AN ACT

To amend sections 1 and 5b of the Life Insurance Act for the District of Columbia.

June 27, 1960
[H. R. 10584]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) subparagraph (i) of paragraph (1) of subsection (c) of section 1 of chapter V of the Life Insurance Act (D.C. Code, section 35-701(c)(1)(i)) is amended to read as follows:

Life Insurance
Act, D. C.
Amendment.
62 Stat. 28.

"(i) For all ordinary policies of life insurance issued on the standard basis, excluding any disability and accidental death benefits in such policies, the Commissioners 1941 Standard Ordinary Mortality Table for such policies issued prior to the operative date of the last paragraph of section 5b(d) of this chapter, and the Commissioners 1958 Standard Ordinary Mortality Table for such policies issued on or after such operative date; provided that for any category of such policies issued on female risks all modified net premiums and present values referred to in this section may be calculated according to an age not more than three years younger than the actual age of the insured."

Mortality tables.

62 Stat. 32.

(b) Clause (B) of paragraph (2) of such subsection (D.C. Code, sec. 35-701(c)(2)(B)) is amended to read as follows:

Female risks.

62 Stat. 29.

"(B) A net one-year term premium for such benefits provided for in the first policy year.

"Reserves according to the Commissioners reserve valuation method for (i) life-insurance policies providing for a varying amount of insurance or requiring the payment of varying premiums, (ii) annuity and pure endowment contracts, (iii) disability and accidental death benefits in all policies and contracts, and (iv) all other benefits, except life insurance and endowment benefits in life-insurance policies, shall be calculated by a method consistent with the principles of this paragraph (2), except that any extra premiums charged because of impairments or special hazards shall be disregarded in the determination of modified net premiums."

Reserve valuation.

SEC. 2. (a) Subsection (d) of section 5b of chapter V of the Life Insurance Act (D.C. Code, sec. 35-705b(d)) is amended to read as follows:

62 Stat. 32.

Uniform percent-
age.

“(d) The adjusted premiums for any policy referred to in subsection (a) shall be calculated on an annual basis and shall be such uniform percentage of the respective premiums specified in the policy for each policy year, excluding any extra premiums charged because of impairments or special hazards, that the present value, at the date of issue of the policy, of all such adjusted premiums shall be equal to the sum of (i) the then present value of the future guaranteed benefits provided for by the policy; (ii) 2 per centum of the amount of insurance, if the insurance be uniform in amount, or of the equivalent uniform amount, as hereinafter defined, if the amount of insurance varies with duration of the policy; (iii) 40 per centum of the adjusted premium for the first policy year; (iv) 25 per centum of either the adjusted premium for the first policy year or the adjusted premium for a whole life policy of the same uniform or equivalent uniform amount with uniform premiums for the whole of life issued at the same age for the same amount of insurance, whichever is less: *Provided, however,* That in applying the percentages specified in (iii) and (iv) above, no adjusted premium shall be deemed to exceed 4 per centum of the amount of insurance or uniform amount equivalent thereto.

Juvenile poli-
cies.

“In the case of a policy providing an amount of insurance varying with duration of the policy, the equivalent uniform amount thereof for the purpose of this subsection shall be deemed to be the uniform amount of insurance provided by an otherwise similar policy, containing the same endowment benefit or benefits, if any, issued at the same age and for the same term, the amount of which does not vary with duration and the benefits under which have the same present value at the date of issue as the benefits under the policy: *Provided, however,* That in the case of a policy providing a varying amount of insurance issued on the life of a child under age ten, the equivalent uniform amount may be computed as though the amount of insurance provided by the policy prior to the attainment of age ten were the amount provided by such policy at age ten.

Adjusted prem-
iums, calcula-
tion.

“Except as otherwise provided in the next succeeding paragraph of this subsection, all adjusted premiums and present values referred to in this section shall for all policies of ordinary insurance be calculated on the basis of the Commissioners 1941 Standard Ordinary Mortality Table, provided that for any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated according to an age not more than three years younger than the actual age of the insured. Such calculations for all policies of industrial insurance shall be made on the basis of the 1941 Standard Industrial Mortality Table. All calculations shall be made on the basis of the rate of interest, not exceeding $3\frac{1}{2}$ per centum per annum, specified in the policy for calculating cash surrender values, if any, and paid-up nonforfeiture benefits: *Provided, however,* That in calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than 130 per centum of the rates of mortality according to such applicable table: *Provided further,* That for insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the company and approved by the Superintendent.

“In the case of ordinary policies issued on or after the operative date of this paragraph as defined herein, all adjusted premiums and present values referred to in this section shall be calculated on the basis of the Commissioners 1958 Standard Ordinary Mortality Table and the rate of interest, not exceeding $3\frac{1}{2}$ per centum per annum,

specified in the policy for calculating cash surrender values, if any, and paid-up nonforfeiture benefits, provided that for any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated according to an age not more than three years younger than the actual age of the insured: *Provided, however,* That in calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than those shown in the Commissioners 1958 Extended Term Insurance Table: *Provided further,* That for insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the company and approved by the Superintendent. After the effective date of the amendatory Act of 1960, any company may file with the Superintendent a written notice of its election to comply with the provisions of this paragraph after a specified date before January 1, 1966. After the filing of such notice, then upon such specified date (which shall be the operative date of this paragraph for such company), this paragraph shall become operative with respect to the ordinary policies thereafter issued by such company. If a company makes no such election, the operative date of this paragraph for such company shall be January 1, 1966."

Operative date.

(b) Clause (iv) of the fourth sentence of subsection (e) of such section (D.C. Code, sec. 35-705b(e)) is amended by striking out "decreasing".

62 Stat. 33.

(c) The last sentence of subsection (g) of such section (D.C. Code, sec. 35-705b(g)) is amended by inserting immediately before the period at the end thereof the following: "*Provided, however,* That the operative date of the last paragraph of subsection (d) shall be as stated therein".

62 Stat. 34.

Approved June 27, 1960.
