

§10(b), Oct. 31, 1994, 108 Stat. 4391, section 6(43)(B) of which enacted section 32918 as part of part C of subtitle VI of Title 49.

January 7, 1980, referred to in subsec. (c)(2), was in the original “enactment of the Act” which has been translated as meaning the date of enactment of Pub. A part of par. (2) of section 2512(c) of the Electric and Hybrid Vehicle Research, Development, and Demonstration Act of 1976, as added by Pub. L. 96-185, has not been included in the text of subsec. (c)(2) of this section. The omitted provision consists of directory language for an amendment of section 2003 of this title and the indicated amendment has been executed to the text of that section as directed.

In subsec. (d), “Secretary of Transportation” substituted for “Secretary” in two places for clarity, see Codification note set out under section 2502 of this title.

SUBCHAPTER I—CONTROL OF TOXIC SUBSTANCES

§ 2601. Findings, policy, and intent

(a) Findings

The Congress finds that—

(1) human beings and the environment are being exposed each year to a large number of chemical substances and mixtures;

(2) among the many chemical substances and mixtures which are constantly being developed and produced, there are some whose manufacture, processing, distribution in commerce, use, or disposal may present an unreasonable risk of injury to health or the environment; and

(3) the effective regulation of interstate commerce in such chemical substances and mixtures also necessitates the regulation of intrastate commerce in such chemical substances and mixtures.

(b) Policy

It is the policy of the United States that—

(1) adequate data should be developed with respect to the effect of chemical substances

and mixtures on health and the environment and that the development of such data should be the responsibility of those who manufacture and those who process such chemical substances and mixtures;

(2) adequate authority should exist to regulate chemical substances and mixtures which present an unreasonable risk of injury to health or the environment, and to take action with respect to chemical substances and mixtures which are imminent hazards; and

(3) authority over chemical substances and mixtures should be exercised in such a manner as not to impede unduly or create unnecessary economic barriers to technological innovation while fulfilling the primary purpose of this chapter to assure that such innovation and commerce in such chemical substances and mixtures do not present an unreasonable risk of injury to health or the environment.

(c) Intent of Congress

It is the intent of Congress that the Administrator shall carry out this chapter in a reasonable and prudent manner, and that the Administrator shall consider the environmental, economic, and social impact of any action the Administrator takes or proposes to take under this chapter.
