

"ARTICLE VIII.

"This compact may be amended from time to time by the concurrent action of the two Commonwealths parties hereto."

SEC. 2. The right to alter, amend, or repeal this Act is expressly reserved.

Approved July 27, 1954.

Public Law 544

CHAPTER 589

AN ACT

To provide for the development of the Priest Rapids site on the Columbia River, Washington, under a license issued pursuant to the Federal Power Act.

July 27, 1954
[H. R. 7664]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Flood Control Act of 1950 (64 Stat. 170, 179), insofar as it adopted and authorized to be prosecuted the Priest Rapids Dam on the Columbia River, Washington, substantially in accordance with the plans recommended in the report of the Chief of Engineers dated June 28, 1949, contained in House Document Numbered 531, Eighty-first Congress, second session, is hereby modified to permit the development of the Priest Rapids site by Public Utility District Number 2, of Grant County, Washington, or such district or its successor in combination with such other utilities as it may legally affiliate with or by any division, subdivision, agency, or commission of the State of Washington under and in accordance with the terms and conditions of a license duly issued pursuant to the Federal Power Act and in accordance with this Act.

Priest Rapids
Dam, Wash.

SEC. 2. The Priest Rapids Reservoir site shall be developed to utilize the optimum capabilities of the site as a part of the comprehensive plan for economically feasible control and utilization of the water resources for flood control, navigation, power, and other beneficial purposes. Before a license is issued, an applicant for a license shall submit a report on the details of its plans for development to the Federal Power Commission with particular reference to the integration of the proposed Priest Rapids development as a part of the comprehensive plan.

41 Stat. 1063;
49 Stat. 863.
16 USC 791a.
FPC license
application.

SEC. 3. The Department of the Army shall review any plans submitted to the Federal Power Commission for the purpose of acquiring a license to develop the Priest Rapids site or any other site in connection therewith and shall make recommendations with respect to such plans to the Commission with particular regard to flood control and navigation.

Review of plans.

SEC. 4. The license may provide for the addition of navigation locks and flood-control features by the Department of the Army at Federal expense, either as a part of the initial construction or at a later date. In the event that nonpower features are to be provided as part of the initial construction, an allocation of costs to such features shall be approved by the Federal Power Commission taking into consideration recommendations by the Department of the Army and licensee, and funds to cover such costs may be appropriated and may be transferred by the Chief of Engineers to the licensee. If such navigation and flood-control facilities are not provided initially the licensee shall provide at its own expense the basic features for future installation of navigation and flood-control facilities.

Navigation and
flood control facilities.

SEC. 5. Upon request by the licensee the Corps of Engineers under direction of the Secretary of the Army shall be authorized to receive contributed funds and act as constructing agency for part or all of the

Constructing
agency, etc.

project, including acquisition of lands, easements, rights-of-way, or other interest in land in accordance with Federal laws and procedures governing flood-control projects and subsequent conveyance thereof to the licensee.

Rules and regulations.

SEC. 6. The operation and maintenance of a project under license pursuant to this Act shall be subject to reasonable rules and regulations by the Secretary of the Army in the interest of flood control and navigation. To assure that there shall be no discrimination between States in the area served by the project, such license shall provide that the licensee shall offer a reasonable portion of the power capacity and a reasonable portion of the power output of the project for sale within the economic market area in neighboring States and shall cooperate with agencies in such States to insure compliance with this requirement: *Provided*, That in the event of disagreement between the licensee and the power marketing agencies (public or private) in any of the other States within the economic market area, the Federal Power Commission may determine and fix the applicable portion of power capacity and power output to be made available hereunder and the terms applicable thereto. Power surplus to the requirements of the licensee and other non-Federal marketing agencies (public or private) within the economic marketing area, as may be economically usable to the Federal system, may be made available to and may be purchased by the Bonneville Power Administrator at rates not higher than the rates charged such non-Federal marketing agencies, and under such terms and conditions as shall be mutually agreeable to the licensee and the Secretary of the Interior. Such power may be co-mingled with power from Federal dams in the Columbia River system for which the Bonneville Power Administrator has been designated marketing agent and shall be sold by the Administrator in accordance with the provisions of the Bonneville Project Act at established rate schedules.

50 Stat. 731.
16 USC 832-832f.
Effectivity.
16 USC 791a.

SEC. 7. If an application for a preliminary permit for a license under the Federal Power Act to authorize the development of the Priest Rapids site is not prosecuted with reasonable diligence before the Federal Power Commission and in any event if the license application is not filed with the Federal Power Commission prior to the date which is two years after the date of the enactment of this Act, the provisions of this Act shall not be effective after such date and the authorization for the development of the Priest Rapids site contained in the Flood Control Act of 1950 shall have the same status it would have had if this Act had not been enacted. In the event an application for a license is made and denied by the Federal Power Commission, or if construction under a license is not carried out in a reasonable period of time as determined by the Federal Power Commission, the authorization in the Flood Control Act of 1950 will have the same status it would have had if this Act had not been enacted. Notwithstanding any other provision of law, the Federal Power Commission shall act, on any such application filed with it prior to such date, within one year after the date on which such application is filed.

64 Stat. 179.

Approved July 27, 1954.

CHAPTER 591

AN ACT

July 28, 1954
[S. 2367]

To amend the Act of June 29, 1935 (the Bankhead-Jones Act), as amended, to strengthen the conduct of research of the Department of Agriculture.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act of June
