

1988 [16 U.S.C. 4301 et seq.], recognized the significance of cave resources on Federal lands and established the policy that Federal lands be managed in a manner which protects and maintains, to the extent practicable, significant cave resources.”

CAVE RESEARCH INSTITUTE STUDY

Section 203 of Pub. L. 101-578 directed Secretary of the Interior, not later than one year after Nov. 15, 1990, to prepare and transmit to Congress a study on the feasibility of establishing a Cave Research Institute.

AUTHORIZATION OF APPROPRIATIONS

Section 204 of title II of Pub. L. 101-578 provided that: “There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this title [enacting this section and provisions set out as notes above].”

CHAPTER 64—NORTH AMERICAN WETLANDS CONSERVATION

Sec.	
4401.	Findings and statement of purpose. (a) Findings. (b) Purpose.
4402.	Definitions.
4403.	Establishment of North American Wetlands Conservation Council. (a) Council membership. (b) Appointment and terms. (c) Ex officio Council members. (d) Chairman. (e) Quorum. (f) Meetings. (g) Coordinator.
4404.	Approval of wetlands conservation projects. (a) Consideration by Council. (b) Recommendations to Migratory Bird Conservation Commission. (c) Council procedures. (d) Council representation on Migratory Bird Conservation Commission. (e) Approval of Council recommendations by Migratory Bird Conservation Commission. (f) Notification of appropriate Committees.
4405.	Conditions relating to wetlands conservation projects. (a) Projects in United States. (b) Projects in Canada or Mexico.
4406.	Amounts available to carry out this chapter. (a) Omitted. (b) Migratory bird fines, penalties, forfeitures. (c) Authorization of appropriations. (d) Availability of funds.
4407.	Allocation of amounts available to carry out this chapter. (a) Allocations. (b) Cost sharing. (c) Partial payments.
4408.	Restoration, management, and protection of wetlands and habitat for migratory birds on Federal lands.
4409.	Report to Congress.
4410.	Revisions to Plan.
4411.	Relationship to other authorities. (a) Acquisition of lands and waters. (b) Mitigation.
4412.	Limitation on assessments against Migratory Bird Conservation Fund.
4413.	Other agreements.
4414.	Assessment of progress in wetlands conservation.

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in section 3741 of this title.

§ 4401. Findings and statement of purpose

(a) Findings

The Congress finds and declares that—

(1) the maintenance of healthy populations of migratory birds in North America is dependent on the protection, restoration, and management of wetland ecosystems and associated habitats in Canada, as well as in the United States and Mexico;

(2) wetland ecosystems provide essential and significant habitat for fish, shellfish, and other wildlife of commercial, recreational, scientific, and aesthetic values;

(3) almost 35 per centum of all rare, threatened, and endangered species of animals are dependent on wetland ecosystems;

(4) wetland ecosystems provide substantial flood and storm control values and can obviate the need for expensive manmade control measures;

(5) wetland ecosystems make a significant contribution to water availability and quality, recharging ground water, filtering surface runoff, and providing waste treatment;

(6) wetland ecosystems provide aquatic areas important for recreational and aesthetic purposes;

(7) more than 50 per centum of the original wetlands in the United States alone have been lost;

(8) wetlands destruction, loss of nesting cover, and degradation of migration and wintering habitat have contributed to long-term downward trends in populations of migratory bird species such as pintails, American bitterns, and black ducks;

(9) the migratory bird treaty obligations of the United States with Canada, Mexico, and other countries require protection of wetlands that are used by migratory birds for breeding, wintering, or migration and are needed to achieve and to maintain optimum population levels, distributions, and patterns of migration;

(10) the 1988 amendments to the Fish and Wildlife Conservation Act of 1980 require the Secretary of the Interior to identify conservation measures to assure that nongame migratory bird species do not reach the point at which measures of the Endangered Species Act of 1973 [16 U.S.C. 1531 et seq.] are necessary;

(11) protection of migratory birds and their habitats requires long-term planning and the close cooperation and coordination of management activities by Canada, Mexico, and the United States within the framework of the 1916 and 1936 Migratory Bird Conventions and the Convention on Nature Protection and Wildlife Preservation in the Western Hemisphere;

(12) the North American Waterfowl Management Plan, signed in 1986 by the Minister of Environment for Canada and the Secretary of the Interior for the United States and in 1994 by the Secretary of Sedesol for Mexico, provides a framework for maintaining and restoring an adequate habitat base to ensure perpetuation of populations of North American waterfowl and other migratory bird species;

(13) a tripartite agreement signed in March 1988, by the Director General for Ecological
