

for unleaded gasoline, agencies shall include in their considerations such factors as the availability of storage facilities for bulk purchases and the number of vehicles capable of operating on gasohol.

1-104. Agencies shall designate those vehicles which are capable of using gasohol, consistent with overall agency needs and sound vehicle management practices. Agencies shall specify the conditions governing the use of gasohol, including when gasohol shall be purchased from normal retail outlets by vehicle operators.

1-105. The use of gasohol by the Department of Defense pursuant to this Order shall be in accordance with Section 815 of the Department of Defense Authorization Act, 1980 (93 Stat. 817; Public Law 96-107; 10 U.S.C. 2388 note) which provides for the use of gasohol to the maximum extent feasible and consistent with overall defense needs and sound vehicle management practices, as determined by the Secretary of Defense.

1-106. Vehicles used in experimental programs to test fuels other than gasohol are excepted from this Order.

1-107. The authority vested in the President by Section 271(b) of the Energy Security Act (42 U.S.C. 8871(b)) is delegated to the Secretary of Defense with respect to gasohol use by the Department of Defense, and delegated to the Administrator of General Services with respect to gasohol use by other agencies.

1-108. Federal agencies shall make available to the Department of Energy, upon request, relevant data or information they possess concerning agency gasohol usage.

1-109. For purposes of this Order "Gasohol" means a motor fuel which has an octane rating of not less than 87 (R+M)/2 and which consists of approximately 90 percent unleaded gasoline and approximately 10 percent anhydrous (199 proof or above) ethyl alcohol derived from biomass, as defined in Section 203(2)(A) of the Energy Security Act (94 Stat. 683; Public Law 96-294; 42 U.S.C. 8802(2)(A)).

1-110. (a) The Secretary of Defense with respect to gasohol use by the Department of Defense, and the Administrator of General Services with respect to gasohol use by other agencies, shall issue such guidelines for the implementation of this Order as they deem appropriate.

(b) Such guidelines shall provide for a determination of reasonable prices and reasonable quantities based on the local prevailing price of unleaded gasolines, the octane requirements for vehicles in the Federal fleet, local market availability of gasohol or its components, and other such factors, as may be appropriate.

JIMMY CARTER.

CHAPTER 97—ACID PRECIPITATION PROGRAM AND CARBON DIOXIDE STUDY

SUBCHAPTER I—ACID PRECIPITATION

- Sec. 8901. Introductory provisions.
 - (a) Congressional statement of findings and purpose.
 - (b) Congressional declaration of purpose.
 - (c) "Acid precipitation" defined.
- 8902. Comprehensive ten-year program.
 - (a) Implementation by Acid Precipitation Task Force; membership, etc., of Task Force.
 - (b) Research management consortium; membership, responsibilities, etc.
 - (c) Director of research program.
- 8903. Comprehensive research plan.
 - (a) Preparation by Task Force for ten-year program; purposes.
 - (b) Scope.
 - (c) Procedures applicable.
 - (d) Convening of Task Force.
 - (e) Submission of annual report to President and Congress by Task Force.
 - (f) Applicability of other statutory provisions to Task Force or plan.

- Sec. 8904. Implementation of comprehensive plan; new or existing regulatory authorities, etc., not granted or modified.
- 8905. Authorization of appropriations.
- 8906. Updated data base on acid content in precipitation; new monitoring site not required.

SUBCHAPTER II—CARBON DIOXIDE

- 8911. Comprehensive study of projected impact on atmospheric levels of fossil fuel combustion, etc.
 - (a) Implementing agreement between Director of Office of Science and Technology and National Academy of Sciences; contents; conduct; status report by President respecting negotiations of Office.
 - (b) Final report by Office and Academy; contents; prior clearance or review of work of Academy; recommendations.
 - (c) Information from other Federal agencies and departments.
 - (d) Separate assessment by Office of interagency implementation requirements.
- 8912. Authorization of appropriations.

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in section 7403 of this title.

SUBCHAPTER I—ACID PRECIPITATION

§ 8901. Introductory provisions

(a) Congressional statement of findings and purpose

The Congress finds and declares that acid precipitation resulting from other than natural sources—

- (1) could contribute to the increasing pollution of natural and man-made water systems;
- (2) could adversely affect agricultural and forest crops;
- (3) could adversely affect fish and wildlife and natural ecosystems generally;
- (4) could contribute to corrosion of metals, wood, paint, and masonry used in construction and ornamentation of buildings and public monuments;
- (5) could adversely affect public health and welfare; and
- (6) could affect areas distant from sources and thus involve issues of national and international policy.

(b) Congressional declaration of purpose

The Congress declares that it is the purpose of this subchapter—

- (1) to identify the causes and sources of acid precipitation;
- (2) to evaluate the environmental, social, and economic effects of acid precipitation; and
- (3) based on the results of the research program established by this subchapter and to the extent consistent with existing law, to take action to the extent necessary and practicable (A) to limit or eliminate the identified emissions which are sources of acid precipitation, and (B) to remedy or otherwise ameliorate the harmful effects which may result from acid precipitation.

(c) "Acid precipitation" defined

For purposes of this subchapter the term "acid precipitation" means the wet or dry deposition
