

provided for deposits therein, investment of moneys in the funds, and deposit of salvage proceeds.

Subsec. (e). Pub. L. 90-448, §1303(a), (b), substituted "current average market yield on outstanding marketable obligations of the United States of comparable maturities during the month" for "current average rate on outstanding marketable obligations of the United States of comparable maturities as of the last day of the month", and struck out provisions which permitted Secretary of the Treasury to purchase any notes and other obligations to be issued under this subsection.

Subsecs. (f), (g). Pub. L. 90-448, §1303(c), repealed subsecs. (f) and (g) which provided for use of moneys in the Funds and for payment of administrative expenses.

EFFECTIVE DATE OF 1968 AMENDMENT

Amendment by Pub. L. 90-448 effective 120 days following Aug. 1, 1968, or such later date prescribed by the Secretary but in no event more than 180 days following Aug. 1, 1968, see section 1377 of Pub. L. 90-448, set out as an Effective Date note under section 4001 of this title.

TRANSFER OF FUNCTIONS

Functions of Public Housing Administration and of Housing and Home Finance Agency (of which Public Housing Administration is a constituent agency) and of heads thereof transferred to Secretary of Housing and Urban Development by Pub. L. 89-174, §5(a), Sept. 9, 1965, 79 Stat. 669, which is classified to section 3534(a) of this title. Section 9(c) of such act, set out as a note under section 3531 of this title, provides that references to Housing and Home Finance Agency or to any agency or officer therein are to be deemed to mean Secretary of Housing and Urban Development and that Housing and Home Finance Agency and Public Housing Administration have lapsed.

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in title 41 section 421.

SUBCHAPTER I—GENERAL PROVISIONS

§ 2451. Congressional declaration of policy and purpose

(a) Devotion of space activities to peaceful purposes for benefit of all mankind

The Congress declares that it is the policy of the United States that activities in space should be devoted to peaceful purposes for the benefit of all mankind.

(b) Aeronautical and space activities for welfare and security of United States; control by civilian agency; exceptions

The Congress declares that the general welfare and security of the United States require that adequate provision be made for aeronautical and space activities. The Congress further declares that such activities shall be the responsibility of, and shall be directed by, a civilian agency exercising control over aeronautical and space activities sponsored by the United States, except that activities peculiar to or primarily associated with the development of weapons systems, military operations, or the defense of the United States (including the research and development necessary to make effective provision for the defense of the United States) shall be the responsibility of, and shall be directed by, the Department of Defense; and that determination as to which such agency has responsibility for and direction of any such activity shall be made by the President in conformity with section 2471(e) of this title.

(c) Commercial use of space

The Congress declares that the general welfare of the United States requires that the National Aeronautics and Space Administration (as established by subchapter II of this chapter) seek and encourage, to the maximum extent possible, the fullest commercial use of space.

(d) Objectives of aeronautical and space activities

The aeronautical and space activities of the United States shall be conducted so as to contribute materially to one or more of the following objectives:

- (1) The expansion of human knowledge of the Earth and of phenomena in the atmosphere and space;
- (2) The improvement of the usefulness, performance, speed, safety, and efficiency of aeronautical and space vehicles;

(3) The development and operation of vehicles capable of carrying instruments, equipment, supplies, and living organisms through space;

(4) The establishment of long-range studies of the potential benefits to be gained from, the opportunities for, and the problems involved in the utilization of aeronautical and space activities for peaceful and scientific purposes;

(5) The preservation of the role of the United States as a leader in aeronautical and space science and technology and in the application thereof to the conduct of peaceful activities within and outside the atmosphere;

(6) The making available to agencies directly concerned with national defense of discoveries that have military value or significance, and the furnishing by such agencies, to the civilian agency established to direct and control nonmilitary aeronautical and space activities, of information as to discoveries which have value or significance to that agency;

(7) Cooperation by the United States with other nations and groups of nations in work done pursuant to this chapter and in the peaceful application of the results thereof;

(8) The most effective utilization of the scientific and engineering resources of the United States, with close cooperation among all interested agencies of the United States in order to avoid unnecessary duplication of effort, facilities, and equipment; and

(9) The preservation of the United States preeminent position in aeronautics and space through research and technology development related to associated manufacturing processes.

(e) Ground propulsion systems research and development

The Congress declares that the general welfare of the United States requires that the unique competence in scientific and engineering systems of the National Aeronautics and Space Administration also be directed toward ground propulsion systems research and development. Such development shall be conducted so as to contribute to the objectives of developing energy and petroleum-conserving ground propulsion systems, and of minimizing the environmental degradation caused by such systems.

(f) Bioengineering research, development, and demonstration programs

The Congress declares that the general welfare of the United States requires that the unique competence of the National Aeronautics and Space Administration in science and engineering systems be directed to assisting in bioengineering research, development, and demonstration programs designed to alleviate and minimize the effects of disability.

(g) Purpose of chapter

It is the purpose of this chapter to carry out and effectuate the policies declared in subsections (a), (b), (c), (d), (e), and (f) of this section.
