TITLE II—RANDOLPH-SHEPPARD ACT AMENDMENTS

SHORT TITLE

Sec. 200. This title may be cited as the "Randolph-Sheppard Act Amendments of 1974".

FINDINGS

Sec. 201. The Congress finds—

(1) after review of the operation of the blind vending stand program authorized under the Randolph-Sheppard Act of June 20, 1936, that the program has not developed, and has not been sustained, in the manner and spirit in which the Congress intended at the time of its enactment, and that, in fact, the growth of the program has been inhibited by a number of external forces;

(2) that the potential exists for doubling the number of blind operators on Federal and other property under the Randolph-Sheppard program within the next five years, provided the obstacles to growth are removed, that legislative and administrative means exist to remove such obstacles, and that Congress should adopt legislation to that end; and

(3) that at a minimum the following actions must be taken to insure the continued vitality and expansion of the Randolph-Sheppard program—

(A) establish uniformity of treatment of blind vendors by all Federal departments, agencies, and instrumentalities,

(B) establish guidelines for the operation of the program by State licensing agencies,

(C) require coordination among the several entities with responsibility for the program,

(D) establish a priority for vending facilities operated by blind vendors on Federal property,

(E) establish administrative and judicial procedures under which fair treatment of blind vendors, State licensing agencies, and the Federal Government is assured,

(F) require stronger administration and oversight functions in the Federal office carrying out the program, and

(G) accomplish other legislative and administrative objectives which will permit the Randolph-Sheppard program to flourish.
SEC. 202. The first section of the Act entitled "An Act to authorize the operation of stands in Federal buildings by blind persons, to enlarge the economic opportunities of the blind, and for other purposes" (hereafter referred to in this title as the "Randolph-Sheppard Act"), approved June 20, 1936, as amended (20 U.S.C. 107), is amended by striking out all after the enacting clause and inserting in lieu thereof the following:

"That (a) for the purposes of providing blind persons with remunerative employment, enlarging the economic opportunities of the blind, and stimulating the blind to greater efforts in striving to make themselves self-supporting, blind persons licensed under the provisions of this Act shall be authorized to operate vending facilities on any Federal property.

Regulations. "(b) In authorizing the operation of vending facilities on Federal property, priority shall be given to blind persons licensed by a State agency as provided in this Act; and the Secretary, through the Commissioner, shall, after consultation with the Administrator of General Services and other heads of departments, agencies, or instrumentalities of the United States in control of the maintenance, operation, and protection of Federal property, prescribe regulations designed to assure that—

"(1) the priority under this subsection is given to such licensed blind persons (including assignment of vending machine income pursuant to section 7 of this Act to achieve and protect such priority), and

"(2) wherever feasible, one or more vending facilities are established on all Federal property to the extent that any such facility or facilities would not adversely affect the interests of the United States.

Any limitation on the placement or operation of a vending facility based on a finding that such placement or operation would adversely affect the interests of the United States shall be fully justified in writing to the Secretary, who shall determine whether such limitation is justified. A determination made by the Secretary pursuant to this provision shall be binding on any department, agency, or instrumentality of the United States affected by such determination. The Secretary shall publish such determination, along with supporting documentation, in the Federal Register."

Title III—White House Conference on Handicapped Individuals

Short Title

Sec. 300. This title may be cited as the "White House Conference on Handicapped Individuals Act".

Findings and Policy

Sec. 301. The Congress finds that—

1. the United States has achieved great and satisfying success in making possible a better quality of life for a large and increasing percentage of our population;

2. the benefits and fundamental rights of this society are often denied those individuals with mental and physical handicaps;

3. there are seven million children and at least twenty-eight million adults with mental or physical handicaps;

4. it is of critical importance to this Nation that equality of opportunity, equal access to all aspects of society and equal rights guaranteed by the Constitution of the United States be provided to all individuals with handicaps;

5. the primary responsibility for meeting the challenge and problems of individuals with handicaps has often fallen on the individual or his family;

6. it is essential that recommendations be made to assure that all individuals with handicaps are able to live their lives independently and with dignity, and that the complete integration of all individuals with handicaps into normal community living, working, and service patterns be held as the final objective; and

7. all levels of Government must necessarily share responsibility for developing opportunities for individuals with handicaps.

And it is therefore the policy of the Congress that the Federal Government work jointly with the States and their citizens to develop recommendations and plans for action in solving the multifold problems facing individuals with handicaps.

Authority of President, Council, and Secretary

Sec. 302. (a) The President is authorized to call a White House Conference on Handicapped Individuals not later than two years after the date of enactment of this title in order to develop recommendations and stimulate a national assessment of problems, and solutions to such problems, facing individuals with handicaps. Such a conference shall be planned and conducted under the direction of the National Planning and Advisory Council, established pursuant to subsection (b) of this section, and the Secretary of Health, Education, and Welfare (hereinafter referred to as the "Secretary") and each Federal department and agency shall provide such cooperation and assistance to the Council, including the assignment of personnel, as may reasonably be required by the Secretary.

(b) (1) There is established a National Planning and Advisory Council (in this title referred to as the "Council"), appointed by the
Secretary, composed of twenty-eight members of whom not less than ten shall be individuals with handicaps appointed to represent all individuals with handicaps, and five shall be parents of individuals with handicaps appointed to represent all such parents and individuals. The Council shall provide guidance and planning for the Conference.

(2) Any member of the Council who is otherwise employed by the Federal Government shall serve without compensation in addition to that received in his regular employment.

(3) Members of the Council, other than those referred to in paragraph (1), shall receive compensation at rates not to exceed the daily rate prescribed for GS-18 under section 5332, title 5, United States Code, for each day they are engaged in the performance of their duties (including traveltime); and, while so serving away from their homes or regular places of business, they shall be allowed travel expenses, including per diem in lieu of subsistence, in the same manner as the expenses authorized by section 5703, title 5, United States Code, for persons in Government service employed intermittently.

(4) Such Council shall cease to exist one-hundred and twenty days after the submission of the final report required by section 302(e).

(c) For the purpose of ascertaining facts and making recommendations concerning the utilization of skills, experience, and energies, and the improvement of the conditions of individuals with handicaps, the Conference shall bring together individuals with handicaps and members of their families and representatives of Federal, State, and local governments, professional experts, and members of the general public recognized by individuals with handicaps as being knowledgeable about problems affecting their lives.

(d) Participants in the White House Conference, and in conferences and other activities leading up to the White House Conference at the local and State level are authorized to consider all matters related to the purposes of the Conference set forth in subsection (a), but shall give special consideration to recommendations for:

1. providing education, health, and diagnostic services for all children early in life so that handicapping conditions may be discovered and treated;
2. assuring that every individual with a handicap receives appropriately designed benefits of the educational system;
3. assuring that individuals with handicaps have available to them all special services and assistance which will enable them to live their lives as fully and independently as possible;
4. enabling individuals with handicaps to have access to usable communication services and devices at costs comparable to other members of the population;
5. assuring that individuals with handicaps will have maximum mobility to participate in all aspects of society, including access to all public-assisted transportation services and, when necessary, alternative means of transportation at comparable cost;
6. improving utilization and adaptation of modern engineering and other technology to ameliorate the impact of handicapping conditions on the lives of individuals and especially on their access to housing and other structures;
7. assuring individuals with handicaps of equal opportunity with others to engage in gainful employment;
8. enabling individuals with handicaps to have incomes sufficient for health and for participation in family and community life as self-respecting citizens;
(9) increasing research relating to all aspects of handicapping conditions, stressing the elimination of causes of handicapping conditions and the amelioration of the effects of such conditions;
(10) assuring close attention and assessment of all aspects of diagnosis and evaluation of individuals with handicaps;
(11) assuring review and evaluation of all governmental programs in areas affecting individuals with handicaps, and a close examination of the public role in order to plan for the future;
(12) resolving the special problems of veterans with handicaps;
(13) resolving the problems of public awareness and attitudes that restrict individuals with handicaps from participating in society to their fullest extent;
(14) resolving the special problems of individuals with handicaps who are homebound or institutionalized;
(15) resolving the special problems of individuals with handicaps who have limited English-speaking ability;
(16) alloting funds for basic vocational rehabilitation services under part B of title I of the Rehabilitation Act of 1973 in a fair and equitable manner in consideration of the factors set forth in section 407(a) of such Act; and
(17) promoting other related matters for individuals with handicaps.

(e) A final report of the White House Conference on Handicapped Individuals shall be submitted by the Council to the President not later than one hundred and twenty days following the date on which the conference is called, and the findings and recommendations included therein shall be immediately made available to the public. The Council and the Secretary shall, within ninety days after the submission of such final report, transmit to the President and the Congress their recommendations for administrative action and legislation necessary to implement the recommendations contained in such report.
