**Proclamation 4905 of March 1, 1982**

**National Construction Industry Week, 1982**

*By the President of the United States of America*

*A Proclamation*

The construction industry is one of the largest sectors of the economy of this nation, providing jobs for five percent of our work force. Over the decades, this industry has played a vital role in our lives, helping us meet the need for more homes, schools, hospitals, roads, subways, factories, and recreation facilities. The American construction industry has always met the challenge, supplying us with the highest quality craftsmanship in the world and pioneering countless advances in the field.

Construction labor and management alike have historically taken pride in their spirit of rugged individualism, a spirit that has enabled them to overcome the adversities imposed upon a seasonal and cyclical industry.

Because of its unique nature, however, the construction industry is also unusually affected by downturns in the economy. It is with pride that I salute the hearty individuals who persevere in the face of tough obstacles, and I reiterate my commitment to revitalize the construction industry and bring it back to an environment of prosperity.

*Ante*, p. 8.

The Congress has, by Senate Joint Resolution 122, demonstrated its commitment by requesting me to designate February 28 through March 6, 1982, as National Construction Industry Week.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby proclaim February 28 through March 6, 1982, as National Construction Industry Week. I call upon the people of the United States and all Government agencies to observe the week with appropriate programs, ceremonies, and activities.

IN WITNESS WHEREOF, I have hereby set my hand this first day of March, in the year of our Lord nineteen hundred and eighty-two, and of the Independence of the United States of America the two hundred and sixth.

RONALD REAGAN

**Proclamation 4906 of March 4, 1982**

**Louisiana World Exposition of 1984**

*By the President of the United States of America  
A Proclamation*

In 1984, the United States of America will host a major international exposition that will explore the fundamental relationship of water to life. To be held in New Orleans on the great Mississippi River, the Louisiana World Exposition has its theme "The World of Rivers—Fresh Water as a Source of Life."

The theme is most timely and appropriate.

We are the first generation in history to have seen the Earth from space, and it has given us new understanding. As seen from those great distances, the dominant colors of Earth are blue and white; blue for the great oceans, and white for the canopy of clouds that replenish the land with fresh water, forming rivers and streams that lead again to the oceans. Earth is primarily a water planet.

As the world economy grows, the wise use of all resources, including fresh water, becomes increasingly important. The direct human suffering caused by severe droughts and floods is monumental and can affect the global economic and political system. Man's technological and economic response to the challenge of new demands on our water needs to be shared and demonstrated.

There is inspiration, too, in the power and majesty of the world's rivers and their role in shaping the culture and history of so many different peoples. This celebration of the World of Rivers will be a celebration of the human experience itself.

With its many splendid opportunities for cultural and technological exchange, the Louisiana World Exposition has the full and enthusiastic support of the United States Government. In accordance with law, I shall appoint a United States Commissioner General to exercise the responsibility of the United States Government for fulfillment of the Convention of November 22, 1928, Relating to International Expositions, as modified.
