CHAPTER 73—DEVELOPMENT OF ENERGY SOURCES

Sec.
5801. Congressional declaration of policy and purpose.

SUBCHAPTER I—ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

5811. Establishment of Energy Research and Development Administration.
5812. Officers of Administration.
5813. Responsibilities of Administrator.
5814. Abolition and transfers.
5815. Administrative provisions.
5816. Personnel and services.
5816a. Repealed.
5817. Powers of Administrator.
5817a. Employee-suggested research projects; approval; funding; reports.
5818. Repealed.
5819. Report to Congress on future reorganization.
5820. Coordination with environmental efforts.
5821. Annual authorization Acts.

SUBCHAPTER II—NUCLEAR REGULATORY COMMISSION; NUCLEAR WHISTLEBLOWER PROTECTION

5841. Establishment and transfers.
5842. Licensing and related regulatory functions respecting selected Administration facilities.
5843. Office of Nuclear Reactor Regulation.
5844. Office of Nuclear Safety and Safeguards.
5845. Office of Nuclear Regulatory Research.
5846. Compliance with safety regulations.
5847. Nuclear energy center site survey.
5848. Abnormal occurrence reports.
5849. Other officers.
5850. Unresolved safety issues plan.
5851. Employee protection.
5852. Availability of funds.
5853. Limitation on legal fee reimbursement.

SUBCHAPTER III—MISCELLANEOUS AND TRANSITIONAL PROVISIONS

5871. Transitional provisions.
5872. Transfer of personnel.
5873. Director of Office of Management and Budget; power to make dispositions.
5874. Definitions.
5875. Authorization of appropriations.
5876. Comptroller General audit.
5877. Reports to President for submission to Congress.
5878. Information to Congressional committees.
5878a. Funding and encouragement of small business; information for inclusion in report.
5879. Transfer of funds.

SUBCHAPTER IV—SEX DISCRIMINATION

5891. Sex discrimination prohibited.

§ 5801. Congressional declaration of policy and purpose

(a) Development and utilization of energy sources

The Congress hereby declares that the general welfare and the common defense and security require effective action to develop, and increase the efficiency and reliability of use of, all energy sources to meet the needs of present and future generations, to increase the productivity

of the national economy and strengthen its position in regard to international trade, to make the Nation self-sufficient in energy, to advance the goals of restoring, protecting, and enhancing environmental quality, and to assure public health and safety.

(b) Necessity of establishing Energy Research and Development Administration

The Congress finds that, to best achieve these objectives, improve Government operations, and assure the coordinated and effective development of all energy sources, it is necessary to establish an Energy Research and Development Administration to bring together and direct Federal activities relating to research and development on the various sources of energy, to increase the efficiency and reliability in the use of energy, and to carry out the performance of other functions, including but not limited to the Atomic Energy Commission's military and production activities and its general basic research activities. In establishing an Energy Research and Development Administration to achieve these objectives, the Congress intends that all possible sources of energy be developed consistent with warranted priorities.

(c) Separation of licensing and regulatory functions of Atomic Energy Commission

The Congress finds that it is in the public interest that the licensing and related regulatory functions of the Atomic Energy Commission be separated from the performance of the other functions of the Commission, and that this separation be effected in an orderly manner, pursuant to this chapter, assuring adequacy of technical and other resources necessary for the performance of each.

(d) Small business participation

The Congress declares that it is in the public interest and the policy of Congress that small business concerns be given a reasonable opportunity to participate, insofar as is possible, fairly and equitably in grants, contracts, purchases, and other Federal activities relating to research, development, and demonstration of sources of energy efficiency, and utilization and conservation of energy. In carrying out this policy, to the extent practicable, the Administrator shall consult with the Administrator of the Small Business Administration.

(e) Priorities

Determination of priorities which are warranted should be based on such considerations as power-related values of an energy source, preservation of material resources, reduction of pollutants, export market potential (including reduction of imports), among others. On such a basis, energy sources warranting priority might include, but not be limited to, the various methods of utilizing solar energy.
