§ 851. Deficiencies in grants to State by reason of settlements, etc., on designated sections generally

Where settlements with a view to preemption or homestead have been, or shall hereafter be made, before the survey of the lands in the field, which are found to have been made on sections sixteen or thirty-six, those sections shall be subject to the claims of such settlers; and if such sections or either of them have been or shall be granted, reserved, or pledged for the use of schools or colleges in the State in which they lie, other lands of equal acreage are hereby appropriated and granted, and may be selected, in accordance with the provisions of section 852 of this title, by said State, in lieu of such as may be thus taken by preemption or homestead settlers. And other lands of equal acreage are also hereby appropriated and granted and may be selected, in accordance with the provisions of section 852 of this title, by said State where sections sixteen or thirty-six are, before title could pass to the State, included within any Indian, military, or other reservation, or are, before title could pass to the State, otherwise disposed of by the United States: *Provided*, That the selection of any lands under this section in lieu of sections granted or reserved to a State shall be a waiver by the State of its right to the granted or reserved sections. And other lands of equal acreage are also appropriated and granted, and may be selected, in accordance with the provisions of section 852 of this title, by said State to compensate deficiencies for school purposes, where sections sixteen or thirty-six are fractional in quantity, or where one or both are wanting by reason of the township being fractional, or from any natural cause whatever. And it shall be the duty of the Secretary of the Interior, without awaiting the extension of the public surveys, to ascertain and determine, by protraction or otherwise, the number of townships that will be included within such Indian, military, or other reservations, and thereupon the State shall be entitled to select indemnity lands to the extent of section for section in lieu of sections therein which have been or shall be granted, reserved, or pledged; but such selections may not be made within the boundaries of said reservation: *Provided, however*, That nothing in this section contained shall prevent any State from awaiting the extinguishment of any such military, Indian, or other reservation and the restoration of the lands therein embraced to the

public domain and then taking the sections sixteen and thirty-six in place therein.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 852, 853, 854 of this title; title 16 section 460iii-2.

§ 852. Selections to supply deficiencies of school lands

(a) Restrictions

The lands appropriated by section 851 of this title shall be selected from any unappropriated, surveyed or unsurveyed public lands within the State where such losses or deficiencies occur subject to the following restrictions:

(1) No lands mineral in character may be selected by a State except to the extent that the selection is being made as indemnity for mineral lands lost to the State because of appropriation before title could pass to the State;

(2) No lands on a known geologic structure of a producing oil or gas field may be selected except to the extent that the selection is being made as indemnity for lands on such a structure lost to the State because of appropriation before title could pass to the State; and

(3) Land subject to a mineral lease or permit may be selected if none of the land subject to that lease or permit is in a producing or producible status, subject, however, to the restrictions and conditions of the preceding and following paragraphs of this subsection.

(4) If a selection is consummated as to a portion but not all of the lands subject to any mineral lease or permit, then, as to such portion and for so long only as such lease or permit or any lease issued pursuant to such permit shall remain in effect, there shall be automatically reserved to the United States the

mineral or minerals for which the lease or permit was issued, together with such further rights as may be necessary for the full and complete enjoyment of all rights, privileges and benefits under or with respect to the lease or permit: *Provided, however,* That after approval of the selection the Secretary of the Interior shall determine what portion of any rents and royalties accruing thereafter which may be paid under the lease or permit is properly applicable to that portion of the land subject to the lease or permit selected by the State, the portion applicable being determined by applying to the sum of the rents and royalties the same ratio as that existing between the acreage selected by the State and the total acreage subject to the lease or permit; of the portion applicable to the selected land 90 per centum shall be paid to the State by the United States annually and 10 per centum shall be deposited in the Treasury of the United States as miscellaneous receipts.

(5) If a selection is consummated as to all of the lands subject to any mineral lease or permit or if, where the selecting State has previously acquired title to a portion of the lands subject to a mineral lease or permit, a selection is consummated as to all of the remaining lands subject to that lease or permit, then and upon condition that the United States shall retain all rents and royalties theretofore paid and that the lessee or permittee shall have and may enjoy under and with respect to that lease or permit all the rights, privileges, and benefits which he would have had or might have enjoyed had the selection not been made and approved, the State shall succeed to all the rights of the United States under the lease or permit as to the mineral or minerals covered thereby, subject, however, to all obligations of the United States under and with respect to that lease or permit.

(b) Adjustments

Where the selections are to compensate for deficiencies of school lands in fractional townships, such selections shall be made in accordance with the following principles of adjustment, to wit: For each township, or fractional township, containing a greater quantity of land than three-quarters of an entire township, one section; for a fractional township, containing a greater quantity of land than one-half, and not more than three-quarters of a township, three-quarters of a section; for a fractional township, containing a greater quantity of land than one-quarter, and not more than one-half of a township, one-half section; and for a fractional township containing a greater quantity of land than one entire section, and not more than one-quarter of a township, one-quarter section of land: *Provided,* That the States which are, or shall be entitled to both the sixteenth and thirty-sixth sections in place, shall have the right to select double the amounts named, to compensate for deficiencies of school land in fractional townships.

(c) Preference rights for State

Notwithstanding the provisions of section 282¹ of this title on the revocation not later than 10

years after the date of approval of this Act, of any order of withdrawal, in whole or in part, the order or notice taking such action shall provide for a period of not less than six months before the date on which it otherwise becomes effective in which the State in which the lands are situated shall have a preferred right of application for selection under this section, subject to the requirements of existing law, except as against the prior existing valid settlement rights and preference rights conferred by existing law other than section 282¹ of this title, or as against equitable claims subject to allowance and confirmation, and except where a revocation of an order of withdrawal is made in order to assist in a Federal land program.

(d) "Unappropriated public lands" defined; determination of mineral character of land

(1) The term "unappropriated public lands" as used in this section shall include, without otherwise affecting the meaning thereof, lands withdrawn for coal, phosphate, nitrate, potash, oil, gas, asphaltic minerals, oil shale, sodium, and sulphur, but otherwise subject to appropriation, location, selection, entry, or purchase under the nonmineral laws of the United States; lands withdrawn by Executive Order Numbered 5327, of April 15, 1930, if otherwise available for selection; and the retained or reserved interest of the United States in lands which have been disposed of with a reservation to the United States of all minerals or any specified mineral or minerals.

(2) The determination, for the purposes of this section of the mineral character of lands lost to a State shall be made as of the date of application for selection and upon the basis of the best evidence available at that time.

§ 869. Disposal of lands for public or recreational purposes

(a) Application; conditions; classification; restoration if not applied for

The Secretary of the Interior upon application filed by a duly qualified applicant under section 869–1 of this title may, in the manner prescribed by sections 869 to 869–4 of this title, dispose of any public lands to a State, Territory, county, municipality, or other State, Territorial, or Federal instrumentality or political subdivision for any public purposes, or to a nonprofit corporation or nonprofit association for any recreational or any public purpose consistent with its articles of incorporation or other creating authority. Before the land may be disposed of under sections 869 to 869–4 of this title it must be shown to the satisfaction of the Secretary that the land is to be used for an established or definitely proposed project, that the land involved is not of national significance nor more than is reasonably necessary for the proposed use, and that for proposals of over 640 acres comprehensive land use plans and zoning regulations applicable to the area in which the public lands to be disposed of are located have been adopted by the appropriate State or local authority. The Secretary shall provide an opportunity for participation by affected citizens in disposals under sections 869 to 869–4 of this title, including public hearings or meetings where he deems it appropriate to provide public comments, and shall hold at least one public meeting on any proposed disposal of more than six hundred forty acres under sections 869 to 869–4 of this title. Conveyances made in any one calendar year shall be limited as follows:

(B) To any nonprofit corporation or nonprofit association, six hundred and forty acres.

(C) No more than twenty-five thousand six hundred acres may be conveyed for recreational purposes under sections 869 to 869-4 of this title in any one State per calendar year. Should any State or political subdivision, however, fail to secure, in any one year, six thousand four hundred acres, not counting lands for small roadside parks and rest sites, conveyances may be made thereafter if pursuant to an application on file with the Secretary of the Interior on or before the last day of said year and to the extent that the conveyance would not have exceeded the limitations of said year.

(ii) For public purposes other than recreation:

(A) To any State or agency or instrumentality thereof, for any one program, six hundred and forty acres.

(B) To any political subdivision of a State, six hundred and forty acres.

(C) To any nonprofit corporation or nonprofit association, six hundred and forty acres.

(c) Lands withdrawn in aid of functions of a department, agency, State, etc.; lands excepted from disposal

Where the lands have been withdrawn in aid of a function of a Federal department or agency other than the Department of the Interior, or of a State, Territory, county, municipality, water district, or other local governmental subdivision or agency, the Secretary of the Interior may make disposals under sections 869 to 869-4 of this title only with the consent of such Federal department or agency, or of such State, Territory, or local governmental unit. Nothing in sections 869 to 869-4 of this title shall be construed to apply to lands in any national forest, national park, or national monument, or national wildlife refuge, or to any Indian lands or lands set aside or held for the use or benefit of Indians, including lands over which jurisdiction has been transferred to the Department of the Interior by Executive order for the use of Indians, or, except insofar as sections 869 to 869-4 of this title apply to leases of land to States and counties and to State and Federal instrumentalities and political subdivisions and to municipal corporations, to the revested Oregon and California Railroad grant lands and the reconveyed Coos Bay Wagon Road grant lands in the State of Oregon. Nor shall any disposition be made under sections 869 to 869-4 of this title for any use authorized under

§ 869-1. Sale or lease to State or nonprofit organization; reservation of mineral deposits; termination of lease for nonuse

The Secretary of the Interior may after due consideration as to the power value of the land, whether or not withdrawn therefor, (a) sell such land to the State, Territory, county, or other State, Territorial, or Federal instrumentality or political subdivision in which the lands are situated, or to a nearby municipal corporation in the same State or Territory, for the purpose for which the land has been classified, and conveyances of such land for historic-monument purposes or recreational purposes under this section shall be made without monetary consideration, while conveyances for any other purpose under this section shall be made at a price to be fixed by the Secretary of the Interior through appraisal or otherwise, after taking into consideration the purpose for which the lands are to be used, (b) lease such land to the State, Territory, county, or other State, Territorial, or Federal instrumentality or political subdivision in which the lands are situated, or to a nearby municipal corporation in the same State or Territory, for the purpose for which the land has been classified, at a reasonable annual rental, except that leases of such lands for recreational purposes shall be made without monetary consideration, for a period up to twenty-five years, and, at the discretion of the Secretary, with a privilege of renewal for a like period, (c) sell such land to a nonprofit corporation or nonprofit association, for the purpose for which the land has been classified, at a price to be fixed by the Secretary of the Interior through appraisal, after taking into consideration the purpose for which

the lands are to be used, or (d) lease such land to a nonprofit corporation or nonprofit association at a reasonable annual rental, for a period up to twenty years, and, at the discretion of the Secretary, with a privilege of renewal for a like period. Each patent or lease so issued shall contain a reservation to the United States of all mineral deposits in the lands conveyed or leased and of the right to mine and remove the same, under applicable laws and regulations to be established by the Secretary. Each lease shall contain a provision for its termination upon a finding by the Secretary that the land has not been used by the lessee for the purpose specified in the lease for such period, not over five years, as may be specified in the lease, or that such land or any part thereof is being devoted to another use.

PRIOR PROVISIONS

Provisions similar to those in this section were formerly contained in section 869 of this title. See 1954 Amendment note set out under that section. Those prior provisions did not require, as in this section, the Secretary of the Interior to take into account the possible power value of the lands, whether withdrawn therefor, or not, before authorizing any disposal of them under section 869 of this title; did not provide, as in this section, for the sale or lease of those lands to Federal instrumentalities, to Territories and to political subdivisions other than States, counties, and municipalities, and to nonprofit corporations and associations; and did not provide, as in this section, that conveyances of that land for historic-monument purposes should be made without monetary consideration. See section 869 of this title.

AMENDMENTS

1976—Pub. L. 94-579 in cl. (a) inserted reference to recreational purposes and in cl. (b) inserted reference to leases for recreational purposes.

1966—Pub. L. 89-457 authorized an increase in the period of a lease under cl. (b) from twenty to twenty-five years.

SAVINGS PROVISION

Amendment by Pub. L. 94-579 not to be construed as terminating any valid lease, permit, patent, etc., existing on Oct. 21, 1976, see section 701 of Pub. L. 94-579, set out as a note under section 1701 of this title.

PERIOD OF LEASES

Section 2 of Pub. L. 89-457 provided that: "Upon application by a lessee holding a lease under the Recreation and Public Purposes Act [sections 869 to 869-4 of this title] the Secretary of the Interior may enter into a new lease for a term not to exceed twenty-five years from the date of the new lease."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 869, 869-2, 869-3, 869-4, 1721 of this title.

§ 869-2. Conditions of transfer by grantee; solid waste disposal

(a) Conditions of transfer by grantee

Title to lands conveyed by the Government under sections 869 to 869-4 of this title may not be transferred by the grantee or its successor except, with the consent of the Secretary of the

Interior, to a transferee which would be a qualified grantee under section 869-1(a) or 869-1(c) of this title and subject to the acreage limitation contained in section 869(b) of this title. A grantee or its successor may not change the use specified in the conveyance to another or additional use except, with the consent of the Secretary, to a use for which such grantee or its successor could obtain a conveyance under sections 869 to 869-4 of this title. If at any time after the lands are conveyed by the Government, the grantee or its successor attempts to transfer title to or control over these lands to another or the lands are devoted to a use other than that for which the lands were conveyed, without the consent of the Secretary, title to the lands shall revert to the United States.

(b) New disposal sites

(1) Notwithstanding the provisions of subsection (a) of this section, if the Secretary receives an application for conveyance of land under sections 869 to 869-4 of this title for the express purpose of solid waste disposal or for another purpose which the Secretary finds may include the disposal, placement, or release of any hazardous substance, the Secretary may convey such land subject only to the provisions of this subsection.

(2) Prior to issuance of any conveyance of land under this subsection the Secretary shall investigate the land covered by an application for such conveyance to determine whether or not any hazardous substance is present on such land. Such investigation shall include a review of any available records as to the use of such land and all appropriate analysis of the soil, water and air associated with such land. No land shall be conveyed under this subsection if such investigation indicates that any hazardous substance is present on such land.

(3) No application for conveyance under this subsection shall be acted on by the Secretary until the applicant has furnished evidence, satisfactory to the Secretary, that a copy of the application and information concerning the proposed use of the land covered by the application has been provided to the Environmental Protection Agency and to all other State and Federal agencies with responsibility for enforcement of State and Federal laws applicable to lands used for the disposal, placement, or release of solid waste or any hazardous substance.

(4) No application for conveyance under this subsection shall be acted on by the Secretary until the applicant has given a warranty that use of the land covered by the application will be consistent with all applicable State and Federal laws, including laws dealing with the disposal, placement, or release of hazardous substances, and that the applicant will hold the United States harmless from any liability that may arise out of any violation of any such law.

(5) A conveyance under this subsection shall be made to the extent that the applicant has demonstrated to the Secretary that the land covered by an application meets all applicable State and local requirements and is appropriate in character and reasonable in acreage in order to meet an existing or reasonably anticipated need for solid waste disposal or for another pro-

posed use that the Secretary finds may include the disposal, placement, or release of any hazardous substance.

(6) A conveyance under this subsection shall be subject to the following conditions:

(A) Except as otherwise provided in subparagraphs (B) and (D) of this paragraph, the document of conveyance shall provide that the lands conveyed under this subsection shall revert to the United States, unless substantially all of the lands have been used, on or before the date five years after the date of conveyance, for the purpose or purposes specified in the application, or for other use or uses authorized under subsection (a) of this section with the consent of the Secretary.

(B) In the event that at any time after such conveyance any portion of such lands has not been used for the purpose or purposes specified in the application, and the party to whom such lands were conveyed by the Secretary shall transfer ownership of such unused portion to any other party, the party to whom such lands were conveyed by the Secretary shall be liable to pay the Secretary, on behalf of the United States, the fair market value of such transferred portion as of the date of such transfer, including the value of any improvements thereon. Subject to appropriations, all amounts received by the Secretary under this subparagraph shall be retained by the Secretary and used for the management of public lands and shall remain available until expended.

(C) Pricing for conveyances of land under this subsection shall be in accordance with the provisions of section 869-1 of this title, except that no compensation shall be required for the inclusion of only the limited reverter specified in this paragraph.

(D) Each patent issued under this subsection shall specify that no portion of the lands covered by such patent shall under any circumstances revert to the United States if such portion has been used for solid waste disposal or for any other purpose that the Secretary finds may result in the disposal, placement, or release of any hazardous substance.

(7) For purposes of this section the term "hazardous substance" has the same meaning as such term has when used in the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9601 et seq.).

(c) Existing disposal sites

(1) Upon the application or with the concurrence of any party to whom the Secretary, prior to November 10, 1988, conveyed land under sections 869 to 869-4 of this title, the Secretary may renounce the reversionary interests of the United States in such land, or portion thereof, if the Secretary finds that such land, or portion thereof, has been used for solid waste disposal or for any other purpose which the Secretary finds may result in the disposal, placement, or release of any hazardous substance, and the Secretary may rescind any portion of any patent or other instrument of conveyance inconsistent with such renunciation. After such renunciation, affected lands shall not under any circumstances revert to the United States by the operation of

law, and shall cease to be subject to the provisions of subsection (a) of this section.

(2) Upon the application or with the concurrence of a party to whom the Secretary, prior to November 10, 1988, leased lands pursuant to sections 869 to 869-4 of this title, the Secretary may convey in fee the lands covered by such lease or any portion thereof which have been used for solid waste disposal or for any other purpose that the Secretary finds may result in the disposal, placement, or release of any hazardous substance. Notwithstanding any other provision of sections 869 to 869-4 of this title, a patent issued pursuant to this paragraph shall not contain a reverter provision and the lands covered by such patent shall not under any circumstances revert to the United States by operation of law after the issuance of such patent and shall not be subject to the provisions of subsection (a) of this section.

(June 14, 1926, ch. 578, §3, as added June 4, 1954, ch. 263, 68 Stat. 175; amended Pub. L. 86-292, §2, Sept. 21, 1959, 73 Stat. 571; Pub. L. 100-648, §2, Nov. 10, 1988, 102 Stat. 3813.)

(b)(7), probably means the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, Pub. L. 96-510, Dec. 11, 1980, 94 Stat. 2767, as amended, which is classified principally to chapter 103 (§9601 et seq.) of Title 42, The Public Health and Welfare. PRIOR PROVISIONS

Prior provisions on the subject of reverter were formerly contained in section 869 of this title. See 1954 Amendment note set out under that section. Those prior provisions permanently restricted the lands conveyed to a single use, and did not provide, as in this section, for transfer by the original grantee or its successor.

AMENDMENTS

1988—Pub. L. 100-648 designated existing provision as subsec. (a) and added subsecs. (b) and (c).

1959—Pub. L. 86-292 struck out sentence which provided that this section should cease to be in effect as to any lands patented under sections 869 to 869-4 of this title twenty-five years after the issuance of patent for such lands.

SAVINGS PROVISIONS

Section 3 of Pub. L. 100-648 provided that: "Nothing in this Act [amending section 869-2 of this title and enacting provisions set out as notes under sections 869 and 869-2 of this title] or the amendments made thereby shall be construed to affect the applicability and operation of the Comprehensive Environmental Response, Compensation[,] and Liability Act [of 1980] (42 U.S.C. 9601 et seq.) as amended, and the Resource Conservation and Recovery Act of 1976 (42 U.S.C. 6901 et seq.), as amended."

CONGRESSIONAL REVIEW OF CONVEYANCE OF LAND OR RENUNCIATION OF REVERSIONARY INTERESTS

Section 4 of Pub. L. 100-648 provided that:

"(a) The Secretary shall not make any conveyance of land or renunciation of reversionary interests under this Act [amending section 869-2 of this title and enacting provisions set out as notes under sections 869 and 869-2 of this title] until he has published in the Federal

Register regulations implementing this Act and until sixty days (not counting days on which the House of Representatives or the Senate has adjourned for more than three days) after these regulations have been submitted to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives. [Implementing regulations were published in the Federal Register July 23, 1992, 57 F.R. 32730.]

"(b) During the first three years after enactment of this Act [Nov. 10, 1988] the Secretary shall not make any conveyance of land or renunciation of reversionary interests under this Act until thirty days (not counting days on which the House of Representatives or the Senate has adjourned for more than three days) after notice of intention to do so has been submitted to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives."

Section, act Apr. 13, 1928, ch. 370, §§1, 2, 45 Stat. 429, extended provisions of section 869 of this title to former

Oregon and California Railroad grant lands revested in the United States and to former Coos Bay Wagon Road grant lands reconveyed to the United States.

§ 870. Grants of land in aid of common or public schools; extension to those mineral in character; effect of leases

Subject to the provisions of subsections (a), (b), and (c) of this section, the several grants to the States of numbered sections in place for the support or in aid of common or public schools be, and they are, extended to embrace numbered school sections mineral in character, unless land has been granted to and/or selected by and certified or approved, to any such State or States as indemnity or in lieu of any land so granted by numbered sections.

(a) The grant of numbered mineral sections under this section shall be of the same effect as prior grants for the numbered nonmineral sections, and titles to such numbered mineral sections shall vest in the States at the time and in the manner and be subject to all the rights of adverse parties recognized by existing law in the grants of numbered nonmineral sections.

(b) The additional grant made by this section is upon the express condition that all sales, grants, deeds, or patents for any of the lands so granted shall hereafter be subject to and contain a reservation to the State of all the coal and other minerals in the lands so sold, granted, deeded, or patented, together with the right to prospect for, mine, and remove the same. The coal and other mineral deposits in such lands not heretofore disposed of by the State shall be subject to lease by the State as the State legislature may direct, the proceeds and rentals and royalties therefrom to be utilized for the support or in aid of the common or public schools: *Provided*, That any lands or minerals hereafter disposed of contrary to the provisions of this section shall be forfeited to the United States by appropriate proceedings instituted by the Attorney General for that purpose in the United States district court for the district in which the property or some part thereof is located.

(c) Except as provided in subsection (d) of this section, any lands included within the limits of existing reservations of or by the United States, or specifically reserved for water-power purposes, or included in any pending suit or proceeding in the courts of the United States, or subject to or included in any valid application, claim, or right initiated or held under any of the existing laws of the United States, unless or until such reservation, application, claim, or right is extinguished, relinquished, or canceled, and all lands in the Territory of Alaska, are excluded from the provisions of this section.

(d)(1) Notwithstanding subsection (c) of this section, the fact that there is outstanding on any numbered school section, whether or not mineral in character, at the time of its survey a mineral lease or leases entered into by the United States, or an application therefor, shall not prevent the grant of such numbered school section to the State concerned as provided by this section and section 871 of this title.

(2) Any such numbered school section which has been surveyed prior to July 11, 1956, and which has not been granted to the State con-

cerned solely by reason of the fact that there was outstanding on it at the time of the survey a mineral lease or leases entered into by the United States, or an application therefor, is hereby granted by the United States to such State under this section as if it had not been so leased; and the State shall succeed the position of the United States as lessor under such lease or leases.

(3) Any such numbered school section which is surveyed on or after July 11, 1956, and on which there is outstanding at the time of such survey a mineral lease or leases entered into by the United States, shall (unless excluded from the provisions of this section by subsection (c) of this section for a reason other than the existence of an outstanding lease) be granted to the State concerned immediately upon completion of such survey; and the State shall succeed to the position of the United States as lessor under such lease or leases.

(4) The Secretary of the Interior shall, upon application by a State, issue patents to the State for the lands granted by this section and section 871 of this title, in accordance with section 871a¹ of this title. Such patent shall, if the lease is then outstanding, include a statement that the State succeeded to the position of the United States as lessor at the time the title vested in the State.

(5) Where at the time rents, royalties, and bonuses accrue the lands or deposits covered by a single lease are owned in part by the State and in part by the United States, the rents, royalties, and bonuses shall be allocated between them in proportion to the acreage in said lease owned by each.

(6) As used in this subsection, "lease" includes "permit" and "lessor" includes "grantor".
