

Proclamation 4018**MODIFYING PROCLAMATION NO. 3279 RELATING TO IMPORTS OF
PETROLEUM AND PETROLEUM PRODUCTS****By the President of the United States of America**October 16, 1970**A Proclamation**

The Director of the Office of Emergency Preparedness has found, with the advice of the Oil Policy Committee—

1. that the importation from Western Hemisphere sources into District I, without charge to import quotas, of 14.6 million barrels of No. 2 fuel oil during the period January 1, 1971 through December 31, 1971 for allocation to independent deepwater terminal operators under appropriate seasonal restrictions, would not adversely affect the national security;

2. that the importation authorized by this Proclamation of Canadian crude oil, unfinished oils, and finished products produced in Canada from Canadian crude oil by means of vessels operating on waterways (other than ocean waterways) in or between the United States and Canada, would not adversely affect the national security;

3. that the importation other than by sea from Canada of natural gas liquids produced in Canada, without charge to import quotas, would not adversely affect the national security;

4. that imports of ethane, propane and butane derived from Western Hemisphere sources may be increased without adversely affecting the national security;

5. that crude oil may be imported into District I to be topped for use as burner fuel subject to such conditions as the Secretary may specify by regulation, without adversely affecting the national security;

6. that Canadian crude oil may be imported into the United States from Canada to be topped for use as burner fuel under such conditions as the Secretary may specify by regulation, without adversely affecting the national security; and

7. that crude oil may, without regard to its viscosity, be imported for use as burner fuel, under the same conditions and restrictions as now apply to residual fuel oil imported for use as fuel, without adversely affecting the national security.

The Director has recommended, with the advice of the Oil Policy Committee, that Proclamation No. 3279, as amended, be amended to adjust imports in conformity with these findings.
