Government's leadership in reducing petroleum consumption and promoting the use of alternative fuel vehicles (AFVs). By developing and using AFVs, we can reduce greenhouse gases and other pollutants, enhance our Nation's energy self-sufficiency by reducing the demand for imported oil, and create new products and jobs.

If we make wise and informed choices today and in the years to come, we can make our communities more livable, give our citizens greater choice and mobility, protect our environment, and help create a truly global community. The 20th century was indeed a golden age for transportation; the 21st century can be an even brighter one.

In recognition of the importance of our Nation's transportation system to our national security and economic health, and in honor of the many dedicated men and women who have ensured its continued excellence through the years, the United States Congress, by joint resolution approved May 16, 1957 (36 U.S.C. 120), has designated the third Friday in May of each year as "National Defense Transportation Day" and, by joint resolution approved May 14, 1962 (36 U.S.C. 133), declared that the week during which that Friday falls be designated "National Transportation Week."

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, do hereby proclaim Friday, May 19, 2000, as National Defense Transportation Day and May 14 through May 20, 2000, as National Transportation Week. I urge all Americans to observe these occasions with appropriate ceremonies, programs, and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this fifteenth day of May, in the year of our Lord two thousand, and of the Independence of the United States of America the two hundred and twenty-fourth.

WILLIAM J. CLINTON

Proclamation 7309 of May 18, 2000

National Safe Boating Week, 2000

By the President of the United States of America
A Proclamation

Living in a country bordered by oceans and blessed with abundant lakes and rivers, Americans have made recreational boating one of our Nation's most popular pastimes. Each year, more than 74 million Americans take to the water with family and friends to relax and enjoy the beauty of the natural world.

But each year, for too many Americans, boating ends in tragedy. Most boating-related injuries and deaths are the result of human error and poor judgment, caused, for example, by excessive speed, failure to follow safe navigation rules, and drinking or taking drugs while operating watercraft. These injuries could easily be prevented by using common sense and making safety the first priority.

Boating accidents can occur at any time—whether the water is smooth or turbulent and whether the boater is experienced or a novice. One of the best ways to make a recreational boating experience safe and en-
joyable is to ensure that everyone on board always wears a life jacket. To reinforce this lifesaving message, the National Safe Boating Campaign has once again selected the theme “Boat Smart from the Start! Wear Your Life Jacket!” for this year’s observance. Recreational boating organizations, including the National Safe Boating Council and the National Association of State Boating Law Administrators, as well as the U.S. Coast Guard, other Federal agencies, and State and local governments, are continuing to promote safety through education by emphasizing the importance of wearing life jackets and practicing boating and water safety.

In recognition of the importance of safe boating practices, the Congress, by joint resolution approved June 4, 1958 (36 U.S.C. 131), as amended, has authorized and requested the President to proclaim annually the 7-day period ending on the last Friday before Memorial Day as “National Safe Boating Week.”

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, do hereby proclaim May 20 through May 26, 2000, as National Safe Boating Week. I encourage the governors of the 50 States and the Commonwealth of Puerto Rico, and officials of other areas subject to the jurisdiction of the United States, to join in observing this occasion and to urge all Americans to use safe boating practices throughout the year.

IN WITNESS WHEREOF, I have hereunto set my hand this eighteenth day of May, in the year of our Lord two thousand, and of the Independence of the United States of America the two hundred and twenty-fourth.

WILLIAM J. CLINTON

World Trade Week, 2000

By the President of the United States of America
A Proclamation

The prosperity the United States enjoys today is due, in no small part, to our strong trading relationships with other nations. The World Trade Organization, the North American Free Trade Agreement, and 270 other agreements have helped us to open new markets for U.S. products and services, create thousands of new jobs, and keep our economy growing without inflation. The African Growth and Opportunity Act and the United States-Caribbean Basin Trade Partnership Act that I signed into law this week will build on this progress by lowering trade barriers and strengthening our economic partnership with nations in sub-Saharan Africa and the Caribbean basin.

The theme of World Trade Week this year, “Working the Web of Trade,” reflects the particular importance of the Internet as a new and rapidly accelerating factor in world trade. The Internet holds enormous commercial potential and brings extraordinary opportunities directly into homes and workplaces across the United States and around the world. Linking businesses and consumers more quickly and directly than ever before, the worldwide web is a powerful tool, available 24
