References in Text

This Act, referred to in subsec. (a), is act June 30, 1949, ch. 288, 63 Stat. 378, as amended, known as the Federal Property and Administrative Services Act of 1949. Provisions of that Act relating to management and disposal of government property are classified to this chapter. For complete classification of that Act to the Code, see Short Title note set out under section 471 of this title and Tables.

Codification

As originally enacted, subsec. (c) contained a reference to "the District Court of the United States for the District of Columbia" following "the several district courts of the United States". The words "the District Court of the United States for the District of Columbia" have been deleted entirely as superfluous in view of section 132(a) of Title 28, Judiciary and Judicial Procedure, which states that "There shall be in each judicial district a district court which shall be a court of record known as the United States District Court for the district" and section 88 of the Title 28 which states that "the District of Columbia constitutes one judicial district".

Section was formerly classified to section 239 of Title 41, Public Contracts.

The Administrator shall, where practicable, give priority in the assignment of space on any major pedestrian access level not leased under the terms of subsection (a)(16) or (a)(17) of this section in such buildings to Federal activities requiring regular contact with members of the public. The fund shall assume all the liabilities, obligations, and commitments of the said (1) Buildings Management Fund, (2) Construction Services Fund, and (3) the appropriations specified in (C) hereof.

(4) There is authorized to be appropriated to the fund for the fiscal year in which the fund becomes operational, and for the succeeding fiscal year, such advances to the fund as may be necessary to carry out its purposes. Such advances shall be repaid within 30 years, with interest at a rate not less than a rate determined by the Secretary of the Treasury taking into consideration the current average market yield on out-of-marketable obligations of the United States with remaining period to maturity comparable to the average maturities of such advances adjusted to the nearest one-eighth of 1 per centum.

(5) In any fiscal year there may be deposited to miscellaneous receipts in the Treasury of the United States such amount as may be specified in appropriation Acts.

(6) Nothing in this section shall preclude the Administrator from providing special services not included in the standard level user charge on a reimbursable basis and such reimbursements may be credited to the fund established under this subsection.

Whenever an agency, or an organizational unit thereof, occupying a substantial and identifiable segment of space (building, floor, wing, and so forth) in a location controlled for purposes of assignment of space by the Administrator, is moved to such a substantial and identifiable segment of space in the same or another location so controlled by the Administrator, furniture and furnishings used by the moving agency or unit shall be moved only if the Administrator, after consultation with the head of the agency concerned, and with due regard for the program activities of such agency, shall determine that suitable replacements cannot more economically and efficiently be made available in the new space. In the absence of such determination, suitable furniture and furnishings for the new space shall be provided, as the Administrator shall determine to be more economical and efficient, (1) from stocks under the control of the moving agency or (2) from stocks available to the Administrator, but the same or similar items shall not be provided from both sources. When fur-
niture or furnishings which have been purchased from trust funds pass to the control of the Administrator pursuant to this subsection, reimbursement shall be made by the Administrator for the fair market value of such furniture and furnishings.

(1) The Administrator is authorized to enter into lease agreements with any person, copartnership, corporation, or other public or private entity, which do not bind the Government for periods in excess of twenty years for each such lease agreement, on such terms as he deems to be in the interest of the United States and necessary for the accommodation of Federal agencies in buildings and improvements which are in existence or to be erected by the lessor for such purposes and to assign and reassign space therein to Federal agencies.

(2) If the unexpired portion of any lease of space to the Government is determined by the Administrator to be surplus property and the property is thereafter disposed of by sublease by the Administrator, the Administrator is authorized, notwithstanding section 485(a) of this title, to deposit rental received in the buildings management fund (subsection (f) of this section) and defray from the fund any costs necessary to provide services to the Government’s lessee and to pay the rent not otherwise provided for on the lease of the space to the Government.

The Administrator is authorized and directed to charge anyone furnished services, space, quarters, maintenance, repair, or other facilities (hereinafter referred to as space and services), at rates to be determined by the Administrator from time to time and provided for in regulations issued by him. Such rates and charges shall approximate commercial charges for comparable space and services, except that with respect to those buildings for which the Administrator of General Services is responsible for alterations only (as the term “alter” is defined in section 612(5) of this title), the rates charged the occupant for such services shall be fixed by the Administrator so as to recover only the approximate applicable cost incurred by him in providing such alterations. The Administrator may exempt anyone from the charges required by this subsection if he determines that such charges would be infeasible or impractical. To the extent any such exemption is granted, appropriations to the General Services Administration are authorized to reimburse the fund for any loss of revenue.

(k) Charges for space and services furnished by executive agencies; approval of rates by Administrator; credit to appropriation or fund

Any executive agency, other than the General Services Administration, which provides to anyone space and services set forth in subsection (j) of this section, is authorized to charge the occupant for such space and services at rates approved by the Administrator. Moneys derived by such executive agency from such rates or fees shall be credited to the appropriation or fund initially charged for providing the service, except that amounts which are in excess of actual operating and maintenance costs of providing the service shall be credited to miscellaneous receipts unless otherwise authorized by law.

(l) Flexiplace work telecommuting centers

(B) Amounts received by the Administrator after September 30, 1993, as user fees for use of any telecommuting center may be deposited into the Fund established under subsection (f) of this section and may be used by the Administrator to pay costs incurred in the establishment and operation of the center.

(4) The Administrator may provide guidance, assistance, and oversight to any person regarding establishment and operation of alternative workplace arrangements, such as telecommuting, hoteling, virtual offices, and other distribution work arrangements.
(5) In considering whether to acquire any space, quarters, buildings, or other facilities for use by employees of any executive agency, the head of that agency shall consider whether the need for the facilities can be met using alternative workplace arrangements referred to in paragraph (4).

various Federal agencies with respect to leasing and assignment of space in buildings and the operation, maintenance, and custody of office buildings. They will effectuate the recommendations of the Commission on Organization of the Executive Branch of the Government with respect to leasing and assignment of general-purpose space in buildings and the operation, maintenance, and custody of office buildings.

The assignment of space in Government-owned buildings outside of Washington is also divided among a number of agencies. While the Public Buildings Service constructs a large part of the Government buildings, it operates and controls the assignment of space in only a small proportion of them. The Post Office Department operates and allocates the space in post-office buildings, several hundred of which contain substantial amounts of office space available for other agencies. During and immediately after the war several other Federal agencies acquired office buildings in the field. As their activities have contracted, surplus contracts, many of which have been granted to Federal agencies,

I transmit herewith Reorganization Plan No. 18 of 1950, prepared in accordance with the provisions of the Reorganization Act of 1949. The plan transfers to the Administrator of General Services the functions of the various Federal agencies with respect to leasing and assignment of space which is suitable for the uses of a number of Federal agencies. Such further measures and dispositions as the Director of the Bureau of the Budget shall determine to be necessary in order to effectuate the transfers provided for in this section shall be carried out in such manner as the Director shall direct and by such agencies as he shall designate.

Sec. 5. Effective Date

The provisions of this reorganization plan shall take effect on the 1st day of July 1950.

[The Post Office Department has been redesignated the United States Postal Service pursuant to Pub. L. 91–375, § 6(c), Aug. 12, 1970, 84 Stat. 783, set out as a note preceding section 101 of Title 39, Postal Service.]

"I transmit herewith Reorganization Plan No. 18 of 1950, prepared in accordance with the provisions of the Reorganization Act of 1949. The plan transfers to the Administrator of General Services the functions of the various Federal agencies with respect to leasing and assignment of general-purpose space in buildings and the operation, maintenance, and custody of office buildings. Since such authority is already largely concentrated in the General Services Administration with respect to the District of Columbia, the plan principally relates to the administration of these functions in the field. The transfers made by this plan will promote more economical leasing, better utilization of building space, and more efficient operation of Government-controlled office buildings. They will effectuate the recommendations of the Commission on Organization of the Executive Branch of the Government with respect to concentrating in the General Services Administration the responsibility for space allotment and the operation of Government buildings outside of the District of Columbia. Likewise, they will extend the principles laid down by the Congress in enacting the Federal Property and Administrative Services Act of 1949 to another important area of Government-wide administrative services—the administration of government office buildings and general-purpose building space in the field.

Within the District of Columbia, one agency, the Public Buildings Service of the General Services Administration, has long had charge of most Government buildings and the leasing and assignment of space for executive agencies. Thus, nearly all requests for building space are handled by a single organization which is responsible for seeing that agencies are properly and efficiently housed. This arrangement has proved its worth and has repeatedly been approved by the Congress.

Outside of the National Capital, however, responsibility for the acquisition and control of building space and the operation of Government buildings is confused. A variety of agencies operate and control general-purpose buildings. If quarters are not available in Federal buildings, each agency ordinarily does its own leasing. As a result, in some cases Federal agencies have contracted for space at high rentals at the very time that other agencies have been giving up surplus low-cost space.

The assignment of space in Government-owned buildings outside of Washington is also divided among a number of agencies. While the Public Buildings Service constructs a large part of the Government buildings, it operates and controls the assignment of space in only a small proportion of them. The Post Office Department operates and allocates the space in post-office buildings, several hundred of which contain substantial amounts of office space available for other agencies. During and immediately after the war several other Federal agencies acquired office buildings in the field. As their activities have contracted, surplus contracts, many of which have been granted to Federal agencies,

As their activities have contracted, surplus contracts, many of which have been granted to Federal agencies,
space activities by the General Services Administration will normally be advantageous. On the other hand, in the smaller communities it will no doubt be desirable to delegate the work handling such matters to the agencies directly affected, to be carried on under standards laid down by the Administrator of General Services. The plan provides ample flexibility for working out the most effective administrative arrangement for each type of situation.

The fundamental soundness and economy of centralized administration of building space have been amply demonstrated in the National Capital. By virtue of unified control it has been possible since the war to accomplish far-reaching changes which have consolidated agencies in much fewer locations, released many of the rented buildings, and greatly reduced the cost of housing the Government establishment. Similar procedures applied in the larger centers of field activity should produce substantial savings.

After investigation, I have found, and hereby declare, that each reorganization contained in this plan is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949. While it is not possible at this time to calculate the reduction in expenditures which will result from this plan, it can safely be predicted that it will produce substantial savings. I am confident that this reorganization plan will constitute a significant improvement in Federal business practice and will bring about an important increase in efficiency in housing Government agencies.
