NINTH INTERNATIONAL CONGRESS ON
HIGH SPEED PHOTOGRAPHY

November 3, 1969
[S. Con. Res. 12]

Whereas high-speed photographic techniques can magnify the time scale of scientific phenomena revealing parameters for research, engineering, and testing that are extremely important to every nation; and

Whereas the First and Fifth International Congresses on High Speed Photography were held in the United States of America, as organized and conducted by the Society of Motion Picture and Television Engineers; and

Whereas the Fifth International Congress on High Speed Photography in 1960 was supported by the Federal Government, as expressed in the S. Con. Res. 75 in 1959; and

Whereas other meetings were held in Paris, London, Cologne, The Hague, Zurich, and Stockholm, and in each instance these meetings have received the recognition and the support of the governments of the respective host countries; and

Whereas with each meeting the International Congress on High Speed Photography has grown in prestige and stature, and attracts more countries in a continuing growth pattern; and

Whereas the importance of high-speed photography is reflected in nearly all of the physical sciences, including medical, biological, space, and many other fields; and

Whereas the Society of Motion Picture and Television Engineers is once again sponsoring the International Congress on High Speed Photography in Denver, Colorado, in August 1970 and is desirous of representing the United States of America as the host country in the best possible light; and

Whereas the Congress is fully appreciative of the importance of assuring this international scientific meeting is conducted in a manner which will bring credit and enhanced prestige to the United States of America; and

Whereas it is the belief of the Congress that—

(1) the democratic environment of the free world is the best environment for the achievement in science; and

(2) scientists and engineers have special advantages and opportunities to assist in achieving international understanding since the laws and concepts of science cross all national ideological boundaries; and

(3) high-speed photography is a universal tool in science, important to nearly all sciences internationally, and the International Congress on High Speed Photography is an excellent means of disseminating the advances in technology; and

Whereas the Congress is interested in (1) promoting international understanding and good will; (2) enhancing the excellence of American science, both basic and applied; and (3) furthering international cooperation in science and technology by creating the necessary climate for effective interchange of ideas: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of the Congress that all interested agencies of the Federal Government should participate actively to the greatest practicable extent in the Ninth International Congress on High Speed Photography to be held in Denver, Colorado, in August 1970, under the sponsorship of the Society of Motion Picture and Television Engineers.

Participation.

Agreed to November 3, 1969.
