ENCOURAGEMENT OF DEBT-FOR-DEVELOPMENT SWAPS THROUGH LOCAL CURRENCY REPAYMENT

Pub. L. 101-240, title V, §531, Dec. 19, 1989, 103 Stat. 2513, provided that:

"(a) STATEMENT OF POLICY.—It is the sense of the Congress that—

"(1) debt-for-development swaps, where payment is made in local currency at the free market rate, serve a useful purpose by providing banking institutions

with constructive opportunities for the reduction of the external debt of highly indebted developing countries in a process that involves the participation of private, nonprofit groups in providing a stimulus to the economic and social development of such developing countries;

"(2) debt-for-development swaps provide highly indebted developing countries with a creative method of reducing external debt burdens, while promoting their economic growth and restructuring objectives;

"(3) banking institutions should give careful consideration to engaging in such swaps as one means of strengthening overall loan portfolios through the reduction of high external debt burdens while expanding economic opportunities through private sector initiatives; and

"(4) in order to avoid any bias against such swaps in the regulatory framework applicable to the financial reporting of banking institutions, where payment is made in local currency at the free market rate, appropriate recognition of the fair market exchange value of the currency so received should be made.

"(b) NOTIFICATION RELATING TO LOCAL CURRENCY REPAYMENT THROUGH DEBT-FOR-DEVELOPMENT SWAPS.—Before the end of the 6-month period beginning on the date of the enactment of this section [Dec. 19, 1989], each appropriate Federal banking agency shall adopt uniform guidelines that will effectuate the policy set forth in subsection (a) concerning the regulatory framework and accounting treatment of debt-for-development swaps involving repayment in local currency at the free market rate. For the purpose of such guidelines, the impact of such swaps on reported loan loss reserves shall be determined by valuing currency received in such swaps at fair market exchange value.

"(c) DEFINITIONS.—As used in this section:

"(1) APPROPRIATE FEDERAL BANKING AGENCY.—The term 'appropriate Federal banking agency' has the meaning given such term in section 903(1) of the International Lending Supervision Act of 1983 [12 U.S.C. 3902(1)].

"(2) BANKING INSTITUTION.—The term 'banking institution' has the meaning given such term in section 903(2) of the International Lending Supervision Act of 1983.

"(3) DEBT-FOR-DEVELOPMENT SWAP.—The term 'debt-for-development swap' has the meaning given such term in section 1608(b)(2) of the International Financial Institutions Act [22 U.S.C. 262p-4c(b)(2)].

"(4) HIGHLY INDEBTED COUNTRY.—The term 'highly indebted country' means any country designated as a 'Highly Indebted Country' in the annual World Debt Tables most recently published by the International Bank for Reconstruction and Development before the date of the enactment of this section [Dec. 19, 1989]."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1464, 3910 of this title.

§ 3903. Strengthened supervision of international lending

(a) Each appropriate Federal banking agency shall evaluate banking institution foreign country exposure and transfer risk for use in banking institution examination and supervision.

(b) Each such agency shall establish examination and supervisory procedures to assure that factors such as foreign country exposure and transfer risk are taken into account in evaluating the adequacy of the capital of banking institutions.

(Pub. L. 98–181, title IX, §904, Nov. 30, 1983, 97 Stat. 1279.)

§ 3904. Reserves

(a) Establishment and maintenance of special reserves

(1) Each appropriate Federal banking agency shall require a banking institution to establish and maintain a special reserve whenever, in the judgment of such appropriate Federal banking agency—

(A) the quality of such banking institution’s assets has been impaired by a protracted in-

ability of public or private borrowers in a foreign country to make payments on their external indebtedness as indicated by such factors, among others, as—

(i) a failure by such public or private borrowers to make full interest payments on external indebtedness;

(ii) a failure to comply with the terms of any restructured indebtedness; or

(iii) a failure by the foreign country to comply with any International Monetary Fund or other suitable adjustment program; or

(B) no definite prospects exist for the orderly restoration of debt service.

(2) Such reserves shall be charged against current income and shall not be considered as part of capital and surplus or allowances for possible loan losses for regulatory, supervisory, or disclosure purposes.

(b) Accommodation of potential losses on foreign loans by United States banks

The appropriate Federal banking agencies shall analyze the results of foreign loan rescheduled negotiations, assess the loan loss risk reflected in rescheduling agreements, and, using the powers set forth in section 3907 of this title (regarding capital adequacy), ensure that the capital and reserve positions of United States banks are adequate to accommodate potential losses on their foreign loans.

(c) Regulations and orders of Federal banking agencies

The appropriate Federal banking agencies shall promulgate regulations or orders necessary to implement this section within one hundred and twenty days after November 30, 1983.

(Pub. L. 98–181, title IX, §905, Nov. 30, 1983, 97 Stat. 1279.)

§ 3904a. Additional reserve requirements

(a) In general

Each appropriate Federal banking agency shall review the exposure to risk of United States banking institutions arising from the medium- and long-term loans made by such institutions that are outstanding to any highly indebted country. Each agency shall provide direction to such institutions regarding additions to general reserves maintained by each banking institution for potential loan losses and special reserves required by such agency arising from such review.

(b) Determination of institutional exposure to risk

In determining the exposure of an institution to risk for purposes of subsection (a) of this section, the appropriate Federal banking agency—

(1) shall determine whether any country exposure that is, and has been for at least 2 years, rated in the category “Other Transfer Risk Problems” or the category “Substandard” by the Interagency Country Exposure Review Committee should be reevaluated;

(2) may exempt, in full or in part, from reserve requirements established pursuant to subsection (a) of this section, any loan—

(A) to a country that enters into a debt reduction, debt service reduction, or financing program with its bank creditors that is supported by the International Bank for Reconstruction and Development or the International Monetary Fund; or

(B) secured, in whole or in part, by appropriate collateral for payment of interest or principal;

(3) take into account any other factors which bear on such exposure and the particular circumstances of the institution; and

(4) shall consider as indicators of risk, where appropriate, the average reserve levels maintained by or required of banking institutions in foreign countries and secondary market prices for such loans.

(c) Timing and report

(1) Determined by agency

Except as provided in paragraph (3), each appropriate Federal banking agency shall determine the timing of any addition to reserves required by subsection (a) of this section.

(2) Report

Each appropriate Federal banking agency shall include in each report required to be made under section 3912(d)¹ of this title after 1989 a report on the actions taken pursuant to this section.

(3) Deadline

Each Federal agency required to undertake a review described in subsection (a) of this section shall complete the review not later than December 31, 1990.

(d) "Highly indebted country" defined

As used in this section, the term "highly indebted country" means any country designated as a "Highly Indebted Country" in the annual World Debt Tables most recently published by the International Bank for Reconstruction and Development before December 19, 1989.

(Pub. L. 98-181, title IX, §905A, as added Pub. L. 101-240, title IV, §402(b), Dec. 19, 1989, 103 Stat. 2501.)

REFERENCES IN TEXT

Section 3912(d) of this title, referred to in subsection (c)(2), was repealed by Pub. L. 104-208, div. A, title II, §2224(c), Sept. 30, 1996, 110 Stat. 3009-415.

CONGRESSIONAL FINDINGS

Section 402(a) of Pub. L. 101-240 provided that: "The Congress finds that—

"(1) since the adoption of the International Lending Supervision Act of 1983 [12 U.S.C. 3901 et seq.], the credit quality of loans by United States banking institutions to highly indebted countries has deteriorated and the prospects for full repayment of such loans have diminished;

"(2) in general during this period, the level of country exposure and transfer risk associated with loans by United States banking institutions to highly indebted countries has not been adequately reflected in the reserve levels established by many individual United States banking institutions or the reserve requirements imposed by Federal banking agencies pursuant to such Act;

"(3) during the last 3 years and particularly in recent months, United States banking institutions have increased their reserves for possible losses from loans to highly indebted countries but such reserves remain, in some cases, significantly lower than reserves established by banking institutions in a number of foreign countries and may not be adequate to deal with potential risks; and

"(4) in order to fulfill the purposes of such Act, the Federal banking agencies should take a more active role in reviewing reserve levels established by United States banking institutions for potential losses from loans to highly indebted countries and in requiring appropriate levels of both special and general reserves to reflect the increased risk of such loans."

§ 3905. Accounting for fees on international loans

(a)(1) In order to avoid excessive debt service burdens on debtor countries, no banking institution shall charge, in connection with the restructuring of an international loan, any fee exceeding the administrative cost of the restructuring unless it amortizes such fee over the effective life of each such loan.

(2)(A) Each appropriate Federal banking agency shall promulgate such regulations as are necessary to further carry out the provisions of this subsection.

(B) The requirement of paragraph (1) shall take effect on November 30, 1983.

(b)(1) Subject to subsection (a) of this section, the appropriate Federal banking agencies shall promulgate regulations for accounting for agency, commitment, management and other fees charged by a banking institution in connection with an international loan.

(2) Such regulations shall establish the accounting treatment of such fees for regulatory, supervisory, and disclosure purposes to assure that the appropriate portion of such fees is accrued in income over the effective life of each such loan.

(3) The appropriate Federal banking agencies shall promulgate regulations or orders necessary to implement this subsection within one hundred and twenty days after November 30, 1983.

(Pub. L. 98-181, title IX, §906, Nov. 30, 1983, 97 Stat. 1279.)

§ 3906. Collection and disclosure of international lending data

(a) Submission of information to Federal banking agencies

Each appropriate Federal banking agency shall require, by regulation, each banking institution with foreign country exposure to submit, no fewer than four times each calendar year, information regarding such exposure in a format prescribed by such regulations.

(b) Disclosure of information to the public

Each appropriate Federal banking agency shall require, by regulation, banking institutions to disclose to the public information regarding material foreign country exposure in relation to assets and to capital.

essary to implement this section within one hundred and twenty days after November 30, 1983.

(Pub. L. 98-181, title IX, §907, Nov. 30, 1983, 97 Stat. 1280.)

§ 3907. Capital adequacy

(a)(1) Each appropriate Federal banking agency shall cause banking institutions to achieve and maintain adequate capital by establishing minimum levels of capital for such banking institutions and by using such other methods as the appropriate Federal banking agency deems appropriate.

(2) Each appropriate Federal banking agency shall have the authority to establish such minimum level of capital for a banking institution as the appropriate Federal banking agency, in its discretion, deems to be necessary or appropriate in light of the particular circumstances of the banking institution.

(b)(1) Failure of a banking institution to maintain capital at or above its minimum level as established pursuant to subsection (a) of this section may be deemed by the appropriate Federal banking agency, in its discretion, to constitute an unsafe and unsound practice within the meaning of section 1818 of this title.

(2)(A) In addition to, or in lieu of, any other action authorized by law, including paragraph (1), the appropriate Federal banking agency may issue a directive to a banking institution that fails to maintain capital¹ at or above its required level as established pursuant to subsection (a) of this section.

(B)(i) Such directive may require the banking institution to submit and adhere to a plan acceptable to the appropriate Federal banking agency describing the means and timing by which the banking institution shall achieve its required capital level.

(ii) Any such directive issued pursuant to this paragraph, including plans submitted pursuant thereto, shall be enforceable under the provisions of section 1818(i) of this title to the same extent as an effective and outstanding order issued pursuant to section 1818(b) of this title which has become final.

(3)(A) Each appropriate Federal banking agency may consider such banking institution's progress in adhering to any plan required under this subsection whenever such banking institution, or an affiliate thereof, or the holding company which controls such banking institution, seeks the requisite approval of such appropriate Federal banking agency for any proposal which would divert earnings, diminish capital, or otherwise impede such banking institution's progress in achieving its minimum capital level.

(B) Such appropriate Federal banking agency may deny such approval where it determines that such proposal would adversely affect the ability of the banking institution to comply with such plan.

(C) The Chairman of the Board of Governors of the Federal Reserve System and the Secretary of the Treasury shall encourage governments, central banks, and regulatory authorities of

other major banking countries to work toward maintaining and, where appropriate, strengthening the capital bases of banking institutions involved in international lending.

§ 3908. Foreign loan evaluations

(a) Projects requiring an economic feasibility evaluation; content of evaluation

(1) In any case in which one or more banking institutions extend credit, whether by loan, lease, guarantee, or otherwise, which individually or in the aggregate exceeds \$20,000,000, to finance any project which has as a major objective the construction or operation of any mining operation, any metal or mineral primary processing operation, any fabricating facility or operation, or any metal-making operations (semi and finished) located outside the United States or its territories and possessions, a written economic feasibility evaluation of such foreign project shall be prepared and approved in writing by a senior official of the banking institution, or, if more than one banking institution is involved, the lead banking institution, prior to the extension of such credit.

(2) Such evaluation shall—

(A) take into account the profit potential of the project, the impact of the project on world markets, the inherent competitive advantages and disadvantages of the project over the entire life of the project, and the likely effect of the project upon the overall long-term economic development of the country in which the project is located; and

(B) consider whether the extension of credit can reasonably be expected to be repaid from revenues generated by such foreign project without regard to any subsidy, as defined in international agreements, provided by the government involved or any instrumentality of any country.

(b) Review of evaluation by Federal banking agencies

Such economic feasibility evaluations shall be reviewed by representatives of the appropriate Federal banking agencies whenever an examination by such appropriate Federal banking agency is conducted.

(c) Other statutory authorities applicable

(1) The authorities of the Federal banking agencies contained in section 1818 of this title and in section 3909 of this title, except those contained in section 3909(d) of this title, shall be applicable to this section.

(2) No private right of action or claim for relief may be predicated upon this section.

(Pub. L. 98-181, title IX, §909, Nov. 30, 1983, 97 Stat. 1281.)

§ 3909. General authorities

(2) The appropriate Federal banking agency is authorized to apply the provisions of this chapter to any affiliate of an insured bank, but only to affiliates for which it is the appropriate Federal banking agency, in order to promote uniform application of this chapter or to prevent evasions thereof.

(3) For purposes of this section, the term “affiliate” shall have the same meaning as in section 371c of this title, except that the term “member bank” in such section shall be deemed to refer to an “insured bank”, as such term is used in section 1813(h) of this title.

(b) Systems uniformity

The appropriate Federal banking agencies shall establish uniform systems to implement the authorities provided under this chapter.

(c) Existing authorities

(1) The powers and authorities granted in this chapter shall be supplemental to and shall not be deemed in any manner to derogate from or restrict the authority of each appropriate Federal banking agency under section 1818 of this title or any other law including the authority to require additional capital or reserves.

(2) Any such authority may be used by any appropriate Federal banking agency to ensure compliance by a banking institution with the provisions of this chapter and all rules, regulations, or orders issued pursuant thereto.

(d) Civil penalties; assessment and collection

(1) Any banking institution which violates, or any officer, director, employee, agent, or other person participating in the conduct of the affairs of such banking institution, who violates any provision of this chapter, or any rule, regulation, or order, issued under this chapter, shall forfeit and pay a civil penalty of not more than \$1,000 per day for each day during which such violation continues.

(2) Such violations shall be deemed to be a violation of a final order under section 1818(i)(2) of this title and the penalty shall be assessed and collected by the appropriate Federal banking agency under the procedures established by, and subject to the rights afforded to parties in, such section.
