

means) encourage and facilitate the exchange of information among the States with respect to energy conservation and increased use of non-depletable energy sources.

(Pub. L. 94-385, title IV, §461, Aug. 14, 1976, 90 Stat. 1168; Pub. L. 95-91, title III, §301(a), title VII, §703, Aug. 4, 1977, 91 Stat. 577, 606.)

TRANSFER OF FUNCTIONS

“Secretary of Energy” substituted in text for “Administrator”, meaning Administrator of Federal Energy Administration, pursuant to sections 301(a), 703, and 707 of Pub. L. 95-91, which are classified to sections 7151(a), 7293, and 7297 of this title and which terminated Federal Energy Administration and transferred its functions and functions of Administrator thereof (with certain exceptions) to Secretary of Energy.

**§ 6892. Annual report to Congress by Comptroller General**

**(a) Requirements; access to information**

For each fiscal year ending before October 1, 1979, the Comptroller General shall report to the Congress on the activities of the Secretary of Energy and the Secretary under this subchapter and any amendments to other statutes made by this subchapter. The provisions of section 771 of title 15 (relating to access by the Comptroller General to books, documents, papers, statistics, data, records, and information in the possession of the Secretary of Energy or of recipients of Federal funds) shall apply to data which relate to such activities.

**(b) Contents of report**

Each report submitted by the Comptroller General under subsection (a) of this section shall include—

- (1) an accounting, by State, of expenditures of Federal funds under each program authorized by this subchapter or by amendments made by this subchapter;
- (2) an estimate of the energy savings which have resulted thereby;
- (3) a thorough evaluation of the effectiveness of the programs authorized by this subchapter or by amendments made by this title in achieving the energy conservation or renewable resource potential available in the sectors and regions affected by such programs;
- (4) a review of the extent and effectiveness of compliance monitoring of programs established by this subchapter or by amendments made by this title and any evidence as to the occurrence of fraud with respect to such programs; and
- (5) the recommendations of the Comptroller General with respect to (A) improvements in the administration of programs authorized by this subchapter or by amendments made by this subchapter, and (B) additional legislation, if any, which is needed to achieve the purposes of this subchapter.

**(c) Definitions**

As used in this part:

- (1) Omitted
- (2) The term “Comptroller General” means the Comptroller General of the United States.
- (3) The term “Secretary” means the Secretary of Housing and Urban Development.

(Pub. L. 94-385, title IV, §462, Aug. 14, 1976, 90 Stat. 1168; Pub. L. 95-91, title III, §301(a), title VII, §§703, 707, Aug. 4, 1977, 91 Stat. 577, 606, 607.)

REFERENCES IN TEXT

This subchapter, referred to in subsecs. (a), and (b)(1), (3), (4), (5), was in the original “this title”, meaning title IV of Pub. L. 94-385 which enacted this subchapter, section 6327 of this title, and section 1701z-8 of Title 12, Banks and Banking, amended sections 6323, 6325, and 6326 of this title, and enacted provisions set out as a note under section 6801 of this title.

CODIFICATION

Subsec. (c)(1) of this section which read “The term ‘Administrator’ means the Administrator of the Federal Energy Administration; except that after such Administration ceases to exist, such term means any officer of the United States designated by the President for purposes of this part” has been omitted in view of termination of Federal Energy Administration and transfer of its functions and functions of Administrator thereof (with certain exceptions) to Secretary of Energy pursuant to sections 301(a), 703, and 707 of Pub. L. 95-91, which are classified to sections 7151(a), 7293, and 7297 of this title and the fact that the term “Secretary” is defined for the purposes of this subchapter by par. (3) of this section. In this part, “Secretary of Energy” has been substituted for “Administrator” wherever it appears.

TRANSFER OF FUNCTIONS

“Secretary of Energy” substituted for “Administrator”, meaning Administrator of Federal Energy Administration, in subsec. (a) pursuant to sections 301(a), 703, and 707 of Pub. L. 95-91, which are classified to sections 7151(a), 7293, and 7297 of this title and which terminated Federal Energy Administration and transferred its functions and functions of Administrator thereof (with certain exceptions) to Secretary of Energy.

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in sections 300h-6, 300h-7, 2022, 2114, 4365, 4368b, 5919, 7412, 7429, 8302, 9601, 9604, 9613, 9614, 9619, 6920, 9621, 9627, 9628, 9659, 9660, 14323 of this title; title 7 section 136q; title 10 sections 2708, 7311; title 16 section 46077; title 18 section 1956; title 25 section 3908; title 26 section 468; title 30 section 1292; title 33 sections 1319, 2602, 2622, 2718; title 49 section 14901.

SUBCHAPTER I—GENERAL PROVISIONS

**§ 6901. Congressional findings**

**(a) Solid waste**

The Congress finds with respect to solid waste—

- (1) that the continuing technological progress and improvement in methods of man-

ufacture, packaging, and marketing of consumer products has resulted in an ever-mounting increase, and in a change in the characteristics, of the mass material discarded by the purchaser of such products;

(2) that the economic and population growth of our Nation, and the improvements in the standard of living enjoyed by our population, have required increased industrial production to meet our needs, and have made necessary the demolition of old buildings, the construction of new buildings, and the provision of highways and other avenues of transportation, which, together with related industrial, commercial, and agricultural operations, have resulted in a rising tide of scrap, discarded, and waste materials;

(3) that the continuing concentration of our population in expanding metropolitan and other urban areas has presented these communities with serious financial, management, intergovernmental, and technical problems in the disposal of solid wastes resulting from the industrial, commercial, domestic, and other activities carried on in such areas;

(4) that while the collection and disposal of solid wastes should continue to be primarily the function of State, regional, and local agencies, the problems of waste disposal as set forth above have become a matter national in scope and in concern and necessitate Federal action through financial and technical assistance and leadership in the development, demonstration, and application of new and improved methods and processes to reduce the amount of waste and unsalvageable materials and to provide for proper and economical solid waste disposal practices.

**(b) Environment and health**

The Congress finds with respect to the environment and health, that—

(1) although land is too valuable a national resource to be needlessly polluted by discarded materials, most solid waste is disposed of on land in open dumps and sanitary landfills;

(2) disposal of solid waste and hazardous waste in or on the land without careful planning and management can present a danger to human health and the environment;

(3) as a result of the Clean Air Act [42 U.S.C. 7401 et seq.], the Water Pollution Control Act [33 U.S.C. 1251 et seq.], and other Federal and State laws respecting public health and the environment, greater amounts of solid waste (in the form of sludge and other pollution treatment residues) have been created. Similarly, inadequate and environmentally unsound practices for the disposal or use of solid waste have created greater amounts of air and water pollution and other problems for the environment and for health;

(4) open dumping is particularly harmful to health, contaminates drinking water from underground and surface supplies, and pollutes the air and the land;

(5) the placement of inadequate controls on hazardous waste management will result in substantial risks to human health and the environment;

(6) if hazardous waste management is improperly performed in the first instance, cor-
