§ 3601. Congressional statement of findings and purposes

(a) The Congress finds that—

(1) exposure to asbestos fibers has been identified over a long period of time and by reputable medical and scientific evidence as significantly increasing the incidence of cancer and other severe or fatal diseases, such as asbestosis;

(2) medical evidence has suggested that children may be particularly vulnerable to environmentally induced cancers;

(3) medical science has not established any minimum level of exposure to asbestos fibers which is considered to be safe to individuals exposed to the fibers;

(4) substantial amounts of asbestos, particularly in sprayed form, have been used in school buildings, especially during the period 1946 through 1972;

(5) partial surveys in some States have indicated that (A) in a number of school buildings materials containing asbestos fibers have become damaged or friable, causing asbestos fibers to be dislodged into the air, and (B) asbestos concentrations far exceeding normal ambient air levels have been found in school buildings containing such damaged materials;

(6) the presence in school buildings of friable or easily damaged asbestos creates an unwarranted hazard to the health of the school children and school employees who are exposed to such materials;

(7) the Department of Health and Human Services and the Environmental Protection Agency, as well as several States, have attempted to publicize the potential hazards to school children and employees from exposure to asbestos fibers, but there is no systematic program for identifying hazardous conditions in schools or for remedying those conditions;

(8) because there is no Federal health standard regulating the concentration of asbestos fibers in noncommercial workplace environments such as schools, school employees and students may be exposed to hazardous concentrations of asbestos fibers in the school buildings which they use each day;

(9) without an improved program of information distribution, technical and scientific assistance, and financial support, many local educational agencies and States will not be able to mitigate the potential asbestos hazards in their schools; and

(10) the effective regulation of interstate commerce for the protection of the public health requires the establishment of programs under this chapter to identify and mitigate hazards from exposure to asbestos fibers and materials emitting such fibers.

(b) It is the purpose of this chapter to—

(1) direct the Secretary of Education to establish a task force to assist States and local educational agencies to ascertain the extent of the danger to the health of school children and employees from asbestos materials in schools;

(2) require States receiving administrative funds for any applicable program (as defined under section 1221(c)(1)(A)¹ of this title) to prepare a plan describing the manner in which information relating to programs established under this chapter shall be distributed to local educational agencies;

(3) provide scientific, technical, and financial assistance to State educational agencies and local educational agencies to enable them to conduct an asbestos detection program to identify asbestos hazards in schools;

(4) provide loans to local educational agencies for the mitigation of asbestos hazards which constitute an imminent hazard to the health and safety of school children and employees; and

(5) assure that no employee of any local educational agency suffers any disciplinary action as a result of calling attention to potential asbestos hazards which may exist in schools.

tions) to State educational agencies and to local educational agencies for the purpose of assisting such agencies in carrying out activities described in this chapter;

(3) the review of applications for grants and loans under sections 3604 and 3605 of this title, and the submission to the Secretary of recommendations respecting the approval or disapproval of such applications;

(4) the review of any guidelines established by the Environmental Protection Agency for identifying those schools in which exposure to asbestos fibers constitutes a health problem and for taking appropriate corrective actions at such schools, in order to determine whether any modifications of such guidelines should be recommended to the Secretary under paragraph (5); and

(5) providing the Secretary with assistance in formulating standards and procedures under section 3606 of this title by—

(A) submitting to the Secretary relevant information concerning the results of the review made under paragraph (4) of this subsection; and

In carrying out its duties under this subsection, the Task Force shall avoid, to the maximum extent practicable, duplicating similar activities undertaken by the Environmental Protection Agency.

(f) Termination

The Task Force shall cease to exist at the end of the 180-day period beginning on the date that the authority of the Secretary to make loans under section 3605 of this title has expired.

Secretary under section 3606(a)(1) of this title. Grants may be made under this section only during the two-year period beginning on June 14, 1980.

(B) The Secretary may make grants to State educational agencies for the Federal share of the costs of carrying out any asbestos detection program if—

(i) the State, through the State educational agency or some other appropriate State agency, is making grants to local educational agencies for asbestos hazard detection programs, and

(ii) such programs meet the standards established by the Secretary under section 3606(a)(1) of this title.

(C) Grants may be made under this section only during the two-year period beginning after June 14, 1980.

(2) Subject to the second sentence of this paragraph, the Federal share of the costs referred to in paragraph (1) shall be 50 percent. Upon a determination by the Secretary that an applicant has limited fiscal resources and would be unable to participate in the program under this section without receiving from the Federal Government, as its Federal share of such costs, an amount greater than the amount permitted under the first sentence of this paragraph, the Secretary may increase the Federal share which may be paid to such applicant by such amount as the Secretary considers appropriate to permit the applicant to participate in the program.

(b) Application for grants; procedures applicable for approval; programs completed before January 1, 1976; determinations respecting amount of grant

(1) No grant may be made under this section unless an application has been submitted to and approved by the Secretary, after consultation with the Task Force. The Secretary may not approve an application unless the application—

(A) contains a description of the methods to be used by the local educational agency, or in the case of an application by the State educational agency the methods to be used by the local educational agencies receiving grants from the State, to determine whether hazardous concentrations of asbestos fibers or materials emitting such fibers exist in school buildings under the jurisdiction of such agency;

(B) contains an estimate of the total cost of the detection program, including such detailed descriptions of the costs of each component of the program as the Secretary may require;

(C) designates the party which shall conduct the testing for the detection program and describes such party's qualifications for conducting such testing;

(D) contains assurances that the program shall be carried out in accordance with standards established by the Secretary under section 3606(a)(1) of this title and that any party employed to conduct such testing shall satisfy the competency standards established under such section; and

(E) contains such other information or assurances as the Secretary may require.

(2) The Secretary shall provide the Task Force with a copy of any application submitted to the Secretary under paragraph (1).

(3) No grant may be awarded by the Secretary under this section for asbestos hazards detection programs conducted before June 14, 1980, unless the applicant has submitted an application to the Secretary—

(A) containing the information required under paragraph (1); and

(B) providing assurances that any program for which a grant is sought was carried out in a manner which substantially conforms to the requirements established by the Secretary under section 3606(a)(1) of this title.

No grant may be awarded under this section for any asbestos hazards detection program completed before January 1, 1976.

(4) After reviewing the application submitted under this section, together with any recommendations made by the Task Force, the Secretary shall determine the amount of any grant to be awarded under this section. Funds may be awarded by the Secretary for the administrative costs incurred in the preparation and supervision of the asbestos detection program and for the following activities:

(A) Visual inspections of school buildings.

(B) The sampling of building and insulation materials.

(C) Appropriate tests to determine the level of asbestos content in suspected materials, and tests determined to be essential to detect the likelihood of imminent danger to persons within school buildings.

(c) Reporting requirements for recipients

Local and State educational agencies receiving grants under this section shall file a report with the Secretary, not later than 120 days after the award of such grant, describing the detection activities which were undertaken, the results of the asbestos detection program, and plans for mitigating any imminent hazards which were detected by the testing. The report shall include a detailed accounting of the funds used to carry out the detection program.

(d) Availability of appropriated funds for education and technical assistance programs

During the period in which grants may be made under this section, not more than 20 percent of the funds appropriated to carry out this section may be made available by the Secretary to the Task Force to conduct education and technical assistance programs related to the detection of asbestos hazards in school buildings and the implementation of appropriate actions to mitigate such hazards.

(Pub. L. 96-270, § 5, June 14, 1980, 94 Stat. 491.)

§ 3605. Asbestos Hazards Control Loan Program

(a) Establishment; administration; loans to local educational agencies for share of project costs; project criteria; increase in amount of loans

(1) There is established within the Department of Education an Asbestos Hazards Control Loan Program (hereinafter in this chapter referred to as the "Loan Program"), which shall be administered by the Secretary in accordance with this section.

(2) The Secretary may make loans under this section to local educational agencies in an

amount equal to 50 percent of the costs of carrying out projects for—

(A) the containment or removal of any materials containing asbestos in school buildings in which such materials pose an imminent hazard to the health and safety of children or employees;

(B) the replacement of the asbestos materials removed from school buildings with other appropriate building materials; and

(C) making repairs which the Secretary determines to be necessary to restore school buildings to conditions comparable to those existing before containment or removal activities were undertaken under subparagraph (A).

Loans may be made under this section only for projects affecting more than 2,500 square feet of surface and in which the asbestos material to be contained or removed consists of a minimum asbestos level, as determined by the Secretary under section 3606(a)(2) of this title.

(3) If the Secretary determines that an applicant has limited fiscal resources and would be unable to carry out the projects described in paragraph (2) without receiving a loan under this section for an amount greater than the amount permitted under such paragraph, the Secretary may increase the amount of the loan payable to such applicant to an amount the Secretary considers appropriate to enable the applicant to carry out such projects.

(b) Loan agreements; required terms; additional terms and conditions

Loans under this section shall be made pursuant to loan agreements which shall provide for the following terms:

(1) The loan shall not bear any interest except as otherwise provided under paragraph (5).

(2) The loan shall have a maturity period of not more than 20 years (as determined by the Secretary) and shall be repayable during such period at such times and in such amounts as the Secretary may specify in the loan agreement.

(3) Repayment of the loan shall be made to the Secretary of the Treasury for deposit in the general fund of the Treasury.

Such loans shall be subject to such other terms and conditions as the Secretary may establish for the protection of the financial interest of the United States and in furtherance of the purposes of this chapter.

(c) Application for loans; procedures applicable for approval; projects completed before January 1, 1976

(1) No loan may be made under this section unless an application has been submitted to and approved by the Secretary, after consultation with the Task Force, within the two-year period beginning on June 14, 1980. The Secretary may not approve an application unless—

(A) the application contains such information as the Secretary may require, including information describing—

(i) the nature of the asbestos problem for which the loan is sought;

(ii) the asbestos content of the material to be contained or removed by the local edu-

cational agency, as determined under preliminary testing which was conducted in accordance with the standards established by the Secretary under section 3606(a)(1) of this title, or, in the case of testing conducted before June 14, 1980, was conducted in a manner which substantially conforms to such standards; and

(iii) the methods which will be used to contain or remove the asbestos materials, in accordance with section 3606(b) of this title, and any other pertinent details relating to the project or projects to be conducted by the applicant (as described in subsection (a)(2) of this section); and

(B) the application contains assurances that—

(i) any employee engaged in any activity to carry out programs under this section shall be notified in writing by the local educational agency conducting the program of the hazards of working with asbestos, and shall be required to utilize all appropriate safety procedures to minimize health risks;

(ii) no child or school employee shall be permitted in the vicinity of any asbestos containment or removal activity; and

(iii) the local educational agency shall pay employees engaged in containment, removal, or replacement activities to carry out programs under this section at reasonable rates of pay, as established by the Secretary on the basis of prevailing wage rates in the location of such work.

(2) The Secretary shall provide the Task Force with a copy of any application submitted to the Secretary under paragraph (1).

(3) No loans may be made by the Secretary under this section for projects described in subsection (a)(2) of this section which commenced before the availability of loans under the Loan Program unless the local educational agency submits to the Secretary an application which—

(A) meets the requirements of paragraph (1); and

(B) contains assurances that any work already completed by the applicant has been carried out in substantial conformity with section 3606(b) of this title.

No loan may be awarded under this section for any project described in subsection (a)(2) of this section which was completed before January 1, 1976.

(d) Reporting requirements for Secretary

During each of the three calendar years after 1980, the Secretary shall submit before February 1 of such year a report to the appropriate committees of the House of Representatives and the Senate, which shall—

(1) describe the number of loans made in the preceding calendar year and specify each applicant for and recipient of a loan;

(2) describe the nature of the asbestos problem of each applicant;

(3) describe the types of programs for which loans were made;

(4) specify the estimated total costs of such programs to the recipients of loans and specify the amount of loans made under the Loan Program; and

(5) specify the number of loan applications which were disapproved during the preceding calendar year and describe the reasons for such disapprovals.

(Pub. L. 96-270, § 6, June 14, 1980, 94 Stat. 492.)

§ 3606. Standards and safety procedures

(a) Establishment and distribution to designated State agency or unit; establishment of criteria for loan program eligibility

(1) Within 120 days after the first meeting of the Task Force, and after consultation with the Task Force, the Secretary shall establish and distribute to the State agency or unit designated under section 3603(a)(4) of this title—

(A) procedures for testing the level of asbestos fibers in schools, including safety measures to be followed in conducting such tests;

(B) standards for evaluating (on the basis of such tests) the likelihood of the leakage of asbestos fibers into the school environment; and

(C) standards for determining which contractors are qualified to carry out the testing and evaluation described in this paragraph.

(2) After consulting with the Task Force, the Secretary shall establish criteria to be used for determining eligibility for loans under section 3605 of this title. The criteria shall be based on the assessment of the extent of the health hazards posed by the presence of asbestos fibers in schools, as determined in accordance with standards under paragraph (1)(B) of this subsection.

(b) Establishment of regulations

After reviewing recommendations submitted to the Secretary by the Task Force under section 3602(e)(5) of this title, the Secretary, with the concurrence of the Task Force, shall by regulation establish—

(1) procedures to be used by local educational agencies, in programs for which loans are made under section 3605 of this title, for—

(A) containing and removing asbestos materials in school buildings;

(B) replacing the asbestos materials removed from school buildings with other appropriate building materials; and

(C) restoring such school buildings to conditions comparable to those existing before asbestos containment or removal activities were undertaken; and

(2) standards for determining which contractors are qualified to carry out the activities referred to in paragraph (1).

(c) Avoidance of duplication of similar activities of Environmental Protection Agency

In carrying out his duties under this section, the Secretary shall avoid, to the maximum extent practicable, duplicating similar activities undertaken by the Environmental Protection Agency.

(Pub. L. 96-270, § 7, June 14, 1980, 94 Stat. 494.)

§ 3607. Recovery of costs by United States

(a) Suit by United States on behalf of grant or loan recipient for recovery of costs of activities of recipient; proceeds of judgment

(1) As a condition of the award of any grant under section 3604 of this title or loan under sec-

tion 3605 of this title, the recipient of any such grant or loan shall permit the United States to sue on behalf of such recipient any person determined by the Attorney General to be liable to the recipient for the costs of any activities undertaken by the recipient under such sections.

(2) The proceeds from any judgment recovered in any suit brought by the United States under paragraph (1) (or, if the recipient files a similar suit on its own behalf, the proceeds from any judgment recovered by the recipient in such suit) shall be used to repay to the United States, to the extent that the proceeds are sufficient to provide for such repayment, an amount equal to the sum of—

(A) the amount of any grant made to the recipient under section 3604 of this title;

(B) the amount outstanding on any loan made to the recipient under section 3605 of this title; and

(C) an amount equal to the interest which would have been charged on such loan were the loan made by a commercial lender at prevailing interest rates (as determined by the Secretary).

(b) Investigation and report by Attorney General respecting feasibility of recovery of costs from any person determined by Attorney General to be liable

The Attorney General shall conduct an investigation to determine whether, by using all available means, the United States should or could recover, from any person determined by the Attorney General to be liable for such costs, the amounts expended by the United States to carry out this chapter. Within one year after June 14, 1980, the Attorney General shall submit to the Congress a report containing the results of the study, together with any appropriate recommendations.

(c) Expeditious proceedings by Attorney General

If the Attorney General determines in the report under subsection (b) of this section that the United States should seek to recover the amounts expended by the United States to carry out this chapter, the Attorney General shall proceed in an expeditious manner to recover such amounts from the persons referred to in subsection (b) of this section.

(Pub. L. 96-270, § 8, June 14, 1980, 94 Stat. 495.)

§ 3608. Employee protection

No State or local educational agency receiving assistance under this chapter may discharge any employee or otherwise discriminate against any employee with respect to the employee's compensation, terms, conditions, or privileges of employment because the employee has brought to the attention of the public information concerning any asbestos problem in the school buildings within the jurisdiction of such agency.

(Pub. L. 96-270, § 9, June 14, 1980, 94 Stat. 496.)

§ 3609. Retained rights

Except as otherwise provided in section 3607 of this title, nothing in this chapter shall—

(1) affect the right of any party to seek legal redress in connection with the purchase or in-

stallation of asbestos materials in schools or any claim of disability or death related to exposure to asbestos in a school setting; or

(2) affect the rights of any party under any other law.

(Pub. L. 96-270, § 10, June 14, 1980, 94 Stat. 496.)
