

Importation for Infringing Distribution. The second situation covered by section 602 is that where the copies or phonorecords were lawfully made but their distribution in the United States would infringe the U.S. copyright owner's exclusive rights. As already said, the mere act of importation in this situation would constitute an act of infringement and could be enjoined. However, in cases of this sort it would be impracticable for the United States Customs Service to attempt to enforce the importation prohibition, and section 602(b) provides that, unless a violation of the manufacturing requirements is also involved, the Service has no authority to prevent importation, "where the copies or phonorecords were lawfully made." The subsection would authorize the establishment of a procedure under which copyright owners could arrange for the Customs Service to notify them wherever articles appearing to infringe their works are imported.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 501, 511, 603 of this title.

§ 603. Importation prohibitions: Enforcement and disposition of excluded articles

(a) The Secretary of the Treasury and the United States Postal Service shall separately or jointly make regulations for the enforcement of the provisions of this title prohibiting importation.

(b) These regulations may require, as a condition for the exclusion of articles under section 602—

(1) that the person seeking exclusion obtain a court order enjoining importation of the articles; or

(2) that the person seeking exclusion furnish proof, of a specified nature and in accordance with prescribed procedures, that the copyright in which such person claims an interest is valid and that the importation would violate the prohibition in section 602; the person seeking exclusion may also be required to post a surety bond for any injury that may result if the detention or exclusion of the articles proves to be unjustified.

(c) Articles imported in violation of the importation prohibitions of this title are subject to seizure and forfeiture in the same manner as property imported in violation of the customs revenue laws. Forfeited articles shall be destroyed as directed by the Secretary of the Treasury or the court, as the case may be; however, the articles may be returned to the country of export whenever it is shown to the satisfaction of the Secretary of the Treasury that the importer had no reasonable grounds for believing that his or her acts constituted a violation of law.

HISTORICAL AND REVISION NOTES

HOUSE REPORT NO. 94-1476

The importation prohibitions of both sections 601 and 602 would be enforced under section 603, which is similar to section 109 of the statute now in effect [section 109 of former title 17]. Subsection (a) would authorize

the Secretary of the Treasury and the United States Postal Service to make regulations for this purpose, and subsection (c) provides for the disposition of excluded articles.

Subsection (b) of section 603 deals only with the prohibition against importation of "piratical" copies or phonorecords, and is aimed at solving problems that have arisen under the present statute. Since the United States Customs Service is often in no position to make determinations as to whether particular articles are "piratical," section 603(b) would permit the Customs regulations to require the person seeking exclusion either to obtain a court order enjoining importation, or to furnish proof of his claim and to post bond.

HISTORICAL AND REVISION NOTES

HOUSE REPORT NO. 94-1476

Chapter 7 entitled "Copyright Office," sets forth the administrative and housekeeping provisions of the bill.

Administrative Procedure Act. Under an amendment to section 701 adopted by the Committee, the Copyright Office is made fully subject to the Administrative Procedure Act [5 U.S.C. 551 et seq. and 701 et seq.] with one exception: under section 706(b), reproduction and distribution of copyright deposit copies would be made under the Freedom of Information Act [5 U.S.C. 552] only to the extent permitted by the Copyright Office regulations.

Retention and Disposition of Deposited Articles. A recurring problem in the administration of the copyright law has been the need to reconcile the storage limitations of the Copyright Office with the continued value of deposits in identifying copyrighted works. Aside from its indisputable utility to future historians and scholars, a substantially complete collection of both published and unpublished deposits, other than those selected by the Library of Congress, would avoid the many difficulties encountered when copies needed for identification in connection with litigation or other purposes have been destroyed. The basic policy behind section 704 is that copyright deposits should be retained as long as possible, but that the Register of Copyrights and the Librarian of Congress should be empowered to dispose of them under appropriate safeguards when they decide that it has become necessary to do so.

Under subsection (a) of section 704, any copy, phonorecord, or identifying material deposited for registration, whether registered or not, becomes "the property of the United States Government." This means that the copyright owner or person who made the deposit cannot demand its return as a matter of right, even in

rejection cases, although the provisions of section 407 and 408 are flexible enough to allow for special arrangements in exceptional cases. On the other hand, Government ownership of deposited articles under section 704(a) carries with it no privileges under the copyright itself; use of a deposited article in violation of the copyright owner's exclusive rights would be infringement.

With respect to published works, section 704(b) makes all deposits available to the Library of Congress "for its collections, or for exchanges or transfer to any other library"; where the work is unpublished, the Library is authorized to select any deposit for its own collections or for transfer to the National Archives of the United States or to a Federal records center.

Motion picture producers have expressed some concern lest the right to transfer copies of works, such as motion pictures, that have been published under rental, lease, or loan arrangements, might lead to abuse. However, the Library of Congress has not knowingly transferred works of this sort to other libraries in the past, and there is no reason to expect it to do so in the future.

The Committee added a new subsection (c) to section 704, under which the Register is authorized to make microfilm or other record copies of copyright deposits before transferring or otherwise disposing of them.

For deposits not selected by the Library, subsection (d) provides that they, or "identifying portions or reproductions of them," are to be retained under Copyright Office control "for the longest period considered practicable and desirable" by the Register and the Librarian. When and if they ultimately decide that retention of certain deposited articles is no longer "practicable and desirable," the Register and Librarian have joint discretion to order their "destruction or other disposition." Because of the unique value and irreplaceable nature of unpublished deposits, the subsection prohibits their intentional destruction during their copyright term, unless a facsimile reproduction has been made.

Subsection (e) of section 704 establishes a new procedure under which a copyright owner can request retention of deposited material for the full term of copyright. The Register of Copyrights is authorized to issue regulations prescribing the fees for this service and the "conditions under which such requests are to be made and granted."

Catalog of Copyright Entries. Section 707(a) of the bill retains the present statute's basis requirement that the Register compile and publish catalogs of all copyright registrations at periodic intervals, but provides for "discretion to determine, on the basis of practicability and usefulness the form and frequency of publication of each particular part". This provision will in no way diminish the utility or value of the present catalogs, and the flexibility of approach, coupled with use of the new mechanical and electronic devices now becoming available, will avoid waste and result in a better product.

Copyright Office Fees. The schedule of fees set out in section 708 reflects a general increase in the fees of the Copyright Office from those established by the Congress in 1965. The basic fees are \$10 for registration, \$6 for renewal registration, \$10 for recordation of documents and \$10 per hour for searching. The section also contains new fee provisions needed because of new requirements or services established under the bill, and subsection (a)(11) authorizes the Register to fix additional fees, on the "basis of the cost of providing the service," "for any other special services requiring a substantial amount of time or expense." Subsection (b) makes clear that, except for the possibility of waivers in "occasional or isolated cases involving relatively small amounts," the Register is to charge fees for services rendered to other Government agencies.

Postal Interruptions. Section 709 authorizes the Register of Copyrights to issue regulation to permit the acceptance by the Copyright Office of documents which are delivered after the close of the prescribed period if the delay was caused by a general disruption or suspen-

sion of postal or other transportation or communications services.

Reproductions for the Blind and Handicapped. Section 710 directs the Register of Copyrights to establish by regulation forms and procedures by which the copyright owners of certain categories of works may voluntarily grant to the Library of Congress a license to reproduce and distribute copies or phonorecords of the work solely for the use of the blind and physically handicapped.

In any case in which the Register of Copyrights determines, on the basis of such evidence as the Register may by regulation require, that a deposit, application, fee, or any other material to be delivered to the Copyright Office by a particular date, would have been received in the Copyright Office in due time except for a general disruption or suspension of postal or other transportation or communications services, the actual receipt of such material in the Copyright Office within one month after the date on which the Register determines that the disruption or suspension of such services has terminated, shall be considered timely.

HISTORICAL AND REVISION NOTES

HOUSE REPORT NO. 94-1476

Chapter 8 [this chapter] establishes a Copyright Royalty Commission for the purpose of periodically reviewing and adjusting statutory royalty rates for use of copyrighted materials pursuant to compulsory licenses provided in sections 111 (secondary transmissions by cable systems), 115 (mechanical royalties) and 116 (jukebox) of the bill. In addition, the Commission will make determinations as to reasonable terms and rates of royalty payments as provided in section 118 (public broadcasting), and to resolve disputes over the distribution of royalties paid pursuant to the statutory licenses in sections 111 and 116.

The Committee recognizes that the industries affected by the royalty rates over which the Commission has jurisdiction are very different, and it is therefore expected that any adjustment of a rate by the Commission shall be based on the economic conditions peculiar to the industries affected by that rate. Likewise, the Committee recognizes the fact that the cable television industry is a developing industry in transition, whereas the recording and jukebox industries are long-established. Therefore, the Committee has chosen periods of different lengths in which the Commission is to review the rates affecting those industries. Rates for retransmission of copyrighted works by cable television systems will be reviewed in 1980 and each subsequent fifth year. Rates established for mechanical reproduction will be reviewed in 1980, 1987, and in each subsequent 10th year. Rates for performance by jukebox will be reviewed in 1980, and in each subsequent 10th year. Rates and terms under section 118 will be reviewed in 1982 and in each subsequent fifth year. The Committee does not intend that rate changes, whether up or down, should necessarily be made as the result of such periodic reviews.

The Committee has chosen to stagger the times for review of the various rates established under the bill so as to balance the workload of the Commission. Cable and copyright owners agreed to a set of standards for the adjustment of rates which the Committee in large measure has accepted. No specific standards governing the establishment or adjustment of rates by the Commission, other than rates for cable transmissions, have been detailed in the legislation, because the Committee did not wish to limit the factors that the Commission might consider in a world of constantly changing economics and technology. However, it is anticipated that the Commission will consider the following objectives in determining a reasonable rate under sections 115 and 116:

- (1) The rate should maximize the availability of diverse creative works to the public.
- (2) The rate should afford the copyright owner a fair income, or if the owner is not a person, a fair profit, under existing economic conditions, in order to encourage creative activity.
- (3) The rate should not jeopardize the ability of the copyright user—
 - (a) to earn a fair income, or if the user is not a person, a fair profit, under existing economic conditions, and
 - (b) to charge the consumer a reasonable price for the product.

¹ So in original. Does not conform to section catchline.

(4) The rate should reflect the relative roles of the copyright owner and the copyright user in the product made available to the public with respect to relative creative contribution, technological contribution, capital investment, cost, risk, and contribution to the opening of new markets for creative expression and media for their communication.

(5) The rate should minimize any disruptive impact on the structure of the industries involved and on generally prevailing industry practices.

Similar considerations are noted in connection with Commission review of rates and terms for public broadcasting in the discussion of section 118, above.

Structure of the Copyright Royalty Commission. The Senate bill provides that, upon certifying the existence of a controversy concerning distribution of statutory royalty fees or upon periodic petition for review of statutory royalty rates by an interested party, the Register of Copyrights, is to convene a three member panel to constitute a Copyright Royalty Tribunal for the purpose of resolving the controversy or reviewing the rates.

The Senate bill provides that the Tribunal be appointed by the Register from among the membership of the American Arbitration Association or similar organization. The Tribunal is to exist within the Library of Congress.

Due to constitutional concern over the provision of the Senate bill that the Register of Copyrights, an employee of the Legislative Branch appoint the members of the Tribunal, the Committee adopted an amendment providing for direct appointment of three individuals by the President. The name of the Tribunal was changed to the Copyright Royalty Commission.

Although under the Committee Amendment, the Commission is to be an independent authority, it is to receive administrative support from the Library of Congress.

The Commission is authorized to appoint a staff to assist it in carrying out its responsibilities. However, it is expected that the staff will consist only of sufficient clerical personnel to provide one full time secretary for each member and one or two additional employees to meet the clerical needs of the entire Commission. Members of the Commission are expected to perform all professional responsibilities themselves, except where it is necessary to employ outside experts on a consulting basis. Assistance in matters of administration, such as payroll and budgeting, will be available from the Library of Congress.

The Committee expects that the President shall appoint members of the Commission from among persons who have demonstrated professional competence in the field of copyright policy.

Adjustment of Cable Television Royalty Rates. Section 801(b)(2) authorizes the Commission to make determinations concerning the adjustment of the copyright royalty rates contained in Section 111. Such determinations are to be made solely in accordance with the provisions contained in Section 801(b)(2)(A), (B), (C), and (D). The time periods when such adjustments may be made are set forth in Section 804.

Under Section 801(b)(2)(A), the Commission may adjust the rates established in Section 111(d)(2)(B) [section 111(d)(2)(B) of this title] to reflect (1) national monetary inflation or deflation, or (2) changes in the average rates charged cable subscribers for the basic service of providing secondary transmission to maintain the real constant dollar level of the royalty fee per subscriber which existed as of the date of enactment of this legislation. The purpose of this provision is to assure that the value of the royalty fees paid by cable systems is not eroded by changes in the value of the dollar or changes in average rates charged cable subscribers. The Committee recognizes, however, that no royalty fees will be paid by cable systems until the legislation is effective on January 1, 1978, and accordingly that the royalty fee per subscriber base calculated at the time of enactment must necessarily constitute an estimated value. In the Committee's view, and based on

projections supplied by the interested parties, the total royalties produced under the fee schedule at the time of enactment should approximate \$8.7 million.

In adjusting the fee the Copyright Royalty Commission is limited to changes reflecting national monetary inflation or deflation or changes in the average rates charged cable subscribers for the basic service of providing secondary transmissions. Concern was expressed during the hearings on the revision legislation that cable systems may reduce the basic charge for the retransmission of broadcast signals as an inducement for individuals to become subscribers to additional services (e.g., pay-cable). Such a shift of revenue sources would have the effect of understating basic subscriber revenues and would deny copyright owners the level of royalty fees for secondary transmission contemplated by this legislation. Accordingly, such shifts of revenue sources, if they do occur, should be taken into account by the Commission in adjusting the basic rates.

There are also two limitations on the power of the Commission to adjust rates under Section 801(b)(2)(A). The first provides that no change in the rates established by Section 111(d)(2)(B) is permitted if the average rates charged cable system subscribers for the basic service of providing secondary transmissions exceeds the change in national monetary inflation. Thus, in the situation where subscriber rates during a particular adjustment period increase 20 percent but national monetary inflation increases only 10 percent no change or reduction in the rates is permitted.

The second limitation provides that no increase in the royalty fee shall be permitted based on any reduction in the average number of distant signal equivalents per subscriber. The purpose of this limitation is to make clear that if the average number of distant signals carried by a cable system is reduced in the future (and thereby the average number of distant signal equivalents per subscriber) no increase in the royalty fee to offset this reduction is permitted. The limitation does not, however, preclude any change in the rates that may be required to maintain the real constant dollar level of royalty fees per subscriber because of national monetary inflation or deflation or changes in the average rates charged subscribers for the basic service of providing secondary transmissions.

The Commission may also consider, in its discretion, any other factor relating to the maintenance of the real constant dollar level of royalty fees per subscriber and need not increase the royalty rates to the full extent, provided it can be demonstrated that the cable industry has been restrained by subscriber rates regulating authorities from increasing the rates for the basic service of providing secondary transmission.

Increase in the Number of Distant Signals. Under Section 801(b)(2)(B), the Commission may adjust the rates established in Section 111(d)(2)(B) if the rules and regulations of the FCC are amended at any time after April 15, 1976, to permit the carriage of additional distant signals. In this event the Commission may ensure that the rates for the additional distant signal equivalents resulting from such carriage are reasonable in light of the changes effected by the amendment to the FCC rules and regulations.

The purpose of this provision is to give the Commission broad discretion to reconsider the royalty rates applicable to (but only to) the carriage of any additional distant signals permitted under the rules and regulations of the FCC after April 15, 1976. The present FCC rules limiting the number of distant signals that may be carried by cable systems have the effect of protecting copyright owners by restricting the amount of television broadcast programming retransmitted into distant markets. If these rules are changed in the future to allow additional cable carriage of television programs it is the Committee's judgment that the royalty rates paid by cable systems should be adjusted to reflect such changes. At the same time, Section 801(b)(2)(B) makes clear that the royalty rates may not be adjusted with respect to (1) distant signals permitted under FCC rules and regulations in effect on

April 15, 1976; (2) distant signals of the same type (i.e., independent, network or noncommercial educational) substituted for such permitted signals; or (3) distant television broadcast signals first carried after April 15, 1976, pursuant to an individual waiver of the FCC rules and regulations as such rules and regulations were in effect on April 15, 1976. Royalty adjustments with respect to any distant signal equivalent or any fraction thereof represented by the carriage of such distant signals may be made pursuant to Section 801(b)(2)(A).

In determining the reasonableness of rates under this provision, the Commission should consider, among other factors, the economic impact that such adjustment may have on copyright owners and users, including broadcast stations, and the effect of such additional distant signal equivalents, if any, on local broadcasters' ability to serve the public.

Change in the Syndicated and Sports Program Exclusivity Rules. Section 801(b)(2)(C) provides that the Commission may adjust the rates established in Section 111(d)(2)(B) in the event of any change in the FCC rules and regulations with respect to syndicated and sports program exclusivity after April 15, 1976. In this event the rates may be adjusted to assure that such rates are reasonable in light of the changes to such rules and regulations. Any such adjustment, however, shall only apply to the affected television broadcast signals carried on those systems affected by change. For this purpose, the Commission may exercise its discretion to adopt royalty schedules for particular classes of cable systems.

The purpose of this subclause is similar to that of Section 801(b)(2)(B). The syndicated and sports program exclusivity rules of the FCC have the effect of protecting copyright owners by restricting the cable carriage of certain distant television programming. If these rules are changed in the future to relax or increase the exclusivity restrictions, it is the Committee's judgment that the royalty rates paid by cable systems should be adjusted to reflect such changes.

Adjustment of the Small System Royalty Fees. Section 801(b)(2)(D) provides that the small system gross receipts limitations established in Section 111(d)(2)(C) and (D) may be adjusted to reflect national monetary inflation or deflation or changes in the average rates charged cable system subscribers for the basic service of providing secondary transmissions to maintain the real constant dollar value of the exemptions provided therein. That is, the Commission is directed to look at these two factors to insure that systems of the same size as are now entitled to the exemptions provided for in sections 111(d)(2)(C) and (D) continued to be so entitled. For the purposes of section 111(d)(2)(C) references to the gross receipt limitations of that section mean all of the dollar amount specified therein.

Distribution of Royalty Fees. Section 801(b)(3) provides that the Commission is authorized to distribute the royalty fees deposited with the Register of Copyrights under Sections 111 and 116 and to determine the distribution of such fees where a controversy exists.

Institution and Conclusion of Proceedings. Section 804 establishes the time periods during which the Commission shall institute and conclude proceedings for the adjustment or distribution of royalty fees.

Periodic Adjustment of Certain Rates. Under Section 804(a) proceedings to adjust the royalty rates specified in Sections 115 (mechanical royalty) and 116 (juke-box) and proceedings under Section 801(b)(2)(A) and (D) (cable television rates for certain purposes), are instituted in the following periodic time intervals:

(1) On January 1, 1980, the Chairman of the Commission is required to publish in the Federal Register notice of the commencement of proceedings to adjust all the rates referred to in Section 804(a).

(2) Thereafter, during the calendar years specified below, any owner or user of a copyrighted work whose royalty rates are specified in the legislation, or by a rate established by the Commission, may file a petition with the Commission declaring that the petitioner requests an adjustment of the rate. If the Com-

mission determines that the applicant has a significant interest in the royalty rate for which adjustment is requested, the Chairman of the Commission shall cause notice to be published in the Federal Register of this determination together with notice of the commencement of proceedings to adjust the rate.

(A) In proceedings to adjust the cable television rates for certain purposes under Sections 801(b)(2)(A) and (D), such petitions may be filed during 1985 and in each subsequent fifth calendar year.

(B) In proceedings under Section 801(b)(1) to adjust the mechanical royalty rate as provided in Section 115, such petitions may be filed in 1987 and in each subsequent tenth year.

(C) In proceedings under Section 801(b)(1) to adjust the jukebox royalty rate as provided in Section 116, such petitions may be filed in 1990 and in each subsequent tenth calendar year.

Immediate Review of Cable Television Rates for Certain Purposes. Section 804(b) provides that following an event described in Section 801(b)(2)(B) or (C), any owner or user of a copyrighted work whose royalty rates are specified by Section 111, or by a rate established by the Commission, may, within 12 months, file a petition requesting an adjustment of the rates. In this event the Commission is required to proceed as in Section 804(a)(2). Any change in the royalty rates made by the Commission pursuant to this provision may be reconsidered in 1980, 1985, and each fifth calendar year thereafter in accordance with the provisions in Section 801(b)(2)(B) or (C).

The purpose of this provision is to reflect the Committee's concern about any change in the rules and regulations of the FCC pertaining to cable carriage of distant signals or to syndicated or sports program exclusivity. The Committee believes that if these rules and regulations are revised, amended, or changed in any manner by the FCC, any owner or user of a copyrighted work should have an immediate right, exercisable for a 12 month period following the date such changes are finally effective, to request an adjustment of the royalty rates specified in Section 111. Further, it is the Committee's intent that any change made by the Commission pursuant to such a petition may be reviewed again in 1980, 1985, and each subsequent fifth calendar year, as the case may be, and under the standards established in Sections 801(b)(2)(B) and (C). It is also the Committee's intent that the ability to petition the Commission to adjust the rates pursuant to this subsection is not limited, following the first adjustment, to the subsequent five year periods specified, but may arise at any time as FCC rule changes described above take place.

Institution of Proceedings to Adjust Public Broadcasting Royalty Rates. Section 804(c) provides that the institution of proceedings under Section 801(b)(1) concerning the determination of reasonable terms and rates of royalty payments as provided in Section 118 shall proceed when and as provided in that section.

Institution of Proceedings To Distribute Royalty Fees. Section 804(d) provides that with respect to proceedings under Section 801(b)(3) concerning the distribution of royalty fees in certain circumstances under Section 111 or 116 the Chairman of the Commission shall, upon determination by the Commission that a controversy exists concerning such distribution, publish a notice of commencement of proceedings to distribute the royalty fees in the Federal Register.

Prompt Resolution of Proceedings. Section 804(e) provides that all proceedings instituted by the Commission shall be initiated without delay following publication of the notices specified in this section and that the Commission is required to render a final decision in any such proceeding within one year from the date of publication of the notice.

Judicial Review. The Senate bill provides that, following a final determination in any proceeding with respect to royalty rates, the Copyright Royalty Tribunal is to transmit its decision to the Senate and House of Representatives for review. Within 90 days of such transmittal either House of Congress may nullify the

determination of the Tribunal by adoption of a resolution expressing disapproval of such determination. Judicial review of determinations of the Royalty Tribunal under the Senate bill is permitted only where: (1) The determination was procured by corruption, fraud, or undue means; (2) there was evident partiality or corruption in any of the members of the Tribunal; or (3) any member of the Tribunal was guilty of any misconduct by which the rights of any party were prejudiced.

The Committee concluded that determinations of the Copyright Royalty Commission were not appropriate subjects for regular review by Congress and that the provisions of the Senate bill providing for judicial review were far too restrictive. Therefore, it amended the Senate bill to eliminate automatic Congressional review and to broaden the scope of judicial review. The amended bill provides for the full scope of judicial review provided by Chapter 7 of the Administrative Procedure Act [5 U.S.C. 701 et seq.]. Congressional review of the activities of the Copyright Royalty Commission will occur as part of the oversight functions of the Judiciary Committees of the House of Representatives and the Senate. The oversight process will provide the Congress sufficient information to determine whether statutory changes are needed at some time in the future.

The expanded judicial review provided in the Committee amendment will permit much more detailed, thoughtful, and careful review of possibly arbitrary or capricious determinations of the Commission than can be provided by Congressional review.

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in sections 111, 115, 118, 119, 912 of this title.

§ 801. Copyright arbitration royalty panels: Establishment and purpose

(a) ESTABLISHMENT.—The Librarian of Congress, upon the recommendation of the Register of Copyrights, is authorized to appoint and convene copyright arbitration royalty panels.

(b) PURPOSES.—Subject to the provisions of this chapter, the purposes of the copyright arbitration royalty panels shall be—

(1) to make determinations concerning the adjustment of reasonable copyright royalty rates as provided in sections 115 and 116, and to make determinations as to reasonable terms and rates of royalty payments as provided in section 118. The rates applicable under sections 115 and 116 shall be calculated to achieve the following objectives:

(A) To maximize the availability of creative works to the public;

(B) To afford the copyright owner a fair return for his creative work and the copyright user a fair income under existing economic conditions;

(C) To reflect the relative roles of the copyright owner and the copyright user in the product made available to the public with respect to relative creative contribution, technological contribution, capital investment, cost, risk, and contribution to the opening of new markets for creative expression and media for their communication;

(D) To minimize any disruptive impact on the structure of the industries involved and on generally prevailing industry practices.

(2) to make determinations concerning the adjustment of the copyright royalty rates in section 111 solely in accordance with the following provisions:

(A) The rates established by section 111(d)(1)(B) may be adjusted to reflect (i) national monetary inflation or deflation or (ii) changes in the average rates charged cable subscribers for the basic service of providing secondary transmissions to maintain the real constant dollar level of the royalty fee per subscriber which existed as of the date of enactment of this Act: *Provided*, That if the average rates charged cable system subscribers for the basic service of providing secondary transmissions are changed so that the average rates exceed national monetary inflation, no change in the rates established by section 111(d)(1)(B) shall be permitted: *And provided further*, That no increase in the royalty fee shall be permitted based on any reduction in the average number of distant signal equivalents per subscriber. The copyright arbitration royalty panels may consider all factors relating to the maintenance of such level of payments including, as an extenuating factor, whether the cable industry has been restrained by subscriber rate regulating authorities from increasing the rates for the basic service of providing secondary transmissions.

(B) In the event that the rules and regulations of the Federal Communications Commission are amended at any time after April 15, 1976, to permit the carriage by cable systems of additional television broadcast signals beyond the local service area of the primary transmitters of such signals, the royalty rates established by section 111(d)(1)(B) may be adjusted to insure that the rates for the additional distant signal equivalents resulting from such carriage are reasonable in the light of the changes effected by the amendment to such rules and regulations. In determining the reasonableness of rates proposed following an amendment of Federal Communications Commission rules and regulations, the copyright arbitration royalty panels shall consider, among other factors, the economic impact on copyright owners and users: *Provided*, That no adjustment in royalty rates shall be made under this subclause with respect to any distant signal equivalent or fraction thereof represented by (i) carriage of any signal permitted under the rules and regulations of the Federal

Communications Commission in effect on April 15, 1976, or the carriage of a signal of the same type (that is, independent, network, or noncommercial educational) substituted for such permitted signal, or (ii) a television broadcast signal first carried after April 15, 1976, pursuant to an individual waiver of the rules and regulations of the Federal Communications Commission, as such rules and regulations were in effect on April 15, 1976.

(C) In the event of any change in the rules and regulations of the Federal Communications Commission with respect to syndicated and sports program exclusivity after April 15, 1976, the rates established by section 111(d)(1)(B) may be adjusted to assure that such rates are reasonable in light of the changes to such rules and regulations, but any such adjustment shall apply only to the affected television broadcast signals carried on those systems affected by the change.

(D) The gross receipts limitations established by section 111(d)(1)(C) and (D) shall be adjusted to reflect national monetary inflation or deflation or changes in the average rates charged cable system subscribers for the basic service of providing secondary transmissions to maintain the real constant dollar value of the exemption provided by such section; and the royalty rate specified therein shall not be subject to adjustment; and

(3) to distribute royalty fees deposited with the Register of Copyrights under sections 111, 116, 119(b), and 1003, and to determine, in cases where controversy exists, the distribution of such fees.

(c) RULINGS.—The Librarian of Congress, upon the recommendation of the Register of Copyrights, may, before a copyright arbitration royalty panel is convened, make any necessary procedural or evidentiary rulings that would apply to the proceedings conducted by such panel.

(d) ADMINISTRATIVE SUPPORT OF COPYRIGHT ARBITRATION ROYALTY PANELS.—The Library of Congress, upon the recommendation of the Register of Copyrights, shall provide the copyright arbitration royalty panels with the necessary administrative services related to proceedings under this chapter.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 104A, 802, 803 of this title; title 47 section 545.

§ 802. Membership and proceedings of copyright arbitration royalty panels

(a) COMPOSITION OF COPYRIGHT ARBITRATION ROYALTY PANELS.—A copyright arbitration royalty panel shall consist of 3 arbitrators selected by the Librarian of Congress pursuant to subsection (b).

(b) SELECTION OF ARBITRATION PANEL.—Not later than 10 days after publication of a notice in the Federal Register initiating an arbitration proceeding under section 803, and in accordance with procedures specified by the Register of Copyrights, the Librarian of Congress shall, upon the recommendation of the Register of Copyrights, select 2 arbitrators from lists provided by professional arbitration associations. Qualifications of the arbitrators shall include experience in conducting arbitration proceedings and facilitating the resolution and settlement of disputes, and any qualifications which the Librarian of Congress, upon the recommendation of the Register of Copyrights, shall adopt by regulation. The 2 arbitrators so selected shall, within 10 days after their selection, choose a third arbitrator from the same lists, who shall serve as the chairperson of the arbitrators. If such 2 arbitrators fail to agree upon the selection of a third arbitrator, the Librarian of Congress shall promptly select the third arbitrator. The Librarian of Congress, upon the recommendation of the Register of Copyrights, shall adopt regulations regarding standards of conduct which shall govern arbitrators and the proceedings under this chapter.

(c) ARBITRATION PROCEEDINGS.—Copyright arbitration royalty panels shall conduct arbitration proceedings, subject to subchapter II of chapter 5 of title 5, for the purpose of making their determinations in carrying out the pur-

poses set forth in section 801. The arbitration panels shall act on the basis of a fully documented written record, prior decisions of the Copyright Royalty Tribunal, prior copyright arbitration panel determinations, and rulings by the Librarian of Congress under section 801(c). Any copyright owner who claims to be entitled to royalties under section 111, 116, or 119, or any interested copyright party who claims to be entitled to royalties under section 1006, may submit relevant information and proposals to the arbitration panels in proceedings applicable to such copyright owner or interested copyright party, and any other person participating in arbitration proceedings may submit such relevant information and proposals to the arbitration panel conducting the proceedings. In rate-making proceedings, the parties to the proceedings shall bear the entire cost thereof in such manner and proportion as the arbitration panels shall direct. In distribution proceedings, the parties shall bear the cost in direct proportion to their share of the distribution.

(d) PROCEDURES.—Effective on the date of the enactment of the Copyright Royalty Tribunal Reform Act of 1993, the Librarian of Congress shall adopt the rules and regulations set forth in chapter 3 of title 37 of the Code of Federal Regulations to govern proceedings under this chapter. Such rules and regulations shall remain in effect unless and until the Librarian, upon the recommendation of the Register of Copyrights, adopts supplemental or superseding regulations under subchapter II of chapter 5 of title 5.

(e) REPORT TO THE LIBRARIAN OF CONGRESS.—Not later than 180 days after publication of the notice in the Federal Register initiating an arbitration proceeding, the copyright arbitration royalty panel conducting the proceeding shall report to the Librarian of Congress its determination concerning the royalty fee or distribution of royalty fees, as the case may be. Such report shall be accompanied by the written record, and shall set forth the facts that the arbitration panel found relevant to its determination.

(f) ACTION BY LIBRARIAN OF CONGRESS.—Within 60 days after receiving the report of a copyright arbitration royalty panel under subsection (e), the Librarian of Congress, upon the recommendation of the Register of Copyrights, shall adopt or reject the determination of the arbitration panel. The Librarian shall adopt the determination of the arbitration panel unless the Librarian finds that the determination is arbitrary or contrary to the applicable provisions of this title. If the Librarian rejects the determination of the arbitration panel, the Librarian shall, before the end of that 60-day period, and after full examination of the record created in the arbitration proceeding, issue an order setting the royalty fee or distribution of fees, as the case may be. The Librarian shall cause to be published in the Federal Register the determination of the arbitration panel, and the decision of the Librarian (including an order issued under the preceding sentence). The Librarian shall also publicize such determination and decision in such other manner as the Librarian considers appropriate. The Librarian shall also make the report of the arbitration panel and the accompanying record available for public inspection and copying.

(g) JUDICIAL REVIEW.—Any decision of the Librarian of Congress under subsection (f) with respect to a determination of an arbitration panel may be appealed, by any aggrieved party who would be bound by the determination, to the United States Court of Appeals for the District of Columbia Circuit, within 30 days after the publication of the decision in the Federal Register. If no appeal is brought within such 30-day period, the decision of the Librarian is final, and the royalty fee or determination with respect to the distribution of fees, as the case may be, shall take effect as set forth in the decision. The pendency of an appeal under this paragraph shall not relieve persons obligated to make royalty payments under sections 111, 115, 116, 118, 119, or 1003 who would be affected by the determination on appeal to deposit the statement of account and royalty fees specified in those sections. The court shall have jurisdiction to modify or vacate a decision of the Librarian only if it finds, on the basis of the record before the Librarian, that the Librarian acted in an arbitrary manner. If the court modifies the decision of the Librarian, the court shall have jurisdiction to enter its own determination with respect to the amount or distribution of royalty fees and costs, to order the repayment of any excess fees, and to order the payment of any underpaid fees, and the interest pertaining respectively thereto, in accordance with its final judgment. The court may further vacate the decision of the arbitration panel and remand the case to the Librarian for arbitration proceedings in accordance with subsection (c).

(h) ADMINISTRATIVE MATTERS.—

(1) DEDUCTION OF COSTS FROM ROYALTY FEES.—The Librarian of Congress and the Register of Copyrights may, to the extent not otherwise provided under this title, deduct from royalty fees deposited or collected under this title the reasonable costs incurred by the Library of Congress and the Copyright Office under this chapter. Such deduction may be made before the fees are distributed to any copyright claimants. If no royalty pool exists from which their costs can be deducted, the Librarian of Congress and the Copyright Office may assess their reasonable costs directly to the parties to the most recent relevant arbitration proceeding.

(2) POSITIONS REQUIRED FOR ADMINISTRATION OF COMPULSORY LICENSING.—Section 307 of the Legislative Branch Appropriations Act, 1994, shall not apply to employee positions in the Library of Congress that are required to be filled in order to carry out section 111, 115, 116, 118, or 119 or chapter 10.

§ 803. Institution and conclusion of proceedings

(a)(1) With respect to proceedings under section 801(b)(1) concerning the adjustment of royalty rates as provided in sections 115 and 116, and with respect to proceedings under subparagraphs (A) and (D) of section 801(b)(2), during the calendar years specified in the schedule set forth in paragraphs (2), (3), and (4), any owner or user of a copyrighted work whose royalty rates are specified by this title, established by the Copyright Royalty Tribunal before the date of the enactment of the Copyright Royalty Tribunal Reform Act of 1993, or established by a copyright arbitration royalty panel after such date of enactment, may file a petition with the Librarian of Congress declaring that the petitioner requests an adjustment of the rate. The Librarian of Congress shall, upon the recommendation of the Register of Copyrights, make a determination as to whether the petitioner has such a significant interest in the royalty rate in which an adjustment is requested. If the Librarian determines that the petitioner has such a significant interest, the Librarian shall cause notice of this determination, with the reasons therefor, to be published in the Federal Register, together with the notice of commencement of proceedings under this chapter.

(2) In proceedings under section 801(b)(2)(A) and (D), a petition described in paragraph (1) may be filed during 1995 and in each subsequent fifth calendar year.

(3) In proceedings under section 801(b)(1) concerning the adjustment of royalty rates as provided in section 115, a petition described in paragraph (1) may be filed in 1997 and in each subsequent tenth calendar year.

(4)(A) In proceedings under section 801(b)(1) concerning the adjustment of royalty rates as provided in section 116, a petition described in paragraph (1) may be filed at any time within 1 year after negotiated licenses authorized by section 116 are terminated or expire and are not replaced by subsequent agreements.

(B) If a negotiated license authorized by section 116 is terminated or expires and is not replaced by another such license agreement which provides permission to use a quantity of musical works not substantially smaller than the quan-

tivity of such works performed on coin-operated phonorecord players during the 1-year period ending March 1, 1989, the Librarian of Congress shall, upon petition filed under paragraph (1) within 1 year after such termination or expiration, convene a copyright arbitration royalty panel. The arbitration panel shall promptly establish an interim royalty rate or rates for the public performance by means of a coin-operated phonorecord player of non-dramatic musical works embodied in phonorecords which had been subject to the terminated or expired negotiated license agreement. Such rate or rates shall be the same as the last such rate or rates and shall remain in force until the conclusion of proceedings by the arbitration panel, in accordance with section 802, to adjust the royalty rates applicable to such works, or until superseded by a new negotiated license agreement, as provided in section 116(b).

(b) With respect to proceedings under subparagraph (B) or (C) of section 801(b)(2), following an event described in either of those subsections, any owner or user of a copyrighted work whose royalty rates are specified by section 111, or by a rate established by the Copyright Royalty Tribunal or the Librarian of Congress, may, within twelve months, file a petition with the Librarian declaring that the petitioner requests an adjustment of the rate. In this event the Librarian shall proceed as in subsection subsection¹ (a) of this section. Any change in royalty rates made by the Copyright Royalty Tribunal or the Librarian of Congress pursuant to this subsection may be reconsidered in 1980, 1985, and each fifth calendar year thereafter, in accordance with the provisions in section 801(b)(2)(B) or (C), as the case may be.

(c) With respect to proceedings under section 801(b)(1), concerning the determination of reasonable terms and rates of royalty payments as provided in section 118, the Librarian of Congress shall proceed when and as provided by that section.

(d) With respect to proceedings under section 801(b)(3) or (4), concerning the distribution of royalty fees in certain circumstances under section 111, 116, 119, or 1007, the Librarian of Congress shall, upon a determination that a controversy exists concerning such distribution, cause to be published in the Federal Register notice of commencement of proceedings under this chapter.

(B) intended to perform electronic circuitry functions;

(2) a “mask work” is a series of related images, however fixed or encoded—

(A) having or representing the predetermined, three-dimensional pattern of metallic, insulating, or semiconductor material present or removed from the layers of a semiconductor chip product; and

(B) in which series the relation of the images to one another is that each image has the pattern of the surface of one form of the semiconductor chip product;

(3) a mask work is “fixed” in a semiconductor chip product when its embodiment in the product is sufficiently permanent or stable to permit the mask work to be perceived or reproduced from the product for a period of more than transitory duration;

(4) to “distribute” means to sell, or to lease, bail, or otherwise transfer, or to offer to sell, lease, bail, or otherwise transfer;

(5) to “commercially exploit” a mask work is to distribute to the public for commercial purposes a semiconductor chip product embodying the mask work; except that such term includes an offer to sell or transfer a semiconductor chip product only when the offer is in writing and occurs after the mask work is fixed in the semiconductor chip product;

(7) an “innocent purchaser” is a person who purchases a semiconductor chip product in good faith and without having notice of protection with respect to the semiconductor chip product;

(8) having “notice of protection” means having actual knowledge that, or reasonable grounds to believe that, a mask work is protected under this chapter; and

(9) an “infringing semiconductor chip product” is a semiconductor chip product which is made, imported, or distributed in violation of the exclusive rights of the owner of a mask work under this chapter.

(b) For purposes of this chapter, the distribution or importation of a product incorporating a semiconductor chip product as a part thereof is a distribution or importation of that semiconductor chip product.
