Public Law 96-285
96th Congress

An Act

To establish the Tensas River National Wildlife Refuge.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

CONGRESSIONAL FINDINGS

SECTION 1. The Congress finds that—
(1) the great forests of hardwoods, which once covered vast acreages along the lower reach of the Mississippi River Valley, are rapidly being destroyed;
(2) the remaining forests constitute a unique ecological, commercial, and recreational resource, providing a combination of forest products, habitat for a diversity of fish and wildlife, and opportunities to the public for scientific research and for recreational activities such as hunting, fishing, hiking, boating, and wildlife observation;
(3) the area within which the Tensas River National Wildlife Refuge will be located contains one of the largest tracts of such forests in the Mississippi River Valley; and
(4) establishment of the refuge represents a significant action by the Federal Government for the preservation and development of the environmental resources in the basins of the Tensas, Bouef, and Red Rivers of the State of Louisiana.

DEFINITIONS

SEC. 2. As used in this Act—
(1) the term "refuge" means the Tensas River National Wildlife Refuge that includes those lands and waters, and interests therein, located along the Tensas River in Franklin, Madison, and Tensas Parishes, Louisiana, that are depicted on the map entitled "Tensas River National Wildlife Refuge", dated February 1980, and on file at the United States Fish and Wildlife Service.
(2) The term "Secretary" means the Secretary of the Interior.

ESTABLISHMENT OF REFUGE

SEC. 3. (a) ACQUISITION.—Within four years after the date of the enactment of this Act—
(1) the Secretary shall acquire lands and waters, and interests therein, referred to in section 2(1) through donation, purchase with donated or appropriated funds, or exchange, or through any combination of the foregoing; and
(2) the Secretary of the Army shall acquire such of those lands and waters, and interests therein, referred to in section 2(1) as are not acquired under paragraph (1).
The Secretary of the Army shall transfer to the Secretary jurisdiction over all lands and waters, and interests therein, acquired under paragraph (2) and the Secretary shall include all such lands, waters, and interests in the refuge. The Secretary and the Secretary of the Army may only enter into contracts or incur obligations to purchase lands and waters, and interests therein with appropriated funds to the extent budget authority has been provided in advance in appropriation Acts.

(b) ESTABLISHMENT.—At such time as sufficient lands and waters, and interests therein, have been acquired under subsection (a)(1) and (2) to constitute an area that can be administered for refuge purposes, the Secretary shall establish the Tensas River National Wildlife Refuge by publication of notice to that effect in the Federal Register.

(c) ADJUSTMENTS.—The Secretary may make such minor adjustments with respect to the boundary of the refuge as may be necessary to facilitate the acquisition of lands and waters, and interests therein, for the refuge and to facilitate the administration of the refuge.

(d) ARMY ACQUISITIONS IN LIEU OF CERTAIN OTHER MITIGATION ACTIONS.—The land and waters and interests therein, which the Secretary of the Army is required to acquire under subsection (a)(2) of this section, shall when acquired in total be in lieu of and in satisfaction of the mitigation acquisitions which otherwise would be required for the following Corps of Engineers water resources projects and modifications thereof: the Tensas River project, the Tensas-Cocodrie Pumping Plant, the Sicily Island Levee, the Bushley Bayou Levee, the Below Red River Levee, and that portion of the Red River Waterway Project below River Mile 104. Should any of these projects not be authorized or implemented, the Secretary of the Army, in consultation with the Secretary, may substitute additional projects with similar mitigation requirements which may be authorized for construction in the future and which are located wholly within the State of Louisiana and within the area depicted on the Corps of Engineers map entitled “Tensas National Wildlife Refuge Mitigation Area” dated April 1980 and on file in the Office of the Chief of Engineers, which mitigation area includes the basins of the Tensas, Bouef, Ouachita and Black Rivers and the Red River basin below River Mile 104.

ADMINISTRATION

SEC. 4. (a) IN GENERAL.—The Secretary shall administer all lands and waters, and interests therein, acquired under this Act in accordance with the provisions of the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-668ee) to conserve the diversity of fish and wildlife and their habitat within the refuge; except that the Secretary may utilize such additional statutory authority as may be available to him for the conservation and development of wildlife and natural resources, the development of outdoor recreation opportunities, and interpretative education, as he deems appropriate to carry out the purposes of the refuge. The Secretary shall give special consideration to the management of the timber on the refuge to insure continued commercial production and harvest compatible with the purposes for which the refuge is established and the needs of fish and wildlife which depend upon a dynamic and diversified hardwood forest.

(b) FLOOD CONTROL.—The Secretary shall administer the refuge as part of an overall Federal management plan for the use of water and related land resources for the area. This Act shall not preclude the
construction and maintenance of the Tensas River flood control project, authorized by the Flood Control Act of 1944, as amended, in such modified configuration as may be determined by the Secretary of the Army, in consultation with the Secretary. The Secretary shall assist the Secretary of the Army in this flood control project, including the provision of all lands and rights-of-ways necessary for project construction and maintenance within the refuge area as determined by the Secretary of the Army, in consultation with the Secretary. The establishment of the refuge shall not preclude any other public or private works, determined to be in the public interest, to relieve flooding along or adjacent to the Tensas River.

AUTHORIZATION OF APPROPRIATIONS

SEC. 5. For the purposes of carrying out this Act, there are authorized to be appropriated, beginning October 1, 1980—

(1) not to exceed $10,000,000 to the Department of the Interior; to remain available until September 30, 1985, and

(2) not to exceed $40,000,000 to the Department of the Army, to remain available until September 30, 1985.

Approved June 28, 1980.

LEGISLATIVE HISTORY:

HOUSE REPORT No. 96-891 (Comm. on Merchant Marine and Fisheries).
SENATE REPORT No. 96-741 accompanying S. 2244 (Comm. on Environment and Public Works).
CONGRESSIONAL RECORD, Vol. 126 (1980):
May 5, considered and passed House.
May 22, considered and passed Senate, amended, in lieu of S. 2244.
June 16, House concurred in Senate amendment.
