Loans on forest tracts.

"Any national banking association may make real-estate loans secured by first liens upon forest tracts which are properly managed in all respects. Such loans shall be in the form of an obligation or obligations secured by mortgage, trust deed, or other such instrument; and any national banking association may purchase any obligation so secured when the entire amount of such obligation is sold to the association. The amount of any such loan shall not exceed 40 per centum of the appraised value of the economically marketable timber offered as security and the loan shall be made upon such terms and conditions as to assure that at no time shall the loan balance exceed 40 per centum of the original appraised value of the economically marketable timber then remaining. No such loan shall be made for a longer term than two years; except that any such loan may be made for a term not longer than ten years if the loan is secured by an amortized mortgage, deed of trust, or other such instrument under the terms of which the installment payments are sufficient to amortize the principal of the loan within a period of not more than ten years and at a rate of at least 10 per centum per annum. All such loans secured by first liens upon forest tracts shall be included in the permissible aggregate of all real estate loans prescribed in the preceding paragraph, but no national banking association shall make forest-tract loans in an aggregate sum in excess of 50 per centum of its capital stock paid in and unimpaired plus 50 per centum of its unimpaired surplus fund."
