It is the purpose of this section to provide for the demonstration of solar energy and other renewable energy technologies in foreign countries through the use of such energy in buildings acquired under subsection (a) of section 292 of this title, in order that—

(1) countries in which such buildings are located may be given visible incentives to develop and use local solar energy or other renewable energy resources to reduce dependence upon petroleum and petroleum products;

(2) markets may be developed for American solar energy systems and components in order to stimulate investment in such systems and components and to reduce the costs of such systems and components to reasonable levels;

(3) in furtherance of the purpose of section 2151q¹ of this title, cooperation may be developed between the United States and other countries in an effort to develop solar energy or other renewable energy systems within a short period of time; and

(4) equipment which is vital to the operation of sensitive systems within United States missions abroad may be made more reliable and less dependent upon interruptible local energy supplies.

(b) Implementation of renewable energy projects by Secretary

(1) The Secretary of State shall implement projects for the application of solar energy or

other forms of renewable energy in buildings acquired under subsection (a) section 292 of this title.

(3) Any project selected under this section shall be adaptable to the local resources, climatic conditions, and economic circumstances of the country in which such project is implemented in order that such country will be more likely to implement similar projects.

(4) The Secretary of State shall insure that any project selected under this section is demonstrated to, and available for inspection by, officials and other citizens of the country in which such project is implemented.

(5) In selecting projects under this section, the Secretary of State shall give priority to projects to be implemented in developing countries.

(c) Planning for use of renewable energy systems in construction of new buildings

Whenever any building is constructed under the authority contained in section 292 of this title, the Secretary of State shall insure that the planning for such construction takes into account those renewable energy systems which are available in the country in which the building is to be constructed.

(d) Availability of sums previously authorized to be appropriated
