

penalty of not more than \$500 for each day of such violation, except that such penalty shall not apply if the employer pays to each aggrieved employee the amount for which the employer is liable to that employee within 3 weeks from the date the employer orders the shutdown or lay-off.

(4) If an employer which has violated this chapter proves to the satisfaction of the court that the act or omission that violated this chapter was in good faith and that the employer had reasonable grounds for believing that the act or omission was not a violation of this chapter the court may, in its discretion, reduce the amount of the liability or penalty provided for in this section.

(5) A person seeking to enforce such liability, including a representative of employees or a unit of local government aggrieved under paragraph (1) or (3), may sue either for such person or for other persons similarly situated, or both, in any district court of the United States for any district in which the violation is alleged to have occurred, or in which the employer transacts business.

(6) In any such suit, the court, in its discretion, may allow the prevailing party a reasonable attorney's fee as part of the costs.

(7) For purposes of this subsection, the term,¹ "aggrieved employee" means an employee who has worked for the employer ordering the plant closing or mass layoff and who, as a result of the failure by the employer to comply with section 2102 of this title, did not receive timely notice either directly or through his or her representative as required by section 2102 of this title.

(b) Exclusivity of remedies

The remedies provided for in this section shall be the exclusive remedies for any violation of this chapter. Under this chapter, a Federal court shall not have authority to enjoin a plant closing or mass layoff.

(Pub. L. 100-379, § 6, Aug. 4, 1988, 102 Stat. 894.)

§ 2106. Procedures encouraged where not required

(a) The Secretary of Labor shall prescribe such regulations as may be necessary to carry out this chapter. Such regulations shall, at a minimum, include interpretative regulations describing the methods by which employers may provide for appropriate service of notice as required by this chapter.

(b) The mailing of notice to an employee's last known address or inclusion of notice in the employee's paycheck will be considered acceptable methods for fulfillment of the employer's obligation to give notice to each affected employee under this chapter.

(Pub. L. 100-379, § 8, Aug. 4, 1988, 102 Stat. 894.)

§ 2108. Effect on other laws

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in section 762 of this title; title 20 section 1461.

§ 2201. Findings, purposes, and policy**(a) Findings**

The Congress finds as follows:

(1) Disability is a natural part of the human experience and in no way diminishes the right of individuals to—

- (A) live independently;
- (B) enjoy self-determination;
- (C) make choices;
- (D) pursue meaningful careers; and
- (E) enjoy full inclusion and integration in the economic, political, social, cultural, and educational mainstream of American society.

(2) During the past decade, there have been major advances in modern technology. Technology is now a powerful force in the lives of all residents of the United States. Technology can provide important tools for making the performance of tasks quicker and easier.

(3) For some individuals with disabilities, assistive technology devices and assistive technology services are necessary to enable the individuals—

- (A) to have greater control over their lives;
- (B) to participate in, and contribute more fully to, activities in their home, school, and work environments, and in their communities;
- (C) to interact to a greater extent with individuals who do not have disabilities; and
- (D) to otherwise benefit from opportunities that are taken for granted by individuals who do not have disabilities.

(4) Substantial progress has been made in the development of assistive technology devices, including adaptations to existing equipment, that significantly benefit individuals with disabilities of all ages. Such devices can be used to increase the involvement of such individuals in, and reduce expenditures associated with, programs and activities such as
