State agencies shall elect and use one of the following two methods in calculating income for all other households:

“(1) taking into account the income reasonably anticipated to be received by the household in the certification period for which
eligibility is being determined and the income that has been received by the household during the thirty days preceding the filing of its application for food stamps so that the State agency may reasonably ascertain the income that is and will be actually available to the household for the certification period; or

“(2) using income received in a previous month as the basis, in accordance with standards prescribed by the Secretary, except for the month of application and subsequent months specified by the Secretary for newly applying households (other than households reapplying within thirty days after the end of a prior certification period). In addition, the Secretary shall make modifications or exceptions to this method of income calculation with respect to households experiencing sudden and significant losses of income (including households experiencing losses of income of $50 per month or more) or the addition of a new member, households in immediate need in accordance with the provisions of section 11(e)(9) of this Act, migrant farmworker households, and other classes of households if the Secretary determines that this method of income calculation would be impracticable to administer or would cause serious hardship for such households. All report forms, including those related to periodic reports of circumstances, shall contain a description, in understandable terms in prominent and bold face lettering, of the appropriate civil and criminal provisions dealing with violations of this Act including the prescribed penalties. The reporting requirements contained in paragraph (1) of this subsection shall be the sole such requirements for reporting changes in circumstances for participating households.
