In the construction of any Government-owned industrial facilities, in the rendition of any Government financial assistance for the construction, expansion, or improvement of any industrial facilities, and in the procurement of goods and services, under this or any other Act, each department and agency of the Executive Branch shall apply, under the coordination of the Office of Defense Mobilization, when practicable and consistent with existing law and the desirability for maintaining a sound economy, the principle of the geographical dispersal of such facilities in the interest of national defense. Nothing contained in this paragraph shall preclude the use of existing industrial facilities.

SEC. 5. Effective July 1, 1956, section 712 (e) of the Defense Production Act of 1950, as amended, is amended to read as follows:

"(e) The expenses of the committee under this section, which shall not exceed $65,000 in any fiscal year, shall be paid from the contingent fund of the House of Representatives upon vouchers signed by the Chairman or Vice Chairman."

Approved June 29, 1956.

Public Law 633

AN ACT

To authorize the Secretary of the Interior to enter into an additional contract with the Yuma County Water Users' Association with respect to payment of construction charges on the Valley division, Yuma reclamation project, Arizona, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Interior, hereinafter in this Act referred to as the Secretary, is hereby authorized to enter into a contract with the Yuma County Water Users' Association, an Arizona corporation providing for the collection and retention by the association of all construction charge payments made subsequent to the date of such contract under water-right applications on the Valley division of the Yuma reclamation project outstanding on the date of such contract and water-right applications thereafter approved on said division and the release of the association from its guaranty to the United States of all amounts then due or thereafter to become due on said applications in consideration of the assumption by the association of the general repayment obligation defined in section 2 hereof payable to the United States without interest in annual installments not smaller than the aggregate of the payments which, in the opinion of the Secretary, would have become due pursuant to the provisions of said water-right applications.

SEC. 2. The general repayment obligation payable under the contract authorized by section 1 of this Act shall be ascertained by the Secretary (a) by adding to $165,605.46 any operation and maintenance costs incurred on or after January 1, 1955, which are unpaid on the date of the contract, (b) by subtracting from the sum thereof (i) any payments under water-right applications heretofore or hereafter approved by the Secretary on the Valley division which have become due and payable and which have been received beginning with January 1, 1955, and prior to the date of the contract, and (ii) net profits earned on or after January 1, 1955, and prior to June 30 preceding the date of the contract which are determined by the Secretary to be properly allocable to the Valley division, and as provided in section 3 of this Act, and (e) by adjusting the difference between (a) and (b) to reflect an appropriate share, as determined by the Secretary, of any Southern Pacific Ry. trestle.
amount by which the cost to the Government of a certain trestle to be constructed by the Southern Pacific Railway Company across the Yuma Main Canal pursuant to the contract dated April 15, 1912, between it and the United States varies from $175,306. The Secretary is hereby authorized to transfer to the association, (a) those structures covered by agreement between the United States and the association dated April 1, 1953, and bearing contract numbered 14-06-303-490, as amended March 29, 1955, and a twenty-four-stall garage in the vicinity of said structures in consideration of the cash payment or addition to the said general repayment obligation of the net book cost of $15,000 less the aggregate of payments made by the association to the United States prior to the date of such transfer under said agreement and under agreement between the United States and the association dated November 6, 1952, and bearing contract numbered 14-06-303-79; and (b) the buildings located at 105, 115, and 121 North Fifth Avenue, respectively, and at 460 First Street, within the exterior boundaries of the city of Yuma, Arizona, in consideration of the cash payment or addition to said general repayment obligation of the further sum of $3,756.87: Provided, That such transfers shall not include title to the lands on which any such structures or buildings are located.

SEC. 3. The net profits to be deducted pursuant to section 2 hereof shall constitute the portion determined by the Secretary to be allocable to said Valley Division of such profits derived to and including the June 30 immediately preceding the date of said contract from the following: leases, permits, and other arrangements for use of project lands and other project property within the division, the sale or use of townsites within the division, the sale of small tracts within the division pursuant to the Act of March 31, 1950 (64 Stat. 39, 43 U. S. C., secs. 375b-375f), and the furnishing of water or water service to other than water-right applicants from the irrigation works of the division. The contract authorized by section 1 hereof may also provide that for each subsequent fiscal year that portion of the net profits derived from the above-mentioned sources as well as the net profits from the Siphon Drop Powerplant after reserves for replacements, and/or depreciation and/or other appropriate purposes determined by the Secretary to be allocable to the division shall be credited annually, first on account of general repayment installments under said contract to become payable for the calendar year next following such fiscal year and second on account of operation and maintenance charges to become payable by the association to the United States for such calendar year, including but not limited to advance payments by the association for operation and maintenance of Siphon Drop Powerplant and payments for any rehabilitation work undertaken by the United States on behalf of the division. There is authorized to be transferred and deposited from time to time to the credit of the operation and maintenance appropriation for the Bureau of Reclamation from project revenues deposited in the reclamation fund amounts equal to the credits so applied on account of operation and maintenance charges payable by the association to the United States. The amounts thus credited to the operation and maintenance appropriation may be expended for the same objects and in the same manner as sums advanced by the association for the operation and maintenance of works retained by the United States: Provided, That if the Secretary determines that the portion of such net profits allocable to the division and available for such credit during any calendar year exceeds the aggregate of the general repayment installment, if any, and the operation and maintenance charge payable by the association to the United States, he may pay the amount of such excess to the association from the reclamation fund.

Approved June 29, 1956.
