Section 2101(1) defines the type of "associated equipment" that is involved in the use of recreational boats that are subject to Federal regulatory authority. This equipment is subject to a number of controls under federally established construction and performance standards. Radio equipment is exempt from these regulatory controls, since this equipment continues to be regulated by the Federal Communications Commission.

Section 2101(2) defines “barge” as a vessel that is non-self-propelled and that is often pushed ahead, towed alongside, or towed astern on a hawser by a towing vessel. It does not include a vessel that is propelled by sail only.

Section 2101(3) defines “boundary line” for the establishment of jurisdictional parameters for various maritime safety laws. Public Law 96-324, codified at 33 U.S.C. 151, permits the Secretary to establish appropriate identifiable lines dividing inland waters of the U.S. from the high seas for the purpose of determining the applicability of these laws. These laws will now be included within subtitle II of title 46—Shipping. These lines may not be located more than twelve nautical miles seaward of the baseline from which the territorial sea is measured and may differ in position for the purposes of different parts or sections of subtitle II.

Section 2101(4) defines “Coast Guard”.

Section 2101(5) provides that wherever the term “commercial service” is used it is to include all vessels except those that are primarily used for combatant purposes. This is to make sure that vessels that are engaged in the transportation of goods or individuals are subject to the applicable maritime and environmental safety laws, even if they are sovereign controlled vessels.

Section 2101(6) defines “consular officer” as one who has authority to issue visas. Traditionally this person is knowledgeable and familiar with the maritime safety and seamen’s welfare laws.

Section 2101(7) defines “crude oil” because certain equipment requirements like inert gas systems, segregated ballast tanks, crude oil washing systems or special ballast arrangements are applicable only to tank vessels that carry crude oil. Crude oil is still included within the definition of “hazardous material” and “oil”.

Section 2101(8) defines a “crude oil tanker” as one engaged in carrying crude oil. The definition does not include a tank barge since a tanker is defined as a self-propelled tank vessel. See also 2101(38).

Section 2101(9) makes it clear that the term “discharge” when referring to a substance that emanates from a vessel and is related to the marine environmental laws concerning pollution by oil or hazardous substances.

Section 2101(10) defines a “documented vessel” as any vessel of the United States that has been issued a certificate of documentation that might include a register, enrollment, license, or enrollment and license for various trades.

Section 2101(11) lists what is included in the term “fisheries” for the purpose of documentation of vessels and is intended to be all-inclusive of the numerous types of fishing activities.

Section 2101(12) defines “foreign vessel” as any foreign flag or foreign operated vessel that is operated under the jurisdiction or authority of a government other than the United States.

Section 2101(13) defines a “freight vessel” as a motor vessel or any vessel propelled by diesel or other internal combustion engines and that carries freight for hire.

Section 2101(14) defines “hazardous materials” as a broad range of materials that are not only flammable or combustible but are also designated under related maritime safety and environmental laws.

Section 2101(15) defines “marine environment” as an all-inclusive term that was developed to cover land and water areas that could be affected by pollution from all vessels and not only tank vessels.

Section 2101(16) defines “motor vessel” as a vessel propelled by machinery other than steam to make it clear that these vessels are not steam vessels.

Section 2101(17) defines “nautical school vessel” as a vessel that can be a privately owned and operated as well as a publicly owned and operated school vessel.

Section 2101(18) defines “oceanographic research vessel” as a vessel employed in oceanography or limnology research or instruction. It is defined because this type

of vessel, while not inspected and certified as such, is subject to a number of special statutory and regulatory requirements.

Section 2101(19) defines “offshore supply vessel” as a class of vessel that is limited by tonnage and its employment in the mineral and oil industry and while so employed it is not a small passenger vessel.

Section 2101(20) defines “oil” to include oil of any type, in any form, or in any mixture. This is the definition that originated with marine environment and pollution laws and continues the definition that was adopted by port and tanker safety laws.

Section 2101(21) defines the term “passengers” in relation to various types of vessels. Due to the complexity of existing laws with respect to the definitions of “passenger” on various categories of vessels and the need to not make any changes of a substantive nature that could be construed as controversial, four definitions of “passenger” have been included.

Section 2101(22) defines “passenger vessel” as one that is at least 100 gross tons and carries at least one passenger for hire.

Section 2101(23) defines “product carrier” as a tanker that is engaged in carrying oil. This definition when read with the definition of tanker means that it is a self-propelled vessel. A tank barge carrying oil products is a tank vessel but is not subject to the special standards or requirements for a product carrier.

Section 2101(24) defines a “public vessel” as a governmental vessel that is not in commercial service. It should be noted that a sovereign-controlled foreign-flag vessel that is engaged in commercial service is not a public vessel and is subject to maritime safety and environment laws.

Section 2101(25) defines a “recreational vessel” as a class of vessel whose primary purpose is for pleasure. These vessels while not subject to inspection are subject to certain requirements of law to improve boating safety.

Section 2101(26) defines a “recreational vessel manufacturer” as one that is involved with not only the recreational vessels themselves but also with their components or associated equipment.

Section 2101(27), (28), (29), and (30) provides a number of definitions that define the type of instruction, instructor, student, and vessel that is involved in the teaching of sailing.

Section 2101(31) defines “scientific personnel” as individuals engaged in oceanography or limnology because they are specially treated under various maritime safety requirements.

Section 2101(32) defines a “seagoing barge” as a vessel that is at least 100 gross tons making voyages to sea beyond the boundary line.

Section 2101(33) defines a “seagoing motor vessel” as a vessel that must be a motor vessel, as defined in 2101(15), of at least 300 gross tons making voyages to sea beyond the boundary line.

Section 2101(34) defines “Secretary” so that maritime safety and seamen’s welfare jurisdiction remains within the Coast Guard at all times.

Section 2101(35) defines “small passenger vessel” as one that is less than 100 gross tons carrying more than six passengers as defined in section 2101(21).

Section 2101(36) defines “State” as a State, territory or possession of the United States and is used to establish jurisdictional limits for the application of the various maritime safety and environmental safety laws of this subtitle. This definition is further limited by definitions in section 2102 that relate to recreational boating safety and facility improvement programs.

Section 2101(37) defines a “steam vessel” as a vessel propelled by steam. However, steam vessels of not more than 40 feet that are used exclusively for pleasure are not included.

Section 2101(38) defines “tanker” as a self-propelled tank vessel that has been constructed or primarily adapted to carry oil or hazardous material in bulk in the cargo spaces. This vessel is a subclass of tank vessel, which is defined in section 2101(39). This subclass

definition is necessary because certain statutory minimum requirements that are consistent with internationally accepted standards are solely applicable to these vessels.

Section 2101(39) defines a “tank vessel” as a vessel carrying oil or hazardous materials in bulk or residue including a tanker as defined in section 2101(38).

Section 2101(40) defines “towing vessel” as a vessel in commercial service that pushes, pulls, or tows alongside and includes what is traditionally known as a tug.

Section 2101(41) defines “undocumented” which, in part, facilitates the classification of vessels that may be numbered by the proper issuing authority in a State.

Section 2101(42) defines an “uninspected passenger vessel” as a vessel carrying six or less passengers.

Section 2101(43) defines an “uninspected vessel” as a vessel not subject to inspection and certification by the Coast Guard under section 3301. Recreational vessels and inland towing vessels are typical uninspected vessels.

Section 2101(44) defines “United States” to establish geographical boundaries for the applicability of the various maritime safety and environmental safety laws of this subtitle. This definition is further limited by definitions in section 2102 that relate to recreational boating safety and facility improvement programs.

Section 2101(45) makes it clear that “vessel” as used in this subtitle has the same meaning as is provided in section 3 of title 1, of the U.S.C.

Section 2101(46) defines “vessel of the United States” as a vessel that is documented or numbered under the laws of the United States. A documented vessel and those vessels that are numbered by a State or Federal authority are afforded the protection of the laws of the United States.

Section 2107 provides for standard procedures for the handling of civil penalties for infractions of law or regulation. Some changes were made to increase some antiquated and inadequate penalties.

The assessment of civil penalties under this section should not require an "on the record" hearing within the meaning of the Administrative Procedures Act (APA). It is intended that these civil penalties be assessed in a fair manner. However, the Committee recognizes that statutes passed in the last decade have involved the Coast Guard in tens of thousands of civil penalty enforcement cases and that it is necessary that the penalties be assessed efficiently. The Coast Guard's procedural regulations for assessing civil penalties ensure that the essential elements of due process, notice, and opportunity to be heard, are provided to alleged violators (see 33 CFR Subpart 1.07). The more rigid and time-consuming procedures applicable to APA adjudications are unwarranted in the case of Coast Guard civil penalty assessment procedures and would seriously hamper the orderly enforcement of these administrative penalties.

AMENDMENTS

2006—Pub. L. 109-241 substituted "this subtitle or subtitle VII" for "this subtitle" in two places in subsec. (a) and in one place in subsec. (b).

[§ 2108. Repealed. Pub. L. 109-304, § 15(5), Oct. 6, 2006, 120 Stat. 1702]

Section, Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 507, related to refund of penalties unlawfully, improperly, or excessively imposed. See section 504 of this title.

§ 2109. Public vessels

Except as otherwise provided, this subtitle does not apply to a public vessel of the United States. However, this subtitle does apply to a vessel (except a Saint Lawrence Seaway Development Corporation vessel) owned or operated by the Department of Transportation or by any corporation organized or controlled by the Department.

AMENDMENTS

2006—Pub. L. 109-241 struck out "a Coast Guard or" after "(except)".

1986—Pub. L. 99-509 substituted "Except as otherwise provided, this" for "This".

The Secretary may not establish a fee or charge under paragraph (1) for inspection or examination of a small passenger vessel under this title that is more than \$300 annually for such vessels under 65 feet in length, or more than \$600 annually for such vessels 65 feet in length and greater. The Secretary may not establish a fee or charge under paragraph (1) for inspection or examination under this title for any publicly-owned ferry.

(3) The Secretary may, by regulation, adjust a fee or charge collected under this subsection to accommodate changes in the cost of providing a specific service or thing of value, but the adjusted fee or charge may not exceed the total cost of providing the service or thing of value for which the fee or charge is collected, including the cost of collecting the fee or charge.

(4) The Secretary may not collect a fee or charge under this subsection that is in conflict with the international obligations of the United States.

(5) The Secretary may not collect a fee or charge under this subsection for any search or rescue service.

(b)(1) The Secretary shall establish a fee or charge as provided in paragraph (2) of this subsection, and collect it annually in fiscal years 1993 and 1994, from the owner or operator of each recreational vessel to which paragraph (2) of this subsection applies.

(4) The fee or charge established under this subsection does not apply to a—

(A) public vessel; or

(B) vessel deemed to be a public vessel under section 827 of title 14.

(5) The Secretary shall provide to each person who pays a fee or charge under this subsection

a separate document on which appears, in readily discernible print, only the following statement: "The fee for which this document was provided was established under the Omnibus Budget Reconciliation Act of 1990. Persons paying this fee can expect no increase in the quantity, quality, or variety of services the person receives from the Coast Guard as a result of that payment."

(c) In addition to the collection of fees and charges established under subsections (a) and (b), the Secretary may recover appropriate collection and enforcement costs associated with delinquent payments of the fees and charges.

(d)(1) The Secretary may employ any Federal, State, or local agency or instrumentality, or any private enterprise or business, to collect a fee or charge established under this section. A private enterprise or business selected by the Secretary to collect fees or charges—

(A) shall be subject to reasonable terms and conditions agreed to by the Secretary and the enterprise or business;

(B) shall provide appropriate accounting to the Secretary; and

(f) When requested by the Secretary, the Secretary of Homeland Security shall deny the clearance required by section 60105 of this title to a vessel for which a fee or charge established under this section has not been paid until the fee or charge is paid or until a bond is posted for the payment.

(g) The Secretary may exempt a person from paying a fee or charge established under this section if the Secretary determines that it is in the public interest to do so.

(h) Fees and charges collected by the Secretary under this section shall be deposited in the general fund of the Treasury as offsetting receipts of the department in which the Coast Guard is operating and ascribed to Coast Guard activities.

(i) The collection of a fee or charge under this section does not alter or expand the functions, powers, responsibilities, or liability of the United States under any law for the performance of services or the provision of a thing of value for which a fee or charge is collected under this section.

(j) The Secretary may not establish or collect a fee or charge for the inspection under part B of this subtitle of training vessels operated by State maritime academies.

AMENDMENTS

2006—Subsec. (a)(2). Pub. L. 109-304, § 15(6)(A), substituted "part B of this subtitle" for "part B of this title".

Subsec. (b)(2)(A)(iii). Pub. L. 109-304, § 15(6)(B), substituted ";" and " for period at end.

Subsec. (b)(5). Pub. L. 109-304, § 15(6)(C), substituted "The fee" for "The fees".

Subsec. (f). Pub. L. 109-304, § 15(6)(D), substituted "Secretary of Homeland Security shall deny the clearance required by section 60105 of this title" for "Secretary of the Treasury shall deny the clearance required by section 4197 of the Revised Statutes of the United States (46 App. U.S.C. 91)".

Subsec. (j). Pub. L. 109-304, § 15(6)(E), substituted "State" for "state".

2002—Subsec. (k). Pub. L. 107-295 substituted "2006" for "2001".

1998—Subsec. (k). Pub. L. 105-383 added subsec. (k).

1996—Subsec. (a)(2). Pub. L. 104-324, § 1112, which directed amendment of section 10401(g) of Pub. L. 101-508 by inserting "The Secretary may not establish a fee or charge under paragraph (1) for inspection or examination of a small passenger vessel under this title that is more than \$300 annually for such vessels under 65 feet

in length, or more than \$600 annually for such vessels 65 feet in length and greater. The Secretary may not establish a fee or charge under paragraph (1) for inspection or examination under this title for any publicly-owned ferry.” after “annually.”, was executed by making insertion in subsec. (a)(2) of this section to reflect the probable intent of Congress, because section 10401(a) of Pub. L. 101-508 amended this section generally, and section 10401 of Pub. L. 101-508 did not contain a subsec. (g).

1992—Subsec. (b)(1). Pub. L. 102-582, §501(a)(1), substituted “1993 and 1994” for “1991, 1992, 1993, 1994, and 1995” and “to which paragraph (2) of this subsection applies” for “that is greater than 16 feet in length”.

Subsec. (b)(2). Pub. L. 102-582, §501(a)(2), amended par. (2) generally. Prior to amendment, par. (2) read as follows: “The fee or charge established under paragraph (1) of this subsection is as follows:

“(A) for vessels greater than 16 feet in length but less than 20 feet, not more than \$25;

“(B) for vessels of at least 20 feet in length but less than 27 feet, not more than \$35;

Subsec. (j). Pub. L. 102-587 added subsec. (j).

1991—Subsec. (b)(5). Pub. L. 102-241 added par. (5).

1990—Pub. L. 101-508, as amended by Pub. L. 104-324, substituted “Fees” for “Fees prohibited” as section catchline and amended text generally. Prior to amendment, text read as follows: “Fees may not be charged or collected by the Secretary for services provided for in this subtitle related to the engagement and discharge of seamen, the inspection and examination of vessels under part B of this subtitle, and the licensing of masters, mates, pilots, and engineers, except when specifically provided for in this subtitle.” See 1996 Amendment note above.

Section 2302 states that the negligent operation of a vessel is prohibited. These acts are subject to civil and criminal penalties and the involved vessel is subject to an in rem action. The negligent operation provisions have their genesis in the Act of April 25, 1940, 54 Stat. 167, when Congress prescribed that no person shall operate any motorboat or any vessel in a reckless or negligent manner. This provision was directed at all vessels and not those solely engaged in recreational boating. When the Federal Boat Safety Act of 1971, P.L. 92-75, 85 Stat. 217 (46 U.S.C. 1461) was enacted it adopted the reckless or negligent operation provisions of the 1940 Act. It adopted for the first time a provision for assessing civil penalties in addition to criminal penalties. It dropped the word “reckless” because of redundancy. It also combined the two classes of vessels; “any motorboat or any vessel” into one class by using the word “vessel” and defined vessel as including every description of watercraft.

PART B—INSPECTION AND REGULATION OF VESSELS

HISTORICAL AND REVISION NOTES

Part B provides authority and responsibility for the inspection and regulation of vessels by the Coast Guard. This part specifies those vessels subject to inspection, those that are specifically exempt from inspection, and related inspection requirements and procedures. Due to the need for special requirements for the inspection and regulation of passenger vessels and those vessels carrying liquid bulk dangerous cargoes separate chapters have been developed. Additional chapters provide for recreational vessels and those other vessels that are regulated but are not subject to inspection and certification by the Coast Guard. It should also be noted that the United States is signatory to a number of international treaties on maritime safety and seamen’s welfare, such as the various Safety

of Life at Sea (SOLAS) treaties, and that their provisions and requirements are part of United States maritime law and in many cases are quite extensive.

CHAPTER 31—GENERAL

- Sec.
- 3101. Authority to suspend inspection.
- 3102. Immersion suits.
- 3103. Use of reports, documents, and records.

L. 98-557 and the amendments made by that section, which added first identical item 3102, effective Nov. 8, 1984, thereby leaving Pub. L. 98-623 as the sole authority for the addition of item 3102. See 1984 Amendment note below.

1984—Pub. L. 98-557, §22(a)(2), Oct. 30, 1984, 98 Stat. 2871, and Pub. L. 98-623, title VII, §701(a)(2), Nov. 8, 1984, 98 Stat. 3413, added identical item 3102. See 1985 Amendment note above.

§ 3101. Authority to suspend inspection

When the President decides that the needs of foreign commerce require, the President may suspend a provision of this part for a foreign-built vessel registered as a vessel of the United States on conditions the President may specify. (Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 510.)

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3101	46:82

Section 3101 provides the President with the authority to suspend the inspection laws for a foreign-built reflagged U.S. vessel when the needs of foreign commerce require this. For example, if a foreign-flag vessel is reflagged in the U.S. but does not meet the specific Coast Guard inspection requirements, the President could suspend these requirements.

(c)(1) The owner, charterer, managing operator, agent, master, or individual in charge of a vessel violating this section or a regulation prescribed under this section is liable to the United States Government for a civil penalty of not more than \$5,000. HISTORICAL AND REVISION NOTES

Chapter 33 consolidates the laws governing the inspection and certification of vessels by the Coast Guard that have developed over a period in excess of 140 years. The original laws were directed to the safety of the relatively new and potentially dangerous steam vessel. The demand for Federal remedial legislation began during the early 1800's after frequent and disastrous explosions of steam boilers on passenger vessels. This directly led to the first maritime safety laws in 1838 that required periodic inspection and certification of vessels engaged in the transportation of passengers and freight on the waters of the United States. This was followed by a more extensive steamboat inspection law in 1852 which adopted for the first time the principle of licensing for river pilots and engineers. It also created a new Federal maritime safety inspection service called the Federal Inspection Service that eventually became the Bureau of Marine Inspection and Navigation, whose du-

ties were temporarily assumed in 1941 and permanently assumed in 1946 by the United States Coast Guard.

In 1864 the principal inspection and licensing provisions of the 1852 act were made applicable to ferries, towing vessels, and canal boats. However, steamboat explosions continued with high loss of life and property. One of the greatest of all disasters, the destruction of the passenger vessel *Sultana* by explosion and fire with a loss of life estimated at more than 1500 lives in April 1865, led to renewed legislation efforts. In 1871 this culminated with legislation that combined a number of new requirements into a coherent and unified body of maritime safety laws. At the time of the adoption of the Revised Statutes in 1874, a maritime safety code was well established for vessels propelled in whole or in part by steam.

In the more than 100 years since then, as the public recognized the need for vessel safety legislation, primarily as the result of maritime disasters, other classes of vessels were subjected to Federal inspection or regulatory control. These included vessels propelled by gas, fluid, naphtha, or electric motors in 1897; sail vessels and barges carrying passengers for hire in 1898; seagoing barges in 1908; motorboats in 1910; steam vessels owned by the Department of Commerce in 1919; seagoing vessels of 300 gross tons and over on June 20, 1936; all tank vessels carrying flammable or combustible liquid cargo in bulk regardless of size or means of propulsion of June 23, 1936; motorboats again in 1940; all vessels carrying more than six passengers in 1956; tank vessels again in 1978; and offshore supply vessels in 1980. There was also considerable legislation that amended or supplemented these primary maritime safety laws.

The net result has been a patchwork quilt of categories and classifications that requires a tabulation of more than seventy different classes of inspected vessels. This revision gathers into one section of the law all classes of vessels that are subject to inspection and certification without changing the application of present law as to any one class of vessel. The revision does not alter the application of the present law so as to expand inspection requirements to any vessel presently not subject to inspection nor to remove from inspection any vessel that is presently subject to inspection.

Section 3301 lists all classes of vessels that are subject to inspection and certification by the Coast Guard. This section represents one of the sought-after advantages of the bill to simplify access to the provisions of law governing the regulation of vessels. Under the present law, a vessel's inspection status must be determined by examining a table appearing at section 2.01-7A of title 46, Code of Federal Regulations that divides all vessels into more than 70 separate classes.

It is important to note that while the classes of vessels are now limited to ten, there is no prohibition against developing regulations to meet the special needs of various size vessels within any one category. For example, it is expected that the Coast Guard will continue the practice of establishing standards for freight vessels of not more than 100 gross tons and other standards for larger freight vessels.

It should also be noted that a particular vessel can, when engaged in various types of operations, be subject to varying inspection laws. For example, an offshore supply vessel could be classed as a small passenger vessel or a passenger vessel when it operates as a crew boat carrying individuals other than those defined in section 2101(21). If the offshore supply vessel is 500 gross tons and over it would then be subject to inspection as a seagoing motor vessel, a freight vessel, or a passenger vessel.

Section 3302 does three things. It makes clear that a vessel included in one of the ten categories of vessels

subject to inspection is not necessarily excluded from another category of vessel that is subject to inspection. For example, a vessel inspected and certified as a small passenger vessel would, when carrying oil or hazardous materials in bulk as cargo or cargo residue, also have to be inspected as a tank vessel. It makes it clear that a vessel excluded by section 3302 from the requirements of inspection in any one of the ten categories is not necessarily excluded from inspection as a vessel in another category. This section also contains a number of exemptions for certain classes of vessels and for those vessels engaged in a specific trade that have been considered to be of a special circumstance.

§ 3303. Reciprocity for foreign vessels

Except as provided in chapter 37 and section 3505 of this title, a foreign vessel of a country having inspection laws and standards similar to those of the United States and that has an unexpired certificate of inspection issued by proper authority of its respective country, is subject to an inspection to ensure that the condition of the vessel is as stated in its current certificate of inspection. A foreign country is considered to have inspection laws and standards similar to those of the United States when it is a party to an International Convention for Safety of Life at Sea to which the United States Government is currently a party. A foreign certificate of inspection may be accepted as evidence of lawful inspection only when presented by a vessel of a country that has by its laws accorded to vessels of the United States visiting that country the same privileges accorded to vessels of that country visiting the United States.

HISTORICAL AND REVISION NOTES

Revised section	Source section (U.S. Code)
3303	46:362(a) 46:390c 46:391a(3)

Section 3303 acknowledges the international concept of comity with respect to recognizing inspection laws

and standards for foreign flag vessels that are similar to those of the United States. If a foreign nation is signatory to the International Convention for Safety of Life at Sea, it is presumed to have similar standards. However, reciprocity requirements for foreign flag tank vessels are included in chapter 37. Subsection (b) provides for a mutual waiver of fees for the inspection of foreign vessels carrying passengers from the United States.

AMENDMENTS

2004—Pub. L. 108-293 inserted “and section 3505” after “chapter 37”.

1996—Pub. L. 104-324 struck out subsec. (a) designation and subsec. (b) which read as follows: “The Secretary shall collect and pay to the Treasury the same fees for the inspection of foreign vessels carrying passengers from the United States that a foreign country charges vessels of the United States trading to the ports of that country. The Secretary may waive at any time the collection of the fees on notice of the proper authorities of any country concerned that the collection of fees for the inspection of vessels of the United States has been discontinued.”

1992—Subsec. (a). Pub. L. 102-587, in first sentence, struck out “only” after “is subject” and substituted “the condition of the vessel is” for “the condition of the vessel’s propulsion equipment and lifesaving equipment are”.

INTERNATIONAL CONVENTION FOR SAFETY OF LIFE AT SEA

For International Conventions for the Safety of Life at Sea to which the United States has been a party, see section 1602 of Title 33, Navigation and Navigable Waters, and notes thereunder.

§ 3304. Transporting individuals in addition to crew

(a) A documented vessel transporting cargo that transports not more than 12 individuals in addition to the crew on international voyages, or not more than 16 individuals in addition to the crew on other voyages, is not subject to inspection as a passenger vessel or a small passenger vessel if the vessel is otherwise subject to inspection under this chapter.

(b) Except when subsection (e) of this section applies, before an individual in addition to the crew is transported on a vessel as permitted by this section, the owner, charterer, managing operator, agent, master, or individual in charge of the vessel first shall notify the individual of the presence on board of dangerous articles as defined by law, and of other conditions or circumstances that would constitute a risk of safety to the individual on board.

(c) A privilege authorized by this section applies to a vessel of a foreign country that affords a similar privilege to vessels of the United States in trades not restricted to vessels under its own flag.

(d) A fishing, fish processing, or fish tender vessel that transports not more than 12 individuals employed in the fishing industry in addition to the crew is not subject to inspection as a passenger or small passenger vessel.

(e) The Secretary may by regulation allow individuals in addition to the crew to be transported in an emergency or under section 2304 of this title.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 513; Pub. L. 98-364, title IV, §402(4), July 17, 1984, 98 Stat. 446; Pub. L. 99-307, §1(5)(A), May 19, 1986, 100 Stat. 444.)

Section 3304 permits the carriage of not more than 12 individuals in addition to the crew on international voyages or not more than 16 individuals in addition to the crew on other voyages without subjecting a documented vessel carrying cargo to the inspection requirements of a passenger vessel. This section permits the bulk of vessels subject to the International Convention for Safety of Life at Sea to carry up to 12 passengers and to permit other cargo vessels, primarily those engaged in the coastwise trade, to carry up to 16 passengers without being categorized as passenger vessels. It also requires that these individuals be notified of the presence of dangerous articles or other conditions or circumstances that constitute a risk of safety. This is of prime importance on tank vessels that carry flammable or hazardous cargoes.

AMENDMENTS

- 1984—Subsec. (d). Pub. L. 98-364 added subsec. (d).

§ 3305. Scope and standards of inspection

- (a)(1) The inspection process shall ensure that a vessel subject to inspection—
 - (A) is of a structure suitable for the service in which it is to be employed;
 - (B) is equipped with proper appliances for lifesaving, fire prevention, and firefighting;
 - (C) has suitable accommodations for the crew, sailing school instructors, and sailing school students, and for passengers on the vessel if authorized to carry passengers;
 - (D) has an adequate supply of potable water for drinking and washing by passengers and crew;
 - (E) is in a condition to be operated with safety to life and property; and
 - (F) complies with applicable marine safety laws and regulations.
- (2) In determining the adequacy of the supply of potable water under paragraph (1)(D), the Secretary shall consider—
 - (A) the size and type of vessel;
 - (B) the number of passengers or crew on board;
 - (C) the duration and routing of voyages; and
 - (D) guidelines for potable water recommended by the Centers for Disease Control and Prevention and the Public Health Service.
- (b) If an inspection, or examination under section 3308 of this title, reveals that a life preserver, lifesaving device, or firehose is defective and incapable of being repaired, the owner or master shall destroy the life preserver, lifesaving device, or firehose in the presence of the official conducting the inspection or examination.

(c) A nautical school vessel operated by a civilian nautical school or by an educational institution under section 558 of title 40 shall be inspected like a small passenger vessel or a passenger vessel, depending on its tonnage.

Section 3305 consolidates, at one place, the basic scope of coverage of the inspection process. It is to be noted that the time difference in enactment of various statutes has resulted in some anomalies. Thus, for example, R.S. 4417 (46 U.S.C. 391) which had originally set periods of inspection and vested authority in “local inspectors” was expanded over the years to provide the base for inspection of certain classes of vessels as well as setting out the periods and scope. The distillation of inspection objectives and standards in later laws and the transfer of all functions of separately created bureaus and functionaries to the Coast Guard permit this consolidation. There are those who have a desire to see the scope and standards of inspection be more specific in law similar to those presently applicable to boilers and boiler plating that predate 1871. The Committee believes this serves no useful purpose since the specifics are either antiquated or too limiting and have, in fact, been superceded by the statutorily authorized adoption of various industrial specifications, standards, and codes by the Coast Guard. These include the American Bureau of Shipping (ABS), American Society of Mechanical Engineers (ASME), American National Standards Institute (ANSI), American Society for Testing and Materials (ASTM), American Welding Society (AWS), Underwriters Laboratories (UL), and many others. In addition, Coast Guard regulations must also implement and conform to the numerous international maritime safety treaties to which the United States is signatory. The Committee expects that the regulatory flexibility being provided will not reduce the present vessel inspection requirements that have been historically developed.

Section 3305(a) establishes the statutory scope of the Coast Guard’s vessel inspection authority and duty. The inspection process shall ensure that a vessel is of suitable structure, equipment, and accommodations, is maintained in an operating condition consistent with safety of life and property, and complies with applicable marine safety laws and regulations.

Subsection (b) requires that defective life preservers and firehose be destroyed in the presence of the inspecting official, normally a qualified Coast Guard marine inspector. The Committee believes that if this equipment is defective for use on an inspected vessel, it should be destroyed so that it cannot be used on an un-inspected or recreational vessel.

Subsection (c) provides flexibility in the inspection of various sizes of nautical school vessels.

AMENDMENTS

- 2006—Subsec. (a)(2). Pub. L. 109-241 realigned margins.

2004—Subsec. (a). Pub. L. 108-293, §416(b), designated existing provisions as par. (1), redesignated former pars. (1) to (6) as subpars. (A) to (F), respectively, of par. (1), and added par. (2).

Subsec. (a)(4) to (6). Pub. L. 108-293, §416(a), added par. (4) and redesignated former pars. (4) and (5) as (5) and (6), respectively.

2002—Subsec. (c). Pub. L. 107-217 substituted “section 558 of title 40” for “section 13 of the Coast Guard Authorization Act of 1986”.

1986—Subsec. (c). Pub. L. 99-640 inserted “or by an educational institution under section 13 of the Coast Guard Authorization Act of 1986”.

1985—Subsec. (b). Pub. L. 99-36 substituted “lifesaving” and “life preserver, lifesaving device, or firehose” for “life-saving” and “life preserver or firehose”, respectively.

§ 3306. Regulations

(a) To carry out this part and to secure the safety of individuals and property on board vessels subject to inspection, the Secretary shall prescribe necessary regulations to ensure the proper execution of, and to carry out, this part in the most effective manner for—

(1) the design, construction, alteration, repair, and operation of those vessels, including superstructures, hulls, fittings, equipment, appliances, propulsion machinery, auxiliary machinery, boilers, unfired pressure vessels, piping, electric installations, and accommodations for passengers and crew, sailing school instructors, and sailing school students;

(2) lifesaving equipment and its use;

(3) firefighting equipment, its use, and precautionary measures to guard against fire;

(4) inspections and tests related to paragraphs (1), (2), and (3) of this subsection; and

(5) the use of vessel stores and other supplies of a dangerous nature.

(b)(1) Equipment and material subject to regulation under this section may not be used on any vessel without prior approval of the Secretary.

(2) Except with respect to use on a public vessel, the Secretary may treat an approval of equipment or materials by a foreign government as approval by the Secretary for purposes of paragraph (1) if the Secretary determines that—

(A) the design standards and testing procedures used by that government meet the requirements of the International Convention for the Safety of Life at Sea, 1974;

(B) the approval of the equipment or material by the foreign government will secure the safety of individuals and property on board vessels subject to inspection; and

(C) for lifesaving equipment, the foreign government—

(i) has given equivalent treatment to approvals of lifesaving equipment by the Secretary; and

(ii) otherwise ensures that lifesaving equipment approved by the Secretary may be used on vessels that are documented and subject to inspection under the laws of that country.

(c) In prescribing regulations for sailing school vessels, the Secretary shall consult with representatives of the private sector having experience in the operation of vessels likely to be certificated as sailing school vessels. The regulations shall—

(1) reflect the specialized nature of sailing school vessel operations, and the character, design, and construction of vessels operating as sailing school vessels; and

(2) include requirements for notice to sailing school instructors and sailing school students about the specialized nature of sailing school vessels and applicable safety regulations.

(d) In prescribing regulations for nautical school vessels operated by the United States Merchant Marine Academy or by a State maritime academy (as defined in section 51102 of this title), the Secretary shall consider the function, purpose, and operation of the vessels, their routes, and the number of individuals who may be carried on the vessels.

(e) When the Secretary finds it in the public interest, the Secretary may suspend or grant exemptions from the requirements of a regulation prescribed under this section related to lifesaving and firefighting equipment, muster lists, ground tackle and hawsers, and bilge systems.

(f) In prescribing regulations for offshore supply vessels, the Secretary shall consider the characteristics, methods of operation, and the nature of the service of offshore supply vessels.

(g) In prescribing regulations for fish processing or fish tender vessels, the Secretary shall consult with representatives of the private sector having experience in the operation of these vessels. The regulations shall reflect the specialized nature and economics of fish processing or fish tender vessel operations and the character, design, and construction of fish processing or fish tender vessels.

(h) The Secretary shall establish appropriate structural fire protection, manning, operating, and equipment requirements for vessels of at least 100 gross tons but less than 300 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title carrying not more than 150 passengers on domestic voyages, which meet the eligibility criteria of section 2113(4) of this title.

(i) The Secretary shall establish appropriate structural fire protection, manning, operating, and equipment requirements for former public vessels of the United States of at least 100 gross tons but less than 500 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title carrying not more than 150 passengers on domestic voyages, which meet the eligibility criteria of section 2113(5) of this title.

(j) The Secretary may establish by regulation a safety management system appropriate for the characteristics, methods of operation, and nature of service of towing vessels.

Section 3306 contains broad authority to prescribe regulations for the proper inspection and certification of vessels. It provides regulatory flexibility for meeting technological changes. The section also permits flexibility in prescribing regulations for nautical school vessels operated by the United States Merchant Marine Academy or by a State maritime academy. The Secretary may suspend or grant exemptions to certain limited inspection requirements when the Secretary finds that this is necessary in the public interest. It also contains the requirement that in regulating offshore supply vessels consideration must be given to the special nature of their operations.

Subsec. (i). Pub. L. 104-324, §712(2), inserted “as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title” after “500 gross tons”.

§ 3307. Frequency of inspection

Each vessel subject to inspection under this part shall undergo an initial inspection for certification before being put into service. After being put into service—

(1) each passenger vessel, nautical school vessel, and small passenger vessel allowed to carry more than 12 passengers on a foreign voyage shall be inspected at least once a year; and

(2) any other vessel shall be inspected at least once every 5 years.

Section 3307 requires each vessel subject to inspection to undergo an initial inspection prior to being placed in service. This is normally started during the construction or reconstruction phase and is a continuing process until final certification for operation in a particular trade. Subsequent periodic inspections are also required for various types of vessels. It is to be noted that a freight vessel of less than 100 gross tons shall be inspected at 3 year intervals while the larger freight vessel has a 2 year inspection period. This is being done to retain the existing procedure of issuing 3 year certificates of inspection to smaller vessels, however, this does not prevent periodic inspections or examinations at intervening periods.

AMENDMENTS

1996—Par. (1). Pub. L. 104-324, §605(a)(1), substituted “, nautical school vessel, and small passenger vessel allowed to carry more than 12 passengers on a foreign voyage” for “and nautical school vessel” and inserted “and” at end.

Pars. (2), (3). Pub. L. 104-324, §605(a)(2), (3), redesignated par. (3) as (2), substituted “5 years” for “2 years”, and struck out former par. (2) which read as follows: “each small passenger vessel, freight vessel or offshore supply vessel of less than 100 gross tons, and sailing school vessel shall be inspected at least once every 3 years; and”.

§ 3308. Examinations

In addition to inspections required by section 3307 of this title, the Secretary shall examine or have examined—

(1) each vessel subject to inspection at proper times to ensure compliance with law and regulations; and

(2) crewmember accommodations on each vessel subject to inspection at least once a month or when the vessel enters United States ports to ensure that the accommodations are—

(A) of the size required by law and regulations;

(B) properly ventilated and in a clean and sanitary condition; and

(C) equipped with proper plumbing and mechanical appliances required by law and regulations, and the appliances are in good working condition.

maritime safety laws and regulations. Under this provision the Coast Guard can issue a temporary certificate of inspection upon compliance with the applicable laws or regulations to facilitate the preparation, processing, and forwarding of the regular certificate of inspection to the vessel. A temporary certificate does not imply less than satisfactory compliance.

Section 3313 requires a vessel to be maintained in a condition so as to always be in compliance with the applicable laws and regulations. Here the master, owner, or other responsible party is required to maintain the vessel to inspection standards and to correct all deficiencies observed. When a vessel is not in compliance with its certificate the responsible parties shall be or-

dered in writing to correct the deficiencies promptly. The section provides flexibility as to when and where these deficiencies may be corrected consistent with the safety of the vessel and crew. The section provides authority to require the vessel to cease operating or, if necessary, to suspend or revoke its certificate of inspection when found not to be in compliance with its certificate or regulations. The owner or master, or other responsible party must be given written notice and may appeal this action within 30 days of receiving the notice.

§ 3314. Expiration of certificate of inspection

If a voyage scheduled to be completed in that time is not so completed, the applicable penalties may be enforced unless the failure to meet the schedule was beyond the control of the owner, charterer, managing operator, agent, master, or individual in charge of the vessel.

(c) When the certificate of inspection of a foreign vessel carrying passengers, operated on a regularly established line, expires at sea after leaving the country to which it belongs or when the vessel is in the United States, the Secretary may permit the vessel to sail on its regular route without further inspection than would have been required had the certificate not expired. This permission applies only when the vessel will be regularly inspected and issued a certificate before the vessel's next return to the United States.

The Secretary and the Secretary of Transportation each shall appoint one representative (except when the Secretary is the Secretary of Transportation, in which case the Secretary shall appoint both representatives) who shall represent the Government on the executive committee of the Bureau. The Bureau shall agree that the representatives shall be accepted by it as active members of the committee. The representatives shall serve without compensation, except for necessary traveling expenses.

(b)(1) The Secretary may delegate to the American Bureau of Shipping or another classification society recognized by the Secretary as meeting acceptable standards for such a society, for a vessel documented or to be documented under chapter 121 of this title, the authority to—

(B) if the foreign classification society has offices and maintains records in the United States.

(3) When an inspection or examination has been delegated under this subsection, the Secretary's delegate—

(B) the society is a full member of the International Association of Classification Societies.

(2) The Secretary may approve a person for purposes of paragraph (1) only if the Secretary determines that—

(A) the vessels surveyed by the person while acting as a classification society have an adequate safety record; and

(B) the person has an adequate program to—

(i) develop and implement safety standards for vessels surveyed by the person;

(ii) make the safety records of the person available to the Secretary in an electronic format;

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3316	46:9 (less (c)) 46:369 46:881

Section 3316 prescribes the relationship between certain classification societies and the Federal Government with respect to the promotion of maritime safety and the security of life and property at sea. Briefly stated, a classification society, like the American Bureau of Shipping (ABS), establishes and administers standards for the design, construction, and periodic survey of commercial vessels, yachts, and other marine structures. Classification certifies adherence to these standards, thus representing that a vessel or structure possesses the structural and mechanical fitness required for its intended service.

The section requires that a Federal department, agency, or instrumentality recognize the American Bureau of Shipping as its agent for classing vessels owned

by the Federal Government and in any matters related to classification. In effect, the ABS has a statutory monopoly on classing vessels of the United States Government. Additionally, the section contains the authority to permit the Secretary to rely on reports, documents, and certificates issued by a classification society that is similar to the American Bureau of Shipping. However, a "similar classification society" continues to mean one that is organized like the American Bureau of Shipping with attendant governmental representation.

A waiver that grandfathers existing inland river passenger vessels is also included.

AMENDMENTS

1996—Subsec. (a). Pub. L. 104–324 substituted “Before November 1, 2008, this section does not apply to any vessel in operation before January 1, 1968, and operating only within the Boundary Line.” for “Before November 1, 1998, this section does not apply to a vessel in operation before January 1, 1968, and operating only on the inland rivers.”

1991—Subsec. (a). Pub. L. 102–241, §20(1), substituted “1998” for “1993”.

1986—Pub. L. 99–307 designated existing provision as subsec. (a), substituted “November 1, 1993” for “November 1, 1988” and inserted “in operation before January 1, 1968, and” after “to a vessel”, and added subsec. (b).

TRANSFER OF FUNCTIONS

For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relating thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

NOTIFICATION TO PROSPECTIVE PASSENGERS OF NONCOMPLIANCE WITH FIRE-RETARDANT STANDARDS

Pub. L. 99–307, §1(7)(B), May 19, 1986, 100 Stat. 445, provided that: “Until the regulations required by subclause (A) of this clause [see subsec. (b)(2) of this section] become effective, the owner or managing operator shall notify prospective passengers in all promotional literature and on each ticket that the vessel does not comply with those standards due primarily to the wooden construction of passenger berthing areas.”

§ 3504. Notification to passengers

(a) A person selling passage on a foreign or domestic passenger vessel having berth or stateroom accommodations for at least 50 passengers and embarking passengers at United States ports for a coastwise or an international voyage shall notify each prospective passenger of the safety standards applicable to the vessel in a manner prescribed by regulation.

(b) All promotional literature or advertising through any medium of communication in the United States offering passage or soliciting passengers for ocean voyages anywhere in the world shall include information similar to the information described in subsection (a) of this section, and shall specify the registry of each vessel named, as a part of the advertisement or description of the voyage. Except for the inclusion of the country of registry of the vessel, this subsection does not apply to voyages by vessels meeting the safety standards described in section 3505 of this title.

(c) A person violating this section or a regulation prescribed under this section is liable to the United States Government for a civil penalty of not more than \$10,000. If the violation involves the sale of tickets for passage, the owner, charterer, managing operator, agent, master, individual in charge, or any other person involved in each violation also is liable to the Government for a civil penalty of \$500 for each ticket sold. The vessel on which passage is sold also is liable in rem for a violation of this section or a regulation prescribed under this section.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3504	46:362(b)

Section 3504 requires notification to the public of the safety standards that are applicable to certain foreign flag or United States passenger vessels. In addition, all promotional literature or advertising that offers passage or solicits passengers for ocean voyages anywhere in the world shall include a safety standard statement and shall specify the registry of the vessel. If the vessel meets the international standards to which the United States adheres, then the safety standard statement need not be included. In all other cases the type of safety standard statement that must be included is as prescribed by regulation. This section is intended to place the United States public on notice as to the degree of fire safety compliance of a foreign-flag passenger vessel that does not operate or depart from a port or place in the United States but does embark passengers from the United States at nearby foreign ports. Departures from foreign ports are undertaken because the foreign-flag passenger vessel cannot comply with the safety standards applicable to a United States flag passenger vessel.

§ 3505. Prevention of departure

Notwithstanding section 3303 of this title, a foreign vessel carrying a citizen of the United States as a passenger or embarking passengers from a United States port may not depart from a United States port if the Secretary finds that the vessel does not comply with the standards stated in the International Convention for the Safety of Life at Sea to which the United States Government is currently a party.

Section 3505 prohibits the departure from a United States port or place of any passenger vessel of more than 100 gross tons having berthing for at least 50 passengers, if the vessel does not comply with the international maritime safety standards applicable to United States vessels.

AMENDMENTS

2004—Pub. L. 108-293 reenacted section catchline without change and amended text generally. Prior to amendment, text read as follows: “Notwithstanding section 3303(a) of this title, a foreign vessel may not depart from a United States port with passengers who are embarked at that port, if the Secretary finds that the vessel does not comply with the standards stated in the International Convention for the Safety of Life at Sea to which the United States Government is currently a party.”

1992—Pub. L. 102-587 substituted “foreign vessel may not depart” for “foreign or domestic vessel of more than 100 gross tons having berth or stateroom accommodations for at least 50 passengers may not depart”.

HISTORICAL AND REVISION NOTES

Chapter 37 consolidates the laws that are applicable to vessels that transport oil or hazardous material in bulk as cargo or cargo residue.

The history of Federal authority to carry out a tank vessel safety program begins with the enactment of the so-called Tank Vessel Act of 1936 which, as amended, is presently codified in section 391a of title 46, United States Code. The 1936 Act remained essentially the same until it was amended by the Ports and Waterways Safety Act of 1972. The 1972 amendment contained more specific standards for the protection of a tank vessel and its crew and added vessel standards to improve the quality of the marine environment. After a rash of tank vessel accidents during the latter part of 1976 and early 1977 within our territorial seas and in nearby coastal waters, there was an outpouring of public attention to the need to protect United States ports and waterways, for the safety of tank vessels, and for the protection of the marine environment. This led to the enactment of the Port and Tanker Safety Act of 1978, which provided broader and more extensive regulatory authority over areas already regulated and over many areas not previously regulated. It provided for improvements in the supervision and control of vessels of all types operating in the navigable waters of the United States, and in the safety of all tank vessels, foreign or domestic, that transport or transfer oil or hazardous cargoes in ports or places subject to the jurisdiction of the United States. The 1978 amendments also reflect, in part, certain tank vessel standards and requirements that have been accepted internationally, in particular those developed by the International Conference on Tanker Safety and Pollution Prevention held in London in February, 1978.

§ 3701. Definitions

In this chapter—

(1) “existing”, when referring to a type of vessel to which this chapter applies, means a vessel that is not a new vessel.

(3) “new”, when referring to a type of vessel to which this chapter applies, means a vessel—

(A) for which the building contract is placed after June 1, 1979;

(B) in the absence of a building contract, the keel of which is laid, or which is at a similar stage of construction, after January 1, 1980;

§ 3702. Application

(a) Subject to subsections (b)–(e) of this section, this chapter applies to a tank vessel.

(b) This chapter does not apply to a documented vessel that would be subject to this chapter only because of the transfer of fuel from the fuel supply tanks of the vessel to offshore drilling or production facilities in the oil industry if the vessel is—

(1) not more than 500 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title;

(2) not a tanker; and

(3) in the service of oil exploitation.

(c) This chapter does not apply to a fishing or fish tender vessel of not more than 500 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title when engaged only in the fishing industry.

(d) This chapter does not apply to a fish processing vessel of not more than 5,000 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title. However, the vessel is subject to regulation by the Secretary when carrying flammable or combustible liquid cargo in bulk.

(e) This chapter does not apply to a foreign vessel on innocent passage on the navigable waters of the United States.

(f) This chapter does not apply to an oil spill response vessel if—

(1) the vessel is used only in response-related activities; or

(2) the vessel is—

(A) not more than 500 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title;

(B) designated in its certificate of inspection as an oil spill response vessel; and

(C) engaged in response-related activities.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3702	46:391a

Section 3702, with certain exceptions, makes this chapter applicable to any tank vessel operating in the navigable waters of the United States or transferring oil or hazardous materials in any port or place subject to the jurisdiction of the United States, and which carries oil or any hazardous materials in bulk as cargo or in residue, regardless of tonnage, size or manner of propulsion; whether it is self-propelled or not; whether it is carrying freight or passengers for hire or not; and whether it is a vessel of the United States or a foreign vessel.

It exempts certain small vessels documented in the service of oil exploitation, certain small tender and fishing vessels used in the Northwest salmon or crab fisheries, certain vessels used in the processing and assembling of fishery products used in the Northwest fisheries, public vessels, and foreign vessels engaged on innocent passage on the navigable waters of the United States. However, processing vessels, while not treated as tank vessels, are still subject to regulation when carrying flammable or combustible liquid cargo in bulk.

AMENDMENTS

1996—Subsec. (b)(1). Pub. L. 104-324, § 714(1), inserted “as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title” after “500 gross tons”.

Subsec. (c). Pub. L. 104-324, § 714(2), inserted “as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title” after “500 gross tons”.

Subsec. (d). Pub. L. 104-324, § 714(3), inserted “as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title” after “5,000 gross tons”.

L. 98-364, § 402(6)(A), substituted “This chapter does not apply to a fishing or fish tender vessel of not more than 500 gross tons when engaged only in the fishing industry” for “This chapter does not apply to a cannery tender, fishing tender, or fishing vessel of not more than 500 gross tons, used in the salmon or crab fisheries of Alaska, Oregon, or Washington, when engaged only in the fishing industry”.

Subsec. (d). Pub. L. 98-364, § 402(6)(B), substituted “This chapter does not apply to a fish processing vessel of not more than 5,000 gross tons” for “This chapter does not apply to a vessel of not more than 5,000 gross tons used in processing and assembling fishery products of the fisheries of Alaska, Oregon, and Washington”.

§ 3703. Regulations

(a) The Secretary shall prescribe regulations for the design, construction, alteration, repair,

maintenance, operation, equipping, personnel qualification, and manning of vessels to which this chapter applies, that may be necessary for increased protection against hazards to life and property, for navigation and vessel safety, and for enhanced protection of the marine environment. The Secretary may prescribe different regulations applicable to vessels engaged in the domestic trade, and also may prescribe regulations that exceed standards set internationally. Regulations prescribed by the Secretary under this subsection are in addition to regulations prescribed under other laws that may apply to any of those vessels. Regulations prescribed under this subsection shall include requirements about—

(1) superstructures, hulls, cargo holds or tanks, fittings, equipment, appliances, propulsion machinery, auxiliary machinery, and boilers;

(2) the handling or stowage of cargo, the manner of handling or stowage of cargo, and the machinery and appliances used in the handling or stowage;

(3) equipment and appliances for lifesaving, fire protection, and prevention and mitigation of damage to the marine environment;

(4) the manning of vessels and the duties, qualifications, and training of the officers and crew;

(5) improvements in vessel maneuvering and stopping ability and other features that reduce the possibility of marine casualties;

(6) the reduction of cargo loss if a marine casualty occurs; and

(7) the reduction or elimination of discharges during ballasting, deballasting, tank cleaning, cargo handling, or other such activity.

(b) In prescribing regulations under subsection (a) of this section, the Secretary shall consider the types and grades of cargo permitted to be on board a tank vessel.

(c) In prescribing regulations under subsection (a) of this section, the Secretary shall establish procedures for consulting with, and receiving and considering the views of—

(1) interested departments, agencies, and instrumentalities of the United States Government;

(2) officials of State and local governments;

(3) representatives of port and harbor authorities and associations;

(4) representatives of environmental groups; and

(5) other interested parties knowledgeable or experienced in dealing with problems involving vessel safety, port and waterways safety, and protection of the marine environment.

Section 3703 requires the Secretary to issue regulations to implement this section. Specific items are listed to be included within the regulations issued. The regulatory authority must be exercised under the Administrative Procedure Act and, in prescribing these

regulations, the Secretary must consider the kinds and grades of cargo carried on board. Furthermore, in addition to any requirements of the Administrative Procedure Act, the Secretary must establish specific consultation procedures for considering the views of various specified interested officials, groups, and individuals. The procedures are intended to provide for consultation as early as possible in the regulatory process.

STUDIES ADDRESSING VARIOUS SOURCES OF OIL SPILL RISK

“(a) STUDY OF GROUP-5 FUEL OIL SPILLS.—

“(1) DEFINITION.—In this subsection, the term ‘group-5 fuel oil’ means a petroleum-based oil that has a specific gravity of greater than 1.0.

“(2) COORDINATION OF STUDY.—The Secretary of Transportation shall coordinate with the Marine Board of the National Research Council to conduct a study of the relative environmental and public health risks posed by discharges of group-5 fuel oil.

“(3) MATTERS TO BE INCLUDED.—The study under this subsection shall include a review and analysis of—

“(A) the specific risks posed to the public health or welfare of the United States, including fish, shellfish and wildlife, public and private property, shorelines, beaches, habitat, and other natural resources under the jurisdiction or control of the United States, as a result of an actual or threatened discharge of group-5 fuel oil from a vessel or facility;

“(B) cleanup technologies currently available to address actual or threatened discharge of group-5 fuel oil; and

“(C) any technological and financial barriers that prevent the prompt remediation of discharges of group-5 fuel oil.

“(4) REPORT.—Not later than 18 months after the date of enactment of this Act [Oct. 19, 1996], the Secretary of Transportation shall submit to the Committee on Environment and Public Works and the Committee on Commerce, Science, and Transportation of the Senate, and the Committee on Transportation and Infrastructure of the House of Representatives a report on the results of the study under this subsection.

“(5) RULEMAKING.—If the Secretary of Transportation determines, based on the results of the study under this subsection, that there are significant risks to public health or the environment resulting from the actual or threatened discharge of group-5 fuel oil from a vessel or facility that cannot be technologically or economically addressed by existing or anticipated cleanup efforts, the Secretary may initiate a rulemaking to take such action as is necessary to abate the threat.

“(b) STUDY OF AUTOMATIC FUELING SHUTOFF EQUIPMENT.—

“(1) COORDINATION OF STUDY.—The Secretary of Transportation shall coordinate with the Marine Board of the National Research Council to conduct a study of the unintentional or accidental discharge of fuel oil during lightering or fuel loading or off-loading activity.

“(2) MATTERS TO BE INCLUDED.—The study under this subsection shall include a review and analysis of current monitoring and fueling practices to determine the need for automatic fuel shutoff equipment to prevent the accidental discharge of fuel oil, and whether such equipment is needed as a supplement to or replacement of existing preventive equipment or procedures.

“(3) REPORT.—Not later than 18 months after the date of enactment of this Act [Oct. 19, 1996], the Secretary of Transportation shall submit to the Committee on Environment and Public Works and the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and

Infrastructure of the House of Representatives a report on the results of the study under this subsection.

“(4) RULEMAKING.—If the Secretary of Transportation determines, based on the results of the study conducted under this subsection, that the use of automatic oil shutoff equipment is necessary to prevent the actual or threatened discharge of oil during lightering or fuel loading or off[-]loading activity, the Secretary may initiate a rulemaking to take such action as is necessary to abate a threat to public health or the environment.

“(c) LIGHTERING STUDY.—The Secretary of Transportation shall coordinate with the Marine Board of the National Research Council on a study into the actual incidence and risk of oil spills from lightering operations off the coast of the United States. Among other things, the study shall address the manner in which existing regulations are serving to reduce oil spill risks. The study shall take into account current or proposed international rules and standards and also include recommendations on measures that would be likely to further reduce the risks of oil spills from lightering operations. Not later than 18 months after the date of enactment of this Act [Oct. 19, 1996], the Secretary shall submit a report on the study to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives.”

Any vessel construction or repair necessary to carry out the purpose of this section must be performed in a shipyard located in the United States.

“(b) USE OF PUBLIC VESSELS.—The Secretary may provide vessels owned by, or demise chartered to, and operated by the Government and not engaged in commercial service, without reimbursement, for use in and the support of projects sponsored by the Government for research, development, testing, evaluation, and demonstration of new or improved technologies that are effective in preventing or mitigating oil discharges and protecting the environment.”

A segregated ballast tank, a crude oil washing system, or an inert gas system, required by this chapter or a regulation prescribed under this chapter, on a vessel entitled to engage in the coastwise trade under chapter 551 of this title

shall be installed in the United States (except the trust territories). A vessel failing to comply with this section may not engage in the coastwise trade.

Section 3704 requires any tank vessel that is entitled to engage in the coastwise trade to install certain equipment in the United States under the penalty of losing coastwise trading privileges if the installation work is done in a foreign country.

AMENDMENTS

2006—Pub. L. 109-304 substituted "chapter 551 of this title" for "section 27 of the Merchant Marine Act, 1920 (46 App. U.S.C. 883)."

§ 3705. Crude oil tanker minimum standards

(a) A new crude oil tanker of at least 20,000 deadweight tons shall be equipped with—

- (1) protectively located segregated ballast tanks;
- (2) a crude oil washing system; and
- (3) a cargo tank protection system consisting of a fixed deck froth system and a fixed inert gas system.

(b)(1) An existing crude oil tanker of at least 40,000 deadweight tons shall be equipped with—

- (A) segregated ballast tanks; or
- (B) a crude oil washing system.

(2) Compliance with paragraph (1) of this subsection may be delayed until June 1, 1985, for any tanker of less than 70,000 deadweight tons that has dedicated clean ballast tanks.

(c) An existing crude oil tanker of at least 20,000 deadweight tons but less than 40,000 deadweight tons, and at least 15 years of age, shall be equipped with segregated ballast tanks or a crude oil washing system before January 2, 1986, or the date on which the tanker reaches 15 years of age, whichever is later.

(d) An existing crude oil tanker of at least 20,000 deadweight tons shall be equipped with an inert gas system. However, for a crude oil tanker of less than 40,000 deadweight tons not fitted with high capacity tank washing machines, the Secretary may grant an exemption if the vessel's owner can show clearly that compliance would be unreasonable and impracticable due to the vessel's design characteristics.

(e) A crude oil tanker engaged in transferring oil from an offshore oil exploitation or production facility on the Outer Continental Shelf of the United States shall be equipped with segregated ballast tanks, or may operate with dedicated clean ballast tanks or special ballast arrangements. However, the tanker shall comply with other applicable minimum standards of this section.

Section 3705 requires compliance with certain minimum standards by a crude oil tanker, which is self-propelled. In general, the minimum required standards are consistent with those international standards that have been adopted as Protocols to the 1974 Safety of Life at Sea Convention and the 1973 Marine Pollution Convention.

Section 3705(a) requires new crude oil tankers of 20,000 deadweight tons or above to have protectively located segregated ballast tanks, a crude oil washing system, and a specified cargo tank protection system.

Section 3705(b) requires existing crude oil tankers of 40,000 deadweight tons or above to have segregated ballast tanks or a crude oil washing system. Compliance may be delayed until June 1, 1985 for smaller tankers that have dedicated clean ballast tanks.

Section 3705(c) requires existing crude oil tankers of 20,000 deadweight tons or above, but less than 40,000 deadweight tons, that are 15 years or older, to have segregated ballast tanks or a crude oil washing system by January 1, 1985 or if less than 15 years old, by the date on which it reaches 15 years of age.

Section 3705(d) requires existing crude oil tankers of 20,000 deadweight tons or above, to install an inert gas system. An exemption for crude oil tankers of less than 40,000 deadweight tons not fitted with high-capacity tank washing machines may be granted by the Secretary, only if it is demonstrated that compliance would be unreasonable and impracticable due to the vessel's design characteristics.

Section 3705(e) requires existing crude oil tankers of 20,000 deadweight tons or above, engaged in the transfer of oil from Outer Continental Shelf oil exploitation or production facilities, to have segregated ballast tanks or be operated with dedicated clean ballast tanks or special ballast arrangements.

§ 3706. Product carrier minimum standards

(a) A new product carrier of at least 30,000 deadweight tons shall be equipped with protectively located segregated ballast tanks.

(b) A new product carrier of at least 20,000 deadweight tons shall be equipped with a cargo tank protection system consisting of a fixed deck froth system and a fixed inert gas system or, if the product carrier carries dedicated products incompatible with the cargo tank protection system, an alternate protection system authorized by the Secretary.

(c) An existing product carrier of at least 40,000 deadweight tons shall be equipped with segregated ballast tanks or may operate with dedicated clean ballast tanks.

(d) An existing product carrier of at least 20,000 deadweight tons but less than 40,000 deadweight tons, and at least 15 years of age, shall be equipped with segregated ballast tanks or may operate with dedicated clean ballast tanks before January 2, 1986, or the date on which it reaches 15 years of age, whichever is later.

(e) An existing product carrier of at least 40,000 deadweight tons, or an existing product carrier of at least 20,000 deadweight tons but less than 40,000 deadweight tons that is fitted with high-capacity tank washing machines, shall be equipped with an inert gas system.

(b) Each certificate endorsed under this section is valid for not more than 5 years and may be renewed as specified by the Secretary. In appropriate circumstances, the Secretary may issue a temporary certificate valid for not more than 30 days. A certificate shall be suspended or revoked if the Secretary finds that the vessel does not comply with the conditions under which the certificate was issued.

The Secretary may issue the certificate only after the vessel has been examined and found to be in compliance with this chapter and regulations prescribed under this chapter. The Secretary may accept any part of a certificate, endorsement, or document, issued by the government of a foreign country under a treaty, convention, or other international agreement to which the United States is a party, as a basis for issuing a certificate of compliance.

Section 3711 prohibits any foreign vessel from operating on the navigable waters of the United States or from transferring oil or hazardous material in any port or place under the jurisdiction of the United States, unless it has a certificate of compliance issued by the Secretary indicating that the vessel has been examined and found to be in compliance with the provisions of the applicable regulations. It also authorizes the Secretary to accept, in whole or in part, an appropriate foreign certificate issued pursuant to any international agreement to which the United States is a party, as a basis for issuing the certificate of compliance. This means that the Secretary does not have to accept foreign certificates as evidence of compliance, but may take additional action to assure compliance with applicable domestic laws and regulations and international treaty provisions.

§ 3712. Notification of noncompliance

The Secretary shall notify the owner, charterer, managing operator, agent, master, or individual in charge of a vessel found not to be in compliance with a regulation prescribed under this part and state how compliance may be achieved.

Section 3713(a) prohibits any person from violating any provision of this chapter or a regulation prescribed under its authority. It prohibits the refusal to permit authorized officials to board a vessel or to enter a shore area for the purposes of inspection of the vessel or premises. It also prohibits the refusal to obey any lawful directive issued under this chapter.

Section 3713(b) prohibits any vessel, subject to the provisions of this chapter from operating on the navigable waters of the United States, or from using any port or place subject to the jurisdiction of the United States while not in compliance with any provision of applicable law or regulation. It further prohibits any vessel from failing to comply with a lawful directive issued pursuant to the authority of this chapter. It also prohibits the vessel from carrying oil or hazardous material as cargo or cargo residue unless its certificate is so endorsed to permit its carriage.

§ 3714. Inspection and examination

(a)(1) The Secretary shall have each vessel to which this chapter applies inspected or examined at least once each year.

(2) Each of those vessels that is more than 10 years of age shall undergo a special and detailed inspection of structural strength and hull integrity as specified by the Secretary.

(3) The Secretary may make contracts for conducting inspections or examinations in the United States and in foreign countries. An in-

spector conducting an inspection or examination under contract may not issue a certificate of inspection or a certificate of compliance, but the inspector may issue a temporary certificate.

(4) The Secretary shall prescribe by regulation reasonable fees for an inspection or examination conducted under this section outside the United States, or which, when involving a foreign vessel, is conducted under a contract authorized by paragraph (3) of this subsection. The owner, charterer, or managing operator of a vessel inspected or examined by the Secretary is liable for the fees. Amounts received as fees shall be deposited in the Treasury.

(5) The Secretary may allow provisional entry of a vessel to conduct an inspection or examination under this chapter.

(b) Each vessel to which this chapter applies shall have on board those documents the Secretary considers necessary for inspection and enforcement, including documents listing—

- (1) the type, grade, and approximate quantities of cargo on board;
- (2) the shipper and consignee of the cargo;
- (3) the places of origin and destination of the vessel; and
- (4) the name of an agent in the United States authorized to accept service of legal process.

(c) Each vessel to which this chapter applies that operates in the United States shall have a person designated as authorized to accept service of legal process for the vessel.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3714	46:391a(15)

Section 3714(a) requires the Secretary to establish a program for the inspection of tank vessels, foreign or domestic, at least once each year. The Committee contemplates that United States vessels will be issued a 2 year certificate of inspection with a mid-period examination. The Committee also contemplates that foreign-flag vessels will continue to be tracked and boarded at least once a year or when they first arrive in the United States. The Secretary may examine the foreign-flag tank vessel but may accept, as a basis for the issuance of a certificate of compliance, in whole or in part a foreign-issued certificate.

Each vessel over 10 years of age must undergo a special and detailed inspection of structural strength and hull integrity, as specified by the Secretary. An inspection or examination may be conducted by any officer authorized by the Secretary. The Committee expects that, whenever possible, a qualified marine inspector will be used wherever the vessel undergoes these 10-year inspections. The Secretary may also contract for inspections or examinations in the United States and in foreign countries.

The primary reason for including a provision that permits the contracting for the conduct of inspections and examinations is to provide flexibility in foreign areas where Coast Guard marine inspectors are not normally available.

A contract inspector may be authorized to act on behalf of the Secretary, but may not issue a certificate of inspection or compliance. The inspector may, however, issue a temporary certificate.

The Committee understands that the 10-year inspections of United States-flag and foreign-flag vessels may occur at the time the vessel is scheduled for shipyard availability to complete the periodic classification society survey.

The Secretary is also authorized and directed to prescribe by regulation reasonable fees for certain inspections or examinations conducted pursuant to this section based on the cost incurred. The owner of any vessel inspected or examined by the Secretary or his designee shall be liable for the fee. Amounts received as fees under this section are to be deposited in the Treasury.

Section 3714(b) requires each vessel subject to this chapter to have on board those documents the Secretary declares are necessary for inspection or enforcement, including, but not limited to documents indicating the kind, grade, and approximate quantities of any cargo on board; the shipper and consignee of the cargo; the points of origin and destination of the vessel; and the name of an agent in the United States authorized to accept legal process.

Section 3714(c) requires each vessel subject to this chapter to have a person authorized to accept service of legal process for the vessel.

AMENDMENTS

1986—Subsec. (a)(4). Pub. L. 99-307 substituted “charterer” for “charter”.

§ 3715. Lightering

(a) A vessel may transfer oil or hazardous material in a port or place subject to the jurisdiction of the United States, when the cargo has been transferred from another vessel on the navigable waters of the United States or in the marine environment, only if—

- (1) the transfer was conducted consistent with regulations prescribed by the Secretary;
- (2) both the delivering and receiving vessels had on board, at the time of transfer, a certificate of inspection or a certificate of compliance, as would have been required under section 3710 or 3711 of this title, had the transfer taken place in a port or place subject to the jurisdiction of the United States; and¹
- (3) the delivering and the receiving vessel had on board at the time of transfer, a certificate of financial responsibility as would have been required under section 1016 of the Oil Pollution Act of 1990, had the transfer taken place in a place subject to the jurisdiction of the United States;
- (4) the delivering and the receiving vessel had on board at the time of transfer, evidence that each vessel is operating in compliance with section 311(j) of the Federal Water Pollution Control Act (33 U.S.C. 1321(j)); and
- (5) the delivering and the receiving vessel are operating in compliance with section 3703a of this title.

(b) The Secretary shall prescribe regulations to carry out subsection (a) of this section. The regulations shall include provisions on—

- (1) minimum safe operating conditions, including sea state, wave height, weather, proximity to channels or shipping lanes, and other similar factors;
- (2) the prevention of spills;
- (3) equipment for responding to a spill;
- (4) the prevention of any unreasonable interference with navigation or other reasonable uses of the high seas, as those uses are defined by treaty, convention, or customary international law;
- (5) the establishment of lightering zones; and

¹ So in original. The word “and” probably should not appear.

(6) requirements for communication and pre-arrival messages.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 526; Pub. L. 101-380, title IV, § 4115(d), Aug. 18, 1990, 104 Stat. 520.)

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3715	46:391a(17)

Section 3715 requires the Secretary to control lightering operations; that is, the transferring of cargoes at sea from large deep-draft vessels to shallow-draft vessels for subsequent transfer to shoreside terminals due to the inability of the larger tank vessels to enter shallow ports. It prohibits a tank vessel from unloading any cargo of oil or hazardous material at any port or terminal under the jurisdiction of the United States, unless the cargo has been transferred in accordance with lightering regulations. It also prohibits the shore-side transfer unless both the delivering and receiving vessels involved in the prior lightering had on board at the time of the offshore transfer, the certificates that would have been required had the transfer taken place in a port or place subject to the jurisdiction of the United States.

The regulations to be prescribed by the Secretary shall include a number of specific considerations but may include any related matters deemed necessary to promote navigation and vessel safety and protection of the marine environment. The Secretary must consider standards for minimum safe operating conditions, including sea state, wave height, weather, vessel traffic, the prevention of oil spills, and oil spill response equipment. In regulating this operation, there must not be any unreasonable interference with international navigation or reasonable uses of the high seas, and there must be established lightering zones with attendant communications and prearrival message requirements.

3716	46:391a(18)

Section 3716 requires the Secretary to establish effective control and supervisory measures to prohibit the discharge of tank washings by dumping at sea. The section also prohibits the dumping vessel from subsequently loading any cargo at a port or terminal subject to the jurisdiction of the United States. This section is intended to prohibit the practice of discharging a cargo of oil or hazardous substance, then going to sea to clean tanks by pumping tank washing mixtures overboard, and then returning to a port or terminal subject to the jurisdiction of the United States for the purpose of loading a cargo that was incompatible with the prior cargo.

§ 3717. Marine safety information system

(a) The Secretary shall establish a marine safety information system that shall contain information about each vessel to which this chapter applies that operates on the navigable waters of the United States, or that transfers oil or hazardous material in a port or place under the jurisdiction of the United States. In acquiring this information, the Secretary shall make full use of publicly available information. The Secretary may by regulation require the vessel to provide information that the Secretary considers necessary to carry out this subsection, including—

- (1) the name of each person with an ownership interest in the vessel;
- (2) details of compliance with the financial responsibility requirements of applicable laws or regulations;
- (3) registration information, including all changes in the name of the vessel;
- (4) the history of marine casualties and serious repair problems of the vessel; and
- (5) a record of all inspections and examinations of a vessel conducted under section 3714 of this title.

(b) On written request from the Secretary, the head of each department, agency, or instrumentality of the United States Government shall provide available information that the Secretary considers necessary to confirm the information received under subsection (a) of this section.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3717	46:391a(16)

Section 3717 requires the Secretary to establish a marine safety information system which is to contain selected information on any tank vessel, foreign or domestic, that comes within the jurisdiction of the United States. This information must be recorded and maintained up-to-date and is available from a number of sources. In some instances, this information is required as a condition of entry. This information shall include certain ownership interests, financial responsibility information, all registered names that the vessel has had since it was built, the present and prior countries of registry, history of accidents or serious repair problems, record of the various inspections or ex-

aminations required, and any other data the Secretary deems appropriate to carry out the intent of the section. The section also provides for interagency cooperation and the furnishing of available data and information.

§ 3718. Penalties

(a)(1) A person violating this chapter or a regulation prescribed under this chapter is liable to the United States Government for a civil penalty of not more than \$25,000. Each day of a continuing violation is a separate violation.

(2) Each vessel to which this chapter applies that is operated in violation of this chapter or a regulation prescribed under this chapter is liable in rem for a civil penalty under this subsection.

(b) A person willfully and knowingly violating this chapter or a regulation prescribed under this chapter commits a class D felony.

(c) Instead of the penalties provided by subsection (b) of this section, a person willfully and knowingly violating this chapter or a regulation prescribed under this chapter, and using a dangerous weapon, or engaging in conduct that causes bodily injury or fear of imminent bodily injury to an official authorized to enforce this chapter or a regulation prescribed under this chapter, commits a class C felony.

(d) The district courts of the United States have jurisdiction to restrain a violation of this chapter or a regulation prescribed under this chapter.

(e)(1) If any owner, operator, or individual in charge of a vessel is liable for any penalty or fine under this section, or if reasonable cause exists to believe that the owner, operator, or individual in charge may be subject to any penalty or fine under this section, the Secretary of Homeland Security, upon the request of the Secretary, shall with respect to such vessel refuse or revoke any clearance required by section 60105 of this title.

(2) Clearance or a permit refused or revoked under this subsection may be granted upon filing of a bond or other surety satisfactory to the Secretary.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3718	46:391a(14)

Section 3718 provides the authority to assess civil penalties for violation of the chapter or regulations. Each violation subjects the violator to a penalty not to exceed \$25,000 for each violation and, in the case of a continuing violation, each day shall constitute a separate violation and the vessel is liable in rem. The procedures for assessing penalties are found in section 2107 of part A.

With respect to criminal penalties, a willful or knowing violation of the section or a regulation subjects the offender, upon conviction, to a criminal fine of not more than \$50,000 for each violation or imprisonment for not more than 1 year, or both. If the willful and knowing violation involves the use of a dangerous weapon or constitutes an assault or battery, the of-

fender is subjected to a fine of not more than \$100,000 or imprisonment of not more than 10 years, or both.

In addition, where the owner or operator of the vessel is subject to any of the penalties prescribed, the Secretary of the Treasury is directed to withhold required Customs clearance, at the request of the Secretary. Clearance may be granted upon the filing of a bond or other surety satisfactory to the Secretary.

AMENDMENTS

2006—Subsec. (e)(1). Pub. L. 109-304 substituted “Secretary of Homeland Security” and “section 60105 of this title” for “Secretary of the Treasury” and “section 4197 of the Revised Statutes of the United States (46 App. U.S.C. 91)”, respectively.

1996—Subsec. (e). Pub. L. 104-324 amended subsec. (e) generally. Prior to amendment, subsec. (e) read as follows: “At the request of the Secretary, the Secretary of the Treasury shall withhold or revoke the clearance required by section 4197 of the Revised Statutes (46 App. U.S.C. 91) of a vessel the owner or operator of which is subject to a penalty under this section. Clearance may be granted on filing a bond or other surety satisfactory to the Secretary.”

1990—Subsec. (b). Pub. L. 101-380, § 4302(c)(1), substituted “commits a class D felony” for “shall be fined not more than \$50,000, imprisoned for not more than 5 years, or both”.

Subsec. (c). Pub. L. 101-380, § 4302(c)(2), substituted “commits a class C felony” for “shall be fined not more than \$100,000, imprisoned for not more than 10 years, or both”.

EFFECTIVE DATE OF 1990 AMENDMENT

Amendment by Pub. L. 101-380 applicable to incidents occurring after Aug. 18, 1990, see section 1020 of Pub. L. 101-380, set out as an Effective Date note under section 2701 of Title 33, Navigation and Navigable Waters.

§ 3719. Reduction of oil spills from single hull non-self-propelled tank vessels

The Secretary shall, in consultation with the Towing Safety Advisory Committee and taking into consideration the characteristics, methods of operation, and the size and nature of service of single hull non-self-propelled tank vessels and towing vessels, prescribe regulations requiring a single hull non-self-propelled tank vessel that operates in the open ocean or coastal waters, or the vessel towing it, to have at least one of the following:

(1) A crew member and an operable anchor on board the tank vessel that together are capable of arresting the tank vessel without additional assistance under reasonably foreseeable sea conditions.

(2) An emergency system on the tank vessel or towing vessel that without additional assistance under reasonably foreseeable sea conditions will allow the tank vessel to be retrieved by the towing vessel if the tow line ruptures.

(3) Any other measure or combination of measures that the Secretary determines will provide protection against grounding of the tank vessel comparable to that provided by the measures described in paragraph (1) or (2).

(Added Pub. L. 104-324, title IX, § 901(a), Oct. 19, 1996, 110 Stat. 3946.)

HISTORICAL AND REVISION NOTES

Chapter 41 applies to vessels that are not subject to inspection and certification under chapter 33.

The Federal authority to regulate uninspected vessels originated with the Motorboat Act of 1910 (Public Law 61-201, 36 Stat. 462) when Congress established standards with respect to navigation lights, machinery requirements, life preservers, and for the licensing of operators on small vessels carrying passengers. This was an extension of Federal regulatory authority over certain non-steam-propelled vessels, that is, those recreational vessels and commercial vessels that are propelled by machinery other than steam.

Thirty years later, the 1910 Act was amended by the Motorboat Act of 1940 (Public Law 76-484, 54 Stat. 163), which added to the equipment that was required and provided for other regulatory controls. In this manner the Federal Government continued to exercise some degree of maritime safety supervision over the commercial and recreational vessel sector that was “uninspected”. This was important because steam towing vessels were converting to diesel propulsion and were therefore no longer subject to the detailed periodic and extensive hull, machinery, and equipment inspections of a Federal agency. In addition, the number of recreational vessels primarily propelled by gasoline were increasing and were also suffering casualties from explosions and fires.

AMENDMENTS

1990—Pub. L. 101-595, title VI, §603(3)(B), Nov. 16, 1990, 104 Stat. 2993, struck out item 4104 “Regulations”.

1984—Pub. L. 98-364, title IV, §402(7)(B), July 17, 1984, 98 Stat. 446, inserted “GENERALLY” in chapter heading.

§ 4101. Application

This chapter applies to an uninspected vessel not subject to chapter 45 of this title—

- (1) on the navigable waters of the United States; or (2) owned in the United States and operating on the high seas.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 528; Pub. L. 100-424, §8(b), Sept. 9, 1988, 102 Stat. 1593.)

HISTORICAL AND REVISION NOTES

Table with 2 columns: Revised section, Source section (U.S. Code). Row 1: 4101 46:526u

Section 4101 makes this chapter applicable to uninspected vessels, as defined in section 2101(43), that op-

erate on the navigable waters of the United States or that are owned in the United States and while operating on the high seas. Therefore a vessel that operates on waters that are considered to be solely State waters would not be subject to these Federal requirements.

AMENDMENTS

1988—Pub. L. 100-424 inserted “not subject to chapter 45 of this title” after “an uninspected vessel”.

EFFECTIVE DATE

Chapter effective Apr. 15, 1984, see section 2(g)(1) of Pub. L. 98-89, set out as a note under section 3101 of this title.

§ 4102. Safety equipment

(a) Each uninspected vessel propelled by machinery shall be provided with the number, type, and size of fire extinguishers, capable of promptly and effectively extinguishing burning liquid fuel, that may be prescribed by regulation. The fire extinguishers shall be kept in condition for immediate and effective use and so placed as to be readily accessible.

(b) Each uninspected vessel propelled by machinery shall carry at least one readily accessible life preserver or other lifesaving device, of the type prescribed by regulation, for each individual on board.

(c) Each uninspected vessel shall have the carburetors of each engine of the vessel (except an outboard motor) using gasoline as fuel, equipped with an efficient flame arrestor, backfire trap, or other similar device prescribed by regulation.

(d) Each uninspected vessel using a volatile liquid as fuel shall be provided with the means prescribed by regulation for properly and efficiently ventilating the bilges of the engine and fuel tank compartments, so as to remove any explosive or flammable gases.

(e) Each manned uninspected vessel owned in the United States and operating beyond 3 nautical miles from the baselines from which the territorial sea of the United States is measured or beyond three nautical miles from the coastline of the Great Lakes shall be equipped with the number and type of alerting and locating equipment, including emergency position indicating radio beacons, prescribed by the Secretary.

(f)(1) The Secretary, in consultation with the Towing Safety Advisory Committee and taking into consideration the characteristics, methods of operation, and nature of service of towing vessels, may require the installation, maintenance, and use of a fire suppression system or other measures to provide adequate assurance that fires on board towing vessels can be suppressed under reasonably foreseeable circumstances.

(2) The Secretary shall require under paragraph (1) the use of a fire suppression system or other measures to provide adequate assurance that a fire on board a towing vessel that is towing a non-self-propelled tank vessel can be suppressed under reasonably foreseeable circumstances.

For extension of territorial sea of United States, see Proc. No. 5928, set out as a note under section 1331 of Title 43, Public Lands.

§ 4103. Exemptions

(a) The Secretary may exempt a vessel from any part of this chapter if, under regulations prescribed by the Secretary (including regulations on special operating conditions), the Secretary finds that—

(1) good cause exists for granting an exemption; and

(2) the safety of the vessel and individuals on board will not be adversely affected.

(b) Section 4102(a) of this title does not apply to a vessel propelled by outboard motors when competing in a race previously arranged and announced or, if the vessel is designed and intended only for racing, when operated incidental to tuning up the vessel and its engines for the race.

HISTORICAL AND REVISION NOTES

Chapter 43 contains the laws applicable to recreational vessels, which originated primarily with the enactment of the Federal Boat Safety Act of 1971 (Public Law 92-75, 85 Stat. 213). That Act embraced a number of activities, but the portion restated in this chapter deals with the establishment of national construction and performance standards for recreational vessels and their associated equipment, the necessary flexible regulatory authority for inspection and testing, Federal preemption, certain necessary prohibited acts, enforcement authority, investigation and reporting requirements, procedures for repair and defect notification, and attendant penalties and injunctive relief. These laws are a direct response to the dramatic increase in the number of recreational boats and the Congressional recognition of the maritime safety problems that recreational boating has imposed upon our more than 25 million miles of waterways.

§ 4301. Application

(a) This chapter applies to a recreational vessel and associated equipment carried in the vessel on waters subject to the jurisdiction of the United States (including the territorial sea of the United States as described in Presidential Proclamation No. 5928 of December 27, 1988) and, for a vessel owned in the United States, on the high seas.

(b) Except when expressly otherwise provided, this chapter does not apply to a foreign vessel temporarily operating on waters subject to the jurisdiction of the United States.

(c) Until there is a final judicial decision that they are navigable waters of the United States, the following waters lying entirely in New Hampshire are declared not to be waters subject to the jurisdiction of the United States within the meaning of this section: Lake Winnisquam, Lake Winnepesaukee, parts of the Merrimack River, and their tributary and connecting waters.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 529; Pub. L. 105-383, title III, §301(b)(4), Nov. 13, 1998, 112 Stat. 3417.)

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
4301	46:1453

Section 4301 provides that this chapter is applicable to a recreational vessel that operates on waters subject to the jurisdiction of the United States or that is owned in the United States and while operating on the high seas.

It also provides that a foreign recreational vessel that temporarily uses our waters is not subject to the requirements of this chapter. However, if the vessel remains permanently in the United States, it would be subject to the provisions of this chapter.

Section 4301(c) recognizes the ongoing controversy over the navigability of certain waters of New Hampshire. While a recreational vessel operating on these waters need not meet the requirements of this chapter, it would be prohibited from operating on any other waters subject to the jurisdiction of the United States if it does not comply with these requirements.

AMENDMENTS

1998—Subsec. (a). Pub. L. 105-383 inserted “(including the territorial sea of the United States as described in Presidential Proclamation No. 5928 of December 27, 1988)” after “of the United States”.

EFFECTIVE DATE

Chapter effective Apr. 15, 1984, see section 2(g)(1) of Pub. L. 98-89, set out as a note under section 3101 of this title.

§ 4302. Regulations

(a) The Secretary may prescribe regulations—
 (1) establishing minimum safety standards for recreational vessels and associated equipment, and establishing procedures and tests required to measure conformance with those standards, with each standard—

(A) meeting the need for recreational vessel safety; and

(B) being stated, insofar as practicable, in terms of performance;

(2) requiring the installation, carrying, or use of associated equipment (including fuel systems, ventilation systems, electrical systems, sound-producing devices, firefighting equipment, lifesaving devices, signaling devices, ground tackle, life- and grab-rails, and navigational equipment) on recreational vessels and classes of recreational vessels subject to this chapter, and prohibiting the installation, carrying, or use of associated equipment that does not conform with safety standards established under this section; and

(3) requiring or permitting the display of seals, labels, plates, insignia, or other devices for certifying or evidencing compliance with safety regulations and standards of the United States Government for recreational vessels and associated equipment.

(b) Each regulation prescribed under this section shall specify an effective date that is not earlier than 180 days from the date the regulation was published, unless the Secretary finds that there exists a recreational vessel safety hazard so critical as to require an earlier effective date. However, this period may not be more than 24 months for cases involving, in the discretion of the Secretary, major product design, retooling, or major changes in the manufacturing process.

(c) In prescribing regulations under this section, the Secretary shall, among other things—

(1) consider the need for and the extent to which the regulations will contribute to recreational vessel safety;

(2) consider relevant available recreational vessel safety standards, statistics, and data, including public and private research, development, testing, and evaluation;

(3) not compel substantial alteration of a recreational vessel or item of associated equipment that is in existence, or the construction or manufacture of which is begun before the effective date of the regulation, but subject to that limitation may require compliance or performance, to avoid a substantial risk of personal injury to the public, that the Secretary considers appropriate in relation to the degree of hazard that the compliance will correct; and

(4) consult with the National Boating Safety Advisory Council established under section 13110 of this title about the considerations referred to in clauses (1)–(3) of this subsection.

(d) Section 8903 of this title does not apply to a vessel being operated for bona fide dealer demonstrations provided without fee to business invitees. However, if on the basis of substantial evidence, the Secretary decides under this section that requiring vessels so operated to be under the control of licensed individuals is necessary for boating safety, then the Secretary may prescribe regulations requiring the licensing of individuals controlling these vessels in the same manner as provided in chapter 89 of this title for individuals in control of vessels carrying passengers for hire.

(Pub. L. 98–89, Aug. 26, 1983, 97 Stat. 530.)

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
4302	46:1454 46:1455 46:1456 46:1464(g) 46:1488

Section 4302 authorizes the Secretary to prescribe regulations to carry out the provisions of this chapter. In lieu of establishing specific statutory safety requirements, subsection (a) provides flexible regulatory authority to establish uniform standards for the design, construction, materials, and performance of the boats themselves and all associated equipment. It also provides for the display of seals and other devices for certifying or evidencing compliance with applicable safety regulations or standards.

Section 4302(b) requires a regulation prescribed under this section to have an effective date that is not earlier than 180 days from publication. However, in those instances where a safety hazard may be critical an earlier effective date is authorized.

Section 4302(c) requires the Secretary to consider certain objectives in developing regulatory controls and regulations or standards and that there must be an effective consultation process.

Section 4302(d) exempts dealer demonstration boats from the requirement of having to be named by a licensed individual when demonstrating boats to prospective purchasers or other business invitees when no fees are charged. The Secretary may require that boats so used be under control of a licensed individual.

AVAILABILITY AND USE OF EPIRBs FOR RECREATIONAL VESSELS

Pub. L. 105–383, title III, §309, Nov. 13, 1998, 112 Stat. 3422, provided that: “The Secretary of Transportation, through the Coast Guard and in consultation with the National Transportation Safety Board and recreational boating organizations, shall, within 24 months of the date of the enactment of this Act [Nov. 13, 1998], assess and report to Congress on the use of emergency position indicating beacons (EPIRBs) and similar devices by operators of recreational vessels on the Intracoastal

Waterway and operators of recreational vessels beyond the Boundary Line. The assessment shall at a minimum—

“(1) evaluate the current availability and use of EPIRBs and similar devices by the operators of recreational vessels and the actual and potential contribution of such devices to recreational boating safety; and

“(2) provide recommendations on policies and programs to encourage the availability and use of EPIRBs [sic] and similar devices by the operators of recreational vessels.”

§ 4303. Inspection and testing

(a) Subject to regulations, supervision, and reviews that the Secretary may prescribe, the Secretary may delegate to a person, private or public agency, or organization, or to an officer or employee under the supervision of that person or agency, any work, business, or function related to the testing, inspection, and examination necessary for compliance enforcement and for the development of data to enable the Secretary to prescribe regulations under section 4302 of this title.

(b) The Secretary may—

- (1) conduct research, testing, and development necessary to carry out this chapter, including the procurement by negotiation or otherwise of experimental and other recreational vessels or associated equipment for research and testing purposes; and
- (2) subsequently sell those vessels.

Section 4303 authorizes the Secretary to delegate to certain persons or agencies or organizations any work, business, or function related to the testing, inspection, and examination necessary for compliance enforcement. The Secretary may also conduct research, testing, and development necessary to carry out this chapter, including procurement of vessels and equipment and their subsequent sale. The Committee wishes to make clear that the Secretary may sell anything that was purchased to test.

§ 4304. Importation of nonconforming vessels and equipment

The Secretary and the Secretary of the Treasury may authorize by joint regulations the importation of any nonconforming recreational vessel or associated equipment on conditions, including providing a bond, that will ensure that the recreational vessel or associated equipment will be brought into conformity with applicable safety regulations and standards of the Government before the vessel or equipment is operated on waters subject to the jurisdiction of the United States.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
4304	46:1460

Section 4304 requires the regulation and control of the importation of nonconforming recreational vessels

and associated equipment. This is to assure United States manufacturers that foreign imports comply with those regulations and standards in effect for United States products so that all manufacturers will be on this same competitive footing. This is being done in lieu of providing a specific prohibition against the importation of these vessels and equipment that might be considered an imposition of a non-tariff barrier to trade.

§ 4305. Exemptions

If the Secretary considers that recreational vessel safety will not be adversely affected, the Secretary may issue an exemption from this chapter or a regulation prescribed under this chapter.

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
4305	46:1458

Section 4305 permits the Secretary to grant appropriate exemptions from the requirements of this chapter when recreational vessel safety will not be adversely affected.

§ 4306. Federal preemption

Unless permitted by the Secretary under section 4305 of this title, a State or political subdivision of a State may not establish, continue in effect, or enforce a law or regulation establishing a recreational vessel or associated equipment performance or other safety standard or imposing a requirement for associated equipment (except insofar as the State or political subdivision may, in the absence of the Secretary's disapproval, regulate the carrying or use of marine safety articles to meet uniquely hazardous conditions or circumstances within the State) that is not identical to a regulation prescribed under section 4302 of this title.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
4306	46:1459 46:1460

Section 4306 establishes the Federal preemption of recreational boating standards and requirements. A State or a political subdivision may not establish, continue, or enforce a law or regulation establishing a performance or other safety standard that is not identical to a Federal standard. The Secretary may grant an exemption to a State when the State requirement is one that is needed to meet uniquely hazardous conditions or circumstances within a State. This is to provide uniform standards without the imposition of excessive special requirements by individual States.

§ 4307. Prohibited acts

(a) A person may not—

(1) manufacture, construct, assemble, sell or offer for sale, introduce or deliver for introduction into interstate commerce, or import into the United States, a recreational vessel, associated equipment, or component of the vessel or equipment unless—

(A)(i) it conforms with this chapter or a regulation prescribed under this chapter; and

(ii) it does not contain a defect which has been identified, in any communication to such person by the Secretary or the manufacturer of that vessel, equipment or component, as creating a substantial risk of personal injury to the public; or

(B) it is intended only for export and is so labeled, tagged, or marked on the recreational vessel or equipment, including any markings on the outside of the container in which it is to be exported;

(2) affix, attach, or display a seal, document, label, plate, insignia, or other device indicating or suggesting compliance with standards of the United States Government on, in, or in connection with, a recreational vessel or item of associated equipment that is false or misleading; or

(3) fail to provide a notification as required by this chapter or fail to exercise reasonable diligence in carrying out the notification and reporting requirements of this chapter.

(b) A person may not operate a vessel in violation of this chapter or a regulation prescribed under this chapter.

§ 4308. Termination of unsafe operation

If an official charged with the enforcement of this chapter observes a recreational vessel being operated without sufficient lifesaving or fire-fighting devices or in an overloaded or other unsafe condition (as defined in regulations prescribed under this chapter) and, in the judgment of the official, the operation creates an especially hazardous condition, the official may direct the individual in charge of the recreational vessel to take immediate and reasonable steps necessary for the safety of individuals on board the vessel, including directing the individual in charge to return to a mooring and to remain there until the situation creating the hazard is corrected or ended.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 532; Pub. L. 99-307, §1(9), May 19, 1986, 100 Stat. 445.)

Section 4308 authorizes an appropriate official to terminate the unsafe operation of recreational vessels. If the official observes the vessel being operated without sufficient lifesaving or fire-fighting devices or in an overloaded or other unsafe condition (as defined in regulations) and believes the operation creates an espe-

cially hazardous condition, the operator may be directed to take immediate and reasonable steps necessary for safety, including returning to a mooring and remaining there until the hazard is corrected or ended. This does not prevent the assessment of any applicable civil penalties nor the pursuing of appropriate criminal action.

AMENDMENTS

1986—Pub. L. 99-307 substituted “individual in charge” for “operator” in two places.

§ 4309. Investigation and reporting

(a) A recreational vessel manufacturer to whom this chapter applies shall establish and maintain records and reports and provide information the Secretary may require to enable the Secretary to decide whether the manufacturer has acted or is acting in compliance with this chapter and regulations prescribed under this chapter. On request of an officer, employee, or agent authorized by the Secretary, a recreational vessel manufacturer shall permit the officer, employee, or agent to inspect, at reasonable times, factories or other facilities, and records related to deciding whether the manufacturer has acted or is acting in compliance with this chapter and regulations prescribed under this chapter.

(b) Information reported to or otherwise obtained by the Secretary or the representative of the Secretary under this section containing or related to a trade secret or other matter referred to in section 1905 of title 18, or authorized to be exempt from public disclosure by section 552(b) of title 5, is confidential under section 1905. However, on approval of the Secretary, the information may be disclosed to other officers, employees, or agents concerned with carrying out this chapter or when it is relevant in a proceeding under this chapter.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
4309	46:1463

Section 4309 requires the establishment and maintenance of certain records by manufacturers, and the inspection and access to these records by the Secretary, at reasonable times, so as to assure Federal enforcement officials that the manufacturer has acted or is in compliance with applicable laws and regulations. It also provides protection for matters related to trade secrets and exemptions from public disclosure.

§ 4310. Repair and replacement of defects

(a) In this section, “associated equipment” includes only items or classes of associated equipment that the Secretary shall prescribe by regulation after deciding that the application of the requirements of this section to those items or classes of associated equipment is reasonable and in furtherance of this chapter.

(b) If a recreational vessel or associated equipment has left the place of manufacture and the recreational vessel manufacturer discovers or acquires information that the manufacturer decides, in the exercise of reasonable and prudent judgment, indicates that a recreational vessel or associated equipment subject to an applicable

regulation prescribed under section 4302 of this title either fails to comply with the regulation, or contains a defect that creates a substantial risk of personal injury to the public, the manufacturer shall provide notification of the defect or failure of compliance as provided by subsections (c) and (d) of this section within a reasonable time after the manufacturer has discovered the defect.

(c)(1) The notification required by subsection (b) of this section shall be given to the following persons in the following manner:

(A) by first class mail or by certified mail to the first purchaser for other than resale, except that the requirement for notification of the first purchaser shall be satisfied if the recreational vessel manufacturer exercises reasonable diligence in establishing and maintaining a list of those purchasers and their current addresses, and sends the required notice to each person on that list at the address appearing on the list.

(B) by first class mail or by certified mail to subsequent purchasers if known to the manufacturer.

(C) by first class mail or by certified mail or other more expeditious means to the dealers and distributors of the recreational vessels or associated equipment.

(2) The notification required by subsection (b) of this section is required to be given only for a defect or failure of compliance discovered by the recreational vessel manufacturer within a reasonable time after the manufacturer has discovered the defect or failure, except that the manufacturer’s duty of notification under paragraph (1)(A) and (B) of this subsection applies only to a defect or failure of compliance discovered by the manufacturer within one of the following appropriate periods:

(A) if a recreational vessel or associated equipment required by regulation to have a date of certification affixed, 10 years from the date of certification.

(B) if a recreational vessel or associated equipment not required by regulation to have a date of certification affixed, 10 years from the date of manufacture.

(d) The notification required by subsection (b) of this section shall contain a clear description of the defect or failure to comply, an evaluation of the hazard reasonably related to the defect or failure, a statement of the measures to correct the defect or failure, and an undertaking by the recreational vessel manufacturer to take those measures only at the manufacturer’s cost and expense.

(e) Each recreational vessel manufacturer shall provide the Secretary with a copy of all notices, bulletins, and other communications to dealers and distributors of that manufacturer, and to purchasers of recreational vessels or associated equipment of that manufacturer, about a defect related to safety in the recreational vessels or associated equipment, and any failure to comply with the regulation or order applicable to the recreational vessels or associated equipment. The Secretary may publish or otherwise disclose to the public information in the notices or other information the Secretary has

that the Secretary considers will assist in carrying out this chapter. However, the Secretary may disclose any information that contains or relates to a trade secret only if the Secretary decides that the information is necessary to carry out this chapter.

(f) If, through testing, inspection, investigation, or examination of reports, the Secretary decides that a recreational vessel or associated equipment to which this chapter applies contains a defect related to safety or fails to comply with an applicable regulation prescribed under this chapter and notification under this chapter is appropriate, the Secretary shall notify the recreational vessel manufacturer of the defect or failure. The notice shall contain the findings of the Secretary and shall include a synopsis of the information on which they are based. The manufacturer may then provide the notification required by this chapter to the persons designated in this chapter or dispute the Secretary's decision. If disputed, the Secretary shall provide the manufacturer with an opportunity to present views and establish that there is no such defect or failure. When the Secretary considers it to be in the public interest, the Secretary may publish notice of the proceeding in the Federal Register and provide interested persons, including the National Boating Safety Advisory Council, with an opportunity to comment. If, after presentation by the manufacturer, the Secretary decides that the recreational vessel or associated equipment contains a defect related to safety or fails to comply with an applicable regulation, the Secretary may direct the manufacturer to provide the notifications specified in this chapter.

(g) The Secretary may prescribe regulations to carry out this section, including the establishment of procedures that require dealers and distributors to assist manufacturers in obtaining information required by this section. A regulation prescribed under this subsection does not relieve a manufacturer of any obligation imposed by this section.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 532; Pub. L. 107-295, title IV, §433, Nov. 25, 2002, 116 Stat. 2129.)

Section 4310 imposes certain requirements on a recreational vessel and associated equipment manufacturer to provide notification of a defect or the failure of compliance after a manufacturer discovers the defect or failure. This section spells out the procedure for notification and who shall be notified. It assures the public of notification while protecting the manufacturer from the potential of damaging and inaccurate disclosures.

AMENDMENTS

2002—Subsec. (c)(1)(A) to (C). Pub. L. 107-295, §433(2), inserted “by first class mail or” before “by certified mail”.

Subsec. (c)(2)(A), (B). Pub. L. 107-295, §433(1), substituted “10” for “5”.

§ 4311. Penalties and injunctions

(a) A person willfully operating a recreational vessel in violation of this chapter or a regula-

tion prescribed under this chapter shall be fined not more than \$5,000, imprisoned for not more than one year, or both.

(b)(1) A person violating section 4307(a) of this title is liable to the United States Government for a civil penalty of not more than \$5,000, except that the maximum civil penalty may be not more than \$250,000 for a related series of violations.

(2) If the Secretary decides under section 4310(f) that a recreational vessel or associated equipment contains a defect related to safety or fails to comply with an applicable regulation and directs the manufacturer to provide the notifications specified in this chapter, any person, including a director, officer or executive employee of a corporation, who knowingly and willfully fails to comply with that order, may be fined not more than \$10,000, imprisoned for not more than one year, or both.

(3) When a corporation violates section 4307(a), or fails to comply with the Secretary's decision under section 4310(f), any director, officer, or executive employee of the corporation who knowingly and willfully ordered, or knowingly and willfully authorized, a violation is individually liable to the Government for a penalty under paragraphs (1) or (2) in addition to the corporation. However, the director, officer, or executive employee is not liable individually under this subsection if the director, officer, or executive employee can demonstrate by a preponderance of the evidence that—

(A) the order or authorization was issued on the basis of a decision, in exercising reasonable and prudent judgment, that the defect or the nonconformity with standards and regulations constituting the violation would not cause or constitute a substantial risk of personal injury to the public; and

(B) at the time of the order or authorization, the director, officer, or executive employee advised the Secretary in writing of acting under this subparagraph and subparagraph (A).

(c) A person violating any other provision of this chapter or other regulation prescribed under this chapter is liable to the Government for a civil penalty of not more than \$1,000. If the violation involves the operation of a vessel, the vessel also is liable in rem for the penalty.

(d) When a civil penalty of not more than \$200 has been assessed under this chapter, the Secretary may refer the matter of collection of the penalty directly to the United States magistrate judge of the jurisdiction in which the person liable may be found for collection procedures under supervision of the district court and under an order issued by the court delegating this authority under section 636(b) of title 28.

(e) The district courts of the United States have jurisdiction to restrain a violation of this chapter, or to restrain the sale, offer for sale, introduction or delivery for introduction into interstate commerce, or importation into the United States, of a recreational vessel or associated equipment that the court decides does not conform to safety standards of the Government. A civil action under this subsection shall be brought by filing a petition by the Attorney General for the Government. When practicable, the Secretary shall give notice to a person

against whom an action for injunctive relief is contemplated and provide the person with an opportunity to present views and, except for a knowing and willful violation, shall provide the person with a reasonable opportunity to achieve compliance. The failure to give notice and provide the opportunity does not preclude the granting of appropriate relief by the district court.

(f) A person is not subject to a penalty under this chapter if the person—

(1) establishes that the person did not have reason to know, in exercising reasonable care, that a recreational vessel or associated equipment does not conform with the applicable safety standards of the Government or that the person was not advised by the Secretary or the manufacturer of that vessel, equipment or component that the vessel, equipment or component contains a defect which creates a substantial risk of personal injury to the public; or

(2) holds a certificate issued by the manufacturer of that recreational vessel or associated equipment to the effect that the recreational vessel or associated equipment conforms to all applicable recreational vessel safety standards of the Government, unless the person knows or reasonably should have known that the recreational vessel or associated equipment does not so conform.

(g) Compliance with this chapter or standards, regulations, or orders prescribed under this chapter does not relieve a person from liability at common law or under State law.

Section 4311 provides penalties for violating any of the provisions of this chapter or a regulation prescribed under this chapter. For a willful violation the penalty is a criminal fine; all other penalties are civil in nature.

A person violating any of the prohibited acts specified in section 4307(a)(1) is subject to a maximum civil penalty that can go as high as a \$100,000 for a related series of violations. However, the section provides for no liability for good faith reliance on certifications of compliance by others within the chain of responsibility and for defects that are not within an individual's responsibility or control.

This section also contains an alternate procedure for the collection of a civil penalty of not more than \$200 through a U.S. magistrate in lieu of the civil penalty procedures of the Coast Guard. It also directs the district courts of the United States to restrain the sale, offer for sale, introduction or delivery for introduction into interstate commerce, or importation of a recreational vessel or associated equipment that does not conform to applicable safety standards. Finally, com-

pliance with this chapter or standards, regulations, or orders does not relieve a person from liability at common law or under State law.

AMENDMENTS

2006—Subsec. (b)(1). Pub. L. 109-241 inserted a space after “4307(a)”.

2004—Subsec. (b). Pub. L. 108-293 amended subsec. (b) generally. Prior to amendment, subsec. (b) read as follows: “A person violating section 4307(a)(1) of this title is liable to the United States Government for a civil penalty of not more than \$2,000, except that the maximum civil penalty may be not more than \$100,000 for a related series of violations. When a corporation violates section 4307(a)(1), any director, officer, or executive employee of the corporation who knowingly and willfully ordered, or knowingly and willfully authorized, a violation is individually liable to the Government for the penalty, in addition to the corporation. However, the director, officer, or executive employee is not liable individually under this subsection if the director, officer, or executive employee can demonstrate by a preponderance of the evidence that—

“(1) the order or authorization was issued on the basis of a decision, in exercising reasonable and prudent judgment, that the defect or the nonconformity with standards and regulations constituting the violation would not cause or constitute a substantial risk of personal injury to the public; and

“(2) at the time of the order or authorization, the director, officer, or executive employee advised the Secretary in writing of acting under this clause and clause (1) of this subsection.”

1984—Subsec. (b)(1). Pub. L. 98-557, §8(b), inserted “defect or the” before “nonconformity”.

Subsec. (f)(1). Pub. L. 98-557, §8(c), inserted provisions relating to advice by the Secretary or manufacturer of the vessel, equipment or component respecting defects creating substantial risk of personal injury to the public.

FOREIGN BUILT VESSELS, EQUIVALENT COMPLIANCE UNTIL JULY 28, 1990

Pub. L. 100-424, §7, Sept. 9, 1988, 102 Stat. 1592, provided that: “Until July 28, 1990, a foreign built fish processing vessel subject to chapter 45 of title 46, United States Code, is deemed to comply with the requirements of that chapter if—

- “(1) it has an unexpired certificate of inspection issued by a foreign country that is a party to an International Convention for Safety of Life at Sea to which the United States Government is a party; and
- “(2) it is in compliance with the safety requirements of that foreign country that apply to that vessel.”

§ 4502. Safety standards

HISTORICAL AND REVISION NOTES

Chapter 51 provides for the assignment of load lines and issuance of load line certificates to vessels, and requires that certain classes of vessels be marked with load lines.

AMENDMENTS

1990—Pub. L. 101-595, title VI, §603(5)(B), Nov. 16, 1990, 104 Stat. 2993, struck out item 5115 “Regulations”.

§ 5101. Definitions

In this chapter—

(1) “domestic voyage” means movement of a vessel between places in, or subject to the jurisdiction of, the United States, except movement between—

(A) a place in a territory or possession of the United States or the Trust Territory of the Pacific Islands; and

(B) a place outside that territory, possession, or Trust Territory.

(2) “economic benefit of the overloading” means the amount obtained by multiplying

the weight of the overload (in tons) by the lesser of—

- (A) the average freight rate value of a ton of the vessel's cargo for the voyage; or
- (B) \$50.

(3) "existing vessel" means—

(A) a vessel on a domestic voyage, the keel of which was laid, or that was at a similar stage of construction, before January 1, 1986; and

(B) a vessel on a foreign voyage, the keel of which was laid, or that was at a similar stage of construction, before July 21, 1968.

(4) "freeboard" means the distance from the mark of the load line assigned under this chapter to the freeboard deck.

(5) "freeboard deck" means the deck or other structure the Secretary prescribes by regulation.

(6) "minimum safe freeboard" means the freeboard that the Secretary decides cannot be reduced safely without limiting the operation of the vessel.

(7) "weight of the overload" means the amount obtained by multiplying the number of inches that the vessel is submerged below the applicable assigned freeboard by the tons-an-inch immersion factor for the vessel at the assigned minimum safe freeboard.

HISTORICAL AND REVISION NOTES

Revised section 5101

Source: Section (U.S. Code) 46 App. U.S.C. 86a.

Section 5101 contains definitions that are limited to Chapter 51—Load Lines. Existing Section 46 App. U.S.C. 86a (which defines only the terms "new ship" and "existing ship") will be replaced by section 5101. Definitions of technical terms ("freeboard", "freeboard deck", and "minimum safe freeboard") have been added for clarity. The definition of the term "new ship" has been deleted because the term is not used in Chapter 51. The definition of "domestic voyage" includes the phrase "places in or subject to the jurisdiction of the United States." "Places subject to the jurisdiction of the United States" include deep water ports, production platforms, mining sites outside of territorial waters of the United States but within the United States' Exclusive Economic Zone (EEZ) that was established by Presidential Proclamation 5030, dated March 10, 1983, or on the outer continental shelf. The phrases "economic benefit of overloading" and "weight of the overload" have been defined for purposes of establishing a standard method of determining the value of the cargo with which a vessel is overloaded. The value of the cargo will in turn affect the maximum penalty assessed for overloading the vessel. The definition of "freeboard deck" provides the Secretary with the authority to designate as the freeboard deck either the actual deck (on standard vessels) or another structure (on non-standard vessels). Non-standard vessels, for which this regulatory flexibility is necessary, include shelter deck vessels, semi-submersible multi-hull units, container ships, surface effect vessels, and commercial submarines.

TERMINATION OF TRUST TERRITORY OF THE PACIFIC ISLANDS

For termination of Trust Territory of the Pacific Islands, see note set out preceding section 1681 of Title 48, Territories and Insular Possessions.

§ 5102. Application

(a) Except as provided in subsection (b) of this section, this chapter applies to the following:

- (1) a vessel of the United States.
- (2) a vessel on the navigable waters of the United States.

(3) a vessel—

- (A) owned by a citizen of the United States or a corporation established by or under the laws of the United States or a State; and
- (B) not registered in a foreign country.

(4) a public vessel of the United States.

(5) a vessel otherwise subject to the jurisdiction of the United States.

(b) This chapter does not apply to the following:

- (1) a vessel of war.

(A)(i) was constructed as a fish processing vessel before August 16, 1974; or

(ii) was converted for use as a fish processing vessel before January 1, 1983; and

(B) is not on a foreign voyage.

(5) a fish tender vessel of not more than 500 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title that—

(A)(i) was constructed, under construction, or under contract to be constructed as a fish tender vessel before January 1, 1980; or

(ii) was converted for use as a fish tender vessel before January 1, 1983; and

(7) a vessel of less than 24 meters (79 feet) overall in length.

(8) a public vessel of the United States on a domestic voyage.

(9) a vessel excluded from the application of this chapter by an international agreement to which the United States Government is a party.

(10) an existing vessel of not more than 150 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title that is on a domestic voyage.

(11) a small passenger vessel on a domestic voyage.

(12) a vessel of the working fleet of the Panama Canal Commission not on a foreign voyage.

(c) On application by the owner and after a survey under section 5105 of this title, the Secretary may assign load lines for a vessel excluded from the application of this chapter

under subsection (b) of this section. A vessel assigned load lines under this subsection is subject to this chapter until the surrender of its load line certificate and the removal of its load line marks.

(d) This chapter does not affect an international agreement to which the Government is a party that is not in conflict with the International Convention on Load Lines currently in force for the United States.

HISTORICAL AND REVISION NOTES

Revised section 5102

Source: Section (U.S. Code) 46 App. U.S.C. 86b, 86c, 88.

The delineation of the vessels that will be subject to load line requirements is made in section 5102 as follows: subsection (a) is an all-inclusive list of vessels subject to load line requirements, followed by subsection (b) which specifically exempts those vessels to which the requirements do not apply.

Section 5102(a) lists five categories of vessels which are subject to load line requirements. They are as follows:

Clause (1) regarding "a vessel of the United States" includes all vessels documented under Chapter 121 of title 46 or numbered under Chapter 123 of title 46.

Clause (2) regarding "a vessel on the navigable waters of the United States" includes all domestic or foreign vessels found in or on the navigable waters of the United States.

Clause (3) regarding "a vessel owned by a citizen of the United States or a corporation established by or under the laws of the United States or a State, and not registered in a foreign country" includes all vessels owned by citizens of the United States (as defined in 5107(7)) [sic] and not registered under the laws of a foreign country, wherever the vessels may be located.

Clause (4) regarding "a public vessel of the United States" includes all United States public vessels.

Clause (5) regarding "a vessel otherwise subject to the jurisdiction of the United States" includes foreign vessels that are subject to United States jurisdiction as a result of bilateral agreements, licenses, customary international law or other means, including those using deepwater port or outer continental shelf or EEZ facilities located in areas subject to the jurisdiction of the United States.

Section 5102(b) lists the specific exemptions from load line requirements. The specific exemptions may be grouped as follows:

(a) Vessel type (ships of war, pleasure vessels, fishing vessels, small passenger vessels on domestic voyages);

(b) Area of operation (rivers, harbors, bays, sounds, etc.);

(c) Minimum size (length); and

(d) Treaty exclusions.

Clause (1) exempts vessels of war from load line requirements.

Clause (2) exempts recreational vessels operated only for pleasure from load line requirements.

Clause (3) exempts fishing vessels from load line requirements.

Clauses (4) and (5) exempt certain existing fish processing and fish tender vessels not on a foreign voyage from load line requirements. The exception is limited to those vessels not on international voyages to ensure compliance with United States obligations under the International Load Line Convention.

Clause (6) exempts from load line requirements all U.S. vessels operating on domestic voyages within the Boundary Line, as defined in section 2101 of this title, except vessels operating on the Great Lakes.

Clause (7) exempts all vessels that are less than 24 meters (79 feet) in length from load line requirements whether on international or domestic voyages.

Clause (8) exempts from load line requirements those public vessels that are on domestic voyages.

Clause (9) exempts from load line requirements those vessels which have been excluded from the requirements "by specific action of a treaty of the United States." The only current treaty which excludes vessels from load line requirements is the Convention Between the United States of America and the Dominion of Canada Concerning Load Lines (49 Stat. 2685), which entered into force on August 11, 1934.

Clause (10) exempts from load line requirements existing U.S. vessels that are under 150 gross tons while engaged on a domestic voyage. This is a grandfather provision, continuing the existing exemption for these vessels. Vessels built after January 1, 1986 must be marked with a load line, however, if they are over 79 feet long and do not qualify for any other exemption.

Clause (11) exempts small passenger vessels engaged on domestic voyages from load line requirements. Small passenger vessels are inspected under Subchapter T of Title 46 of the Code of Federal Regulations. Under Subchapter T, the Coast Guard regulates these vessels with regard to safety; the requirements are based on the number of passengers, length, and gross tonnage of the vessel. Safety-related requirements in Subchapter T regulations include hull structure and watertightness, stability, weathertight integrity, and safe movement of persons on deck, the principal safety features covered by load line regulations. This specific exemption from load line requirements for small passenger vessels is consistent with existing law and does not alter in any way the Coast Guard's authority to regulate small passenger vessels under Subchapter T.

Clause (12) exempts vessels of the working voyages from the requirement to have load lines.

Section 5102(c) authorizes the Secretary to assign load lines for any vessel exempted from load line requirements by subsection (b) upon the request of the owner. It also provides that any exempted vessel for which load lines are assigned will remain subject to the load line requirements until its load line certificate is surrendered and the load line marks are removed.

Section 5102(d) provides that this chapter shall not be construed as abrogating the provisions of other treaties and conventions to which the United States is a party, which are not in conflict with the International Convention on Load Lines.

EFFECTIVE DATE OF 1990 AMENDMENT

Amendment by Pub. L. 101-595 effective Nov. 16, 1990, with provision that before Jan. 1, 2003, a fish tender

vessel is exempt from this chapter when engaged in Aleutian trade if the vessel either operated in that trade before Sept. 8, 1990, or was purchased before that date to be used in such trade and entered into service in that trade before June 1, 1992, did not undergo a major conversion, and did not have a load line assigned at any time before Nov. 16, 1990, see section 602(f) of Pub. L. 101-595, set out as a note under section 4502 of this title.

FISH TENDER VESSELS IN ALEUTIAN TRADE

Pub. L. 107-295, title IV, § 436(b), (c), Nov. 25, 2002, 116 Stat. 2129, provided that:

“(b) IMPLEMENTATION.—Except as provided in subsection (c), a fish tender vessel that before January 1, 2003, transported cargo (not including fishery related products) in the Aleutian trade is subject to chapter 51 of title 46, United States Code (as amended by subsection (a) of this section [amending this section]).

“(c) EXCEPTION.—

“(1) IN GENERAL.—Before December 31, 2006, the BOWFIN (United States official number 604231) is exempt from chapter 51 of title 46, United States Code (as amended by subsection (a) of this section) when engaged in the Aleutian trade, if the vessel does not undergo a major conversion.

“(2) ENSURING SAFETY.—Before the date referred to in paragraph (1), a Coast Guard official who has reason to believe that the vessel referred to in paragraph (1) operating under this subsection is in a condition or is operated in a manner that creates an immediate threat to life or the environment or is operated in a manner that is inconsistent with section 3302 of title 46, United States Code, may direct the master or individual in charge to take immediate and reasonable steps to safeguard life and the environment, including directing the vessel to a port or other refuge.”

[For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relating thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.]

§ 5103. Load line requirements

(a) A vessel may be operated only if the vessel has been assigned load lines.

(b) The owner, charterer, managing operator, agent, master, and individual in charge of a vessel shall mark and maintain the load lines permanently and conspicuously in the way prescribed by the Secretary.

(Pub. L. 99-509, title V, § 5101(2), Oct. 21, 1986, 100 Stat. 1915.)

HISTORICAL AND REVISION NOTES

Revised section 5103

Source: Section (U.S. Code) 46 App. U.S.C. 86c, 88b.

Section 5103(a) prohibits a vessel that is subject to load line requirements from operating, unless it has load lines assigned by the Secretary.

Section 5103(b) requires that load lines be permanently and conspicuously maintained in the manner prescribed by the Secretary.

§ 5104. Assignment of load lines

(a) The Secretary shall assign load lines for a vessel so that they indicate the minimum safe freeboard to which the vessel may be loaded. However, if the owner requests, the Secretary may assign load lines that result in greater freeboard than the minimum safe freeboard.

(b) In assigning load lines for a vessel, the Secretary shall consider—

(1) the service, type, and character of the vessel;

(2) the geographic area in which the vessel will operate; and

(3) applicable international agreements to which the United States Government is a party.

(c) An existing vessel may retain its load lines assigned before January 1, 1986, unless the Secretary decides that a substantial change in the vessel after those load lines were assigned requires that new load lines be assigned under this chapter.

(d) The minimum freeboard of an existing vessel may be reduced only if the vessel complies with every applicable provision of this chapter.

(e) The Secretary may designate by regulation specific geographic areas that have less severe weather or sea conditions and from which there is adequate time to return to available safe harbors. The Secretary may reduce the minimum freeboard of a vessel operating in these areas.

(Pub. L. 99-509, title V, § 5101(2), Oct. 21, 1986, 100 Stat. 1915.)

HISTORICAL AND REVISION NOTES

Revised section 5104

Source: Section (U.S. Code) 46 App. U.S.C. 86c, 88a.

Section 5104(a) requires the Secretary to assign load lines indicating the minimum safe freeboard to which a vessel may be loaded. It also authorizes the Secretary to assign a load line that results in a freeboard that is greater than the minimum freeboard, if the owner requests.

Section 5104(b) sets forth guidelines that the Secretary must consider when assigning load lines on vessels.

Section 5104(c) allows an existing vessel to retain its load line assigned before January 1, 1986, unless the Secretary decides that a change made in the vessel requires the assignment of a new load line.

Section 5104(d) is a new provision that requires that a vessel comply with all the provisions of this chapter before the Secretary will consider a reduction in its minimum freeboard. This provision is similar to Article 4(4) of the International Convention on Load Lines.

Section 5104(e) is a new provision that authorized the Secretary to designate specific geographic areas having relatively non-severe weather or sea conditions and from which there is adequate time to return to safe harbors. Section 5104(e) also authorizes the Secretary to reduce the minimum freeboard of vessels operating in these areas. Regulations that have been issued under this authority (46 C.F.R. 44) authorize special service load lines for vessels operating not more than 20 nautical miles offshore or between islands in a group.

§ 5105. Load line surveys

(a) The Secretary may provide for annual, renewal, and other load line surveys.

(b) In conducting a load line survey, the Secretary shall consider whether—

(1) the hull and fittings of the vessel—

(A) are adequate to protect the vessel from the sea; and

(B) meet other requirements the Secretary may prescribe by regulation;

(2) the strength of the hull is adequate for all loading conditions;

(3) the stability of the vessel is adequate for all loading conditions;

(4) the topsides of the vessel are arranged and constructed to allow rapid overboard drainage of deck water in heavy weather; and

(5) the topsides of the vessel are adequate in design, arrangement, and equipment to protect crewmembers performing outside tasks necessary for safe operation of the vessel.

(Pub. L. 99-509, title V, § 5101(2), Oct. 21, 1986, 100 Stat. 1916.)

HISTORICAL AND REVISION NOTES

Revised section 5105

Section 5105 authorizes the Secretary of Transportation to provide for load line surveys and requires that while conducting a load line survey, the Secretary must consider various strength, stability, design, and construction features of the vessel.

§ 5106. Load line certificate

(a) On finding that a load line survey of a vessel under this chapter is satisfactory and that the vessel's load lines are marked correctly, the Secretary shall issue the vessel a load line certificate and deliver it to the owner, master, or individual in charge of the vessel.

(b) The certificate shall be maintained as required by the Secretary.

(Pub. L. 99-509, title V, § 5101(2), Oct. 21, 1986, 100 Stat. 1916.)

HISTORICAL AND REVISION NOTES

Revised section 5106

Source: Section (U.S. Code) 46 App. U.S.C. 86c.

Section 5106(a) requires the Secretary to issue a load line certificate upon finding that a vessel has received a satisfactory load line survey and that the vessel's load line is marked correctly.

Section 5106(b) requires that the load line certificate be maintained as required by the Secretary of Transportation. It is expected that the Secretary will require in most cases that the certificate be carried on board the vessel. However, certain types of vessels such as barges do not have facilities for the carriage of certificates. In this case, this provision would give the Secretary the discretion to require that the certificates for the barges be carried on the towing vessels.

§ 5107. Delegation of authority

(a) The Secretary shall delegate to the American Bureau of Shipping or other similarly qualified organizations the authority to assign load lines, survey vessels, determine that load lines are marked correctly, and issue load line certificates under this chapter.

(b) Under regulations prescribed by the Secretary, a decision of an organization delegated authority under subsection (a) of this section related to the assignment of a load line may be appealed to the Secretary.

(c) For a vessel intended to be engaged on a foreign voyage, the Secretary may delegate to another country that is a party to the International Convention on Load Lines, 1966, the authority to assign load lines, survey vessels, determine that the load lines are marked correctly, and issue an International Load Line Certificate (1966).

(d) The Secretary may terminate a delegation made under this section after giving written notice to the organization.

(Pub. L. 99-509, title V, § 5101(2), Oct. 21, 1986, 100 Stat. 1916.)

HISTORICAL AND REVISION NOTES

Revised section 5107

Source: Section (U.S. Code) 46 App. U.S.C. 86d, 88b.

Section 5107(a) requires the Secretary to delegate the performance of various load line functions to the American Bureau of Shipping or other similarly qualified organizations. In providing for the delegation to a "similarly qualified organization," the Committee expects that the Secretary will ensure that that organization complies with the same stringent standards and requirements for conducting business that apply to the American Bureau of Shipping.

Section 5107(b) permits an appeal to the Secretary of a decision by an organization that has received delegated authority. This ensures that the Secretary has full oversight of the delegated load line functions.

Section 5107(c) permits the Secretary to delegate various load line functions to another country for vessels that are engaged on a foreign voyage, provided that the country is a party to the International Convention on Load Lines, 1966.

Section 5107(d) clarifies the Secretary's authority to revoke a delegation at any time without cause. This authority is given so that no delay occurs administratively in revoking a delegation whenever the Secretary decides a revocation is warranted.

§ 5108. Special exemptions

(a) The Secretary may exempt a vessel from any part of this chapter when—

(1) the vessel is entitled to an exemption under an international agreement to which the United States Government is a party; or

(2) under regulations (including regulations on special operations conditions) prescribed by the Secretary, the Secretary finds that good cause exists for granting an exemption.

(b) When the Secretary grants an exemption under this section, the Secretary may issue a certificate of exemption stating the extent of the exemption.

(c) A certificate of exemption issued under subsection (b) of this section shall be maintained as required by the Secretary.

(Pub. L. 99-509, title V, § 5101(2), Oct. 21, 1986, 100 Stat. 1916.)

HISTORICAL AND REVISION NOTES

Revised section 5108

Source: Section (U.S. Code) 46 App. U.S.C. 86e, 88a.

Section 5108(a) authorizes the Secretary to exempt a vessel from load line requirements if the vessel is entitled to an exemption under an international agreement to which the United States is a party. It also provides the Secretary with the new authority to exempt a vessel from load line requirements if the Secretary finds that there is good reason for granting the exemption. A specific exemption from load line requirements was authorized in Public Law 98-557 for barges operating close to shore between Calumet Harbor, Illinois and Burns Harbor, Indiana, because the geographic area and type of operation in this case did not warrant a requirement for load lines. Additional exemptions currently must be made by an Act of Congress. Section 5108(a) authorizes the Secretary to make such exemptions through regulation, and the Committee expects the Secretary to continue the exemption under this provision for vessels operating close to shore between Calumet Harbor, Illinois and Burns Harbor, Indiana.

Section 5108(b) authorizes the Secretary to issue a certificate of exemption when an exemption is granted.

Section 5108(c) requires that the certificate of exemption be maintained as required by the Secretary in a similar manner as under section 5106(b).

§ 5109. Reciprocity for foreign vessels

(a) When the Secretary finds that the laws and regulations of a foreign country related to load

lines are similar to those of this chapter and the regulations prescribed under this chapter, or when a foreign country is a party to an international load line agreement to which the United States Government is a party, the Secretary shall accept the load line marks and certificate of a vessel of that foreign country as complying with this chapter and the regulations prescribed under this chapter. The Secretary may control the vessel as provided for in the applicable international agreement.

(b) Subsection (a) of this section does not apply to a vessel of a foreign country that does not recognize load lines assigned under this chapter.

(Pub. L. 99-509, title V, §5101(2), Oct. 21, 1986, 100 Stat. 1917.)

HISTORICAL AND REVISION NOTES

Revised section 5109

Source: Section (U.S. Code) 46 App. U.S.C. 86f, 88d. Section 5109(a) requires the Secretary to accept the load line mark and load line certificate of a vessel of a foreign country if the Secretary finds that the load line laws and regulations of that country are similar to those of this chapter, or if that country is a party to an international load line agreement to which the United States is a party.

§ 5110. Submersible vessels

Notwithstanding sections 5103-5105 of this title, the Secretary may prescribe regulations for submersible vessels to provide a minimum level of safety. In developing the regulations, the Secretary shall consider factors relevant to submersible vessels, including the structure, stability, and watertight integrity of those vessels.

(Pub. L. 99-509, title V, §5101(2), Oct. 21, 1986, 100 Stat. 1917.)

HISTORICAL AND REVISION NOTES

Revised section 5110

Section 5110 authorizes the Secretary to prescribe regulations for the marking of load lines of submersible vessels. This general authority has been included in anticipation of the commercial development of submersibles.

§ 5111. Providing loading information

The Secretary may prescribe regulations requiring the owner, charterer, managing operator, and agent of a vessel to provide loading information (including information on loading distribution, stability, and margin of strength) to the master or individual in charge of the vessel in a language the master or individual understands.

(Pub. L. 99-509, title V, §5101(2), Oct. 21, 1986, 100 Stat. 1917.)

HISTORICAL AND REVISION NOTES

Section 5111 authorizes the Secretary to prescribe regulations requiring that the master of a vessel be provided with loading and stability information for the vessel that the master understands.

§ 5112. Loading restrictions

(a) A vessel may not be loaded in a way that submerges the assigned load line or the place at which the load line is required to be marked on the vessel.

(b) If the loading or stability conditions of a vessel change, the master or individual in charge of the vessel, before moving the vessel, shall record in the official logbook or other permanent record of the vessel—

- (1) the position of the assigned load line relative to the water surface; and
- (2) the draft of the vessel fore and aft.

(c) A vessel may be operated only if the loading distribution, stability, and margin of strength are adequate for the voyage or movement intended.

(d) Subsections (a) and (b) of this section do not apply to a submersible vessel.

(Pub. L. 99-509, title V, §5101(2), Oct. 21, 1986, 100 Stat. 1917.)

HISTORICAL AND REVISION NOTES

Revised section 5112

Source: Section (U.S. Code) 46 App. U.S.C. 86g, 88c, 88e.

Section 5112(a) prohibits a vessel from being loaded in a manner that submerges its load line.

Section 5112(b) requires that whenever the loading or stability conditions of a vessel change, the master or individual in charge of the vessel must record in the official logbook the position of the load line and the draft of the vessel.

Section 5112(c) is a new provision that provides that a vessel may be operated only if the loading distribution, stability, and margin of strength are adequate for the intended voyage or movement.

Section 5112(d) provides that subsections (a) and (b) do not apply to a submersible vessel.

§ 5113. Detention of vessels

(a) When the Secretary believes that a vessel is about to leave a place in the United States in violation of this chapter or a regulation prescribed under this chapter, the Secretary may detain the vessel by giving notice to the owner, charterer, managing operator, agent, master, or individual in charge of the vessel.

6101(b)	33:362

Section 6101(a) requires the Secretary to prescribe regulations on the types and manner of reporting of marine casualties to be reported under subsection (b) and incidents to be reported under subsection (c). The casualties to be reported must include casualties involving death to an individual, serious injury to an individual, material loss of property, and any damage affecting the seaworthiness or efficiency of the vessel, in addition to the other casualties (if any) the Secretary feels should be reported.

Subsection (b) requires the owner, charterer, agent, master, operator, or individual in charge of a vessel to report within 5 days, any casualty required in subsection (a) or by regulation.

Subsection (c) requires the owner, charterer, managing operator, or agent of a U.S. vessel to immediately determine the status of their vessel if they have not heard from the vessel, if it has not passed a scheduled point, or for any other reason which may indicate the vessel may have been lost or imperiled. If the owner, charterer, managing operator, or agent cannot reach the vessel and determine that it is operating safely, then they shall immediately notify the Coast Guard and provide the Coast Guard with the name and number of the vessel, the names of individuals on board, and any other information that the Coast Guard may request. If communication with the vessel indicates the vessel was involved in a casualty, then the owner, charterer, or agent of the vessel must immediately notify the Coast Guard under subsection (b). Notification to the Coast Guard does not impose or create any additional responsibility for the Coast Guard to take search and rescue action beyond those already existing under title 14, United States Code.

Subsection (d) makes it clear that the reporting requirements under subsection (b) are applicable to foreign vessels involved in a marine casualty when operating on the navigable waters of the United States, whether in innocent passage or not.

Subsection (e) provides for the classification of marine casualties by regulation according to the gravity of the casualty, injuries to individuals, property damage, dangers created, and size, occupation, and means of propulsion of each vessel.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
6303	46:239(d)

Section 6303 provides for the rights of parties in interest to an investigation by allowing them to be represented by counsel, to cross examine witnesses, and to call witnesses. This section merely states the rights of a party in interest but does not necessarily determine who is to be considered a party in interest. Clause (4) states that these rights are to be afforded to "any other person whose conduct is under investigation" (emphasis added). This implies that clauses (1) through (3) apply to individuals whose conduct is under investigation. If any individual does not qualify for these rights under clauses (1) through (4), that individual can still be entitled to these rights under clause (5), if designated as a party in interest. Since parties in interest are not clearly set out by statute, the Secretary has the authority to do this by regulation under section 6301. Thus the rights of these parties as presently provided for in existing law have been retained.

§ 6304. Subpena authority

(a) In an investigation under this chapter, the attendance and testimony of witnesses, including parties in interest, and the production of any evidence may be compelled by subpena. The subpena authority granted by this section is co-extensive with that of a district court of the United States, in civil matters, for the district in which the investigation is conducted.

(b) When a person fails to obey a subpena issued under this section, the district court of the United States for the district in which the investigation is conducted or in which the person failing to obey is found, shall on proper application issue an order directing that person to comply with the subpena. The court may punish as contempt any disobedience of its order.

(c) A witness complying with a subpena issued under this section may be paid for actual travel and attendance at the rate provided for witnesses in the district courts of the United States.

(d) An official designated to conduct an investigation under this part may issue subpoenas as provided in this section and administer oaths to witnesses.

The Secretary shall not withhold permission for such employee or member to testify, either orally or upon written questions, on solely factual matters at a time and place and in a manner acceptable to the Secretary if the information is not available elsewhere or is not obtainable by other means.

(c) Nothing in this section prohibits the United States from calling the employee or member as an expert witness to testify on its behalf. Further, nothing in this section prohibits the employee or member from being called as a fact witness in any case in which the United States is a party. Section 7304 specifies, that before a merchant mariner's document is noted to specify that the individual is a U.S. citizen, the individual must provide satisfactory proof that he is a citizen. § 7305. Oaths for holders of merchant mariners' documents

An applicant for a merchant mariner's document shall take, before issuance of the document, an oath that the applicant will perform faithfully and honestly all the duties required by law, and will carry out the lawful orders of superior officers.

The requirement for an oath, drawn from a clause which had appeared in 46 U.S.C. 672(g), and administered by the Coast Guard to all applicants, was repealed in a 1980 amendment by section 4 of Public Law 96-378 (94 Stat. 1516). Since no specific comment was made regarding the elimination in 1980 and the agency has continued to administer an oath to all applicants, this provision is being reinstated. The Committee believes the oath will contribute to the discipline and order necessary in the merchant marine.

HISTORICAL AND REVISION NOTES

Section 7704 requires the Secretary to revoke the license, certificate, or document of any individual who has been convicted of a dangerous drug law within 10 years before the beginning of the suspension or revocation procedures. This section has expanded current law to incorporate violations involving “controlled substances” which are not narcotic. This includes PCP and LSD. Unless it can be done under existing law, the suspension or revocation of an individual’s license based on the use of a “controlled substance” only applies to the use or conviction after the date of enactment of this Act.

This section also provides that anyone who has been a user of or addicted to a dangerous drug since July 14, 1954, may be subjected to revocation procedures unless the individual provides satisfactory proof of being cured.

In sections 7503(b)(2) and 7704(c), the term “use”, when applying to “narcotic drugs” or “controlled substances”, is not intended to include the use of “off the shelf” drugs or drugs acquired with a prescription lawfully issued by a medical doctor, as long as the drugs are used by the individual in the recommended amounts and the drugs will not impair the individual’s ability to perform duties.

AMENDMENTS

2004—Subsec. (b). Pub. L. 108-293 inserted “suspended or” after “shall be”.

1990—Subsec. (a). Pub. L. 101-380 struck out subsec. (a) which defined “dangerous drug” for purpose of this section as narcotic drug, controlled substance, and marihuana.

1985—Subsec. (b). Pub. L. 99-36, §1(a)(9)(F), substituted “merchant mariner’s document” for first reference to “document”.

Subsec. (c). Pub. L. 99-36, §1(a)(9)(G), substituted “certificate of registry, or merchant mariner’s document” for “certificate, or document”.

§ 8101. Complement of inspected vessels

(a) The certificate of inspection issued to a vessel under part B of this subtitle shall state the complement of licensed individuals and crew (including lifeboatmen) considered by the Secretary to be necessary for safe operation. A manning requirement imposed on—

(1) a sailing school vessel shall consider the participation of sailing school instructors and sailing school students in the operation of that vessel;

(2) a mobile offshore drilling unit shall consider the specialized nature of the unit; and

(3) a tank vessel shall consider the navigation, cargo handling, and maintenance func-

tions of that vessel for protection of life, property, and the environment.

(b) The Secretary may modify the complement, by endorsement on the certificate, for reasons of changed conditions or employment.

(c) A requirement made under this section by an authorized official may be appealed to the Secretary under prescribed regulations.

(d) A vessel to which this section applies may not be operated without having in its service the complement required in the certificate of inspection.

(e) When a vessel is deprived of the service of a member of its complement without the consent, fault, or collusion of the owner, charterer, managing operator, agent, master, or individual in charge of the vessel, the master shall engage, if obtainable, a number of members equal to the number of those of whose services the master has been deprived. The replacements must be of the same or a higher grade or rating than those whose places they fill. If the master finds the vessel is sufficiently manned for the voyage, and replacements are not available to fill all the vacancies, the vessel may proceed on its voyage. Within 12 hours after the vessel arrives at its destination, the master shall report in writing to the Secretary the cause of each deficiency in the complement. A master failing to make the report is liable to the United States Government for a civil penalty of \$1,000 for each deficiency.

A person (including an individual) violating this subsection is liable to the Government for a civil penalty of not more than \$10,000. Each day of a continuing violation is a separate offense.

(h) The owner, charterer, or managing operator of a freight vessel of less than 100 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title, a small passenger vessel, or a sailing school vessel not manned as required by this section is liable to the Government for a civil penalty of \$1,000. The vessel also is liable in rem for the penalty.

(i) When the 2 next most senior licensed officers on a vessel reasonably believe that the master or individual in charge of the vessel is under the influence of alcohol or a dangerous drug and is incapable of commanding the vessel, the next most senior master, mate, or operator licensed under section 7101(c)(1) or (3) of this title shall—

(1) temporarily relieve the master or individual in charge;

(2) temporarily take command of the vessel;

(3) in the case of a vessel required to have a log under chapter 113 of this title, immediately enter the details of the incident in the log; and

(4) report those details to the Secretary—

(A) by the most expeditious means available; and

¹ So in original. Probably should be followed by a period.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
8101	46:222 46:224 46:446d

Section 8101 provides for the required composition of the complement of licensed individuals and crew of an inspected vessel when being operated.

Subsection (a) requires that the certificate of inspection for a vessel state the manning necessary for safe navigation. Manning means the complement of licensed officers and crew (including lifeboatmen). Any manning requirements for sailing school vessels shall take into account the participation of sailing school instructors and sailing school students in the operation of those vessels.

Subsection (b) permits the Secretary to modify the manning requirements for reasons of changed conditions or employment.

Subsection (c) permits an appeal to the Secretary of any manning requirements made by an authorized official.

Subsection (d) prohibits the operation of a vessel without the manning required in the vessel's certificate of inspection.

When a vessel has a vacancy in the manning required by its certificate of inspection without the consent, fault, or collusion of anyone responsible for the management or operation of the vessel, subsection (e) requires that the master hire replacements, if possible, in the same or higher grade or rating. However, if the master finds the vessel sufficiently manned and replacements are not available, the vessel may proceed on its voyage. Within 12 hours of arrival at its destination, the master is required to file a written report with the Secretary stating the cause of each deficiency or be liable for a civil penalty. The report of deficiency should include both the reason for the vacancy in the first instance and the reason for the unavailability of a qualified replacement.

Subsections (f), (g) and (h) prescribe civil penalties for noncompliance with manning requirements. Subsection (g) also prohibits the employment or service of an individual in a licensed capacity who is not licensed by the Secretary.

Subsec. (e). Pub. L. 101-380, § 4302(e)(1), substituted "\$1,000" for "\$50".

Subsec. (f). Pub. L. 101-380, § 4302(e)(2), substituted "\$10,000" for "\$100, or, for a deficiency of a licensed individual, a penalty of \$500".

§ 8102. Watchmen

(a) The owner, charterer, or managing operator of a vessel carrying passengers during the nighttime shall keep a suitable number of watchmen in the vicinity of the cabins or state-rooms and on each deck to guard against and give alarm in case of a fire or other danger. An owner, charterer, or managing operator failing to provide watchmen required by this section is liable to the United States Government for a civil penalty of \$1,000.

Section 8103 sets forth the requirements for citizenship and Naval Reserve membership for the complement on a vessel documented under the laws of the United States.

Subsection (a) requires that the master, chief engineer, or officer in charge of a deck or engineering watch on a United States documented vessel be a United States citizen.

Subsection (b) requires that 75 percent of the seamen, excluding licensed individuals, on a United States documented vessel be United States citizens, except for a fishing or whaling vessel or yacht. The Secretary may reduce the percentage if the Secretary decides on investigation that United States seamen are not available. This investigation and percentage reduction authority is the sole responsibility of the Secretary of Transportation and accordingly the Secretary is to make these decisions expeditiously, promptly, and independently so as not to be dependent on any other agency to make this reduction. The Committee believes the Secretary is capable of this decision and need not delay or fail to make the decision because some other agency does not have the information or would require an extended period to acquire that information. The phrase “for any reason” is used merely to emphasize the complete discretion of the Secretary in making this decision. In addition, because this decision is based on an investigation, formal procedures of the Administrative Procedure Act do not apply.

Subsections (c) and (d) provide that a vessel, except a passenger vessel, on departure from the United States that has been granted a construction or operating differential subsidy have a higher percentage citizenship requirement. Subsection (c) requires all of the crew and employees of a cargo vessel be United States citizens. Subsection (d) requires at least 90 percent of the entire complement of a passenger vessel be United States citizens. The phrase “including all licensed individuals” emphasizes that all licensed individuals are required to be United States citizens as required by subsection (a) and that they compose part of the 90 percent requirement under this subsection. Further, under subsection (d), the balance of the complement must be individuals who have a declaration of intention to become a United States citizen or evidence of admission to the United States as a permanent resident and may only be employed in the steward’s department of the passenger vessel.

Except for the master, subsection (e) permits a non-United States citizen to fill a vacancy that occurs for any reason on a United States documented vessel during a foreign voyage until the vessel returns to a United States port where a United States citizen replacement can be obtained. The phrase “for any reason” is used merely for emphasis.

Subsection (f) provides for the penalty for violation of this section.

Subsection (g) requires a deck or engineer officer on a vessel that has been granted an operating differential subsidy or is under the control by the Department of Transportation to be, if eligible, a member of the Naval Reserve. This section does not apply to a vessel of the Coast Guard or the Saint Lawrence Seaway Development Corporation.

Subsection (h) permits the President to suspend the requirements of this section during a proclaimed national emergency or the requirement of subsection (a) for United States vessels documented for foreign trade when the needs of commerce require.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
8104	46:235 46:405(b) 46:673

Section 8104 prescribes certain working hours and conditions under which working hours are set. The Committee intends that these sections be interpreted in a manner consistent with one another.

Subsection (a) permits an individual to take charge of the deck watch on leaving port and immediately thereafter only if the individual has been off duty for 6 of the 12 hours immediately prior to departure.

Subsection (b) prohibits a licensed individual from being required to work more than 9 of 24 hours in port or more than 12 of 24 hours at sea on an oceangoing or coastwise vessel of not more than 100 gross tons, except in an emergency.

Subsection (c) prescribes a maximum 8-hour day for licensed individuals and seamen on towing vessels operating on the Great Lakes and certain connecting or tributary waters.

Subsection (d) requires certain members of the complement of certain merchant vessels of more than 100 gross tons to be divided into at least 3 successive watches when at sea. This requirement applies to radio officers only when at least 3 radio officers are employed. Subsection (d) also prescribes a maximum 8-hour work day for licensed individuals and seamen on these vessels.

For the Great Lakes towing vessels and merchant vessels in subsections (c) and (d), subsection (e) requires that seamen be hired only for work in either the deck or the engine department. When in a safe harbor, seamen may be required to do only necessary work on Sundays and certain holidays, unless the vessel is getting underway on a voyage. Further, when in a safe harbor, this subsection restates the maximum 8-hour work day which applies even for anchor watch.

Subsection (f) states that the limitations in subsections (d) and (e) do not apply if the master or other officer decides the crew is needed for certain routine, safety, or rescue activities.

Subsection (g) provides that for a towing vessel (except a Great Lakes towing vessel under subsection (c)), offshore supply vessel, or barge on a voyage of less than 600 miles, the licensed officers and certain crewmembers may be divided into not less than two watches when at sea.

Subsection (h) provides that the licensed operator for a towing vessel at least 26 feet long may not be required to work more than 12 of 24 hours, except in an emergency.

Subsections (i) and (j) prescribe penalties for violations of the provisions of this section and, in certain instances, entitles the seaman to discharge and payment of wages.

A prior section 8105, Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 550, authorized Secretary to prescribe regulations to carry out this part prior to repeal by Pub. L. 101-595, title VI, §603(7)(A), Nov. 16, 1990, 104 Stat. 2993.

§ 8106. Riding gangs

(a) IN GENERAL.—The owner or managing operator of a freight vessel of the United States on voyages covered by the International Convention for Safety of Life at Sea, 1974 (32 UST 47m) shall—

(1) ensure that—

(A) subject to subsection (d), each riding gang member on the vessel—

(i) is a United States citizen or an alien lawfully admitted to the United States for permanent residence; or

(ii) possesses a United States non-immigrant visa for individuals desiring to enter the United States temporarily for business, employment-related and personal identifying information, and any other documentation required by the Secretary;

(B) all required documentation for such member is kept on the vessel and available for inspection by the Secretary; and

(C) each riding gang member is identified on the vessel's crew list;

(2) ensure that—

(A) the owner or managing operator attests in a certificate that the background of each riding gang member has been examined and found to be free of any credible information indicating a material risk to the security of the vessel, the vessel's cargo, the ports the vessel visits, or other individuals onboard the vessel;

(B) the background check consisted of a search of all information reasonably available to the owner or managing operator in the riding gang member's country of citizenship and any other country in which the riding gang member works, receives employment referrals, or resides;

(C) the certificate required under subparagraph (A) is kept on the vessel and available for inspection by the Secretary; and

(D) the information derived from any such background check is made available to the Secretary upon request;

(3) ensure that each riding gang member, while on board the vessel, is subject to the

same random chemical testing and reporting regimes as crew members;

(4) ensure that each such riding gang member receives basic safety familiarization and basic safety training approved by the Coast Guard as satisfying the requirements for such training under the International Convention of Training, Certification, and Watchkeeping for Seafarers, 1978;

(5) prevent from boarding the vessel, or cause the removal from the vessel at the first available port, and disqualify from future service on board any other vessel owned or operated by that owner or operator, any riding gang member—

(A) who has been convicted in any jurisdiction of an offense described in paragraph (2) or (3) of section 7703;

(B) whose license, certificate of registry, or merchant mariner's document has been suspended or revoked under section 7704; or

(C) who otherwise constitutes a threat to the safety of the vessel;

(6) ensure and certify to the Secretary that the sum of—

(A) the number of riding gang members on board a freight vessel, and

(B) the number of individuals in addition to crew permitted under section 3304,

does not exceed 12;

(7) ensure that every riding gang member is employed on board the vessel under conditions that meet or exceed the minimum international standards of all applicable international labor conventions to which the United States is a party, including all of the merchant seamen protection and relief provided under United States law; and

(8) ensure that each riding gang member—

(A) is supervised by an individual who holds a license issued under chapter 71; and

(B) only performs work in conjunction with individuals who hold merchant mariners documents issued under chapter 73 and who are part of the vessel's crew.

(b) PERMITTED WORK.—Subject to subsection (f), a riding gang member on board a vessel to which subsection (a) applies who is neither a United States citizen nor an alien lawfully admitted to the United States for permanent residence may not perform any work on board the vessel other than—

(1) work in preparation of a vessel entering a shipyard located outside of the United States;

(2) completion of the residual repairs after departing a shipyard located outside of the United States; or

(3) technical in-voyage repairs, in excess of any repairs that can be performed by the vessel's crew, in order to advance the vessel's useful life without having to actually enter a shipyard.

(c) WORKDAY LIMIT.—

(1) IN GENERAL.—The maximum number of days in any calendar year that the owner or operator of a vessel to which subsection (a) applies may employ on board riding gang members who are neither United States citizens

nor aliens lawfully admitted to the United States for permanent residence for work on board that vessel is 60 days. If the vessel is at sea on the 60th day, each riding gang member shall be discharged from the vessel at the next port of call reached by the vessel after the date on which the 60-workday limit is reached.

(2) CALCULATION.—For the purpose of calculating the 60-workday limit under this subsection, each day worked by a riding gang member who is neither a United States citizen nor an alien lawfully admitted to the United States for permanent residence shall be counted against the limitation.

(d) EXCEPTIONS FOR WARRANTY WORK.—

(1) IN GENERAL.—Subsections (b), (c), (e), and (f) do not apply to a riding gang member employed exclusively to perform, and who performs only, work that is—

(A) customarily performed by original equipment manufacturers' technical representatives;

(B) required by a manufacturer's warranty on specific machinery and equipment; or

(C) required by a contractual guarantee or warranty on actual repairs performed in a shipyard located outside of the United States.

(2) CITIZENSHIP REQUIREMENT.—Subsection (a)(1)(A) applies only to a riding gang member described in paragraph (1) who is on the vessel when it calls at a United States port.

(e) RECORDKEEPING.—In addition to the requirements of subsection (a), the owner or managing operator of a vessel to which subsection (a) applies shall ensure that all information necessary to ensure compliance with this section, as determined by the Secretary, is entered into the vessel's official logbook required by chapter 113.

(f) FAILURE TO EMPLOY QUALIFIED AVAILABLE U.S. CITIZENS OR RESIDENTS.—

(1) IN GENERAL.—The owner or operator of a vessel to which subsection (a) applies may not employ a riding gang member who is neither a United States citizen nor an alien lawfully admitted to the United States for permanent residence to perform work described in subsection (b) unless the owner or operator determines, in accordance with procedures established by the Secretary to carry out section 8103(b)(3)(C), that there is not a sufficient number of United States citizens or individuals lawfully admitted to the United States for permanent residence who are qualified and available for the work for which the riding gang member is to be employed.

(2) CIVIL PENALTY.—A violation of paragraph (1) is punishable by a civil penalty of not more than \$10,000 for each day during which the violation continues.

(3) CONTINUING VIOLATIONS.—The maximum amount of a civil penalty for a violation under this subsection shall not exceed—

(C) \$100,000 if the violation occurs after fiscal year 2007.

(4) DETERMINATION OF AMOUNT.—In determining the amount of the penalty, the Secretary shall take into account the nature, circumstances, extent, and gravity of the violation committed and, with respect to the violator, the degree of culpability, the history of prior offenses, the ability to pay, and such other matters as justice may require.

(5) COMPROMISE, MODIFICATION, AND REMITTAL.—The Secretary may compromise, modify, or remit, with or without conditions, any civil penalty imposed under this section.

CHAPTER 83—MASTERS AND OFFICERS

- Sec. 8301. Minimum number of licensed individuals.
8302. Staff department.
8303. Service under licenses issued without examination.
8304. Implementing the Officers' Competency Certificates Convention, 1936.

HISTORICAL AND REVISION NOTES

For certain vessels of the United States, chapter 83 prescribes the minimum number of licensed individuals (including masters), establishes the staff department consisting of medical and clerical personnel, restricts service under certain licenses issued without examination, and implements the Officers' Competency Certificates Convention of 1936.

§ 8301. Minimum number of licensed individuals

(a) Except as provided in chapter 89 of this title and except for a vessel operating only on rivers, harbors, lakes (except the Great Lakes), bays, sounds, bayous, and canals, a vessel subject to inspection under chapter 33 of this title shall engage a minimum of licensed individuals as follows:

(1) Each of those vessels propelled by machinery or carrying passengers shall have a licensed master.

(2) A vessel of at least 1,000 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title and propelled by machinery shall have 3 licensed mates, except—

(A) in the case of a vessel other than a mobile offshore drilling unit, if on a voyage of less than 400 miles from port of departure to port of final destination, the vessel shall have 2 licensed mates; and

(B) in the case of a mobile offshore drilling unit, the vessel shall have licensed individuals as provided by regulations prescribed by the Secretary under section 8101 of this title.

(3) A vessel of at least 200 gross tons but less than 1,000 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as

prescribed by the Secretary under section 14104 of this title and propelled by machinery shall have 2 licensed mates.

(4) A vessel of at least 100 gross tons but less than 200 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title and propelled by machinery shall have one licensed mate. However, if the vessel is on a voyage of more than 24 hours, it shall have 2 licensed mates.

(5) A freight vessel or a passenger vessel of at least 300 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title and propelled by machinery shall have a licensed engineer.

(b) An offshore supply vessel on a voyage of less than 600 miles shall have a licensed mate. However, if the vessel is on a voyage of at least 600 miles, the vessel shall have 2 licensed mates. An offshore supply vessel of more than 200 gross tons as measured under section 14502 of this title, or an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title may not be operated without a licensed engineer.

(c) Subsection (a) of this section does not apply to a fishing or whaling vessel, a mobile offshore drilling unit when on location, or a yacht.

(d) The Secretary may—

(1) suspend any part of this chapter during a national emergency proclaimed by the President; and

(2) increase the number of licensed individuals on a vessel to which this chapter applies if, in the Secretary's judgment, the vessel is not sufficiently manned for safe operation.

(e) The Secretary may prescribe the minimum number of licensed individuals for an oil spill response vessel.

Section 8301 prescribes the minimum number of licensed individuals on board certain vessels based on the vessel's size or propulsion, length of voyage by distance or time, or any combination of these factors.

Subsection (b) applies to offshore supply vessels. Subsection (c) exempts fishing or whaling vessels or yachts from these requirements.

Subsection (d) permits the Secretary to suspend any part of this chapter during a declared national emergency or to increase the number of licensed individuals required by this chapter if required for safe operation of a vessel.

8302(e), (f)	46:246(a)

Section 8302 sets forth the organization and manning requirements of the staff department of a vessel. The staff department has medical and clerical responsibilities.

Subsection (a) applies this section to every United States vessel except a yacht, a fishing, whaling, or certain types of inland waterway vessel, and a ferry carrying passengers or cars on the Great Lakes. A ferry is a vessel that primarily carries passengers, cars, or trains from shore to shore as a means to connect existing points on a transportation route so that the same type of transportation mode may continue to be used upon arrival at either point. Vessels carrying cars as cargo would not be included in this type of vessel.

Subsection (b) establishes the staff department as a separate one consisting of registered individuals (pursers, medical doctors, and professional nurses), clerks, and medical assistants. Subsection (c) divides the department into a medical division and a purser’s division and designates the individual in charge of each division. Subsection (d) prescribes particular requirements of the purser’s division based on size of the vessel or number of individuals employed in the division.

Subsection (e) prohibits the employment or service of an individual who is not registered or of the grade as required under this section and prescribes a penalty for violation of the subsection. This penalty applies to both the employer and the individual employed. If a registered staff officer is unavailable at the time of departure for a voyage, the vessel may proceed on its voyage with either an unregistered staff officer or without a staff officer.

Subsection (f) prohibits including a staff officer on a vessel's certificate of inspection.

Subsections (g) and (h) prescribe the type and restrictions for the uniform accouterments of a staff officer.

§ 8303. Service under licenses issued without examination

An individual issued a license without examination before October 29, 1941, to serve as master, mate, or engineer on a vessel not subject to inspection under part B of this subtitle, may not serve under authority of that license on a vessel that is subject to inspection under part B.

(d) A person (including an individual) violating this section is liable to the United States Government for a civil penalty of \$100.

(e) A license issued to an individual to whom this section applies is a certificate of competency.

(f) A designated official may detain a vessel to which this section applies (by written order served on the owner, charterer, managing operator, agent, master, or individual in charge of the

CHAPTER 85—PILOTS

- Sec.
- 8501. State regulation of pilots.
- 8502. Federal pilots required.
- 8503. Federal pilots authorized.

HISTORICAL AND REVISION NOTES

Chapter 85 provides for State pilotage to be regulated by the States and only in conformity with the laws of the States. It clearly spells out the preeminence of the State's role in regulating pilots for vessels operating on the bays, rivers, harbors, and ports of the United States. However, those vessels that are required to have a Federally licensed pilot, those that operate on waters outside the territorial sea of the United States, and those that operate on waters of the Great Lakes are not subject to State pilotage laws or requirements. In essence this chapter, with minor changes, confirms the State and Federal relationship with respect to pilotage that has evolved since the founding of the Nation.

This chapter permits the continuation of Federal pilotage requirements for vessels that are not required to obtain compulsory State pilotage. It confirms the practice of allowing anyone with a Federal pilotage endorsement for the waters in which the vessel is operating to be in control of a vessel when engaged in the coastwise trade. It also confirms the practice of using Federal pilots that are often organized into groups or working organizations who offer their expertise and services to vessels that are not required to obtain compulsory State pilotage.

AMENDMENTS

1984—Pub. L. 98-557, §29(f)(3)(B), Oct. 30, 1984, 98 Stat. 2874, added item 8503.

§ 8501. State regulation of pilots

(a) Except as otherwise provided in this subtitle, pilots in the bays, rivers, harbors, and ports of the United States shall be regulated only in conformity with the laws of the States.

(b) The master of a vessel entering or leaving a port on waters that are a boundary between 2 States, and that is required to have a pilot under this section, may employ a pilot licensed or authorized by the laws of either of the 2 States.

(c) A State may not adopt a regulation or provision that discriminates in the rate of pilotage or half-pilotage between vessels sailing between the ports of one State and vessels sailing between the ports of different States, or against vessels because of their means of propulsion, or against public vessels of the United States.

(d) A State may not adopt a regulation or provision that requires a coastwise vessel to take a pilot licensed or authorized by the laws of a State if the vessel—

- (1) is propelled by machinery and subject to inspection under part B of this subtitle; or
- (2) is subject to inspection under chapter 37 of this title.

(e) Any regulation or provision violating this section is void.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 553; Pub. L. 98-557, § 29(e), Oct. 30, 1984, 98 Stat. 2874.)

8501(b)	46:212

Section 8501 establishes the general proposition that the States regulate pilots in the bays, rivers, harbors, and ports of the United States, unless otherwise specifically provided by law.

Subsection (a) states this general proposition and uses the word "only" for emphasis on this point. Further, except as specifically provided in law, the Committee intends that this chapter not be construed to annul or affect any regulation established by the laws of a State requiring a vessel entering or leaving a port in that State to employ a pilot licensed or authorized by the laws of that State. In at least two places in current law, this general proposition is stated in both a positive and negative manner. The Committee intends to consolidate those separate statements into one provision to avoid ambiguity and redundancy.

Subsections (b) and (c) contain provisions regarding pilotage in waters between two States.

Subsection (d) prohibits a State from requiring a State licensed pilot on certain coastwise vessels.

Subsection (e) voids any regulation or provision violating this section.

It requires that certain facts be included in the certificate or in the entry, prohibits other information from being included, and requires the Secretary to keep records of all discharges, copies of which must be furnished to seamen at cost upon request. These discharges are used to substantiate the nature and duration of the seaman's employment on a particular vessel. This section does not apply to fishing vessels, whaling vessels, or yachts.

AMENDMENTS

1993—Pub. L. 103-206 amended heading and text of section generally, substituting text consisting of sentence relating to signing agreements on discharge and settle-

ment for former subsecs. (a) to (f) relating to such agreements, proceedings before shipping commissioners to settle disputes, certified copies of agreements, evidence of release of claims, and statements of wages paid.

§ 10313. Wages

(a) A seaman's entitlement to wages and provisions begins when the seaman begins work or when specified in the agreement required by section 10302 of this title for the seaman to begin work or be present on board, whichever is earlier.

(b) Wages are not dependent on the earning of freight by the vessel. When the loss or wreck of the vessel ends the service of a seaman before the end of the period contemplated in the agreement, the seaman is entitled to wages for the period of time actually served. The seaman shall be deemed a destitute seaman under section 11104 of this title. This subsection applies to a fishing or whaling vessel but not a yacht.

(c) When a seaman who has signed an agreement is discharged improperly before the beginning of the voyage or before one month's wages are earned, without the seaman's consent and without the seaman's fault justifying discharge, the seaman is entitled to receive from the master or owner, in addition to wages earned, one month's wages as compensation.

(d) A seaman is not entitled to wages for a period during which the seaman—

(1) unlawfully failed to work when required, after the time fixed by the agreement for the seaman to begin work; or

(2) lawfully was imprisoned for an offense, unless a court hearing the case otherwise directs.

(e) After the beginning of the voyage, a seaman is entitled to receive from the master, on demand, one-half of the balance of wages earned and unpaid at each port at which the vessel loads or delivers cargo during the voyage. A demand may not be made before the expiration of 5 days from the beginning of the voyage, not more than once in 5 days, and not more than once in the same port on the same entry. If a master does not comply with this subsection, the seaman is released from the agreement and is entitled to payment of all wages earned. Notwithstanding a release signed by a seaman under section 10312 of this title, a court having jurisdiction may set aside, for good cause shown, the release and take action that justice requires. This subsection does not apply to a fishing or whaling vessel or a yacht.

(f) At the end of a voyage, the master shall pay each seaman the balance of wages due the seaman within 24 hours after the cargo has been discharged or within 4 days after the seaman is discharged, whichever is earlier. When a seaman is discharged and final payment of wages is delayed for the period permitted by this subsection, the seaman is entitled at the time of discharge to one-third of the wages due the seaman.

(g) When payment is not made as provided under subsection (f) of this section without sufficient cause, the master or owner shall pay to the seaman 2 days' wages for each day payment is delayed.

(h) Subsections (f) and (g) of this section do not apply to a fishing or whaling vessel or a yacht.

(i) This section applies to a seaman on a foreign vessel when in a harbor of the United States. The courts are available to the seaman for the enforcement of this section.

Section 10313 provides that a seaman's entitlement to wages begins when the seaman begins work, or as specified in the shipping agreement. This section also qualifies a seaman's entitlement to wages if the vessel is lost or wrecked, if the seaman is discharged improperly, or if the seaman unlawfully failed to work or was imprisoned. It also establishes procedures for the payment of wages at each port the vessel loads or unloads cargo, and at the end of the voyage. This section applies to seamen on foreign vessels in United States harbors, but not to fishing vessels, whaling vessels or yachts.

Subsec. (h). Pub. L. 99-640 struck out last sentence which read as follows: "However, subsections (f) and (g) apply to a vessel taking oysters."

§ 10314. Advances

(a)(1) A person may not—

(A) pay a seaman wages in advance of the time when the seaman has earned the wages;

(B) pay advance wages of the seaman to another person; or

(C) make to another person an order, note, or other evidence of indebtedness of the wages, or pay another person, for the engagement of seamen when payment is deducted or to be deducted from the seaman's wage.

(2) A person violating this subsection is liable to the United States Government for a civil penalty of not more than \$500. A payment made in violation of this subsection does not relieve the vessel or the master from the duty to pay all wages after they have been earned.

(b) A person demanding or receiving from a seaman or an individual seeking employment as a seaman, remuneration for providing the seaman or individual with employment, is liable to the Government for a civil penalty of not more than \$500.

(c) This section applies to a foreign vessel when in waters of the United States. An owner, charterer, managing operator, agent, or master of a foreign vessel violating this section is liable to the Government for the same penalty as an owner, charterer, managing operator, agent, or master of a vessel of the United States for the same violation.

(d) The owner, charterer, managing operator, agent, or master of a vessel seeking clearance

from a port of the United States shall present the agreement required by section 10302 of this title at the office of clearance. Clearance may be granted to a vessel only if this section has been complied with.

(e) This section does not apply to a fishing or whaling vessel or a yacht.

Section 10314 forbids advance payment of wages to seamen prior to the commencement of the seaman's employment. It provides a civil penalty of \$500 for any person making such a payment, and for any person demanding or receiving remuneration for providing a seaman with employment. This means that the use of employment agencies for hiring seamen is prohibited. It also requires compliance with section 10302 regarding the signing of articles of agreement before a vessel can be cleared from a United States port. This section applies to foreign vessels in United States waters but not to fishing vessels, whaling vessels or yachts.

AMENDMENTS

1986—Subsec. (e). Pub. L. 99-640 struck out last sentence which read as follows: "However, this section applies to a vessel taking oysters."

§ 10315. Allotments

(a) Under prescribed regulations, a seaman may stipulate as follows in the agreement required by section 10302 of this title for an allotment of any part of the wages the seaman may earn:

(1) to the seaman's grandparents, parents, spouse, sister, brother, or children;

(2) to an agency designated by the Secretary of the Treasury to handle applications for United States savings bonds, to purchase bonds for the seaman; and

(3) for deposits to be made in an account for savings or investment opened by the seaman and maintained in the seaman's name at a savings bank or a savings institution in which the accounts are insured by the Federal Deposit Insurance Corporation or the Federal Savings and Loan Insurance Corporation.

(b) An allotment is valid only if made in writing and signed by and approved by a shipping commissioner. The shipping commissioner shall examine allotments and the parties to them to enforce compliance with the law. Stipulations for allotments made at the beginning of a voyage shall be included in the agreement and shall state the amounts and times of payment and the person to whom payments are to be made.

(c) Only an allotment complying with this section is lawful. A person falsely claiming qualification as an allottee under this section is liable to the United States Government for a civil penalty of not more than \$500.

(d) The owner, charterer, managing operator, agent, or master of a vessel seeking clearance from a port of the United States shall present the agreement at the office of clearance. Clearance may be granted to a vessel only if this section has been complied with.

(e) This section applies to a foreign vessel when in waters of the United States. (2) the payments are held in trust to provide, from principal or interest, or both, any of the following benefits for those seamen and their families and dependents:

- (A) medical or hospital care, or both.
- (B) pensions on retirement or death of the seaman.
- (C) life insurance.

§ 10318. Wages on discharge in foreign ports

(a) When a master or seaman applies to a consular officer for the discharge of the seaman, the consular officer shall require the master to pay the seaman's wages if it appears that the seaman has carried out the agreement required by section 10302 of this title or otherwise is entitled to be discharged. Then the consular officer shall discharge the seaman. A consular officer shall require the payment of extra wages only as provided in this section or in chapter 109 of this title.

(b) When discharging a seaman, a consular officer who fails to require the payment of the wages due a seaman at the time, and of the extra wages due under subsection (a) of this section, is accountable to the United States Government for the total amount.

(c) A seaman discharged under this section with the consent of the seaman is entitled to wages up to the time of discharge, but not for any additional period.

(d) If the seaman is discharged involuntarily, and it appears that the discharge was not because of neglect of duty, incompetency, or injury incurred on the vessel, the master shall provide the seaman with employment on a vessel agreed to by the seaman or shall provide the seaman with one month's extra wages.

(e) Expenses for the maintenance and return of an ill or injured seaman to the United States shall be paid by the Secretary of State. If a seaman is incapacitated by illness or injury and prompt discharge is necessary, but a personal appearance of the master before a consular officer is impracticable, the master may provide transportation to the seaman to the nearest consular officer for discharge.

(f) A deduction from wages of the seaman is permitted only if the deduction appears in the account of the seaman required to be delivered under section 10310 of this title, except for matters arising after delivery of the account, in which case a supplementary account is required. During a voyage, the master shall record in the official logbook the matters about which deductions are to be made with the amounts of the deductions. The entries shall be made as the matters occur. The master shall produce the official logbook at the time of payment of wages, and

also before a competent authority on the hearing of any complaint or question about the payment of wages.

The surveyors have the authority to receive and consider evidence necessary to evaluate the complaint. When the complaint involves provisions of food or water, one of the surveyors shall be a medical officer of the Public Health Service, if available. The surveyors shall make a report in writing, signed by at least 2 of them, stating whether the vessel is fit to proceed to sea or, if not, in what respect it is unfit, making appropriate recommendations about additional seamen, provisions, or stores, or about physical repairs, alterations, or additions necessary to make the vessel fit.

(b) On receiving the report, the judge or justice of the peace shall endorse on the report the

§ 11104. Destitute seamen

(a) A consular officer shall provide, for a destitute seaman of the United States, subsistence and passage to a port of the United States in the most reasonable manner, at the expense of the United States Government and subject to regulations prescribed by the Secretary of State. § 11106. Wages on justifiable complaint of seamen

(a) Before a seaman on a vessel of the United States is discharged in a foreign country by a consular officer on the seaman's complaint that the agreement required by this part has been breached because the vessel is badly provisioned or unseaworthy, or against the officers for cruel treatment, the officer shall inquire about the complaint. If satisfied of the justice of the complaint, the consular officer shall require the master to pay the wages due the seaman plus one month's additional wages and shall discharge the seaman. The master shall provide the seaman with employment on another vessel or provide the seaman with passage on another vessel to the port of original engagement, to the most convenient port of the United States, or to some port agreeable to the seaman.

(b) When a vessel does not have sufficient provisions for the intended voyage, and the seaman has been forced to accept a reduced ration or provisions that are bad in quality or unfit for use, the seaman is entitled to recover from the master or owner an allowance, as additional wages, that the court hearing the case considers reasonable.

(c) Subsection (b) of this section does not apply when the reduction in rations was for a period during which the seaman willfully and without sufficient cause failed to perform duties or was lawfully under confinement on board or on shore for misconduct, unless that reduction can be shown to have been unreasonable.

(d) Subsection (b) of this section does not apply to a fishing or whaling vessel or a yacht.

SUBCHAPTER II—ENDORSEMENTS AND SPECIAL DOCUMENTATION

§ 12111. Registry endorsement

(a) **REQUIREMENTS.**—A registry endorsement may be issued for a vessel that satisfies the requirements of section 12103 of this title.

(b) **AUTHORIZED ACTIVITY.**—A vessel for which a registry endorsement is issued may engage in foreign trade or trade with Guam, American Samoa, Wake, Midway, or Kingman Reef.

(c) **CERTAIN VESSELS OWNED BY TRUSTS.**—

(1) **NONAPPLICATION OF BENEFICIARY CITIZENSHIP REQUIREMENT.**—For the issuance of a certificate of documentation with only a registry endorsement, the beneficiaries of a trust are not required to be citizens of the United States if the trust qualifies under paragraph (2) and the vessel is subject to a charter to a citizen of the United States.

(2) **REQUIREMENTS FOR TRUST TO QUALIFY.**—

(A) **IN GENERAL.**—Subject to subparagraph (B), a trust qualifies under this paragraph with respect to a vessel only if—

(i) each trustee is a citizen of the United States; and

(ii) the application for documentation of the vessel includes the affidavit of each trustee stating that the trustee is not aware of any reason involving a beneficiary of the trust that is not a citizen of the United States, or involving any other person that is not a citizen of the United States, as a result of which the beneficiary or other person would hold more than 25 percent of the aggregate power to influence or limit the exercise of the authority of the trustee with respect to matters involving any ownership or operation of the vessel that may adversely affect the interests of the United States.

(B) **AUTHORITY OF NON-CITIZENS.**—If any person that is not a citizen of the United States has authority to direct or participate in directing a trustee for a trust in matters involving any ownership or operation of the vessel that may adversely affect the interests of the United States or in removing a trustee for a trust without cause, either directly or indirectly through the control of another person, the trust is not qualified under this paragraph unless the trust instrument provides that persons who are not citizens of the United States may not hold more than 25 percent of the aggregate authority to so direct or remove a trustee.

(C) **OWNERSHIP BY NON-CITIZENS.**—Subparagraphs (A) and (B) do not prohibit a person

that is not a citizen of the United States from holding more than 25 percent of the beneficial interest in a trust.

(3) **CITIZENSHIP OF PERSON CHARTERING VESSEL.**—If a person chartering a vessel from a trust that qualifies under paragraph (2) is a citizen of the United States under section 50501 of this title, the vessel is deemed to be owned by a citizen of the United States for purposes of that section and related laws, except chapter 531 of this title.

(d) **ACTIVITIES INVOLVING MOBILE OFFSHORE DRILLING UNITS.**—

(1) **IN GENERAL.**—Only a vessel for which a certificate of documentation with a registry endorsement is issued may engage in—

(A) the setting, relocation, or recovery of the anchors or other mooring equipment of a mobile offshore drilling unit that is located over the outer Continental Shelf (as defined in section 2(a) of the Outer Continental Shelf Lands Act (43 U.S.C. 1331(a))); or

(B) the transportation of merchandise or personnel to or from a point in the United States from or to a mobile offshore drilling unit located over the outer Continental Shelf that is not attached to the seabed.

(2) **COASTWISE TRADE NOT AUTHORIZED.**—Nothing in paragraph (1) authorizes the employment in the coastwise trade of a vessel that does not meet the requirements of section 12112 of this title.

CERTAIN VESSELS ENGAGED IN ALASKA COASTWISE TRADE

Pub. L. 108-293, title VI, §608(b), Aug. 9, 2004, 118 Stat. 1056, provided that:

“(1) IN GENERAL.—Notwithstanding any other provision of law, a person shall be treated as a citizen of the United States under section 12102(a) [now section 12103(a), (b)] of title 46, United States Code, section 2 of the Shipping Act, 1916 ([former] 46 U.S.C. App. 802) [see 46 U.S.C. 50501], and section 27 of the Merchant Marine Act, 1920 ([former] 46 U.S.C. App. 883) [see Disposition Table preceding section 101 of this title], for purposes of issuance of a coastwise endorsement under section 12106(e) of title 46, United States Code (as that section was in effect on the day before the date of enactment of this Act [Aug. 9, 2004]), for a vessel owned by the person on the date of enactment of this Act, or any replacement vessel of a similar size and function, if the person—

“(A) owned a vessel before January 1, 2001, that had a coastwise endorsement under [former] section 12106(e) of title 46, United States Code; and

“(B) as of the date of the enactment of this Act [Aug. 9, 2004], derives substantially all of its revenue from leasing vessels engaged in the transportation or distribution of petroleum products and other cargo in Alaska.

“(2) LIMITATION ON COASTWISE TRADE.—A vessel owned by a person described in paragraph (1) for which a

coastwise endorsement is issued under [former] section 12106(e) of title 46, United States Code, may be employed in the coastwise trade only within Alaska and in the coastwise trade to and from Alaska.

“(3) TERMINATION.—The application of this subsection to a person described in paragraph (1) shall terminate if all of that person’s vessels described in paragraph (1) are sold to a person eligible to document vessels under section 12106(a) [now section 12112(a)] of title 46, United States Code.”

§ 12113. Fishery endorsement

(a) REQUIREMENTS.—A fishery endorsement may be issued for a vessel that—

(1) satisfies the requirements of section 12103 of this title and, if owned by an entity, the entity satisfies the ownership requirements in subsection (c);

(2) was built in the United States;

(3) if rebuilt, was rebuilt in the United States;

(4) was not forfeited to the United States Government after July 1, 2001, for a breach of the laws of the United States; and

(5) otherwise qualifies under the laws of the United States to engage in the fisheries.

(b) AUTHORIZED ACTIVITY.—

(1) IN GENERAL.—Subject to the laws of the United States regulating the fisheries, a vessel for which a fishery endorsement is issued may engage in the fisheries.

(2) USE BY PROHIBITED PERSONS.—A fishery endorsement is invalid immediately if the vessel for which it is issued is used as a fishing vessel while it is chartered or leased to an individual who is not a citizen of the United States or to an entity that is not eligible to own a vessel with a fishery endorsement.

(c) OWNERSHIP REQUIREMENTS FOR ENTITIES.—

(1) IN GENERAL.—A vessel owned by an entity is eligible for a fishery endorsement only if at least 75 percent of the interest in the entity, at each tier of ownership and in the aggregate, is owned and controlled by citizens of the United States.

(2) DETERMINING 75 PERCENT INTEREST.—In determining whether at least 75 percent of the interest in the entity is owned and controlled by citizens of the United States under paragraph (1), the Secretary shall apply section 50501(d) of this title, except that for this purpose the terms “control” or “controlled”—

(A) include the right to—

(i) direct the business of the entity;

(ii) limit the actions of or replace the chief executive officer, a majority of the board of directors, any general partner, or any person serving in a management capacity of the entity; or

(iii) direct the transfer, operation, or manning of a vessel with a fishery endorsement; but

(B) do not include the right to simply participate in the activities under subparagraph (A), or the exercise of rights under loan or mortgage covenants by a mortgagee eligible to be a preferred mortgagee under section 31322(a) of this title, except that a mortgagee not eligible to own a vessel with a fishery endorsement may only operate such a

vessel to the extent necessary for the immediate safety of the vessel or for repairs, dry-docking, or berthing changes.

(3) EXCEPTIONS.—This subsection does not apply to a vessel when it is engaged in the fisheries in the exclusive economic zone under the authority of the Western Pacific Fishery Management Council established under section 302(a)(1)(H) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1852(a)(1)(H)) or to a purse seine vessel when it is engaged in tuna fishing in the Pacific Ocean outside the exclusive economic zone or pursuant to the South Pacific Regional Fisheries Treaty, provided that the owner of the vessel continues to comply with the eligibility requirements for a fishery endorsement under the Federal law that was in effect on October 1, 1998. A fishery endorsement issued pursuant to this paragraph is valid for engaging only in the activities described in this paragraph.

(d) REQUIREMENTS BASED ON LENGTH, TONNAGE, OR HORSEPOWER.—

(1) APPLICATION.—This subsection applies to a vessel that—

(A) is greater than 165 feet in registered length;

(B) is more than 750 gross registered tons as measured under chapter 145 of this title or 1,900 gross registered tons as measured under chapter 143 of this title; or

(C) has an engine or engines capable of producing a total of more than 3,000 shaft horsepower.

(2) REQUIREMENTS.—A vessel subject to this subsection is not eligible for a fishery endorsement unless—

(A)(i) a certificate of documentation was issued for the vessel and endorsed with a fishery endorsement that was effective on September 25, 1997;

(ii) the vessel is not placed under foreign registry after October 21, 1998; and

(iii) if the fishery endorsement is invalidated after October 21, 1998, application is made for a new fishery endorsement within 15 business days of the invalidation; or

(B) the owner of the vessel demonstrates to the Secretary that the regional fishery management council of jurisdiction established under section 302(a)(1) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1852(a)(1)) has recommended after October 21, 1998, and the Secretary of Commerce has approved, conservation and management measures in accordance with the American Fisheries Act (Public Law 105-277, div. C, title II) (16 U.S.C. 1851 note)¹ to allow the vessel to be used in fisheries under the council's authority.

(e) VESSELS MEASURING 100 FEET OR GREATER.—

(1) IN GENERAL.—The Administrator of the Maritime Administration shall administer subsections (c) and (d) with respect to vessels 100 feet or greater in registered length. The

owner of each such vessel shall file a statement of citizenship setting forth all relevant facts regarding vessel ownership and control with the Administrator on an annual basis to demonstrate compliance with those provisions.

(2) REGULATIONS.—Regulations to implement this subsection shall conform to the extent practicable with the regulations establishing the form of citizenship affidavit set forth in part 355 of title 46, Code of Federal Regulations, as in effect on September 25, 1997, except that the form of the statement shall be written in a manner to allow the owner of the vessel to satisfy any annual renewal requirements for a certificate of documentation for the vessel and to comply with this subsection and subsections (c) and (d), and shall not be required to be notarized.

(3) TRANSFER OF OWNERSHIP.—Transfers of ownership and control of vessels subject to subsection (c) or (d), which are 100 feet or greater in registered length, shall be rigorously scrutinized for violations of those provisions, with particular attention given to—

(A) leases, charters, mortgages, financing, and similar arrangements;

(B) the control of persons not eligible to own a vessel with a fishery endorsement under subsection (c) or (d), over the management, sales, financing, or other operations of an entity; and

(C) contracts involving the purchase over extended periods of time of all, or substantially all, of the living marine resources harvested by a fishing vessel.

(f) VESSELS MEASURING LESS THAN 100 FEET.—The Secretary shall establish reasonable and necessary requirements to demonstrate compliance with subsections (c) and (d), with respect to vessels measuring less than 100 feet in registered length, and shall seek to minimize the administrative burden on individuals who own and operate those vessels.

(g) VESSELS PURCHASED THROUGH FISHING CAPACITY REDUCTION PROGRAM.—A vessel purchased by the Secretary of Commerce through a fishing capacity reduction program under the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.) or section 308 of the Interjurisdictional Fisheries Act of 1986 (16 U.S.C. 4107) is not eligible for a fishery endorsement, and any fishery endorsement issued for that vessel is invalid.

(h) REVOCATION OF ENDORSEMENTS.—The Secretary shall revoke the fishery endorsement of any vessel subject to subsection (c) or (d) whose owner does not comply with those provisions.

(i) REGULATIONS.—Regulations to implement subsections (c) and (d) and sections 12151(c) and 31322(b) of this title shall prohibit impermissible transfers of ownership or control, specify any transactions that require prior approval of an implementing agency, identify transactions that do not require prior agency approval, and to the extent practicable, minimize disruptions to the commercial fishing industry, to the traditional financing arrangements of that industry, and to the opportunity to form fishery cooperatives.

REFERENCES IN TEXT

The American Fisheries Act (Public Law 105-277, div. C, title II) (16 U.S.C. 1851 note), referred to in subsec. (d)(2)(B), probably should be a reference to the Magnuson-Stevens Fishery Conservation and Management Act (see note below). Subsec. (d)(2)(B) of this section was derived from former section 12102(c)(5)(B) of this title in the general amendment of this chapter by Pub. L. 109-304, § 5, Oct. 6, 2006, 120 Stat. 1491. As part of that amendment, the reference to the American Fisheries Act was substituted for a reference to “such Act” which had been preceded by references to both of the above named Acts. See the Historical and Revision Notes above and section 2 of Pub. L. 109-304, set out as a Legislative Purpose and Construction note preceding section 101 of this title.

The Magnuson-Stevens Fishery Conservation and Management Act, referred to in subsec. (g), is Pub. L. 94-265, Apr. 13, 1976, 90 Stat. 331, which is classified principally to chapter 38 (§ 1801 et seq.) of Title 16, Conservation. For complete classification of this Act to the Code, see Short Title note set out under section 1801 of Title 16 and Tables.

PRIOR PROVISIONS

A prior section 12113, Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 588, originally derived from section 65a of former Title 46, Shipping, related to ports of documentation, prior to being repealed by Pub. L. 100-710, title I, §§ 106(b)(5), 107(a), Nov. 23, 1988, 102 Stat. 4752, effective Jan. 1, 1989.

AMENDMENTS

2008—Subsec. (g). Pub. L. 110-181 inserted “and” after “Conservation”.

INAPPLICABILITY OF SUBSECTION (d) TO CERTAIN MENHADEN FISHERIES

Pub. L. 106-31, title III, § 3027(c), May 21, 1999, 113 Stat. 102, provided that: “The limitation on registered

length contained in section 12102(c)(6) [now section 12113(d)] of title 46, United States Code, shall not apply to a vessel used solely in any menhaden fishery which is located in the Gulf of Mexico or along the Atlantic coast south of the area under the authority of the New England Fishery Management Council for so long as such vessel is used in such fishery.”

EXCEPTION TO BUILD REQUIREMENT FOR PRIOR VESSELS

Pub. L. 100-239, § 4, Jan. 11, 1988, 101 Stat. 1779, as amended by Pub. L. 101-225, title III, § 310, Dec. 12, 1989, 103 Stat. 1926, provided that:

“(a) Notwithstanding the requirements of section 12108(a)(2) and (3) [now section 12113(a)(2) and (3)] of title 46, United States Code, a fishery license may be issued to a vessel that before July 28, 1987—

“(1)(A) was documented under chapter 121 of that title; and

“(B) was operated as a fish processing or fish tender vessel in the navigable waters of the United States or the exclusive economic zone;

“(2) was a fish tender or fish processing vessel contracted to be purchased by a citizen of the United States, if the purchase is shown by contract or similarly reliable evidence acceptable to the Secretary to have been made for the purpose of using the vessel as a fish tender or fish processing vessel in the fisheries;

“(3) was documented under chapter 121 of that title and—

“(A) was rebuilt in a foreign country; or

“(B) is subsequently rebuilt in the United States for use as a fish processing vessel; or

“(4) was built in the United States and—

“(A) is rebuilt in a foreign country under a contract entered into before 6 months after the date of enactment of this Act [Jan. 11, 1988], and was purchased or contracted to be purchased before July 28, 1987 with the intent that the vessel be used in the fisheries, if that intent is evidenced by—

“(i) the contract itself; or

“(ii) a ruling letter by the Coast Guard before July 29, 1987 under 46 C.F.R. § 67.21-1 or § 67.27-3 pursuant to a ruling request evidencing that intent; or

“(B) is purchased for use as a fish processing vessel under a contract entered into after July 27, 1987, if—

“(i) a contract to rebuild the vessel for use as a fish processing vessel was entered into before September 1, 1987; and

“(ii) that vessel is part of a specific business plan involving the conversion in foreign shipyards of a series of three vessels and rebuilding work on at least one of the vessels had begun before July 28, 1987.

“(b) A vessel rebuilt under subsection (a)(3)(B) or (4) of this section must be redelivered to the owner before July 28, 1990. However, the Secretary may, on proof of circumstances beyond the control of the owner of a vessel affected by this section, extend the period for rebuilding in a foreign country permitted by this section.

“(c)(1) Any fishery license or registry issued to a vessel built in a foreign country under this section shall be endorsed to restrict the vessel from catching, taking, or harvesting.

“(2) Before being issued a fishery license, any vessel described in subsection (a)(2) of this section must be documented under an application for documentation acceptable to the Secretary filed before July 28, 1987, except that an alternative vessel of no greater tonnage than the vessel in the application may be substituted, if that substitution is made by the original applicant.”

DEFINITIONS

Pub. L. 100-239, § 6(d), Jan. 11, 1988, 101 Stat. 1782, provided that: “The terms in this Act [see Tables for classification] have the same meaning as in subtitle II [now also sections 114 and 115] of title 46, United States Code (as amended by this Act).”

§ 12114. Recreational endorsement

(a) REQUIREMENTS.—A recreational endorsement may be issued for a vessel that satisfies the requirements of section 12103 of this title.

(b) AUTHORIZED ACTIVITY.—A vessel operating under a recreational endorsement may be operated only for pleasure.

(c) APPLICATION OF CUSTOMS LAWS.—A vessel for which a recreational endorsement is issued may proceed between a port of the United States and a port of a foreign country without entering or clearing with the Secretary of Homeland Security. However, a recreational vessel is subject to the requirements for reporting arrivals under section 433 of the Tariff Act of 1930 (19 U.S.C. 1433), and individuals on the vessel are subject to applicable customs regulations.

In this section, the word “Secretary” is substituted for “Secretary of the Treasury”, thereby incorporating the definition of “Secretary” in section 2101 of title 46. The functions of the Secretary of the Treasury relating to the Coast Guard previously were transferred to the Secretary of Transportation by section 6(b) of the Department of Transportation Act (Pub. L. 89-670, Oct. 15, 1966, 80 Stat. 938). The Coast Guard and the functions of the Secretary of Transportation relating to the Coast Guard were again transferred to the Department of Homeland Security by section 888(b) of the Homeland Security Act of 2002 (Pub. L. 107-296, Nov. 25, 2002, 116 Stat. 2135).

In subsection (a)(1), the words “seeking hereunder to document a vessel under the laws of the United States or to operate a vessel exempt from documentation under the laws of the United States” are omitted as unnecessary because of the reorganization of the section.

Subsection (d)(1)(B) is substituted for “together with their owners or masters, shall be entitled to all the other benefits and privileges and shall be subject to the same requirements, penalties, and forfeitures as may be applicable in the case of vessels built in the United States and otherwise documented or exempt from documentation under the laws of the United States” to eliminate unnecessary words.

In subsection (d)(2), the words before subparagraph (A) are substituted for “no vessel owned by any such corporation shall engage in the fisheries or in the transportation of merchandise or passengers for hire between points in the United States, including Territories, Districts, and possessions thereof, embraced

within the coastwise laws, except” to eliminate unnecessary words. See the definition of “United States” in chapter 1 of the revised title.

PRIOR PROVISIONS

A prior section 12118, Pub. (3) the vessel is under a demise charter to a person that certifies to the Secretary that the person is a citizen of the United States under section 50501 of this title for engaging in the coastwise trade; and

(4) the demise charter is for a period of at least 3 years or a shorter period as may be prescribed by the Secretary.

In subsection (b), in paragraph (1), the words “satisfies the requirements for a coastwise endorsement, except for the ownership requirement otherwise applicable without regard to this section” are substituted for “otherwise eligible for documentation under this section” in 46 U.S.C. 12106(e)(1)(E) for clarity. Subparagraph (A) of 46 U.S.C. 12106(e)(1) is omitted as redundant to the general requirements in revised section 12112 on coastwise endorsements.

In subsection (c)(3), the words “documented with a coastwise endorsement” are substituted for “documented under this section” because former section 12106 is being divided into multiple sections.

Subsection (e) is substituted for “(3) Upon termination by a demise charterer required under paragraph (1)(C), the coastwise endorsement of the vessel may, in the sole discretion of the Secretary, be continued after the termination for default of the demise charter for a period not to exceed 6 months on such terms and conditions as the Secretary may prescribe” for clarity and to eliminate unnecessary words.

“(1) IN GENERAL.—The amendments made by this section [amending provisions from which this section was derived], and any regulations published after February 4, 2004, with respect to coastwise endorsements, shall not apply to a certificate of documentation, or renewal thereof, endorsed with a coastwise endorsement for a vessel under section 12106(e) [now section 12119(b), (d)–(f)] of title 46, United States Code, or a replacement vessel of a similar size and function, that was issued prior to the date of enactment of this Act [Aug. 9, 2004] as long as the vessel is owned by the person named therein, or by a subsidiary or affiliate of that person, and the controlling interest in such owner has not been transferred to a person that was not an affiliate of such owner as of the date of enactment of this Act. Notwithstanding the preceding sentence, however, the amendments made by this section shall apply, beginning 3 years after the date of enactment of this Act, with respect to offshore supply vessels (as defined in section 2101(19) of title 46, United States Code, as that section was in effect on the date of enactment of this Act) with a certificate of documentation endorsed with a coastwise endorsement as of the date of enactment of this Act, and the Secretary of the Department in which the Coast Guard is operating shall revoke any such certificate if the vessel does not by then meet the requirements of section 12106(e) of title 46, United States Code, as amended by this section.

“(2) REPLACEMENT VESSEL.—For the purposes of this subsection, ‘replacement vessel’ means—

The waiver or reduction shall apply during the period of time that such circumstances exist.”

§ 12120. Liquefied gas tankers

Notwithstanding any agreement with the United States Government, the Secretary may issue a certificate of documentation with a coastwise endorsement for a vessel to transport liquefied natural gas or liquefied petroleum gas to Puerto Rico from other ports in the United States, if the vessel—

(b) CONDITIONS FOR SURRENDER.—

(1) IN GENERAL.—The Secretary of Transportation shall develop, maintain, and periodically update an inventory of vessels that are documented under this chapter, are at least 200 feet in length, and have the capability to lay, maintain, or repair a submarine cable, without regard to whether a particular vessel is classed as a cable ship or cable vessel.

(2) INFORMATION TO BE INCLUDED.—For each vessel listed in the inventory, the Secretary of Transportation shall include in the inventory—

(A) the name, length, beam, depth, and other distinguishing characteristics of the vessel;

(a) IN GENERAL.—To ensure compliance with this chapter and laws governing the qualifications of vessels to engage in the coastwise trade and the fisheries, the Secretary may require owners, masters, charterers, and mortgagees of documented vessels to submit reports in any reasonable form and manner the Secretary may prescribe.

(b) VESSELS REBUILT OUTSIDE UNITED STATES.—

(1) IN GENERAL.—Under regulations prescribed by the Secretary, if a vessel exceeding the tonnage specified in paragraph (2) and documented or last documented under the laws of the United States is rebuilt outside the United States, the owner or master shall submit a report of the rebuilding to the Secretary.

(2) TONNAGE.—The tonnage referred to in paragraph (1) is—

(A) 500 gross tons as measured under section 14502 of this title; or

(B) an alternate tonnage as measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title.

(3) TIMING OF SUBMISSION.—If the rebuilding is completed in the United States, the report shall be submitted when the rebuilding is completed. In subsection (b)(1), the word “Secretary” is substituted for “Secretary of the Treasury”, thereby in-

corporating the definition of “Secretary” in section 2101 of title 46. The functions of the Secretary of the Treasury relating to the Coast Guard previously were transferred to the Secretary of Transportation by section 6(b) of the Department of Transportation Act (Pub. L. 89-670, Oct. 15, 1966, 80 Stat. 938). The Coast Guard and the functions of the Secretary of Transportation relating to the Coast Guard were again transferred to the Department of Homeland Security by section 888(b) of the Homeland Security Act of 2002 (Pub. L. 107-296, Nov. 25, 2002, 116 Stat. 2135). The words “rebuilt outside the United States” are substituted for “and any part of the rebuilding, including the construction of major components of the hull and superstructure of the vessel, is not effected within the United States, its Territories (not including trust territories) or its possessions” because of the definition of “rebuilt” in section 12101, and the definition of “United States” in chapter 1, of the revised title.

AMENDMENTS

2008—Pub. L. 110-181, §3525(b), repealed Pub. L. 109-241, §308. See 2006 Amendment note below.

Subsec. (a). Pub. L. 110-181, §3525(a)(2), incorporated the substance of the amendment by Pub. L. 109-241, §308, into this section by substituting “charterers, and mortgagees” for “and charterers”. See 2006 Amendment note below and section 18(a) of Pub. L. 109-304, set out as a Legislative Purpose and Construction note preceding section 101 of this title.

2006—Pub. L. 109-241, §308, which directed the amendment of former section 12120 of this title from which subsec. (a) of this section was derived, was repealed by Pub. L. 110-181, §3525(b). See 2008 Amendment note for subsec. (a) and Historical and Revision notes above.

SUBCHAPTER IV—PENALTIES

§ 12151. Penalties

(a) IN GENERAL.—A person that violates this chapter or a regulation prescribed under this chapter is liable to the United States Government for a civil penalty of not more than \$10,000. Each day of a continuing violation is a separate violation.

(b) SEIZURE AND FORFEITURE OF VESSELS.—A vessel and its equipment are liable to seizure by and forfeiture to the Government if—

(1) the owner of the vessel or the representative or agent of the owner knowingly falsifies or conceals a material fact, or knowingly makes a false statement or representation, about the documentation of the vessel or in applying for documentation of the vessel;

(2) a certificate of documentation is knowingly and fraudulently used for the vessel;

(3) the vessel is operated after its endorsement has been denied or revoked under section 12152 of this title;

(4) the vessel is employed in a trade without an appropriate endorsement;

(5) the vessel has only a recreational endorsement and is operated other than for pleasure;

(6) the vessel is a documented vessel and is placed under the command of a person not a citizen of the United States, except as authorized by section 12131(b) of this title; or

(7) the vessel is rebuilt outside the United States and a report of the rebuilding is not submitted as required by section 12139(b) of this title.

(c) ENGAGING IN FISHING AFTER FALSIFYING ELIGIBILITY.—In addition to other penalties

under this section, the owner of a documented vessel for which a fishery endorsement has been issued is liable to the Government for a civil penalty of not more than \$100,000 for each day the vessel engages in fishing (as defined in section 3 of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1802)) within the exclusive economic zone, if the owner or the representative or agent of the owner knowingly falsified or concealed a material fact, or knowingly made a false statement or representation, about the eligibility of the vessel under section 12113(c) or (d) of this title in applying for or applying to renew the fishery endorsement.

The authority to remit or mitigate a penalty under section 2107(b) is omitted because section 2107(b) applies to subtitle II and this section is in subtitle II.

§ 12152. Denial or revocation of endorsement for non-payment of civil penalty

AMENDMENTS

1992—Pub. L. 102-587 designated existing provisions as subsec. (a) and added subsec. (b).

§ 12302. Standard numbering system

(a) The Secretary shall prescribe by regulation a standard numbering system for vessels to which this chapter applies. On application by a State, the Secretary shall approve a State numbering system that is consistent with the standard numbering system. In carrying out its numbering system, a State shall adopt any definitions of relevant terms prescribed by regulations of the Secretary.

(f) When the Secretary decides that a State numbering system is not being carried out consistent with the standard numbering system or the State has changed the system without the Secretary's approval, the Secretary may withdraw approval after giving notice to the State, in writing, stating the reasons for the withdrawal.

Section 12302 provides for a standard numbering system for undocumented vessels and for approval of State numbering systems by the Secretary. § 12303. Exemption from numbering requirements

(a) When the Secretary is the authority issuing a number under this chapter, the Secretary may exempt a vessel or class of vessels from the numbering requirements of this chapter under conditions the Secretary may prescribe.

(b) When a State is the issuing authority, it may exempt from the numbering requirements of this chapter a vessel or class of vessels exempted under subsection (a) of this section or otherwise as permitted by the Secretary.

A person may request from an authority issuing a number under this chapter the numbering and registration information of a vessel that is retrievable from vessel numbering system records of the issuing authority. When the issuing authority is satisfied that the request is reasonable and related to a boating safety purpose, the information shall be provided on paying the cost of retrieving and providing the information requested.

HISTORICAL AND REVISION NOTES

Section 101 of H.R. 3105, as amended, adds a new chapter 125 to title 46, United States Code, to establish a vessel identification system for all vessels of the United States. This would include vessels documented under chapter 121 of title 46, numbered under chapter 123 of that title, or titled under the law of a State. This new chapter consists of new sections 12501-12507 as follows.

§ 12501. Establishment of a vessel identification system

(a) The Secretary of Transportation shall establish a vessel identification system to make available information under section 12503 of this title for use by the public for law enforcement and other purposes relating to—

(1) the ownership of documented vessels;

(2) the ownership of vessels numbered under chapter 123 of this title; and

(3) the ownership of vessels titled under the law of a State.

(b) The vessel identification system shall include information prescribed by the Secretary including—

(1) identifying a vessel;

(2) identifying the owner of the vessel, including—

(A) the owner's social security number or, if that number is not available, other means of identification acceptable to the Secretary; or

(B) for an owner other than an individual—
(i) the owner's taxpayer identification number; or

(ii) if the owner does not have a taxpayer identification number, the social security number of an individual who is a corporate officer, general partner, or individual trustee of the owner and who signed the application for documentation or numbering for the vessel;

(3) identifying the State in which it is titled or numbered;

(4) indicating whether the vessel is numbered or titled, or both;

(5) if titled in a State, indicating where evidence of a lien or other security interest may be found against the vessel in that State; and

(6) information assisting law enforcement officials.

(c) The Secretary may maintain information under this chapter in connection with any other information system maintained by the Secretary.

(Added Pub. L. 100-710, title I, § 101(a), Nov. 23, 1988, 102 Stat. 4735; amended Pub. L. 101-225, title III, § 302(1), Dec. 12, 1989, 103 Stat. 1922; Pub. L. 101-595, title VI, § 603(10), Nov. 16, 1990, 104 Stat. 2993.)

HISTORICAL AND REVISION NOTES

Revised section 12501

Subsection (a) of section 12501 requires the Secretary of Transportation to establish a system of information concerning vessels of the United States for law enforcement and other purposes. The Secretary is required to make available information from the system relating to the ownership of vessels documented under chapter 121 of title 46, numbered under chapter 123 of that title, and titled under the law of a State. The information is available under section 12503 for use by the public, similarly under the Ship Mortgage Act, 1920.

Subsection (b) lists the vessel identification information which is required to be maintained by the Secretary. The Secretary has the authority to prescribe other information to be maintained in addition to the items listed. For example, the Secretary may identify vessels issued fisheries permits by the Department of Commerce. The Secretary may also monitor transactions involving vessels that require approval by the

Secretary under section 9 of the Shipping Act, 1916 (46 App. U.S.C. 808) before interest or control in the vessel may be transferred to a noncitizen.

Subsection (c) clarifies that the Secretary has the flexibility to maintain this system in connection with any other information system maintained by the Secretary, including the Federal Aviation Administration system containing aircraft ownership information. This would also permit the Secretary to combine various systems and data bases maintained by the Secretary such as documentation and numbering of vessels, and safety, casualty, and law enforcement statistics.

AMENDMENTS

1990—Subsec. (b)(2)(A). Pub. L. 101-595 amended subpar. (A) generally. Prior to amendment, subpar. (A) read as follows: “the owner's social security number; or”.

1989—Subsec. (b)(2). Pub. L. 101-225 amended par. (2) generally, adding subpars. (A) and (B).

§ 12502. Identification numbers, signal letters, and markings

(a) For the identification of a vessel of the United States, the Secretary of Transportation—

(1) shall maintain a unique numbering system and assign a number to each vessel of the United States;

(2) may maintain a system of signal letters for a documented vessel;

(3) shall record a name selected by the owner of a documented vessel approved by the Secretary as the vessel's name of record; and

(4) may establish other identification markings.

(b) The manufacturer or owner of a vessel shall affix to the vessel and maintain in the manner prescribed by the Secretary the number assigned and any other markings the Secretary may require.

(c) Once a number is assigned under this section, it may not be used by another vessel.

(d) Once a documented vessel's name is established, the name may not be changed without the approval of the Secretary.

(e) A person may not tamper with or falsify a number or other marking required under this section.

(Added Pub. L. 100-710, title I, §101(a), Nov. 23, 1988, 102 Stat. 4736.)

HISTORICAL AND REVISION NOTES

Revised section 12502

Subsection (a) of this section requires the Secretary to maintain a unique numbering system for vessels of the United States. The Secretary may use existing vessel numbering systems such as the hull identification number for this purpose, but must ensure that no two existing vessels of the United States have the same number. The Secretary should consider and propose the use of a 17-digit number to implement this requirement. This subsection also requires the Secretary to maintain a system of signal letters and to record vessel names for documented vessels. The Secretary is authorized to establish other vessel identification markings for vessels of the United States, such as hailing ports.

Subsections (b), (c), (d), and (e) contain other requirements and restrictions concerning vessel identification markings.

This section consolidates the requirements of sections 12114, 12115, 12116, and 12118 of title 46. For this reason, section 106 of this bill repeals those sections.

VESSELS NOT HAVING UNIQUE NUMBER; APPLICABILITY OF PROVISIONS FOR NUMBER ASSIGNMENT

Pub. L. 100-710, title I, §104(f), Nov. 23, 1988, 102 Stat. 4751, provided that: "Section 12502(a)(1) of title 46, United States Code (as enacted by section 101 of this Act), applies to a vessel of the United States that does not have a unique number as prescribed by the Secretary of Transportation under that section until the earlier of the following:

"(1) the next time the vessel is documented, numbered, or titled.

"(2) January 1, 1995."

§ 12503. Information available to the system

(a) Except as provided in subsections (b) and (c) of this section, a State or a State's delegate approved by the Secretary of Transportation may make information available to the Secretary if, in a manner and form prescribed by the Secretary, the State—

(1) identifies the vessel;

(2) identifies the owner of the vessel, including by—

(A) the owner's social security number or, if that number is not available, other means

of identification acceptable to the Secretary; or

(B) for an owner other than an individual—

(i) the owner's taxpayer identification number; or

(ii) if the owner does not have a taxpayer identification number, the social security number of an individual who is a corporate officer, general partner, or individual trustee of the owner and who signed the application for documentation or numbering for the vessel;

(3) identifies the State in which it is titled or numbered;

(4) indicates whether the vessel is numbered or titled, or both;

(5) if titled in a State, indicates where evidence of a lien or other security interest may be found against the vessel in that State;

(6) includes information to assist law enforcement; and

(7) includes other information agreed to by the Secretary and the State.

(b) Except as provided in subsection (c) of this section, the Secretary also may accept information under conditions and in a manner and form prescribed by the Secretary.

(c) The Secretary shall—

(1) retain information on a vessel with a preferred mortgage under section 31322(d) of this title that is no longer titled in a State making information available to the Secretary under this chapter until the mortgage is discharged or the vessel is sold; and

(2) accept information under section 31321(h) of this title only if that information cannot be provided to a State.

(Added Pub. L. 100-710, title I, §101(a), Nov. 23, 1988, 102 Stat. 4736; amended Pub. L. 101-225, title III, §302(2), Dec. 12, 1989, 103 Stat. 1922; Pub. L. 101-595, title VI, §603(10), Nov. 16, 1990, 104 Stat. 2993; Pub. L. 109-304, §15(24), Oct. 6, 2006, 120 Stat. 1704.)

HISTORICAL AND REVISION NOTES

Revised section 12503

Subsection (a) of section 12503 allows a State or approved State delegate to make vessel identification information available to the Secretary. Participation in the system is voluntary on the part of a State. A benefit to boat purchasers and financiers in States with approved titling systems participating in this system is that vessel mortgages or financing instruments made in those States are deemed to be preferred mortgages under chapter 313 of title 46, United States Code (as codified and enacted by this Act).

Under subsection (a), the Secretary may prescribe the manner and form in which the information is made available by the States. In this regard, the Committee intends that the Secretary employ the most efficient, up-to-date computer technology in maintaining information made available from the States to avoid duplication of effort in maintaining information and to reduce the costs of the system. In addition to the vessel identification information made available by States under paragraphs (1)–(6), the Secretary and a State may agree that the State make available other information. For example, the purpose for which a vessel is routinely used would be valuable information for the system.

The Committee intends that most of the information in the system will become available directly and exclusively from the States to the greatest extent possible.

However, under subsection (b), the Secretary may accept information from others under conditions and in a manner and form prescribed by the Secretary. Thus, if the Secretary discovers a valuable and reliable source of data that can be conveniently made available to the system, the Secretary can approve it.

Under paragraph (c)(1), the Secretary must maintain information on a State-titled vessel with a preferred mortgage that moves to a nonparticipating, nontitle State, until the mortgage is discharged or the vessel is sold. Under paragraph (c)(2), the Secretary must accept information submitted under section 31321 of title 46 (as enacted by this Act) concerning a discharge of a preferred mortgage on a vessel title under State law. This would be necessary if the vessel moves to a nonparticipating State, and information on that vessel would not be provided to the system by that State. This subsection will allow the Secretary to keep the vessel information system current on these matters and purge files no longer required to be maintained.

AMENDMENTS

2006—Subsec. (a). Pub. L. 109-304 substituted “delegate” for “delegee” in introductory provisions.

1990—Subsec. (a)(2)(A). Pub. L. 101-595 amended subpar. (A) generally. Prior to amendment, subpar. (A) read as follows: “the owner’s social security number; or”.

1989—Subsec. (a)(2). Pub. L. 101-225 amended par. (2) generally, adding subpars. (A) and (B).

§ 12504. Information available from the system

For law enforcement or other purposes and under conditions prescribed by the Secretary of Transportation, the Secretary—

(1) shall make available information in the vessel identification system to a State making information available under section 12503(a) of this title; and

(2) may make available information in the vessel identification system to others.

(Added Pub. L. 100-710, title I, §101(a), Nov. 23, 1988, 102 Stat. 4736; amended Pub. L. 101-225, title III, §302(3), Dec. 12, 1989, 103 Stat. 1923.)

HISTORICAL AND REVISION NOTES

Revised section 12504

This section requires that the Secretary make available information maintained in the vessel identification system to a State participating in the system for law enforcement or other purposes. The Secretary may make available information in the system to others, under conditions the Secretary may prescribe. At first, the Secretary may elect to deal only with the States. However, the Committee firmly expects that information will be made available through computer terminals in satellite offices or direct computer access by modem. In this manner, boating organizations or financial or documentation services could retrieve data without paper transactions for a fee.

AMENDMENTS

1989—Pub. L. 101-225 substituted “Secretary of Transportation, the Secretary” for “Secretary, the Secretary of Transportation”.

§ 12505. Fees

(a) The Secretary of Transportation may charge a fee under section 9701 of title 31 for providing information to or requesting information from the vessel identification system, except to—

(1) an agency; or

(2) a State making information available to the Secretary under section 12503(a) of this title.

(b) The Secretary shall deposit amounts transferred or collected under this section in the general fund of the Treasury as proprietary receipts of the Secretary and ascribed to the vessel identification system.

(Added Pub. L. 100-710, title I, §101(a), Nov. 23, 1988, 102 Stat. 4737; amended Pub. L. 101-595, title VI, §603(11), Nov. 16, 1990, 104 Stat. 2993.)

HISTORICAL AND REVISION NOTES

Revised section 12505

This section contains the authority for the Secretary to charge a fee under the user charge law, 31 U.S.C. 9701, for providing information to or requesting information from the vessel identification system. Fees may not be charged under this subsection to an agency or a State that is participating in the vessel identification system maintained by the Secretary.

Under subsection (b) of this section, the Secretary may collect an annual fee of not more than \$1.00 from the owner of a vessel of the United States under 31 U.S.C. 9701 for the vessel identification system. Since vessel owners will benefit from the vessel identification system, such as from documentation of ownership data and stolen vessel tracking, this fee is designed as a maintenance charge to owners for this service. The collection of the annual fee may be delayed by the Secretary, and an agency, State, or person may be employed to collect the fee under subsection (c). The Committee expects that the Secretary will make agreements with States to collect this fee at the time of vessel registrations. The term of these registrations varies from one to three years as permitted by chapter 123 of title 46.

Under subsection (d) of this section, if a State is employed to collect the fee, the State may retain one-half of the amounts collected, and must transfer the remainder to the Secretary. The amounts retained by a State may be used to cover the costs of making vessel identification information available to the Secretary. This includes upgrading or establishing titling systems as well as making improvements and other changes to vessel numbering systems to make information available. Because States are allowed to make improvements to their vessel titling and numbering systems with the amounts retained under this section, the costs of those programs may decrease. This could result in a corresponding decrease in State numbering fees and offset vessel identification system fees paid by vessel owners.

AMENDMENTS

1990—Subsec. (b). Pub. L. 101-595 redesignated subsec. (e) as (b) and struck out former subsec. (b) which read as follows: “In addition to any fee under subsection (a) of this section, the Secretary may collect an annual fee of not more than \$1.00 from the owner of each vessel of the United States under section 9701 of title 31 for maintaining the vessel identification system. However, the collection of that fee may be delayed under conditions prescribed by the Secretary.”

Subsecs. (c), (d). Pub. L. 101-595 struck out subsecs. (c) and (d) which read as follows:

“(c) The Secretary may employ any agency, State, or person to collect the fee established under subsection (b) of this section.

“(d) If a State is employed to collect a fee under subsection (c) of this section, the State may retain one-half of the amounts collected. A State shall transfer one-half of the amounts collected under subsection (b) of this section to the Secretary.”

Subsec. (e). Pub. L. 101-595 redesignated subsec. (e) as (b).

Subsec. (f). Pub. L. 101-595 struck out subsec. (f) which read as follows: “The amounts retained by a State under this section may be used to make information available to the Secretary and to pay incremental administrative costs.”

ANNUAL FEE PRIOR TO JAN. 1, 1992

Pub. L. 100-710, title I, §104(e)(1), Nov. 23, 1988, 102 Stat. 4751, provided that: "Before January 1, 1992, the annual fee under section 12505 of title 46, United States Code (as enacted by section 101 of this Act), is \$1.00."

§ 12506. Delegation of authority

The Secretary of Transportation may delegate to an agency, a State, or a qualified person the authority to—

- (1) establish and maintain the vessel identification system; and
- (2) charge fees under section 12505 of this title to a person making information available to or requesting information from the vessel identification system.

(Added Pub. L. 100-710, title I, §101(a), Nov. 23, 1988, 102 Stat. 4737.)

HISTORICAL AND REVISION NOTES

Revised section 12506

This section allows the Secretary to delegate the authority to establish and maintain the vessel identification system to an agency, a State, or a qualified person. The Secretary may also delegate the authority to charge fees under section 12505 for requesting information from or making information available to the vessel identification system.

§ 12507. Penalties

(a) A person shall be fined under title 18, imprisoned for not more than 2 years, or both, if the person with the intent to defraud—

- (1) provides false information to the Secretary of Transportation or a State issuing authority regarding the identification of a vessel under this chapter; or
- (2) tampers with, removes, or falsifies the unique vessel identification number assigned to a vessel under section 12502 of this title.

(b) A person is liable to the United States Government for a civil penalty of not more than \$10,000 if the person—

- (1) provides false information to the Secretary or a State issuing authority regarding the identification of a vessel under this chapter;
- (2) violates section 12502 of this title; or
- (3) fails to comply with requirements prescribed by the Secretary under section 12505 of this title.

(c) A vessel involved in a violation of this chapter, or regulation under this chapter, and its equipment, may be seized by, and forfeited to, the Government.

(d) If a person, not an individual, is involved in a violation of this chapter, the president or chief executive of the person also is subject to any penalty provided under this section.

(Added Pub. L. 100-710, title I, §101(a), Nov. 23, 1988, 102 Stat. 4737.)

HISTORICAL AND REVISION NOTES

Revised section 12507

This section establishes criminal and civil penalties for certain violations of chapter 125 of title 46 (as enacted by this Act).

HISTORICAL AND REVISION NOTES

This Chapter establishes the recreational boating safety and facility program administered by the Coast Guard. The general purpose is to encourage State participation in boating safety education and enforcement activities.

AMENDMENTS

2006—Pub. L. 109-304, §16(b)(3), Oct. 6, 2006, 120 Stat. 1705, added item 13101 and redesignated former items 13101 to 13106 as 13102 to 13107, respectively.

1998—Pub. L. 105-178, title VII, §7405(c)(2), June 9, 1998, 112 Stat. 488, substituted "appropriations" for "contract spending" in item 13106.

1984—Pub. L. 98-369, div. A, title X, §1016(c)(2), July 18, 1984, 98 Stat. 1020, struck out item 13107 "National Recreational Boating Safety and Facilities Improvement Fund".

§ 13101. Definitions

In this chapter:

- (1) **ELIGIBLE STATE.**—The term "eligible State" means a State that has a State recreational boating safety program accepted by the Secretary.
- (2) **STATE RECREATIONAL BOATING SAFETY PROGRAM.**—The term "State recreational boating safety program" means education, assistance, and enforcement activities conducted for maritime casualty prevention, reduction, and reporting for recreational boating.

(Pub. L. 109-304, §16(b)(2), Oct. 6, 2006, 120 Stat. 1705.)

HISTORICAL AND REVISION NOTES

Section 16 of the bill [H.R. 1442, which became Pub. L. 109-304] moves the definitions relating to the recreational boating safety program from section 2102(a)(1) and (3) to chapter 131 because the terms only appear in chapter 131.

Section 16 of the bill also eliminates the special definitions of "State" and "United States" in section 2102(a)(2) as including the Trust Territory of the Pacific Islands because the Trust Territory has been terminated. See the definitions of "State" and "United States" in section 2101, which are being moved to chapter 1 and being made applicable title-wide. Those definitions already include the Northern Mariana Islands, the only component of the former Trust Territory still under United States sovereignty.

PRIOR PROVISIONS

A prior section 13101 was renumbered section 13102 of this title.

§ 13102. State recreational boating safety programs

(a) To encourage greater State participation and uniformity in boating safety efforts, and

particularly to permit the States to assume the greater share of boating safety education, assistance, and enforcement activities, the Secretary shall carry out a national recreational boating safety program. Under this program, the Secretary shall make contracts with, and allocate and distribute amounts to, eligible States to assist them in developing, carrying out, and financing State recreational boating safety programs.

(b) The Secretary shall establish guidelines and standards for the program. In doing so, the Secretary—

(1) shall consider, among other things, factors affecting recreational boating safety by contributing to overcrowding and congestion of waterways, such as the increasing number of recreational vessels operating on those waterways and their geographic distribution, the availability and geographic distribution of recreational boating facilities in and among applying States, and State marine casualty and fatality statistics for recreational vessels;

(2) shall consult with the Secretary of the Interior to minimize duplication with the purposes and expenditures of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601-4-4601-11) the Federal Aid in Sport Fish Restoration Act of 1950 (16 U.S.C. 777-777k), and with the guidelines developed under those Acts; and

(3) shall maintain environmental standards consistent with the Coastal Zone Management Act of 1972 (16 U.S.C. 1451-1464) and other laws and policies of the United States intended to safeguard the ecological and esthetic quality of the waters and wetlands of the United States.

(c) A State whose recreational boating safety program has been approved by the Secretary is eligible for allocation and distribution of amounts under this chapter to assist that State in developing, carrying out, and financing its program. Matching amounts shall be allocated and distributed among eligible States by the Secretary as provided by section 13104 of this title.

(2) in carrying out the State recreational boating safety program, there has been a failure to comply substantially with the standards prescribed by regulations.

(2) Additional individuals from the sources referred to in paragraph (1) of this subsection may be appointed to panels of the Council to assist the Council in performing its duties.

(3) At least once a year, the Secretary shall publish a notice in the Federal Register soliciting nominations for membership on the Council.

(c) In addition to the consultation required by section 4302 of this title, the Secretary shall consult with the Council on other major boating safety matters related to this chapter. The Council may make available to Congress information, advice, and recommendations that the Council is authorized to give to the Secretary.

(d) When attending meetings of the Council, a member of the Council or a panel may be paid at a rate not more than the rate for GS-18. When serving away from home or regular place of business, the member may be allowed travel expenses, including per diem in lieu of subsistence as authorized by section 5703 of title 5 for individuals employed intermittently in the Government service. A payment under this section does not make a member of the Council an officer or employee of the United States Government for any purpose.

(e) The Council shall terminate on September 30, 2010.

PART J—MEASUREMENT OF VESSELS

HISTORICAL AND REVISION NOTES

Part J contains provisions that apply to the measurement of a vessel to determine its tonnage. Tonnage is a measurement of a vessel’s volume and is used for international, customs, and regulatory purposes. This part implements the 1969 International Convention on Tonnage Measurement of Ships and provides a framework for phasing in the international system as the method of measuring ships domestically, to establish uniformity in ship measurement. The availability of an alternate domestic regulatory system of measurement is continued so that the application of domestic laws will be preserved in order that vessels engaged in domestic commerce will not be adversely affected.

HISTORICAL AND REVISION NOTES

Revised section 14103

Source: International Convention on Tonnage Measurement of Ships.

Section 14103(a) authorizes the Secretary to delegate to a qualified person the authority to measure a vessel

and issue an International Tonnage Certificate or other certificate of measurement. The term “qualified person” means an organization that the Secretary believes has the necessary qualifications to measure a vessel competently, such as the American Bureau of Shipping.

The conferees intend that in section 14103 the term “qualified person” includes not only organizations that the Secretary finds to be qualified to perform measurement duties, but any person as that term is defined in section 1 of title 1, United States Code (including individuals), that the Secretary determines qualified to perform measurement duties. The House and Senate conferees also agree that, where authorized, in addition to information required by the Secretary, regulatory tonnage should be used on all certificates and documents related to a vessel unless the owner otherwise requests.

Section 14103(b) provides for the appeal to the Secretary of a decision made by a person that has received delegated authority. This ensures that the Secretary has full oversight of delegated tonnage measurement functions.

Section 14103(c) authorizes the Secretary to delegate to a country that is a party to the International Convention on Tonnage Measurement of Ships, 1969, the authority to measure a vessel and issue an International Tonnage Certificate.

Section 14103(d) clarifies the Secretary’s authority to revoke at any time and without cause a delegation of authority to measure a vessel or issue a certificate. This authority is given so that no delay occurs administratively in revoking a delegation wherever the Secretary decides a revocation is warranted.

§ 14104. Measurement to determine application of a law

(a) When the application of a law of the United States to a vessel depends on the vessel’s tonnage, the vessel shall be measured under this part.

(b) If a statute allows for an alternate tonnage to be prescribed under this section, the Secretary may prescribe it by regulation. Any such regulation shall be considered to be an interpretive regulation for purposes of section 553 of title 5. Until an alternate tonnage is prescribed, the statutorily established tonnage shall apply to vessels measured under chapter 143 or chapter 145 of this title.

(c) The head of each Federal agency shall ensure that regulations issued by the agency that specify particular tonnages comply with the alternate tonnages implemented by the Secretary.

HISTORICAL AND REVISION NOTES

Chapter 143 provides implementing legislation for the International Convention on Tonnage Measurement of Ships (Convention) which came into effect in the United States on February 10, 1983. Chapter 143, therefore, is based primarily on the Convention, not on provisions in existing U.S. law.

§ 14301. Application

(a) Except as otherwise provided in this section, this chapter applies to the following:

- (1) a documented vessel.
- (2) a vessel that is to be documented under chapter 121 of this title.
- (3) a vessel engaged on a foreign voyage.

(b) This chapter does not apply to the following:

- (1) a vessel of war.
- (2) a vessel of less than 24 meters (79 feet) overall in length.
- (3) a vessel operating only on the Great Lakes, unless the owner requests.
- (4) a vessel (except a vessel engaged on a foreign voyage) the keel of which was laid or that was at a similar stage of construction before January 1, 1986, unless—

(A) the owner requests; or

(B) the vessel undergoes a change that the Secretary finds substantially affects the vessel's gross tonnage.

(5) before July 19, 1994, an existing vessel unless—

(A) the owner requests; or

(B) the vessel undergoes a change that the Secretary finds substantially affects the vessel's gross tonnage.

(6) a barge (except a barge engaged on a foreign voyage) unless the owner requests.

(c) A vessel made subject to this chapter at the request of the owner may be remeasured only as provided by this chapter.

(d) After July 18, 1994, an existing vessel (except an existing vessel referred to in subsection (b)(5)(A) or (B) of this section) may retain its tonnages existing on July 18, 1994, for the application of relevant requirements under international agreements (except the Convention) and other laws of the United States. However, if the vessel undergoes a change substantially affecting its tonnage after July 18, 1994, the vessel shall be remeasured under this chapter.

(e) This chapter does not affect an international agreement to which the United States Government is a party that is not in conflict with the Convention or the application of IMO Resolutions A.494 (XII) of November 19, 1981, A.540 (XIII) of November 17, 1983, and A.541 (XIII) of November 17, 1983.

HISTORICAL AND REVISION NOTES

Revised section 14301

Source: International Convention on Tonnage Measurement of Ships.

Section 14301 delineates which vessels must be measured in compliance with the standards of the Convention.

Section 14301(a) provides that a vessel must be measured under the standards of the Convention if it is documented or required by law to be documented under chapter 121 of this subtitle or if it is engaged on a foreign voyage, unless the vessel is specifically exempted under section 14301(b).

Section 14301(b) provides the following exemptions from the requirement in section 14301(a) to be measured under the Convention:

1. A vessel of war;
2. A vessel of less than 24 meters (79 feet) overall in length ("overall in length" is defined in section 2101);
3. A vessel that operates only on the Great Lakes (although the owner may request that it be measured under the Convention);
4. A vessel whose keel was laid or was at a similar stage of construction before January 1, 1986, and is on a domestic voyage, unless the vessel undergoes a change that significantly changes its tonnage or the owner requests that the vessel be measured under the Convention; and
5. A vessel whose keel was laid or was at a similar stage of construction before July 18, 1982, unless the vessel undergoes a change that significantly changes the vessel's tonnage or the owner requests that the vessel be measured under the Convention.

Together, subsections (b)(4) and (5) provide that, unless the owner requests measurement under the Convention, unaltered vessels built before 1986 engaging only on domestic voyages do not have to be measured under the Convention or use Convention measurement for the application of any domestic laws. Further, these subsections provide that unaltered vessels that are built before July 18, 1982, engaging on foreign voyages do not have to be measured under the Convention until 1994 and are not required to use Convention measurement as a basis for the application of any domestic laws.

Section 14301(c) provides that if a vessel owner requests that the vessel be measured under the Convention, the vessel may only be remeasured under the Convention.

Section 14301(d) provides that after July 18, 1994, a vessel whose keel was laid or was at a similar stage of construction before July 18, 1982 may retain its regulatory tonnage for the application of requirements under U.S. laws or international agreements, except the International Convention on Tonnage Measurement of Ships. However, if the vessel was not required to be measured under the Convention, but the vessel's owner requested that the vessel be measured under the Convention system before July 19, 1994, or if the vessel undergoes a change affecting its tonnage, the vessel may not use its regulatory tonnage for the application of U.S. laws or international agreements after July 19, 1994.

Section 14301(e) provides that this chapter does not affect any international agreement to which the United States is a party that is not in conflict with the International Convention on Tonnage Measurement of Ships, 1969. It further provides that this chapter does not affect the application of the three interim schemes of the International Maritime Organization, which are discussed under section 14305 below.

AMENDMENTS

1990—Subsec. (b)(6). Pub. L. 101-595 added par. (6).

REPORT TO CONGRESS

Pub. L. 99-509, title V, § 5103(g), Oct. 21, 1986, 100 Stat. 1927, provided that: "The Secretary of Transportation shall—

"(1) before July 19, 1990, submit to Congress—

"(A) a study of—

"(i) the impact of applying vessel tonnage determined under chapter 143 of title 46 (as enacted

by section 5101 of this subtitle), United States Code, in laws of the United States that contain provisions based on tonnage, including an analysis of the number and types of vessels that would become subject to additional laws or more stringent requirements because of that application; and

“(ii) the extent to which the tonnage thresholds in laws of the United States whose application is based on tonnage would have to be raised so that additional vessels would not become subject to those laws if their application is based on tonnage determined under chapter 143; and

“(B) a recommendation of the levels to which the tonnage thresholds in laws of the United States whose application is based on tonnage should be raised if a complete conversion to the International Convention measurement system under chapter 143 is made;

“(2) in conducting the study under clause (1) of this subsection, consult with representatives of the private sector having experience with the operation of vessels likely to be affected by laws of the United States whose application is based on tonnage; and

“(3) before July 19, 1988, submit to Congress an interim progress report on the study conducted under clause (1) of this subsection.”

§ 14302. Measurement

(a) The Secretary shall measure a vessel to which this chapter applies in the way provided by this chapter and the Convention.

(b) Except as provided in section 1602(a) of the Panama Canal Act of 1979 (22 U.S.C. 3792(a)), a vessel measured under this chapter may not be required to be measured under another law.

(c) Unless otherwise provided by law, the measurement of a vessel under this chapter applies to a law of the United States whose applicability depends on a vessel's tonnage, if that law—

(1) becomes effective after July 18, 1994; or

(2) is in effect before July 19, 1994, is not enumerated in section 14305 of this title, and is identified by the Secretary by regulation as a law to which this chapter applies.

(Pub. L. 99-509, title V, §5101(3), Oct. 21, 1986, 100 Stat. 1921.)

HISTORICAL AND REVISION NOTES

Revised section 14302

Source: International Convention on Tonnage Measurement of Ships.

Section 14302(a) requires the Secretary to measure a vessel to which this chapter applies, in the way provided by this chapter and by the Convention. Section 14302(b) provides that a vessel that is required to be measured under this chapter can not also be required to be measured under another law. The exception allows the Panama Canal Commission to continue to use the Canal measurement system for calculation of tolls. Section 14302(c) provides that the applicability of tonnage-based laws that become effective after July 18, 1994, will be based on Convention tonnage measurements. The applicability of tonnage-based laws in effect before July 19, 1994, which are listed by the Secretary, will also be based on Convention tonnage. Therefore, the laws that will be based on regulatory tonnage are those not listed by the Secretary by regulation and those listed in section 14305 of this legislation.

§ 14303. International Tonnage Certificate (1969)

(a) After measuring a vessel under this chapter, the Secretary shall issue, on request of the

owner, an International Tonnage Certificate (1969) and deliver it to the owner or master of the vessel.

(b) The certificate shall be maintained as required by the Secretary.

(Pub. L. 99-509, title V, §5101(3), Oct. 21, 1986, 100 Stat. 1921.)

Section 14303(a) requires the Secretary to issue, on the request of the owner, an International Tonnage Certificate after measuring a vessel under this chapter. Section 14303(b) requires that the certificate be maintained as required by the Secretary.

§ 14304. Remeasurement

(a) To the extent necessary, the Secretary shall remeasure a vessel to which this chapter applies if—

(1) the Secretary or the owner alleges an error in its measurement; or

(2) the vessel or the use of its space is changed in a way that substantially affects its tonnage.

(b) Except as provided in this chapter or section 14504 of this title, a vessel that has been measured does not have to be remeasured to obtain another document or endorsement under chapter 121 of this title.

HISTORICAL AND REVISION NOTES

Revised section 14304

Source: International Convention on Tonnage Measurement of Ships.

Section 14304(a) requires the Secretary to remeasure a vessel, to the extent necessary, if there is an alleged error regarding its measurement or if the vessel or its use undergoes a change substantially affecting its tonnage. The phrase “to the extent necessary” was included to indicate that a complete remeasurement of the vessel may not be necessary if, for example, an error was made in one portion of the vessel's measurement and only that portion needs to be remeasured.

Section 14304(b) provides that except as provided in section 14504, a vessel that has been measured does not have to be remeasured to obtain another document or endorsement under chapter 121 of this title.

§ 14305. Optional regulatory measurement

(a) On request of the owner of a documented vessel measured under this chapter, the Secretary also shall measure the vessel under chapter 145 of this title. The tonnages determined under that chapter shall be used in applying—

(1) parts A, B, C, E, F, and G of this subtitle and section 12116 of this title;

(2) section 3(d)(3) of the Longshore and Harbor Workers' Compensation Act (33 U.S.C. 903(d)(3));

(3) section 4 of the Bridge to Bridge Radiotelephone Act (33 U.S.C. 1203(a));

(4) section 4(a)(3) of the Ports and Waterways Safety Act (33 U.S.C. 1223(a)(3));

(10) the Officers' Competency Certificates Convention, 1936, and sections 8303 and 8304 of this title;

(11) the International Convention for the Safety of Life at Sea as provided by IMCO Resolution A.494 (XII) of November 19, 1981;

(12) the International Convention on Standards of Training, Certification, and Watchkeeping for Seafarers, 1978, as provided by IMO Resolution A.540 (XIII) of November 17, 1983;

(13) the International Convention for the Prevention of Pollution from Ships, 1973, as modified by the Protocol of 1978 Relating to the International Convention for the Prevention of Pollution from Ships, 1973, as provided by IMO Resolution A.541 (XIII) of November 17, 1983;

(14) provisions of law establishing the threshold tonnage levels at which evidence of financial responsibility must be demonstrated; or

(15) unless otherwise provided by law, any other law of the United States in effect before July 19, 1994, and not listed by the Secretary under section 14302(c) of this title.

(b) As long as the owner of a vessel has a request in effect under subsection (a) of this section, the tonnages determined under that request shall be used in applying the other provisions of law described in subsection (a) to that vessel.

HISTORICAL AND REVISION NOTES

Revised section 14305

Source: International Convention on Tonnage Measurement of Ships.

Section 14305 requires that the Secretary measure a vessel under chapter 145 (Regulatory Measurement) of this title (in addition to measuring it under the Convention) at the request of the owner. For vessels that have obtained a regulatory tonnage measurement under this section, the Secretary is required to use the regulatory tonnage measurement to determine the application of those laws listed in section 14305(a) and those not listed by the Secretary by regulation, as provided in section 14302(c). It is the intent of the Committee to list in section 14305(a) certain U.S. tonnage-based laws that would impose increased regulatory burdens on industry if the Convention measurement were used for applicability determinations.

Clause (1) of section 14305(a) includes the following parts of subtitle II of title 46, U.S.C.:

Part A: General provisions (including definitions.)

Part B: Inspection and Regulation of Vessels.

Part C: Load Lines, which is enacted as part of this legislation. Although most load line requirements are based on vessel length, and not tonnage, a few requirements are based on tonnage. (It is only the tonnage based requirements to which this provision applies.)

Part E: Licenses, Certificates, and Merchant Mariners' Documents.

Part F: Manning of Vessels.

Part G: Merchant Seamen Protection and Relief.

Part H: Sections 12106(c) and 12108(c) only—Identification of Vessels.

The other U.S. laws listed in clause (2) through (10) of this section are self-explanatory. Clause (10) refers to

domestic law as well as the Officers' Competency Certificates Convention, 1936.

In addition, three other international conventions are listed in clauses (11) through (13): (1) the Convention for the Safety of Life at Sea, (2) the Convention on the Standards of Training, Certification, and Watchkeeping for Seafarers, and (3) the Convention for the Prevention of Pollution from Ships. The International Maritime Organization has established interim schemes which address the use of the Convention tonnage measurement system as a basis for the applicability of these three conventions. The applicable sections of those schemes are the following:

The International Convention for the Safety of Life at Sea: IMCO Resolution A.494 (XII) of November 19, 1981 provides "that at the request of a shipowner, the Administration may allow a ship required to be measured under the provisions of the International Convention on Tonnage Measurement of Ships, 1969, to use the gross tonnage measured under the national tonnage rules which are in effect prior to the coming into force of the 1969 Tonnage Convention, for the purpose of application of the provisions of the International Convention for the Safety of Life at Sea, such tonnage, however, shall not be shown on the 1969 Tonnage Certificate." The resolution further provides that "the interim scheme shall not apply to ships the keels of which are laid after 31 December 1985 with the following exceptions:

"(a) In respect of the requirements of Regulation 3 of Chapter IV of the 1974 SOLAS Convention for ships the keels of which are laid before 18 July 1994, the Administration may continue to apply the interim scheme, in which case the above-mentioned entry should be made in the Radio-telephony Certificate only; and

"(b) In respect of the regulations for cargo ships of less than 1,600 tons gross tonnage (as measured under national systems), the keels of which are laid after 31 December 1985, the Administration may continue to apply the interim scheme until 18 July 1984."

The International Convention on Standards of Training, Certification, and Watchkeeping for Seafarers, 1978: IMO Resolution A.540 (XIII) of November 17, 1983, provides "that the revised interim scheme for tonnage measurement for certain ships adopted by resolution A.494 (XII), [described above] should also be applicable in respect of the provision of the International Convention, and Watchkeeping for Seafarers, 1978."

The International Convention for the Prevention of Pollution from Ships, 1973, as modified by the Protocol of 1978 Relating to the International Convention for the Prevention of Pollution from Ships, 1973: IMO Resolution A.541 (XIII) of November 17, 1983, provides that:

At the request of a shipowner, the Administration may allow a ship of less than 400 tons gross tonnage (measured under the previous national tonnage rules) the keel of which is laid on or before 31 December 1985 and which is required to be measured under the provisions of the International Convention on Tonnage Measurement of Ships, 1969, to use the gross tonnage measured under the national tonnage rules which were in effect prior to the coming into force of the 1969 Tonnage Convention, for the purpose of application of the provisions of MARPOL 73/78. Such tonnage, however, shall not be shown on the 1969 Tonnage Certificate.

It further provides that "the interim scheme shall not apply to ships the keels of which are laid after 31 December 1985, except that in respect of regulations for ships of less than 400 tons gross tonnage (as measured under previous national rules), the keels of which are laid after 31 December 1985, the Administration may continue to apply the interim scheme until 18 July 1994."

Clause (14) provides that the regulatory measurement system may be used to determine which vessels must demonstrate evidence of financial responsibility (when such a demonstration is required by law). If it is determined that a vessel must show evidence of financial re-

sponsibility, the limits of financial responsibility are determined using the vessel's Convention measurement.

Clause (15) provides that the regulatory measurement system may be used for the application of laws not identified by the Secretary under section 14302(c).

Section 14305(b) provides that if a vessel is measured under the regulatory tonnage measurement system for the application of one law listed in subsection (a), it must be measured under that system for the application of all laws listed in subsection (a).

Section 14306(a) requires that the Secretary accept the measurement and certificate of a vessel of a foreign country as evidence of compliance with this chapter when the Secretary finds that the laws and regulations of that foreign country that are related to measurement are similar to those of this chapter, or that that country is a party to the Convention.

Section 14306(b) provides that the Secretary does not have to accept the measurement and certificate of a vessel of a country that does not recognize United States measurements. It also authorizes the Secretary to apply appropriate measurement standards to such foreign vessels, subject to international agreements to which the United States is a party.

§ 14307. Inspection of foreign vessels

(a) The Secretary may inspect a vessel of a foreign country to verify that—

(1) the vessel has an International Tonnage Certificate (1969) and the main characteristics of the vessel correspond to the information in the certificate; or

(2) if the vessel is from a country not a party to the Convention, the vessel has been measured under laws and regulations similar to those of this chapter and the regulations prescribed under this chapter.

(b) For a vessel of a country that is a party to the Convention, if the inspection reveals that the vessel does not have an International Tonnage Certificate (1969) or that the main characteristics of the vessel differ from those stated on the certificate or other records in a way that increases the gross or net tonnage of the vessel, the Secretary promptly shall inform the country whose flag the vessel is flying.

(c) For a vessel of a country not a party to the Convention—

(1) if the vessel has been measured under laws and regulations that the Secretary finds are similar to those of this chapter and the regulations prescribed under this chapter, the vessel shall be deemed to have been issued an International Tonnage Certificate (1969); and

(2) if the vessel has not been measured as described in clause (1) of this subsection, the Secretary may measure the vessel.

(d) An inspection under this section shall be conducted in a way that does not delay a vessel of a country that is a party to the Convention.

Section 14307(c) provides that if the Secretary finds that a vessel of a country not a party to the Convention has been measured under laws and regulations similar to those of this chapter, that the vessel shall be deemed to have been issued an International Tonnage Certificate. It also provides that the Secretary may measure the vessel if the Secretary finds that the vessel has not been measured under laws and regulations similar to those of this chapter.

HISTORICAL AND REVISION NOTES

This subchapter contains the general provisions for implementing regulatory measurement systems.

§ 14501. Application

This chapter applies to the following:

(1) a vessel not measured under chapter 143 of this title if—

(A) the vessel is to be documented under chapter 121 of this title; or

(B) the application of a law of the United States to the vessel depends on the vessel's tonnage.

Section 14501 delineates the vessels that must be measured under this chapter, i.e. under the regulatory tonnage measurement system. Section 14501(1) states that a vessel must be measured under this chapter if the vessel has not been measured under the International Convention on Tonnage Measurement of Ships, and if the vessel is to be documented as a vessel of the United States under chapter 121 of this subtitle,

or if the application of a United States law depends on the vessels tonnage. Section 14501(2) states that a vessel must be measured under the regulatory measurement system if the owner requests.

§ 14502. Measurement

The Secretary shall measure a vessel to which this chapter applies in the way provided by this chapter.

Section 14503 requires the Secretary to issue a certificate, in a manner that is to be prescribed by the Secretary, as evidence of a vessel's regulatory measurement.

§ 14504. Remeasurement

(a) To the extent necessary, the Secretary shall remeasure a vessel to which this chapter applies if—

(1) the Secretary or the owner alleges an error in its measurement;

(2) the vessel or the use of its space is changed in a way that substantially affects its tonnage;

(3) after being measured under subchapter III of this chapter, the vessel becomes subject to subchapter II of this chapter because the vessel or its use is changed; or

(4) although not required to be measured under subchapter II of this chapter, the vessel was measured under subchapter II and the owner requests that the vessel be measured under subchapter III of this chapter.

(b) Except as provided in this section and chapter 143 of this title, a vessel that has been measured does not have to be remeasured to obtain another document or endorsement under chapter 121 of this title.

Source: Section (U.S. Code) 46 App. U.S.C. 71.

Section 14504(a) provides that the Secretary shall remeasure a vessel that has been measured under the regulatory measurement system if either the Secretary or the owner alleges an error in its measurement; if the vessel, or its use, undergoes a substantial change affecting its tonnage; if the vessel loses its eligibility for measurement under the simplified system because of a change in the vessel or its use; or if the vessel owner re-

quests that the vessel be measured under the simplified system after having been measured under the standard regulatory measurement system. Section 14504(b) provides that a vessel that has been measured does not have to be remeasured to obtain another document or endorsement under chapter 121—“Documentation of Vessels”—except as provided above or in chapter 143 of this subtitle.

SUBCHAPTER II—FORMAL SYSTEMS

HISTORICAL AND REVISION NOTES

This subchapter provides for the standard regulatory measurement of vessels for vessels that do not qualify for the simplified measurement systems.

§ 14511. Application

This subchapter applies to a vessel described in section 14501 of this title if—

- (1) the owner requests; or
- (2) the vessel is—
 - (A) self-propelled;
 - (B) at least 24 meters (79 feet) overall in length; and
 - (C) not operated only for pleasure.

Section 14511 lists the types of vessels that are to be measured under the standard regulatory measurement system. They are vessels for which the owner requests a standard measurement or vessels which are self-propelled, at least 79 feet in length, and not operated only for pleasure.

§ 14512. Standard tonnage measurement

(a) The Secretary shall prescribe regulations for measuring the gross and net tonnages of a vessel under this subchapter. The regulations shall provide for tonnages comparable to the tonnages that could have been assigned under sections 4151 and 4153 of the Revised Statutes of the United States, as sections 4151 and 4153 existed immediately before the enactment of this section.

(b) On application of the owner or master of a vessel of the United States used in foreign trade, the Secretary may attach an appendix to the vessel's register stating the measurement of spaces that may be deducted from gross tonnage under laws and regulations of other countries but not under those of the United States.

Section 14512(a) requires the Secretary to prescribe regulations for regulatory measurement systems. It further provides that the regulations must allow for the determination of tonnages similar to those that could have been found under the existing law (46 App. U.S.C. 75 & 77).

Section 14512(b) authorizes the Secretary to attach an appendix to a vessel's register stating the measurement of spaces that may be deducted from the gross tonnage under laws and regulations of other countries but not under the laws of the United States.

§ 14513. Dual tonnage measurement

(a) On application by the owner and approval by the Secretary, the tonnage of spaces prescribed by the Secretary may be excluded in measuring under this section the gross tonnage of a vessel measured under section 14512 of this title. The spaces prescribed by the Secretary shall be comparable to the spaces that could have been excluded under section 2 of the Act of September 29, 1965 (Public Law 89-219, 79 Stat. 891), as section 2 existed immediately before the enactment of this section.

(b) The Secretary shall prescribe the design, location, and dimensions of the tonnage mark to be placed on a vessel measured under this section.

(c)(1) If a vessel's tonnage mark is below the uppermost part of the load line marks, each certificate stating the vessel's tonnages shall state the gross and net tonnages when the mark is submerged and when it is not submerged.

(2) Except as provided in paragraph (1) of this subsection, a certificate stating a vessel's tonnages may state only one set of gross and net tonnages.

§ 14522. Measurement

HISTORICAL AND REVISION NOTES

Revised section 14701

Source: Section (U.S. Code) 46 App. U.S.C. 83j.

(a) In this section, "length" means the horizontal distance of the hull between the foremost part of the stem and the aftermost part of the stern, excluding fittings and attachments.

Section 14701 provides that the owner, charterer, managing operator, agent, master, and individual in charge of a vessel violating Part J—Measurement of Vessels—are each liable to the U.S. Government for a civil penalty of not more than \$20,000. It also provides that the vessel is liable in rem for the penalty and that each day of a continuing violation is a separate violation.

(b)(1) The Secretary shall assign gross and net tonnages to a vessel based on its length, breadth, depth, other dimensions, and appropriate coefficients.

§ 14702. False statements

(2) The Secretary shall prescribe the way dimensions (except length) are measured and which coefficients are appropriate.

A person knowingly making a false statement or representation in a matter in which a statement or representation is required by this part or a regulation prescribed under this part is liable to the United States Government for a civil penalty of not more than \$20,000 for each false statement or representation. The vessel also is liable in rem for the penalty.

(c) The resulting gross tonnages, taken as a group, reasonably shall reflect the relative internal volumes of the vessels measured under this subchapter. The resulting net tonnages shall be in approximately the same ratios to corresponding gross tonnages as are the net and gross tonnages of comparable vessels measured under subchapter II of this chapter.

(Pub. L. 99-509, title V, §5101(3), Oct. 21, 1986, 100 Stat. 1925.)

(d) Under regulations prescribed by the Secretary, the Secretary may determine the gross and net tonnages of a vessel representative of a designated class, model, or type, and then assign those gross and net tonnages to other vessels of the same class, model, or type.

Section 14522(c) provides that the gross tonnages as measured under this section shall reflect the relative internal volumes of vessels. It provides further that the net tonnages measured under this section shall be in approximately the same ratio to corresponding gross tonnages as are the net and gross tonnages of comparable vessels measured under the standard regulatory measurement system.
