§ 2401. Congressional findings

The Congress makes the following findings:

(1) The ability of United States citizens to engage in international commerce is a fundamental concern of United States policy.

(2) Exports contribute significantly to the economic well-being of the United States and the stability of the world economy by increasing employment and production in the United States, and by earning foreign exchange,

thereby contributing favorably to the trade balance. The restriction of exports from the United States can have serious adverse effects on the balance of payments and on domestic employment, particularly when restrictions applied by the United States are more extensive than those imposed by other countries.

(3) It is important for the national interest of the United States that both the private sector and the Federal Government place a high priority on exports, consistent with the economic, security, and foreign policy objectives of the United States.

(4) The availability of certain materials at home and abroad varies so that the quantity and composition of United States exports and their distribution among importing countries may affect the welfare of the domestic economy and may have an important bearing upon fulfillment of the foreign policy of the United States.

(5) Exports of goods or technology without regard to whether they make a significant contribution to the military potential of individual countries or combinations of countries may adversely affect the national security of the United States.

(6) Uncertainty of export control policy can inhibit the efforts of United States business and work to the detriment of the overall attempt to improve the trade balance of the United States.

(7) Unreasonable restrictions on access to world supplies can cause worldwide political and economic instability, interfere with free international trade, and retard the growth and development of nations.

(8) It is important that the administration of export controls imposed for national security purposes give special emphasis to the need to control exports of technology (and goods which contribute significantly to the transfer of such technology) which could make a significant contribution to the military potential of any country or combination of countries which would be detrimental to the national security of the United States.

(9) Minimization of restrictions on exports of agricultural commodities and products is of critical importance to the maintenance of a sound agricultural sector, to a positive contribution to the balance of payments, to reducing the level of Federal expenditures for agricultural support programs, and to United States cooperation in efforts to eliminate malnutrition and world hunger.

(10) It is important that the administration of export controls imposed for foreign policy purposes give special emphasis to the need to control exports of goods and substances hazardous to the public health and the environment which are banned or severely restricted for use in the United States, and which, if exported, could affect the international reputation of the United States as a responsible trading partner.

(11) Availability to controlled countries of goods and technology from foreign sources is a fundamental concern of the United States and should be eliminated through negotiations and other appropriate means whenever possible.

(12) Excessive dependence of the United States, its allies, or countries sharing common strategic objectives with the United States, on energy and other critical resources from potential adversaries can be harmful to the mutual and individual security of all those countries.

§ 2402. Congressional declaration of policy

The Congress makes the following declarations:

(1) It is the policy of the United States to minimize uncertainties in export control policy and to encourage trade with all countries with which the United States has diplomatic

or trading relations, except those countries with which such trade has been determined by the President to be against the national interest.

(2) It is the policy of the United States to use export controls only after full consideration of the impact on the economy of the United States and only to the extent necessary—

(A) to restrict the export of goods and technology which would make a significant contribution to the military potential of any other country or combination of countries which would prove detrimental to the national security of the United States;

(B) to restrict the export of goods and technology where necessary to further significantly the foreign policy of the United States or to fulfill its declared international obligations; and

(C) to restrict the export of goods where necessary to protect the domestic economy from the excessive drain of scarce materials and to reduce the serious inflationary impact of foreign demand.

(3) It is the policy of the United States (A) to apply any necessary controls to the maximum extent possible in cooperation with all nations, and (B) to encourage observance of a uniform export control policy by all nations with which the United States has defense treaty commitments or common strategic objectives.

(4) It is the policy of the United States to use its economic resources and trade potential to further the sound growth and stability of its economy as well as to further its national security and foreign policy objectives.

(5) It is the policy of the United States—

(A) to oppose restrictive trade practices or boycotts fostered or imposed by foreign countries against other countries friendly to the United States or against any United States person;

(B) to encourage and, in specified cases, require United States persons engaged in the export of goods or technology or other information to refuse to take actions, including furnishing information or entering into or implementing agreements, which have the effect of furthering or supporting the restrictive trade practices or boycotts fostered or imposed by any foreign country against a country friendly to the United States or against any United States person; and

(C) to foster international cooperation and the development of international rules and institutions to assure reasonable access to world supplies.

(6) It is the policy of the United States that the desirability of subjecting, or continuing to subject, particular goods or technology or other information to United States export controls should be subjected to review by and consultation with representatives of appropriate United States Government agencies and private industry.

(7) It is the policy of the United States to use export controls, including license fees, to secure the removal by foreign countries of re-

strictions on access to supplies where such restrictions have or may have a serious domestic inflationary impact, have caused or may cause a serious domestic shortage, or have been imposed for purposes of influencing the foreign policy of the United States. In effecting this policy, the President shall make reasonable and prompt efforts to secure the removal or reduction of such restrictions, policies, or actions through international cooperation and agreement before imposing export controls. No action taken in fulfillment of the policy set forth in this paragraph shall apply to the export of medicine or medical supplies.

(8) It is the policy of the United States to use export controls to encourage other countries to take immediate steps to prevent the use of their territories or resources to aid, encourage, or give sanctuary to those persons involved in directing, supporting, or participating in acts of international terrorism. To achieve this objective, the President shall make reasonable and prompt efforts to secure the removal or reduction of such assistance to international terrorists through international cooperation and agreement before imposing export controls.

(9) It is the policy of the United States to cooperate with other countries with which the United States has defense treaty commitments or common strategic objectives in restricting the export of goods and technology which would make a significant contribution to the military potential of any country or combination of countries which would prove detrimental to the security of the United States and of those countries with which the United States has defense treaty commitments or common strategic objectives, and to encourage other friendly countries to cooperate in restricting the sale of goods and technology that can harm the security of the United States.

(10) It is the policy of the United States that export trade by United States citizens be given a high priority and not be controlled except when such controls (A) are necessary to further fundamental national security, foreign policy, or short supply objectives, (B) will clearly further such objectives, and (C) are administered consistent with basic standards of due process.

(11) It is the policy of the United States to minimize restrictions on the export of agricultural commodities and products.

(12) It is the policy of the United States to sustain vigorous scientific enterprise. To do so involves sustaining the ability of scientists and other scholars freely to communicate research findings, in accordance with applicable provisions of law, by means of publication, teaching, conferences, and other forms of scholarly exchange.

(13) It is the policy of the United States to control the export of goods and substances banned or severely restricted for use in the United States in order to foster public health and safety and to prevent injury to the foreign policy of the United States as well as to the credibility of the United States as a responsible trading partner.

(14) It is the policy of the United States to cooperate with countries which are allies of the United States and countries which share common strategic objectives with the United States in minimizing dependence on imports of energy and other critical resources from potential adversaries and in developing alternative supplies of such resources in order to minimize strategic threats posed by excessive hard currency earnings derived from such resource exports by countries with policies adverse to the security interests of the United States.

“(4) with respect to the Missile Technology Control Regime (‘MTCR’) and its participating governments—

“(A) to improve enforcement and seek a common and stricter interpretation among MTCR members of MTCR principles;

§ 2403. General provisions

(a) Types of licenses

Under such conditions as may be imposed by the Secretary which are consistent with the provisions of this Act [sections 2401 to 2420 of this Appendix], the Secretary may require any of the following types of export licenses:

(1) A validated license, authorizing a specific export, issued pursuant to an application by the exporter.

(2) Validated licenses authorizing multiple exports, issued pursuant to an application by the exporter, in lieu of an individual validated

license for each such export, including, but not limited to, the following:

(A) A distribution license, authorizing exports of goods to approved distributors or users of the goods in countries other than controlled countries, except that the Secretary may establish a type of distribution license appropriate for consignees in the People's Republic of China. The Secretary shall grant the distribution license primarily on the basis of the reliability of the applicant and foreign consignees with respect to the prevention of diversion of goods to controlled countries. The Secretary shall have the responsibility of determining, with the assistance of all appropriate agencies, the reliability of applicants and their immediate consignees. The Secretary's determination shall be based on appropriate investigations of each applicant and periodic reviews of licensees and their compliance with the terms of licenses issued under this Act [sections 2401 to 2420 of this Appendix]. Factors such as the applicant's products or volume of business, or the consignees' geographic location, sales distribution area, or degree of foreign ownership, which may be relevant with respect to individual cases, shall not be determinative in creating categories or general criteria for the denial of applications or withdrawal of a distribution license.

(B) A comprehensive operations license, authorizing exports and reexports of technology and related goods, including items from the list of militarily critical technologies developed pursuant to section 5(d) of this Act [section 2404(d) of this Appendix] which are included on the control list in accordance with that section, from a domestic concern to and among its foreign subsidiaries, affiliates, joint venturers, and licensees that have long-term, contractually defined relations with the exporter, are located in countries other than controlled countries (except the People's Republic of China), and are approved by the Secretary. The Secretary shall grant the license to manufacturing, laboratory, or related operations on the basis of approval of the exporter's systems of control, including internal proprietary controls, applicable to the technology and related goods to be exported rather than approval of individual export transactions. The Secretary and the Commissioner of Customs, consistent with their authorities under section 12(a) of this Act [section 2411(a) of this Appendix] and with the assistance of all appropriate agencies, shall periodically, but not less frequently than annually, perform audits of licensing procedures under this subparagraph in order to assure the integrity and effectiveness of those procedures.

(C) A project license, authorizing exports of goods or technology for a specified activity.

(D) A service supply license, authorizing exports of spare or replacement parts for goods previously exported.

(3) A general license, authorizing exports, without application by the exporter.

(4) Such other licenses as may assist in the effective and efficient implementation of this Act [sections 2401 to 2420 of this Appendix].

(b) Control list

The Secretary shall establish and maintain a list (hereinafter in this Act [sections 2401 to 2420 of this Appendix] referred to as the "control list") stating license requirements (other than for general licenses) for exports of goods and technology under this Act [sections 2401 to 2420 of this Appendix].

(c) Foreign availability

In accordance with the provisions of this Act [sections 2401 to 2420 of this Appendix], the President shall not impose export controls for foreign policy or national security purposes on the export from the United States of goods or technology which he determines are available without restriction from sources outside the United States in sufficient quantities and comparable in quality to those produced in the United States so as to render the controls ineffective in achieving their purposes, unless the President determines that adequate evidence has been presented to him demonstrating that the absence of such controls would prove detrimental to the foreign policy or national security of the United States. In complying with the provisions of this subsection, the President shall give strong emphasis to bilateral or multilateral negotiations to eliminate foreign availability. The Secretary and the Secretary of Defense shall cooperate in gathering information relating to foreign availability, including the establishment and maintenance of a jointly operated computer system.

(d) Right of export

No authority or permission to export may be required under this Act [sections 2401 to 2420 of this Appendix], or under regulations issued under this Act [sections 2401 to 2420 of this Appendix], except to carry out the policies set forth in section 3 of this Act [section 2402 of this Appendix].

(e) Delegation of authority

The President may delegate the power, authority, and discretion conferred upon him by this Act [sections 2401 to 2420 of this Appendix] to such departments, agencies, or officials of the Government as he may consider appropriate, except that no authority under this Act [sections 2401 to 2420 of this Appendix] may be delegated to, or exercised by, any official of any department or agency the head of which is not appointed by the President, by and with the advice and consent of the Senate. The President may not delegate or transfer his power, authority, and discretion to overrule or modify any recommendation or decision made by the Secretary, the Secretary of Defense, or the Secretary of State pursuant to the provisions of this Act [sections 2401 to 2420 of this Appendix].

(f) Notification of public; consultation with business

The Secretary shall keep the public fully apprised of changes in export control policy and procedures instituted in conformity with this Act [sections 2401 to 2420 of this Appendix] with

a view to encouraging trade. The Secretary shall meet regularly with representatives of a broad spectrum of enterprises, labor organizations, and citizens interested in or affected by export controls, in order to obtain their views on United States export control policy and the foreign availability of goods and technology.

(g) Fees

No fee may be charged in connection with the submission or processing of an export license application.

All departments or agencies shall promptly respond, on a case-by-case basis, to re-

quests from other departments or agencies for historical information relating to past license applications.

SEC. 2. *Determinations.* (a) All license applications submitted under the Act and the Regulations or any renewal of, or successor to, the Export Administration Act and the Regulations, shall be resolved or referred to the President no later than 90 calendar days after registration of the completed license application.

(b) The following actions related to processing a license application submitted under the Act and the Regulations or any renewal of, or successor to, the Export Administration Act and the Regulations shall not be counted in calculating the time periods prescribed in this order:

(1) *Agreement of the Applicant.* Delays upon which the Secretary and the applicant mutually agree.

(2) *Prelicense Checks.* Prelicense checks through government channels that may be required to establish the identity and reliability of the recipient of items controlled under the Act and the Regulations or any renewal of, or successor to, the Export Administration Act and the Regulations, provided that:

(A) the need for such prelicense check is established by the Secretary, or by another department or agency if the request for prelicense check is made by such department or agency;

(B) the Secretary requests the prelicense check within 5 days of the determination that it is necessary; and

(C) the Secretary completes the analysis of the result of the prelicense check within 5 days.

(3) *Requests for Government-To-Government Assurances.* Requests for government-to-government assurances of suitable end-use of items approved for export under the Act and the Regulations or any renewal of, or successor to, the Export Administration Act and the Regulations, when failure to obtain such assurances would result in rejection of the application, provided that:

(A) the request for such assurances is sent to the Secretary of State within 5 days of the determination that the assurances are required;

(B) the Secretary of State initiates the request of the relevant government within 10 days thereafter; and

(C) the license is issued within 5 days of the Secretary's receipt of the requested assurances. Whenever such prelicense checks and assurances are not requested within the time periods set forth above, they must be accomplished within the time periods established by this section.

(4) *Multilateral Reviews.* Multilateral review of a license application as provided for under the Act and the Regulations or any renewal of, or successor to, the Export Administration Act and the Regulations, as long as multilateral review is required by the relevant multilateral regime.

(5) *Consultations.* Consultation with other governments, if such consultation is provided for by a relevant multilateral regime or bilateral arrangement as a precondition for approving a license.

SEC. 3. *Initial Processing.* Within 9 days of registration of any license application, the Secretary shall, as appropriate:

(a) request additional information from the applicant. The time required for the applicant to supply the additional information shall not be counted in calculating the time periods prescribed in this section.

(b) refer the application and pertinent information to agencies or departments as stipulated in section 1 of this order, and forward to the agencies any relevant information submitted by the applicant that could not be reduced to electronic form.

(c) assure that the stated classification on the application is correct; return the application if a license is not required; and, if referral to other departments or agencies is not required, grant the application or notify the applicant of the Secretary's intention to deny the application.

SEC. 4. *Department or Agency Review.* (a) Each reviewing department or agency shall specify to the Secretary, within 10 days of receipt of a referral as specified in subsection 3(b), any information not in the ap-

plication that would be required to make a determination, and the Secretary shall promptly request such information from the applicant. If, after receipt of the information so specified or other new information, a reviewing department or agency concludes that additional information would be required to make a determination, it shall promptly specify that additional information to the Secretary, and the Secretary shall promptly request such information from the applicant. The time that may elapse between the date the information is requested by the reviewing department or agency and the date the information is received by the reviewing department or agency shall not be counted in calculating the time periods prescribed in this order. Such information specified by reviewing departments or agencies is in addition to any information that may be requested by the Department of Commerce on its own initiative during the first 9 days after registration of an application.

(b) Within 30 days of receipt of a referral and all required information, a department or agency shall provide the Secretary with a recommendation either to approve or deny the license application. As appropriate, such recommendation may be with the benefit of consultation and discussions in interagency groups established to provide expertise and coordinate interagency consultation. A recommendation that the Secretary deny a license shall include a statement of the reasons for such recommendation that are consistent with the provisions of the Act and the Regulations or any renewal of, or successor to, the Export Administration Act and the Regulations and shall cite both the statutory and the regulatory bases for the recommendation to deny. A department or agency that fails to provide a recommendation within 30 days with a statement of reasons and the statutory and regulatory bases shall be deemed to have no objection to the decision of the Secretary.

SEC. 5. *Interagency Dispute Resolution.* (a) *Committees.* (1)(A) *Export Administration Review Board.* The Export Administration Review Board ("the Board"), which was established by Executive Order No. 11533 of June 4, 1970 [formerly set out above], and continued in Executive Order No. 12002 of July 7, 1977 [set out above], is hereby continued. The Board shall have as its members, the Secretary, who shall be Chair of the Board, the Secretary of State, the Secretary of Defense, and the Secretary of Energy[.] The Chairman of the Joint Chiefs of Staff and the Director of Central Intelligence shall be nonvoting members of the Board. No alternate Board members shall be designated, but the acting head or deputy head of any member department or agency may serve in lieu of the head of the concerned department or agency. The Board may invite the heads of other United States Government departments or agencies, other than the departments or agencies represented by the Board members, to participate in the activities of the Board when matters of interest to such departments or agencies are under consideration.

(B) The Secretary may, from time to time, refer to the Board such particular export license matters, involving questions of national security or other major policy issues, as the Secretary shall select. The Secretary shall also refer to the Board any other such export license matter, upon the request of any other member of the Board or the head of any other United States Government department or agency having any interest in such matter. The Board shall consider the matters so referred to it, giving due consideration to the foreign policy of the United States, the national security, the domestic economy, and concerns about the proliferation of armaments, weapons of mass destruction, missile delivery systems, and advanced conventional weapons and shall make recommendations thereon to the Secretary.

(2) *Advisory Committee on Export Policy.* An Advisory Committee on Export Policy ("ACEP") is established and shall have as its members the Assistant Secretary of Commerce for Export Administration, who shall be Chair of the ACEP, and Assistant Secretary-level rep-

resentatives of the Departments of State, Defense, and Energy[.] Appropriate representatives of the Joint Chiefs of Staff and of the Nonproliferation Center of the Central Intelligence Agency shall be nonvoting members of the ACEP. Representatives of the departments or agencies shall be the appropriate Assistant Secretary or equivalent (or appropriate acting Assistant Secretary or equivalent in lieu of the Assistant Secretary or equivalent) of the concerned department or agency, or appropriate Deputy Assistant Secretary or equivalent (or the appropriate acting Deputy Assistant Secretary or equivalent in lieu of the Deputy Assistant Secretary or equivalent) of the concerned department or agency. Regardless of the department or agency representative's rank, such representative shall speak and vote at the ACEP on behalf of the appropriate Assistant Secretary or equivalent of such department or agency. The ACEP may invite Assistant Secretary-level representatives of other United States Government departments or agencies, other than the departments and agencies represented by the ACEP members, to participate in the activities of the ACEP when matters of interest to such departments or agencies are under consideration.

(3)(A) *Operating Committee.* An Operating Committee ("OC") of the ACEP is established. The Secretary shall appoint its Chair, who shall also serve as Executive Secretary of the ACEP. Its other members shall be representatives of appropriate agencies in the Departments of Commerce, State, Defense, and Energy[.] The appropriate representatives of the Joint Chiefs of Staff and the Nonproliferation Center of the Central Intelligence Agency shall be nonvoting members of the OC. The OC may invite representatives of other United States Government departments or agencies, other than the departments and agencies represented by the OC members, to participate in the activities of the OC when matters of interest to such departments or agencies are under consideration.

(B) The OC shall review all license applications on which the reviewing departments and agencies are not in agreement. The Chair of the OC shall consider the recommendations of the reviewing departments and agencies and inform them of his or her decision on any such matters within 14 days after the deadline for receiving department and agency recommendations. However, for license applications concerning commercial communication satellites and hot-section technologies for the development, production, and overhaul of commercial aircraft engines that are transferred from the United States Munitions List to the Commerce Control List pursuant to regulations issued by the Departments of Commerce and State after the date of this order, the Chair of the OC shall inform reviewing departments and agencies of the majority vote decision of the OC. As described below, any reviewing department or agency may appeal the decision of the Chair of the OC, or the majority vote decision of the OC in cases concerning the commercial communication satellites and hot-section technologies described above, to the Chair of the ACEP. In the absence of a timely appeal, the Chair's decision (or the majority vote decision in the case of license applications concerning the commercial communication satellites and hot-section technologies described above) will be final.

(b) *Resolution Procedures.* (1) If any department or agency disagrees with a licensing determination of the Department of Commerce made through the Chair of the OC (or a majority vote decision of the OC in the case of license applications concerning the commercial communication satellites and the hot-section technologies described in section 5(a)(3)(B)), it may appeal the matter to the ACEP for resolution. A department or agency must appeal a matter within 5 days of such a decision. Appeals must be in writing from an official appointed by the President, by and with the advice and consent of the Senate, or an officer properly acting in such capacity, and must cite both the statutory and the regulatory bases for the appeal. The ACEP shall review all departments' and agencies' information and

recommendations, and the Chair of the ACEP shall inform the reviewing departments and agencies of the majority vote decision of the ACEP within 11 days from the date of receiving notice of the appeal. Within 5 days of the majority vote decision, any dissenting department or agency may appeal the decision by submitting a letter from the head of the department or agency to the Secretary in his or her capacity as the Chair of the Board. Such letter shall cite both the statutory and the regulatory bases for the appeal. Within the same 5-day period, the Secretary may call a meeting on his or her own initiative to consider a license application. In the absence of a timely appeal, the majority vote decision of the ACEP shall be final.

(2) The Board shall review all departments' and agencies' information and recommendations, and such other export control matters as may be appropriate. The Secretary shall inform the reviewing departments and agencies of the majority vote of the Board within 11 days from the date of receiving notice of appeal. Within 5 days of the decision, any department or agency dissenting from the majority vote decision of the Board may appeal the decision by submitting a letter from the head of the dissenting department or agency to the President. In the absence of a timely appeal, the majority vote decision of the Board shall be final.

SEC. 6. *Encryption Products.* In conducting the license review described in section 1 above, with respect to export controls of encryption products that are or would be, on November 15, 1996, designated as defense articles in Category XIII of the United States Munitions List and regulated by the United States Department of State pursuant to the Arms Export Control Act, 22 U.S.C. 2778 *et seq.*, but that subsequently are placed on the Commerce Control List in the Export Administration Regulations, the Departments of State, Defense, Energy, and Justice shall have the opportunity to review any export license application submitted to the Department of Commerce. The Department of Justice shall, with respect to such encryption products, be a voting member of the Export Administration Review Board described in section 5(a)(1) of this order and of the Advisory Committee on Export Policy described in section 5(a)(2) of this order. The Department of Justice shall be a full member of the Operating Committee of the ACEP described in section 5(a)(3) of this order, and of any other committees and consultation groups reviewing export controls with respect to such encryption products.

SEC. 7. The license review process in this order shall take effect beginning with those license applications registered by the Secretary 60 days after the date of this order and shall continue in effect to the extent not inconsistent with any renewal of the Export Administration Act, or with any successor to that Act.

SEC. 8. *Judicial Review.* This order is intended only to improve the internal management of the executive branch and is not intended to, and does not, create any rights to administrative or judicial review, or any other right or benefit or trust responsibility, substantive or procedural, enforceable by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

EX. ORD. NO. 13026. ADMINISTRATION OF EXPORT CONTROLS ON ENCRYPTION PRODUCTS

Ex. Ord. No. 13026, Nov. 15, 1996, 61 F.R. 58767, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including but not limited to the International Emergency Economic Powers Act (50 U.S.C. 1701 *et seq.*), and in order to take additional steps with respect to the national emergency described and declared in

Executive Order 12924 of August 19, 1994 [listed in a table under section 1701 of Title 50, War and National Defense], and continued on August 15, 1995, and on August 14, 1996, I, WILLIAM J. CLINTON, President of the United States of America, have decided that the provisions set forth below shall apply to administration of the export control system maintained by the Export Administration Regulations, 15 CFR Part 730 *et seq.* ("the EAR"). Accordingly, it is hereby ordered as follows:

SECTION 1. *Treatment of Encryption Products.* In order to provide for appropriate controls on the export and foreign dissemination of encryption products, export controls of encryption products that are or would be, on this date, designated as defense articles in Category XIII of the United States Munitions List and regulated by the United States Department of State pursuant to the Arms Export Control Act, 22 U.S.C. 2778 *et seq.* ("the AECA"), but that subsequently are placed on the Commerce Control List in the EAR, shall be subject to the following conditions: (a) I have determined that the export of encryption products described in this section could harm national security and foreign policy interests even where comparable products are or appear to be available from sources outside the United States, and that facts and questions concerning the foreign availability of such encryption products cannot be made subject to public disclosure or judicial review without revealing or implicating classified information that could harm United States national security and foreign policy interests. Accordingly, sections 4(c) and 6(h)(2)-(4) of the Export Administration Act of 1979 ("the EAA"), 50 U.S.C. App. 2403(c) and 2405(h)(2)-(4), as amended and as continued in effect by Executive Order 12924 of August 19, 1994, and by notices of August 15, 1995, and August 14, 1996, all other analogous provisions of the EAA relating to foreign availability, and the regulations in the EAR relating to such EAA provisions, shall not be applicable with respect to export controls on such encryption products. Notwithstanding this, the Secretary of Commerce ("Secretary") may, in his discretion, consider the foreign availability of comparable encryption products in determining whether to issue a license in a particular case or to remove controls on particular products, but is not required to issue licenses in particular cases or to remove controls on particular products based on such consideration;

(b) [Amended Ex. Ord. No. 12981, set out above;]

(c) Because the export of encryption software, like the export of other encryption products described in this section, must be controlled because of such software's functional capacity, rather than because of any possible informational value of such software, such software shall not be considered or treated as "technology," as that term is defined in section 16 of the EAA (50 U.S.C. App. 2415) and in the EAR (61 Fed. Reg. 12714, March 25, 1996);

(d) With respect to encryption products described in this section, the Secretary shall take such actions, including the promulgation of rules, regulations, and amendments thereto, as may be necessary to control the export of assistance (including training) to foreign persons in the same manner and to the same extent as the export of such assistance is controlled under the AECA, as amended by section 151 of Public Law 104-164 [see 22 U.S.C. 2778(b)(1)(A)];

(e) Appropriate controls on the export and foreign dissemination of encryption products described in this section may include, but are not limited to, measures that promote the use of strong encryption products and the development of a key recovery management infrastructure; and

(f) Regulation of encryption products described in this section shall be subject to such further conditions as the President may direct.

SEC. 2. *Effective Date.* The provisions described in section 1 shall take effect as soon as any encryption products described in section 1 are placed on the Commerce Control List in the EAR.

SEC. 3. *Judicial Review.* This order is intended only to improve the internal management of the executive

branch and to ensure the implementation of appropriate controls on the export and foreign dissemination of encryption products. It is not intended to, and does not, create any rights to administrative or judicial review, or any other right or benefit or trust responsibility, substantive or procedural, enforceable by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

§ 2404. National security controls

(a) Authority

(1) In order to carry out the policy set forth in section 3(2)(A) of this Act [section 2402(2)(A) of this Appendix], the President may, in accordance with the provisions of this section, prohibit or curtail the export of any goods or technology subject to the jurisdiction of the United States or exported by any person subject to the jurisdiction of the United States. The authority contained in this subsection includes the authority to prohibit or curtail the transfer of goods or technology within the United States to embassies and affiliates of controlled countries. For purposes of the preceding sentence, the term “affiliates” includes both governmental entities and commercial entities that are controlled in fact by controlled countries. The authority contained in this subsection shall be exercised by the Secretary, in consultation with the Secretary of Defense, and such other departments and agencies as the Secretary considers appropriate, and shall be implemented by means of export licenses described in section 4(a) of this Act [section 2403(a) of this Appendix].

(2) Whenever the Secretary makes any revision with respect to any goods or technology, or with respect to the countries or destinations, affected by export controls imposed under this section, the Secretary shall publish in the Federal Register a notice of such revision and shall specify in such notice that the revision relates to controls imposed under the authority contained in this section.

(3) In issuing regulations to carry out this section, particular attention shall be given to the difficulty of devising effective safeguards to pre-

vent a country that poses a threat to the security of the United States from diverting critical technologies to military use, the difficulty of devising effective safeguards to protect critical goods, and the need to take effective measures to prevent the reexport of critical technologies from other countries to countries that pose a threat to the security of the United States.

(4)(A) No authority or permission may be required under this section to reexport any goods or technology subject to the jurisdiction of the United States to any country which maintains export controls on such goods or technology cooperatively with the United States pursuant to the agreement of the group known as the Coordinating Committee, or pursuant to an agreement described in subsection (k) of this section. The Secretary may require any person reexporting any goods or technology under this subparagraph to notify the Secretary of such reexports.

(B) Notwithstanding subparagraph (A), the Secretary may require authority or permission to reexport the following:

- (i) supercomputers;
- (ii) goods or technology for sensitive nuclear uses (as defined by the Secretary);
- (iii) devices for surreptitious interception of wire or oral communications; and
- (iv) goods or technology intended for such end users as the Secretary may specify by regulation.

(5)(A) Except as provided in subparagraph (B), no authority or permission may be required under this section to reexport any goods or technology subject to the jurisdiction of the United States from any country when the goods or technology to be reexported are incorporated in another good and—

- (i) the value of the controlled United States content of that other good is 25 percent or less of the total value of the good; or
- (ii) the export of the goods or technology to a controlled country would require only notification of the participating governments of the Coordinating Committee.

For purposes of this paragraph, the “controlled United States content” of a good means those goods or technology subject to the jurisdiction of the United States which are incorporated in the good, if the export of those goods or technology from the United States to a country, at the time that the good is exported to that country, would require a validated license.

(B) The Secretary may by regulation provide that subparagraph (A) does not apply to the reexport of a supercomputer which contains goods or technology subject to the jurisdiction of the United States.

(6) Not later than 90 days after the date of the enactment of this paragraph [Aug. 23, 1988], the Secretary shall issue regulations to carry out paragraphs (4) and (5). Such regulations shall define the term “supercomputer” for purposes of those paragraphs.

(b) Policy toward individual countries

(1) In administering export controls for national security purposes under this section, the President shall establish as a list of controlled countries those countries set forth in section

620(f) of the Foreign Assistance Act of 1961 [22 U.S.C. 2370(f)], except that the President may add any country to or remove any country from such list of controlled countries if he determines that the export of goods or technology to such country would or would not (as the case may be) make a significant contribution to the military potential of such country or a combination of countries which would prove detrimental to the national security of the United States. In determining whether a country is added to or removed from the list of controlled countries, the President shall take into account—

(A) the extent to which the country's policies are adverse to the national security interests of the United States;

(B) the country's Communist or non-Communist status;

(C) the present and potential relationship of the country with the United States;

(D) the present and potential relationships of the country with countries friendly or hostile to the United States;

(E) the country's nuclear weapons capability and the country's compliance record with respect to multilateral nuclear weapons agreements to which the United States is a party; and

(F) such other factors as the President considers appropriate.

Nothing in the preceding sentence shall be interpreted to limit the authority of the President provided in this Act [sections 2401 to 2420 of this Appendix] to prohibit or curtail the export of any goods or technology to any country to which exports are controlled for national security purposes other than countries on the list of controlled countries specified in this paragraph. The President shall review not less frequently than every three years in the case of controls maintained cooperatively with other nations, and annually in the case of all other controls, United States policy toward individual countries to determine whether such policy is appropriate in light of the factors set forth in this paragraph.

(2)(A) Except as provided in subparagraph (B), no authority or permission may be required under this section to export goods or technology to a country which maintains export controls on such goods or technology cooperatively with the United States pursuant to the agreement of the group known as the Coordinating Committee or pursuant to an agreement described in subsection (k) of this section, if the export of such goods or technology to the People's Republic of China or a controlled country on the date of the enactment of the Export Enhancement Act of 1988 [Aug. 23, 1988] would require only notification of the participating governments of the Coordinating Committee.

(B)(i) The Secretary may require a license for the export of goods or technology described in subparagraph (A) to such end users as the Secretary may specify by regulation.

(ii) The Secretary may require any person exporting goods or technology under this paragraph to notify the Secretary of those exports.

(C) The Secretary shall, within 3 months after the date of the enactment of the Export Enhancement Act of 1988 [Aug. 23, 1988], determine

which countries referred to in subparagraph (A) are implementing an effective export control system consistent with principles agreed to in the Coordinating Committee, including the following:

(i) national laws providing appropriate civil and criminal penalties and statutes of limitations sufficient to deter potential violations;

(ii) a program to evaluate export license applications that includes sufficient technical expertise to assess the licensing status of exports and ensure the reliability of end-users;

(iii) an enforcement mechanism that provides authority for trained enforcement officers to investigate and prevent illegal exports;

(iv) a system of export control documentation to verify the movement of goods and technology; and

(v) procedures for the coordination and exchange of information concerning violations of the agreement of the Coordinating Committee.

The Secretary shall, at least once each year, review the determinations made under the preceding sentence with respect to all countries referred to in subparagraph (A). The Secretary may, as appropriate, add countries to, or remove countries from, the list of countries that are implementing an effective export control system in accordance with this subparagraph. No authority or permission to export may be required for the export of goods or technology to a country on such list.

(3)(A) No authority or permission may be required under this section to export to any country, other than a controlled country, any goods or technology if the export of the goods or technology to controlled countries would require only notification of the participating governments of the Coordinating Committee.

(B) The Secretary may require any person exporting any goods or technology under subparagraph (A) to notify the Secretary of those exports.

(c) Control list

(1) The Secretary shall establish and maintain, as part of the control list, a list of all goods and technology subject to export controls under this section. Such goods and technology shall be clearly identified as being subject to controls under this section.

(2) The Secretary of Defense and other appropriate departments and agencies shall identify goods and technology for inclusion on the list referred to in paragraph (1). Those items which the Secretary and the Secretary of Defense concur shall be subject to export controls under this section shall comprise such list. If the Secretary and the Secretary of Defense are unable to concur on such items, as determined by the Secretary, the Secretary of Defense may, within 20 days after receiving notification of the Secretary's determination, refer the matter to the President for resolution. The Secretary of Defense shall notify the Secretary of any such referral. The President shall, not later than 20 days after such referral, notify the Secretary of his determination with respect to the inclusion of such items on the list. Failure of the Secretary of Defense to notify the President or the Secretary, or failure of the President to notify

the Secretary, in accordance with this paragraph, shall be deemed by the Secretary to constitute concurrence in the implementation of the actions proposed by the Secretary regarding the inclusion of such items on the list.

(3) The Secretary shall conduct partial reviews of the list established pursuant to this subsection at least once each calendar quarter in order to carry out the policy set forth in section 3(2)(A) of this Act [section 2402(2)(A) of this Appendix] and the provisions of this section, and shall promptly make such revisions of the list as may be necessary after each such review. Before beginning each quarterly review, the Secretary shall publish notice of that review in the Federal Register. The Secretary shall provide a 30-day period during each review for comment and the submission of data, with or without oral presentation, by interested Government agencies and other affected or potentially affected parties. After consultation with appropriate Government agencies, the Secretary shall make a determination of any revisions in the list within 30 days after the end of the review period. The concurrence or approval of any other department or agency is not required before any such revision is made. The Secretary shall publish in the Federal Register any revisions in the list, with an explanation of the reasons for the revisions. The Secretary shall use the data developed from each review in formulating United States proposals relating to multilateral export controls in the group known as the Coordinating Committee. The Secretary shall further assess, as part of each review, the availability from sources outside the United States of goods and technology comparable to those subject to export controls imposed under this section. All goods and technology on the list shall be reviewed at least once each year. The provisions of this paragraph apply to revisions of the list which consist of removing items from the list or making changes in categories of, or other specifications in, items on the list.

(4) The appropriate technical advisory committee appointed under subsection (h) of this section shall be consulted by the Secretary with respect to changes, pursuant to paragraph (2) or (3), in the list established pursuant to this subsection, and such technical advisory committee may submit recommendations to the Secretary with respect to such changes. The Secretary shall consider the recommendations of the technical advisory committee and shall inform the committee of the disposition of its recommendations.

(5)(A) Not later than 6 months after the date of the enactment of this paragraph [Aug. 23, 1988], the following shall no longer be subject to export controls under this section:

(i) All goods or technology the export of which to controlled countries on the date of the enactment of the Export Enhancement Act of 1988 [Aug. 23, 1988] would require only notification of the participating governments of the Coordinating Committee, except for those goods or technology on which the Coordinating Committee agrees to maintain such notification requirement.

(ii) All medical instruments and equipment, subject to the provisions of subsection (m) of this section.

(B) The Secretary shall submit to the Congress annually a report setting forth the goods and technology from which export controls have been removed under this paragraph.

(6)(A) Notwithstanding subsection (f) or (h)(6) of this section, any export control imposed under this section which is maintained unilaterally by the United States shall expire 6 months after the date of the enactment of this paragraph [Aug. 23, 1988], or 6 months after the export control is imposed, whichever date is later, except that—

(i) any such export controls on those goods or technology for which a determination of the Secretary that there is no foreign availability has been made under subsection (f) or (h)(6) of this section before the end of the applicable 6-month period and is in effect may be renewed for periods of not more than 6 months each, and

(ii) any such export controls on those goods or technology with respect to which the President, by the end of the applicable 6-month period, is actively pursuing negotiations with other countries to achieve multilateral export controls on those goods or technology may be renewed for 2 periods of not more than 6 months each.

(B) Export controls on goods or technology described in clause (i) or (ii) of subparagraph (A) may be renewed only if, before each renewal, the President submits to the Congress a report setting forth all the controls being renewed and stating the specific reasons for such renewal.

(7) Notwithstanding any other provision of this subsection, after 1 year has elapsed since the last review in the Federal Register on any item within a category on the control list the export of which to the People's Republic of China would require only notification of the members of the group known as the Coordinating Committee, an export license applicant may file an allegation with the Secretary that such item has not been so reviewed within such 1-year period. Within 90 days after receipt of such allegation, the Secretary—

(A) shall determine the truth of the allegation;

(B) shall, if the allegation is confirmed, commence and complete the review of the item; and

(C) shall, pursuant to such review, submit a finding for publication in the Federal Register.

In such finding, the Secretary shall identify those goods or technology which shall remain on the control list and those goods or technology which shall be removed from the control list. If such review and submission for publication are not completed within that 90-day period, the goods or technology encompassed by such item shall immediately be removed from the control list.

(d) Militarily critical technologies

(1) The Secretary, in consultation with the Secretary of Defense, shall review and revise the list established pursuant to subsection (c), as prescribed in paragraph (3) of such subsection, for the purpose of insuring that export controls

imposed under this section cover and (to the maximum extent consistent with the purposes of this Act [sections 2401 to 2420 of this Appendix]) are limited to militarily critical goods and technologies and the mechanisms through which such goods and technologies may be effectively transferred.

(2) The Secretary of Defense shall bear primary responsibility for developing a list of militarily critical technologies. In developing such list, primary emphasis shall be given to—

(A) arrays of design and manufacturing know-how,

(B) keystone manufacturing, inspection, and test equipment,

(C) goods accompanied by sophisticated operation, application, or maintenance know-how, and

(D) keystone equipment which would reveal or give insight into the design and manufacture of a United States military system,

which are not possessed by, or available in fact from sources outside the United States to, controlled countries and which, if exported, would permit a significant advance in a military system of any such country.

(3) The list referred to in paragraph (2) shall be sufficiently specific to guide the determinations of any official exercising export licensing responsibilities under this Act [sections 2401 to 2420 of this Appendix].

(4) The Secretary and the Secretary of Defense shall integrate items on the list of militarily critical technologies into the control list in accordance with the requirements of subsection (c) of this section. The integration of items on the list of militarily critical technologies into the control list shall proceed with all deliberate speed. Any disagreement between the Secretary and the Secretary of Defense regarding the integration of an item on the list of militarily critical technologies into the control list shall be resolved by the President. Except in the case of a good or technology for which a validated license may be required under subsection (f)(4) or (h)(6) of this section, a good or technology shall be included on the control list only if the Secretary finds that controlled countries do not possess that good or technology, or a functionally equivalent good or technology, and the good or technology or functionally equivalent good or technology is not available in fact to a controlled country from sources outside the United States in sufficient quantity and of comparable quality so that the requirement of a validated license for the export of such good or technology is or would be ineffective in achieving the purpose set forth in subsection (a) of this section. The Secretary and the Secretary of Defense shall jointly submit a report to the Congress, not later than 1 year after the date of the enactment of the Export Administration Amendments Act of 1985 [July 12, 1985], on actions taken to carry out this paragraph. For the purposes of this paragraph, assessment of whether a good or technology is functionally equivalent shall include consideration of the factors described in subsection (f)(3) of this section.

(5) The Secretary of Defense shall establish a procedure for reviewing the goods and technology on the list of militarily critical tech-

nologies on an ongoing basis for the purpose of removing from the list of militarily critical technologies any goods or technology that are no longer militarily critical. The Secretary of Defense may add to the list of militarily critical technologies any good or technology that the Secretary of Defense determines is militarily critical, consistent with the provisions of paragraph (2) of this subsection. If the Secretary and the Secretary of Defense disagree as to whether any change in the list of militarily critical technologies by the addition or removal of a good or technology should also be made in the control list, consistent with the provisions of the fourth sentence of paragraph (4) of this subsection, the President shall resolve the disagreement.

(6) The establishment of adequate export controls for militarily critical technology and keystone equipment shall be accompanied by suitable reductions in the controls on the products of that technology and equipment.

(7) The Secretary of Defense shall, not later than 1 year after the date of the enactment of the Export Administration Amendments Act of 1985 [July 12, 1985], report to the Congress on efforts by the Department of Defense to assess the impact that the transfer of goods or technology on the list of militarily critical technologies to controlled countries has had or will have on the military capabilities of those countries.

(e) Export licenses

(1) The Congress finds that the effectiveness and efficiency of the process of making export licensing determinations under this section is severely hampered by the large volume of validated export license applications required to be submitted under this Act [sections 2401 to 2420 of this Appendix]. Accordingly, it is the intent of Congress in this subsection to encourage the use of the multiple validated export licenses described in section 4(a)(2) of this Act [section 2403(a)(2) of this Appendix] in lieu of individual validated licenses.

(2) To the maximum extent practicable, consistent with the national security of the United States, the Secretary shall require a validated license under this section for the export of goods or technology only if—

(A) the export of such goods or technology is restricted pursuant to a multilateral agreement, formal or informal, to which the United States is a party and, under the terms of such multilateral agreement, such export requires the specific approval of the parties to such multilateral agreement;

(B) with respect to such goods or technology, other nations do not possess capabilities comparable to those possessed by the United States; or

(C) the United States is seeking the agreement of other suppliers to apply comparable controls to such goods or technology and, in the judgment of the Secretary, United States export controls on such goods or technology, by means of such license, are necessary pending the conclusion of such agreement.

(3) The Secretary, subject to the provisions of subsection (l) of this section, shall not require an individual validated export license for replacement parts which are exported to replace

on a one-for-one basis parts that were in a good that has been lawfully exported from the United States.

(4) The Secretary shall periodically review the procedures with respect to the multiple validated export licenses, taking appropriate action to increase their utilization by reducing qualification requirements or lowering minimum thresholds, to combine procedures which overlap, and to eliminate those procedures which appear to be of marginal utility.

(5) The export of goods subject to export controls under this section shall be eligible, at the discretion of the Secretary, for a distribution license and other licenses authorizing multiple exports of goods, in accordance with section 4(a)(2) of this Act [section 2403(a)(2) of this Appendix]. The export of technology and related goods subject to export controls under this section shall be eligible for a comprehensive operations license in accordance with section 4(a)(2)(B) of this Act [section 2403(a)(2)(B) of this Appendix].

(6) Any application for a license for the export to the People's Republic of China of any good on which export controls are in effect under this section, without regard to the technical specifications of the good, for the purpose of demonstration or exhibition at a trade show shall carry a presumption of approval if—

(A) the United States exporter retains title to the good during the entire period in which the good is in the People's Republic of China; and

(B) the exporter removes the good from the People's Republic of China no later than at the conclusion of the trade show.

(f) Foreign availability

(1) Foreign availability to controlled countries

(A) The Secretary, in consultation with the Secretary of Defense and other appropriate Government agencies and with appropriate technical advisory committees established pursuant to subsection (h) of this section, shall review, on a continuing basis, the availability to controlled countries, from sources outside the United States, including countries which participate with the United States in multilateral export controls, of any goods or technology the export of which requires a validated license under this section. In any case in which the Secretary determines, in accordance with procedures and criteria which the Secretary shall by regulation establish, that any such goods or technology are available in fact to controlled countries from such sources in sufficient quantity and of comparable quality so that the requirement of a validated license for the export of such goods or technology is or would be ineffective in achieving the purpose set forth in subsection (a) of this section, the Secretary may not, after the determination is made, require a validated license for the export of such goods or technology during the period of such foreign availability, unless the President determines that the absence of export controls under this section on the goods or technology would prove detrimental to the national security of the United States. In any case in which the President determines

under this paragraph that export controls under this section must be maintained notwithstanding foreign availability, the Secretary shall publish that determination, together with a concise statement of its basis and the estimated economic impact of the decision.

(B) The Secretary shall approve any application for a validated license which is required under this section for the export of any goods or technology to a controlled country and which meets all other requirements for such an application, if the Secretary determines that such goods or technology will, if the license is denied, be available in fact to such country from sources outside the United States, including countries which participate with the United States in multilateral export controls, in sufficient quantity and of comparable quality so that denial of the license would be ineffective in achieving the purpose set forth in subsection (a) of this section, unless the President determines that approving the license application would prove detrimental to the national security of the United States. In any case in which the Secretary makes a determination of foreign availability under this subparagraph with respect to any goods or technology, the Secretary shall determine whether a determination of foreign availability under subparagraph (A) with respect to such goods or technology is warranted.

(2) Foreign availability to other than controlled countries

(A) The Secretary shall review, on a continuing basis, the availability to countries other than controlled countries, from sources outside the United States, of any goods or technology the export of which requires a validated license under this section. If the Secretary determines, in accordance with procedures which the Secretary shall establish, that any goods or technology in sufficient quantity and of comparable quality are available in fact from sources outside the United States (other than availability under license from a country which maintains export controls on such goods or technology cooperatively with the United States pursuant to the agreement of the group known as the Coordinating Committee or pursuant to an agreement described in subsection (k) of this section), the Secretary may not, after the determination is made and during the period of such foreign availability, require a validated license for the export of such goods or technology to any country (other than a controlled country) to which the country from which the goods or technology is available does not place controls on the export of such goods or technology. The requirement with respect to a validated license in the preceding sentence shall not apply if the President determines that the absence of export controls under this section on the goods or technology would prove detrimental to the national security of the United States. In any case in which the President determines under this paragraph that export controls under this section must be maintained notwithstanding foreign avail-

ability, the Secretary shall publish that determination, together with a concise statement of its basis and the estimated economic impact of the decision.

(B) The Secretary shall approve any application for a validated license which is required under this section for the export of any goods or technology to a country (other than a controlled country) and which meets all other requirements for such an application, if the Secretary determines that such goods or technology are available from foreign sources to that country under the criteria established in subparagraph (A), unless the President determines that approving the license application would prove detrimental to the national security of the United States. In any case in which the Secretary makes a determination of foreign availability under this subparagraph with respect to any goods or technology, the Secretary shall determine whether a determination of foreign availability under subparagraph (A) with respect to such goods or technology is warranted.

(3) Procedures for making determinations

(A) The Secretary shall make a foreign availability determination under paragraph (1) or (2) on the Secretary's own initiative or upon receipt of an allegation from an export license applicant that such availability exists. In making any such determination, the Secretary shall accept the representations of applicants made in writing and supported by reasonable evidence, unless such representations are contradicted by reliable evidence, including scientific or physical examination, expert opinion based upon adequate factual information, or intelligence information. In making determinations of foreign availability, the Secretary may consider such factors as cost, reliability, the availability and reliability of spare parts and the cost and quality thereof, maintenance programs, durability, quality of end products produced by the item proposed for export, and scale of production. For purposes of this subparagraph, "evidence" may include such items as foreign manufacturers' catalogues, brochures, or operations or maintenance manuals, articles from reputable trade publications, photographs, and depositions based upon eyewitness accounts.

(B) In a case in which an allegation is received from an export license applicant, the Secretary shall, upon receipt of the allegation, submit for publication in the Federal Register notice of such receipt. Within 4 months after receipt of the allegation, the Secretary shall determine whether the foreign availability exists, and shall so notify the applicant. If the Secretary has determined that the foreign availability exists, the Secretary shall, upon making such determination, submit the determination for review to other departments and agencies as the Secretary considers appropriate. The Secretary's determination of foreign availability does not require the concurrence or approval of any official, department, or agency to which such a determination is submitted. Not later than 1 month after the Secretary makes the determination, the Sec-

retary shall respond in writing to the applicant and submit for publication in the Federal Register, that—

(i) the foreign availability does exist and—
(I) the requirement of a validated license has been removed,

(II) the President has determined that export controls under this section must be maintained notwithstanding the foreign availability and the applicable steps are being taken under paragraph (4), or

(III) in the case of a foreign availability determination under paragraph (1), the foreign availability determination will be submitted to a multilateral review process in accordance with the agreement of the Coordinating Committee for a period of not more than 4 months beginning on the date of the publication; or

(ii) the foreign availability does not exist.

In any case in which the submission for publication is not made within the time period specified in the preceding sentence, the Secretary may not thereafter require a license for the export of the goods or technology with respect to which the foreign availability allegation was made. In the case of a foreign availability determination under paragraph (1) to which clause (i)(III) applies, no license for such export may be required after the end of the 9-month period beginning on the date on which the allegation is received.

(4) Negotiations to eliminate foreign availability

(A) In any case in which export controls are maintained under this section notwithstanding foreign availability, on account of a determination by the President that the absence of the controls would prove detrimental to the national security of the United States, the President shall actively pursue negotiations with the governments of the appropriate foreign countries for the purpose of eliminating such availability. No later than the commencement of such negotiations, the President shall notify in writing the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Foreign Affairs of the House of Representatives that he has begun such negotiations and why he believes it is important to national security that export controls on the goods or technology involved be maintained.

(B) If, within 6 months after the President's determination that export controls be maintained, the foreign availability has not been eliminated, the Secretary may not, after the end of that 6-month period, require a validated license for the export of the goods or technology involved. The President may extend the 6-month period described in the preceding sentence for an additional period of 12 months if the President certifies to the Congress that the negotiations involved are progressing and that the absence of the export controls involved would prove detrimental to the national security of the United States. Whenever the President has reason to believe that goods or technology subject to export controls for

national security purposes by the United States may become available from other countries to controlled countries and that such availability can be prevented or eliminated by means of negotiations with such other countries, the President shall promptly initiate negotiations with the governments of such other countries to prevent such foreign availability.

(C) After an agreement is reached with a country pursuant to negotiations under this paragraph to eliminate or prevent foreign availability of goods or technology, the Secretary may not require a validated license for the export of such goods or technology to that country.

(5) Expedited licenses for items available to countries other than controlled countries

(A) In any case in which the Secretary finds that any goods or technology from foreign sources is of similar quality to goods or technology the export of which requires a validated license under this section and is available to a country other than a controlled country without effective restrictions, the Secretary shall designate such goods or technology as eligible for export to such country under this paragraph.

(B) In the case of goods or technology designated under subparagraph (A), then 20 working days after the date of formal filing with the Secretary of an individual validated license application for the export of those goods or technology to an eligible country, a license for the transaction specified in the application shall become valid and effective and the goods or technology are authorized for export pursuant to such license unless the license has been denied by the Secretary on account of an inappropriate end user. The Secretary may extend the 20-day period provided in the preceding sentence for an additional period of 15 days if the Secretary requires additional time to consider the application and so notifies the applicant.

(C) The Secretary may make a foreign availability determination under subparagraph (A) on the Secretary's own initiative, upon receipt of an allegation from an export license applicant that such availability exists, or upon the submission of a certification by a technical advisory committee of appropriate jurisdiction that such availability exists. Upon receipt of such an allegation or certification, the Secretary shall publish notice of such allegation or certification in the Federal Register and shall make the foreign availability determination within 30 days after such receipt and publish the determination in the Federal Register. In the case of the failure of the Secretary to make and publish such determination within that 30-day period, the goods or technology involved shall be deemed to be designated as eligible for export to the country or countries involved, for purposes of subparagraph (B).

(D) The provisions of paragraphs (1), (2), (3), and (4) do not apply with respect to determinations of foreign availability under this paragraph.

(6) Office of Foreign Availability

The Secretary shall establish in the Department of Commerce an Office of Foreign Availability, which shall be under the direction of the Under Secretary of Commerce for Export Administration. The Office shall be responsible for gathering and analyzing all the necessary information in order for the Secretary to make determinations of foreign availability under this Act [sections 2401 to 2420 of this Appendix]. The Secretary shall make available to the Committee on Foreign Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate at the end of each 6-month period during a fiscal year information on the operations of the Office, and on improvements in the Government's ability to assess foreign availability, during that 6-month period, including information on the training of personnel, the use of computers, and the use of Commercial Service Officers of the United States and Foreign Commercial Service. Such information shall also include a description of representative determinations made under this Act [sections 2401 to 2420 of this Appendix] during that 6-month period that foreign availability did or did not exist (as the case may be), together with an explanation of such determinations.

(7) Sharing of information

Each department or agency of the United States, including any intelligence agency, and all contractors with any such department or agency, shall, upon the request of the Secretary and consistent with the protection of intelligence sources and methods, furnish information to the Office of Foreign Availability concerning foreign availability of goods and technology subject to export controls under this Act [sections 2401 to 2420 of this Appendix]. Each such department or agency shall allow the Office of Foreign Availability access to any information from a laboratory or other facility within such department or agency.

(8) Removal of controls on less sophisticated goods or technology

In any case in which¹ Secretary may not, pursuant to paragraph (1), (2), (3), or (4) of this subsection or paragraph (6) of subsection (h) of this section, require a validated license for the export of goods or technology, then the Secretary may not require a validated license for the export of any similar goods or technology whose function, technological approach, performance thresholds, and other attributes that form the basis for export controls under this section do not exceed the technical parameters of the goods or technology from which the validated license requirement is removed under the applicable paragraph.

(9) Notice of all foreign availability assessments

Whenever the Secretary undertakes a foreign availability assessment under this subsection or subsection (h)(6), the Secretary shall publish notice of such assessment in the Federal Register.

¹ So in original. Probably should be followed by "the".

(10) Availability defined

For purposes of this subsection and subsections (f) and (h), the term “available in fact to controlled countries” includes production or availability of any goods or technology in any country—

(A) from which the goods or technology is not restricted for export to any controlled country; or

(B) in which such export restrictions are determined by the Secretary to be ineffective.

For purposes of subparagraph (B), the mere inclusion of goods or technology on a list of goods or technology subject to bilateral or multilateral national security export controls shall not alone constitute credible evidence that a country provides an effective means of controlling the export of such goods or technology to controlled countries.

(g) Indexing

(1) In order to ensure that requirements for validated licenses and other licenses authorizing multiple exports are periodically removed as goods or technology subject to such requirements becomes obsolete with respect to the national security of the United States, regulations issued by the Secretary may, where appropriate, provide for annual increases in the performance levels of goods or technology subject to any such licensing requirement. The regulations issued by the Secretary shall establish as one criterion for the removal of goods or technology from such license requirements the anticipated needs of the military of controlled countries. Any such goods or technology which no longer meets the performance levels established by the regulations shall be removed from the list established pursuant to subsection (c) of this section unless, under such exceptions and under such procedures as the Secretary shall prescribe, any other department or agency of the United States objects to such removal and the Secretary determines, on the basis of such objection, that the goods or technology shall not be removed from the list. The Secretary shall also consider, where appropriate, removing site visitation requirements for goods and technology which are removed from the list unless objections described in this subsection are raised.

(2)(A) In carrying out this subsection, the Secretary shall conduct annual reviews of the performance levels of goods or technology—

(i) which are eligible for export under a distribution license,

(ii) below which exports to the People’s Republic of China require only notification of the governments participating in the group known as the Coordinating Committee, and

(iii) below which no authority or permission to export may be required under subsection (b)(2) or (b)(3) of this section.

The Secretary shall make appropriate adjustments to such performance levels based on these reviews.

(B) In any case in which the Secretary receives a request which—

(i) is to revise the qualification requirements or minimum thresholds of any goods el-

igible for export under a distribution license, and

(ii) is made by an exporter of such goods, representatives of an industry which produces such goods, or a technical advisory committee established under subsection (h) of this section,

the Secretary, after consulting with other appropriate Government agencies and technical advisory committees established under subsection (h) of this section, shall determine whether to make such revision, or some other appropriate revision, in such qualification requirements or minimum thresholds. In making this determination, the Secretary shall take into account the availability of the goods from sources outside the United States. The Secretary shall make a determination on a request made under this subparagraph within 90 days after the date on which the request is filed. If the Secretary’s determination pursuant to such a request is to make a revision, such revision shall be implemented within 120 days after the date on which the request is filed and shall be published in the Federal Register.

(h) Technical advisory committees

(1) Upon written request by representatives of a substantial segment of any industry which produces any goods or technology subject to export controls under this section or being considered for such controls because of their significance to the national security of the United States, the Secretary shall appoint a technical advisory committee for any such goods or technology which the Secretary determines are difficult to evaluate because of questions concerning technical matters, worldwide availability, and actual utilization of production and technology, or licensing procedures. Each such committee shall consist of representatives of United States industry and Government, including the Departments of Commerce, Defense, and State, the intelligence community, and, in the discretion of the Secretary, other Government departments and agencies. No person serving on any such committee who is a representative of industry shall serve on such committee for more than four consecutive years.

(2) Technical advisory committees established under paragraph (1) shall advise and assist the Secretary, the Secretary of Defense, and any other department, agency, or official of the Government of the United States to which the President delegates authority under this Act [sections 2401 to 2420 of this Appendix], with respect to actions designed to carry out the policy set forth in section 3(2)(A) of this Act [section 2402(2)(A) of this Appendix]. Such committees, where they have expertise in such matters, shall be consulted with respect to questions involving (A) technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to any goods or technology, (D) revisions of the control list (as provided in subsection (c)(4)), including proposed revisions of multilateral controls in which the United States participates, (E) the issuance of regulations, and (F) any other questions relating to actions designed to carry out the pol-

icy set forth in section 3(2)(A) of this Act [section 2402(2)(A) of this Appendix]. Nothing in this subsection shall prevent the Secretary or the Secretary of Defense from consulting, at any time, with any person representing industry or the general public, regardless of whether such person is a member of a technical advisory committee. Members of the public shall be given a reasonable opportunity, pursuant to regulations prescribed by the Secretary, to present evidence to such committees.

(3) Upon request of any member of any such committee, the Secretary may, if the Secretary determines it appropriate, reimburse such member for travel, subsistence, and other necessary expenses incurred by such member in connection with the duties of such member.

(4) Each such committee shall elect a chairman, and shall meet at least every three months at the call of the chairman, unless the chairman determines, in consultation with the other members of the committee, that such a meeting is not necessary to achieve the purposes of this subsection. Each such committee shall be terminated after a period of 2 years, unless extended by the Secretary for additional periods of 2 years. The Secretary shall consult each such committee with respect to such termination or extension of that committee.

(5) To facilitate the work of the technical advisory committees, the Secretary, in conjunction with other departments and agencies participating in the administration of this Act [sections 2401 to 2420 of this Appendix], shall disclose to each such committee adequate information, consistent with national security, pertaining to the reasons for the export controls which are in effect or contemplated for the goods or technology with respect to which that committee furnishes advice.

(6) Whenever a technical advisory committee certifies to the Secretary that goods or technology with respect to which such committee was appointed have become available in fact, to controlled countries, from sources outside the United States, including countries which participate with the United States in multilateral export controls, in sufficient quantity and of comparable quality so that requiring a validated license for the export of such goods or technology would be ineffective in achieving the purpose set forth in subsection (a) of this section, the technical advisory committee shall submit that certification to the Congress at the same time the certification is made to the Secretary, together with the documentation for the certification. The Secretary shall investigate the foreign availability so certified and, not later than 90 days after the certification is made, shall submit a report to the technical advisory committee and the Congress stating that—

(A) the Secretary has removed the requirement of a validated license for the export of the goods or technology, on account of the foreign availability,

(B) the Secretary has recommended to the President that negotiations be conducted to eliminate the foreign availability, or

(C) the Secretary has determined on the basis of the investigation that the foreign availability does not exist.

To the extent necessary, the report may be submitted on a classified basis. In any case in which the Secretary has recommended to the President that negotiations be conducted to eliminate the foreign availability, the President shall actively pursue such negotiations with the governments of the appropriate foreign countries. If, within 6 months after the Secretary submits such report to the Congress, the foreign availability has not been eliminated, the Secretary may not, after the end of that 6-month period, require a validated license for the export of the goods or technology involved. The President may extend the 6-month period described in the preceding sentence for an additional period of 12 months if the President certifies to the Congress that the negotiations involved are progressing and that the absence of the export control involved would prove detrimental to the national security of the United States. After an agreement is reached with a country pursuant to negotiations under this paragraph to eliminate foreign availability of goods or technology, the Secretary may not require a validated license for the export of such goods or technology to that country.

(i) Multilateral export controls

Recognizing the ineffectiveness of unilateral controls and the importance of uniform enforcement measures to the effectiveness of multilateral controls, the President shall enter into negotiations with the governments participating in the group known as the Coordinating Committee (hereinafter in this subsection referred to as the "Committee") with a view toward accomplishing the following objectives:

(1) Enhanced public understanding of the Committee's purpose and procedures, including publication of the list of items controlled for export by agreement of the Committee, together with all notes, understandings, and other aspects of such agreement of the Committee, and all changes thereto.

(2) Periodic meetings of high-level representatives of participating governments for the purpose of coordinating export control policies and issuing policy guidance to the Committee.

(3) Strengthened legal basis for each government's export control system, including, as appropriate, increased penalties and statutes of limitations.

(4) Harmonization of export control documentation by the participating governments to verify the movement of goods and technology subject to controls by the Committee.

(5) Improved procedures for coordination and exchange of information concerning violations of the agreement of the Committee.

(6) Procedures for effective implementation of the agreement through uniform and consistent interpretations of export controls agreed to by the governments participating in the Committee.

(7) Coordination of national licensing and enforcement efforts by governments participating in the Committee, including sufficient technical expertise to assess the licensing status of exports and to ensure end-use verification.

(8) More effective procedures for enforcing export controls, including adequate training,

resources, and authority for enforcement officers to investigate and prevent illegal exports.

(9) Agreement to provide adequate resources to enhance the functioning of individual national export control systems and of the Committee.

(10) Improved enforcement and compliance with the agreement through elimination of unnecessary export controls and maintenance of an effective control list.

(11) Agreement to enhance cooperation among members of the Committee in obtaining the agreement of governments outside the Committee to restrict the export of goods and technology on the International Control List, to establish an ongoing mechanism in the Committee to coordinate planning and implementation of export control measures related to such agreements, and to remove items from the International Control List if such items continue to be available to controlled countries or if the control of the items no longer serves the common strategic objectives of the members of the Committee.

For purposes of reviews of the International Control List, the President may include as advisors to the United States delegation to the Committee representatives of industry who are knowledgeable with respect to the items being reviewed.

(j) Commercial agreements with certain countries

(1) Any United States firm, enterprise, or other nongovernmental entity which enters into an agreement with any agency of the government of a controlled country, that calls for the encouragement of technical cooperation and that is intended to result in the export from the United States to the other party of unpublished technical data of United States origin, shall report to the Secretary the agreement with such agency in sufficient detail.

(2) The provisions of paragraph (1) shall not apply to colleges, universities, or other educational institutions.

(k) Negotiations with other countries

The Secretary of State, in consultation with the Secretary of Defense, the Secretary of Commerce, and the heads of other appropriate departments and agencies, shall be responsible for conducting negotiations with other countries, including those countries not participating in the group known as the Coordinating Committee, regarding their cooperation in restricting the export of goods and technology in order to carry out the policy set forth in section 3(9) of this Act [section 2402(9) of this Appendix], as authorized by subsection (a) of this section, including negotiations with respect to which goods and technology should be subject to multilaterally agreed export restrictions and what conditions should apply for exceptions from those restrictions. In cases where such negotiations produce agreements on export restrictions comparable in practice to those maintained by the Coordinating Committee, the Secretary shall treat exports, whether by individual or multiple licenses, to countries party to such agreements in the same manner as exports to

members of the Coordinating Committee are treated, including the same manner as exports are treated under subsection (b)(2) of this section and section 10(o) of this Act [section 2409(o) of this Appendix].

(l) Diversion of controlled goods or technology

(1) Whenever there is reliable evidence, as determined by the Secretary, that goods or technology which were exported subject to national security controls under this section to a controlled country have been diverted to an unauthorized use or consignee in violation of the conditions of an export license, the Secretary for as long as that diversion continues—

(A) shall deny all further exports, to or by the party or parties responsible for that diversion or who conspired in that diversion, of any goods or technology subject to national security controls under this section, regardless of whether such goods or technology are available from sources outside the United States; and

(B) may take such additional actions under this Act [sections 2401 to 2420 of this Appendix] with respect to the party or parties referred to in subparagraph (A) as the Secretary determines are appropriate in the circumstances to deter the further unauthorized use of the previously exported goods or technology.

(2) As used in this subsection, the term “unauthorized use” means the use of United States goods or technology in the design, production, or maintenance of any item on the United States Munitions List, or the military use of any item on the International Control List of the Coordinating Committee.

(m) Goods containing controlled parts and components

Export controls may not be imposed under this section, or under any other provision of law, on a good solely on the basis that the good contains parts or components subject to export controls under this section if such parts or components—

(1) are essential to the functioning of the good,

(2) are customarily included in sales of the good in countries other than controlled countries, and

(3) comprise 25 percent or less of the total value of the good,

unless the good itself, if exported, would by virtue of the functional characteristics of the good as a whole make a significant contribution to the military potential of a controlled country which would prove detrimental to the national security of the United States.

(n) Security measures

The Secretary and the Commissioner of Customs, consistent with their authorities under section 12(a) of this Act [section 2411(a) of this Appendix], and in consultation with the Director of the Federal Bureau of Investigation, shall provide advice and technical assistance to persons engaged in the manufacture or handling of goods or technology subject to export controls under this section to develop security systems to prevent violations or evasions of those export controls.

(o) Recordkeeping

The Secretary, the Secretary of Defense, and any other department or agency consulted in connection with a license application under this Act [sections 2401 to 2420 of this Appendix] or a revision of a list of goods or technology subject to export controls under this Act [sections 2401 to 2420 of this Appendix], shall make and keep records of their respective advice, recommendations, or decisions in connection with any such license application or revision, including the factual and analytical basis of the advice, recommendations, or decisions.

NATIONAL SECURITY IMPLICATIONS OF UNITED STATES
EXPORT CONTROL POLICY

Pub. L. 104-106, div. A, title XIII, §1322, Feb. 10, 1996, 110 Stat. 478, provided that:

“(a) FINDINGS.—Congress makes the following findings:

“(1) Export controls remain an important element of the national security policy of the United States.

“(2) It is in the national security interest that United States export control policy be effective in preventing the transfer, to potential adversaries or combatants of the United States, of technology that threatens the national security or defense of the United States.

“(3) It is in the national security interest that the United States monitor aggressively the export of militarily critical technology in order to prevent its diversion to potential adversaries or combatants of the United States.

“(4) The Department of Defense relies increasingly on commercial and dual-use technologies, products, and processes to support United States military capabilities and economic strength.

“(5) The maintenance of the military advantage of the United States depends on effective export controls on dual-use items and technologies that are critical to the military capabilities of the Armed Forces.

“(b) SENSE OF CONGRESS.—It is the sense of Congress that—

“(1) the Secretary of Defense should evaluate license applications for the export of militarily critical

commodities the export of which is controlled for national security reasons if those commodities are to be exported to certain countries of concern;

“(2) the Secretary of Defense should identify the dual-use items and technologies that are critical to the military capabilities of the Armed Forces, including the military use made of such items and technologies;

“(3) upon identification by the Secretary of Defense of the dual-use items and technologies referred to in paragraph (2), the President should ensure effective export controls or use unilateral export controls on dual-use items and technologies that are critical to the military capabilities of the Armed Forces (regardless of the availability of such items or technologies overseas) with respect to the countries that—

“(A) pose a threat to the national security interests of the United States; and

“(B) are not members in good standing of bilateral or multilateral agreements to which the United States is a party on the use of such items and technologies; and

“(4) the President, upon recommendation of the Secretary of Defense, should ensure effective controls on the re-export by other countries of dual-use items and technologies that are critical to the military capabilities of the Armed Forces.

“(c) ANNUAL REPORT.—(1) Not later than December 1 of each year through 1999, the President shall submit to the committees specified in paragraph (4) a report on the effect of the export control policy of the United States on the national security interests of the United States.

“(2) The report shall include the following:

“(A) A list setting forth each country determined by the Secretary of Defense, the intelligence community, and other appropriate agencies to be a rogue nation or potential adversary or combatant of the United States.

“(B) For each country so listed, a list of—

“(i) the categories of items that the United States currently prohibits for export to the country;

“(ii) the categories of items that may be exported from the United States with an individual license, and in such cases, any licensing conditions normally required and the policy grounds used for approvals and denials; and

“(iii) the categories of items that may be exported under a general license designated ‘G-DEST’.

“(C) For each category of items listed under subparagraph (B)—

“(i) a statement whether a prohibition, control, or licensing requirement on a category of items is imposed pursuant to an international multilateral agreement or is unilateral;

“(ii) a statement whether a prohibition, control, or licensing requirement on a category of items is imposed by the other members of an international agreement or is unilateral;

“(iii) when the answer under either clause (i) or clause (ii) is unilateral, a statement concerning the efforts being made to ensure that the prohibition, control, or licensing requirement is made multilateral; and

“(iv) a statement on what impact, if any, a unilateral prohibition is having, or would have, on preventing the rogue nation or potential adversary from attaining the items in question for military purposes.

“(D) A description of United States policy on sharing satellite imagery that has military significance and a discussion of the criteria for determining the imagery that has that significance.

“(E) A description of the relationship between United States policy on the export of space launch vehicle technology and the Missile Technology Control Regime.

“(F) An assessment of United States efforts to support the inclusion of additional countries in the Missile Technology Control Regime.

“(G) An assessment of the ongoing efforts made by potential participant countries in the Missile Technology Control Regime to meet the guidelines established by the Missile Technology Control Regime.

“(H) A discussion of the history of the space launch vehicle programs of other countries, including a discussion of the military origins and purposes of such programs and the current level of military involvement in such programs.

“(3) The President shall submit the report in unclassified form, but may include a classified annex.

“(4) The committees referred to in paragraph (1) are the following:

“(A) The Committee on Armed Services and the Committee on Foreign Relations of the Senate.

“(B) The Committee on National Security [now Committee on Armed Services] and the Committee on International Relations [now Committee on Foreign Affairs] of the House of Representatives.

“(5) For purposes of this subsection, the term ‘Missile Technology Control Regime’ means the policy statement announced on April 16, 1987, between the United States, the United Kingdom, the Federal Republic of Germany, France, Italy, Canada, and Japan to restrict sensitive missile-relevant transfers based on the Missile Technology Control Regime Annex, and any amendment thereto.”

§ 2405. Foreign policy controls

(a) Authority

(1) In order to carry out the policy set forth in paragraph (2)(B), (7), (8), or (13) of section 3 of this Act [section 2402(2)(B), (7), (8), or (13) of this Appendix], the President may prohibit or curtail the exportation of any goods, technology, or other information subject to the jurisdiction of the United States or exported by any person subject to the jurisdiction of the United States, to the extent necessary to further significantly the foreign policy of the United States or to fulfill its declared international obligations. The authority granted by this subsection shall be exercised by the Secretary, in consultation with the Secretary of State, the Secretary of Defense, the Secretary of Agriculture, the Secretary of the Treasury, the United States Trade Representative, and such other departments and agencies as the Secretary considers appropriate, and shall be implemented by means of export licenses issued by the Secretary.

(2) Any export control imposed under this section shall apply to any transaction or activity undertaken with the intent to evade that export control, even if that export control would not otherwise apply to that transaction or activity.

(3) Export controls maintained for foreign policy purposes shall expire on December 31, 1979, or one year after imposition, whichever is later, unless extended by the President in accordance with subsections (b) and (f). Any such extension and any subsequent extension shall not be for a period of more than one year.

(4) Whenever the Secretary denies any export license under this subsection, the Secretary shall specify in the notice to the applicant of the denial of such license that the license was denied under the authority contained in this subsection, and the reasons for such denial, with reference to the criteria set forth in subsection (b) of this section. The Secretary shall also include in such notice what, if any, modifications in or restrictions on the goods or technology for which the license was sought would allow such export to be compatible with controls implemented under this section, or the Secretary shall indicate in such notice which officers and employees of the Department of Commerce who are familiar with the application will be made reasonably available to the applicant for consultation with regard to such modifications or restrictions, if appropriate.

(5) In accordance with the provisions of section 10 of this Act [section 2409 of this Appendix], the Secretary of State shall have the right

to review any export license application under this section which the Secretary of State requests to review.

(6) Before imposing, expanding, or extending export controls under this section on exports to a country which can use goods, technology, or information available from foreign sources and so incur little or no economic costs as a result of the controls, the President should, through diplomatic means, employ alternatives to export controls which offer opportunities of distinguishing the United States from, and expressing the displeasure of the United States with, the specific actions of that country in response to which the controls are proposed. Such alternatives include private discussions with foreign leaders, public statements in situations where private diplomacy is unavailable or not effective, withdrawal of ambassadors, and reduction of the size of the diplomatic staff that the country involved is permitted to have in the United States.

(b) Criteria

(1) Subject to paragraph (2) of this subsection, the President may impose, extend, or expand export controls under this section only if the President determines that—

(A) such controls are likely to achieve the intended foreign policy purpose, in light of other factors, including the availability from other countries of the goods or technology proposed for such controls, and that foreign policy purpose cannot be achieved through negotiations or other alternative means;

(B) the proposed controls are compatible with the foreign policy objectives of the United States and with overall United States policy toward the country to which exports are to be subject to the proposed controls;

(C) the reaction of other countries to the imposition, extension, or expansion of such export controls by the United States is not likely to render the controls ineffective in achieving the intended foreign policy purpose or to be counterproductive to United States foreign policy interests;

(D) the effect of the proposed controls on the export performance of the United States, the competitive position of the United States in the international economy, the international reputation of the United States as a supplier of goods and technology, or on the economic well-being of individual United States companies and their employees and communities does not exceed the benefit to United States foreign policy objectives; and

(E) the United States has the ability to enforce the proposed controls effectively.

(2) With respect to those export controls in effect under this section on the date of the enactment of the Export Administration Amendments Act of 1985 [July 12, 1985], the President, in determining whether to extend those controls, as required by subsection (a)(3) of this section, shall consider the criteria set forth in paragraph (1) of this subsection and shall consider the foreign policy consequences of modifying the export controls.

(c) Consultation with industry

The Secretary in every possible instance shall consult with and seek advice from affected

United States industries and appropriate advisory committees established under section 135 of the Trade Act of 1974 [19 U.S.C. 2155] before imposing any export control under this section. Such consultation and advice shall be with respect to the criteria set forth in subsection (b)(1) and such other matters as the Secretary considers appropriate.

(d) Consultation with other countries

When imposing export controls under this section, the President shall, at the earliest appropriate opportunity, consult with the countries with which the United States maintains export controls cooperatively, and with such other countries as the President considers appropriate, with respect to the criteria set forth in subsection (b)(1) and such other matters as the President considers appropriate.

(e) Alternative means

Before resorting to the imposition of export controls under this section, the President shall determine that reasonable efforts have been made to achieve the purposes of the controls through negotiations or other alternative means.

(f) Consultation with Congress

(1) The President may impose or expand export controls under this section, or extend such controls as required by subsection (a)(3) of this section, only after consultation with the Congress, including the Committee on Foreign Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate.

(2) The President may not impose, expand, or extend export controls under this section until the President has submitted to the Congress a report—

(A) specifying the purpose of the controls;

(B) specifying the determinations of the President (or, in the case of those export controls described in subsection (b)(2), the considerations of the President) with respect to each of the criteria set forth in subsection (b)(1), the bases for such determinations (or considerations), and any possible adverse foreign policy consequences of the controls;

(C) describing the nature, the subjects, and the results of, or the plans for, the consultation with industry pursuant to subsection (c) and with other countries pursuant to subsection (d);

(D) specifying the nature and results of any alternative means attempted under subsection (e), or the reasons for imposing, expanding, or extending the controls without attempting any such alternative means; and

(E) describing the availability from other countries of goods or technology comparable to the goods or technology subject to the proposed export controls, and describing the nature and results of the efforts made pursuant to subsection (h) to secure the cooperation of foreign governments in controlling the foreign availability of such comparable goods or technology.

Such report shall also indicate how such controls will further significantly the foreign policy of the United States or will further its declared international obligations.

(3) To the extent necessary to further the effectiveness of the export controls, portions of a report required by paragraph (2) may be submitted to the Congress on a classified basis, and shall be subject to the provisions of section 12(c) of this Act [section 2411(c) of this Appendix].

(4) In the case of export controls under this section which prohibit or curtail the export of any agricultural commodity, a report submitted pursuant to paragraph (2) shall be deemed to be the report required by section 7(g)(3)(A) of this Act [section 2406(g)(3)(A) of this Appendix].

(5) In addition to any written report required under this section, the Secretary, not less frequently than annually, shall present in oral testimony before the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Foreign Affairs of the House of Representatives a report on policies and actions taken by the Government to carry out the provisions of this section.

(g) Exclusion for medicine and medical supplies and for certain food exports

This section does not authorize export controls on medicine or medical supplies. This section also does not authorize export controls on donations of goods (including, but not limited to, food, educational materials, seeds and hand tools, medicines and medical supplies, water resources equipment, clothing and shelter materials, and basic household supplies) that are intended to meet basic human needs. Before export controls on food are imposed, expanded, or extended under this section, the Secretary shall notify the Secretary of State in the case of export controls applicable with respect to any developed country and shall notify the Administrator of the Agency for International Development in the case of export controls applicable with respect to any developing country. The Secretary of State with respect to developed countries, and the Administrator with respect to developing countries, shall determine whether the proposed export controls on food would cause measurable malnutrition and shall inform the Secretary of that determination. If the Secretary is informed that the proposed export controls on food would cause measurable malnutrition, then those controls may not be imposed, expanded, or extended, as the case may be, unless the President determines that those controls are necessary to protect the national security interests of the United States, or unless the President determines that arrangements are insufficient to ensure that the food will reach those most in need. Each such determination by the Secretary of State or the Administrator of the Agency for International Development, and any such determination by the President, shall be reported to the Congress, together with a statement of the reasons for that determination. It is the intent of Congress that the President not impose export controls under this section on any goods or technology if he determines that the principal effect of the export of such goods or technology would be to help meet basic human needs. This subsection shall not be construed to prohibit the President from imposing restrictions on the export of medicine or medical supplies or of food under the International

Emergency Economic Powers Act [50 U.S.C 1701 et seq.]. This subsection shall not apply to any export control on medicine, medical supplies, or food, except for donations, which is in effect on the date of the enactment of the Export Administration Amendments Act of 1985 [July 12, 1985]. Notwithstanding the preceding provisions of this subsection, the President may impose export controls under this section on medicine, medical supplies, food, and donations of goods in order to carry out the policy set forth in paragraph (13) of section 3 of this Act [section 2402(13) of this Appendix].

(h) Foreign availability

(1) In applying export controls under this section, the President shall take all feasible steps to initiate and conclude negotiations with appropriate foreign governments for the purpose of securing the cooperation of such foreign governments in controlling the export to countries and consignees to which the United States export controls apply of any goods or technology comparable to goods or technology controlled under this section.

(2) Before extending any export control pursuant to subsection (a)(3) of this section, the President shall evaluate the results of his actions under paragraph (1) of this subsection and shall include the results of that evaluation in his report to the Congress pursuant to subsection (f) of this section.

(3) If, within 6 months after the date on which export controls under this section are imposed or expanded, or within 6 months after the date of the enactment of the Export Administration Amendments Act of 1985 [July 12, 1985] in the case of export controls in effect on such date of enactment, the President's efforts under paragraph (1) are not successful in securing the cooperation of foreign governments described in paragraph (1) with respect to those export controls, the Secretary shall thereafter take into account the foreign availability of the goods or technology subject to the export controls. If the Secretary affirmatively determines that a good or technology subject to the export controls is available in sufficient quantity and comparable quality from sources outside the United States to countries subject to the export controls so that denial of an export license would be ineffective in achieving the purposes of the controls, then the Secretary shall, during the period of such foreign availability, approve any license application which is required for the export of the good or technology and which meets all requirements for such a license. The Secretary shall remove the good or technology from the list established pursuant to subsection (l) of this section if the Secretary determines that such action is appropriate.

(4) In making a determination of foreign availability under paragraph (3) of this subsection, the Secretary shall follow the procedures set forth in section 5(f)(3) of this Act [section 2404(f)(3) of this Appendix].

(i) International obligations

The provisions of subsections (b), (c), (d), (e), (g), and (h) shall not apply in any case in which the President exercises the authority contained in this section to impose export controls, or to

approve or deny export license applications, in order to fulfill obligations of the United States pursuant to treaties to which the United States is a party or pursuant to other international agreements.

(j) Countries supporting international terrorism

(1) A validated license shall be required for the export of goods or technology to a country if the Secretary of State has made the following determinations:

(A) The government of such country has repeatedly provided support for acts of international terrorism.

(B) The export of such goods or technology could make a significant contribution to the military potential of such country, including its military logistics capability, or could enhance the ability of such country to support acts of international terrorism.

(4) A determination made by the Secretary of State under paragraph (1)(A) may not be rescinded unless the President submits to the Speaker of the House of Representatives and the chairman of the Committee on Banking, Housing, and Urban Affairs and the chairman of the Committee on Foreign Relations of the Senate—

(A) before the proposed rescission would take effect, a report certifying that—

(i) there has been a fundamental change in the leadership and policies of the government of the country concerned;

(ii) that government is not supporting acts of international terrorism; and

(iii) that government has provided assurances that it will not support acts of international terrorism in the future; or

(B) at least 45 days before the proposed rescission would take effect, a report justifying the rescission and certifying that—

(i) the government concerned has not provided any support for international terrorism during the preceding 6-month period; and

(ii) the government concerned has provided assurances that it will not support acts of international terrorism in the future.

(5)(A) As used in paragraph (1), the term "repeatedly provided support for acts of international terrorism" shall include the recurring use of any part of the territory of the country as a sanctuary for terrorists or terrorist organizations.

(B) In this paragraph—

(i) the term "territory of a country" means the land, waters, and airspace of the country; and

(ii) the term "sanctuary" means an area in the territory of a country—

(I) that is used by a terrorist or terrorist organization—

(aa) to carry out terrorist activities, including training, financing, and recruitment; or

(bb) as a transit point; and

(6) The Secretary and the Secretary of State shall include in the notification required by paragraph (2)—

(A) a detailed description of the goods or services to be offered, including a brief description of the capabilities of any article for which a license to export is sought;

(B) the reasons why the foreign country or international organization to which the export or transfer is proposed to be made needs the goods or services which are the subject of such export or transfer and a description of the manner in which such country or organization intends to use such articles, services, or design and construction services;

(C) the reasons why the proposed export or transfer is in the national interest of the United States;

(F) an analysis of the impact of the proposed export or transfer on the United States relations with the countries in the region to which the goods or services which are the subject of such export would be delivered.

(k) Negotiations with other countries

(1) Countries participating in certain agreements

The Secretary of State, in consultation with the Secretary, the Secretary of Defense, and the heads of other appropriate departments and agencies, shall be responsible for conducting negotiations with those countries participating in the groups known as the Coordinating Committee, the Missile Technology Control Regime, the Australia Group, and the Nuclear Suppliers' Group, regarding their cooperation in restricting the export of goods and technology in order to carry out—

(A) the policy set forth in section 3(2)(B) of this Act [section 2402(2)(B) of this Appendix], and

(B) United States policy opposing the proliferation of chemical, biological, nuclear, and other weapons and their delivery systems, and effectively restricting the export of dual use components of such weapons and

their delivery systems, in accordance with this subsection and subsections (a) and (l).

Such negotiations shall cover, among other issues, which goods and technology should be subject to multilaterally agreed export restrictions, and the implementation of the restrictions consistent with the principles identified in section 5(b)(2)(C) of this Act [section 2404(b)(2)(C) of this Appendix].

(2) Other countries

The Secretary of State, in consultation with the Secretary, the Secretary of Defense, and the heads of other appropriate departments and agencies, shall be responsible for conducting negotiations with countries and groups of countries not referred to in paragraph (1) regarding their cooperation in restricting the export of goods and technology consistent with purposes set forth in paragraph (1). In cases where such negotiations produce agreements on export restrictions that the Secretary, in consultation with the Secretary of State and the Secretary of Defense, determines to be consistent with the principles identified in section 5(b)(2)(C) of this Act [section 2404(b)(2)(C) of this Appendix], the Secretary may treat exports, whether by individual or multiple licenses, to countries party to such agreements in the same manner as exports are treated to countries that are MTCR adherents.

(3) Review of determinations

The Secretary shall annually review any determination under paragraph (2) with respect to a country. For each such country which the Secretary determines is not meeting the requirements of an effective export control system in accordance with section 5(b)(2)(C) [section 2404(b)(2)(C) of this Appendix], the Secretary shall restrict or eliminate any preferential licensing treatment for exports to that country provided under this subsection.

(l) Missile technology

(1) Determination of controlled items

The Secretary, in consultation with the Secretary of State, the Secretary of Defense, and the heads of other appropriate departments and agencies—

(A) shall establish and maintain, as part of the control list established under this section, a list of all dual use goods and technology on the MTCR Annex; and

(B) may include, as part of the control list established under this section, goods and technology that would provide a direct and immediate impact on the development of missile delivery systems and are not included in the MTCR Annex but which the United States is proposing to the other MTCR adherents to have included in the MTCR Annex.

(2) Requirement of individual validated licenses

The Secretary shall require an individual validated license for—

(A) any export of goods or technology on the list established under paragraph (1) to any country; and

(B) any export of goods or technology that the exporter knows is destined for a project or facility for the design, development, or manufacture of a missile in a country that is not an MTCR adherent.

(3) Policy of denial of licenses

(A) Licenses under paragraph (2) should in general be denied if the ultimate consignee of the goods or technology is a facility in a country that is not an adherent to the Missile Technology Control Regime and the facility is designed to develop or build missiles.

(B) Licenses under paragraph (2) shall be denied if the ultimate consignee of the goods or technology is a facility in a country the government of which has been determined under subsection (j) to have repeatedly provided support for acts of international terrorism.

(4) Consultation with other departments

(A) A determination of the Secretary to approve an export license under paragraph (2) for the export of goods or technology to a country of concern regarding missile proliferation may be made only after consultation with the Secretary of Defense and the Secretary of State for a period of 20 days. The countries of concern referred to in the preceding sentence shall be maintained on a classified list by the Secretary of State, in consultation with the Secretary and the Secretary of Defense.

(B) Should the Secretary of Defense disagree with the determination of the Secretary to approve an export license to which subparagraph (A) applies, the Secretary of Defense shall so notify the Secretary within the 20 days provided for consultation on the determination. The Secretary of Defense shall at the same time submit the matter to the President for resolution of the dispute. The Secretary shall also submit the Secretary's recommendation to the President on the license application.

(C) The President shall approve or disapprove the export license application within 20 days after receiving the submission of the Secretary of Defense under subparagraph (B).

(D) Should the Secretary of Defense fail to notify the Secretary within the time period prescribed in subparagraph (B), the Secretary may approve the license application without awaiting the notification by the Secretary of Defense. Should the President fail to notify the Secretary of his decision on the export license application within the time period prescribed in subparagraph (C), the Secretary may approve the license application without awaiting the President's decision on the license application.

(E) Within 10 days after an export license is issued under this subsection, the Secretary shall provide to the Secretary of Defense and the Secretary of State the license application and accompanying documents issued to the applicant, to the extent that the relevant Secretary indicates the need to receive such application and documents.

(5) Information sharing

The Secretary shall establish a procedure for information sharing with appropriate officials of the intelligence community, as determined

by the Director of Central Intelligence, and other appropriate Government agencies, that will ensure effective monitoring of transfers of MTCR equipment or technology and other missile technology.

(m) Chemical and biological weapons

(1) Establishment of list

The Secretary, in consultation with the Secretary of State, the Secretary of Defense, and the heads of other appropriate departments and agencies, shall establish and maintain, as part of the list maintained under this section, a list of goods and technology that would directly and substantially assist a foreign government or group in acquiring the capability to develop, produce, stockpile, or deliver chemical or biological weapons, the licensing of which would be effective in barring acquisition or enhancement of such capability.

(2) Requirement for validated licenses

The Secretary shall require a validated license for any export of goods or technology on the list established under paragraph (1) to any country of concern.

(3) Countries of concern

For purposes of paragraph (2), the term "country of concern" means any country other than—

(A) a country with whose government the United States has entered into a bilateral or multilateral arrangement for the control of goods or technology on the list established under paragraph (1); and

(B) such other countries as the Secretary of State, in consultation with the Secretary and the Secretary of Defense, shall designate consistent with the purposes of the Chemical and Biological Weapons Control and Warfare Elimination Act of 1991 [22 U.S.C. 5601 et seq.].

(n) Crime control instruments

(1) Crime control and detection instruments and equipment shall be approved for export by the Secretary only pursuant to a validated export license. Notwithstanding any other provision of this Act [sections 2401 to 2420 of this Appendix]—

(A) any determination of the Secretary of what goods or technology shall be included on the list established pursuant to subsection (l)¹ of this section as a result of the export restrictions imposed by this subsection shall be made with the concurrence of the Secretary of State, and

(B) any determination of the Secretary to approve or deny an export license application to export crime control or detection instruments or equipment shall be made in concurrence with the recommendations of the Secretary of State submitted to the Secretary with respect to the application pursuant to section 10(e) of this Act [section 2409(e) of this Appendix],

except that, if the Secretary does not agree with the Secretary of State with respect to any de-

termination under subparagraph (A) or (B), the matter shall be referred to the President for resolution.

(2) The provisions of this subsection shall not apply with respect to exports to countries which are members of the North Atlantic Treaty Organization or to Japan, Australia, or New Zealand, or to such other countries as the President shall designate consistent with the purposes of this subsection and section 502B of the Foreign Assistance Act of 1961 [22 U.S.C. 2304].

(o) Control list

The Secretary shall establish and maintain, as part of the control list, a list of any goods or technology subject to export controls under this section, and the countries to which such controls apply. The Secretary shall clearly identify on the control list which goods or technology, and which countries or destinations, are subject to which types of controls under this section. Such list shall consist of goods and technology identified by the Secretary of State, with the concurrence of the Secretary. If the Secretary and the Secretary of State are unable to agree on the list, the matter shall be referred to the President. Such list shall be reviewed not less frequently than every three years in the case of controls maintained cooperatively with other countries, and annually in the case of all other controls, for the purpose of making such revisions as are necessary in order to carry out this section. During the course of such review, an assessment shall be made periodically of the availability from sources outside the United States, or any of its territories or possessions, of goods and technology comparable to those controlled for export from the United States under this section.

(p) Effect on existing contracts and licenses

The President may not, under this section, prohibit or curtail the export or reexport of goods, technology, or other information—

(1) in performance of a contract or agreement entered into before the date on which the President reports to the Congress, pursuant to subsection (f) of this section, his intention to impose controls on the export or reexport of such goods, technology, or other information, or

(2) under a validated license or other authorization issued under this Act [sections 2401 to 2420 of this Appendix],

unless and until the President determines and certifies to the Congress that—

(A) a breach of the peace poses a serious and direct threat to the strategic interest of the United States,

(B) the prohibition or curtailment of such contracts, agreements, licenses, or authorizations will be instrumental in remedying the situation posing the direct threat, and

(C) the export controls will continue only so long as the direct threat persists.

(q) Extension of certain controls

Those export controls imposed under this section with respect to South Africa which were in effect on February 28, 1982, and ceased to be effective on March 1, 1982, September 15, 1982, or January 20, 1983, shall become effective on the

date of the enactment of this subsection [July 12, 1985], and shall remain in effect until 1 year after such date of enactment. At the end of that 1-year period, any of those controls made effective by this subsection may be extended by the President in accordance with subsections (b) and (f) of this section.

(r) Expanded authority to impose controls

(1) In any case in which the President determines that it is necessary to impose controls under this section without any limitation contained in subsection (c), (d), (e), (g), (h), or (m)² of this section, the President may impose those controls only if the President submits that determination to the Congress, together with a report pursuant to subsection (f) of this section with respect to the proposed controls, and only if a law is enacted authorizing the imposition of those controls. If a joint resolution authorizing the imposition of those controls is introduced in either House of Congress within 30 days after the Congress receives the determination and report of the President, that joint resolution shall be referred to the Committee on Banking, Housing, and Urban Affairs of the Senate and to the appropriate committee of the House of Representatives. If either such committee has not reported the joint resolution at the end of 30 days after its referral, the committee shall be discharged from further consideration of the joint resolution.

(2) For purposes of this subsection, the term “joint resolution” means a joint resolution the matter after the resolving clause of which is as follows: “That the Congress, having received on a determination of the President under section 6(o)(1)² of the Export Administration Act of 1979 with respect to the export controls which are set forth in the report submitted to the Congress with that determination, authorizes the President to impose those export controls.”, with the date of the receipt of the determination and report inserted in the blank.

(3) In the computation of the periods of 30 days referred to in paragraph (1), there shall be excluded the days on which either House of Congress is not in session because of an adjournment of more than 3 days to a day certain or because of an adjournment of the Congress sine die.

(s) Spare parts

(1) At the same time as the President imposes or expands export controls under this section, the President shall determine whether such export controls will apply to replacement parts for parts in goods subject to such export controls.

(2) With respect to export controls imposed under this section before the date of the enactment of this subsection [Aug. 23, 1988], an individual validated export license shall not be required for replacement parts which are exported to replace on a one-for-one basis parts that were in a good that was lawfully exported from the United States, unless the President determines that such a license should be required for such parts.

ADMINISTRATION OF EXPORT CONTROLS ON ENCRYPTION PRODUCTS

For provision that subsec. (h)(2) to (4) of this section is not applicable with respect to export controls on encryption products, see Ex. Ord. No. 13026, §1(a), set out as a note under section 2403 of this Appendix.

§ 2406. Short supply controls

(a) Authority

(1) In order to carry out the policy set forth in section 3(2)(C) of this Act [section 2402(2)(C) of this Appendix], the President may prohibit or curtail the export of any goods subject to the jurisdiction of the United States or exported by any person subject to the jurisdiction of the United States. In curtailing exports to carry out the policy set forth in section 3(2)(C) of this Act [section 2402(2)(C) of this Appendix], the President shall allocate a portion of export licenses on the basis of factors other than a prior history of exportation. Such factors shall include the extent to which a country engages in equitable trade practices with respect to United States goods and treats the United States equitably in times of short supply.

(2) Upon imposing quantitative restrictions on exports of any goods to carry out the policy set forth in section 3(2)(C) of this Act [section 2402(2)(C) of this Appendix], the Secretary shall include in a notice published in the Federal Register with respect to such restrictions an invitation to all interested parties to submit written comments within 15 days from the date of publication on the impact of such restrictions and the method of licensing used to implement them.

(3) In imposing export controls under this section, the President's authority shall include, but not be limited to, the imposition of export license fees.

(b) Monitoring

(1) In order to carry out the policy set forth in section 3(2)(C) of this Act [section 2402(2)(C) of this Appendix], the Secretary shall monitor exports, and contracts for exports, of any good (other than a commodity which is subject to the reporting requirements of section 812¹ of the Agricultural Act of 1970 [7 U.S.C. 612c-3]) when the volume of such exports in relation to domestic supply contributes, or may contribute, to an increase in domestic prices or a domestic shortage, and such price increase or shortage has, or may have, a serious adverse impact on the economy or any sector thereof. Any such monitoring shall commence at a time adequate to assure that the monitoring will result in a data base sufficient to enable policies to be developed, in accordance with section 3(2)(C) of this Act [section 2402(2)(C) of this Appendix], to mitigate a short supply situation or serious inflationary price rise or, if export controls are needed, to

permit imposition of such controls in a timely manner. Information which the Secretary requires to be furnished in effecting such monitoring shall be confidential, except as provided in paragraph (2) of this subsection.

(2) The results of such monitoring shall, to the extent practicable, be aggregated and included in weekly reports setting forth, with respect to each item monitored, actual and anticipated exports, the destination by country, and the domestic and worldwide price, supply, and demand. Such reports may be made monthly if the Secretary determines that there is insufficient information to justify weekly reports.

(3) The Secretary shall consult with the Secretary of Energy to determine whether monitoring or export controls under this section are warranted with respect to exports of facilities, machinery, or equipment normally and principally used, or intended to be used, in the production, conversion, or transportation of fuels and energy (except nuclear energy), including, but not limited to, drilling rigs, platforms, and equipment; petroleum refineries, natural gas processing, liquefaction, and gasification plants; facilities for production of synthetic natural gas or synthetic crude oil; oil and gas pipelines, pumping stations, and associated equipment; and vessels for transporting oil, gas, coal, and other fuels.

(c) Petitions for monitoring or controls

(1)(A) Any entity, including a trade association, firm, or certified or recognized union or group of workers, that is representative of an industry or a substantial segment of an industry that processes metallic materials capable of being recycled may transmit a written petition to the Secretary requesting the monitoring of exports or the imposition of export controls, or both, with respect to any such material, in order to carry out the policy set forth in section 3(2)(C) of this Act [section 2402(2)(C) of this Appendix].

(B) Each petition shall be in such form as the Secretary shall prescribe and shall contain information in support of the action requested. The petition shall include any information reasonably available to the petitioner indicating that each of the criteria set forth in paragraph (3)(A) of this subsection is satisfied.

(2) Within 15 days after receipt of any petition described in paragraph (1), the Secretary shall publish a notice in the Federal Register. The notice shall—

(A) include the name of the material that is the subject of the petition,

(B) include the Schedule B number of the material as set forth in the Statistical Classification of Domestic and Foreign Commodities Exported from the United States,

(C) indicate whether the petitioner is requesting that controls or monitoring, or both, be imposed with respect to the exportation of such material, and

(D) provide that interested persons shall have a period of 30 days beginning on the date of publication of such notice to submit to the Secretary written data, views or arguments, with or without opportunity for oral presentation, with respect to the matter involved.

¹ See References in Text note below.

At the request of the petitioner or any other entity described in paragraph (1)(A) with respect to the material that is the subject of the petition, or at the request of any entity representative of producers or exporters of such material, the Secretary shall conduct public hearings with respect to the subject of the petition, in which case the 30-day period may be extended to 45 days.

(3)(A) Within 45 days after the end of the 30- or 45-day period described in paragraph (2), as the case may be, the Secretary shall determine whether to impose monitoring or controls, or both, on the export of the material that is the subject of the petition, in order to carry out the policy set forth in section 3(2)(C) of this Act [section 2402(2)(C) of this Appendix]. In making such determination, the Secretary shall determine whether—

(i) there has been a significant increase, in relation to a specific period of time, in exports of such material in relation to domestic supply and demand;

(ii) there has been a significant increase in the domestic price of such material or a domestic shortage of such material relative to demand;

(iii) exports of such material are as important as any other cause of a domestic price increase or shortage relative to demand found under clause (ii);

(iv) a domestic price increase or shortage relative to demand found under clause (ii) has significantly adversely affected or may significantly adversely affect the national economy or any sector thereof, including a domestic industry; and

(v) monitoring or controls, or both, are necessary in order to carry out the policy set forth in section 3(2)(C) of this Act [section 2402(2)(C) of this Appendix].

(B) The Secretary shall publish in the Federal Register a detailed statement of the reasons for the Secretary's determination pursuant to subparagraph (A) of whether to impose monitoring or controls, or both, including the findings of fact in support of that determination.

(4) Within 15 days after making a determination under paragraph (3) to impose monitoring or controls on the export of a material, the Secretary shall publish in the Federal Register proposed regulations with respect to such monitoring or controls. Within 30 days after the publication of such proposed regulations, and after considering any public comments on the proposed regulations, the Secretary shall publish and implement final regulations with respect to such monitoring or controls.

(5) For purposes of publishing notices in the Federal Register and scheduling public hearings pursuant to this subsection, the Secretary may consolidate petitions, and responses to such petitions, which involve the same or related materials.

(6) If a petition with respect to a particular material or group of materials has been considered in accordance with all the procedures prescribed in this subsection, the Secretary may determine, in the absence of significantly changed circumstances, that any other petition with respect to the same material or group of

materials which is filed within 6 months after the consideration of the prior petition has been completed does not merit complete consideration under this subsection.

(7) The procedures and time limits set forth in this subsection with respect to a petition filed under this subsection shall take precedence over any review undertaken at the initiative of the Secretary with respect to the same subject as that of the petition.

(8) The Secretary may impose monitoring or controls, on a temporary basis, on the export of a metallic material after a petition is filed under paragraph (1)(A) with respect to that material but before the Secretary makes a determination under paragraph (3) with respect to that material only if—

(A) the failure to take such temporary action would result in irreparable harm to the entity filing the petition, or to the national economy or segment thereof, including a domestic industry, and

(B) the Secretary considers such action to be necessary to carry out the policy set forth in section 3(2)(C) of this Act [section 2402(2)(C) of this Appendix].

(9) The authority under this subsection shall not be construed to affect the authority of the Secretary under any other provision of this Act [sections 2401 to 2420 of this Appendix], except that if the Secretary determines, on the Secretary's own initiative, to impose monitoring or controls, or both, on the export of metallic materials capable of being recycled, under the authority of this section, the Secretary shall publish the reasons for such action in accordance with paragraph (3)(A) and (B) of this subsection.

(10) Nothing contained in this subsection shall be construed to preclude submission on a confidential basis to the Secretary of information relevant to a decision to impose or remove monitoring or controls under the authority of this Act [sections 2401 to 2420 of this Appendix], or to preclude consideration of such information by the Secretary in reaching decisions required under this subsection. The provisions of this paragraph shall not be construed to affect the applicability of section 552(b) of title 5, United States Code.

(d) Domestically produced crude oil

(1) Notwithstanding any other provision of this Act [sections 2401 to 2420 of this Appendix] and notwithstanding subsection (u) of section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), no domestically produced crude oil transported by pipeline over right-of-way granted pursuant to section 203 of the Trans-Alaska Pipeline Authorization Act (43 U.S.C. 1652) (except any such crude oil which (A) is exported to an adjacent foreign country to be refined and consumed therein in exchange for the same quantity of crude oil being exported from that country to the United States; such exchange must result through convenience or increased efficiency of transportation in lower prices for consumers of petroleum products in the United States as described in paragraph (2)(A)(ii) of this subsection, (B) is temporarily exported for convenience or increased efficiency of transportation across parts of an adjacent foreign country and reen-

ters the United States, or (C) is transported to Canada, to be consumed therein, in amounts not to exceed an annual average of 50,000 barrels per day, in addition to exports under subparagraphs (A) and (B), except that any ocean transportation of such oil shall be by vessels documented under section 12106¹ of title 46, United States Code) may be exported from the United States, or any of its territories and possessions, subject to paragraph (2) of this subsection.

(2) Crude oil subject to the prohibition contained in paragraph (1) may be exported only if—

(A) the President so recommends to the Congress after making and publishing express findings that exports of such crude oil, including exchanges—

(i) will not diminish the total quantity or quality of petroleum refined within, stored within, or legally committed to be transported to and sold within the United States;

(ii) will, within 3 months following the initiation of such exports or exchanges, result in (I) acquisition costs to the refiners which purchase the imported crude oil being lower than the acquisition costs such refiners would have to pay for the domestically produced oil in the absence of such an export or exchange, and (II) not less than 75 percent of such savings in costs being reflected in wholesale and retail prices of products refined from such imported crude oil;

(iii) will be made only pursuant to contracts which may be terminated if the crude oil supplies of the United States are interrupted, threatened, or diminished;

(iv) are clearly necessary to protect the national interest; and

(v) are in accordance with the provisions of this Act [sections 2401 to 2420 of this Appendix]; and

(B) the President includes such findings in his recommendation to the Congress and the Congress, within 60 days after receiving that recommendation, agrees to a joint resolution which approves such exports on the basis of those findings, and which is thereafter enacted into law.

(3) Notwithstanding any other provision of this section or any other provision of law, including subsection (u) of section 28 of the Mineral Leasing Act of 1920 [30 U.S.C. 185(u)], the President may export oil to any country pursuant to a bilateral international oil supply agreement entered into by the United States with such nation before June 25, 1979, or to any country pursuant to the International Emergency Oil Sharing Plan of the International Energy Agency.

(e) Refined petroleum products

(1) In any case in which the President determines that it is necessary to impose export controls on refined petroleum products in order to carry out the policy set forth in section 3(2)(C) of this Act [section 2402(2)(C) of this Appendix], the President shall notify the Congress of that determination. The President shall also notify the Congress if and when he determines that such export controls are no longer necessary.

During any period in which a determination that such export controls are necessary is in effect, no refined petroleum product may be exported except pursuant to an export license specifically authorizing such export. Not later than 5 days after an application for a license to export any refined petroleum product or residual fuel oil is received, the Secretary shall notify the Congress of such application, together with the name of the exporter, the destination of the proposed export, and the amount and price of the proposed export. Such notification shall be made to the chairman of the Committee on Foreign Affairs of the House of Representatives and the chairman of the Committee on Banking, Housing, and Urban Affairs of the Senate.

(2) The Secretary may not grant such license during the 30-day period beginning on the date on which notification to the Congress under paragraph (1) is received, unless the President certifies in writing to the Speaker of the House of Representatives and the President pro tempore of the Senate that the proposed export is vital to the national interest and that a delay in issuing the license would adversely affect that interest.

(3) This subsection shall not apply to (A) any export license application for exports to a country with respect to which historical export quotas established by the Secretary on the basis of past trading relationships apply, or (B) any license application for exports to a country if exports under the license would not result in more than 250,000 barrels of refined petroleum products being exported from the United States to such country in any fiscal year.

(4) For purposes of this subsection, “refined petroleum product” means gasoline, kerosene, distillates, propane or butane gas, diesel fuel, and residual fuel oil refined within the United States or entered for consumption within the United States.

(5) The Secretary may extend any time period prescribed in section 10 of this Act [section 2409 of this Appendix] to the extent necessary to take into account delays in action by the Secretary on a license application on account of the provisions of this subsection.

(f) Certain petroleum products

Petroleum products refined in United States Foreign Trade Zones, or in the United States Territory of Guam, from foreign crude oil shall be excluded from any quantitative restrictions imposed under this section except that, if the Secretary finds that a product is in short supply, the Secretary may issue such regulations as may be necessary to limit exports.

(g) Agricultural commodities

(1) The authority conferred by this section shall not be exercised with respect to any agricultural commodity, including fats and oils or animal hides or skins, without the approval of the Secretary of Agriculture. The Secretary of Agriculture shall not approve the exercise of such authority with respect to any such commodity during any period for which the supply of such commodity is determined by the Secretary of Agriculture to be in excess of the requirements of the domestic economy except to the extent the President determines that such

exercise of authority is required to carry out the policies set forth in subparagraph (A) or (B) of paragraph (2) of section 3 of this Act [section 2402(2)(A) or (B) of this Appendix]. The Secretary of Agriculture shall, by exercising the authorities which the Secretary of Agriculture has under other applicable provisions of law, collect data with respect to export sales of animal hides and skins.

(2) Upon approval of the Secretary, in consultation with the Secretary of Agriculture, agricultural commodities purchased by or for use in a foreign country may remain in the United States for export at a later date free from any quantitative limitations on export which may be imposed to carry out the policy set forth in section 3(2)(C) of this Act [section 2402(2)(C) of this Appendix] subsequent to such approval. The Secretary may not grant such approval unless the Secretary receives adequate assurance and, in conjunction with the Secretary of Agriculture, finds (A) that such commodities will eventually be exported, (B) that neither the sale nor export thereof will result in an excessive drain of scarce materials and have a serious domestic inflationary impact, (C) that storage of such commodities in the United States will not unduly limit the space available for storage of domestically owned commodities, and (D) that the purpose of such storage is to establish a reserve of such commodities for later use, not including resale to or use by another country. The Secretary may issue such regulations as may be necessary to implement this paragraph.

(3)(A) If the President imposes export controls on any agricultural commodity in order to carry out the policy set forth in paragraph (2)(B), (2)(C), (7), or (8) of section 3 of this Act [section 2402(2)(B), (2)(C), (7), or (8) of this Appendix], the President shall immediately transmit a report on such action to the Congress, setting forth the reasons for the controls in detail and specifying the period of time, which may not exceed 1 year, that the controls are proposed to be in effect. If the Congress, within 60 days after the date of its receipt of the report, adopts a joint resolution pursuant to paragraph (4) approving the imposition of the export controls, then such controls shall remain in effect for the period specified in the report, or until terminated by the President, whichever occurs first. If the Congress, within 60 days after the date of its receipt of such report, fails to adopt a joint resolution approving such controls, then such controls shall cease to be effective upon the expiration of that 60-day period.

(B) The provisions of subparagraph (A) and paragraph (4) shall not apply to export controls—

(i) which are extended under this Act [sections 2401 to 2420 of this Appendix] if the controls, when imposed, were approved by the Congress under subparagraph (A) and paragraph (4); or

(ii) which are imposed with respect to a country as part of the prohibition or curtailment of all exports to that country.

(4)(A) For purposes of this paragraph, the term “joint resolution” means only a joint resolution the matter after the resolving clause of which is as follows: “That, pursuant to section 7(g)(3) of

the Export Administration Act of 1979, the President may impose export controls as specified in the report submitted to the Congress on . . .”, with the blank space being filled with the appropriate date.

(B) On the day on which a report is submitted to the House of Representatives and the Senate under paragraph (3), a joint resolution with respect to the export controls specified in such report shall be introduced (by request) in the House by the chairman of the Committee on Foreign Affairs, for himself and the ranking minority member of the Committee, or by Members of the House designated by the chairman and ranking minority member; and shall be introduced (by request) in the Senate by the majority leader of the Senate, for himself and the minority leader of the Senate, or by Members of the Senate designated by the majority leader and minority leader of the Senate. If either House is not in session on the day on which such a report is submitted, the joint resolution shall be introduced in that House, as provided in the preceding sentence, on the first day thereafter on which that House is in session.

(C) All joint resolutions introduced in the House of Representatives shall be referred to the appropriate committee and all joint resolutions introduced in the Senate shall be referred to the Committee on Banking, Housing, and Urban Affairs.

(D) If the committee of either House to which a joint resolution has been referred has not reported the joint resolution at the end of 30 days after its referral, the committee shall be discharged from further consideration of the joint resolution or of any other joint resolution introduced with respect to the same matter.

(E) A joint resolution under this paragraph shall be considered in the Senate in accordance with the provisions of section 601(b)(4) of the International Security Assistance and Arms Export Control Act of 1976. For the purpose of expediting the consideration and passage of joint resolutions reported or discharged pursuant to the provisions of this paragraph, it shall be in order for the Committee on Rules of the House of Representatives to present for consideration a resolution of the House of Representatives providing procedures for the immediate consideration of a joint resolution under this paragraph which may be similar, if applicable, to the procedures set forth in section 601(b)(4) of the International Security Assistance and Arms Export Control Act of 1976.

(F) In the case of a joint resolution described in subparagraph (A), if, before the passage by one House of a joint resolution of that House, that House receives a resolution with respect to the same matter from the other House, then—

(i) the procedure in that House shall be the same as if no joint resolution had been received from the other House; but

(ii) the vote on final passage shall be on the joint resolution of the other House.

(5) In the computation of the period of 60 days referred to in paragraph (3) and the period of 30 days referred to in subparagraph (D) of paragraph (4), there shall be excluded the days on which either House of Congress is not in session because of an adjournment of more than 3 days

to a day certain or because of an adjournment of the Congress sine die.

(h) Barter agreements

(1) The exportation pursuant to a barter agreement of any goods which may lawfully be exported from the United States, for any goods which may lawfully be imported into the United States, may be exempted, in accordance with paragraph (2) of this subsection, from any quantitative limitation on exports (other than any reporting requirement) imposed to carry out the policy set forth in section 3(2)(C) of this Act [section 2402(2)(C) of this Appendix].

(2) The Secretary shall grant an exemption under paragraph (1) if the Secretary finds, after consultation with the appropriate department or agency of the United States, that—

(A) for the period during which the barter agreement is to be performed—

(i) the average annual quantity of the goods to be exported pursuant to the barter agreement will not be required to satisfy the average amount of such goods estimated to be required annually by the domestic economy and will be surplus thereto; and

(ii) the average annual quantity of the goods to be imported will be less than the average amount of such goods estimated to be required annually to supplement domestic production; and

(B) the parties to such barter agreement have demonstrated adequately that they intend, and have the capacity, to perform such barter agreement.

(3) For purposes of this subsection, the term “barter agreement” means any agreement which is made for the exchange, without monetary consideration, of any goods produced in the United States for any goods produced outside of the United States.

(4) This subsection shall apply only with respect to barter agreements entered into after the effective date of this Act [September 30, 1979].

(i) Unprocessed red cedar

(1) The Secretary shall require a validated license, under the authority contained in subsection (a) of this section, for the export of unprocessed western red cedar (*Thuja plicata*) logs, harvested from State or Federal lands. The Secretary shall impose quantitative restrictions upon the export of unprocessed western red cedar logs during the 3-year period beginning on the effective date of this Act [September 30, 1979] as follows:

(A) Not more than thirty million board feet scribner of such logs may be exported during the first year of such 3-year period.

(B) Not more than fifteen million board feet scribner of such logs may be exported during the second year of such period.

(C) Not more than five million board feet scribner of such logs may be exported during the third year of such period.

After the end of such 3-year period, no unprocessed western red cedar logs harvested from State or Federal lands may be exported from the United States.

(2) To the maximum extent practicable, the Secretary shall utilize the multiple validated export licenses described in section 4(a)(2) of this Act [section 2403(a)(2) of this Appendix] in lieu of validated licenses for exports under this subsection.

(3) The Secretary shall allocate export licenses to exporters pursuant to this subsection on the basis of a prior history of exportation by such exporters and such other factors as the Secretary considers necessary and appropriate to minimize any hardship to the producers of western red cedar and to further the foreign policy of the United States.

(4) Unprocessed western red cedar logs shall not be considered to be an agricultural commodity for purposes of subsection (g) of this section.

(5) As used in this subsection, the term “unprocessed western red cedar” means red cedar timber which has not been processed into—

(A) lumber of American Lumber Standards Grades of Number 3 dimension or better, or Pacific Lumber Inspection Bureau Export R-List Grades of Number 3 common or better;

(B) chips, pulp, and pulp products;

(C) veneer and plywood;

(D) poles, posts, or pilings cut or treated with preservative for use as such and not intended to be further processed; or

(E) shakes and shingles.

(j) Effect of controls on existing contracts

The export restrictions contained in subsection (i) of this section and any export controls imposed under this section shall not affect any contract to harvest unprocessed western red cedar from State lands which was entered into before October 1, 1979, and the performance of which would make the red cedar available for export. Any export controls imposed under this section on any agricultural commodity (including fats, oils, and animal hides and skins) or on any forest product or fishery product, shall not affect any contract to export entered into before the date on which such controls are imposed. For purposes of this subsection, the term “contract to export” includes, but is not limited to, an export sales agreement and an agreement to invest in an enterprise which involves the export of goods or technology.

(k) Oil exports for use by United States military facilities

For purposes of subsection (d) of this section, and for purposes of any export controls imposed under this Act [sections 2401 to 2420 of this Appendix], shipments of crude oil, refined petroleum products, or partially refined petroleum products from the United States for use by the Department of Defense or United States-supported installations or facilities shall not be considered to be exports.

§ 2407. Foreign boycotts

(a) Prohibitions and exceptions

(1) For the purpose of implementing the policies set forth in subparagraph (A) or (B) of paragraph (5) of section 3 of this Act [section 2402(5)(A) or (B) of this Appendix], the President shall issue regulations prohibiting any United States person, with respect to his activities in the interstate or foreign commerce of the United States, from taking or knowingly agreeing to take any of the following actions with intent to comply with, further, or support any boycott fostered or imposed by a foreign country against a country which is friendly to the United States and which is not itself the object of any form of boycott pursuant to United States law or regulation:

(A) Refusing, or requiring any other person to refuse, to do business with or in the boycotted country, with any business concern organized under the laws of the boycotted country, with any national or resident of the boycotted country, or with any other person, pursuant to an agreement with, a requirement of, or a request from or on behalf of the boycotting country. The mere absence of a business relationship with or in the boycotted country with any business concern organized under the laws of the boycotted country, with any national or resident of the boycotted country, or with any other person, does not indicate the existence of the intent required to establish a violation of regulations issued to carry out this subparagraph.

(B) Refusing, or requiring any other person to refuse, to employ or otherwise discriminating against any United States person on the basis of race, religion, sex, or national origin of that person or of any owner, officer, director, or employee of such person.

(C) Furnishing information with respect to the race, religion, sex, or national origin of any United States person or of any owner, officer, director, or employee of such person.

(D) Furnishing information about whether any person has, has had, or proposes to have any business relationship (including a relationship by way of sale, purchase, legal or commercial representation, shipping or other transport, insurance, investment, or supply) with or in the boycotted country, with any business concern organized under the laws of the boycotted country, with any national or

resident of the boycotted country, or with any other person which is known or believed to be restricted from having any business relationship with or in the boycotting country. Nothing in this paragraph shall prohibit the furnishing of normal business information in a commercial context as defined by the Secretary.

(E) Furnishing information about whether any person is a member of, has made contributions to, or is otherwise associated with or involved in the activities of any charitable or fraternal organization which supports the boycotted country.

(F) Paying, honoring, confirming, or otherwise implementing a letter of credit which contains any condition or requirement compliance with which is prohibited by regulations issued pursuant to this paragraph, and no United States person shall, as a result of the application of this paragraph, be obligated to pay or otherwise honor or implement such letter of credit.

(2) Regulations issued pursuant to paragraph (1) shall provide exceptions for—

(A) complying or agreeing to comply with requirements (i) prohibiting the import of goods or services from the boycotted country or goods produced or services provided by any business concern organized under the laws of the boycotted country or by nationals or residents of the boycotted country, or (ii) prohibiting the shipment of goods to the boycotting country on a carrier of the boycotted country, or by a route other than that prescribed by the boycotting country or the recipient of the shipment;

(B) complying or agreeing to comply with import and shipping document requirements with respect to the country of origin, the name of the carrier and route of shipment, the name of the supplier of the shipment or the name of the provider of other services, except that no information knowingly furnished or conveyed in response to such requirements may be stated in negative, blacklisting, or similar exclusionary terms, other than with respect to carriers or route of shipment as may be permitted by such regulations in order to comply with precautionary requirements protecting against war risks and confiscation;

(C) complying or agreeing to comply in the normal course of business with the unilateral and specific selection by a boycotting country, or national or resident thereof, of carriers, insurers, suppliers of services to be performed within the boycotting country or specific goods which, in the normal course of business, are identifiable by source when imported into the boycotting country;

(D) complying or agreeing to comply with export requirements of the boycotting country relating to shipments or transshipments of exports to the boycotted country, to any business concern of or organized under the laws of the boycotted country, or to any national or resident of the boycotted country;

(E) compliance by an individual or agreement by an individual to comply with the immigration or passport requirements of any country with respect to such individual or any

member of such individual's family or with requests for information regarding requirements of employment of such individual within the boycotting country; and

(F) compliance by a United States person resident in a foreign country or agreement by such person to comply with the laws of that country with respect to his activities exclusively therein, and such regulations may contain exceptions for such resident complying with the laws or regulations of that foreign country governing imports into such country of trademarked, trade named, or similarly specifically identifiable products, or components of products for his own use, including the performance of contractual services within that country, as may be defined by such regulations.

(3) Regulations issued pursuant to paragraphs (2)(C) and (2)(F) shall not provide exceptions from paragraphs (1)(B) and (1)(C).

(4) Nothing in this subsection may be construed to supersede or limit the operation of the antitrust or civil rights laws of the United States.

(5) This section shall apply to any transaction or activity undertaken, by or through a United States person or any other person, with intent to evade the provisions of this section as implemented by the regulations issued pursuant to this subsection, and such regulations shall expressly provide that the exceptions set forth in paragraph (2) shall not permit activities or agreements (expressed or implied by a course of conduct, including a pattern of responses) otherwise prohibited, which are not within the intent of such exceptions.

(b) Foreign policy controls

(1) In addition to the regulations issued pursuant to subsection (a) of this section, regulations issued under section 6 of this Act [section 2405 of this Appendix] shall implement the policies set forth in section 3(5) [section 2402(5) of this Appendix].

(2) Such regulations shall require that any United States person receiving a request for the furnishing of information, the entering into or implementing of agreements, or the taking of any other action referred to in section 3(5) [section 2402(5) of this Appendix] shall report that fact to the Secretary, together with such other information concerning such request as the Secretary may require for such action as the Secretary considers appropriate for carrying out the policies of that section. Such person shall also report to the Secretary whether such person intends to comply and whether such person has complied with such request. Any report filed pursuant to this paragraph shall be made available promptly for public inspection and copying, except that information regarding the quantity, description, and value of any goods or technology to which such report relates may be kept confidential if the Secretary determines that disclosure thereof would place the United States person involved at a competitive disadvantage. The Secretary shall periodically transmit summaries of the information contained in such reports to the Secretary of State for such action as the Secretary of State, in consultation with

the Secretary, considers appropriate for carrying out the policies set forth in section 3(5) of this Act [section 2402(5) of this Appendix].

(c) Preemption

The provisions of this section and the regulations issued pursuant thereto shall preempt any law, rule, or regulation of any of the several States or the District of Columbia, or any of the territories or possessions of the United States, or of any governmental subdivision thereof, which law, rule, or regulation pertains to participation in, compliance with, implementation of, or the furnishing of information regarding restrictive trade practices or boycotts fostered or imposed by foreign countries against other countries.

PRIOR PROVISIONS

A prior section 2407, Pub. L. 91-184, § 8, Dec. 30, 1969, 83 Stat. 846; Pub. L. 95-52, title II, § 203(b), June 22, 1977, 91 Stat. 247, relating to exemption from administrative procedure and judicial review provisions, expired on Sept. 30, 1979.

DELEGATION OF FUNCTIONS

Functions conferred upon President under this section delegated to Secretary of Commerce by Ex. Ord. No. 12214, May 2, 1980, 45 F.R. 29783, set out under section 2403 of this Appendix.

§ 2408. Procedures for hardship relief from export controls

(a) Filing of petitions

Any person who, in such person's domestic manufacturing process or other domestic business operation, utilizes a product produced abroad in whole or in part from a good historically obtained from the United States but which has been made subject to export controls, or any person who historically has exported such a good, may transmit a petition of hardship to the Secretary requesting an exemption from such controls in order to alleviate any unique hardship resulting from the imposition of such controls. A petition under this section shall be in such form as the Secretary shall prescribe and shall contain information demonstrating the need for the relief requested.

(b) Decision of Secretary

Not later than 30 days after receipt of any petition under subsection (a), the Secretary shall transmit a written decision to the petitioner granting or denying the requested relief. Such decision shall contain a statement setting forth the Secretary's basis for the grant or denial. Any exemption granted may be subject to such conditions as the Secretary considers appropriate.

(c) Factors to be considered

For purposes of this section, the Secretary's decision with respect to the grant or denial of relief from unique hardship resulting directly or indirectly from the imposition of export controls shall reflect the Secretary's consideration of factors such as the following:

- (1) Whether denial would cause a unique hardship to the petitioner which can be alleviated only by granting an exception to the ap-

plicable regulations. In determining whether relief shall be granted, the Secretary shall take into account—

(A) ownership of material for which there is no practicable domestic market by virtue of the location or nature of the material;

(B) potential serious financial loss to the applicant if not granted an exception;

(C) inability to obtain, except through import, an item essential for domestic use which is produced abroad from the good under control;

(D) the extent to which denial would conflict, to the particular detriment of the applicant, with other national policies including those reflected in any international agreement to which the United States is a party;

(E) possible adverse effects on the economy (including unemployment) in any locality or region of the United States; and

(F) other relevant factors, including the applicant's lack of an exporting history during any base period that may be established with respect to export quotas for the particular good.

(2) The effect a finding in favor of the applicant would have on attainment of the basic objectives of the short supply control program.

In all cases, the desire to sell at higher prices and thereby obtain greater profits shall not be considered as evidence of a unique hardship, nor will circumstances where the hardship is due to imprudent acts or failure to act on the part of the petitioner.

(Pub. L. 96-72, § 9, Sept. 29, 1979, 93 Stat. 524.)

PRIOR PROVISIONS

A prior section 2408, Pub. L. 91-184, § 9, Dec. 30, 1969, 83 Stat. 846, relating to providing information to exporters, expired on Sept. 30, 1979.

(a) Primary responsibility of Secretary

(1) All export license applications required under this Act [sections 2401 to 2420 of this Appendix] shall be submitted by the applicant to the Secretary. All determinations with respect to any such application shall be made by the Secretary, subject to the procedures provided in this section.

(2) It is the intent of the Congress that a determination with respect to any export license application be made to the maximum extent possible by the Secretary without referral of such application to any other department or agency of the Government.

(3) To the extent necessary, the Secretary shall seek information and recommendations from the Government departments and agencies concerned with aspects of United States domestic and foreign policies and operations having an important bearing on exports. Such departments and agencies shall cooperate fully in rendering such information and recommendations.

(b) Initial screening

Within 10 days after the date on which any export license application is submitted pursuant to subsection (a)(1), the Secretary shall—

(1) send the applicant an acknowledgment of the receipt of the application and the date of the receipt;

(2) submit to the applicant a written description of the procedures required by this section, the responsibilities of the Secretary and of other departments and agencies with respect to the application, and the rights of the applicant;

(3) return the application without action if the application is improperly completed or if additional information is required, with sufficient information to permit the application to be properly resubmitted, in which case if such application is resubmitted, it shall be treated as a new application for the purpose of calculating the time periods prescribed in this section;

(4) determine whether it is necessary to refer the application to any other department or agency and, if such referral is determined to be necessary, inform the applicant of any such department or agency to which the application will be referred; and

(5) determine whether it is necessary to submit the application to a multilateral review process, pursuant to a multilateral agreement, formal or informal, to which the United States is a party and, if so, inform the applicant of this requirement.

(c) Action on certain applications

Except as provided in subsection (o), in each case in which the Secretary determines that it is not necessary to refer an application to any other department or agency for its information and recommendations, a license shall be formally issued or denied within 60 days after a properly completed application has been submitted pursuant to this section.

(d) Referral to other departments and agencies

Except in the case of exports described in subsection (o), in each case in which the Secretary determines that it is necessary to refer an application to any other department or agency for its information and recommendations, the Secretary shall, within 20 days after the submission of a properly completed application—

(1) refer the application, together with all necessary analysis and recommendations of the Department of Commerce, concurrently to all such departments or agencies; and

(2) if the applicant so requests, provide the applicant with an opportunity to review for accuracy any documentation to be referred to any such department or agency with respect to such application for the purpose of describing the export in question in order to determine whether such documentation accurately describes the proposed export.

Notwithstanding the 10-day period set forth in subsection (b), in the case of exports described in subsection (o), in each case in which the Secretary determines that it is necessary to refer an application to any other department or agency for its information and recommendations, the Secretary shall, immediately upon receipt of the properly completed application, refer the application to such department or agency for its review. Such review shall be concurrent with that of the Department of Commerce.

(e) Action by other departments and agencies

(1) Any department or agency to which an application is referred pursuant to subsection (d) shall submit to the Secretary the information or recommendations requested with respect to the application. The information or recommendations shall be submitted within 20 days after the department or agency receives the application or, in the case of exports described in subsection (o), before the expiration of the time periods permitted by that subsection. Except as provided in paragraph (2), any such department or agency which does not submit its recommendations within the time period prescribed in the preceding sentence shall be deemed by the Secretary to have no objection to the approval of such application.

(2)(A) Except in the case of exports described in subsection (o), if the head of any such department or agency notifies the Secretary before the expiration of the time period provided in paragraph (1) for submission of its recommendations that more time is required for review by such department or agency, such department or agency shall have an additional 20-day period to submit its recommendations to the Secretary. If such department or agency does not submit its recommendations within the time period prescribed by the preceding sentence, it shall be deemed by the Secretary to have no objection to the approval of such application.

(B) In the case of exports described in subsection (o), if the head of any such department or agency notifies the Secretary, before the expiration of the 15-day period provided in subsection (o)(1), that more time is required for review by such department or agency, the Secretary shall notify the applicant, pursuant to subsection (o)(1)(C), that additional time is required to consider the application, and such department or agency shall have additional time to consider the application within the limits permitted by subsection (o)(2). If such department or agency does not submit its recommendations within the time periods permitted under subsection (o), it shall be deemed by the Secretary to have no objection to the approval of such application.

(f) Action by Secretary

(1) Within 60 days after receipt of the recommendations of other departments and agencies with respect to a license application, as provided in subsection (e), the Secretary shall formally issue or deny the license. In deciding whether to issue or deny a license, the Secretary shall take into account any recommendation of a department or agency with respect to the application in question. In cases where the Secretary receives conflicting recommendations, the Secretary shall, within the 60-day period provided for in this subsection, take such action as may be necessary to resolve such conflicting recommendations. The provisions of this paragraph shall not apply in the case of exports described in subsection (o).

(2) In cases where the Secretary receives questions or negative considerations or recommendations from any other department or agency with respect to an application, the Secretary shall, to the maximum extent consistent with

the national security and foreign policy of the United States, inform the applicant in writing of the specific questions raised and any such negative considerations or recommendations. Before a final determination with respect to the application is made, the applicant shall be entitled—

(B) the statutory basis for the proposed denial,

(C) the policies set forth in section 3 of this Act [section 2402 of this Appendix] which would be furthered by the proposed denial,

(D) what if any modifications in or restrictions on the goods or technology for which the license was sought would allow such export to be compatible with export controls imposed under this Act [sections 2401 to 2420 of this Appendix],

(E) which officers and employees of the Department of Commerce who are familiar with the application will be made reasonably available to the applicant for considerations with regard to such modifications or restrictions, if appropriate,

(F) to the extent consistent with the national security and foreign policy of the United States, the specific considerations which led to the determination to deny the application, and

(G) the availability of appeal procedures.

The Secretary shall allow the applicant at least 30 days to respond to the Secretary's determination before the license application is denied. In the event decisions on license applications are deferred inconsistent with the provisions of this section, the applicant shall be so informed in writing within 5 days after such deferral.

(4) If the Secretary determines that a particular application or set of applications is of exceptional importance and complexity, and that additional time is required for negotiations to modify the application or applications, the Secretary may extend any time period prescribed in this section. The Secretary shall notify the Congress and the applicant of such extension and the reasons therefor. The provisions of this paragraph shall not apply in the case of exports described in subsection (o).

(g) Special procedures for Secretary of Defense

(1) Notwithstanding any other provision of this section, the Secretary of Defense is authorized to review any proposed export of any goods or technology to any country to which exports

are controlled for national security purposes and, whenever the Secretary of Defense determines that the export of such goods or technology will make a significant contribution, which would prove detrimental to the national security of the United States, to the military potential of any such country, to recommend to the President that such export be disapproved.

(2) Notwithstanding any other provision of law, the Secretary of Defense shall determine, in consultation with the Secretary, and confirm in writing the types and categories of transactions which should be reviewed by the Secretary of Defense in order to make a determination referred to in paragraph (1). Whenever a license or other authority is requested for the export to any country to which exports are controlled for national security purposes of goods or technology within any such type or category, the Secretary shall notify the Secretary of Defense of such request, and the Secretary may not issue any license or other authority pursuant to such request before the expiration of the period within which the President may disapprove such export. The Secretary of Defense shall carefully consider any notification submitted by the Secretary pursuant to this paragraph and, not later than 20 days after notification of the request, shall—

(A) recommend to the President and the Secretary that he disapprove any request for the export of the goods or technology involved to the particular country if the Secretary of Defense determines that the export of such goods or technology will make a significant contribution, which would prove detrimental to the national security of the United States, to the military potential of such country or any other country;

(B) notify the Secretary that he would recommend approval subject to specified conditions; or

(C) recommend to the Secretary that the export of goods or technology be approved.

Whenever the Secretary of Defense makes a recommendation to the President pursuant to paragraph (2)(A), the Secretary shall also submit his recommendation to the President on the request to export if the Secretary differs with the Secretary of Defense. If the President notifies the Secretary, within 20 days after receiving a recommendation from the Secretary of Defense, that he disapproves such export, no license or other authority may be issued for the export of such goods or technology to such country. If the Secretary of Defense fails to make a recommendation or notification under this paragraph within the 20-day period specified in the third sentence, or if the President, within 20 days after receiving a recommendation from the Secretary of Defense with respect to an export, fails to notify the Secretary that he approves or disapproves the export, the Secretary shall approve or deny the request for a license or other authority to export without such recommendation or notification.

(3) The Secretary shall approve or disapprove a license application, and issue or deny a license, in accordance with the provisions of this subsection, and, to the extent applicable, in accordance with the time periods and procedures otherwise set forth in this section.

(h) Multilateral controls

In any case in which an application, which has been finally approved under subsection (c), (f), or (g) of this section, is required to be submitted to a multilateral review process, pursuant to a multilateral agreement, formal or informal, to which the United States is a party, the license shall not be issued as prescribed in such subsections, but the Secretary shall notify the applicant of the approval of the application (and the date of such approval) by the Secretary subject to such multilateral review. The license shall be issued upon approval of the application under such multilateral review. If such multilateral review has not resulted in a determination with respect to the application within 40 days after such date, the Secretary's approval of the license shall be final and the license shall be issued, unless the Secretary determines that issuance of the license would prove detrimental to the national security of the United States. At the time at which the Secretary makes such a determination, the Secretary shall notify the applicant of the determination and shall notify the Congress of the determination, the reasons for the determination, the reasons for which the multilateral review could not be concluded within such 40-day period, and the actions planned or being taken by the United States Government to secure conclusion of the multilateral review. At the end of every 40-day period after such notification to Congress, the Secretary shall advise the applicant and the Congress of the status of the application, and shall report to the Congress in detail on the reasons for the further delay and any further actions being taken by the United States Government to secure conclusion of the multilateral review. In addition, at the time at which the Secretary issues or denies the license upon conclusion of the multilateral review, the Secretary shall notify the Congress of such issuance or denial and of the total time required for the multilateral review.

(i) Records

The Secretary and any department or agency to which any application is referred under this section shall keep accurate records with respect to all applications considered by the Secretary or by any such department or agency, including, in the case of the Secretary, any dissenting recommendations received from any such department or agency.

(j) Appeal and court action

(1) The Secretary shall establish appropriate procedures for any applicant to appeal to the Secretary the denial of an export license application of the applicant.

(2) In any case in which any action prescribed in this section is not taken on a license application within the time periods established by this section (except in the case of a time period extended under subsection (f)(4) of which the applicant is notified), the applicant may file a petition with the Secretary requesting compliance with the requirements of this section. When such petition is filed, the Secretary shall take immediate steps to correct the situation giving rise to the petition and shall immediately notify the applicant of such steps.

(3) If, within 20 days after a petition is filed under paragraph (2), the processing of the application has not been brought into conformity with the requirements of this section, or the application has been brought into conformity with such requirements but the Secretary has not so notified the applicant, the applicant may bring an action in an appropriate United States district court for a restraining order, a temporary or permanent injunction, or other appropriate relief, to require compliance with the requirements of this section. The United States district courts shall have jurisdiction to provide such relief, as appropriate.

(k) Changes in requirements for applications

Except as provided in subsection (b)(3) of this section, in any case in which, after a license application is submitted, the Secretary changes the requirements for such a license application, the Secretary may request appropriate additional information of the applicant, but the Secretary may not return the application to the applicant without action because it fails to meet the changed requirements.

(l) Other inquiries

(1) In any case in which the Secretary receives a written request asking for the proper classification of a good or technology on the control list, the Secretary shall, within 10 working days after receipt of the request, inform the person making the request of the proper classification.

(2) In any case in which the Secretary receives a written request for information about the applicability of export license requirements under this Act [sections 2401 to 2420 of this Appendix] to a proposed export transaction or series of transactions, the Secretary shall, within 30 days after receipt of the request, reply with that information to the person making the request.

(m) Small business assistance

Not later than 120 days after the date of the enactment of this subsection [July 12, 1985], the Secretary shall develop and transmit to the Congress a plan to assist small businesses in the export licensing application process under this Act [sections 2401 to 2420 of this Appendix]. The plan shall include, among other things, arrangements for counseling small businesses on filing applications and identifying goods or technology on the control list, proposals for seminars and conferences to educate small businesses on export controls and licensing procedures, and the preparation of informational brochures. The Secretary shall, not later than 120 days after the date of the enactment of the Export Enhancement Act of 1988 [Aug. 23, 1988], report to the Congress on steps taken to implement the plan developed under this subsection to assist small businesses in the export licensing application process.

(n) Reports on license applications

(1) Not later than 180 days after the date of the enactment of this subsection [July 12, 1985], and not later than the end of each 3-month period thereafter, the Secretary shall submit to the Committee on Foreign Affairs of the House of Representatives and to the Committee on Banking, Housing, and Urban Affairs of the Senate a report listing—

(A) all applications on which action was completed during the preceding 3-month period and which required a period longer than the period permitted under subsection (c), (f)(1), or (h) of this section, as the case may be, before notification of a decision to approve or deny the application was sent to the applicant; and

(B) in a separate section, all applications which have been in process for a period longer than the period permitted under subsection (c), (f)(1), or (h) of this section, as the case may be, and upon which final action has not been taken.

(G) the total number of days which elapsed between receipt of the application, in its properly completed form, and the earlier of the last day of the 3-month period to which the report relates, or the date on which notification of approval or denial of the application was sent to the applicant.

(3) With respect to an application which was referred to other departments or agencies, the listing shall also include—

(A) the departments or agencies to which the application was referred;

(B) the date or dates of such referral; and

(C) the date or dates on which recommendations were received from those departments or agencies.

(4) With respect to an application referred to any other department or agency which did not submit or has not submitted its recommendations on the application within the period permitted under subsection (e) of this section to submit such recommendations, the listing shall also include—

(A) the office responsible for processing the application and the position of the officer responsible for the office; and

(B) the period of time that elapsed before the recommendations were submitted or that has elapsed since referral of the application, as the case may be.

(5) Each report shall also provide an introduction which contains—

(A) a summary of the number of applications described in paragraph (1)(A) and (B) of this subsection, and the value of the goods or technology involved in the applications, grouped according to—

(o) Exports to members of Coordinating Committee

(1) Fifteen working days after the date of formal filing with the Secretary of an individual validated license application for the export of goods or technology to a country that maintains export controls on such goods or technology pursuant to the agreement of the governments participating in the group known as the Coordinating Committee, a license for the transaction specified in the application shall become valid and effective and the goods or technology are authorized for export pursuant to such license unless—

(A) the application has been otherwise approved by the Secretary, in which case it shall be valid and effective according to the terms of the approval;

(B) the application has been denied by the Secretary pursuant to this section and the applicant has been so informed, or the applicant has been informed, pursuant to subsection (f)(3) of this section, that the application should be denied; or

(2) In the event that the Secretary notifies an applicant pursuant to paragraph (1)(C) that more time is required to consider an individual validated license application, a license for the transaction specified in the application shall become valid and effective and the goods or technology are authorized for export pursuant to such license 30 working days after the date that such license application was formally filed with the Secretary unless—

(5) The provisions of this subsection shall take effect 4 months after the date of the enactment of the Export Administration Amendments Act of 1985 [July 12, 1985].

§ 2410a. Multilateral export control violations

(a) Determination by the President

The President, subject to subsection (c), shall apply sanctions under subsection (b) for a period of not less than 2 years and not more than 5 years, if the President determines that—

(1) a foreign person has violated any regulation issued by a country to control exports for national security purposes pursuant to the agreement of the group known as the Coordinating Committee, and

(2) such violation has resulted in substantial enhancement of Soviet and East bloc capabilities in submarine or antisubmarine warfare, ballistic or antiballistic missile technology, strategic aircraft, command, control, communications and intelligence, or other critical technologies as determined by the President, on the advice of the National Security Council, to represent a serious adverse impact on the strategic balance of forces.

The President shall notify the Congress of each action taken under this section. This section, except subsections (h) and (j), applies only to violations that occur after the date of the enactment of the Export Enhancement Act of 1988 [Aug. 23, 1988].

(b) Sanctions

The sanctions referred to in subsection (a) shall apply to the foreign person committing the violation, as well as to any parent, affiliate, subsidiary, and successor entity of the foreign person, and, except as provided in subsection (c), are as follows:

(1) a prohibition on contracting with, and procurement of products and services from, a sanctioned person, by any department, agency, or instrumentality of the United States Government, and

(2) a prohibition on importation into the United States of all products produced by a sanctioned person.

(c) Exceptions

The President shall not apply sanctions under this section—

(1) in the case of procurement of defense articles or defense services—

(A) under existing contracts or subcontracts, including the exercise of options for production quantities to satisfy United States operational military requirements;

(B) if the President determines that the foreign person or other entity to which the sanctions would otherwise be applied is a sole source supplier of essential defense articles or services and no alternative supplier can be identified; or

(C) if the President determines that such articles or services are essential to the national security under defense coproduction agreements; or

(2) to—

(A) products or services provided under contracts or other binding agreements (as such terms are defined by the President in regulations) entered into before the date on which the President notifies the Congress of the intention to impose the sanctions;

(B) spare parts;

(C) component parts, but not finished products, essential to United States products or production;

(D) routine servicing and maintenance of products; or

(E) information and technology.

(d) Exclusion

The President shall not apply sanctions under this section to a parent, affiliate, subsidiary, and successor entity of a foreign person if the President determines that—

(1) the parent, affiliate, subsidiary, or successor entity (as the case may be) has not knowingly violated the export control regulation violated by the foreign person, and

(2) the government of the country with jurisdiction over the parent, affiliate, subsidiary, or successor entity had in effect, at the time of the violation by the foreign person, an effective export control system consistent with principles agreed to in the Coordinating Committee, including the following:

(A) national laws providing appropriate civil and criminal penalties and statutes of limitations sufficient to deter potential violations;

(B) a program to evaluate export license applications that includes sufficient technical expertise to assess the licensing status of exports and ensure the reliability of end-users;

(C) an enforcement mechanism that provides authority for trained enforcement officers to investigate and prevent illegal exports;

(D) a system of export control documentation to verify the movement of goods and technology; and

(E) procedures for the coordination and exchange of information concerning violations of the agreement of the Coordinating Committee.

(e) Definitions

For purposes of this section—

(1) the term “component part” means any article which is not usable for its intended functions without being imbedded in or integrated into any other product and which, if used in production of a finished product, would be substantially transformed in that process;

(2) the term “finished product” means any article which is usable for its intended functions without being imbedded or integrated into any other product, but in no case shall such term be deemed to include an article produced by a person other than a sanctioned person that contains parts or components of the sanctioned person if the parts or components have been substantially transformed during production of the finished product; and

(3) the term “sanctioned person” means a foreign person, and any parent, affiliate, sub-

sidary, or successor entity of the foreign person, upon whom sanctions have been imposed under this section.

(f) Subsequent modifications of sanctions

The President may, after consultation with the Congress, limit the scope of sanctions applied to a parent, affiliate, subsidiary, or successor entity of the foreign person determined to have committed the violation on account of which the sanctions were imposed if the President determines that—

(1) the parent, affiliate, subsidiary, or successor entity (as the case may be) has not, on the basis of available evidence, itself violated the export control regulation involved, either directly or through a course of conduct;

(2) the government with jurisdiction over the parent, affiliate, subsidiary, or successor entity has improved its export control system as measured by the criteria set forth in subsection (d)(2);

(3) the parent, affiliate, subsidiary, or successor entity, has instituted improvements in internal controls sufficient to detect and prevent violations of the export control regime implemented under paragraph (2); and

(4) the impact of the sanctions imposed on the parent, affiliate, subsidiary, or successor entity is proportionate to the increased defense expenditures imposed on the United States.

Notwithstanding the preceding sentence, the President may not limit the scope of the sanction referred to in subsection (b)(1) with respect to the parent of the foreign person determined to have committed the violation, until that sanction has been in effect for at least 2 years.

(g) Reports to Congress

The President shall include in the annual report submitted under section 14 [section 2413 of this Appendix], a report on the status of any sanctions imposed under this section, including any exceptions, exclusions, or modifications of sanctions that have been applied under subsection (c), (d), or (f).

(h) Discretionary imposition of sanctions

If the President determines that a foreign person has violated a regulation issued by a country to control exports for national security purposes pursuant to the agreement of the group known as the Coordinating Committee, but in a case in which subsection (a)(2) may not apply, the President may apply the sanctions referred to in subsection (b) against that foreign person for a period of not more than 5 years.

(i) Compensation for diversion of militarily critical technologies to controlled countries

(1) In cases in which sanctions have been applied against a foreign person under subsection (a), the President shall initiate discussions with the foreign person and the government with jurisdiction over that foreign person regarding compensation on the part of the foreign person in an amount proportionate to the costs of research and development and procurement of new defensive systems by the United States and the allies of the United States to counteract the effect of the technological advance achieved by

the Soviet Union as a result of the violation by that foreign person.

(2) The President shall, at the time that discussions are initiated under paragraph (1), report to the Congress that such discussions are being undertaken, and shall report to the Congress the outcome of those discussions.

(j) Other actions by the President

Upon making a determination under subsection (a) or (h), the President shall—

(1) initiate consultations with the foreign government with jurisdiction over the foreign person who committed the violation involved, in order to seek prompt remedial action by that government;

(2) initiate discussions with the governments participating in the Coordinating Committee regarding the violation and means to ensure that similar violations do not occur; and

(3) consult with and report to the Congress on the nature of the violation and the actions the President proposes to take, or has taken, to rectify the situation.

(k) Damages for certain violations

(1) In any case in which the President makes a determination under subsection (a), the Secretary of Defense shall determine the costs of restoring the military preparedness of the United States on account of the violation involved. The Secretary of Defense shall notify the Attorney General of his determination, and the Attorney General may bring an action for damages, in any appropriate district court of the United States, to recover such costs against the person who committed the violation, any person that is owned or controlled by the person who committed the violation, and any person who owns and controls the person who committed the violation.

(3)¹ The total amount awarded in any case brought under paragraph (2)¹ shall be determined by the court in light of the facts and circumstances, but shall not exceed the amount of the net loss to the national security of the United States. An action under this subsection shall be commenced not later than 3 years after the violation occurs, or one year after the violation is discovered, whichever is later.

(l) Definition

For purposes of this section, the term “foreign person” means any person other than a United States person.

any other appropriate penalties under section 11 of this Act [section 2410 of this Appendix].

(3) Waiver

The President may waive the imposition of sanctions under paragraph (1) on a person with respect to a product or service if the President certifies to the Congress that—

(A) the product or service is essential to the national security of the United States; and

(B) such person is a sole source supplier of the product or service, the product or service is not available from any alternative reliable supplier, and the need for the product or service cannot be met in a timely manner by improved manufacturing processes or technological developments.

(b) Transfers of missile equipment or technology by foreign persons

(1) Sanctions

(A) Subject to paragraphs (3) through (7), if the President determines that a foreign person, after the date of the enactment of this section [Nov. 5, 1990], knowingly—

(i) exports, transfers, or otherwise engages in the trade of any MTCR equipment or technology that contributes to the design, development, or production of missiles in a country that is not an MTCR adherent and would be, if it were United States-origin equipment or technology, subject to the jurisdiction of the United States under this Act [sections 2401 to 2420 of this Appendix],

(ii) conspires to or attempts to engage in such export, transfer, or trade, or

(4) Advisory opinions

The Secretary, in consultation with the Secretary of State and the Secretary of Defense, may, upon the request of any person, issue an advisory opinion to that person as to whether a proposed activity by that person would subject that person to sanctions under this subsection. Any person who relies in good faith on such an advisory opinion which states that the proposed activity would not subject a person to such sanctions, and any person who thereafter engages in such activity, may not be made subject to such sanctions on account of such activity.

(5) Waiver and report to Congress

(A) In any case other than one in which an advisory opinion has been issued under paragraph (4) stating that a proposed activity would not subject a person to sanctions under this subsection, the President may waive the application of paragraph (1) to a foreign person if the President determines that such waiver is essential to the national security of the United States.

(B) In the event that the President decides to apply the waiver described in subparagraph (A), the President shall so notify the Congress not less than 20 working days before issuing the waiver. Such notification shall include a report fully articulating the rationale and circumstances which led the President to apply the waiver.

(6) Additional waiver

The President may waive the imposition of sanctions under paragraph (1) on a person with respect to a product or service if the President certifies to the Congress that—

(A) the product or service is essential to the national security of the United States; and

(B) such person is a sole source supplier of the product or service, the product or service is not available from any alternative reliable supplier, and the need for the product or service cannot be met in a timely manner by improved manufacturing processes or technological developments.

(7) Exceptions

The President shall not apply the sanction under this subsection prohibiting the importation of the products of a foreign person—

(A) in the case of procurement of defense articles or defense services—

(i) under existing contracts or subcontracts, including the exercise of options for production quantities to satisfy requirements essential to the national security of the United States;

(ii) if the President determines that the person to which the sanctions would be applied is a sole source supplier of the defense articles and services, that the defense articles or services are essential to the national security of the United States, and that alternative sources are not readily or reasonably available; or

(iii) if the President determines that such articles or services are essential to the national security of the United States under defense coproduction agreements or NATO Programs of Cooperation;

(B) to products or services provided under contracts entered into before the date on which the President publishes his intention to impose the sanctions; or

(C) to—

(i) spare parts,

(3) Persons against which sanctions are to be imposed

Sanctions shall be imposed pursuant to paragraph (1) on—

(A) the foreign person with respect to which the President makes the determination described in that paragraph;

(B) any successor entity to that foreign person;

(C) any foreign person that is a parent or subsidiary of that foreign person if that parent or subsidiary knowingly assisted in the activities which were the basis of that determination; and

(D) any foreign person that is an affiliate of that foreign person if that affiliate knowingly assisted in the activities which were the basis of that determination and if that affiliate is controlled in fact by that foreign person.

(b) Consultations with and actions by foreign government of jurisdiction

(1) Consultations

If the President makes the determinations described in subsection (a)(1) with respect to a foreign person, the Congress urges the President to initiate consultations immediately with the government with primary jurisdiction over that foreign person with respect to the imposition of sanctions pursuant to this section.

(2) Actions by government of jurisdiction

In order to pursue such consultations with that government, the President may delay imposition of sanctions pursuant to this section

for a period of up to 90 days. Following these consultations, the President shall impose sanctions unless the President determines and certifies to the Congress that that government has taken specific and effective actions, including appropriate penalties, to terminate the involvement of the foreign person in the activities described in subsection (a)(1). The President may delay imposition of sanctions for an additional period of up to 90 days if the President determines and certifies to the Congress that that government is in the process of taking the actions described in the preceding sentence.

(3) Report to Congress

The President shall report to the Congress, not later than 90 days after making a determination under subsection (a)(1), on the status of consultations with the appropriate government under this subsection, and the basis for any determination under paragraph (2) of this subsection that such government has taken specific corrective actions.

(c) Sanctions

(1) Description of sanctions

The sanctions to be imposed pursuant to subsection (a)(1) are, except as provided in paragraph (2) of this subsection, the following:

(A) in the case of procurement of defense articles or defense services—

(i) under existing contracts or subcontracts, including the exercise of options for production quantities to satisfy United States operational military requirements;

(ii) if the President determines that the person or other entity to which the sanctions would otherwise be applied is a sole source supplier of the defense articles or services, that the defense articles or services are essential, and that alternative sources are not readily or reasonably available; or

(iii) if the President determines that such articles or services are essential to the national security under defense co-production agreements;

(B) to products or services provided under contracts entered into before the date on which the President publishes his intention to impose sanctions;

(E) to medical or other humanitarian items.

(d) Termination of sanctions

The sanctions imposed pursuant to this section shall apply for a period of at least 12 months following the imposition of sanctions and shall cease to apply thereafter only if the President determines and certifies to the Congress that reliable information indicates that the foreign person with respect to which the determination was made under subsection (a)(1) has ceased to aid or abet any foreign government, project, or entity in its efforts to acquire chemical or biological weapons capability as described in that subsection.

(e) Waiver

(1) Criterion for waiver

The President may waive the application of any sanction imposed on any person pursuant to this section, after the end of the 12-month period beginning on the date on which that sanction was imposed on that person, if the President determines and certifies to the Congress that such waiver is important to the national security interests of the United States.

(2) Notification of and report to Congress

If the President decides to exercise the waiver authority provided in paragraph (1), the President shall so notify the Congress not less than 20 days before the waiver takes effect. Such notification shall include a report fully articulating the rationale and circumstances which led the President to exercise the waiver authority.

(1) To the extent necessary or appropriate to the enforcement of this Act [sections 2401 to 2420 of this Appendix] or to the imposition of any penalty, forfeiture, or liability arising under the Export Control Act of 1949 [former sections 2021 to 2032 of this Appendix] or the Export Administration Act of 1969 [former sections 2401 to 2413 of this Appendix], the head of any department or agency exercising any function thereunder (and officers or employees of such department or agency specifically designated by the head thereof) may make such investigations within the United States, and the Commissioner of Customs (and officers or employees of the United States Customs Service specifically designated by the Commissioner) may make such investigations outside of the United States, and the head of such department or agency (and such officers or employees) may obtain such information from, require such reports or the keeping of such records by, make such inspection of the books, records, and other writings, premises, or property of, and take the sworn testimony of, any person. In addition, such officers or employees may administer oaths or affirmations, and may by subpoena require any person to appear and testify or to appear and produce books, records, and other writings, or both, and in the case of contumacy by, or refusal to obey a subpoena issued to, any such person, a district court of the United States, after notice to any such person and hearing, shall have jurisdiction to issue an order requiring such person to appear and give testimony or to appear and produce books, records, and other writings, or both, and any failure to obey such order of the court may be punished by such court as a contempt thereof. In addition to the authority conferred by this paragraph, the Secretary (and officers or employees of the Department of Commerce designated by the Secretary) may conduct, outside the United States, pre-license investigations and post-shipment verifications of items licensed for export, and investigations in the enforcement of section 8 of this Act [section 2407 of this Appendix].

(2)(A) Subject to subparagraph (B) of this paragraph, the United States Customs Service is authorized, in the enforcement of this Act [sections 2401 to 2420 of this Appendix], to search, detain (after search), and seize goods or technology at those ports of entry or exit from the United States where officers of the Customs Service are authorized by law to conduct such searches, detentions, and seizures, and at those places outside the United States where the Customs Service, pursuant to agreements or other arrangements with other countries, is authorized to perform enforcement activities.

(B) An officer of the United States Customs Service may do the following in carrying out enforcement authority under this Act [sections 2401 to 2420 of this Appendix]:

(i) Stop, search, and examine a vehicle, vessel, aircraft, or person on which or whom such officer has reasonable cause to suspect there are any goods or technology that has been, is being, or is about to be exported from the United States in violation of this Act [sections 2401 to 2420 of this Appendix].

(ii) Search any package or container in which such officer has reasonable cause to suspect there are any goods or technology that has been, is being, or is about to be exported from the United States in violation of this Act [sections 2401 to 2420 of this Appendix].

(iv) Make arrests without warrant for any violation of this Act [sections 2401 to 2420 of this Appendix] committed in his or her presence or view or if the officer has probable cause to believe that the person to be arrested has committed or is committing such a violation.

The Customs Service may not detain for more than 20 days any shipment of goods or technology eligible for export under a general license under section 4(a)(3) [section 2403(a)(3) of this Appendix]. In a case in which such detention is on account of a disagreement between the Secretary and the head of any other department or agency with export license authority under other provisions of law concerning the export license requirements for such goods or technology, such disagreement shall be resolved within that 20-day period. At the end of that 20-day period, the Customs Service shall either release the goods or technology, or seize the goods or technology as authorized by other provisions of law.

(3)(A) Subject to subparagraph (B) of this paragraph, the Secretary shall have the responsibility for the enforcement of section 8 of this Act [section 2407 of this Appendix] and, in the enforcement of the other provisions of this Act [sections 2401 to 2420 of this Appendix], the Secretary is authorized to search, detain (after search), and seize goods or technology at those places within the United States other than those ports specified in paragraph (2)(A) of this subsection. (ii) Make arrests without warrant for any violation of this Act [sections 2401 to 2420 of this Appendix] committed in his or her presence or view, or if the officer or employee has probable cause to believe that the person to be arrested has committed or is committing such a violation.

(iii) Carry firearms in carrying out any activity described in clause (i) or (ii).

(4) The authorities first conferred by the Export Administration Amendments Act of 1985 under paragraph (3) shall be exercised pursuant to guidelines approved by the Attorney General. Such guidelines shall be issued not later than 120 days after the date of the enactment of the Export Administration Amendments Act of 1985 [July 12, 1985].

(5) All cases involving violations of this Act [sections 2401 to 2420 of this Appendix] shall be referred to the Secretary for purposes of determining civil penalties and administrative sanctions under section 11(c) of this Act [section 2410(c) of this Appendix], or to the Attorney General for criminal action in accordance with this Act [sections 2401 to 2420 of this Appendix].

(6) Notwithstanding any other provision of law, the United States Customs Service may expend in the enforcement of export controls under this Act [sections 2401 to 2420 of this Appendix] not more than \$12,000,000 in the fiscal year 1985 and not more than \$14,000,000 in the fiscal year 1986.

(7) Not later than 90 days after the date of the enactment of the Export Administration Amendments Act of 1985 [July 12, 1985], the Secretary, with the concurrence of the Secretary of the Treasury, shall publish in the Federal Register procedures setting forth, in accordance with this subsection, the responsibilities of the Department of Commerce and the United States Customs Service in the enforcement of this Act [sections 2401 to 2420 of this Appendix]. In addition, the Secretary, with the concurrence of the Secretary of the Treasury, may publish procedures for the sharing of information in accordance with subsection (c)(3) of this section, and procedures for the submission to the appropriate departments and agencies by private persons of information relating to the enforcement of this Act [sections 2401 to 2420 of this Appendix].

(8) For purposes of this section, a reference to the enforcement of this Act [sections 2401 to 2420 of this Appendix] or to a violation of this Act [sections 2401 to 2420 of this Appendix] includes a reference to the enforcement or a violation of any regulation, order, or license issued under this Act [sections 2401 to 2420 of this Appendix].

(b) Immunity

No person shall be excused from complying with any requirements under this section because of his privilege against self-incrimination, but the immunity provisions of section 6002 of title 18, United States Code, shall apply with respect to any individual who specifically claims such privilege.

(c) Confidentiality

(1) Except as otherwise provided by the third sentence of section 8(b)(2) [section 2407(b)(2) of

this Appendix] and by section 11(c)(2)(C) of this Act [section 2410(c)(2)(C) of this Appendix], information obtained under this Act [sections 2401 to 2420 of this Appendix] on or before June 30, 1980, which is deemed confidential, including Shippers' Export Declarations, or with reference to which a request for confidential treatment is made by the person furnishing such information, shall be exempt from disclosure under section 552 of title 5, United States Code, and such information shall not be published or disclosed unless the Secretary determines that the withholding thereof is contrary to the national interest. Information obtained under this Act [sections 2401 to 2420 of this Appendix] after June 30, 1980, may be withheld only to the extent permitted by statute, except that information obtained for the purpose of consideration of, or concerning, license applications under this Act [sections 2401 to 2420 of this Appendix] shall be withheld from public disclosure unless the release of such information is determined by the Secretary to be in the national interest. Enactment of this subsection shall not affect any judicial proceeding commenced under section 552 of title 5, United States Code, to obtain access to boycott reports submitted prior to October 31, 1976, which was pending on May 15, 1979; but such proceeding shall be continued as if this Act [sections 2401 to 2420 of this Appendix] had not been enacted.

(2) Nothing in this Act [sections 2401 to 2420 of this Appendix] shall be construed as authorizing the withholding of information from the Congress or from the Government Accountability Office. All information obtained at any time under this Act [sections 2401 to 2420 of this Appendix] or previous Acts regarding the control of exports, including any report or license application required under this Act [sections 2401 to 2420 of this Appendix], shall be made available to any committee or subcommittee of Congress of appropriate jurisdiction upon request of the chairman or ranking minority member of such committee or subcommittee. No such committee or subcommittee, or member thereof, shall disclose any information obtained under this Act [sections 2401 to 2420 of this Appendix] or previous Acts regarding the control of exports which is submitted on a confidential basis unless the full committee determines that the withholding of that information is contrary to the national interest. Notwithstanding paragraph (1) of this subsection, information referred to in the second sentence of this paragraph shall, consistent with the protection of intelligence, counterintelligence, and law enforcement sources, methods, and activities, as determined by the agency that originally obtained the information, and consistent with the provisions of section 313 of the Budget and Accounting Act 1921 [31 U.S.C. 716], be made available only by that agency, upon request, to the Comptroller General of the United States or to any officer or employee of the Government Accountability Office who is authorized by the Comptroller General to have access to such information. No officer or employee of the Government Accountability Office shall disclose, except to the Congress in accordance with this paragraph, any such information which is submitted on a confidential basis and from which any individual can be identified.

(3) Any department or agency which obtains information which is relevant to the enforcement of this Act [sections 2401 to 2420 of this Appendix], including information pertaining to any investigation, shall furnish such information to each department or agency with enforcement responsibilities under this Act [sections 2401 to 2420 of this Appendix] to the extent consistent with the protection of intelligence, counterintelligence, and law enforcement sources, methods, and activities. The provisions of this paragraph shall not apply to information subject to the restrictions set forth in section 9 of title 13, United States Code; and return information, as defined in subsection (b) of section 6103 of the Internal Revenue Code of 1986 [26 U.S.C. 6103(b)], may be disclosed only as authorized by such section. The Secretary and the Commissioner of Customs, upon request, shall exchange any licensing and enforcement information with each other which is necessary to facilitate enforcement efforts and effective license decisions. The Secretary, the Attorney General, and the Commissioner of Customs shall consult on a continuing basis with one another and with the heads of other departments and agencies which obtain information subject to this paragraph, in order to facilitate the exchange of such information.

(d) Reporting requirements

In the administration of this Act [sections 2401 to 2420 of this Appendix], reporting requirements shall be so designed as to reduce the cost of reporting, recordkeeping, and export documentation required under this Act [sections 2401 to 2420 of this Appendix] to the extent feasible consistent with effective enforcement and compilation of useful trade statistics. Reporting, recordkeeping, and export documentation requirements shall be periodically reviewed and revised in the light of developments in the field of information technology.

(e) Simplification of regulations

The Secretary, in consultation with appropriate United States Government departments and agencies and with appropriate technical advisory committees established under section 5(h) [section 2404(h) of this Appendix], shall review the regulations issued under this Act [sections 2401 to 2420 of this Appendix] and the commodity control list in order to determine how compliance with the provisions of this Act [sections 2401 to 2420 of this Appendix] can be facilitated by simplifying such regulations, by simplifying or clarifying such list, or by any other means.

§ 2411a. Omitted

CODIFICATION

A prior section 2411a, Pub. L. 91-184, §13, as added Pub. L. 95-52, title I, §102, June 22, 1977, 91 Stat. 235, authorizing appropriations to carry out purposes of provisions of Export Administration Act of 1969, expired on Sept. 30, 1979.

§ 2412. Administrative procedure and judicial review

(a) Exemption

Except as provided in section 11(c)(2) [section 2410(c)(2) of this Appendix] and subsection (c) of this section, the functions exercised under this Act [sections 2401 to 2420 of this Appendix] are excluded from the operation of sections 551, 553 through 559, and 701 through 706 of title 5, United States Code.

(b) Public participation

It is the intent of the Congress that, to the extent practicable, all regulations imposing controls on exports under this Act [sections 2401 to 2420 of this Appendix] be issued in proposed form with meaningful opportunity for public comment before taking effect. In cases where a regulation imposing controls under this Act [sections 2401 to 2420 of this Appendix] is issued with immediate effect, it is the intent of the Congress that meaningful opportunity for public comment also be provided and that the regulation be reissued in final form after public comments have been fully considered.

(c) Procedures relating to civil penalties and sanctions

(1) In any case in which a civil penalty or other civil sanction (other than a temporary denial order or a penalty or sanction for a violation of section 8 [section 2407 of this Appendix]) is sought under section 11 of this Act [section 2410 of this Appendix], the charged party is entitled to receive a formal complaint specifying the charges and, at his or her request, to contest the charges in a hearing before an administrative law judge. Subject to the provisions of this subsection, any such hearing shall be conducted in accordance with sections 556 and 557 of title 5, United States Code. With the approval of the administrative law judge, the Government may present evidence in camera in the presence of the charged party or his or her representative. After the hearing, the administrative law judge shall make findings of fact and conclusions of law in a written decision, which shall be referred to the Secretary. The Secretary shall, in a written order, affirm, modify, or vacate the decision of the administrative law judge within 30 days after receiving the decision. The order of the Secretary shall be final and is not subject to judicial review, except as provided in paragraph (3).

(2) The proceedings described in paragraph (1) shall be concluded within a period of 1 year after the complaint is submitted, unless the administrative law judge extends such period for good cause shown.

(3) The order of the Secretary under paragraph (1) shall be final, except that the charged party may, within 15 days after the order is issued, appeal the order in the United States Court of Appeals for the District of Columbia Circuit, which shall have jurisdiction of the appeal. The court may, while the appeal is pending, stay the order of the Secretary. The court may review only those issues necessary to determine liability for the civil penalty or other sanction involved. In an appeal filed under this paragraph, the court shall set aside any finding of fact for which the court finds there is not substantial evidence on the record and any conclusion of law which the court finds to be arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law.

(4) An administrative law judge referred to in this subsection shall be appointed by the Secretary from among those considered qualified for selection and appointment under section 3105 of title 5, United States Code. Any person who, for at least 2 of the 10 years immediately preceding the date of the enactment of the Export Administration Amendments Act of 1985 [July 12, 1985], has served as a hearing commissioner of the Department of Commerce shall be included among those considered as qualified for selection and appointment to such position.

(d) Imposition of temporary denial orders

(1) In any case in which it is necessary, in the public interest, to prevent an imminent violation of this Act [sections 2401 to 2420 of this Appendix] or any regulation, order, or license issued under this Act [sections 2401 to 2420 of this Appendix], the Secretary may, without a hearing, issue an order temporarily denying United

States export privileges (hereinafter in this subsection referred to as a “temporary denial order”) to a person. A temporary denial order may be effective no longer than 180 days unless renewed in writing by the Secretary for additional 180-day periods in order to prevent such an imminent violation, except that a temporary denial order may be renewed only after notice and an opportunity for a hearing is provided.

(2) A temporary denial order shall define the imminent violation and state why the temporary denial order was granted without a hearing. The person or persons subject to the issuance or renewal of a temporary denial order may file an appeal of the issuance or renewal of the temporary denial order with an administrative law judge who shall, within 10 working days after the appeal is filed, recommend that the temporary denial order be affirmed, modified, or vacated. Parties may submit briefs and other material to the judge. The recommendation of the administrative law judge shall be submitted to the Secretary who shall either accept, reject, or modify the recommendation by written order within 5 working days after receiving the recommendation. The written order of the Secretary under the preceding sentence shall be final and is not subject to judicial review, except as provided in paragraph (3). The temporary denial order shall be affirmed only if it is reasonable to believe that the order is required in the public interest to prevent an imminent violation of this Act [sections 2401 to 2420 of this Appendix] or any regulation, order, or license issued under this Act [sections 2401 to 2420 of this Appendix]. All materials submitted to the administrative law judge and the Secretary shall constitute the administrative record for purposes of review by the courts.

(3) An order of the Secretary affirming, in whole or in part, the issuance of a temporary denial order may, within 15 days after the order is issued, be appealed by a person subject to the order to the United States Court of Appeals for the District of Columbia Circuit, which shall have jurisdiction of the appeal. The court may review only those issues necessary to determine whether the standard for issuing the temporary denial order has been met. The court shall vacate the Secretary’s order if the court finds that the Secretary’s order is arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law.

(e) Appeals from license denials

A determination of the Secretary, under section 10(f) of this Act [section 2409(f) of this Appendix], to deny a license may be appealed by the applicant to an administrative law judge who shall have the authority to conduct proceedings to determine only whether the item sought to be exported is in fact on the control list. Such proceedings shall be conducted within 90 days after the appeal is filed. Any determination by an administrative law judge under this subsection and all materials filed before such judge in the proceedings shall be reviewed by the Secretary, who shall either affirm or vacate the determination in a written decision within 30 days after receiving the determination. The Secretary’s written decision shall be final and is

not subject to judicial review. Subject to the limitations provided in section 12(c) of this Act [section 2411(c) of this Appendix], the Secretary's decision shall be published in the Federal Register.
