade above chief warrant officer, W-5, is retired or separated under subsection (a), his commission in the higher grade shall be terminated on the date on which he is so retired or separated.

“(e)(1) A regular warrant officer subject to discharge or retirement under this section may, subject to the needs of the service, be continued on active duty if he is selected for continuation on active duty by a selection board convened under section 573(c) of this title.

“(2) A warrant officer who is selected for continuation on active duty under this subsection but declines to continue on active duty shall be discharged, retired, or retained on active duty, as appropriate, in accordance with this section.

“(3) Each warrant officer who is continued on active duty under this subsection, not subsequently promoted or continued on active duty, and not on a list of warrant officers recommended for continuation or for promotion to the next higher regular grade shall, unless sooner retired or discharged under another provision of law—

“(A) be discharged upon the expiration of his period of continued service; or

“(B) if he is eligible for retirement under any provision of law, be retired under that law on the first day of the first month following the month in which he completes his period of continued service.

Notwithstanding subparagraph (A), a warrant officer who would otherwise be discharged under such subparagraph and who is within two years of qualifying for retirement under section 1293 of this title shall, unless he is sooner retired or discharged under some other provision of law, be retained on active duty until he is qualified for retirement under that section and then be retired.

“(4) The retirement or discharge of a warrant officer pursuant to this subsection shall be considered to be an involuntary retirement or discharge for purposes of any other provision of law.

“(5) Continuation of a warrant officer on active duty under this subsection pursuant to the action of a selection board convened under section 573(c) of this title is subject to the approval of the Secretary concerned.

“(6) The Secretary of Defense shall prescribe regulations for the administration of this subsection. Regulations.

“(c) The retirement of a warrant officer pursuant to this section shall be considered to be an involuntary retirement for purposes of any other provision of law.

Regulations.

“(d)(1) The Secretary concerned shall prescribe regulations for the administration of this section. Such regulations shall require that when the Secretary concerned submits a list of regular warrant officers to a selection board convened under section 573(c) of this title to consider regular warrant officers for selection for retirement under this section, the list shall include each warrant officer on the active-duty list in the same grade or same grade and competitive category whose position on the active-duty list is between that of the most junior regular warrant officer in that grade whose name is submitted to the board and that of the most senior regular warrant officer in that grade whose name is submitted to the board.

“(2) Such regulations shall establish procedures to exclude from consideration by the Board any warrant officer who has been approved for voluntary retirement, or who is to be mandatorily retired under any other provision of law, during the fiscal year in which the Board is convened or during the following fiscal year. An officer not considered by a selection board convened under section 573(c) of this title under such regulations because the officer has been approved for voluntary retirement shall be retired on the date approved for the retirement of such officer as of the convening date of such selection board unless the Secretary concerned approves a modification of such date in order to prevent a personal hardship for the officer or for other humanitarian reasons.

(6) the Panama Canal is vulnerable to disruption and closure by unforeseen events in Panama, by terrorist attack, and by air strikes or other attack by foreign powers;

(7) the United States fleet depends upon the Panama Canal for rapid transit ocean to ocean in times of emergency, as demonstrated during World War II, the Korean Conflict, the Vietnam Conflict, the Cuban Missile Crisis, and the Persian Gulf Conflict, thereby saving 13,000 miles and three weeks steaming effort around Cape Horn;

(8) the presence of the United States Armed Forces offers a viable defense against sabotage or other threat to the Panama Canal; and

(9) the 10,000 United States military personnel now based in Panama, including the headquarters of the United States Southern Command, cannot remain there beyond December 31, 1999, without a new agreement with Panama.

(1) should begin negotiations with the Government of

Panama, at a mutually acceptable time, to consider whether the two Governments should allow the permanent stationing of United States military forces in Panama beyond December 31, 1999; and

(2) should consult with the Congress throughout those negotiations.

Public Law 102-194  
102d Congress

An Act

Dec. 9, 1991  
[S. 272]

To provide for a coordinated Federal program to ensure continued United States leadership in high-performance computing.

High-  
Performance  
Computing Act  
of 1991.  
15 USC 5501  
note.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. SHORT TITLE.**

This Act may be cited as the "High-Performance Computing Act of 1991".

15 USC 5501.

**SEC. 2. FINDINGS.**

The Congress finds the following:

(1) Advances in computer science and technology are vital to the Nation's prosperity, national and economic security, industrial production, engineering, and scientific advancement.

(2) The United States currently leads the world in the development and use of high-performance computing for national security, industrial productivity, science, and engineering, but that lead is being challenged by foreign competitors.

(3) Further research and development, expanded educational programs, improved computer research networks, and more effective technology transfer from government to industry are necessary for the United States to reap fully the benefits of high-performance computing.

(4) A high-capacity and high-speed national research and education computer network would provide researchers and educators with access to computer and information resources and act as a test bed for further research and development of high-capacity and high-speed computer networks.

(5) Several Federal agencies have ongoing high-performance computing programs, but improved long-term interagency coordination, cooperation, and planning would enhance the effectiveness of these programs.

(6) A 1991 report entitled "Grand Challenges: High-Performance Computing and Communications" by the Office of Science and Technology Policy, outlining a research and development strategy for high-performance computing, provides a framework for a multiagency high-performance computing program. Such a program would provide American researchers and educators with the computer and information resources they need, and demonstrate how advanced computers, high-capacity and high-speed networks, and electronic data bases can improve the national information infrastructure for use by all Americans.

15 USC 5502.

**SEC. 3. PURPOSE.**

The purpose of this Act is to help ensure the continued leadership of the United States in high-performance computing and its applications by—

(1) expanding Federal support for research, development, and application of high-performance computing in order to—

(A) establish a high-capacity and high-speed National Research and Education Network;

(B) expand the number of researchers, educators, and students with training in high-performance computing and access to high-performance computing resources;

(C) promote the further development of an information infrastructure of data bases, services, access mechanisms, and research facilities available for use through the Network;

(D) stimulate research on software technology;

(E) promote the more rapid development and wider distribution of computing software tools and applications software;

(F) accelerate the development of computing systems and subsystems;

(G) provide for the application of high-performance computing to Grand Challenges;

(H) invest in basic research and education, and promote the inclusion of high-performance computing into educational institutions at all levels; and

(I) promote greater collaboration among government, Federal laboratories, industry, high-performance computing centers, and universities; and

42 USC 2451  
note.

SEC. 2. FINDINGS.

Congress finds that—

(1) the report of the Advisory Committee on the Future of the United States Space Program has provided a framework within which a consensus on the goals of the space program can be developed;

(2) a balanced civil space science program should be funded at a level of at least 20 percent of the aggregate amount in the budget of the National Aeronautics and Space Administration for "Research and development" and "Space flight, control, and data communications";

(3) development of an adequate data base for life sciences in space will be greatly enhanced through closer scientific cooperation with the Soviet Union, including active use of manned Soviet space stations;

(4) the space program can make substantial contributions to health-related research and should be an integral part of the Nation's health research and development program;

(5) Landsat data and the continuation of the Landsat system beyond Landsat 6 are essential to the Mission to Planet Earth and other long-term environmental research programs;

(6) increased use of defense-related remote sensing data and data technology by civilian agencies and the scientific community can benefit national environmental study and monitoring programs;

(7) the generation of trained scientists and engineers through educational initiatives and academic research programs outside of the National Aeronautics and Space Administration is essential to the future of the United States civil space program;

(8) the strengthening and expansion of the Nation's space transportation infrastructure, including the enhancement of launch sites and launch site support facilities, are essential to support the full range of the Nation's space-related activities;

(9) the aeronautical program contributes to the Nation's technological competitive advantage, and it has been a key factor in maintaining preeminence in aviation over many decades; and

(10) the National Aero Space Plane program can have benefits to the military and civilian aviation programs from the new and innovative technologies developed in propulsion systems, aerodynamics, and control systems that could be enormous, especially for high-speed aeronautical and space flight.

42 USC 2451  
note.

### SEC. 3. POLICY.

It is the policy of the United States that—

**SEC. 21. DRUG AND ALCOHOL TESTING.**

(a) **SHORT TITLE.**—This section may be cited as the “Civil Space Employee Testing Act of 1991”.

(b) **FINDINGS.**—The Congress finds that—

(1) alcohol abuse and illegal drug use pose significant dangers to the safety and welfare of the Nation;

(2) the success of the United States civil space program is contingent upon the safe and successful development and deployment of the many varied components of that program;

(3) the greatest efforts must be expended to eliminate the abuse of alcohol and use of illegal drugs, whether on duty or off duty, by those individuals who are involved in the positions affecting safety, security, and national security;

(4) the use of alcohol and illegal drugs has been demonstrated to adversely affect the performance of individuals, and has been proven to have been a critical factor in accidents in the workplace;

(5) the testing of uniformed personnel of the Armed Forces has shown that the most effective deterrent to abuse of alcohol and use of illegal drugs is increased testing, including random testing;

(6) adequate safeguards can be implemented to ensure that testing for abuse of alcohol or use of illegal drugs is performed in a manner which protects an individual's right of privacy, ensures that no individual is harassed by being treated differently from other individuals, and ensures that no individual's reputation or career development is unduly threatened or harmed; and

(7) rehabilitation is a critical component of any testing program for abuse of alcohol or use of illegal drugs, and should be made available to individuals, as appropriate.

(c) **TESTING PROGRAM.**—(1) The Administrator shall establish a program applicable to employees of the National Aeronautics and Space Administration whose duties include responsibility for safety-sensitive, security, or national security functions. Such program shall provide for preemployment, reasonable suspicion, random, and post-accident testing for use, in violation of applicable law or Federal regulation, of alcohol or a controlled substance. The Administrator may also prescribe regulations, as the Administrator considers appropriate in the interest of safety, security, and national security, for the conduct of periodic recurring testing of such employees for such use in violation of applicable law or Federal regulation.

Regulations.

(2) The Administrator shall, in the interest of safety, security, and national security, prescribe regulations within 18 months after the date of enactment of this Act. Such regulations shall establish a program which requires National Aeronautics and Space Administration contractors to conduct preemployment, reasonable suspicion, random, and post-accident testing of contractor employees responsible for safety-sensitive, security, or national security functions (as determined by the Administrator) for use, in violation of applicable law or Federal regulation, of alcohol or a controlled substance. The Administrator may also prescribe regulations, as the Administrator considers appropriate in the interest of safety, security, and national security, for the conduct of periodic recurring testing of such

employees for such use in violation of applicable law or Federal regulation.

(3) In prescribing regulations under the programs required by this subsection, the Administrator shall require, as the Administrator considers appropriate, the suspension, disqualification, or dismissal of any employee to which paragraph (1) or (2) applies, in accordance with the provisions of this section, in any instance where a test conducted and confirmed under this section indicates that such employee has used, in violation of applicable law or Federal regulation, alcohol or a controlled substance.

Dec. 10, 1991

Whereas on December 13, 1791, L'Enfant's grand plan for the development of the Nation's Capital, which included magnificent vistas, radiating avenues, beautiful parks and promenades, cascading fountains, and public spaces for national monuments, and which reflected the patriotic enthusiasm that the Federal city forever serve as a temple to liberty, was submitted to the Congress;

Whereas on December 19, 1791, the State of Maryland forever ceded and relinquished to the Congress and the Government of the United States the final land grant to form the new district;

Whereas the creation of the District of Columbia was an important act of self-government by the first Federal Congress designed to strengthen and preserve the political institutions of a free people, and the District itself is a time-honored symbol of the Republic;

102d Congress

An Act

To establish the Silvio O. Conte National Fish and Wildlife Refuge along the Connecticut River, and for other purposes.

Dec. 11, 1991

[H.R. 794]

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**TITLE I—SILVIO O. CONTE NATIONAL FISH AND WILDLIFE REFUGE ACT**

Silvio O. Conte National Fish and Wildlife Refuge Act.  
16 USC 668dd note.

**SECTION 101. SHORT TITLE.**

This title may be cited as the "Silvio O. Conte National Fish and Wildlife Refuge Act".

**SEC. 102. FINDINGS.**

The Congress finds and declares the following:

(1) The late Silvio Conte was a long-time champion of the preservation of natural resources, including the Connecticut River, shepherding through Congress legislation meant to restore the river and its wildlife to health.

(2) The Connecticut River and its riparian lands are unique environmental resources which provide habitat for significant anadromous, migratory, and resident fish; migratory waterfowl; and other wildlife species, including such threatened or endangered species as the shortnosed sturgeon and bald eagle.

(3) Federal, State, and local governments have spent over \$600,000,000 to clean up the Connecticut River and improve the quality of its fish and wildlife habitat, resulting in the reestablishment or improvement of the populations of many species such as the Atlantic salmon, American shad, bald eagle, and peregrine falcon.

(4) The Connecticut River valley is home to over two million people, and accordingly the river and riparian lands are of great value for environmental education and natural resource based recreation.

(5) The Connecticut River valley is threatened with spoilation, removal from public access, and ecological downgrading and is a significant source of energy and means of commerce for New England.

(6) Despoiling the Connecticut River and its riparian lands will result in the permanent loss of unique social, educational, and environmental assets and will devalue the significant Federal, State and local investments made to clean up the river.

**SEC. 103. DEFINITIONS.**

For the purposes of this Act—

(1) the term "affected States" means the Commonwealth of Massachusetts, and the States of Vermont, New Hampshire, and Connecticut;

(2) the term "refuge" means the Silvio Conte National Fish and Wildlife Refuge established under section 106 of this Act;

(3) the term "Secretary" means the Secretary of the Interior, acting through the Director of the United States Fish and Wildlife Service; and

(4) the term "selection area" means the lands and waters of the Connecticut River basin, including the main stem of the river and its tributaries from its source at Fourth Connecticut Lake to Long Island Sound.

#### SEC. 104. PURPOSES.

The purposes for which the refuge is established are—

(1) to conserve, protect, and enhance the Connecticut River valley populations of Atlantic salmon, American shad, river herring, shortnosed sturgeon, bald eagles, peregrine falcons, osprey, black ducks, and other native species of plants, fish, and wildlife;

(2) to conserve, protect, and enhance the natural diversity and abundance of plant, fish, and wildlife species and the ecosystems upon which these species depend within the refuge;

(3) to protect species listed as endangered or threatened, or identified as candidates for listing, pursuant to the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.);

(4) to restore and maintain the chemical, physical, and biological integrity of wetlands and other waters within the refuge;

(5) to fulfill the international treaty obligations of the United States relating to fish and wildlife and wetlands; and

(6) to provide opportunities for scientific research, environmental education, and fish and wildlife-oriented recreation and access to the extent compatible with the other purposes stated in this section.

#### SEC. 105. SELECTION OF LANDS.

Within three years after the date of the enactment of this Act, the Secretary shall—

(1) consult with appropriate State and local officials, including those representing State government natural heritage inventory agencies, the Long Island Sound Management Conference as established under the National Estuary Program, private conservation organizations, and other interested parties in designating the refuge boundaries;

(2) define and designate the refuge boundaries, including all subunits, within the selection area that would fulfill the purposes set forth in section 104 of this Act; and

"(B) In carrying out the study, the Secretary of the Interior shall prepare a map of the White Clay Creek watershed in Delaware and Pennsylvania, and shall develop a recommended management plan for the White Clay Creek. The plan shall provide recommendations

as to the protection and management of the White Clay Creek, including the role the State and local governments, and affected landowners, should play in the management of the White Clay Creek if it is designated as a component of the National Wild and Scenic Rivers System.

“(C) The Secretary shall prepare the study, including the recommended management plan, in cooperation and consultation with appropriate State and local governments, and affected landowners.”.

Joint Resolution

Dec. 11, 1991  
[S.J. Res. 198]

To recognize contributions Federal civilian employees provided during the attack on Pearl Harbor and during World War II.

Whereas on Sunday morning, December 7, 1941, at 7:55 a.m., the first wave of dive and high level bombers from the Imperial Japanese Combined Fleet attacked Hickam and Wheeler Airfields in the United States territory of Hawaii;

Whereas the first bombs fell on Ford Island at Pearl Harbor; Whereas American fighter planes were strafed and destroyed on the ground at Pearl Harbor, Hickam Airfield, Kaneohe Naval Air Station, Bellows Airfield, Ewa Marine Corps Air Station, Schofield Barracks, and Wheeler Airfield;

Whereas the United States Pacific Fleet was devastated, but its carriers were still afloat, and Pearl Harbor's shipyards, fuel storage area, and submarine base remarkably suffered very little damage;

Whereas Federal civilian employees responded magnificently that fateful morning and met their country's call to duty with distinction and valor;

An Act

Dec. 11, 1991  
[H.R. 3881]

To expand the boundaries of Stones River National Battlefield, Tennessee, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. STONES RIVER NATIONAL BATTLEFIELD BOUNDARY CHANGE.

The Act entitled "An Act to amend the boundaries of Stones River National Battlefield, Tennessee, and for other purposes", approved December 23, 1987 (101 Stat. 1433), is amended as follows:

16 USC 426n.

(1) In the first sentence of section 1(a) strike "numbered 327/80,001, and dated March 1987" and insert "numbered 327/80,004B, and dated November 1991".

(2) In section 1(b), insert "(1)" after "LANDS.—", and add at the end thereof the following:

"(2)(A) Before acquiring any lands under this Act where the surface of such lands has been substantially disturbed or which are believed by the Secretary to contain hazardous substances, the Secretary shall prepare a report on the potential hazardous substances associated with such lands and the estimated cost of restoring such lands, together with a plan of the remedial measures necessary to allow acquisition of such lands to proceed in a timely manner, consistent with the requirements of subparagraph (B). The Secretary shall submit such report to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Interior and Insular Affairs of the United States House of Representatives.

"(B) The Secretary shall not acquire any lands under this Act if the Secretary determines that such lands, or any portion thereof, have become contaminated with hazardous substances (as defined in the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9601)).

"(3)(A) Except for property which the Secretary determines to be necessary for the purposes of administration, development, access, or public use, an owner of improved property which is used solely for noncommercial residential purposes on the date of its acquisition by the Secretary may retain, as a condition of such acquisition, a right of use and occupancy of the property for such residential purposes. The right retained may be for a definite term which shall not exceed 25 years or, in lieu thereof, for a term ending at the death of the owner or the death of the spouse, whichever is later. The owner shall elect the term to be retained. The Secretary shall pay the owner the fair market value of the property on the date of such acquisition, less the fair market value of the term retained by the owner.

"(B) Any right of use and occupancy retained pursuant to this section may, during its existence, be conveyed or transferred, but all rights of use and occupancy shall be subject to such terms and conditions as the Secretary deems appropriate to assure the use of

the property in accordance with the purposes of this Act. Upon his determination that the property, or any portion thereof, has ceased to be so used in accordance with such terms and conditions, the Secretary may terminate the right of use and occupancy by tendering to the holder of such right an amount equal to the fair market value, as of the date of the tender, of that portion of the right which remains unexpired on the date of termination.

“(C) This paragraph applies only to owners who have reached the age of majority.

“(D) As used in this paragraph, the term ‘improved property’ means a detached, year-round noncommercial residential dwelling, the construction of which was begun before the date of enactment of this paragraph, together with so much of the land on which the dwelling is situated, such land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures accessory to the dwelling which are situated on the land so designated.”.

(3) Section 2 is amended to read as follows:

“SEC. 2. AGREEMENT.

16 USC 426o.

“The Secretary is authorized to enter into an agreement with the city of Murfreesboro, Tennessee, containing each of the following provisions—

“(1) If the city agrees to acquire sufficient interest in land to construct a trail linking the battlefield with Fortress Rosecrans, to construct such trail, and to operate and maintain the trail in accordance with standards approved by the Secretary, the Secretary shall (A) transfer to the city the funds available to the Secretary for the acquisition of such lands and for the construction of the trail, and (B) provide technical assistance to the city and to Rutherford County for the purpose of development and planning of the trail.

“(2) The Secretary shall agree to accept the transfer by donation from the city of the remnants of Fortress Rosecrans at Old Fort Park, and following such transfer, to preserve and interpret the fortress as part of the battlefield.

“(3) In administering the Fortress Rosecrans, the Secretary is authorized to enter a cooperative agreement with the city of Murfreesboro, Tennessee, for the rendering, on a nonreimbursable basis, of rescue, firefighting, and law enforcement services and cooperative assistance by nearby law enforcement and fire preventive agencies.”.

(4) Redesignate section 3 as section 4, and insert the following new section after section 2:

16 USC 426p.

“SEC. 3. PLANNING.

16 USC 426o-1.

“(a) PREPARATION OF PLAN FOR REDOUBT BRANNAN.—The Secretary shall, on or before February 1, 1992, prepare a plan for the preservation and interpretation of Redoubt Brannan.

“(b) UPDATE OF GENERAL MANAGEMENT PLAN.—The Secretary shall, on or before March 31, 1993, update the General Management Plan for the Stones River National Battlefield.

“(c) TECHNICAL ASSISTANCE.—The Secretary is authorized to provide technical assistance to the city and to Rutherford County in the development of zoning ordinances and other land use controls that

would help preserve historically significant areas adjacent to the battlefield.

“(d) **MINOR BOUNDARY REVISIONS.**—If the planning activities conducted under subsections (a) and (b) of this section show a need for minor revisions of the boundaries indicated on the map referred to in section 1 of this Act, the Secretary may, following timely notice in writing to the Committee on Interior and Insular Affairs of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate of his intention to do so and providing an opportunity for public comment, make such minor revisions by publication of a revised boundary map or other description in the Federal Register.”.

## TITLE III—EMERGENCY AIRLIFT AND OTHER SUPPORT

### SEC. 301. AUTHORITY TO TRANSFER CERTAIN FUNDS TO PROVIDE EMERGENCY AIRLIFT AND OTHER SUPPORT.

#### (a) FINDINGS.—The Congress finds—

- (1) that political and economic conditions within the Soviet Union and its republics are unstable and are likely to remain so for the foreseeable future;
- (2) that these conditions could lead to the return of antidemocratic forces in the Soviet Union;
- (3) that one of the most effective means of preventing such a situation is likely to be the immediate provision of humanitarian assistance; and
- (4) that should this need arise, the United States should have funds readily available to provide for the transport of such assistance to the Soviet Union, its republics, and any successor entities.

#### (b) AUTHORITY TO TRANSFER CERTAIN FUNDS.—

- (1) **IN GENERAL.**—Notwithstanding any other provision of law, the Secretary of Defense, at the direction of the President, may during fiscal year 1992, to the extent provided in an appropriations Act or joint resolution, transfer to the appropriate defense accounts sufficient funds, not to exceed \$100,000,000, from funds described in paragraph (3) in order to transport, by military or commercial means, food, medical supplies, and other types of

humanitarian assistance to the Soviet Union, its republics, or any successor entities—with the consent of the relevant republic government or independent successor entity—in order to address emergency conditions which may arise in such republic or successor entity, as determined by the President. As used in this subsection, the term “humanitarian assistance” does not include construction equipment, including tractors, scrapers, loaders, graders, bulldozers, dumptrucks, generators, and compressors.

(2) **REPORTS BY THE SECRETARY OF STATE.**—The Secretary of State shall promptly report to the President regarding any emergency conditions which may require such humanitarian assistance. The Secretary’s report shall include an estimate of the extent of need for such assistance, discuss whether the consent of the relevant republic government or independent successor entity has been given for the delivery of such assistance, describe steps other nations and organizations are prepared to take in response to an emergency, and discuss the foreign policy implications, if any, of providing such assistance.

(3) **SOURCE OF FUNDS.**—Any funds which are transferred pursuant to this subsection shall be drawn from amounts appropriated to the Department of Defense for fiscal year 1992 or from balances in working capital accounts established under section 2208 of title 10, United States Code.

(4) **EMERGENCY REQUIREMENTS.**—The Congress designates all funds transferred pursuant to this section as “emergency requirements” for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985. Notwithstanding any other provision of law, funds shall be available for transfer pursuant to this section only if, not later than the date of enactment of the appropriations Act or joint resolution that makes funds available for transfer pursuant to this section, the President, in a single designation, designates the entire amount of funds made available for such transfer by that appropriations Act or joint resolution to be “emergency requirements” for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985.

(c) **REPAYMENT ARRANGEMENTS.**—

(1) **REIMBURSEMENT ARRANGEMENTS.**—Assistance provided under subsection (b) to the Soviet Union, any of its republics, or any successor entity shall be conditioned, to the extent that the President determines to be appropriate after consultation with the recipient government, upon the agreement of the recipient government to reimburse the United States Government for the cost of such assistance from natural resources or other materials available to the recipient government.

(2) **NATURAL RESOURCES, ETC.**—The President shall encourage the satisfaction of such reimbursement arrangements through the provision of natural resources, such as oil and petroleum products and critical and strategic materials, and industrial goods. Materials received by the United States Government pursuant to this subsection that are suitable for inclusion in the Strategic Petroleum Reserve or the National Defense Stockpile may be deposited in the reserve or stockpile without reimbursement. Other material and services received may be sold or traded on the domestic or international market with the proceeds to be deposited in the General Fund of the Treasury.

(d) **DIRE EMERGENCY SUPPLEMENTAL APPROPRIATIONS.**—It is the sense of the Senate that the committee of conference on House Joint Resolution 157 should consider providing the necessary authority in the conference agreement for the Secretary of Defense to transfer funds pursuant to this title.

**SEC. 302. REPORTING REQUIREMENTS.**

(a) **PRIOR NOTICE.**—Before any funds are transferred for the purposes authorized in section 301(b), the President shall notify the Committees on Armed Services and the Committees on Appropriations of the Senate and the House of Representatives of the account, budget activity, and particular program or programs from which the transfer is planned to be made and the amount of the transfer.

(b) **REPORTS TO THE CONGRESS.**—Within ten days after directing the Secretary of Defense to transfer funds pursuant to section 301(b), the President shall provide a report to the Committees on Armed Services of the Senate and House of Representatives, the Committees on Appropriations of the Senate and House of Representatives, and the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives. In view of the occurrence of recent natural disasters—similar to the volcano eruption of 1980, the earthquake of 1989, and the hurricane of 1989—droughts, floods, freezes, tornadoes, and other catastrophes which resulted in billions of dollars in damages, and in an effort to restore the economy and to alleviate the effects of the disasters, an additional \$1,750,000,000, to remain available until expended, is hereby made available for losses associated with 1990 crops as authorized by Public Law 101-624, and for losses associated with 1991 and 1992 crops under the same terms and conditions: *Provided*, That \$995,000,000 of this amount is available for payments to producers for losses on either 1990 or 1991 crops, at the producer's option: *Provided further*, That the remaining \$755,000,000 shall be available only to the extent an official budget request, for a specific dollar amount, that includes designation of the entire amount of the request as an emergency requirement as defined in the Balanced Budget and Emergency Deficit Control Act of 1985, is transmitted to the Congress: *Provided further*, That this \$755,000,000 shall be available for crop losses for one of the years 1990, 1991 or 1992, at the producer's option, but shall not be for a year for which disaster payments were previously provided to the producer: *Provided further*, That \$100,000,000 of the \$755,000,000 is set aside for program crops planted in 1991 for harvest in 1992: *Provided further*, That, consistent with the amounts made available above, emergency loans made with respect to damage to an annual crop planted for harvest in 1991 under subtitle C of the Consolidated Farm and Rural Development Act shall be made available without regard to the purchase of crop insurance under the Federal Crop Insurance Act by the producer who requests such a loan.

## TITLE II—GENERAL PROVISIONS

SEC. 200. FINDING OF DIRE EMERGENCY CONDITIONS.—The Congress finds that—

(a) the President has designated and requested the Congress to designate over \$1,140,000,000 in 1991 international assistance funds to meet emergency needs in foreign lands;

(b) natural disasters (including floods, droughts, tornadoes, hurricanes, earthquakes, freezes, and typhoons) have occurred in the United States and its territories causing loss of life, human suffering, loss of income, and property loss or damage with dire emergency financial situations;

(c) since October 1990, there have been 44 presidentially-declared disasters and 89 disasters declared by the Secretary of Agriculture affecting every area of the Nation in almost every State for which Federal funds are not available to meet emergency needs, resulting in calls for the National Guard and other assistance;

(d) as a consequence of these disasters, millions of acres of land are or were under water, millions of acres of farm land are not able to be planted, and highways, dams, roads, and bridges have not been repaired. Many of the people in communities, counties, States, and many private businesses have been dangerously affected, and the local authorities in many cases are unable to meet the financial costs; and

(e) the combination of the effects of these conditions and the current recession constitutes a dire emergency situation (8,582,000 people are unemployed, total employment has declined by over 1,400,000 jobs in the last year, over 7,500 businesses are failing each month, and foreign purchases of United States land and companies are increasing) which will, if not corrected by increased production, necessitate the need for a Job Creation Bill similar to what was enacted in 1983.

SEC. 201. No part of any appropriation contained in this joint resolution shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

## CONGRESSIONAL DESIGNATION OF EMERGENCY

SEC. 202. Although the President has only designated portions of the funds in this joint resolution pertaining to the incremental costs of Desert Shield/Desert Storm and certain Federal Emergency Management Agency costs as “emergency requirements”, the Congress believes that the same or higher priority should be given to helping American people recover from natural disasters and other emergency situations as has been given to foreign aid “emergency” needs. The Congress therefore designates all funds in Titles I and II of this joint resolution as “emergency requirements” for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985.

## RESTRICTIONS ON ASSISTANCE FOR KENYA

SEC. 203. (a) RESTRICTIONS.—None of the funds appropriated by this joint resolution or any other provision of law under the heading “Economic Support Fund” or “Foreign Military Financing Program” may be made available for Kenya unless the President

determines, and so certifies to the Congress, that the Government of Kenya—

(1) has released all political detainees and has ended the prosecution of individuals for the peaceful expression of their political beliefs;

(2) has ceased the physical abuse or mistreatment of prisoners;

(3) has restored judicial independence;

(4) has taken significant steps toward respecting human rights and fundamental freedoms, including the freedom of thought, conscience, belief, expression, and the freedom to advocate the establishment of political parties and organizations; and

(5) has implemented the principle of freedom of movement, including the right of all citizens of Kenya to leave and return to their country.

(b) PROHIBITION.—

(1) LIMITATION ON NEW PROJECT ASSISTANCE.—During fiscal year 1992, funds appropriated by this or any other Act to carry out the provisions of chapters 1 and 10 of part I of the Foreign Assistance Act of 1961 that are provided for assistance to the Government of Kenya for new projects shall be made available only for new projects—

(A) that promote basic human needs, directly address poverty, enhance employment generation, and address environmental concerns; or

(B) to improve the performance of democratic institutions, or otherwise promote the objectives being sought in the certification required by subsection (a).

(2) CONGRESSIONAL NOTIFICATION.—During fiscal year 1992, none of the funds appropriated by this or any other Act to carry out the provisions of chapters 1 and 10 of the Foreign Assistance Act of 1961 shall be obligated unless the Committees on Appropriations are notified at least 15 days in advance in accordance with the regular notification procedures of those Committees.

(3) APPLICABILITY.—The provisions of paragraphs (1) and (2) of this subsection shall cease to apply 30 days after the certification described in subsection (a) is made to the Congress.

(c) DATE OF AVAILABILITY OF FUNDS.—None of the funds appropriated by this joint resolution or any other provision of law under the heading “Economic Support Fund” or “Foreign Military Financing Program” may be obligated or expended for Kenya until 30 days after the certification described in subsection (a) is made to the Congress.

SEC. 204. SENSE OF THE SENATE REGARDING UNITED STATES RECOGNITION OF UKRAINIAN INDEPENDENCE.

(a) FINDINGS.—The Senate makes the following findings:

(1) On August 24, 1991, the democratically elected Ukrainian parliament declared Ukrainian independence and the creation of an independent, democratic state—Ukraine.

(2) That declaration reflects the desire of the people of Ukraine for freedom and independence following long years of communist oppression, collectivization, and centralization.

(3) On December 1, 1991, a republic-wide referendum will be held in Ukraine to confirm the August 24, 1991, declaration of independence.

(4) Ukraine is pursuing a peaceful and democratic path to independence and has pledged to comply with the Helsinki Final Act and other documents of the Conference on Security and Cooperation in Europe.

(5) Ukraine and Russia signed an agreement on August 29, 1991, recognizing each other's rights to state independence and affirming each other's territorial integrity.

(6) Ukraine, a nation of 52,000,000 people, with its own distinct linguistic, cultural, and religious traditions, is determined to take its place among the family of free and democratic nations of the world.

(7) The Congress has traditionally supported the rights of people to peaceful and democratic self-determination.

(8) As recognized in Article VIII of the Helsinki Final Act of the Conference on Security and Cooperation in Europe, "all peoples always have the right, in full freedom, to determine, when and as they wish, their internal and external political status, without external interference, and to pursue as they wish their political, economic, social and cultural development".

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the President—

(1) should recognize Ukraine's independence and undertake steps toward the establishment of full diplomatic relations with Ukraine should the December 1, 1991, referendum confirm Ukrainian parliament's independence declaration; and

(2) should use United States assistance, trade, and other programs to support the Government of Ukraine and encourage the further development of democracy and a free market in Ukraine.

Such amounts, and the interest accruing thereon, shall be available to the Federal Trustees identified in the Agreement and Consent Decree for necessary expenses for assessment and restoration of areas affected by the discharge of oil from the T/V EXXON VALDEZ on March 23-24, 1989, for fiscal year 1992 and thereafter in accordance with the Plea Agreement and the Agreement and Consent Decree: *Provided*, That such amounts (and

note.

accrued interest) shall remain available until expended: *Provided further*, That such amounts may be transferred to any account, as authorized by section 311(f)(5) of the Federal Water Pollution Control Act (33 U.S.C. 1321(f)(5)), to carry out the provisions of the Plea Agreement and the Agreement and Consent Decree: *Provided further*, That herein and hereafter any amounts deposited into the Natural Resource Damage Assessment and Restoration Fund shall be invested by the Secretary of the Treasury in interest bearing obligations of the United States to the extent such amounts are not, in his judgment, required to meet current withdrawals: *Provided further*, That interest earned by such investments shall be available for obligation without further appropriation: *Provided further*, That, for fiscal year 1992, the Federal Trustees shall provide written notification of the proposed transfer of such amounts to the Appropriations Committees of the House of Representatives and the Senate thirty days prior to the actual transfer of such amounts: *Provided further*, That, for fiscal year 1993 and thereafter, the Federal Trustees shall submit in the President's Budget for each fiscal year the proposed use of such amounts.

Public Law 102-231  
102d Congress

An Act

Dec. 12, 1991  
[H.R. 1476]

To provide for the divestiture of certain properties of the San Carlos Indian Irrigation Project in the State of Arizona, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

San Carlos  
Indian Irrigation  
Project  
Divestiture  
Act of 1991.  
Energy.

SECTION 1. SHORT TITLE.

This Act may be cited as the "San Carlos Indian Irrigation Project Divestiture Act of 1991".

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—The Congress finds the following:

(1) To provide water for irrigating, first, land allotted to Pima Indians on the Gila River Reservation and, second, other lands in public or private ownership which, in the opinion of the Secretary of the Interior, could be served without diminishing the supply necessary for the Indian lands, Congress, by the Act of June 7, 1924, authorized construction of Coolidge Dam and creation of San Carlos Reservoir on the Gila River in Arizona.

(2) The Secretary, through the San Carlos Irrigation Project administered by the Bureau of Indian Affairs, operates Coolidge Dam and approximately one hundred irrigation wells to provide water to SCIP lands on the Gila River Reservation and to the SCIP lands outside the reservation which is within the San Carlos Irrigation and Drainage District.

(3) A hydroelectric power system was developed at Coolidge Dam pursuant to the Act of March 7, 1928, as amended, to generate power incidental to the use of San Carlos Reservoir for storing irrigation water. The system's primary purpose was to provide power for irrigation pumping on SCIP lands and for BIA agency and school purposes and for irrigation pumping by Apache Indians on the San Carlos Reservation.

(4) SCIP's transmission and distribution system, which has been extended to domestic and commercial users on SCIP lands and to other homes and businesses not on SCIP lands, currently provides service within portions of Pinal, Pima, Maricopa, Graham, and Gila Counties covering approximately 3,000 square miles.

(5) Unexpectedly low and erratic Gila River flows into San Carlos Reservoir since 1928 have limited power generation at Coolidge Dam, causing SCIP to secure additional power through contracts with the Western Area Power Administration, the Salt River Project, and Arizona Public Service Company to meet its customers' needs. Since October 1983, when a flood damaged the switchyard at Coolidge Dam, no power has been generated at the dam.

(6) Much of SCIP's power system needs modernization, with some facilities over sixty years old, well past their design life. However, Federal budgetary and administrative policies have

impaired long-range, consistent planning and construction necessary for efficient SCIP operation and maintenance and for timely replacement of obsolete or worn out facilities.

(7) Under current repayment terms, the shared obligation of the San Carlos Irrigation and Drainage District and the Gila River Indian Community to repay the United States for construction of SCIP's hydroelectric power system and certain improvements thereto will not be met until after the year 2010.

(8) The Gila River Indian Community, the San Carlos Apache Indian Tribe, and the San Carlos Irrigation and Drainage District have petitioned the Congress to authorize the Secretary to divest the United States of ownership and responsibility for SCIP's electric power transmission and distribution systems, to settle the outstanding debt owned by the United States in connection with the construction of those systems, to apportion equitably among them SCIP's allocation of Federal power resources, and to take such other actions as necessary to carry out divestiture.

(9) On September 15, 1989, the Gila River Indian Community and the Arizona Public Service Company, and the San Carlos Irrigation and Drainage District, the Arizona Public Service Company, Trico Electric Cooperative, Inc., and Electrical District No. 2 of Pinal County, Arizona, signed Statements of Principles by which divestiture would be implemented between and among them subsequent to enactment of Federal enabling authorities as provided in this Act. The same entities subsequently signed extensions of the Statements of Principles, as amended.

(b) PURPOSE.—The purposes of this Act are—

(1) to authorize the Secretary to divest the United States of ownership of the electric transmission and distribution system of the San Carlos Irrigation Project;

(2) to provide for the settlement of the debt obligations owed to the United States by the Gila River Indian Community and the San Carlos Irrigation and Drainage District in connection with the construction of the electric transmission and distribution system;

(3) to provide for the reallocation of power resources currently allocated to SCIP from Federal hydroelectric power sources;

(4) to provide funds for the disposal of hazardous waste materials associated with those areas and components of the SCIP electric system transferred to the Gila River Indian Community and the San Carlos Apache Tribe and with those areas and components retained by the Secretary;

(5) to facilitate the implementation of divestiture in an orderly and economic manner, consistent with the desire and intent of the parties to the Statements of Principles and with due regard for the rights and interests of current SCIP employees; and

(6) to assist the Gila River Indian Community and the San Carlos Apache Tribe in their efforts to achieve greater self-determination and economic self-sufficiency.

- “(iv) For-profit entities.

“(C) LOWER-INCOME OCCUPANCY REQUIREMENTS.—

“(i) IN GENERAL.—Except as provided in clause (ii), any nonprofit organization, public agency, or for-profit entity that purchases an eligible condominium property shall (I) make the property available for occupancy by and maintain it as affordable for lower-income families for the remaining useful life of the property, or (II) make the property available for purchase by any such family who, except as provided in subparagraph (E), agrees to occupy the property as a principal residence for at least 12 months and who certifies in writing that the family intends to occupy the property for at least 12 months. The restriction described in subclause (I) of the preceding sentence shall be contained in the deed or other recorded instrument.

“(ii) MULTIPLE-UNIT PURCHASES.—If any nonprofit organization, public agency, or for-profit entity purchases more than 1 eligible condominium property as a part of the same negotiation or purchase, the Corporation may (in the discretion of the Corporation) waive the requirement under clause (i) and provide instead that not less than 35 percent of all eligible condominium properties purchased shall be (I) made available for occupancy by and maintained as affordable for lower-income families for the remaining useful life of the property, or (II) made available for purchase by any such family who, except as provided in subparagraph (E), agrees to occupy the property as a principal residence for at least 12 months and who certifies in writing that the family intends to occupy the property for at least 12 months. The restriction described in subclause (I) of the preceding sentence shall be contained in the deed or other recorded instrument.

“(iii) SALE TO OTHER PURCHASERS.—If, upon the expiration of the 180-day period referred to in subparagraph (B), no purchaser described in clauses (i) through (iv) of subparagraph (B) has made a bona fide offer to purchase the property, the Corporation may offer to sell the property to any other purchaser.

“(D) RECAPTURE OF PROFITS FROM RESALE.—Except as provided in subparagraph (E), if any eligible condominium property sold (i) to a qualifying household, or (ii) to a lower-income family pursuant to subparagraph (C)(i)(II) or (C)(ii)(II), is resold by the qualifying household or lower-income family during the 1-year period beginning upon initial acquisition by the household or family, the Corpora-

tion shall recapture 75 percent of the amount of any proceeds from the resale that exceed the sum of (I) the original sale price for the acquisition of the property by the qualifying household or lower-income family, (II) the costs of any improvements to the property made after the date of the acquisition, and (III) any closing costs in connection with the acquisition.

“(E) EXCEPTION TO RECAPTURE REQUIREMENT.—The Corporation (or its successor) may in its discretion waive the applicability to any qualifying household or lower-income family of the requirement under subparagraph (D) and the requirements relating to residency of a qualifying household or lower-income family (under paragraph (9)(L) and subparagraph (C) of this paragraph, respectively). The Corporation may grant any such a waiver only for good cause shown, including any necessary relocation of the qualifying household or lower-income family.

“(F) LIMITATIONS ON MULTIPLE UNIT PURCHASES.—The Corporation may not sell or offer to sell as part of the same negotiation or purchase any eligible condominium properties that are not located in the same condominium project (as such term is defined in section 604 of the Housing and Community Development Act of 1980). The preceding sentence may not be construed to require all eligible condominium properties offered or sold as part of the same negotiation or purchase to be located in the same structure.

“(G) RENT LIMITATIONS.—Rents charged to tenants of eligible condominium properties made available for occupancy by very low-income families shall not exceed 30 percent of the adjusted income of a family whose income equals 50 percent of the median income for the area, as determined by the Secretary, with adjustment for family size. Rents charged to tenants of eligible condominium properties made available for occupancy by lower-income families other than very low-income families shall not exceed 30 percent of the adjusted income of a family whose income equals 65 percent of the median income for the area, as determined by the Secretary, with adjustment for family size.”

SEC. 2. PROHIBITION ON USE OF VOLUNTARY CONTRIBUTIONS, AND LIMITATION ON THE USE OF PROVIDER-SPECIFIC TAXES TO OBTAIN FEDERAL FINANCIAL PARTICIPATION UNDER MEDICAID.

(a) IN GENERAL.—Section 1903 of the Social Security Act (42 U.S.C. 1396b) is amended by adding at the end the following new subsection.

"(w)(1)(A) Notwithstanding the previous provisions of this section, for purposes of determining the amount to be paid to a State (as defined in paragraph (7)(D)) under subsection (a)(1) for quarters in any fiscal year, the total amount expended during such fiscal year as medical assistance under the State plan (as determined without regard to this subsection) shall be reduced by the sum of any revenues received by the State (or by a unit of local government in the State) during the fiscal year—

"(i) from provider-related donations (as defined in paragraph (2)(A)), other than—

"(I) bona fide provider-related donations (as defined in paragraph (2)(B)), and

"(II) donations described in paragraph (2)(C);

"(ii) from health care related taxes (as defined in paragraph (3)(A)), other than broad-based health care related taxes (as defined in paragraph (3)(B));

"(iii) from a broad-based health care related tax, if there is in effect a hold harmless provision (described in paragraph (4)) with respect to the tax; or

"(iv) only with respect to State fiscal years (or portions thereof) occurring on or after January 1, 1992, and before October 1, 1995, from broad-based health care related taxes to the extent the amount of such taxes collected exceeds the limit established under paragraph (5).

"(B) Notwithstanding the previous provisions of this section, for purposes of determining the amount to be paid to a State under subsection (a)(7) for all quarters in a Federal fiscal year (beginning with fiscal year 1993), the total amount expended during the fiscal year for administrative expenditures under the State plan (as deter-

mined without regard to this subsection) shall be reduced by the sum of any revenues received by the State (or by a unit of local government in the State) during such quarters from donations described in paragraph (2)(C), to the extent the amount of such donations exceeds 10 percent of the amounts expended under the State plan under this title during the fiscal year for purposes described in paragraphs (2), (3), (4), (6), and (7) of subsection (a).

“(C)(i) Except as otherwise provided in clause (ii), subparagraph (A)(i) shall apply to donations received on or after January 1, 1992.

“(ii) Subject to the limits described in clause (iii) and subparagraph (E), subparagraph (A)(i) shall not apply to donations received before the effective date specified in subparagraph (F) if such donations are received under programs in effect or as described in State plan amendments or related documents submitted to the Secretary by September 30, 1991, and applicable to State fiscal year 1992, as demonstrated by State plan amendments, written agreements, State budget documentation, or other documentary evidence in existence on that date.

“(iii) In applying clause (ii) in the case of donations received in State fiscal year 1993, the maximum amount of such donations to which such clause may be applied may not exceed the total amount of such donations received in the corresponding period in State fiscal year 1992 (or not later than 5 days after the last day of the corresponding period).

“(D)(i) Except as otherwise provided in clause (ii), subparagraphs (A)(ii) and (A)(iii) shall apply to taxes received on or after January 1, 1992.

“(ii) Subparagraphs (A)(ii) and (A)(iii) shall not apply to impermissible taxes (as defined in clause (iii)) received before the effective date specified in subparagraph (F) to the extent the taxes (including the tax rate or base) were in effect, or the legislation or regulations imposing such taxes were enacted or adopted, as of November 22, 1991.

“(iii) In this subparagraph and subparagraph (E), the term ‘impermissible tax’ means a health care related tax for which a reduction may be made under clause (ii) or (iii) of subparagraph (A).

“(E)(i) In no case may the total amount of donations and taxes permitted under the exception provided in subparagraphs (C)(ii) and (D)(ii) for the portion of State fiscal year 1992 occurring during calendar year 1992 exceed the limit under paragraph (5) minus the total amount of broad-based health care related taxes received in the portion of that fiscal year.

“(ii) In no case may the total amount of donations and taxes permitted under the exception provided in subparagraphs (C)(ii) and (D)(ii) for State fiscal year 1993 exceed the limit under paragraph (5) minus the total amount of broad-based health care related taxes received in that fiscal year.

Effective dates.

“(F) In this paragraph in the case of a State—

“(i) except as provided in clause (iii), with a State fiscal year beginning on or before July 1, the effective date is October 1, 1992,

“(ii) except as provided in clause (iii), with a State fiscal year that begins after July 1, the effective date is January 1, 1993, or

“(iii) with a State legislature which is not scheduled to have a regular legislative session in 1992, with a State legislature which is not scheduled to have a regular legislative session in

1993, or with a provider-specific tax enacted on November 4, 1991, the effective date is July 1, 1993.

“(2)(A) In this subsection (except as provided in paragraph (6)), the term ‘provider-related donation’ means any donation or other voluntary payment (whether in cash or in kind) made (directly or indirectly) to a State or unit of local government by—

“(i) a health care provider (as defined in paragraph (7)(B)),

“(ii) an entity related to a health care provider (as defined in paragraph (7)(C)), or

“(iii) an entity providing goods or services under the State plan for which payment is made to the State under paragraph (2), (3), (4), (6), or (7) of subsection (a).

“(B) For purposes of paragraph (1)(A)(i)(I), the term ‘bona fide provider-related donation’ means a provider-related donation that has no direct or indirect relationship (as determined by the Secretary) to payments made under this title to that provider, to providers furnishing the same class of items and services as that provider, or to any related entity, as established by the State to the satisfaction of the Secretary. The Secretary may by regulation specify types of provider-related donations described in the previous sentence that will be considered to be bona fide provider-related donations.

“(C) For purposes of paragraph (1)(A)(i)(II), donations described in this subparagraph are funds expended by a hospital, clinic, or similar entity for the direct cost (including costs of training and of preparing and distributing outreach materials) of State or local agency personnel who are stationed at the hospital, clinic, or entity to determine the eligibility of individuals for medical assistance under this title and to provide outreach services to eligible or potentially eligible individuals.

“(3)(A) In this subsection (except as provided in paragraph (6)), the term ‘health care related tax’ means a tax (as defined in paragraph (7)(F)) that—

“(i) is related to health care items or services, or to the provision of, the authority to provide, or payment for, such items or services, or

“(ii) is not limited to such items or services but provides for treatment of individuals or entities that are providing or paying for such items or services that is different from the treatment provided to other individuals or entities.

In applying clause (i), a tax is considered to relate to health care items or services if at least 85 percent of the burden of such tax falls on health care providers.

“(B) In this subsection, the term ‘broad-based health care related tax’ means a health care related tax which is imposed with respect to a class of health care items or services (as described in paragraph (7)(A)) or with respect to providers of such items or services and which, except as provided in subparagraphs (D) and (E)—

“(i) is imposed at least with respect to all items or services in the class furnished by all non-Federal, nonpublic providers in the State (or, in the case of a tax imposed by a unit of local government, the area over which the unit has jurisdiction) or is imposed with respect to all non-Federal, nonpublic providers in the class; and

“(ii) is imposed uniformly (in accordance with subparagraph (C)).

“(C)(i) Subject to clause (ii), for purposes of subparagraph (B)(ii), a tax is considered to be imposed uniformly if—

“(I) in the case of a tax consisting of a licensing fee or similar tax on a class of health care items or services (or providers of such items or services), the amount of the tax imposed is the same for every provider providing items or services within the class;

“(II) in the case of a tax consisting of a licensing fee or similar tax imposed on a class of health care items or services (or providers of such services) on the basis of the number of beds (licensed or otherwise) of the provider, the amount of the tax is the same for each bed of each provider of such items or services in the class;

“(III) in the case of a tax based on revenues or receipts with respect to a class of items or services (or providers of items or services) the tax is imposed at a uniform rate for all items and services (or providers of such items or services) in the class on all the gross revenues or receipts, or net operating revenues, relating to the provision of all such items or services (or all such providers) in the State (or, in the case of a tax imposed by a unit of local government within the State, in the area over which the unit has jurisdiction); or

“(IV) in the case of any other tax, the State establishes to the satisfaction of the Secretary that the tax is imposed uniformly.

“(ii) Subject to subparagraphs (D) and (E), a tax imposed with respect to a class of health care items and services is not considered to be imposed uniformly if the tax provides for any credits, exclusions, or deductions which have as their purpose or effect the return to providers of all or a portion of the tax paid in a manner that is inconsistent with subclauses (I) and (II) of subparagraph (E)(ii) or provides for a hold harmless provision described in paragraph (4).

“(D) A tax imposed with respect to a class of health care items and services is considered to be imposed uniformly—

“(i) notwithstanding that the tax is not imposed with respect to items or services (or the providers thereof) for which payment is made under a State plan under this title or title XVIII, or

“(ii) in the case of a tax described in subparagraph (C)(i)(III), notwithstanding that the tax provides for exclusion (in whole or in part) of revenues or receipts from a State plan under this title or title XVIII.

“(E)(i) A State may submit an application to the Secretary requesting that the Secretary treat a tax as a broad-based health care related tax, notwithstanding that the tax does not apply to all health care items or services in class (or all providers of such items and services), provides for a credit, deduction, or exclusion, is not applied uniformly, or otherwise does not meet the requirements of subparagraph (B) or (C). Permissible waivers may include exemptions for rural or sole-community providers.

“(ii) The Secretary shall approve such an application if the State establishes to the satisfaction of the Secretary that—

“(I) the net impact of the tax and associated expenditures under this title as proposed by the State is generally redistributive in nature, and

“(II) the amount of the tax is not directly correlated to payments under this title for items or services with respect to which the tax is imposed.

The Secretary shall by regulation specify types of credits, exclusions, and deductions that will be considered to meet the requirements of this subparagraph. Regulations.

“(4) For purposes of paragraph (1)(A)(iii), there is in effect a hold harmless provision with respect to a broad-based health care related tax imposed with respect to a class of items or services if the Secretary determines that any of the following applies:

“(A) The State or other unit of government imposing the tax provides (directly or indirectly) for a payment (other than under this title) to taxpayers and the amount of such payment is positively correlated either to the amount of such tax or to the difference between the amount of the tax and the amount of payment under the State plan.

“(B) All or any portion of the payment made under this title to the taxpayer varies based only upon the amount of the total tax paid.

“(C) The State or other unit of government imposing the tax provides (directly or indirectly) for any payment, offset, or waiver that guarantees to hold taxpayers harmless for any portion of the costs of the tax.

The provisions of this paragraph shall not prevent use of the tax to reimburse health care providers in a class for expenditures under this title nor preclude States from relying on such reimbursement to justify or explain the tax in the legislative process.

“(5)(A) For purposes of this subsection, the limit under this subparagraph with respect to a State is an amount equal to 25 percent (or, if greater, the State base percentage, as defined in subparagraph (B)) of the non-Federal share of the total amount expended under the State plan during a State fiscal year (or portion thereof), as it would be determined pursuant to paragraph (1)(A) without regard to paragraph (1)(A)(iv).

“(B)(i) In subparagraph (A), the term ‘State base percentage’ means, with respect to a State, an amount (expressed as a percentage) equal to—

“(I) the total of the amount of health care related taxes (whether or not broad-based) and the amount of provider-related donations (whether or not bona fide) projected to be collected (in accordance with clause (ii)) during State fiscal year 1992, divided by

“(II) the non-Federal share of the total amount estimated to be expended under the State plan during such State fiscal year.

“(ii) For purposes of clause (i)(I), in the case of a tax that is not in effect throughout State fiscal year 1992 or the rate (or base) of which is increased during such fiscal year, the Secretary shall project the amount to be collected during such fiscal year as if the tax (or increase) were in effect during the entire State fiscal year.

“(C)(i) The total amount of health care related taxes under subparagraph (B)(i)(I) shall be determined by the Secretary based on only those taxes (including the tax rate or base) which were in effect, or for which legislation or regulations imposing such taxes were enacted or adopted, as of November 22, 1991.

“(ii) The amount of provider-related donations under subparagraph (B)(i)(I) shall be determined by the Secretary based on programs in effect on September 30, 1991, and applicable to State fiscal year 1992, as demonstrated by State plan amendments, written agreements, State budget documentation, or other documentary evidence in existence on that date.

“(iii) The amount of expenditures described in subparagraph (B)(i)(II) shall be determined by the Secretary based on the best data available as of the date of the enactment of this subsection.

“(6)(A) Notwithstanding the provisions of this subsection, the Secretary may not restrict States’ use of funds where such funds are derived from State or local taxes (or funds appropriated to State university teaching hospitals) transferred from or certified by units of government within a State as the non-Federal share of expenditures under this title, regardless of whether the unit of government is also a health care provider, except as provided in section 1902(a)(2), unless the transferred funds are derived by the unit of government from donations or taxes that would not otherwise be recognized as the non-Federal share under this section.

“(B) For purposes of this subsection, funds the use of which the Secretary may not restrict under subparagraph (A) shall not be considered to be a provider-related donation or a health care related tax.

“(7) For purposes of this subsection:

“(B) Acreage planted to sugarcane that producers on a farm were unable to harvest to sugarcane for sugar or seed because of drought, flood, other natural disaster, or other condition beyond the control of the producers may be considered as harvested for the production of sugar or seed for purposes of this paragraph.

“(A) IN GENERAL.—Whenever proportionate shares are in effect in a State for a crop of sugarcane, producers on a farm shall not knowingly harvest, or allow to be harvested, for sugar or seed an acreage of sugarcane in excess of the farm's proportionate share for the fiscal year, or otherwise violate proportionate share regulations issued by the Secretary under section 359h(a).

“(B) CIVIL PENALTY.—Any producer who violates subparagraph (A) shall be liable to the Commodity Credit Corporation for a civil penalty in an amount equal to 3 times the United States market value, at the time of the commission of the violation, of the quantity of sugar produced from that quantity of sugarcane involved in the violation. SEC. 119. SENSE OF CONGRESS REGARDING IMPORTED BARLEY AND OATS.

(a) **FINDINGS.**—Congress finds that—

(1) significant quantities of barley and oats are currently being imported into the United States from Norway, Sweden, and Finland origins, and there is reason to believe that such imports will continue in the future;

(2) such imported barley and oats are being purchased at a price artificially established at a level significantly below that of domestically produced barley and oats due to unfair and predatory export subsidies and schemes employed by the exporting countries of origin; and

(3) it is likely that the continued importation of such quantities of subsidized barley and oats will significantly and adversely affect producers of domestic barley and oats and impair the operations of existing farm commodity programs for barley and oats in the United States.

(b) **SENSE OF CONGRESS.**—Based on these findings, it is the sense of Congress that the Secretary of Agriculture and the President of the United States should immediately and aggressively employ all available options under existing laws, including those under section 22 of the Agricultural Adjustment Act (7 U.S.C. 624), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, in order to prevent material damage to the producers of domestic barley and oats and to prevent material interference with the programs established pursuant to section 105B of the Agricultural Act of 1949 (7 U.S.C. 1444f).

(2) by striking clause (7) and inserting the following new clause: “(7) the Secretary shall announce the uniform classification fee and any surcharge for the crop not later than June 1 of the year in which the fee applies.”

(c) CLARIFICATION OF SERVICES.—The third sentence of section 3a of such Act is amended to read as follows: “Classification services, other than the prevailing method, provided at the request of the producer shall not be subject to the restrictions specified in clauses (1), (2), and (3) of the preceding sentence.”

Termination  
date.  
7 USC 473a note.

#### SEC. 121. SENSE OF CONGRESS REGARDING TARGETED OPTION PAYMENTS.

(a) FINDINGS.—Congress finds that—

(1) thousands of agricultural producers are facing extremely difficult economic times and low commodity prices;

(2) the conditions on each farm are unique and require a unique plan to meet the income, conservation, and soil and weather conditions of the farm; and

(3) agricultural producers need the maximum possible flexibility to tailor the agricultural price support and production adjustment program to their farms' individual needs.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Secretary of Agriculture should offer targeted option payments for each of the 1992 through 1995 crops of wheat, feed grains, upland cotton, and rice as authorized by sections 107B(e)(3), 105B(e)(3),

103B(e)(3), and 101B(e)(3) of the Agricultural Act of 1949 (7 U.S.C. 1445b-3a(e)(3), 1444f(e)(3), 1444-2(e)(3), and 1441-2(e)(3)), respectively.

When applied to the Corporation, the risk-based capital test shall determine the amount of regulatory capital for the Corporation that is sufficient for the Corporation to maintain positive capital during a 10-year period in which both of the following circumstances occur:

“(1) **CREDIT RISK.**—With respect to securities representing an interest in, or obligations backed by, a pool of qualified loans

owned or guaranteed by the Corporation and other obligations of the Corporation, losses on the underlying qualified loans occur throughout the United States at a rate of default and severity (based on any measurements of default reasonably related to prevailing industry practice in determining capital adequacy) reasonably related to the rate and severity that occurred in contiguous areas of the United States containing an aggregate of not less than 5 percent of the total population of the United States that, for a period of not less than 2 years (as established by the Director), experienced the highest rates of default and severity of agricultural mortgage losses, in comparison with such rates of default and severity of agricultural mortgage losses in other such areas for any period of such duration, as determined by the Director.

“(2) INTEREST RATE RISK.—Interest rates on Treasury obligations of varying terms increase or decrease over the first 12 months of such 10-year period by not more than the lesser of (A) 50 percent (with respect to the average interest rates on such obligations during the 12-month period preceding the 10-year period), or (B) 600 basis points, and remain at such level for the remainder of the period. In making examinations and revisions under this paragraph, the Director shall take into account that, before the date of the enactment of this section, the Corporation has not issued guarantees for pools of qualified loans. To the extent that the revision of the risk-based capital test causes a change in the classification of the Corporation within the enforcement levels established under section 8.35, the Director shall waive the applicability of any additional enforcement actions available because of such change for a

reasonable period of time, to permit the Corporation to increase the amount of regulatory capital of the Corporation accordingly.

“(c) **RISK-BASED CAPITAL LEVEL.**—For purposes of this subtitle, the risk-based capital level for the Corporation shall be equal to the sum of the following amounts:

The regulations shall be sufficiently specific to permit an individual other than the Director to apply the test in the same manner as the Director.

“(e) **AVAILABILITY OF MODEL.**—The Director shall make copies of the statistical model or models used to implement the risk-based capital test under this section available for public acquisition and may charge a reasonable fee for such copies.

Public Law 102-240  
102d Congress

An Act

Dec. 18, 1991  
[H.R. 2950]

Intermodal  
Surface  
Transportation  
Efficiency Act of  
1991.  
Inter-  
governmental  
relations.  
49 USC 101 note.  
49 USC 101 note.

To develop a national intermodal surface transportation system, to authorize funds for construction of highways, for highway safety programs, and for mass transit programs, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. SHORT TITLE.**

This Act may be cited as the "Intermodal Surface Transportation Efficiency Act of 1991".

**SEC. 2. DECLARATION OF POLICY: INTERMODAL SURFACE TRANSPORTATION EFFICIENCY ACT.**

It is the policy of the United States to develop a National Intermodal Transportation System that is economically efficient and environmentally sound, provides the foundation for the Nation to compete in the global economy, and will move people and goods in an energy efficient manner.

The National Intermodal Transportation System shall consist of all forms of transportation in a unified, interconnected manner, including the transportation systems of the future, to reduce energy consumption and air pollution while promoting economic development and supporting the Nation's preeminent position in international commerce.

The National Intermodal Transportation System shall include a National Highway System which consists of the National System of Interstate and Defense Highways and those principal arterial roads which are essential for interstate and regional commerce and travel, national defense, intermodal transfer facilities, and international commerce and border crossings.

The National Intermodal Transportation System shall include significant improvements in public transportation necessary to achieve national goals for improved air quality, energy conservation, international competitiveness, and mobility for elderly persons, persons with disabilities, and economically disadvantaged persons in urban and rural areas of the country.

The National Intermodal Transportation System shall provide improved access to ports and airports, the Nation's link to world commerce.

The National Intermodal Transportation System shall give special emphasis to the contributions of the transportation sectors to increased productivity growth. Social benefits must be considered with particular attention to the external benefits of reduced air pollution, reduced traffic congestion and other aspects of the quality of life in the United States.

The National Intermodal Transportation System must be operated and maintained with insistent attention to the concepts of innovation, competition, energy efficiency, productivity, growth, and accountability. Practices that resulted in the lengthy and overly

costly construction of the Interstate and Defense Highway System must be confronted and ceased.

The National Intermodal Transportation System shall be adapted to "intelligent vehicles", "magnetic levitation systems", and other new technologies wherever feasible and economical, with benefit cost estimates given special emphasis concerning safety considerations and techniques for cost allocation.

The National Intermodal Transportation System, where appropriate, will be financed, as regards Federal apportionments and reimbursements, by the Highway Trust Fund. Financial assistance will be provided to State and local governments and their instrumentalities to help implement national goals relating to mobility for elderly persons, persons with disabilities, and economically disadvantaged persons.

The National Intermodal Transportation System must be the centerpiece of a national investment commitment to create the new wealth of the Nation for the 21st century.

The Secretary shall distribute copies of this Declaration of Policy to each employee of the Department of Transportation and shall ensure that such Declaration of Policy is posted in all offices of the Department of Transportation.

#### SEC. 3. SECRETARY DEFINED.

49 USC 101 note.

As used in this Act, the term "Secretary" means the Secretary of Transportation.

"(B) reconstructing, resurfacing, restoring, and rehabilitating a toll highway, bridge, or tunnel (including a toll highway, bridge, or tunnel subject to an agreement entered into under this section or section 119(e) as in effect on the day before the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991) or approach thereto;

"(C) reconstruction or replacement of a toll-free bridge or tunnel and conversion of the bridge or tunnel to a toll facility;

"(D) reconstruction of a toll-free Federal-aid highway (other than a highway on the Interstate System) and conversion of the highway to a toll facility; and

"(E) preliminary studies to determine the feasibility of a toll facility for which Federal participation is authorized under subparagraph (A), (B), (C), or (D);

on the same basis and in the same manner as in the construction of free highways under this chapter.

"(A) be publicly owned, or

"(B) be privately owned if the public authority having jurisdiction over the highway, bridge, tunnel, or approach has entered into a contract with a private person or persons to design, finance, construct, and operate the facility and the public authority will be responsible for complying with all applicable requirements of this title with respect to the facility.

Contracts.

"(3) LIMITATIONS ON USE OF REVENUES.—Before the Secretary may permit Federal participation under this subsection in

construction of a highway, bridge, or tunnel located in a State, the public authority (including the State transportation department) having jurisdiction over the highway, bridge, or tunnel must enter into an agreement with the Secretary which provides that all toll revenues received from operation of the toll facility will be used first for debt service, for reasonable return on investment of any private person financing the project, and for the costs necessary for the proper operation and maintenance of the toll facility, including reconstruction, resurfacing, restoration, and rehabilitation. If the State certifies annually that the tolled facility is being adequately maintained, the State may use any toll revenues in excess of amounts required under the preceding sentence for any purpose for which Federal funds may be obligated by a State under this title.

“(4) SPECIAL RULE FOR FUNDING.—In the case of a toll highway, bridge, or tunnel under the jurisdiction of a public authority of a State (other than the State transportation department), upon request of the State transportation department and subject to such terms and conditions as such department and public authority may agree, the Secretary shall reimburse such public authority for the Federal share of the costs of construction of the project carried out on the toll facility under this subsection in the same manner and to the same extent as such department would be reimbursed if such project was being carried out by such department. The reimbursement of funds under this paragraph shall be from sums apportioned to the State under this chapter and available for obligations on projects on the Federal-aid system in such State on which the project is being carried out.

“(5) LIMITATION ON FEDERAL SHARE.—Except as otherwise provided in this paragraph, the Federal share payable for construction of a highway, bridge, tunnel, or approach thereto or conversion of a highway, bridge, or tunnel to a toll facility under this subsection shall be such percentage as the State determines but not to exceed 50 percent. The Federal share payable for construction of a new bridge, tunnel, or approach thereto or for reconstruction or replacement of a bridge, tunnel, or approach thereto shall be such percentage as the Secretary determines but not to exceed 80 percent. In the case of a toll facility subject to an agreement under section 119 or 129, the Federal share payable on any project for resurfacing, restoring, rehabilitating, or reconstructing such facility shall be 80 percent until the scheduled expiration of such agreement (as in effect on the day before the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991).

“(6) MODIFICATIONS.—If a public authority (including a State transportation department) having jurisdiction over a toll highway, bridge, or tunnel subject to an agreement under this section or section 119(e), as in effect on the day before the effective date of title I of the Intermodal Surface Transportation Efficiency Act of 1991, requests modification of such agreement, the Secretary shall modify such agreement to allow the continuation of tolls in accordance with paragraph (3) without repayment of Federal funds.

“(7) LOANS.—A State may loan all or part of the Federal share of a toll project under this section to a public or private agency constructing a toll facility. Such loan may be made only after all

Federal environmental requirements have been complied with and permits obtained. The amount loaned shall be subordinated to other debt financing for the facility except for loans made by the State or any other public agency to the agency constructing the facility. Funds loaned pursuant to this section may be obligated for projects eligible under this section. The repayment of any such loan shall commence not more than 5 years after the facility has opened to traffic. To accomplish this objective, metropolitan planning organizations, in cooperation with the State, shall develop transportation plans and programs for urbanized areas of the State. Such plans and programs shall provide for the development of transportation facilities (including pedestrian walkways and bicycle transportation facilities) which will function as an intermodal transportation system for the State, the metropolitan areas, and the Nation. The process for developing such plans and programs shall provide for consideration of all modes of transportation and shall be continuing, cooperative, and comprehensive to the degree appropriate, based on the complexity of the transportation problems.

“(b) **DESIGNATION OF METROPOLITAN PLANNING ORGANIZATIONS.**—

“(1) **IN GENERAL.**—To carry out the transportation planning process required by this section, a metropolitan planning organization shall be designated for each urbanized area of more than 50,000 population by agreement among the Governor and units of general purpose local government which together represent at least 75 percent of the affected population (including the central city or cities as defined by the Bureau of the Census) or in accordance with procedures established by applicable State or local law.

“(2) MEMBERSHIP OF CERTAIN MPO’S.—In a metropolitan area designated as a transportation management area, the metropolitan planning organization designated for such area shall include local elected officials, officials of agencies which administer or operate major modes of transportation in the metropolitan area (including all transportation agencies included in the metropolitan planning organization on June 1, 1991) and appropriate State officials. This paragraph shall only apply to a metropolitan planning organization which is redesignated after the date of the enactment of this section.

Such redesignation shall be accomplished using procedures established by subparagraph (A).

“(6) TREATMENT OF LARGE URBAN AREAS.—More than 1 metropolitan planning organization may be designated within an urbanized area as defined by the Bureau of the Census only if the Governor determines that the size and complexity of the urbanized area make designation of more than 1 metropolitan planning organization for such area appropriate.

“(c) METROPOLITAN AREA BOUNDARIES.—For the purposes of this section, the boundaries of a metropolitan area shall be determined by agreement between the metropolitan planning organization and the Governor. Each metropolitan area shall cover at least the existing urbanized area and the contiguous area expected to become

For areas designated as nonattainment areas for ozone or carbon monoxide under the Clean Air Act, the boundaries of the metropolitan area shall at least include the boundaries of the nonattainment area, except as otherwise provided by agreement between the metropolitan planning organization and the Governor.

**“(d) COORDINATION IN MULTISTATE AREAS.—**

**“(5)** The programming of expenditure on transportation enhancement activities as required in section 133.

**“(6)** The effects of all transportation projects to be undertaken within the metropolitan area, without regard to whether such projects are publicly funded.

**“(7)** International border crossings and access to ports, airports, intermodal transportation facilities, major freight distribution routes, national parks, recreation areas, monuments and historic sites, and military installations.

**“(8)** The need for connectivity of roads within the metropolitan area with roads outside the metropolitan area.

“(9) The transportation needs identified through use of the management systems required by section 303 of this title.

“(10) Preservation of rights-of-way for construction of future transportation projects, including identification of unused rights-of-way which may be needed for future transportation corridors and identification of those corridors for which action is most needed to prevent destruction or loss.

“(11) Methods to enhance the efficient movement of freight.

“(12) The use of life-cycle costs in the design and engineering of bridges, tunnels, or pavement.

“(A) Identify transportation facilities (including but not necessarily limited to major roadways, transit, and multimodal and intermodal facilities) that should function as an integrated metropolitan transportation system, giving emphasis to those facilities that serve important national and regional transportation functions. In formulating the long range plan, the metropolitan planning organization shall consider factors described in subsection (f) as such factors relate to a 20-year forecast period.

“(B) Include a financial plan that demonstrates how the long-range plan can be implemented, indicates resources from public and private sources that are reasonably expected to be made available to carry out the plan, and recommends any innovative financing techniques to finance needed projects and programs, including such techniques as value capture, tolls and congestion pricing.

“(C) Assess capital investment and other measures necessary to—

“(i) ensure the preservation of the existing metropolitan transportation system, including requirements for operational improvements, resurfacing, restoration, and rehabilitation of existing and future major roadways, as well as operations, maintenance, modernization, and rehabilitation of existing and future transit facilities; and

#### SEC. 1038. USE OF RECYCLED PAVING MATERIAL.

(a) ASPHALT PAVEMENT CONTAINING RECYCLED RUBBER DEMONSTRATION PROGRAM.—Notwithstanding any other provision of

Environmental  
protection.  
23 USC 109 note.

title 23, United States Code, or regulation or policy of the Department of Transportation, the Secretary (or a State acting as the Department's agent) may not disapprove a highway project under chapter 1 of title 23, United States Code, on the ground that the project includes the use of asphalt pavement containing recycled rubber. Under this subsection, a patented application process for recycled rubber shall be eligible for approval under the same conditions that an unpatented process is eligible for approval.

(b) STUDIES.—

(1) IN GENERAL.—The Secretary and the Administrator of the Environmental Protection Agency shall coordinate and conduct, in cooperation with the States, a study to determine—

(A) the threat to human health and the environment associated with the production and use of asphalt pavement containing recycled rubber;

(B) the degree to which asphalt pavement containing recycled rubber can be recycled; and

(C) the performance of the asphalt pavement containing recycled rubber under various climate and use conditions.

(2) DIVISION OF RESPONSIBILITIES.—The Administrator shall conduct the part of the study relating to paragraph (1)(A) and the Secretary shall conduct the part of the study relating to paragraph (1)(C). The Administrator and the Secretary shall jointly conduct the study relating to paragraph (1)(B).

(3) ADDITIONAL STUDY.—The Secretary and the Administrator, in cooperation with the States, shall jointly conduct a study to determine the economic savings, technical performance qualities, threats to human health and the environment, and environmental benefits of using recycled materials in highway devices and appurtenances and highway projects, including asphalt containing over 80 percent reclaimed asphalt, asphalt containing recycled glass, and asphalt containing recycled plastic.

(4) ADDITIONAL ELEMENTS.—In conducting the study under paragraph (3), the Secretary and the Administrator shall examine utilization of various technologies by States and shall examine the current practices of all States relating to the reuse and disposal of materials used in federally assisted highway projects.

(5) REPORT.—Not later than 18 months after the date of the enactment of this Act, the Secretary and the Administrator shall transmit to Congress a report on the results of the studies conducted under this subsection, including a detailed analysis of the economic savings and technical performance qualities of using such recycled materials in federally assisted highway projects and the environmental benefits of using such recycled materials in such highway projects in terms of reducing air emissions, conserving natural resources, and reducing disposal of the materials in landfills.

(c) DOT GUIDANCE.—

(1) INFORMATION GATHERING AND DISTRIBUTION.—The Secretary shall gather information and recommendations concerning the use of asphalt containing recycled rubber in highway projects from those States that have extensively evaluated and experimented with the use of such asphalt and implemented such projects and shall make available such information and

recommendations on the use of such asphalt to those States which indicate an interest in the use of such asphalt.

(2) **ENCOURAGEMENT OF USE.**—The Secretary should encourage the use of recycled materials determined to be appropriate by the studies pursuant to subsection (b) in federally assisted highway projects. Procuring agencies shall comply with all applicable guidelines or regulations issued by the Administrator of the Environmental Protection Agency.

(d) **USE OF ASPHALT PAVEMENT CONTAINING RECYCLED RUBBER.**—

(1) **STATE CERTIFICATION.**—Beginning on January 1, 1995, and annually thereafter, each State shall certify to the Secretary that such State has satisfied the minimum utilization requirement for asphalt pavement containing recycled rubber established by this section. The minimum utilization requirement for asphalt pavement containing recycled rubber as a percentage of the total tons of asphalt laid in such State and financed in whole or part by any assistance pursuant to title 23, United States Code, shall be—

(A) 5 percent for the year 1994;

(B) 10 percent for the year 1995;

(C) 15 percent for the year 1996; and

(D) 20 percent for the year 1997 and each year thereafter.

(2) **OTHER MATERIALS.**—Any recycled material or materials determined to be appropriate by the studies under subsection (b) may be substituted for recycled rubber under the minimum utilization requirement of paragraph (1) up to 5 percent.

(3) **INCREASE.**—The Secretary may increase the minimum utilization requirement of paragraph (1) for asphalt pavement containing recycled rubber to be used in federally assisted highway projects to the extent it is technologically and economically feasible to do so and if an increase is appropriate to assure markets for the reuse and recycling of scrap tires. The minimum utilization requirement for asphalt pavement containing recycled rubber may not be met by any use or technique found to be unsuitable for use in highway projects by the studies under subsection (b).

(4) **PENALTY.**—The Secretary shall withhold from any State that fails to make a certification under paragraph (1) for any fiscal year, a percentage of the apportionments under section 104 (other than subsection (b)(5)(A)) of title 23, United States Code, that would otherwise be apportioned to such State for such fiscal year under such section equal to the percentage utilization requirement established by paragraph (1) for such fiscal year.

(5) **SECRETARIAL WAIVER.**—The Secretary may set aside the provisions of this subsection for any 3-year period on a determination, made in concurrence with the Administrator of the Environmental Protection Agency with respect to subparagraphs (A) and (B) of this paragraph, that there is reliable evidence indicating—

(A) that manufacture, application, or use of asphalt pavement containing recycled rubber substantially increases the threat to human health or the environment as compared to the threats associated with conventional pavement;

(B) that asphalt pavement containing recycled rubber cannot be recycled to substantially the same degree as conventional pavement; or

(C) that asphalt pavement containing recycled rubber does not perform adequately as a material for the construction or surfacing of highways and roads.

The Secretary shall consider the results of the study under subsection (b)(1) in determining whether a 3-year set-aside is appropriate.

(6) **RENEWAL OF WAIVER.**—Any determination made to set aside the requirements of this section may be renewed for an additional 3-year period by the Secretary, with the concurrence of the Administrator with respect to the determinations made under paragraphs (5)(A) and (5)(B). Any determination made with respect to paragraph (5)(C) may be made for specific States or regions considering climate, geography, and other factors that may be unique to the State or region and that would prevent the adequate performance of asphalt pavement containing recycled rubber.

(7) **INDIVIDUAL STATE REDUCTION.**—The Secretary shall establish a minimum utilization requirement for asphalt pavement containing recycled rubber less than the minimum utilization requirement otherwise required by paragraph (1) in a particular State, upon the request of such State and if the Secretary, with the concurrence of the Administrator of the Environmental Protection Agency, determines that there is not a sufficient quantity of scrap tires available in the State prior to disposal to meet the minimum utilization requirement established under paragraph (1) as the result of recycling and processing uses (in that State or another State), including retreading or energy recovery.

(e) **DEFINITIONS.**—For purpose of this section—

(1) the term “asphalt pavement containing recycled rubber” means any hot mix or spray applied binder in asphalt paving mixture that contains rubber from whole scrap tires which is used for asphalt pavement base, surface course or interlayer, or other road and highway related uses and—

(A) is a mixture of not less than 20 pounds of recycled rubber per ton of hot mix or 300 pounds of recycled rubber per ton of spray applied binder; or

(B) is any mixture of asphalt pavement and recycled rubber that is certified by a State and is approved by the Secretary, provided that the total amount of recycled rubber from whole scrap tires utilized in any year in such State shall be not less than the amount that would be utilized if all asphalt pavement containing recycled rubber laid in such State met the specifications of subparagraph (A) and subsection (d)(1); and

(2) the term “recycled rubber” is any crumb rubber derived from processing whole scrap tires or shredded tire material taken from automobiles, trucks, or other equipment owned and operated in the United States.

(b) SCOPE OF THE REPORT TO CONGRESS.—In preparing such report, the Comptroller shall address, at a minimum, the following:

(1) Alternative modifications to current Federal and State minimum design standards, including but not limited to, the anticipated impacts these alternatives would have on the serviceability, maintenance, expected life, and costs (including engineering and design, construction maintenance, operation and replacement costs).

(2) Inclusion of guarantee and warranty clauses in contracts with designers, contractors, and State highway departments to address, at a minimum, potential costs and benefits of such clauses; any liability or insurance constraints or concerns; implications for small, minority, or disadvantaged businesses; currently existing options for States to require these clauses or other means with similar effect without additional Federal

legislation, and the effect these or similar clauses may have on the availability of insurance and bonds for design professionals and contractors and the implication to the public of any change in such availability.

(c) **TREATMENT.**—Use of such credit for a non-Federal share shall not expose such agencies from which the credit is received to additional liability, additional regulation or additional administrative oversight. When credit is applied from chartered multi-State agencies, such credit shall be applied equally to all charter States. The public, quasi-public, and private agencies from which the credit for which the non-Federal share is calculated shall not be subject to any additional Federal design standards, laws or regulations as a result of providing non-Federal match other than those to which such agency is already subject.

**SEC. 2508. AUTOMATIC CRASH PROTECTION AND SAFETY BELT USE.**

(a) AMENDMENT OF STANDARD.—

(1) SPECIFICATIONS.—Notwithstanding any other provision of law or rule, the Secretary shall by September 1, 1993, promulgate, in accordance with the National Traffic and Motor Vehicle Safety Act of 1966 (to the extent such Act is not in conflict with the provisions of this section), an amendment to Federal Motor Vehicle Safety Standard 208 issued under such Act to provide that the automatic occupant crash protection system for the front outboard designated seating positions of each—

(A) new truck, bus, and multipurpose passenger vehicle (other than walk-in van-type trucks and vehicles designed to be exclusively sold to the United States Postal Service)

with a gross vehicle weight rating of 8,500 pounds or less and an unloaded vehicle weight of 5,500 pounds or less, and

(B) new passenger car, manufactured on or after the dates specified in the applicable schedule established by subsection (b), shall be an inflatable restraint complying with the occupant protection requirements under section 4.1.2.1 of such Standard. This section supplements and revises, but does not replace, Federal Motor Vehicle Safety Standard 208, including the amendment to such Standard 208 of March 26, 1991 (56 F.R. 12472), extending the requirements for automatic crash protection, together with incentives for more innovative automatic crash protection, to trucks, buses, and multipurpose passenger vehicles.

(2) **REQUIREMENT.**—The amendment to such Standard 208 shall also require, to be effective as soon as possible after the promulgation of such amendment, that the owner manuals for passenger cars and trucks, buses, and multipurpose passenger vehicles equipped with an inflatable restraint include a statement in an easily understandable format—

(A) that the vehicle is equipped with an inflatable restraint referred to as an “airbag” and a lap and shoulder belt in either or both the front outboard seating positions;

(B) that the airbag is a supplemental restraint;

(C) that it does not substitute for lap and shoulder belts which must also be correctly used by an occupant in such seating position to provide restraint or protection not only from frontal crashes but from other types of crashes or accidents; and

(D) that all occupants, including the driver, should always wear their lap and shoulder belts, where available, or other safety belts, whether or not there is an inflatable restraint.

(3) **FINDING.**—The Congress finds that it is in the public interest for all States to adopt and enforce mandatory seat belt use laws and for the Federal Government to adopt and enforce mandatory seat belt use rules.

(b) **SCHEDULE.**—The amendment promulgated under subsection (a) shall establish the following schedule: Effective dates.

(1) **NEW PASSENGER CARS.**—The amendment shall take effect for 95 percent of each manufacturer’s annual production of passenger cars manufactured on and after September 1, 1996, and before September 1, 1997, and for 100 percent of each manufacturer’s production of passenger cars manufactured on and after September 1, 1997. Subject to the provisions of subsection (c), the percentage prescribed for passenger cars manufactured on and after September 1, 1997, shall be met entirely by inflatable restraints (accompanied by lap and shoulder belts) for both front outboard seating positions.

(2) **NEW TRUCKS, BUSES, AND MULTIPURPOSE PASSENGER VEHICLES.**—The amendment shall take effect for 80 percent of each manufacturer’s annual production of trucks, buses, and multipurpose passenger vehicles described in subsection (a)(1)(A) and manufactured on and after September 1, 1997, and before September 1, 1998, and for 100 percent of each manufacturer’s production of such trucks, buses, and multipurpose passenger vehicles manufactured on and after September 1, 1998. Subject to the provisions of subsection (c), the percentage prescribed for such trucks, buses, and multipurpose passenger vehicles manu-

factured on and after September 1, 1998, shall be met entirely by inflatable restraints (accompanied by lap and shoulder belts) for both front outboard seating positions. The incentives or credits available under Standard 208 (as amended by this section) prior to September 1, 1998, shall not be available to the manufacturers to comply with the 100 percent requirement of this paragraph on and after such date.

Each application for such exemption must be filed by the manufacturer affected, and must specify the models, lines, and types of vehicles actually affected, although the Secretary may consolidate applications of a similar nature of 1 or more manufacturers. Notice of each application shall be published in the Federal Register and notice of each decision to grant or deny a temporary exemption, and the reasons for granting or denying it, shall be published in the Federal Register. The Secretary shall require labeling for each exempted motor vehicle which can only be removed after recall and installation of the required inflatable restraint. Nothing in this section or in the amendments made under this section to Federal Motor Vehicle Safety Standard 208 shall be construed by any person or court as indicating an intention by Congress to affect, change, or modify in any way the liability, if any, of a motor vehicle manufacturer under applicable law relative to vehicles with or without inflatable restraints.
