

**(2) Amounts transferred**

The amount transferred to or from a program or project in any one transfer under subsection (a) of this section may not exceed \$5,000,000.

**(3) Determination required**

A transfer may not be carried out by a manager of a field office under subsection (a) of this section unless the manager determines that the transfer—

- (A) is necessary to address a risk to health, safety, or the environment; or
- (B) will result in cost savings and efficiencies.

**(4) Limitation**

A transfer may not be carried out by a manager of a field office under subsection (a) of this section to cover a cost overrun or scheduling delay for any program or project.

**(5) Impermissible uses**

Funds transferred pursuant to subsection (a) of this section may not be used for an item for which Congress has specifically denied funds or for a new program or project that has not been authorized by Congress.

**(c) Exemption from reprogramming requirements**

The requirements of section 7386a of this title shall not apply to transfers of funds pursuant to subsection (a) of this section.

**(d) Notification**

The Secretary, acting through the Administrator for Nuclear Security, shall notify Congress of any transfer of funds pursuant to subsection (a) of this section not later than 30 days after such transfer occurs.

**(e) Definitions**

In this section:

(1) The term “program or project” means, with respect to a field office of the Department of Energy, a program or project that is for weapons activities necessary for national security programs of the Department, that is being carried out by that office, and for which weapons activities funds have been authorized and appropriated.

(2) The term “weapons activities funds” means funds appropriated to the Department of Energy pursuant to an authorization for carrying out weapons activities necessary for national security programs.
