In recognition of the significant contributions of American hunters and fishermen in enhancing and preserving our environment, and to dramatize the continued need for gun and boat safety, the Congress, by House Joint Resolution 910, 93rd Congress, has requested the President to declare the fourth Saturday of September, 1974, as National Hunting and Fishing Day.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, do hereby designate Saturday, September 28, 1974, as National Hunting and Fishing Day.

I urge all of our citizens to join with outdoor sportsmen in the wise use of our natural resources and in insuring their proper management for the benefit of future generations.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-seventh day of September, in the year of our Lord nineteen hundred seventy-four and of the Independence of the United States of America, the one hundred ninety-ninth.

Proclamation 4319

September 28, 1974

**Enlarging the Boundaries of the Cabrillo
National Monument, California**

By the President of the United States of America

A Proclamation

73 Stat. c19.

The Cabrillo National Monument in San Diego County, California, was established by Proclamation No. 1255 of October 14, 1913 (38 Stat. 1965), on approximately one-half acre of land that, along with other lands, had originally been set aside for military purposes in 1852. The monument was enlarged by Proclamation No. 3273 of February 2, 1959, and now is situated on approximately eighty and one-half acres of land. The present area of the monument is not adequate for the proper care and management of the historical landmarks and historical objects in the area and it has been determined that approximately fifty-six and six-tenths acres of land should be added to the monument site. That new land is contiguous to the monument site and constitutes a part of the lands set aside but no longer needed for military purposes.

The additional land is essential to the proper care and management of the historical landmarks and historical objects in the area, and it is in the public interest to redefine the boundaries of, and add those contiguous lands to the monument to preserve the historical landmarks and historical objects of the area.

Under section 2 of the act of June 8, 1906 (34 Stat. 225, 16 U.S.C. 431), the President is authorized "to declare by public proclamation historic landmarks, historic and prehistoric structures, and objects of historic or scientific interest that are situated upon the lands owned or controlled by the Government of the United States to be national monuments, and may reserve as a part thereof parcels of land, the limits of which in all cases shall be confined to the smallest area compatible with the proper care and management of the objects to be protected. The monument, as enlarged by this Proclamation, will be confined to the smallest area compatible with the protection and management of the objects to be protected.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, under and by virtue of the authority vested in me by section 2 of the act of Congress approved June 8, 1906, 34 Stat. 225 (16 U.S.C. 431), do hereby proclaim that, subject to valid existing rights, the lands owned or controlled by the United States within the following described lands are hereby added to and made a part of the Cabrillo National Monument:

Proclamation 4320

October 2, 1974

Fire Prevention Week, 1974

By the President of the United States of America

A Proclamation

Losses by destructive fires, many of which could have been prevented, constitute a tragic waste of our Nation's human and material resources. Destructive fire is a burden affecting all Americans and constitutes a public health and safety problem of major magnitude.

Our great Nation, blessed with unparalleled technological resources, has the highest per capita rate of death and property loss from fire of all the major industrialized nations in the world. Of most concern is the needless loss of human life. Each year over 12,000 Americans die and over 300,000 are seriously injured and maimed. The tragic part is that the large majority of the deaths and injuries victimize the very young and the aged. In 1973, nearly 2.7 million fires caused in excess of \$3 billion in direct property damage, with the total costs of fire, including fire departments costs, estimated at well over \$11 billion.
