§ 1a. Repealed. June 25, 1948, ch. 646, §39, 62 Stat. 992, eff. Sept. 1, 1948

Section, act June 28, 1938, ch. 778, §1, 52 Stat. 1213, related to residence of United States Commissioners [now magistrate judges].

§ 1a-1. National Park System: administration; declaration of findings and purpose

Congress declares that the national park system, which began with establishment of Yellowstone National Park in 1872, has since grown to include superlative natural, historic, and recreation areas in every major region of the United States, its territories and island possessions;

that these areas, though distinct in character, are united through their inter-related purposes and resources into one national park system as cumulative expressions of a single national heritage; that, individually and collectively, these areas derive increased national dignity and recognition of their superb environmental quality through their inclusion jointly with each other in one national park system preserved and managed for the benefit and inspiration of all the people of the United States; and that it is the purpose of this Act to include all such areas in the System and to clarify the authorities applicable to the system. Congress further reaffirms, declares, and directs that the promotion and regulation of the various areas of the National Park System, as defined in section 1c of this title, shall be consistent with and founded in the purpose established by section 1 of this title, to the common benefit of all the people of the United States. The authorization of activities shall be construed and the protection, management, and administration of these areas shall be conducted in light of the high public value and integrity of the National Park System and shall not be exercised in derogation of the values and purposes for which these various areas have been established, except as may have been or shall be directly and specifically provided by Congress.

"SECTION 1. STUDY OF PARK OVERFLIGHTS.

"(a) STUDY BY PARK SERVICE.—The Secretary of the Interior (hereinafter referred to as the 'Secretary'), acting through the Director of the National Park Service, shall conduct a study to determine the proper minimum altitude which should be maintained by aircraft when flying over units of the National Park System. The Secretary of Transportation, acting through the Administrator of the Federal Aviation Administration (hereinafter referred to as the 'Administrator'), shall provide technical assistance to the Secretary in carrying out the study.

"(b) GENERAL REQUIREMENTS OF STUDY.—The study shall identify any problems associated with overflight by aircraft of units of the National Park System and shall provide information regarding the types of over-

flight which may be impacting on park unit resources. The study shall distinguish between the impacts caused by sightseeing aircraft, military aircraft, commercial aviation, general aviation, and other forms of aircraft which affect such units. The study shall identify those park system units, and portions thereof, in which the most serious adverse impacts from aircraft overflights exist.

“(c) SPECIFIC REQUIREMENTS.—The study under this section shall include research at the following units of the National Park System: Cumberland Island National Seashore, Yosemite National Park, Hawai'i Volcanoes National Park, Haleakalā National Park, Glacier National Park, and Mount Rushmore National Memorial, and at no less than four additional units of the National Park System, excluding all National Park System units in the State of Alaska. The research at each such unit shall provide information and an evaluation regarding each of the following:

“(1) the impacts of aircraft noise on the safety of the park system users, including hikers, rock-climbers, and boaters;

“(2) the impairment of visitor enjoyment associated with flights over such units of the National Park System;

“(3) other injurious effects of overflights on the natural, historical, and cultural resources for which such units were established; and

“(4) the values associated with aircraft flights over such units of the National Park System in terms of visitor enjoyment, the protection of persons or property, search and rescue operations and firefighting.

Such research shall evaluate the impact of overflights by both fixed-wing aircraft and helicopters. The research shall include an evaluation of the differences in noise levels within such units of the National Park System which are associated with flight by commonly used aircraft at different altitudes. The research shall apply only to overflights and shall not apply to landing fields within, or adjacent to, such units.

“(d) REPORT TO CONGRESS.—The Secretary shall submit a report to the Congress within 3 years after the enactment of this Act [Aug. 18, 1987] containing the results of the study carried out under this section. Such report shall also contain recommendations for legislative and regulatory action which could be taken regarding the information gathered pursuant to paragraphs (1) through (4) of subsection (c). Before submission to the Congress, the Secretary shall provide a draft of the report and recommendations to the Administrator for review. The Administrator shall review such report and recommendations and notify the Secretary of any adverse effects which the implementation of such recommendations would have on the safety of aircraft operations. The Administrator shall consult with the Secretary to resolve issues relating to such adverse effects. The final report shall include a finding by the Administrator that implementation of the recommendations of the Secretary will not have adverse effects on the safety of aircraft operations, or if the Administrator is unable to make such finding, a statement by the Administrator of the reasons he believes the Secretary's recommendations will have an adverse effect on the safety of aircraft operations.

“(e) FAA REVIEW OF RULES.—The Administrator shall review current rules and regulations pertaining to flights of aircraft over units of the National Park System at which research is conducted under subsection (c) and over any other such units at which such a review is determined necessary by the Administrator or is requested by the Secretary. In the review under this subsection, the Administrator shall determine whether changes are needed in such rules and regulations on the basis of aviation safety. Not later than 180 days after the identification of the units of the National Park System for which research is to be conducted under subsection (c), the Administrator shall submit a report to Congress containing the results of the review along with recommendations for legislative and regulatory action which are needed to implement any such changes.

“(f) AUTHORIZATION.—There are authorized to be appropriated such sums as may be necessary to carry out the studies and review under this section.

“SEC. 2. FLIGHTS OVER YOSEMITE AND HALEAKALĀ DURING STUDY AND REVIEW.

“(a) YOSEMITE NATIONAL PARK.—During the study and review periods provided in subsection (c), it shall be unlawful for any fixed wing aircraft or helicopter flying under visual flight rules to fly at an altitude of less than 2,000 feet over the surface of Yosemite National Park. For purposes of this subsection, the term ‘surface’ refers to the highest terrain within the park which is within 2,000 feet laterally of the route of flight and with respect to Yosemite Valley such term refers to the upper-most rim of the valley.

“(b) HALEAKALĀ NATIONAL PARK.—During the study and review periods provided in subsection (c), it shall be unlawful for any fixed wing aircraft or helicopter flying under visual flight rules to fly at an altitude below 9,500 feet above mean sea level over the surface of any of the following areas in Haleakalā National Park: Haleakala Crater, Crater Cabins, the Scientific Research Reserve, Halemau Trail, Kaupo Gap Trail, or any designated tourist viewpoint.

“(c) STUDY AND REVIEW PERIODS.—For purposes of subsections (a) and (b), the study period shall be the period of the time after the date of enactment of this Act [Aug. 18, 1987] and prior to the submission of the report under section 1. The review period shall comprise a 2-year period for Congressional review after the submission of the report to Congress.

“(d) EXCEPTIONS.—The prohibitions contained in subsections (a) and (b) shall not apply to any of the following:

“(1) emergency situations involving the protection of persons or property, including aircraft;

“(2) search and rescue operations;

“(3) flights for purposes of firefighting or for required administrative purposes; and

“(4) compliance with instructions of an air traffic controller.

“(e) ENFORCEMENT.—For purposes of enforcement, the prohibitions contained in subsections (a) and (b) shall be treated as requirements established pursuant to section 307 of the Federal Aviation Act of 1958 [see 49 U.S.C. 40103(b)]. To provide information to pilots regarding the restrictions established under this Act, the Administrator shall provide public notice of such restrictions in appropriate Federal Aviation Administration publications as soon as practicable after the enactment of this Act [Aug. 18, 1987].

“SEC. 3. GRAND CANYON NATIONAL PARK.

“(a) Noise associated with aircraft overflights at the Grand Canyon National Park is causing a significant adverse effect on the natural quiet and experience of the park and current aircraft operations at the Grand Canyon National Park have raised serious concerns regarding public safety, including concerns regarding the safety of park users.

“(b) RECOMMENDATIONS.—

“(1) SUBMISSION.—Within 30 days after the enactment of this Act [Aug. 18, 1987], the Secretary shall submit to the Administrator recommendations regarding actions necessary for the protection of resources in the Grand Canyon from adverse impacts associated with aircraft overflights. The recommendations shall provide for substantial restoration of the natural quiet and experience of the park and protection of public health and safety from adverse effects associated with aircraft overflight. Except as provided in subsection (c), the recommendations shall contain provisions prohibiting the flight of aircraft below the rim of the Canyon, and shall designate flight free zones. Such zones shall be flight free except for purposes of administration and for emergency operations, including those required for the transportation of persons and supplies to and from Supai Village and the lands of the Havasupai Indian Tribe of Arizona. The Administrator, after consulta-

tion with the Secretary, shall define the rim of the Canyon in a manner consistent with the purposes of this paragraph.

“(2) IMPLEMENTATION.—Not later than 90 days after receipt of the recommendations under paragraph (1) and after notice and opportunity for hearing, the Administrator shall prepare and issue a final plan for the management of air traffic in the air space above the Grand Canyon. The plan shall, by appropriate regulation, implement the recommendations of the Secretary without change unless the Administrator determines that implementing the recommendations would adversely affect aviation safety. If the Administrator determines that implementing the recommendations would adversely affect aviation safety, he shall, not later than 60 days after making such determination, in consultation with the Secretary and after notice and opportunity for hearing, review the recommendations consistent with the requirements of paragraph (1) to eliminate the adverse effects on aviation safety and issue regulations implementing the revised recommendations in the plan. In addition to the Administrator’s authority to implement such regulations under the Federal Aviation Act of 1958 [see 49 U.S.C. 40101 et seq.], the Secretary may enforce the appropriate requirements of the plan under such rules and regulations applicable to the units of the National Park System as he deems appropriate.

“(3) REPORT.—Within 2 years after the effective date of the plan required by subsection (b)(2), the Secretary shall submit to the Congress a report discussing—

“(A) whether the plan has succeeded in substantially restoring the natural quiet in the park; and

“(B) such other matters, including possible revisions in the plan, as may be of interest.

The report shall include comments by the Administrator regarding the effect of the plan’s implementation on aircraft safety.

“(C) HELICOPTER FLIGHTS OF RIVER RUNNERS.—Subsection (b) shall not prohibit the flight of helicopters—

“(1) which fly a direct route between a point on the north rim outside of the Grand Canyon National Park and locations on the Hualapai Indian Reservation (as designated by the Tribe); and

“(2) whose sole purpose is transporting individuals to or from boat trips on the Colorado River and any guide of such a trip.

“SEC. 4. BOUNDARY WATERS CANOE AREA WILDERNESS.

“The Administrator shall conduct surveillance of aircraft flights over the Boundary Waters Canoe Area Wilderness as authorized by the Act of October 21, 1978 (92 Stat. 1649-1659) for a period of not less than 180 days beginning within 60 days of enactment of this Act [Aug. 18, 1987]. In addition to any actions the Administrator may take as a result of such surveillance, he shall provide a report to the Committee on Interior and Insular Affairs and the Committee on Public Works and Transportation of the United States House of Representatives and to the Committee on Energy and Natural Resources and the Committee on Commerce, Science, and Transportation of the United States Senate. Such report is to be submitted within 30 days of completion of the surveillance activities. Such report shall include but not necessarily be limited to information on the type and frequency of aircraft using the airspace over the Boundary Waters Canoe Area Wilderness.

“SEC. 5. ASSESSMENT OF NATIONAL FOREST SYSTEM WILDERNESS OVERFLIGHTS.

“(a) ASSESSMENT BY FOREST SERVICE.—The Chief of the Forest Service (hereinafter referred to as the ‘Chief’) shall conduct an assessment to determine what, if any, adverse impacts to wilderness resources are associated with overflights of National Forest System wilderness areas. The Administrator of the Federal Aviation Administration shall provide technical assistance to the Chief in carrying out the assessment. Such assessment shall apply only to overflight of wilderness

areas and shall not apply to aircraft flights or landings adjacent to National Forest System wilderness units. The assessment shall not apply to any National Forest System wilderness units in the State of Alaska.

“(b) REPORT TO CONGRESS.—The Chief shall submit a report to Congress within 2 years after enactment of this Act [Aug. 18, 1987] containing the results of the assessments carried out under this section.

“(c) AUTHORIZATION.—Effective October 1, 1987, there are authorized to be appropriated such sums as may be necessary to carry out the assessment under this section.

“SEC. 6. CONSULTATION WITH FEDERAL AGENCIES.

“In conducting the study and the assessment required by this Act, the Secretary of the Interior and the Chief of the Forest Service shall consult with other Federal agencies that are engaged in an analysis of the impacts of aircraft overflights over federally-owned land.”

§ 1a-2. Secretary of the Interior’s authorization of activities

In order to facilitate the administration of the national park system, the Secretary of the Interior is authorized, under such terms and conditions as he may deem advisable, to carry out the following activities:

(a) Transportation

Provide transportation of employees located at isolated areas of the national park system and to members of their families, where (1) such areas are not adequately served by commercial transportation, and (2) such transportation is incidental to official transportation services.

(b) Recreation

Provide recreation facilities, equipment, and services for use by employees and their families located at isolated areas of the national park system.

(c) Advisory committees; compensation and travel expenses

Appoint and establish such advisory committees in regard to the functions of the National Park Service as he may deem advisable, members of which shall receive no compensation for their services as such but who shall be allowed necessary travel expenses as authorized by section 5703 of title 5.

(d) Park equipment purchases

Purchase field and special purpose equipment required by employees for the performance of assigned functions which shall be regarded and listed as park equipment.

(e) Services, resources, or water contracts

Enter into contracts which provide for the sale or lease to persons, States, or their political subdivisions, of services, resources, or water available within an area of the national park system, as long as such activity does not jeopardize or unduly interfere with the primary natural or historic resource of the area involved, if such person, State, or its political subdivision—

(1) provides public accommodations or services within the immediate vicinity of an area of the national park system to persons visiting the area; and

(2) has demonstrated to the Secretary that there are no reasonable alternatives by which to acquire or perform the necessary services, resources, or water.

(f) Vehicular air-conditioning

Acquire, and have installed, air-conditioning units for any Government-owned passenger motor vehicles used by the National Park Service, where assigned duties necessitate long periods in automobiles or in regions of the United States where high temperatures and humidity are common and prolonged.

(g) Exhibits and demonstrations; sale of products and services; contracts and cooperative arrangements; credits to appropriation

Sell at fair market value without regard to the requirements of chapters 1 to 11 of title 40 and division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41 products and services produced in the conduct of living exhibits and interpretive demonstrations in areas of the national park system, to enter into contracts including cooperative arrangements with respect to such living exhibits and interpretive demonstrations, and to credit the proceeds therefrom to the appropriation bearing the cost of such exhibits and demonstrations. Sixty percent of the fees paid by permittees for the privilege of entering into Glacier Bay for the period beginning on the first full fiscal year following November 12, 1996, shall be deposited into a special account and that such funds shall be available—

(1) to the extent determined necessary, to acquire and preposition necessary and adequate emergency response equipment to prevent harm or the threat of harm to aquatic park resources from permittees; and

(2) to conduct investigations to quantify any effect of permittees' activity on wildlife and other natural resource values of Glacier Bay National Park. The investigations provided for in this subsection shall be designed to provide information of value to the Secretary, in determining any appropriate limitations on permittees' activity in Glacier Bay. The Secretary may not impose any additional permittee operating conditions in the areas of air, water, and oil pollution beyond those determined and enforced by other appropriate agencies. When competitively awarding permits to enter Glacier Bay, the Secretary may take into account the relative impact particular permittees will have on park values and resources, provided that no operating conditions or limitations relating to noise abatement shall be imposed unless the Secretary determines, based on the weight of the evidence from all available studies including verifiable scientific information from the investigations provided for in this subsection, that such limitations or conditions are necessary to protect park values and resources. Fees paid by certain permittees for the privilege of entering into Glacier Bay shall not exceed \$5 per passenger. For the purposes of this subsection, "certain permittee" shall mean a permittee which provides overnight accom-

modations for at least 500 passengers for an itinerary of at least 3 nights, and "permittee" shall mean a concessionaire providing visitor services within Glacier Bay. Nothing in this subsection authorizes the Secretary to require additional categories of permits in, or otherwise increase the number of permits to enter Glacier Bay National Park.

Promulgate and enforce regulations concerning boating and other activities on or relating to waters located within areas of the National Park System, including waters subject to the jurisdiction of the United States: *Provided*, That any regulations adopted pursuant to this subsection shall be complementary to, and not in derogation of, the authority of the United States Coast Guard to regulate the use of waters subject to the jurisdiction of the United States.

(i) United States Park Police and other National Park Service employees; meals and lodging

Provide meals and lodging, as the Secretary deems appropriate, for members of the United States Park Police and other employees of the National Park Service, as he may designate, serving temporarily on extended special duty in areas of the National Park System, and for this purpose he is authorized to use funds appropriated for the expenses of the Department of the Interior.

(j) Cooperative research and training programs

Enter into cooperative agreements with public or private educational institutions, States, and their political subdivisions, for the purpose of developing adequate, coordinated, cooperative research and training programs concerning the resources of the National Park System, and, pursuant to any such agreements, to accept from and make available to the cooperator such technical and support staff, financial assistance for mutually agreed upon research projects, supplies and equipment, facilities, and administrative services relating to cooperative research units as the Secretary deems appropriate; except that this paragraph shall not waive any requirements for research projects that are subject to the Federal procurement regulations.

(3) Use

Buildings and associated property leased under paragraph (1)—

(A) shall be used for an activity that is consistent with the purposes established by law for the unit in which the building is located;

(B) shall not result in degradation of the purposes and values of the unit; and

- (iii) infrastructure projects associated with park resource protection; and
- (iv) direct maintenance of the leased buildings and associated properties.

(C) Accountability and results

The Secretary shall develop procedures for the use of the special account that ensure accountability and demonstrated results consistent with this Act.

(I) Cooperative management agreements**(1) In general**

Where a unit of the National Park System is located adjacent to or near a State or local park area, and cooperative management between the National Park Service and a State or local government agency of a portion of either park will allow for more effective and efficient management of the parks,

the Secretary may enter into an agreement with a State or local government agency to provide for the cooperative management of the Federal and State or local park areas. The Secretary may not transfer administration responsibilities for any unit of the National Park System under this paragraph.

Accompanying the annual listing of areas shall be a synopsis, for each report previously submitted, of the current and changed condition of the resource integrity of the area and other relevant factors, compiled as a result of continual periodic monitoring and embracing the period since the previous such submission or initial report submission one year earlier. The Secretary is also directed to transmit annually to the Speaker of the House of Representatives and to the President of the Senate, at the beginning of each fiscal year, a complete and current list of all areas included on the Registry of Natural Landmarks and those areas of national significance listed on the National Register of Historic places which areas exhibit known or anticipated damage or threats to the integrity of their resources, along with notations as to the nature and severity of such damage or threats. (B) shall consider whether direct National Park Service management or alternative protection by other public agencies or the private sector is appropriate for the area;

(C) shall identify what alternative or combination of alternatives would in the professional judgment of the Director of the National Park Service be most effective and efficient in protecting significant resources and providing for public enjoyment; and

(D) may include any other information which the Secretary deems to be relevant.

(4) Each study shall be completed in compliance with the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.].

(5) The letter transmitting each completed study to Congress shall contain a recommendation regarding the Secretary's preferred management option for the area.

In developing the lists, the Secretary should consider threats to resource values, cost escalation factors, and other factors listed in subsection (c) of this section. The Secretary should only include on the lists areas for which the supporting data is current and accurate.

§ 1a-7b. Protecting Americans from violent crime

(a) Congressional findings

Congress finds the following:

- (1) The Second Amendment to the Constitution provides that “the right of the people to keep and bear Arms, shall not be infringed”.

(2) Section 2.4(a)(1) of title 36, Code of Federal Regulations, provides that “except as otherwise provided in this section and parts 7 (special regulations) and 13 (Alaska regulations), the following are prohibited: (i) Possessing a weapon, trap or net (ii) Carrying a weapon, trap or net (iii) Using a weapon, trap or net”.

(3) Section 27.42 of title 50, Code of Federal Regulations, provides that, except in special circumstances, citizens of the United States may not “possess, use, or transport firearms on national wildlife refuges” of the United States Fish and Wildlife Service.

(4) The regulations described in paragraphs (2) and (3) prevent individuals complying with Federal and State laws from exercising the second amendment rights of the individuals while at units of—

- (A) the National Park System; and
- (B) the National Wildlife Refuge System.

(5) The existence of different laws relating to the transportation and possession of firearms at different units of the National Park System and the National Wildlife Refuge System entrapped law-abiding gun owners while at units of the National Park System and the National Wildlife Refuge System.

(6) Although the Bush administration issued new regulations relating to the Second Amendment rights of law-abiding citizens in units of the National Park System and National Wildlife Refuge System that went into effect on January 9, 2009—

- (A) on March 19, 2009, the United States District Court for the District of Columbia granted a preliminary injunction with respect to the implementation and enforcement of the new regulations; and
- (B) the new regulations—
 - (i) are under review by the administration; and
 - (ii) may be altered.

(7) Congress needs to weigh in on the new regulations to ensure that unelected bureaucrats and judges cannot again override the Second Amendment rights of law-abiding citizens on 83,600,000 acres of National Park System land and 90,790,000 acres of land under the jurisdiction of the United States Fish and Wildlife Service.

(8) The Federal laws should make it clear that the second amendment rights of an individual at a unit of the National Park System or the National Wildlife Refuge System should not be infringed.

(b) Protecting the right of individuals to bear arms in units of the National Park System and the National Wildlife Refuge System

The Secretary of the Interior shall not promulgate or enforce any regulation that prohibits an individual from possessing a firearm including an assembled or functional firearm in any unit of the National Park System or the National Wildlife Refuge System if—

- (1) the individual is not otherwise prohibited by law from possessing the firearm; and
- (2) the possession of the firearm is in compliance with the law of the State in which the

unit of the National Park System or the National Wildlife Refuge System is located.

(Pub. L. 111-24, title V, §512, May 22, 2009, 123 Stat. 1764.)

§ 17o. National Park Service housing improvement

(1) Purposes

The purposes of this section are—

(A) to develop where necessary an adequate supply of quality housing units for field employees of the National Park Service within a reasonable time frame;

(B) to expand the alternatives available for construction and repair of essential Government housing;

(C) to rely on the private sector to finance or supply housing in carrying out this section, to the maximum extent possible, in order to reduce the need for Federal appropriations;

(D) to ensure that adequate funds are available to provide for long-term maintenance needs of field employee housing; and

(E) to eliminate unnecessary Government housing and locate such housing as is required in a manner such that primary resource values are not impaired.

(2) General authority

To enhance the ability of the Secretary of the Interior (hereafter in this section referred to as "the Secretary"), acting through the Director of the National Park Service, to effectively manage units of the National Park System, the Secretary is authorized where necessary and justified to make available employee housing, on or off the lands under the administrative jurisdiction

tion of the National Park Service, and to rent or lease such housing to field employees of the National Park Service at rates based on the reasonable value of the housing in accordance with requirements applicable under section 5911 of title 5.

(4) Submission of report

A report detailing the results of the revisions required by paragraph (3) shall be submitted to the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate not later than 180 days after November 12, 1996. Using the revised criteria developed under paragraph (3), the Secretary shall undertake a review, for each unit of the National Park System, of existing government-owned¹ housing provided to employees of the National Park Service. The review shall include an assessment of the physical condition of such housing and the suitability of such housing to effectively carry out the missions of the Department of the Interior and the National Park Service. For each unit of such housing, the Secretary shall determine whether the unit is needed and justified. The review shall include estimates of the cost of bringing each unit that is needed and justified into usable condition that meets all applicable legal housing requirements or, if the unit is determined to be obsolete but is still warranted to carry out the missions of the Department of the Interior and the National Park Service, the cost of replacing the unit.

(6) Authorization for housing agreements

For those units of the National Park System for which the review required by paragraphs (3) and (5) has been completed, the Secretary is authorized, pursuant to the authorities contained in this section and subject to the appropriation of necessary funds in advance, to enter into housing agreements with housing entities under which such housing entities may develop, construct, rehabilitate, or manage housing, located on or off public lands, for rent or lease to National Park Service employees who meet the housing eligibility criteria developed by the Secretary pursuant to this section.

§ 45f. Mineral King Valley addition authorized

(a) Statement of purpose

It is the purpose of this section to—

(1) assure the preservation for this and future generations of the outstanding natural and scenic features of the area commonly known as the Mineral King Valley and previously designated as the Sequoia National Game Refuge; and

(2) enhance the ecological values and public enjoyment of such area by adding such area to the Sequoia National Park.

(b) Drawing copy, availability; boundary revisions; notification of Congressional committees, publication in Federal Register; abolition and transfer of Sequoia National Game Refuge to administrative jurisdiction of Secretary

(1) In order to add to the Sequoia National Park (hereinafter in this section referred to as the "park") a certain area known as Mineral King Valley possessing unique natural and scenic values, there is hereby established as part of such park all lands, waters, and interests therein, constituting approximately sixteen thousand two hundred acres designated before November 10, 1978, as the Sequoia National Game Refuge and as depicted on the drawing entitled "Boundary Map, Sequoia-Kings Canyon National Park", numbered 102-90,000 and dated April 1975. A copy of such drawing shall be on file and available for public inspection in the office of the Director, National Park Service, Department of the Interior. After advising the Committee on Natural Resources of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate in writing, the Secretary is authorized to make minor revisions of the boundaries of the park when necessary by publication of a revised drawing or other boundary description in the Federal Register.

(2) The Sequoia National Game Refuge is hereby abolished and the Secretary of Agriculture

shall transfer, without consideration, to the administrative jurisdiction of the Secretary, the area constituting such refuge, and any unexpended funds available for purposes of management of the refuge shall be available for purposes of management of the park.

(c) Acquisition of property; place and manner; owner's right of use and occupancy for fixed term of years or life; election of term; fair market value; termination; notification; incompatible commercial uses; unitary parcels; access road, right-of-way, and protective measures; hardship sale offers; limitation of authority; State donated lands; report to Congressional committees

(1) Within the boundaries of the area added to the park pursuant to this section, the Secretary may acquire lands and interests in lands by donation, purchase with donated or appropriated funds, exchange, or transfer from other Federal departments or agencies.

(2) Where the private use of any property acquired pursuant to this subsection would, in the judgment of the Secretary, be compatible with the purposes of this section, the Secretary may, as a condition of such acquisition, permit the owner or owners of such property to retain for themselves and their successors or assigns rights of use and occupancy. The owner shall reserve such rights and elect the term to be reserved on the date of acquisition of the property. Except for so much of the property as is donated, the Secretary shall pay to the owner the fair market value of the property on the date of its acquisition, less the fair market value on that date of the right retained by the owner.

(3) A right of use and occupancy retained pursuant to paragraph (2) may be terminated by the Secretary upon his determination that the property or any portion thereof is being used in a manner which is incompatible with the purposes of this section. Such right shall terminate by operation of law upon notification by the Secretary to the holder of the right of such determination and tendering to him the amount equal to the fair market value of that portion which remains unexpired as of the date of such tender. In the case of any property which was used for noncommercial purposes during the ten calendar years immediately preceding November 10, 1978, the commercial use of such property subsequent to November 10, 1978, shall be treated as incompatible with the purposes of this section. In the case of any property which was used for commercial purposes at any time during the ten calendar years immediately preceding November 10, 1978, any substantial change or expansion of such commercial use subsequent to November 10, 1978, without the express approval of the Secretary shall be treated as incompatible with such purposes.

(4) In exercising his authority to acquire property under this section, the Secretary shall give prompt and careful consideration to any offer made by an individual owning property within the park to sell such property if such individual notifies the Secretary that the continued ownership of such property is causing, or would result in, undue hardship. Nothing in this section, or in

any other provision of law, shall prevent the Secretary from exercising his authority to acquire property referred to in this subsection at any time after November 10, 1978.

(5) If any individual tract or parcel of land acquired is partly inside and partly outside the boundaries of the park the Secretary may, in order to minimize the payment of severance damages, acquire the whole of the tract or parcel.

(6) If the management plan prepared under subsection (e) of this section provides for improved access to the area added to the park under this section, the Secretary is authorized to acquire, by donation, purchase with donated or appropriated funds, exchange or transfer from other Federal departments or agencies, the area comprising the road from State Route 198 to, and within, the Mineral King Valley together with a right-of-way for such road of a width sufficient to include improvements to the road and all bridges, ditches, cuts, and fills appurtenant thereto, but not exceeding a maximum average width of two hundred feet. Property acquired from the State or any political subdivision thereof may be acquired by donation only. With regard to routes of access to and within the Mineral King Valley, the Secretary shall take such measures as are necessary to protect against the effects of siltation on the ecosystem of the park.

(7) The Secretary shall report to the committees of the Congress named in subsection (b)(1) of this section the action taken by him pursuant to this subsection. Such report shall contain information sufficient to inform such committees of—

(A) the acquisitions made by him pursuant to this subsection during the period covered by such report;

(B) his reasons why all of such property authorized to be acquired and not so acquired as of the date of such report, if any, have not been acquired; and

(C) his schedule of a timetable for the acquisition of such property referred to in subparagraph (B).

Such report shall be submitted before the expiration of the second fiscal year beginning after the date on which the comprehensive management plan is submitted to the committees of Congress pursuant to subsection (e) of this section.

(d) Administration; statutory authorities applicable; leases or permits: renewals or extensions, review; termination

(1) The area added to the park by this section shall be administered in accordance with this section and the provisions of law generally applicable to units of the National Park System including sections 1, 2, 3, 4, 41, and 43 of this title. Any other statutory authority available to the Secretary for the conservation and management of wildlife, wildlife habitat, and natural resources may be utilized to the extent he finds such authority will further the purposes of this section.

(2)(A) Except in the case of a lease or permit which the Secretary determines to be incompatible with the administration of the park pursuant to this section, any lease or permit on Fed-

eral land within the area added to the park under this section which is in effect immediately before November 10, 1978, shall continue in effect pursuant to its terms and conditions following the expansion of the park under this section.

(B) In the case of a lease or permit which is continued under subparagraph (A), upon notice to the Secretary by the lessee or permittee of his intention to seek renewal or extension of such lease or permit, the lease or permit shall be reviewed by the Secretary, and may be renewed or extended for an additional period of five years. Any such lease or permit shall be reviewed at the end of such renewal or extension period and may also be renewed or extended in the same manner for additional five-year periods thereafter. Any renewals or extensions of leases or permits shall be granted only to those persons who were lessees or permittees of record on November 10, 1978, and to their heirs, successors, and assigns, and any such lease or permit shall provide that the lease or permit may be terminated by the Secretary at any time if the Secretary determines that such lease or permit is incompatible with the administration of the park pursuant to this section or that the land is needed for park purposes.

(3) Omitted

(e) Comprehensive management plan; submission to Congressional committees; preparation considerations; public participation; advance notice; publication in newspapers and Federal Register, other communication; cooperation; consultation

(1) Within two years from November 10, 1978, the Secretary, in cooperation with the State of California, shall develop and submit to the Committee on Interior and Insular Affairs of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate, a comprehensive management plan for the area added to the park under this section. In the preparation of such plan, the Secretary shall give appropriate consideration to the need for the development of additional recreational opportunities and other public uses which are consistent with sound environmental management of the area and the policies of the National Park Service.

(2)(A) In preparing the comprehensive management plan required by this subsection and in preparing any subsequent revision of such plan, the Secretary shall provide for full public participation and shall consider the comments and views of all interested agencies, organizations, and individuals.

(B) For purposes of insuring such full public participation, the Secretary shall provide reasonable advance notice to State and local governments, interested Federal agencies, private organizations, and the general public of hearings, workshops, meetings, and other opportunities available for such participation. Such notice shall be published in newspapers of general circulation in the localities affected by the development and management of the park, published in the Federal Register, and communicated by other appropriate means. The Western Regional Advisory Committee of the Na-

tional Park Service (or a subcommittee thereof) shall also be utilized for purposes of facilitating public involvement.

(C) The Secretaries or Directors of all Federal departments, agencies, and commissions having a relevant expertise are hereby authorized and directed to cooperate with the Secretary in his development of such plan and to make such studies as the Secretary may request on a cost reimbursable basis.

(D) In preparing the comprehensive management plan required by this subsection, the Secretary shall consider technical information and other pertinent data assembled or produced by field studies or investigations conducted separately or jointly by the technical and administrative personnel of the Federal and State agencies involved in order to insure the permanent conservation of wildlife within the area added to the park by this section. Except in emergencies, rules and regulations pertaining to the management of wildlife within the area added to the park by this section shall be put into effect only after consultation with the State of California.

(f) Authorization of appropriations

There are hereby authorized to be appropriated such sums as may be necessary for the acquisition of land and interests therein described in this section.

(g) Omitted

(h) Skiing prohibition

The Congress recognizes that the Mineral King Valley area has outstanding potential for certain year-round recreational opportunities, but the development of permanent facilities for downhill skiing within the area would be inconsistent with the preservation and enhancement of its ecological values.

(e) Status of acquired land

Until further action by the Congress, the lands acquired by or transferred to the Secretary of the Interior hereunder shall not become a part of Yosemite National Park, nor be subject to the laws and regulations governing said park, but the Secretary of the Interior shall have supervision, management, and control of the area and shall make and publish such rules and regulations as he may deem necessary and proper for its use and management: *Provided*, That he may grant nonexclusive privileges, leases, and permits for the use of land in the area and enter into contracts relating to the same, subject to the limitations and conditions applying to the similar authority provided in section 3 of this title.

§ 79c. Acquisition of land**(a) Authority of Secretary; administrative sites; manner and place; donation of State lands; reverters and other conditions**

The Secretary is authorized to acquire lands and interests in land within the boundaries of the Redwood National Park and, in addition thereto, not more than ten acres outside of those boundaries for an administrative site or sites. Such acquisition may be by donation, purchase with appropriated or donated funds, exchange, or otherwise, but lands and interests in land owned by the State of California may be acquired only by donation which donation of lands or interest in lands may be accepted in the discretion of the Secretary subject to such pre-existing reverters and other conditions as may appear in the title to these lands held by the State of California, and such other reverters and conditions as may be consistent with the use and management of the donated lands as a portion of Redwood National Park. Notwithstanding any other provision of law, the Secretary may expend appropriated funds for the management of and for the construction, design, and

maintenance of permanent improvements on such lands and interests in land as are donated by the State of California in a manner not inconsistent with such reverters and other conditions.

(b) Vested and possessory rights in certain real property; termination of operations; removal of equipment, facilities, and personal property; down tree personal property; acquired roads; just compensation; payment; jurisdiction; acreage limitation; notice

(1) Effective on October 2, 1968, there is hereby vested in the United States all right, title, and interest in, and the right to immediate possession of, all real property within the park boundaries designated in maps NPS-RED-7114-A and NPS-RED-7114-B and effective on March 27, 1978, there is hereby vested in the United States all right, title, and interest in, and the right to immediate possession of, all real property within the area indicated as “Proposed Additions” on the map entitled “Additional Lands, Redwood National Park, California,” numbered 167-80005-D and dated March 1978, and all right, title, and interest in, and the right to immediate possession of the down tree personal property (trees severed from the ground by man) severed prior to January 1, 1975, or subsequent to January 31, 1978, within the area indicated as “Proposed Additions” on the map entitled “Additional Lands, Redwood National Park, California,” numbered 167-80005-D and dated March 1978, except real property owned by the State of California or a political subdivision thereof and except as provided in paragraph (3) of this subsection. The Secretary shall allow for the orderly termination of all operations on real property acquired by the United States under this subsection, and for the removal of equipment, facilities, and personal property therefrom.

Down tree personal property severed subsequent to December 31, 1974, and prior to February 1, 1978 may be removed in accordance with applicable State and Federal law, or other applicable licenses, permits, and existing agreements, unless the Secretary determines that the removal of such down timber would damage second growth resources or result in excessive sedimentation in Redwood Creek: *Provided, however*, That down timber lying in stream beds may not be removed without permission of the Secretary: *Provided*, That such removal shall also be subject to such reasonable conditions as may be required by the Secretary to insure the continued availability of raw materials to Redwoods United, Incorporated, a nonprofit corporation located in Manila, California.

The Secretary shall permit, at existing levels and extent of access and use, continued access and use of each acquired segment of the B line, L line, M line, and K and K roads by each current affected woods employer or its successor in title and interest: *Provided*, That such use is limited to forest and land management and protection purposes, including timber harvesting and road maintenance. The Secretary shall permit, at existing levels and extent of access and use, continued access and use of acquired portions of the Bald Hills road by each current affected woods employer or its successor in title

and interest: *Provided further*, That nothing in this sentence shall diminish the authority of the Secretary to otherwise regulate the use of the Bald Hills road.

(2) The United States will pay just compensation to the owner of any real property taken by paragraph (1) of this subsection. Such compensation shall be paid either: (A) by the Secretary of the Treasury from money appropriated from the Land and Water Conservation Fund, including money appropriated to the Fund pursuant to section 4(b) of the Land and Water Conservation Fund Act of 1965, as amended [16 U.S.C. 4601-7(b)] subject to the appropriation limitation in section 79j of this title, upon certification to him by the Secretary of the agreed negotiated value of such property, or the valuation of the property awarded by judgment, including interest at the rate of 6 per centum per annum from the date of taking the property to the date of payment therefor; or (B) by the Secretary, if the owner of the land concurs, with any federally owned property available to him for purposes of exchange pursuant to the provisions of section 79e of this title; or (C) by the Secretary using any combination of such money or federally owned property. Any action against the United States with regard to the provisions of this subchapter and for the recovery of just compensation for the lands and interests therein taken by the United States, and for the down tree personal property taken, shall be brought in the United States district court for the district where the land is located without regard to the amount claimed. The United States may initiate proceedings at any time seeking a determination of just compensation in the district court in the manner provided by sections 1358 and 1403 of title 28 and may deposit in the registry of the court the estimated just compensation, or a part thereof, in accordance with the procedure generally described by section 3114(a)-(d) of title 40. Interest shall not be allowed on such amounts as shall have been paid into the court. In the event that the Secretary determines that the fee simple title to any property (real or personal) taken under this section is not necessary for the purposes of this subchapter, he may, with particular attention to minimizing the payment of severance damages and to allow for the orderly removal of down timber, revert title to such property subject to such reservations, terms, and conditions, if any, as he deems appropriate to carry out the purposes of this subchapter, and may compensate the former owner for no more than the fair market value of the rights so reserved, except that the Secretary may not revert title to any property for which just compensation has been paid; or, the Secretary may sell at fair market value without regard to the requirements of chapters 1 to 11 of title 40 and division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41 such down timber as in his judgment may be removed without damage to the park, the proceeds from such sales being credited to the Treasury of the United States. If the State of California designates a right-of-way for a bypass highway around the eastern boundary of Prairie Creek Redwood State Park prior to October 1, 1984, the Secretary is authorized and directed to acquire

such lands or interests in lands as may be necessary for such a highway and, subject to such conditions as the Secretary may determine are necessary to assure the adequate protection of Redwood National Park, shall thereupon donate the designated right-of-way to the State of California for a new bypass highway from a point south of Prairie Creek Redwood State Park through the drainage of May Creek and Boyes Creek to extend along the eastern boundary of Prairie Creek Redwood State Park within Humboldt County. Such acreage as may be necessary in the judgment of the Secretary for this conveyance, and for a buffer thereof, shall be deemed to be a publicly owned highway for purposes of section 79b(a) of this title effective on March 27, 1978.

(3) This subsection shall apply to ownerships of fifty acres or less only if such ownerships are held or occupied primarily for nonresidential or nonagricultural purposes, and if the Secretary gives notice to the owner within sixty days after October 2, 1968, of the application of this subsection. Notice by the Secretary shall be deemed to have been made as of October 2, 1968. The district court of the United States for that district in which such ownerships are located shall have jurisdiction to hear and determine any action brought by any person having an interest therein for damages occurring by reason of the temporary application of this paragraph, between October 2, 1968, and the date upon which the Secretary gives such notice. Nothing in this paragraph shall be construed as affecting the authority of the Secretary under subsections (a) and (c) of this section to acquire such areas for the purposes of this subchapter.

(c) Minimization of severance damages; costs not chargeable against appropriations authorization

If any individual tract or parcel of land acquired is partly inside and partly outside the boundaries of the park or the administrative site the Secretary may, in order to minimize the payment of severance damages, acquire the whole of the tract or parcel and exchange that part of it which is outside the boundaries for land or interests in land inside the boundaries or for other land or interests in land acquired pursuant to this subchapter, and dispose of so much thereof as is not so utilized in accordance with the provisions of chapters 1 to 11 of title 40 and division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41. The cost of any land so acquired and disposed of shall not be charged against the limitation on authorized appropriations contained in section 79j of this title.

(d) Lands for screen of trees along certain highway

The Secretary is further authorized to acquire, as provided in subsection (a) of this section, lands and interests in land bordering both sides of the highway between the present southern boundary of Prairie Creek Redwood State Park and a point on Redwood Creek near the town of Orick to a depth sufficient to maintain or to restore a screen of trees between the highway and the land behind the screen and the activities conducted thereon.

(e) Timber, soil, and stream protection; “interests in land” defined; notice to Congress of intended action, costs, and benefits requisite for acquisitions, contracts, or cooperative agreements; availability of funds; authorization of appropriations; rehabilitative activities

In order to afford as full protection as is reasonably possible to the timber, soil, and streams within the boundaries of the park, the Secretary is authorized, by any of the means set out in subsections (a) and (c) of this section, to acquire interests in land from, and to enter into contracts and cooperative agreements with, the owners of land on the periphery of the park and on watersheds tributary to streams within the park designed to assure that the consequences of forestry management, timbering, land use, and soil conservation practices conducted thereon, or of the lack of such practices, will not adversely affect the timber, soil, and streams within the park as aforesaid. As used in this subsection, the term “interests in land” does not include fee title unless the Secretary finds that the cost of a necessary less-than-fee interest would be disproportionately high as compared with the estimated cost of the fee. No acquisition other than by donation shall be effectuated and no contract or cooperative agreement shall be executed by the Secretary pursuant to the provisions of this subsection until after he has notified the President of the Senate and the Speaker of the House of Representatives of his intended action and of the costs and benefits to the United States involved therein. Effective on March 27, 1978, there are made available from the amounts provided in section 79j of this title or as may be hereafter provided such sums as may be necessary for the acquisition of interests in land. Effective on October 1, 1978, there are authorized to be appropriated such sums as may be necessary for the implementation of contracts and cooperative agreements pursuant to this subsection: *Provided*, That it is the express intent of Congress that the Secretary shall to the greatest degree possible insure that such contracts and cooperative agreements provide for the maximum retention of senior employees by such owners and for their utilization in rehabilitation and other efforts. The Secretary, in consultation with the Secretary of Agriculture, is further authorized, pursuant to contract or cooperative agreement with agencies of the Federal Executive, the State of California, any political or governmental subdivision thereof, any corporation, not-for-profit corporation, private entity or person, to initiate, provide funds, equipment, and personnel for the development and implementation of a program for the rehabilitation of areas within and upstream from the park contributing significant sedimentation because of past logging disturbances and road conditions, and, to the extent feasible, to reduce risk of damage to streamside areas adjacent to Redwood Creek and for other reasons: *Provided further*, That authority to make payments under this subsection shall be effective only to such extent or in such amounts as are provided in advance in appropriation Acts. Such contracts or cooperative agreements shall be subject to such other conditions as the Secretary may deter-

mine necessary to assure the adequate protection of Redwood National Park generally, and to provide employment opportunities to those individuals affected by this taking and to contribute to the economic revival of Del Norte and Humboldt Counties in northern California. The Secretary shall undertake and publish studies on erosion and sedimentation originating within the hydrographic basin of Redwood Creek with particular effort to identify sources and causes, including differentiation between natural and man-aggravated conditions, and shall adapt his general management plan to benefit from the results of such studies. The Secretary, or the Secretary of Agriculture, where appropriate, shall also manage any additional Federal lands under his jurisdiction that are within the hydrographic basin of Redwood Creek in a manner which will minimize sedimentation which could affect the park, and in coordination with plans for sediment management within the basin. To effectuate the provisions of this subsection, and to further develop scientific and professional information and data concerning the Redwood Forest ecosystem, and the various factors that may affect it, the Secretary may authorize access to the area subject to this subsection by designated representatives of the United States.

§ 79d. Acquisition of lands

(a) Owner's retention of right of use and occupancy for noncommercial residential purposes for fixed term of years or for life; election of term; fair market value; termination of use and occupancy inconsistent with stated purpose and upon payment of sum for unexpired right

The owner of improved property on the date of its acquisition by the Secretary under this subchapter may, as a condition of such acquisition, retain for himself and his heirs and assigns a right of use and occupancy of the improved property for noncommercial residential purposes for a definite term of not more than twenty-five years or, in lieu thereof, for a term ending at the death of the owner or the death of his spouse, whichever is later. The owner shall elect the term to be reserved. Unless the property is wholly or partially donated to the United States, the Secretary shall pay the owner the fair market value of the property on the date of acquisition minus the fair market value on that date of the right retained by the owner. A right retained pursuant to this section shall be subject to termination by the Secretary upon his determination that it is being exercised in a manner inconsistent with the purpose of this subchapter, and it shall terminate by operation of law upon the Secretary's notifying the holder of the right of such determination and tendering to him an amount equal to the fair market value of that portion of the right which remains unexpired.

(b) "Improved property" defined

The term "improved property", as used in this section, means a detached, noncommercial residential dwelling, the construction of which was begun before October 9, 1967, together with so much of the land on which the dwelling is situated, the said land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures accessory to the dwelling which are situated on the land so designated.

Notwithstanding any other provision of law, the Secretary may acquire such property from the grantor by exchange for any federally owned property under the jurisdiction of the Bureau of Land Management in California, except property needed for public use and management, which he classifies as suitable for exchange or other disposal, or any federally owned property he may designate within the Northern Redwood Purchase Unit in Del Norte County, California, except that section known and designated as the Yurok Experimental Forest, consisting of approximately nine hundred and thirty-five acres. Such federally owned property shall also be available for use by the Secretary in lieu of, or together with, cash in payment of just compensation for any real property taken pursuant to section 79c(b) of this title. The values of the properties so exchanged either shall be approximately equal or, if they are not approximately equal, the value shall be equalized by the payment of cash to the grantor or to the Secretary as the circumstances require. Through the exercise of his exchange authority, the Secretary shall, to the extent possible, minimize economic dislocation and the disruption of the grantor's commercial operations.

(a) Notwithstanding any other provision of law, the Secretary shall have the same authority with respect to contracts for the acquisition of land and interests in land for the purposes of this subchapter as was given the Secretary of the Treasury for other land acquisitions by section 3171 of title 40, and the Secretary and the owner of land to be acquired under this subchapter may agree that the purchase price will be paid in periodic installments over a period

that does not exceed ten years, with interest on the unpaid balance thereof at a rate which is not in excess of the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities on the installments.

The Secretaries shall also consider the benefits of making grants or entering into contracts or cooperative agreements with the State of California or Del Norte and Humboldt Counties as provided by subsection (b) of this section for the purpose of development and implementation of a program of forest resource improvement and utilization, including, but not limited to, reforestation, erosion control, and other forest land conservation measures, fisheries and fish and wildlife habitat improvements, and wood energy facilities. In addition to the land rehabilitation and employment provisions of this Act, which should have a substantial positive economic effect on the local economy, the Secretaries of Commerce and Labor are further authorized and directed to implement existing authorities to establish employment programs, pursuant to such grants, contracts and cooperative agreements with agencies of the Federal Executive, the State of California, any political or governmental subdivision thereof, any corporation, not-for-profit corporation, private entity or person, for the development and implementation of such programs, as, in the discretion of the Secretaries of Commerce and Labor, may be necessary to provide employment opportunities to those individuals affected by this taking and to contribute to the economic revival of Del Norte and Humboldt Counties, in northern California. Effective on October 1, 1978, there are authorized such sums as may be necessary to carry out the employment and economic mitigation provisions of this Act: *Provided*, That the authority to make payments under this section shall be effective only to such extent or in such amounts as are provided in advance in appropriation Acts.

(a) Appointment and compensation of personnel for implementation of protection and enhancement programs

In order to utilize the skills of individuals presently working in the woods and in the mills to the greatest degree possible to both ease the personal economic effects of this taking, and to assist in the necessary rehabilitation, protection, and improvement of lands acquired by this Act through implementation of sound rehabilitation and land use practices, the Secretary shall have power to appoint and fix the compensation of seven full-time and thirty-one temporary personnel to assist in carrying out such programs necessary for the protection and enhancement of Redwood National Park.

(b) Appointment and compensation of personnel for administration of expanded Park; appointment, etc., of additional personnel

The Secretary shall further have power to appoint and fix the compensation of an additional thirty-two full-time and forty temporary employees in the competitive service as provided by this subsection at the time of the donation of

those park lands or interests in land owned by the State of California as are within the boundaries of Redwood National Park as provided herein. In filling these positions, preference shall be given to those State employees affected by this transfer for a period not to exceed six years from the date of transfer; permanent State civil service employees shall be provided the opportunity to transfer to a comparable Federal civil service classification notwithstanding applicable civil service laws and regulations.

(c) Job positions subject to preferential treatment for affected employees

An affected employee shall be given full consideration for certain civilian jobs as provided in this section both with the Federal Government and with those private employers that have certain undertakings or programs that involve Federal participation or approval for the period beginning on March 27, 1978, and ending September 30, 1984, if the positions will be primarily located in Humboldt or Del Norte Counties or other counties in California adjacent thereto, and if the employee is otherwise qualified under this section.

(d) Procedures applicable to Federal agencies for creating or filling job positions; applicants subject to preferential treatment; considerations for employment

(1) Any Federal agency that is creating or filling a civilian Federal job that is within the scope of clause (2)(A) of this subsection, pursuant to contract, civil service merit system, or otherwise, that will be primarily located in Humboldt or Del Norte Counties, California, or other counties in California adjacent thereto, must provide notice in advance of the availability of that job and must provide qualified affected employee applicants for these positions with full consideration for these positions if the further conditions set forth in clause (2)(B) of this subsection are met. The notice required by this paragraph shall be as provided by applicable law and regulation through the offices of the Employment and Training Services located in Humboldt and Del Norte Counties, California, and through such other means as are likely to gain the attention of affected employees.

(2) Consideration for employment under this section shall be provided under the following conditions:

(A) the job involves skills and training that could reasonably be expected to have been gained by individuals who have been employed as logging and related woods employees or sawmill, plywood, and other wood processing employees, or office employees, or that can reasonably be expected to be gained while so employed, or pursuant to retraining as provided herein; and

(B) the applicant has the ability, or can reasonably be expected to have the ability after appropriate training of reasonable duration as further provided herein, to perform the duties of the job: *Provided*, That the full consideration shall not be required with respect to those affected employee applicants requiring training in a situation where the schedule for completion of the work is such that the period

during which said employee can reasonably be expected to work following completion of training is determined by the Secretary to be incommensurate with the time and funds required to provide said employee with the necessary training.

(e) Private employer requirements for filling covered employment positions with affected employees pursuant to Federal contracts, etc.; procedures applicable and considerations for employment

(1) Any Federal agency involved in the manner provided herein with a private employer responsible for filing¹ an employment position that is within the scope of clause (2)(A) of subsection (d) of this section, that will be primarily located in Humboldt or Del Norte Counties, or other counties in California adjacent thereto, is directed to require that any Federal contracts, grants, subsidies, loans, or other forms of funding assistance, and any Federal lease, permit, license, certificate, or other entitlement for use, not constituting an existing property right as of March 27, 1978, that is a condition to or a requirement of the conduct of harvesting and related activities or replanting and land rehabilitation or the conduct of wood processing and related activities or the conduct of highway construction and related activities shall be subject to and conditioned upon said private employer giving full consideration to affected employees as provided herein.

(2) Any private employer who participates with a Federal agency in the manner described above and who is, accordingly, subject to the requirements as provided herein, shall—

(A) provide notice of the availability of those jobs described in subsection (d)(2)(A) of this section in the manner generally provided by subsection (d)(1) of this section; and

(f) Agreements with affected employers and industry employers for full consideration to employment of affected employees formerly employed by affected employers; implementation

The Secretary is directed to seek and authorized to enter into agreements with affected employers and industry employers providing that full consideration shall be given with respect to the employment of affected employees who had been employed by affected employers in jobs that may become available in Humboldt and Del Norte Counties and other counties adjacent thereto. The execution and carrying out of such an agreement, or the giving of full consideration to the employment of affected employees under subsection (c) of this section, shall not subject an employer to any additional liability or obligations under any Federal or State equal employment law, rule, regulation, or order.

(g) Implementation of requirements

(1) The Secretary, except as otherwise provided, shall be responsible for the implementation of this section and—

(A) is authorized and directed to make needed training available, upon application, to an affected employee applicant who, although not presently qualified for a position, can be reasonably expected to be qualified after appropriate training;

(B) is authorized to take such actions as may be necessary to ensure that an affected employee is not denied full consideration because of the need for training where there is no substantial reason to believe that the applicant would be unable to perform the duties of the job after proper training. If the job is one which must be filled while the affected employee would be in training, the Secretary shall encourage the employer to fill the job only on a temporary basis subject to the successful completion of the training by the affected employee;

(C) shall require that, in a case in which two or more affected employee applicants have approximately equal qualifications for a job for which they are to receive full consideration, that applicant with the greatest creditable service shall be given preference among those applicants entitled to full consideration; and

(D) upon the filing of a complaint by an employee who alleges that said employee's rights to full consideration were disregarded, the Secretary shall make a finding on the merits of such complaint. If it is determined that there has been noncompliance with this section, the Secretary shall take such action as may be appropriate to correct the situation.

(2) To assist in implementing this section, agencies shall notify the Secretary, in advance, of any job opening as provided for by subsection (d) of this section and of any Federal commitment as provided for by subsection (e) of this section.

(3) The Secretary shall—

(A) seek the cooperation of the State of California and the county and local governments within Humboldt and Del Norte Counties in the implementation of the provisions of this section and in the adoption of similar provisions for full consideration of affected employees with regard to State, county, and local jobs and activities; and

(B) appoint, from among nominees proposed by certified or recognized unions representing employees, a person or persons who shall serve as the Secretary's liaison with employees and their union and as consultant to the Secretary with regard to the administration of those provisions of this Act for which the Secretary is responsible.

(h) Judicial review of determination of Secretary respecting employee, etc.; procedures applicable

An employee, a group of employees, a certified or recognized union, or an authorized representative of such employee or group, aggrieved by any determination by the Secretary under this Act shall be entitled to judicial review of such determination in the same manner and under the same conditions as provided by section 2395 of title 19, except that such review shall be in the appropriate court of appeals of the United States, and the judgment of such court shall be

subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28.

(i) Additional or alternative rights under existing labor laws, regulations, or contracts unaffected; compensation of employees appointed to Federal jobs

Nothing in this section shall be construed to affect any additional or alternative rights under a law, regulation, or contract (including, but not limited to, veteran preference and contracts between private employers and unions) in effect as of March 27, 1978, and the implementation of this section shall be carried out in accord with applicable civil service laws and regulations except as otherwise provided for in this section. Employees appointed to Federal jobs pursuant to this section shall have their compensation fixed at rates not to exceed that now or hereafter prescribed for the highest rate of grade 15 of the General Schedule under section 5332 of title 5.

SUBCHAPTER XVI—CESSION OF INDIAN LANDS AT SULPHUR, OKLAHOMA

§ 151. Acquisition; payment

The Choctaw and Chickasaw Tribes absolutely and unqualifiedly relinquish, cede, and convey unto the United States a tract or tracts of land at and in the vicinity of the village of Sulphur, in the Chickasaw Nation, of not exceeding six hundred and forty acres, to be selected, under the direction of the Secretary of the Interior, and to embrace all the natural springs in and about said village, and so much of Sulphur Creek, Rock Creek, Buckhorn Creek, and the lands adjacent to said natural springs and creeks as may be deemed necessary by the Secretary of the Interior for the proper utilization and control of said springs and the waters of said creeks, which lands shall be so selected as to cause the least interference with the contemplated town site at that place consistent with the purposes for which said cession is made. The ceded lands shall be held, owned, and controlled by the United States absolutely and without any restriction, save that no part thereof shall be platted or disposed of for town-site purposes during the existence of the two tribal governments. There shall be deposited in the Treasury of the United States, to the credit of the two tribes, from the unappropriated public moneys of the United States, \$20 per acre for each acre so selected, which shall be in full compensation for the lands so ceded, and such moneys shall, upon the dissolution of the tribal governments, be divided per capita among the members of the tribes, freedmen excepted, as are other funds of the tribes. Until otherwise provided by law, the Secretary of the Interior may, under rules prescribed for that purpose, regulate and control the use of the water of said springs and creeks and the temporary use and occupation of the lands so ceded. No person shall occupy any portion of the lands so ceded, or carry on any business thereon, except as provided in said rules, and until otherwise provided by Congress the laws of the United States relating to the introduction, possession, sale, and giving away of liquors or intoxicants of any kind within the Indian country or Indian reservations shall be applicable to the lands so ceded. A provision of the original text that the land should remain within the jurisdiction of the United States court for the southern district of the Indian Territory was changed to read as set out herein by virtue of sections 13 and 14 of the Oklahoma Enabling Act of June 16, 1906, and the Executive Proclamation of Nov. 16, 1907, declaring the admission of Oklahoma to the Union.

Section 38 of act June 25, 1948, provided that the amendment made by that act is effective Sept. 1, 1948.

the exterior boundaries of the proposed town site of Sulphur, in the Chickasaw Nation, Indian Territory, and excluded from said town site by order of the Secretary of the Interior, of October 20, 1903, and also to withdraw and withhold from disposition the tract of land within the exterior boundaries of said proposed town site, lying south of and adjacent to the tract above mentioned, containing in the aggregate one hundred and thirty-eight acres, more or less, and mentioned in the report of Gerard H. Matthes, of December 27, 1903, to F. H. Newell, chief engineer United States Geological Survey, and shown upon the map accompanying said report by a yellow line.

The land reserved shall be paid for by the United States at the rate of \$60 per acre and in the same manner as the land acquired in accordance with the provisions of section 151 of this title and shall be a part of the reservation established at the village of Sulphur, subject to all the provisions of said section 151, respecting the care, control, direction, use, and occupancy thereof as if they had been included in the original segregation. The Secretary of the Interior is authorized, in the absence of other provisions for the care and management thereof, to designate an officer or employee of his department to take charge of the land, acquired under this section and section 151 of this title, and to enforce rules and regulations for the control and use thereof, and of the waters of the springs and creeks within the reservation. The Secretary of the Interior is authorized, in his discretion, to sell or dispose of any buildings upon the land reserved, and all money received from such sales, or that may be realized for the use of said waters or for the use and occupancy of the land or the buildings thereon, through leases, permits, or otherwise, shall be covered into the Treasury of the United States to the credit of miscellaneous receipts. If any person, firm, or corporation shall willfully violate any of the rules and regulations prescribed by the Secretary of the Interior relative to the use of the waters of said springs and creeks and the use and occupation of the lands in said reservation, such person, firm, corporation, or members or agents thereof, shall be deemed guilty of a misdemeanor, and upon conviction shall be fined not less than \$5 and not more than \$100, and may be imprisoned for a term of not more than six months for each offense.

§ 159g. Acquisition of lands

(a) Manner; limitations

Except as provided in subsection (b) of this section, within the boundary of the park, the Secretary of the Interior (hereinafter in this Act referred to as the “Secretary”), is authorized to acquire lands and interests therein by donation, purchase with donated or appropriated funds, or exchange. Except for the tract identified on the aforesaid map as tract number 01-132, which was authorized to be acquired by section 159e of this title, the Secretary may not acquire (except by donation) fee simple title to those lands depicted on the map as proposed for less than fee acquisition. The map shall be on file and available for public inspection in the office of the National Park Service, Department of the Interior.

(b) Conditions for forced sale; right of first refusal

(1) Appropriated funds may not be used to acquire lands or interests therein within the park without the consent of the owner except when—

(A) the Secretary determines that such owner is subjecting, or is about to subject, the property to actions which would significantly degrade its value as a component of the park; or

(B) the owner fails to comply with the provisions of paragraph (2).

The Secretary shall immediately notify the owner in writing of any determination under subparagraph (A). If the owner immediately ceases the activity subject to such notification, the Secretary shall attempt to negotiate a mutually satisfactory solution prior to exercising any authority provided by subsection (a) of this section.

(2) If an owner of lands or interests therein within the park intends to transfer any such lands or interest to persons other than the owner's immediate family, the owner shall notify the Secretary in writing of such intention. Within forty-five days after receipt of such notice, the Secretary shall respond in writing as to his interest in exercising a right of first refusal to purchase fee title or lesser interests. If, within such forty-five days, the Secretary declines to respond in writing or expresses no interest in exercising such right, the owner may proceed to transfer such interests. If the Secretary responds in writing within such forty-five days and expresses an interest and intention to exercise a right of first refusal, the Secretary shall initiate an action to exercise such right within ninety days after the date of the Secretary's response. If the Secretary fails to initiate action to exercise such right within such ninety days, the owner may proceed to otherwise transfer such interests. As used in this subsection with respect to a property owner, the term "immediate family" means the spouse, brother, sister, parent, or child of such property owner. Such term includes a person bearing such relationships through adoption and a stepchild shall be treated as a natural born child for purposes of determining such relationship.

(c) Exception

Subsection (b) of this section shall not apply with respect to tract number 01-142.

(d) Notification by owner of intended actions

When an owner of property within the park desires to take an action with respect to his property, he shall request, in writing, a prompt written determination from the Secretary as to the likelihood of such action provoking a determination by the Secretary under the provisions of subsection (b)(1)(A) of this section. The Secretary is thereupon directed to promptly issue such owner a certificate of exemption from condemnation for such actions proposed by the owner which the Secretary determines to be compatible with the purposes of the park.

(e) Limited right of retention; calculation of payment

(1) An owner of improved property which is used solely for noncommercial residential purposes, or for commercial agricultural purposes found to be compatible with the General Management Plan, on the date of its acquisition by the Secretary may retain, as a condition of such an acquisition, a right of use and occupancy of the property for such residential or agricultural purposes. The right retained may be for a definite term which shall not exceed twenty-five years, or in lieu thereof, for a term ending at the death of the owner. The Secretary shall pay to the owner the fair market value of the property on the date of such acquisition, less the fair

market value, of the term retained by the owner.

(2) Except for tract number 01-142, paragraph (1) shall not apply to property which the Secretary determines to be necessary for the purposes of administration, development, access, or public use.

(f) Rapid acquisition

Any owner of lands or interests therein within the park who desires to have such lands or interests acquired by the Secretary may notify the Secretary in writing of such desire. It is the intention of the Congress that, upon receipt of such notification, and on the condition that such acquisition will transpire at fair market value and in accordance with other conditions acceptable to the Secretary, the Secretary shall endeavor to acquire such lands or interests therein within six months of the date of receipt of such notice from the owner.

(Pub. L. 91-661, §1, Jan. 8, 1971, 84 Stat. 1970.)

§ 160a. Establishment; notice in Federal Register; donation of lands; acquisition by purchase of other lands

In furtherance of the purpose of this subchapter, the Secretary of the Interior (hereinafter referred to as the "Secretary") is authorized to establish the Voyageurs National Park (hereinafter referred to as the "park") in the State of Minnesota, by publication of notice to that effect in the Federal Register at such time as the Secretary deems sufficient interests in lands or waters have been acquired for administration in accordance with the purposes of this subchapter: *Provided*, That the Secretary shall not establish the park until the lands owned by the State of Minnesota and any of its political subdivisions within the boundaries shall have been donated to the Secretary for the purposes of the park: *Provided further*, That the Secretary shall not acquire other lands by purchase for the park prior to such donation unless he finds that acquisition is necessary to prevent irreparable changes in their uses or character of such a nature as to make them unsuitable for park purposes and notifies the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of

Representatives of such findings at least thirty days prior to such acquisition.

(Pub. L. 91-661, §101, Jan. 8, 1971, 84 Stat. 1970; Pub. L. 103-437, §6(f), Nov. 2, 1994, 108 Stat. 4585.)

CODIFICATION

Section formerly consisted of sections 101 and 102 of Pub. L. 91-661. Section 102 of Pub. L. 91-661 was substantially amended and expanded by Pub. L. 97-405, §1(1), (2), Jan. 3, 1983, 96 Stat. 2028, and as thus amended is set out as section 160a-1 of this title.

AMENDMENTS

1994—Pub. L. 103-437 substituted “Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives” for “Committees on Interior and Insular Affairs of both the Senate and the House of Representatives”.

§ 160a-1. Boundaries

(a) Lands and waters included; legal description; revision

Except as provided in subsection (b) of this section, the park shall include the lands and waters within the boundaries as generally depicted on the drawing entitled “A Proposed Voyageurs National Park, Minnesota,” numbered LNPMW-VOYA-1001, dated February 1969, which shall be on file and available for public inspection in the offices of the National Park Service, Department of the Interior. Within one year after acquisition of the lands owned by the State of Minnesota and its political subdivisions within the boundaries of the park the Secretary shall affix to such drawing an exact legal description of said boundaries. The Secretary may revise the boundaries of the park from time to time by publishing in the Federal Register a revised drawing or other boundary description, but such revisions shall not increase the land acreage within the park by more than one thousand acres.

(b) Additional revisions; procedures applicable; failure to comply with procedures

(1) In addition to such revisions as the Secretary may make in the boundaries of the park from time to time pursuant to other provisions of law, the Secretary may, according to the provisions of subsection (a) of this section—

(A) delete approximately 782 acres in the Neil Point area of the park;

(B) add approximately 180 acres in the Black Bay Narrows areas of the park;

(C) add approximately 18.45 acres owned by the State of Minnesota at the Kabetogama Forestry Station;

(D) add approximately 120 acres owned by the State of Minnesota, being a strip of land through that portion of section 1, township 68 north, range 20 west, fourth principal meridian, which is parallel to and 400 feet on both sides of the unimproved road extending northward from the Ash River Trail as such road crosses each section; and

(E) subject to the provisions of paragraph (2), delete approximately 1,000 acres at Black Bay and convey such lands to the State of Minnesota.

All of the aforementioned boundary changes if accomplished shall be accomplished such that

the boundary of the park shall conform to that generally depicted on the drawing entitled “Boundary, Voyageurs National Park, United States Department of the Interior, National Park Service”, numbered 172-80, 008-MWR, and dated November 1981, which shall be on file and available for public inspection in the offices of the National Park Service, Department of the Interior.

(2) The Secretary may not delete or convey the lands referred to in paragraph (1)(E) unless, prior to or simultaneously with such deletion or conveyance and in consideration of such conveyance, the State of Minnesota—

(A) tenders a conveyance of the lands described in paragraph (1)(C) and (D) to the United States by such instrument and in such manner as are satisfactory to the Secretary, including but not limited to lease or easement: *Provided*, That if the interest conveyed is a lease or easement, the State of Minnesota shall substitute therefore a transfer of all right, title, and interest in the land by June 30, 1987: *Provided further*, That if the State does not transfer all right, title, and interest in such lands by June 30, 1987, the land described in paragraph 1(E)¹ shall revert to the United States for administration by the Secretary as part of the park; and

(B) enters into a recordable agreement satisfactory to the Secretary which provides that—

(i) the State has established a wildlife management area in the area authorized to be deleted and conveyed to the State by paragraph (1)(E);

(ii) the State has prepared a plan acceptable to the Secretary to manage all the waters of and State lands riparian to Black Bay (including all of the State-owned lands and waters of Rainy Lake) to preserve the natural resources of the area so as to complement to the fullest extent possible the purposes for which the park was established;

(iii) the State shall not transfer any right, title, or interest in, or control over, any land described in paragraph (1)(E) to any person other than the Secretary; and

(iv) the State shall permit access by the Secretary at reasonable times to the land described in paragraph (1)(E).

(3) If at any time the State fails to comply with the material requirements of the agreement referred to in paragraph (2)(B), all right, title, and interest in the land described in paragraph (1)(E) shall revert to the United States for administration by the Secretary as part of the park. Such reversion shall take effect upon the delivery by the Secretary of notice to the State respecting such failure to comply without further notice or requirement for physical entry by the Secretary unless an action for judicial review is brought in the United States Court of Appeals for the appropriate circuit within ninety days following such notice. In any such action the court may issue such orders as are appropriate to carry out the requirements of this subsection.

¹ So in original. Probably should be “(1)(E)”.

(a) The Secretary may acquire lands or interests therein within the boundaries of the park by donation, purchase with donated or appropriated funds, or exchange. When any tract of land is only partly within such boundaries, the Secretary may acquire all or any portion of the land outside of such boundaries in order to minimize the payment of severance costs. Land so acquired outside of the park boundaries may be exchanged by the Secretary for non-Federal lands within the park boundaries. Any portion of land acquired outside the park boundaries and not utilized for exchange shall be reported to the General Services Administration for disposal under chapters 1 to 11 of title 40 and division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41. Any Federal property located within the boundaries of the park may be transferred without consideration to the administrative jurisdiction of the Secretary for the purposes of the park. Lands within the boundaries of the park owned by the State of Minnesota, or any political subdivision thereof, may be acquired only by donation.

(b) In exercising his authority to acquire property under this section, the Secretary shall give immediate and careful consideration to any offer made by any individual owning property within the park area to sell such property to the Secretary. In considering such offer, the Secretary shall take into consideration any hardship to the owner which might result from any undue delay in acquiring his property.

If the State of Minnesota donates to the United States any lands within the boundaries of the park subject to an outstanding lease on which the lessee began construction of a noncommercial or recreational residential dwelling prior to January 1, 1969, the Secretary may grant to such lessee a right of use and occupancy for such period of time as the Secretary, in his discretion, shall determine: *Provided*, That no such right of use and occupancy shall be granted, extended, or continue after ten years from the date of the establishment of the park.

(c) Termination of use and occupancy; tender by Secretary of fair market value of unexpired right

Any right of use and occupancy retained or granted pursuant to this section shall be subject to termination by the Secretary upon his determination that such use and occupancy is being exercised in a manner not consistent with the purposes of this subchapter or upon his determination that the property is required for the proper administration of the park. The Secretary shall tender to the holder of the right so terminated an amount equal to the fair market value of that portion of the right which remains unexpired on the date of termination.

(d) “Improved property” defined

The term “improved property”, as used in this section, shall mean a detached, noncommercial residential dwelling, the construction of which was begun before January 1, 1969, together with so much of the land on which the dwelling is situated, the said land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures accessory to the dwelling which are situated on the land so designated.

Payment hereunder may be made when an exchange is based upon valuations for timber purposes only, and shall be the difference between the value of such lands for timber purposes, as agreeable to the State, the Secretary, and any owner, and the higher value, if any, of such lands for recreational purposes not attributable to establishment or authorization of the park: *Provided*, That any payment shall be made only at such time as fee title of lands so acquired within the boundaries is conveyed to the United States.

(Pub. L. 91-661, §204, Jan. 8, 1971, 84 Stat. 1972.)

(Mar. 3, 1917, ch. 164, § 1, 39 Stat. 1122; Feb. 28, 1923, ch. 144, § 1, 42 Stat. 1324.)

Of the language preceding subdivision (1), that portion from the beginning of the section to the word "and" was common to both of the sections aforesaid, while the remaining portion was derived from section 1 of act Mar. 3, 1917.

§ 165. Value of lands sought to be exchanged

For purposes of subdivision (2) of section 164 of this title the value of all patented lands within said park, including the timber thereon, offered for exchange, and the value of other lands of the United States elsewhere situate, to be given in exchange therefor, shall be ascertained in such manner as the Secretary of the Interior may direct; and the owners of such privately owned lands within said park shall, before any exchange is effective, furnish the Secretary of the Interior evidence satisfactory to him of title to the patented lands offered in exchange; and lands conveyed to the Government under this section and subdivision (2) of section 164 of this title shall be and remain a part of the Glacier National Park.

(Feb. 28, 1923, ch. 144, § 2, 42 Stat. 1324.)

§ 166. Exchange of timber for private holdings; valuations

For purposes of subdivision (1) of section 164 of this title the value of all patented lands within said park, including the timber thereon, offered for exchange, and the value of the timber on park lands, or on Government lands within the metes and bounds of the national forests within the State of Montana, proposed to be given in exchange for such patented lands, shall be ascertained in such manner as the Secretary of the Interior and the Secretary of Agriculture may jointly in their discretion direct, and all expenses incident to ascertaining such values shall be paid by the owners of said patented lands. Such owners shall, before any exchange is effective, furnish the Secretary of the Interior evidence satisfactory to him of title to the patented lands offered in exchange; and if the value of timber on park lands or on the Government lands in the national forests within the State of Montana exceeds the value of the patented lands deeded to the Government in exchange, such excess shall be paid to the Secretary of the Interior by the owners of the patented lands before any timber is removed, and shall be deposited and covered into the Treasury as miscellaneous receipts. The lands conveyed to the Government under this section and subdivision (1) of section 164 of this title shall become a part of the Glacier National Park.

The Secretary of Agriculture and the Secretary of the Interior shall jointly report to Congress in detail the factors upon which valuations were made.

(Mar. 3, 1917, ch. 164, § 3, 39 Stat. 1122.)

In exchange for the non-Federal property so to be acquired, the Secretary of the Interior is authorized to convey to the grantors of such property, or to their nominees, any federally owned lands, interests in lands, buildings,

or other property, real or personal, within the authorized boundaries of the Glacier National Park, located in the State of Montana and administered by the National Park Service, which are of approximately equal value, as determined by the Secretary, to the property being acquired. In order to facilitate the making of such exchanges, the Secretary of the Interior may enter into agreements for the reservation in conveyances to the United States, or for the grant in conveyances from the United States, of such estates for years, life estates, or other interests as may be consistent, in his judgment, with the accomplishment of the purposes of this section, but all such limitations shall be considered in determining the equality of the interests to be exchanged.

(b) Any property acquired pursuant to this section shall, upon acceptance of title thereto, become a part of the Glacier National Park, and shall be subject to all laws applicable to such area. The Secretary of the Interior is authorized to issue such regulations as he deems necessary for carrying out the purposes of this section.

Pub. L. 111–11, §7105(a), in second sentence, substituted “generally depicted on the map entitled ‘Boundary Map, Barataria Preserve Unit, Jean Lafitte National Historical Park and Preserve’, numbered 467/80100A, and dated December 2007,” for “of approximately twenty thousand acres generally depicted on the map entitled ‘Barataria Marsh Unit-Jean Lafitte National Historical Park and Preserve’ numbered 90,000B and dated April 1978.”

1988—Pub. L. 100–250 added cl. (4) and redesignated former cls. (4) and (5) as (5) and (6), respectively.

§ 230b. Owner’s retention of right of use and occupancy for residential purposes for life or fixed term of years; election of term; fair market value; transfer, assignment or termination; “improved property” defined

Within the Barataria Preserve Unit, the owner or owners of improved property used for non-commercial residential purposes on a year-round basis may, as a condition of the acquisition of such property by the Secretary, elect to retain a right of use and occupancy of such property for noncommercial residential purposes if, in the judgment of the Secretary, the continued use of such property for a limited period would not unduly interfere with the development or management of the park. Such right of use and occupancy may be either a period ending on the death of the owner or his spouse, whichever occurs last, or a term of not more than twenty-five years, at the election of the owner. Unless the property is donated, the Secretary shall pay to the owner the fair market value of the property less the fair market value of the right retained by the owner. Such right may be transferred or assigned and may be terminated by the Secretary, if he finds that the property is not used for noncommercial residential purposes, upon tender to the holder of the right an amount equal to the fair market value of the unexpired term. As used in this section, the term “improved property” means a single-family, year-round dwelling, the construction of which was begun before January 1, 1977 (or January 1, 2007, for areas added to the park after that date), which serves as the owner’s permanent place of abode at the time of its acquisition by the United States, together with not more than three acres of land on which the dwelling and appurtenant buildings are located which the

Secretary finds is reasonably necessary for the owner's continued use and occupancy of the dwelling.

See Rule XXV of Standing Rules of the Senate, as amended by Senate Resolution No. 4 (popularly cited as the "Committee System Reorganization Amendments of 1977"), approved Feb. 4, 1977.

Land acquisition; study and investigation of use of private lands; transmittal to President and Congress; transfer of lands to Secretary of Agriculture; excluded property within Indian reservation; continuation of concession contracts; termination of concession contracts and purchase of possessory interest; Indian hunting and fishing rights

Notwithstanding any other provision of law, within the boundaries of the park as revised by and pursuant to sections 251e to 251m of this title, the Secretary is authorized to acquire lands, privately owned aquatic lands, and interests therein by donation, purchase with donated or appropriated funds, exchange, or transfer from any Federal agency. Property so acquired shall become part of Olympic National Park and shall be administered by the Secretary subject to the laws and regulations applicable to such park. The Secretary is authorized and directed to exclude from the boundaries of the park such private lands and publicly owned and maintained roads within Grays Harbor County which are near and adjacent to Lake Quinault, and which do not exceed two thousand, one hundred and sixty-eight acres in total. Prior to excluding such lands from the park, the Secretary shall study and investigate current and prospective uses of the private lands, as well as the implications of their exclusion both for the lands involved and for Olympic National Park. The results of such study shall be transmitted to the President and to the Congress within two years of October 21, 1976, and shall take effect unless disapproved by simple majority vote of the House of Representatives or the Senate of the United States of America within ninety legislative days of their submission to the Congress. thereof, without monetary consideration, as the Secretary may deem appropriate. Any such Federal property transferred to the jurisdiction of the Secretary of Agriculture for national forest purposes shall upon such transfer become part of the national forest and subject to the laws and regulations pertaining thereto. Any property excluded from the park by sections 251e to 251m of this title which is within the boundaries of an Indian reservation may be transferred in trust to such Indian tribe, subject, however, to the express condition that any concessioner providing, public services shall be permitted to continue to provide such services in such manner and for such period as set forth in his concession contract, that the Secretary of the Interior is authorized to pay all franchise fees collected from the concessioner under the contract to said Indian Tribe, and that in the event his contract is terminated, the United States shall purchase his possessory interest in accordance with the Act of October 9, 1965 (79 Stat. 969).¹ The acquisition of lands by the United States in trust for an Indian tribe pursuant to sections 251e to 251m of this title shall not confer any hunting or fishing rights upon such tribe which were not vested in such tribe prior to the acquisition of such lands.

(C) Fern Lake is the water supply source for the city of Middlesboro, Kentucky, and environs.

(D) The 4,500-acre Fern Lake watershed is privately owned, and the 150-acre lake and part of the watershed are currently for sale, but the Secretary of the Interior is precluded by the first section of the Act of June 11, 1940 (16 U.S.C. 261), from using appropriated funds to acquire the lands.

(2) Purposes

The purposes of the section are—

(b) Adjacent or vicinal land; exchange of property; cash equalization payments

In order to facilitate the acquisition of privately owned lands in the park by exchange and avoid the payment of severance costs, the Secretary of the Interior may acquire approximately 4,667 acres of land or interests in land which lie adjacent to or in the vicinity of the park. Land so acquired outside the park boundary may be exchanged by the Secretary on an equal-value basis, subject to such terms, conditions, and reservations as he may deem necessary, for privately owned land located within the park. The Secretary may accept cash from or pay cash to the grantor in such exchange in order to equalize the values of the properties exchanged. In order to provide for an adequate entrance road into the McKittrick Canyon area of the park, the Secretary may accept title to and interests in lands comprising a right-of-way for a road or roads outside of the boundary of the park from United States Highway numbered 62 and 180 to the park boundary, and in exchange therefor he may convey title to and interests in lands comprising a right-of-way from said highway to the boundary which have been donated to the United States. § 283b. Establishment; notice in Federal Register; property rights

(a) Federal title to property, donation of State and other non-Federal mineral rights and interests, and establishment; notice in Federal Register; acquisition of remaining property; purchase options pending establishment of park; contingent purchase contracts

When the title to all privately owned land within the boundary of the park, subject to such outstanding interests, rights, and easements as the Secretary determines are not objectionable, with the exception of approximately 4,574 acres which are planned to be acquired by exchange, is vested in the United States and after the State of Texas has donated or agreed to donate to the United States whatever rights and interests in minerals underlying the lands within the boundaries of the park it may have and other owners of such rights and interests have donated or agreed to donate the same to the United States, notice thereof and notice of the establishment of the Guadalupe Mountains National Park shall be published in the Federal Register. Thereafter, the Secretary may continue to acquire the remaining land and interests in land within the boundaries of the park. The Secretary is authorized, pending establishment of the park, to negotiate and acquire options for the purchase of lands and interests in land within the boundaries of the park. He is further authorized to execute contracts for the purchase of such lands and interests, but the liability of the United States under any such contract shall be contingent on the availability of appropriated or donated funds to fulfill the same.

(b) Preferential right to reconveyance of mineral rights and interests upon nonuser of lands for national park purposes; notice; period for exercise; beneficiaries

In the event said lands or any part thereof cease to be used for national park purposes, the persons (including the State of Texas) who donated to the United States rights and interests in minerals in the lands within the park shall be given notice, in accordance with regulations to be prescribed by the Secretary, of their preferential right to a reconveyance, without consideration, of the respective rights and interests in minerals which they donated to the United States. Such notice shall be in a form reasonably calculated to give actual notice to those entitled to such preferential right, and shall provide for a period of not less than one hundred and eighty days within which to exercise such preferential right. The preferential right to such reconveyance shall inure to the benefit of the successors, heirs, devisees, or assigns of such persons having such preferential right to a reconveyance, and such successors, heirs, devisees, or assigns shall be given the notice provided for in this subsection.

(c) Leases of mineral rights and interests: withdrawal from leasing; mineral leasing, sale of surplus property, and sale provisions inapplicable; subsection (c) inapplicable upon failure or refusal to exercise preferential right to reconveyance

Such rights and interests in minerals, including all minerals of whatever nature, in and underlying the lands within the boundaries of the park and which are acquired by the United States under the provisions of this subchapter are hereby withdrawn from leasing and are hereby excluded from the application of the present or future provisions of the Mineral Leasing Act for Acquired Lands [30 U.S.C. 351 et seq.] or other Act in lieu thereof having the same purpose, and the same are hereby also excluded from the provisions of all present and future laws affecting the sale of surplus property or of said mineral interests acquired pursuant to this subchapter by the United States or any department or agency thereof, except that, if such person having such preferential right to a reconveyance fails or refuses to exercise such preferential right to a reconveyance as provided in subsection (b) of this section then this subsection (c) shall not be applicable to the rights and interests in such minerals in the identical lands of such person so failing or refusing to exercise such preferential right to a reconveyance from and after the one hundred and eighty-day period referred to in subsection (b) of this section.

(d) Preferential right to lease mineral rights and interests necessary for national welfare or emergency; notice, terms and conditions, beneficiaries; other leases upon failure or refusal to exercise right: terms and conditions

If at any time in the future an Act of Congress provides that the national welfare or an emergency requires the development and production of the minerals underlying the lands within the boundaries of the national park, or any portion thereof, and such Act of Congress, notwithstanding the provisions of subsection (c) of this section or any other Act, authorizes the Secretary to lease said land for the purpose of drilling, mining, developing, and producing said minerals, the Secretary shall give the persons (including the State of Texas) who donated such minerals to the United States notice of their preferential right to lease, without consideration, all or any part of the respective rights and interests in minerals which they donated to the United States, subject to such terms and conditions as the Secretary may prescribe. Such preferential right shall inure to the benefit of the successors or assigns, and of the heirs or devisees of such persons having such preferential right in the premises. The persons entitled to a preferential right under this subsection shall be given the same notice thereof as persons entitled to preferential rights under subsection (b) of this section. If such person having such preferential right fails or refuses to exercise such right within the time specified in the above notice, the Secretary may thereafter lease the minerals involved to any other person under such terms and conditions as he may prescribe.

(e) Proceeds from communitization agreement or protective action; beneficiaries

If at any time oil, gas, or other minerals should be discovered and produced in commercial quantities from lands outside of the boundaries of the park, thereby causing drainage of oil, gas, or other minerals from lands within the boundaries of the park, and if the Secretary participates in a communitization agreement or takes other action to protect the rights of the United States, the proceeds, if any, derived from such agreement or action shall inure to the benefit of the donors of the oil, gas, or other minerals, or their successors, heirs, devisees, or assigns.

(a) Grants to Foundation; amount; non-Federal contributions

The Secretary is authorized to make available to the Foundation, in the form of a grant, \$9,000,000 to be used for the reconstruction of the Center, subject to the provisions of this section. Such grant shall be made available in increments as needed for such purpose and only if the Foundation has agreed under terms and conditions satisfactory to the Secretary to provide, from non-Federal sources, sufficient contributions on a timely basis to complete the reconstruction of the Center.

(b) Loans to Foundation; amount; limitation; repayment; interest; service costs; term

(1) The Secretary may make loans to the Foundation to the extent needed to complete the reconstruction of the Center and to provide for noise mitigation measures, including those on adjacent public property, in an amount equal to twice the amount of non-Federal contributions received, and provided, by the Foundation for such reconstruction work. The total amount of such loans may not exceed \$8,000,000. Loans made under this subsection shall be repaid in full, with interest on any unpaid obligation at a rate determined by the Secretary of the Treasury, taking into consideration current market yields on outstanding marketing obligations of the United States with remaining periods to maturity comparable to the maturity of the loan, plus such additional charge, if any, as the Secretary may determine, for the purpose of covering other costs of servicing the loan. In determining the terms and conditions governing any loan, the Secretary shall fix a term of not more than five years from the date the loan agreement is executed.

(2)(A) The term of the loans made pursuant to paragraph (1) which are outstanding on the effective date of this paragraph may not exceed the 25-year period beginning on such date. The remaining obligation of such loans shall be paid in equal annual installments, commencing June 1, 1991, except that for the first 3 payments, the payment shall be \$215,000 each year. In addition,

such payments (including the first 3 payments) may be reduced in any year by a credit not to exceed \$60,000 annually. Such credit shall equal 100 percent of the market value of public service tickets determined at prevailing Foundation box office prices. Such credit shall be allowed only for tickets contributed to entities holding a status referred to in section 501(c)(3) of title 26.

(B)(i) Unpaid interest on such amount which accrued before the effective date of this paragraph is hereby forgiven.

(ii) Notwithstanding paragraph (1), there shall be no interest on the loan referred to in subparagraph (A) after the effective date of this paragraph if, within 120 days after such date, the Foundation modifies its agreement with the Secretary to implement this paragraph, paragraph (3), and section 284d(c)(4) of this title. If such agreement is not modified within the 120-day period, interest shall accrue from the effective date of this paragraph in accordance with paragraph (1).

(C) Notwithstanding any other provision of law, amounts paid to the Secretary pursuant to this paragraph may be retained until expended by the Secretary, in consultation with the Foundation, for the maintenance of structures, facilities, and equipment of the Park.

(D) The Secretary shall, within 120 days after the effective date of this paragraph, submit a payment schedule to the Foundation specifying the amount of each annual payment to be made by the Foundation pursuant to this paragraph.

(3) If the Foundation is in default on its obligations under this subsection for more than 60 consecutive days, the Secretary, acting in the public interest, shall terminate the cooperative agreement described in section 284d of this title. In the event of a major catastrophe or severe economic situation, the Secretary may submit to the Committee on Natural Resources of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate a recommendation that this paragraph be temporarily suspended. In submitting such a request, the Secretary shall submit clear evidence of the financial status of the Foundation.

(c) Written agreement

No grants or loans may be made under this section unless the Secretary has entered into a written agreement with the Foundation under which the Foundation agrees—

(1) to expend all funds for the reconstruction of the Center (and for construction or reconstruction of any related structures or fixtures) only in accordance with circulars published by the Office of Management and Budget applicable to Federal grants to nonprofit organizations, and in accordance with the provisions of sections 3141–3144, 3146, and 3147 of title 40;

(2) to comply with such other terms and conditions as the Secretary deems appropriate; and

(3) to maintain, during the term of the cooperative agreement described in section 284d of this title, and at the Foundation's expense, insurance on the Center respecting such risks, in such amounts, and containing such terms and conditions, as are satisfactory to the Secretary.

Any repairs or reconstruction carried out with funds obtained from the receipt of the proceeds of any such insurance shall be subject to the approval of the Secretary.

(d) Oversight and approval duties of Secretary; construction management duties of Foundation

The Secretary shall be responsible for overseeing the reconstruction and shall have final approval over the plans for, and location and design of, the Center, and the Foundation shall be responsible for managing the construction activities, including the selection (in accordance with the requirements referred to in paragraphs (1) and (2) of subsection (c) of this section) of persons to perform architectural, engineering, construction, and related services.

(e) Easement noise and other standards; enforcement measures

No grants or loans may be made under this section unless the Secretary has received what the Secretary deems to be adequate written assurance from the Administrator of the Federal Aviation Administration that any easement granted to the Commonwealth of Virginia by the Administrator for construction of the Dulles Toll Road will contain noise standards (“A” weighted energy average sound level of 52 to 54 dB) and other standards set forth in the Final Environmental Impact Statement for the Dulles Airport Access Road Outer Parallel Toll Roads, prepared by the Federal Aviation Administration and issued in May of 1982, legally enforceable by the Administrator and by the Secretary which are adequate to protect the Center from undue noise pollution and other environmental degradation attributable to such toll road both during and after its construction, and will also contain legally enforceable assurances that the Commonwealth of Virginia will promptly take measures to achieve the noise levels specified in the easement. Such measures may include a partial or total ban on truck traffic on the toll road or other mitigation recommended by the Secretary and the Administrator.

(f) Support services on reimbursable basis

The Secretary may also provide support services, as requested by the Foundation, on a reimbursable basis, for purposes of reconstruction of the Center.

"(A) Reconstruction of an existing building.

"(B) Construction of attached or accessory structural additions, which do not exceed 25 per centum of the square footage of the principal structure.

"(C) Construction of reasonable support development such as roads, parking facilities, water and sewage systems, and dock facilities.

“(c)(1) The owners of any private property within the Park may, on the date of its acquisition by the Secretary and as a condition of such acquisition, retain for himself and his successors or assigns a right to use and occupancy for a definite term of not more than 25 years, or ending at the death of the owner, or his spouse, whichever is later. The owners shall elect the term to be reserved. The Secretary shall pay to the owner the fair market value of the property on the date of such acquisition, less the fair market value, of the right retained by the owner.

“(2) Any such right retained pursuant to this subsection shall be subject to such terms and conditions as the Secretary may prescribe and may be terminated by the Secretary upon his determination and after reasonable notice to the owner thereof that such property is being used for any purpose which is incompatible with the administration of the Park or with the preservation of the resources therein. Such right shall terminate by operation of law upon notification to the owner by the Secretary and tendering to the owner the amount equal to the fair market value of that portion which remains unexpired.

“(d)(1) In exercising his authority to acquire lands by exchange pursuant to this title, the Secretary may accept title to non-Federal property located within the boundary of the Park and may convey to the grantor of such property any federally owned property under the jurisdiction of the Secretary which lies outside said boundary and depicted on the map. Properties so exchanged shall be approximately equal in value, as determined by the Secretary, except that the Secretary may accept cash from or pay cash to the grantor in such an exchange in order to equalize the value of the properties exchanged.

“(2) Federally owned property under jurisdiction of the Secretary referred to in paragraph (1) of this subsection shall be conveyed to the towns in which the property is located without encumbrance and without monetary consideration, except that no town shall be eligible to receive such lands unless lands within the Park boundary and owned by the town have been conveyed to the Secretary.

“(e) Notwithstanding any other provision of this section, lands depicted on the map referenced in section 101 and identified as 10DBH and 11DBH known as the ‘Bar Harbor Sewage Treatment Plant’; 14DBH known as the ‘New Park Street Ballfield’; and 15DBH known as the ‘Former Park Headquarters’; shall be conveyed by the Secretary, without monetary consideration, to the town of Bar Harbor, Maine, within 180 days following the enactment of this Act [Sept. 25, 1986]. The real property conveyed pursuant to this subsection shall be used and retained by the town for municipal and public purposes. Title to the properties conveyed pursuant to this subsection shall revert to the United States if such property or any portion thereof is conveyed by the town to another party or used for purposes other than those specified in this subsection.

“(f) Notwithstanding any other provision of this section, land depicted on the map identified as 4DBH, located in the village of Town Hill, Maine, shall be conveyed by the Secretary without monetary consideration, to the town of Bar Harbor, Maine, as soon as practicable following the enactment of this Act [Sept. 25, 1986], subject to such terms and conditions, including appropriate reversionary provisions, as will in the judgment of the Secretary provide for the development and use of such property by any town which so desires as a solid waste transfer station in accordance with a plan that is satisfactory to the town and the Secretary. The Secretary shall (subject to the availability of prior appropriations) contribute toward the cost of constructing such transfer station the lesser of—

“(1) \$350,000, or

“(2) 50 per centum of the cost of such construction.

“(g) Notwithstanding any other provision of this section, the Secretary is authorized to acquire by donation or exchange lands or interests therein in the area identified on the map as ‘Schooner Head’, which is out-

side the boundary of the park. The Secretary is further authorized to acquire conservation easements on such lands by purchase with donated or appropriated funds if he determines after written notice to the owner and after providing a reasonable opportunity to comment on such notice, that the property is being developed or proposed to be developed in a manner which is significantly different from or a significant expansion of development existing as of November 1, 1985, as defined in subsection (b) of this section.

“(h)(1) The Secretary is authorized to acquire conservation easements by purchase from a willing seller or by donation on parcels of land adjacent to the Park on Schoodic Peninsula, the islands of Hancock County, and the islands of Knox County east and south of the Penobscot Ship Channel, except such islands as lie within the town of Isle au Haut, Knox County. Parcels subject to conservation easements acquired or accepted by the Secretary under this subsection must possess one or more of the following characteristics:

“(A) important scenic, ecological, historical, archeological, or cultural resources;

“(B) shorefront property; or

“(C) largely undeveloped entire islands.

“(2) Conservation easements acquired pursuant to this subsection shall—

“(A) protect the respective scenic, ecological, historical, archeological, or cultural resources existing on the parcels;

“(B) preserve, through setback requirements or other appropriate restrictions, the open, natural, or traditional appearance of the shorefront when viewed from the water or from other public viewpoints; or

“(C) limit year-round and seasonal residential and commercial development to activities consistent with the preservation of the islands’ natural qualities and to traditional resource-based land use including, but not limited to, fishing, farming, silviculture, and grazing.

“(3) In determining whether to accept or acquire conservation easements pursuant to this subsection, the Secretary shall consider the following factors:

“(A) the resource protection benefits that would be provided by the conservation easement;

“(B) the public benefit that would be provided by the conservation easement;

“(C) the significance of the easement in relation to the land planning objectives of local government and regional and State agencies;

“(D) the economic impact of the conservation easement on local livelihoods, activities, and government revenues; and

“(E) the proximity of the parcel to the boundary of the Park and to other parcels on which the Secretary maintains conservation easements.

“(4) For purposes of this subsection, the term ‘conservation easement’ means a less-than-fee interest in land or a conservation restriction as defined in section 476 through 479-B inclusive, as amended, of title 33 of the Maine Revised Statutes of 1964, as in effect on the date of the enactment of this Act [Sept. 25, 1986].

“(5) No easement may be acquired by the Secretary under this subsection without first consulting with, and providing written notification to, the town in which the land is located and the Acadia National Park Advisory Commission established by section 103 of this title. In providing such notification, the Secretary shall indicate the manner and degree to which the easement meets the criteria provided in this subsection.

“(i) Nothing in this section shall be construed to prohibit the use of condemnation as a means of acquiring a clear and marketable title, free of any and all encumbrances.

“(j)(1) Notwithstanding any other provision of this section, the Secretary shall accept an offer of the following from the Jackson Laboratory (a not-for-profit corporation organized under the laws of Maine):

“(A) Lands depicted on the map as 55 A ABH which are held in fee by the Jackson Laboratory.

“(B) A conservation easement on lands depicted on the map identified as 55 ABH (the developed property

known as 'Highseas'). The easement shall prohibit subdivision of such land or any further significant development on such lands, except as permitted by the guidelines published under section 102(b)(1).

"(2) Upon receipt of the lands and easement described in paragraph (1), the Secretary shall transfer to the Jackson Laboratory the lands depicted on the map as 8 DBH and 9 DBH. Any disparity in the fair market value of the lands and easement referred to in paragraph (1) and the lands described in the preceding sentence shall be equalized as provided in section 102(d)(1).

"(k) For purposes of subsection (a)(2), the construction of one single family residence on Burnt Porcupine Island by the owner of the Island shall not be treated as detrimental to the scenic, historic, cultural, or other values for which the park was established if, before such construction commences, the Secretary has reviewed and approved plans for the size, location and architectural design of the structure.

"SEC. 103. ADVISORY COMMISSION.

"(1) there are significant scenic, educational, natural, and cultural resources in the town of Isle au Haut, Maine;

"(2) due to the isolated location and traditional resource-based economy of the town's island community, these resources are fragile and deserving of conservation and protection through both public and private efforts; and

"(3) both residents of the town and visitors to the Acadia National Park will benefit from the establishment of a permanent boundary for the park and the management of parklands on a limited entry, low intensity basis.

"SEC. 2. Notwithstanding any other provision of law, the permanent boundary of Acadia National Park lying within the town of Isle au Haut, Maine, is hereby established to include only those lands and interests therein as are depicted on the map entitled 'Boundary Map, Acadia National Park, Town of Isle au Haut, Maine', numbered 123-80003 and dated October 1981, which map is on file and available for public inspection in the offices of the Department of the Interior and at the Registry of Deeds for Hancock and Knox Counties, Maine.

"SEC. 3. (a) Within the boundary established by section 2, and as indicated on the map referenced therein, the Secretary of the Interior (hereinafter referred to as 'the Secretary') is authorized to acquire lands and interests therein by donation or exchange. The Secretary is authorized and directed to acquire by donation, purchase with donated or appropriated funds, or exchange the tract known as the Hamilton lot in Duck Harbor. No later than one hundred and eighty days from enactment hereof [Oct. 15, 1982], the Secretary shall convey to the town of Isle au Haut all right, title and interest of the United States in and to those lands under the jurisdiction of the Secretary which lie outside the boundary established by section 2 and within the town of Isle au Haut, subject only to such covenants running with the land as the Secretary and the town agree are necessary to preserve the general character of such lands, which shall include covenants to maintain forever in their natural condition (excepting the cutting of fire trails and the extinguishment of fires) lands above three hundred feet above the mean high water level: *Provided, however*, That such covenants with respect to lands above three hundred feet and below four hundred feet shall permit the gathering and removal of dead and fallen timber.

"(b) Notwithstanding any other provisions of this Act [this note], the Secretary is also authorized to accept by donation, as a coholder for enforcement purposes only, a limited enforcement interest in conservation easements on lands outside the boundary established by section 2 hereof and within the town of Isle au Haut which may from time to time be donated to the Isle au Haut Land Conservation Trust, a trust established under the laws of the State of Maine. The Superintendent of Acadia National Park is hereby authorized to serve as an ex officio trustee of such trust.

"SEC. 4. (a) The management and use of parklands on Isle au Haut shall not interfere with the maintenance of a viable local community with a traditional resource-based economy outside the boundary of the park. To the maximum extent practicable, no development or plan for the convenience of park visitors shall be undertaken which would be incompatible with the preservation of the flora and fauna or the physiographic conditions now prevailing, and every effort shall be exerted to maintain and preserve this portion of the park in as nearly its present state and condition as possible. In recognition of the special fragility and sensitivity of the park's resources, visitation shall be strictly limited to assure negligible adverse impact on

"(e) Until such time as a carrying capacity limitation is established and implemented pursuant to subsections (b) and (c) of this section, the Secretary shall take such temporary measures as are necessary to assure that visitation does not exceed the average annual visitation for the period 1979 to 1981.

"SEC. 5. There are hereby authorized to be appropriated after October 1, 1982, such sums as may be necessary to carry out the provisions of this Act [this note]."

At any time the Secretary may purchase the balance of any surplus property account subject to the availability of appropriated funds. The land owner¹ may also use the credits in exchange for excess lands,

CODIFICATION

Section, act May 22, 1926, ch. 363, §4, 44 Stat. 617, authorized the Secretary of the Interior to employ, for the purpose of carrying out the provisions of sections 403, 403a, and 403b of this title, the commission authorized by act Feb. 21, 1925, ch. 281, 43 Stat. 958 (a temporary act).

§ 403c-1. Respective jurisdiction of Virginia and United States over lands in Shenandoah Park

In order to provide for uniform Federal jurisdiction over all of the lands now or hereafter embraced within the Shenandoah National Park, the provisions of the Act of the General Assembly of the Commonwealth of Virginia, approved April 1, 1940 (Acts of 1940, ch. 402, p. 725), fixing and defining the respective jurisdiction and powers of the Commonwealth of Virginia and the United States and ceding to the United States exclusive police jurisdiction over all lands now or hereafter included within the park are accepted and such exclusive jurisdiction is assumed by the United States over such lands. From June 5, 1942, the respective jurisdiction and powers of the Commonwealth of Virginia and the United States over all lands within the Shenandoah National Park as it is now constituted or may hereafter be extended shall be as follows:

(a) The United States shall have exclusive jurisdiction, legislative, executive, and judicial, with respect to the commission of crimes, and the arrest, trial, and punishment thereof, and exclusive general police jurisdiction thereover.

(b) The United States shall have the power to regulate or prohibit the sale of alcoholic beverages on said lands: *Provided, however*, That, if the sale of alcoholic beverages is prohibited by general law in the Commonwealth of Virginia outside of said lands, no such alcoholic beverages shall be sold on said lands contained in said park area: *And provided further*, That, if the general laws of the Commonwealth of Virginia permit the sale of alcoholic beverages, then the regulations of the United States relating to such sales on said lands shall conform as nearly as possible to the regulatory provisions in accordance with which such sales are permitted in the Commonwealth of Virginia outside of said park lands. Nothing in this subsection shall be construed as reserving in the Commonwealth power to require licenses of persons engaged in the sale of intoxicating beverages on said lands, nor the power to require that any sales be made through official liquor stores.

(c) The Commonwealth of Virginia shall have jurisdiction to serve civil process within the limits of said park in any suits properly instituted in any of the courts of the Commonwealth of Virginia, and to serve criminal process within said limits in any suits or prosecutions for or on account of crimes committed in said Commonwealth but outside of said park.

(d) The Commonwealth of Virginia shall have the jurisdiction and power to levy a nondiscriminatory tax on all alcoholic beverages possessed or sold on said lands.

(e) The Commonwealth of Virginia shall have jurisdiction and power to tax the sales of oil and gasoline, and other motor-vehicle fuels and lubricants for use in motor vehicles. This subsection shall not be construed as a consent by the United States to the taxation by the Commonwealth of such sales for the exclusive use of the United States.

(f) The Commonwealth of Virginia shall have the jurisdiction and power to levy nondiscriminatory taxes on private individuals, associations, and corporations, their franchises and properties, on said lands, and on their businesses conducted thereon.

(g) The courts of the Commonwealth of Virginia shall have concurrent jurisdiction with the courts of the United States of all civil causes of action arising on said lands to the same extent as if the cause of action had arisen in the county or city in which the land lies outside the park area, and the State officers shall have jurisdiction to enforce on said lands the judgments of said State courts and the collection of taxes by appropriate process.

(h) Persons residing in or on any of the said lands embraced in said Shenandoah National Park shall have the right to establish a voting residence in Virginia by reason thereof, and the consequent right to vote at all elections within the county or city in which said land or lands upon which they reside are located upon like terms and conditions, and to the same extent, as they would be entitled to vote in such county or city if the said lands on which they reside had not been deeded or conveyed to the United States of America. All fugitives from justice taking refuge in the park shall be subject to the same laws as refugees from justice found in the Commonwealth of Virginia.

GRAZING STUDY OF GRAND TETON NATIONAL PARK

Pub. L. 105-81, Nov. 13, 1997, 111 Stat. 1537, provided that:

“SECTION 1. FINDINGS.

“Congress finds that—

“(1) open space near Grand Teton National Park continues to decline;

“(2) as the population continues to grow in Teton County, Wyoming, undeveloped land near the Park becomes more scarce;

“(3) the loss of open space around Teton Park has negative impacts on wildlife migration routes in the area and on visitors to the Park, and its repercussions can be felt throughout the entire region;

“(4) a few ranches make up Teton Valley’s remaining open space, and the ranches depend on grazing in Grand Teton National Park for summer range to maintain operations;

“(5) the Act that created Grand Teton National Park [act Feb. 26, 1929, ch. 331, 45 Stat. 1314, 16 U.S.C. former 406 to 406d] allowed several permittees to continue livestock grazing in the Park for the life of a designated heir in the family;

“(6) some of the last remaining heirs have died, and as a result the open space around the Park will most likely be subdivided and developed;

“(7) in order to develop the best solution to protect open space immediately adjacent to Grand Teton National Park, the Park Service should conduct a study of open space in the region; and

“(8) the study should develop workable solutions that are fiscally responsible and acceptable to the National Park Service, the public, local government, and landowners in the area.

“SEC. 2. STUDY OF GRAZING USE AND OPEN SPACE.

“(a) IN GENERAL.—The Secretary of the Interior shall conduct a study concerning grazing use and open space in Grand Teton National Park, Wyoming, and associated use of certain agricultural and ranch lands within and adjacent to the Park, including—

“(1) base land having appurtenant grazing privileges within Grand Teton National Park, Wyoming, remaining after January 1, 1990, under the Act entitled ‘An Act to establish a new Grand Teton National Park in the State of Wyoming, and for other purposes’, approved September 14, 1950 (16 U.S.C. 406d-1 et seq.); and

“(2) any ranch and agricultural land adjacent to the Park, the use and disposition of which may affect accomplishment of the purposes of the Act.

“(b) PURPOSE.—The study shall—

“(1) assess the significance of the ranching use and pastoral character of the land (including open vistas, wildlife habitat, and other public benefits);

“(2) assess the significance of that use and character to the purposes for which the Park was established and identify any need for preservation of, and practicable means of, preserving the land that is necessary to protect that use and character;

“(3) recommend a variety of economically feasible and viable tools and techniques to retain the pastoral qualities of the land; and

“(4) estimate the costs of implementing any recommendations made for the preservation of the land.

“(c) PARTICIPATION.—In conducting the study, the Secretary of the Interior shall seek participation from the Governor of the State of Wyoming, the Teton County Commissioners, the Secretary of Agriculture, affected land owners, and other interested members of the public.

“(d) REPORT.—Not later than 3 years from the date funding is available for the purposes of this Act, the Secretary of the Interior shall submit a report to Congress that contains the findings of the study under subsection (a) and makes recommendations to Congress regarding action that may be taken with respect to the land described in subsection (a).

“SEC. 3. EXTENSION OF GRAZING PRIVILEGES.

“(a) IN GENERAL.—Subject to subsection (b), the Secretary of the Interior shall reinstate and extend for the duration of the study described in section 2(a) and until such time as the recommendations of the study are implemented, the grazing privileges described in section

2(a)(1), under the same terms and conditions as were in effect prior to the expiration of the privileges.

“(b) EFFECT OF CHANGE IN LAND USE.—If, during the period of the study or until such time as the recommendations of the study are implemented, any portion of the land described in section 2(a)(1) is disposed of in a manner that would result in the land no longer being used for ranching or other agricultural purposes, the Secretary of the Interior shall cancel the extension described in subsection (a).”

§ 406d-3. Compensation for tax losses; limitation on annual amount

(a) In order to provide compensation for tax losses sustained as a result of any acquisition by the United States, subsequent to March 15, 1943, of privately owned lands, together with any improvements thereon, located within the exterior boundary of the Grand Teton National Park established by this subchapter and sections 431a, 451a, 482m, 673b, and 673c of this title, payments shall be made to the State of Wyoming for distribution to the county in which such lands are located in accordance with the following schedule of payments: For the fiscal year in which the land has been or may be acquired and nine years thereafter there shall be paid an amount equal to the full amount of annual taxes last assessed and levied on the land, together with any improvements thereon, by public taxing units in such county, less any amount, to be determined by the Secretary of the Interior, which may have been paid on account of taxes for any period falling within such fiscal year. For each succeeding fiscal year, until twenty years elapse, there shall be paid on account of such land an amount equal to the full amount of taxes referred to in the preceding sentence, less 5 per centum of such full amount for each fiscal year, including the year for which the payment is to be made: *Provided*, That the amount payable under the foregoing schedule for any fiscal year preceding the first full fiscal year following September 14, 1950, shall not become payable until the end of such first full fiscal year.

(b) As soon as practicable after the end of each fiscal year, the amount then due for such fiscal year shall be computed and certified by the Secretary of the Interior, and shall be paid by the Secretary of the Treasury: *Provided*, That such amount shall not exceed 25 per centum of the fees collected during such fiscal year from visitors to the Grand Teton National Park established by this subchapter and sections 431a, 451a, 482m, 673b, and 673c of this title, and the Yellowstone National Park. Payments made to the State of Wyoming under this section shall be distributed to the county where the lands acquired from private landowners are located and in such manner as the State of Wyoming may prescribe.

DEVELOPMENT OF PARK; APPROPRIATION

Pub. L. 85-764, §§1, 2, Aug. 27, 1958, 72 Stat. 861, authorized the Secretary of the Interior to proceed with the development of Independence National Historical Park, the establishment of which was authorized by the Act of June 28, 1948 (62 Stat. 1061) [this subchapter], in accordance with plans to be approved by the Secretary, authorized to be appropriated for the development of said park pursuant to this Act the sum of \$7,250,000, and provided that all funds authorized to be appropriated under this Act be expended by June 30, 1963.

§ 407r. Authorization of appropriations

For the purpose of acquiring the property described in section 407m of this title, there is authorized to be appropriated not to exceed the sum of \$12,792,000. Funds appropriated pursuant to this subchapter shall be available for any expenses incidental to acquisition of property as prescribed by this subchapter, including the employment of the necessary services in the District of Columbia, and including to the extent deemed necessary by the Secretary of the Interior, the employment without regard to the civil-service laws of such experts and other officers and employees as are necessary to carry out the provisions of this subchapter efficiently and in the public interest.

CODIFICATION

Provisions that authorized the employment of such experts and other officers and employees as are necessary to carry out this subchapter "without regard to the Classification Act of 1923, as amended", were omitted as obsolete. Sections 1202 and 1204 of the Classification Act of 1949, 63 Stat. 972, 973, repealed the 1923 Act and all laws or parts of laws inconsistent with the 1949 Act. While section 1106(a) of the 1949 Act provided that references in other laws to the 1923 Act should be held and considered to mean the 1949 Act, it did not have the effect of continuing the exception contained in this section because of section 1106(b) which provided that the application of the 1949 Act to any position, officer, or employee shall not be affected by section 1106(a). The Classification Act of 1949 was repealed by Pub. L. 89-554, Sept. 6, 1966, §8(a), 80 Stat. 632 (the first section of which enacted Title 5, Government Organization and Employees, into law). Section 5102 of Title 5 contains the applicability provisions of the 1949 Act, and section 5103 of Title 5 authorized the Office of Personnel Management to determine the applicability to specific positions and employees.

AMENDMENTS

1974—Pub. L. 93-477 substituted "\$12,792,000" for "\$11,200,000".
 1970—Pub. L. 91-293 substituted "\$11,200,000" for "\$7,950,000".
 1958—Pub. L. 85-764 substituted "\$7,950,000" for "\$7,700,000".
 1952—Act July 10, 1952, substituted "\$7,700,000" for "\$4,435,000".

§ 410e. Acquisition of additional lands; reservation of oil, gas, and mineral rights; reservation of royalty rights

In order to consolidate the Federal ownership of lands within the boundary set forth in deed numbered 19035 executed December 28, 1944, by the trustees of the Internal Improvement Fund of the State of Florida, and accepted by the Secretary of the Interior on March 14, 1947, for Everglades National Park purposes, the said Secretary is authorized, within the aforesaid boundary and with any funds made available for that purpose, to procure lands or interests therein by purchase or otherwise, subject, however, to the right of retention by owners of lands, interests in lands, interests in oil, gas, and mineral rights, or royalties, their heirs, executors, administrators, successors, or assigns (hereinafter referred to as "owners"), at their election, of the following:

(1) The reservation until October 9, 1958, of all oil, gas, and mineral rights or interests, including the right to lease, explore for, produce, store, and remove oil, gas, and other minerals from such lands: *Provided*, That if on or before said date, oil, gas, or other minerals are being produced in commercial quantities anywhere within the boundary set forth in aforesaid deed numbered 19035, then in that event the time of the reservation as set forth in this subsection shall automatically extend for all owners, regardless of whether such production is from land in which such owners have an interest, for so long as oil, gas, or other minerals are produced in commercial quantities anywhere within said boundary. To exercise this reservation, the owners, their lessees, agents, employees, and assigns shall have such right of ingress and egress to and from such lands as may be necessary; and

(2) After the termination of the reserved rights of owners as set forth in subsection (1) of this section, a further reservation of the right to customary royalties, applying at the time of production, in any oil, gas, or other minerals which may be produced from such lands at any time before January 1, 1985, should production ever be authorized by the Federal Government or its assigns.

(Oct. 10, 1949, ch. 659, § 1, 63 Stat. 733.)

§ 410f. Limitation of Federal action during reservation period

Unless consented to by an owner retaining the reservation set forth in subsection (1) of section 410e of this title, no action shall be taken by the

Federal Government during the period of such reservation to purchase, acquire, or otherwise terminate or interfere with any lease or leases which may be applicable to said owner's lands.

(Oct. 10, 1949, ch. 659, § 2, 63 Stat. 734.)

§ 410g. Rules and regulations governing reservation rights

Any reservations retained under the provisions of subsection (1) of section 410e of this title shall be exercised by the owners subject to reasonable rules and regulations which the Secretary may prescribe for the protection of the park, but which shall permit the reserved rights to be exercised so that the oil, gas, and minerals may be explored for, developed, extracted, and removed from the park area in accordance with sound conservation practices. All operations shall be carried on under such regulations as the Secretary may prescribe to protect the lands and areas for park purposes.

(Oct. 10, 1949, ch. 659, § 3, 63 Stat. 734.)

§ 410h. Ascertainment of owners' election regarding reservation rights

In any action caused by the Secretary of the Interior to be commenced for the acquisition of lands under the provisions hereof, reasonable diligence shall be exercised by him to ascertain whether owners elect to retain reservations in accordance with the provisions of sections 410e to 410h of this title. If, after the exercise of such reasonable diligence, owners cannot be located, or do not appear in judicial proceedings to acquire the lands, so that it may be ascertained whether they desire to retain reservations in accordance with the provisions hereof, the Secretary may acquire the fee simple title to their lands free and clear of reservations as set forth in subsections (1) and (2) of section 410e of this title.

(Oct. 10, 1949, ch. 659, § 4, 63 Stat. 734.)

§ 410j. Acquisition of land, water, and interests therein; consent of owner; reservations

The authority of the Secretary of the Interior to acquire land and water for Everglades National Park shall on and after July 2, 1958 be restricted to the area within the boundary described in section 410i of this title. Notwithstanding the proviso contained in section 410 of this title, or any other provision of law, the said Secretary is authorized on and after July 2, 1958, within the boundary fixed in sections 410i to 410p of this title and with any funds made available for that purpose, to acquire land, water, and interests therein by purchase or otherwise.

The authority to acquire land, water, and interests therein within the park boundary fixed in section 410i of this title but outside the area designated in sections 410e to 410h of this title, is further subject to the right of retention by the owners thereof, including owners of interests in oil, gas, and mineral rights or royalties, and by their heirs, executors, administrators, successors, and assigns, at their election of the following:

(1) The reservation until October 9, 1967, of all oil, gas, and mineral rights or interests, including the right to lease, explore for, produce, store, and remove oil, gas, and other minerals from such lands;

To exercise this reservation, the owners, their lessees, agents, employees, and assigns shall have such right of ingress to and egress from such land and water as may be necessary; and

(3) After the termination of the reserved rights of owners as set forth in subsections (1) and (2) of this section, a further reservation of the right to customary royalties, applying at the time of production, in any oil, gas, or other minerals which may be produced from such land and water at any time before January 1, 1985, should production ever be authorized by the Federal Government or its assigns.

without the consent of the owner so long as the land is used exclusively for agricultural purposes, including housing directly incident thereto, or is lying fallow or remains in its natural state.

§ 410k. Limitation of Federal action during reservation period

Unless consented to by an owner retaining the reservation set forth in subsections (1) and (2) of section 410j of this title, no action shall be taken by the Federal Government during the period of such reservation to purchase, acquire, or otherwise terminate or interfere with any lease or leases which may be applicable to said owner's land.

(Pub. L. 85-482, §3, July 2, 1958, 72 Stat. 285.)

§ 410l. Rules and regulations governing reservation rights

Any reservations retained under the provisions of subsections (1) and (2) of section 410j of this title shall be exercised by the owners subject to reasonable rules and regulations which the Secretary may prescribe for the protection of the park, but which shall permit the reserved rights to be exercised so that the oil, gas, and minerals may be explored for, developed, extracted, and removed from the park area in accordance with sound conservation practices. All operations shall be carried on under such regulations as the Secretary may prescribe to protect the land and area for park purposes.

(Pub. L. 85-482, §4, July 2, 1958, 72 Stat. 285.)

§ 410m. Ascertainment of owners' election regarding reservation rights

In acquiring any of the land or water within the area described in section 410i of this title the Secretary of the Interior shall exercise reasonable diligence to ascertain whether owners elect to retain reservations in accordance with the provisions of section 410j of this title. If, after the exercise of such reasonable diligence, owners cannot be located, or do not appear in judicial proceedings to acquire the land and water, so that it may be ascertained whether they desire to retain reservations in accordance with the provisions hereof, the Secretary may acquire the fee simple title to their land free and clear of reservations as set forth in subsections (1), (2), and (3) of section 410j of this title.

(Pub. L. 85-482, §5, July 2, 1958, 72 Stat. 285.)

§ 410n. Drainage of lands; right-of-way

Unless the Secretary, after notice and opportunity for hearing, shall find that the same is seriously detrimental to the preservation and propagation of the flora or fauna of Everglades National Park, he shall permit such drainage through the natural waterways of the park and the construction, operation, and maintenance of artificial works for conducting water thereto as is required for the reclamation by the State of Florida or any political subdivision thereof or any drainage district organized under its laws of lands lying easterly of the eastern boundary of the park in township 54 south, ranges 31 and 32 east, township 55 south, ranges 32 and 33 east, and township 56 south, range 33 east. He shall

grant said permission, however, only after a master plan for the drainage of said lands has been approved by the State of Florida and after finding that the approved plan has engineering feasibility and is so designed as to minimize disruptions of the natural state of the park. Any right-of-way granted pursuant to this section shall be revocable upon breach of the conditions upon which it is granted, which conditions shall also be enforceable in any other appropriate manner, and the grantee shall be obligated to remove its improvements and to restore the land occupied by it to its previous condition in the event of such revocation.

(Pub. L. 85-482, §6, July 2, 1958, 72 Stat. 286.)

(b) In addition to the amount authorized in subsection (a) of this section there is authorized to be appropriated such amount, not in excess of \$700,200, as is necessary for the acquisition, in accordance with the provisions of sections 410i to 410p of this title, of the following described privately owned lands:

§ 410r-5. Findings, purposes, and definitions

(a) Findings

The Congress makes the following findings:

(1) The Everglades National Park is a nationally and internationally significant resource and the park has been adversely affected and continues to be adversely affected by external factors which have altered the ecosystem including the natural hydrologic conditions within the park.

(2) The existing boundary of Everglades National Park excludes the contiguous lands and waters of the Northeast Shark River Slough that are vital to long-term protection of the park and restoration of natural hydrologic conditions within the park.

(3) Wildlife resources and their associated habitats have been adversely impacted by the alteration of natural hydrologic conditions within the park, which has contributed to an overall decline in fishery resources and a 90 percent population loss of wading birds.

(4) Incorporation of the Northeast Shark River Slough and the East Everglades within the park will limit further losses suffered by the park due to habitat destruction outside the present park boundaries and will preserve valuable ecological resources for use and enjoyment by future generations.

(5) The State of Florida and certain of its political subdivisions or agencies have indicated a willingness to transfer approximately 35,000 acres of lands under their jurisdiction to the park in order to protect lands and water within the park, and may so transfer additional lands in the future.

(6) The State of Florida has proposed a joint Federal-State effort to protect Everglades National Park through the acquisition of additional lands.

(b) Purposes

The purposes of sections 410r-5 to 410r-8 of this title are to—

(1) increase the level of protection of the outstanding natural values of Everglades National Park and to enhance and restore the ecological values, natural hydrologic conditions, and public enjoyment of such area by adding the area commonly known as the Northeast Shark River Slough and the East Everglades to Everglades National Park; and

(2) assure that the park is managed in order to maintain the natural abundance, diversity, and ecological integrity of native plants and animals, as well as the behavior of native animals, as a part of their ecosystem.

FINDINGS AND PURPOSE OF 1997 AMENDMENT

Section 2 of Pub. L. 105-82 provided that:

“(a) FINDINGS.—Congress finds that—

“(1)(A) Marjory Stoneman Douglas, through her book, ‘The Everglades: River of Grass’ (published in 1947), defined the Everglades for the people of the United States and the world;

“(B) Mrs. Douglas’s book was the first to stimulate widespread understanding of the Everglades ecosystem and ultimately served to awaken the desire of the people of the United States to restore the ecosystem’s health;

“(C) in her 107th year, Mrs. Douglas is the sole surviving member of the original group of people who devoted decades of selfless effort to establish the Everglades National Park;

“(D) when the water supply and ecology of the Everglades, both within and outside the park, became threatened by drainage and development, Mrs. Douglas dedicated the balance of her life to the defense of the Everglades through extraordinary personal effort and by inspiring countless other people to take action;

“(E) for these and many other accomplishments, the President awarded Mrs. Douglas the Medal of Freedom on Earth Day, 1994; and

“(2)(A) Ernest F. Coe (1886-1951) was a leader in the creation of Everglades National Park;

“(B) Mr. Coe organized the Tropic Everglades National Park Association in 1928 and was widely regarded as the father of Everglades National Park;

“(C) as a landscape architect, Mr. Coe’s vision for the park recognized the need to protect south Florida’s diverse wildlife and habitats for future generations;

“(D) Mr. Coe’s original park proposal included lands and waters subsequently protected within the Everglades National Park, the Big Cypress National Preserve, and the Florida Keys National Marine Sanctuary; and

“(E)(i) Mr. Coe’s leadership, selfless devotion, and commitment to achieving his vision culminated in the authorization of the Everglades National Park by Congress in 1934;

“(ii) after authorization of the park, Mr. Coe fought tirelessly and lobbied strenuously for establishment of the park, finally realizing his dream in 1947; and

“(iii) Mr. Coe accomplished much of the work described in this paragraph at his own expense, which dramatically demonstrated his commitment to establishment of Everglades National Park.

“(b) PURPOSE.—It is the purpose of this Act [see Short Title of 1997 Amendment note set out under section 410r-5 of this title] to commemorate the vision, leadership, and enduring contributions of Marjory Stoneman Douglas and Ernest F. Coe to the protection of the Everglades and the establishment of Everglades National Park.”

§ 410r-8. Modification of certain water projects

(a) Improved water deliveries

(1) Upon completion of a final report by the Chief of the Army Corps of Engineers, the Secretary of the Army, in consultation with the Secretary, is authorized and directed to construct modifications to the Central and Southern Florida Project to improve water deliveries into the park and shall, to the extent practicable, take steps to restore the natural hydrological conditions within the park.

(2) Such modifications shall be based upon the findings of the Secretary’s experimental program authorized in section 1302 of the 1984 Supplemental Appropriations Act (97 Stat. 1292) and generally as set forth in a General Design Memorandum to be prepared by the Jacksonville District entitled “Modified Water Deliveries to Everglades National Park”. The Draft of such Memorandum and the Final Memorandum, as prepared by the Jacksonville District, shall be submitted as promptly as practicable to the Committee on Energy and Natural Resources and the Committee on Environment and Public Works of the United States Senate and the Committee on Natural Resources and the Committee on Public Works and Transportation of the United States House of Representatives.

(3) Construction of project modifications authorized in this subsection and flood protection systems authorized in subsections (c) and (d) of this section are justified by the environmental benefits to be derived by the Everglades ecosystem in general and by the park in particular and shall not require further economic justification.

(4) Nothing in this section shall be construed to limit the operation of project facilities to achieve their design objectives, as set forth in the Congressional authorization and any modifications thereof.

(b) Determination of adverse effect

(1) Upon completion of the Final Memorandum referred to in subsection (a) of this section, the Secretary of the Army, in consultation with the South Florida Water Management District, shall make a determination as to whether the residential area within the East Everglades known as the “Eight and One-Half Square Mile Area” or adjacent agricultural areas, all as generally depicted on the map referred to in section 410r-6(a) of this title, will be adversely affected by project modifications authorized in subsection (a) of this section.

(2) In determining whether adjacent agricultural areas will be adversely affected, the Secretary of the Army shall consider the impact of any flood protection system proposed to be implemented pursuant to subsection (c) of this section on such agricultural areas.

(c) Flood protection; Eight and One-Half Square Mile Area

If the Secretary of the Army makes a determination pursuant to subsection (b) of this section that the "Eight and One-Half Square Mile Area" will be adversely affected, the Secretary of the Army is authorized and directed to construct a flood protection system for that portion of presently developed land within such area.

(d) Flood protection; adjacent agricultural area

(1) If the Secretary of the Army determines pursuant to subsection (b) of this section that an adjacent agricultural area will be adversely affected, the Secretary of the Army is authorized and directed to construct a flood protection system for such area. Such determination shall be based on a finding by the Secretary of the Army that:

(A) the adverse effect will be attributable solely to a project modification authorized in subsection (a) of this section or to a flood protection system implemented pursuant to subsection (c) of this section, or both; and

(B) such modification or flood protection system will result in a substantial reduction in the economic utility of such area based on its present agricultural use.

(2) No project modification authorized in subsection (a) of this section which the Secretary of the Army determines will cause an adverse effect pursuant to subsection (b) of this section shall be made operational until the Secretary of the Army has implemented measures to prevent such adverse effect on the adjacent agricultural area: *Provided*, That the Secretary of the Army or the South Florida Water Management District may operate the modification to the extent that the Secretary of the Army determines that such operation will not adversely affect the adjacent agricultural area: *Provided further*, That any preventive measure shall be implemented in a manner that presents the least prospect of harm to the natural resources of the park.

(3) Any flood protection system implemented by the Secretary of the Army pursuant to this subsection shall be required only to provide for flood protection for present agricultural uses within such adjacent agricultural area.

(4) The acquisition of land authorized in section 410r-6 of this title shall not be considered a project modification.

(e) Periodic review

(1) Not later than 18 months after the completion of the project modifications authorized in subsection (a) of this section, and periodically thereafter, the Secretary of the Army shall review the determination of adverse effect for adjacent agricultural areas.

(2) In conducting such review, the Secretary of the Army shall consult with all affected parties, including, but not limited to, the Secretary, the South Florida Water Management District and agricultural users within adjacent agricultural areas.

(3) If, on the basis of such review, the Secretary of the Army determines that an adjacent agricultural area has been, or will be adversely affected, the Secretary of the Army is authorized and directed, in accordance with the provi-

sions of subsection (d) of this section, to construct a flood protection system for such area: *Provided*, That the provisions of subsection (d)(2) of this section shall be applicable only to the extent that the Secretary, in consultation with the Secretary of the Army, determines that the park will not be adversely affected.

(4) The provisions of this subsection shall only be applicable if the Secretary of the Army has previously made a determination that such adjacent agricultural area will not be adversely affected.

(f) Current canal operating levels

Nothing in this section shall be construed to require or prohibit the Secretary of the Army or the South Florida Water Management District from maintaining the water level within any project canal below the maximum authorized operating level as of December 13, 1989.

(g) No limitation on other claims

If the Secretary of the Army makes a determination of no adverse effect pursuant to subsection (b) of this section, such determination shall not be considered as a limitation or prohibition against any available legal remedy which may otherwise be available.

(h) Coordination

The Secretary and the Secretary of the Army shall coordinate the construction program authorized under this section and the land acquisition program authorized in section 410r-6 of this title in such a manner as will permit both to proceed concurrently and as will avoid unreasonable interference with property interests prior to the acquisition of such interests by the Secretary under section 410r-6 of this title.

(i) West Dade Wellfield

No Federal license, permit, approval, right-of-way or assistance shall be granted or issued with respect to the West Dade Wellfield (to be located in the Bird Drive Drainage Basin, as identified in the Comprehensive Development Master Plan for Dade County, Florida) until the Secretary, the Governor of the State of Florida, the South Florida Water Management District and Dade County, Florida enter into an agreement providing that the South Florida Water Management District's water use permit for the wellfield, if granted, must include the following limiting conditions: (1) the wellfield's peak pumpage rate shall not exceed 140,000,000 gallons per day; (2) the permit shall include reasonable, enforceable measures to limit demand on the wellfield in times of water shortage; and (3) if, during times of water shortage, the District fails to limit demand on the wellfield pursuant to (2), or if the District limits demand on the wellfield pursuant to (2), but the Secretary certifies that operation of the wellfield is still causing significant adverse impacts on the resources of the Park, the Governor shall require the South Florida Water Management District to take necessary actions to alleviate the adverse impact, including, but not limited to, temporary reductions in the pumpage from the wellfield.

(j) Protection of natural values

The Secretary of the Army is directed in analysis, design and engineering associated with

the development of a general design memorandum for works and operations in the “C-111 basin” area of the East Everglades, to take all measures which are feasible and consistent with the purposes of the project to protect natural values associated with Everglades National Park. Upon completion of a general design memorandum for the area, the Secretary shall prepare and transmit a report to the Committee on Energy and Natural Resources and the Committee on Environment and Public Works of the United States Senate and the Committee on Natural Resources and the Committee on Public Works and Transportation of the United States House of Representatives on the status of the natural resources of the C-111 basin and functionally related lands.

(k) Acquisition of additional lands

(1) Notwithstanding any other provision of sections 410r-5 to 410r-8 of this title, the Secretary is authorized to use funds appropriated pursuant to sections 410r-5 to 410r-8 of this title, including any available funds appropriated to the National Park Service for construction in the Department of the Interior and Related Agencies Appropriations Acts for fiscal years 1991 through 1994 for project modifications by the Army Corps of Engineers, in such amounts as determined by the Secretary, to provide Federal assistance to the State of Florida (including political subdivisions of the State) for acquisition of lands described in paragraph (4).

(2) With respect to any lands acquired pursuant to this subsection, the Secretary may provide not more than 25 percent of the total cost of such acquisition.

(3) All funds made available pursuant to this subsection shall be transferred to the State of Florida or a political subdivision of the State, subject to an agreement that any lands acquired with such funds will be managed in perpetuity for the restoration of natural flows to the park or Florida Bay.

(4) The lands referred to in paragraph (1) are those lands or interests therein adjacent to, or affecting the restoration of natural water flows to, the park or Florida Bay which are located east of the park and known as the Frog Pond, Rocky Glades Agricultural Area, and the Eight-and-One-Half Square-Mile Area.

After advising the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives, in writing, the Secretary may revise the boundaries of the park from time to time, by publication of a revised map or other boundary description in the Federal Register, but the total area of the park may not exceed thirteen thousand three hundred acres.

The Secretary is authorized to grant to the State of Alaska a highway right-of-way across lands in the Chilkoot Trail unit, in the area of Dyea, for the purpose of linking the communities of Haines and Skagway by road if he finds that (1) there is no feasible and prudent alternative to the use of such lands, (2) the road proposal includes all possible planning to minimize harm to the park resulting from such road use, and (3) to grant such right-of-way will not have significant adverse effects on the historical and archeological resources of the park and its administration, protection, and management in accordance with the purposes of this subchapter.

PROC. NO. 7114. DESIGNATING KLONDIKE GOLD RUSH INTERNATIONAL HISTORICAL PARK

Proc. No. 7114, Aug. 5, 1998, 63 F.R. 42563, provided:

A century ago, the Klondike Gold Rush began a migration that forever changed Alaska and the Yukon Territory. More than 100,000 people headed north during 1897 and 1898, catapulting a little-known region from obscurity to the center of the world stage. While the Klondike was not the first or largest western gold rush, coming nearly 50 years after the 1848 gold discovery at Sutter's Mill, California, it is remembered for the sheer drama by which it was announced to the world and for its century-long influence on Alaska and the upper Yukon River basin.

The United States and Canada have been engaged for 30 years in joint planning and cooperation to commemorate the Klondike Gold Rush and preserve historic structures and trails on both sides of the international boundary. In 1976, the Government of the United States established Klondike Gold Rush National Historical Park, consisting of a Seattle unit, a Skagway unit, a Chilkoot Pass unit, and a White Pass unit, to preserve the historic structures and trails. The Government of Canada has recognized the national significance of the Chilkoot Trail and Dawson Historical Complex by designating them as National Historic Sites. It has also designated a section of the Yukon River as a Canadian Heritage River and taken other steps to commemorate the rich history of this region.

It is the desire of the United States to join our Canadian neighbors in celebrating our shared history on the occasion of the centennial of the Klondike Gold Rush and to reaffirm the commitment of the United States to continuing the joint efforts of both nations to preserve our shared Klondike history.

In 1996, Canadian Prime Minister Jean Chretien proclaimed that, “the governments of Canada and the United States and of Yukon and Alaska in a long-standing spirit of cooperation have agreed to establish the Klondike Gold Rush International Historic Park, incorporating the resources of the Chilkoot Trail National Historic Site in British Columbia and the Klondike Gold Rush National Historical Park in Alaska . . .”

Section 3(a) of U.S. Public Law 94-323 [16 U.S.C. 410bb-2(a)] states, “At such time . . . that planning, development, and protection of the adjacent or related historic and scenic resources in Canada have been accomplished by the Government of Canada in a manner consistent with the purposes for which the park was established, and upon enactment of a provision similar to this section by the proper authority of the Canadian Government, the President is authorized to issue a proclamation designating and including the park as a part of an international historical park to be known as Klondike Gold Rush International Historical Park.”

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, by virtue of the authority vested in me by section 3(a) of Public Law 94-323 [16 U.S.C. 410bb-2(a)] of June 30, 1976, do proclaim that Klondike Gold Rush National Historical Park is designated and included as part of an international historical park to be known as Klondike Gold Rush International Historical Park.

IN WITNESS WHEREOF, I have hereunto set my hand this fifth day of August, in the year of our Lord nineteen hundred and ninety-eight, and of the Independence of the United States of America the two hundred and twenty-third.

WILLIAM J. CLINTON.

§ 410bb-3. Authorization of appropriations

There are hereby authorized to be appropriated such sums as may be necessary to carry

out the purposes of this subchapter, but not more than \$2,655,000 for the acquisition of lands and interests in lands, and not more than \$5,885,000 for development.

(Pub. L. 94-323, § 4, June 30, 1976, 90 Stat. 719.)

Notwithstanding any other provision of law, Federal property located within the boundaries of the park shall with the concurrence of the head of the agency having custody thereof, be transferred to the administrative jurisdiction of the Secretary for the purposes of the park: *Provided*, That the Secretary shall permit the use of federally owned park lands and waters which (i) have been transferred from another Federal agency pursuant to this section or which (ii) were the subject of a lease or permit issued by a Federal agency as of March 5, 1980, for essential national security missions and for navigational aids, subject to such terms and conditions as the Secretary deems necessary to protect park resources.

(b) Lands owned, or under option to, National Park Foundation, The Nature Conservancy, or similar organizations

Notwithstanding the acquisition authority contained in subsection (a) of this section, any lands, waters, or interests therein, which are owned wholly or in part, by or which hereafter may be owned by, or under option to, the National Park Foundation, The Nature Conservancy (including any lands, waters, or interests therein which are designated as “Nature Conservancy Lands” on the map referred to in section 410ff of this title) or any similar national, non-profit conservation organization, or an affiliate or subsidiary thereof shall be acquired only with the consent of the owner thereof: *Provided*, That the Secretary may acquire such property in accordance with the provisions of this subchapter if he determines that the property is undergoing or is about to undergo a change in use which is inconsistent with the purposes of this subchapter.

(c) Privately owned lands on Santa Rosa Island

With respect to the privately owned lands on Santa Rosa Island, the Secretary shall acquire

such lands as expeditiously as possible after March 5, 1980. The acquisition of these lands shall take priority over the acquisition of other privately owned lands within the park.

(d) Retention of rights by owners; compatible use under lease

(1) The owner of any private property may, on the date of its acquisition and as a condition of such acquisition, retain for himself a right of use and occupancy of all or such portion of such property as the owner may elect for a definite term of not more than twenty-five years, or ending at the death of the owner, or his spouse, whichever is later. The owner shall elect the term to be reserved. Any such right retained pursuant to this subsection with respect to any property shall be subject to termination by the Secretary upon his determination that such property is being used for any purpose which is incompatible with the administration of the park or with the preservation of the resources therein, and it shall terminate by operation of law upon notification by the Secretary to the holder of the right, of such determination and tendering to him the amount equal to the fair market value of that portion which remains unexpired.

(2) In the case of any property acquired by the Secretary pursuant to this subchapter with respect to which a right of use and occupancy was not reserved by the former owner pursuant to this subsection, at the request of the former owner, the Secretary may enter into a lease agreement with the former owner under which the former owner may continue any existing use of such property which is compatible with the administration of the park and with the preservation of the resources therein.

(3) Any right retained pursuant to this subsection, and any lease entered into under paragraph (2), shall be subject to such access and other provisions as may be required by the Secretary for visitor use and resources management.

(e) Acquisition of certain property on Santa Cruz Island

(1) Notwithstanding any other provision of law, effective 90 days after November 12, 1996, all right, title, and interest in and to, and the right to immediate possession of, the real property on the eastern end of Santa Cruz Island which is known as the Gherini Ranch is hereby vested in the United States, except for the reserved rights of use and occupancy set forth in Instrument No. 90-027494 recorded in the Official Records of the County of Santa Barbara, California.

(2) The United States shall pay just compensation to the owners of any real property taken pursuant to this subsection, determined as of the date of taking. The full faith and credit of the United States is hereby pledged to the payment of any judgment entered against the United States with respect to the taking of such property. Payment shall be in the amount of the agreed negotiated value of such real property plus interest or the valuation of such real property awarded by judgment plus interest. Interest shall accrue from the date of taking to the date of payment. Interest shall be compounded quarterly and computed at the rate applicable for

the period involved, as determined by the Secretary of the Treasury on the basis of the current average market yield on outstanding marketable obligations of the United States of comparable maturities from November 12, 1996, to the last day of the month preceding the date on which payment is made.

(3) In the absence of a negotiated settlement, or an action by the owner, within 1 year after November 12, 1996, the Secretary shall initiate a proceeding, seeking in a court of competent jurisdiction a determination of just compensation with respect to the taking of such property.

The Secretary shall permit the continuation of customary patterns and modes of travel during periods of adequate snow cover within a one-hundred-foot right-of-way along either side of an existing route from Deering to the Taylor Highway, subject to such reasonable regulations as the Secretary may promulgate to assure that such travel is consistent with the foregoing purposes.

The park and preserve shall be managed for the following purposes, among others: To maintain the wild and undeveloped character of the area, including opportunities for visitors to experience solitude, and the natural environmental integrity and scenic beauty of the mountains, forelands, rivers, lakes, and

other natural features; to provide continued opportunities, including reasonable access, for mountain climbing, mountaineering, and other wilderness recreational activities; and to protect habitat for and the populations of, fish and wildlife, including, but not limited to, caribou, grizzly bears, Dall sheep, moose, wolves, and raptorial birds. Subsistence uses by local residents shall be permitted in the park, where such uses are traditional, in accordance with the provisions of subchapter II of chapter 51 of this title.

(d) The Secretary and the Secretary of Transportation shall jointly prepare an environmental and economic analysis solely for the purpose of determining the most desirable route for the right-of-way and terms and conditions which may be required for the issuance of that right-of-way. This analysis shall be completed within one year and the draft thereof within nine months of the receipt of the application and shall be prepared in lieu of an environmental impact statement which would otherwise be required under section 102(2)(C) of the National Environmental Policy Act [42 U.S.C. 4332(2)(C)]. Such analysis shall be deemed to satisfy all requirements of that Act [42 U.S.C. 4321 et seq.] and shall not be subject to judicial review. Such environmental and economic analysis shall be prepared in accordance with the procedural requirements of section 3164(e) of this title. The Secretaries in preparing the analysis shall consider the following—

ANAKTUVUK PASS LAND EXCHANGE

Section 302 of title III of div. I of Pub. L. 104-333 provided that:

“(a) FINDINGS.—The Congress makes the following findings:

“(1) The Alaska National Interest Lands Conservation Act (94 Stat. 2371 [Pub. L. 96-487, see Short Title note set out under section 3101 of this title]), enacted on December 2, 1980, established Gates of the Arctic National Park and Preserve and Gates of the Arctic Wilderness. The Village of Anaktuvuk Pass, located in the highlands of the central Brooks Range is virtually surrounded by these national park and wilderness lands and is the only Native village located within the boundary of a National Park System unit in Alaska.

“(2) Unlike most other Alaskan Native communities, the village [sic] of Anaktuvuk Pass is not located on a major river, lake, or coastline that can be used as a means of access. The residents of Anaktuvuk pass [sic] have relied increasingly on snow machines in winter and all-terrain vehicles in summer as their primary means of access to pursue caribou and other subsistence resources.

“(3) In a 1983 land exchange agreement, linear easements were reserved by the Inupiat Eskimo people for use of all-terrain vehicles across certain national park lands, mostly along stream and river banks. These linear easements proved unsatisfactory, because they provided inadequate access to subsistence resources while causing excessive environmental impact from concentrated use.

“(4) The National Park Service and the Nunamiut Corporation initiated discussions in 1985 to address concerns over the use of all-terrain vehicles on park and wilderness land. These discussions resulted in an agreement, originally executed in 1992 and thereafter amended in 1993 and 1994, among the National Park Service, Nunamiut Corporation, the City of Anaktuvuk Pass, and Arctic Slope Regional Corporation. Full effectuation of this agreement, as amended, by its terms requires ratification by the Congress.

“(b) RATIFICATION OF AGREEMENT.—

“(1) RATIFICATION.—

“(A) IN GENERAL.—The terms, conditions, procedures, covenants, reservations, and other provisions set forth in the document entitled ‘Donation, Exchange of Lands and Interests in Lands and Wilderness Redesignation Agreement Among Arctic Slope Regional Corporation, Nunamiut Corporation, City of Anaktuvuk Pass and the United States of America’ (hereinafter referred to in this section as ‘the Agreement’), executed by the parties on December 17, 1992, as amended, are hereby incorporated in this title [see Tables for classification], are ratified and confirmed, and set forth the obligations and commitments of the United States, Arctic Slope Regional Corporation, Nunamiut Corporation and the City of Anaktuvuk Pass, as a matter of Federal law.

“(B) LAND ACQUISITION.—Lands acquired by the United States pursuant to the Agreement shall be administered by the Secretary of the Interior (hereinafter referred to as the ‘Secretary’) as part of Gates of the Arctic National Park and Preserve, subject to the laws and regulations applicable thereto.

“(2) MAPS.—The maps set forth as Exhibits C1, C2, and D through I to the Agreement depict the lands subject to the conveyances, retention of surface access rights, access easements and all-terrain vehicle easements. These lands are depicted in greater detail on a map entitled ‘Land Exchange Actions, Proposed Anaktuvuk Pass Land Exchange and Wilderness Re-designation, Gates of the Arctic National Park and Preserve’, Map No. 185/80,039, dated April 1994, and on file at the Alaska Regional Office of the National Park Service and the offices of Gates of the Arctic National Park and Preserve in Fairbanks, Alaska. Written legal descriptions of these lands shall be prepared and made available in the above offices. In case of any discrepancies, Map No. 185/80,039 shall be controlling.

“(c) NATIONAL PARK SYSTEM WILDERNESS.—

“(1) GATES OF THE ARTIC WILDERNESS.—[Amended provisions listed in a Table of Wilderness Areas set out under section 1132 of this title.]

“(2) NOATAK NATIONAL PRESERVE.—[Amended this section.]

“(3) NOATAK WILDERNESS.—[Amended provisions listed in a Table of Wilderness Areas set out under section 1132 of this title.]

“(d) CONFORMANCE WITH OTHER LAW.—

“(1) ALASKA NATIVE CLAIMS SETTLEMENT ACT.—All of the lands, or interests therein, conveyed to and received by Arctic Slope Regional Corporation or Nunamiut Corporation pursuant to the Agreement shall be deemed conveyed and received pursuant to exchanges under section 22(f) of the Alaska Native Claims Settlement Act, as amended (43 U.S.C. 1601, 1621(f)). All of the lands or interests in lands conveyed pursuant to the Agreement shall be conveyed subject to valid existing rights.

“(2) ALASKA NATIONAL INTEREST LANDS CONSERVATION ACT.—Except to the extent specifically set forth in this section or the Agreement, nothing in this section or in the Agreement shall be construed to enlarge or diminish the rights, privileges, or obligations of any person, including specifically the preference for subsistence uses and access to subsistence resources provided under the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101 et seq.).”

§ 410hh-1. Additions to existing areas

The following units of the National Park System are hereby expanded:

(1) Glacier Bay National Monument, by the addition of an area containing approximately five hundred and twenty-three thousand acres of Federal Land. Approximately fifty-seven thousand acres of additional public land is hereby established as Glacier Bay National Preserve, both as generally depicted on map numbered GLBA-90,004, and dated October 1978; furthermore, the monument is hereby redesignated as “Glacier Bay National Park”. The monument addition and preserve shall be managed for the following purposes, among others: To protect a segment of the Alsek River, fish and wildlife habitats and migration routes, and a portion of the Fairweather Range including the northwest slope of Mount Fairweather. Lands, waters, and interests therein within the boundary of the park and preserve which were within the boundary of any national forest are hereby excluded from such national forest and the boundary of such national forest is hereby revised accordingly.

(2) Katmai National Monument, by the addition of an area containing approximately one million and thirty-seven thousand acres of public land. Approximately three hundred and eight thousand acres of additional public land

is hereby established as Katmai National Preserve, both as generally depicted on map numbered 90,007, and dated July 1980; furthermore, the monument is hereby redesignated as “Katmai National Park”. The monument addition and preserve shall be managed for the following purposes, among others: To protect habitats for, and populations of, fish and wildlife including, but not limited to, high concentrations of brown/grizzly bears and their denning areas; to maintain unimpaired the water habitat for significant salmon populations; and to protect scenic, geological, cultural and recreational features.

(3)(a) Mount McKinley National Park, by the addition of an area containing approximately two million four hundred and twenty-six thousand acres of public land, and approximately one million three hundred and thirty thousand acres of additional public land is hereby established as Denali National Preserve, both as generally depicted on map numbered DENA-90,007, and dated July 1980 and the whole is hereby redesignated as Denali National Park and Preserve. The park additions and preserve shall be managed for the following purposes, among others: To protect and interpret the entire mountain massif, and additional scenic mountain peaks and formations; and to protect habitat for, and populations of fish and wildlife including, but not limited to, brown/grizzly bears, moose, caribou, Dall sheep, wolves, swans and other waterfowl; and to provide continued opportunities, including reasonable access, for mountain climbing, mountaineering and other wilderness recreational activities. Subsistence uses by local residents shall be permitted in the additions to the park where such uses are traditional in accordance with the provisions in subchapter II of chapter 51 of this title.

(b) The Alaska Land Use Council shall, in cooperation with the Secretary, conduct a study of the Kantishna Hills and Dunkle Mine areas of the park as generally depicted on a map entitled “Kantishna Hills/Dunkle Mine Study Area” dated October 1979, and report thereon to the Congress not later than three years from December 2, 1980. The study and report shall evaluate the resources of the area, including but not limited to, fish and wildlife, public recreation opportunities, wilderness potential, historic resources, and minerals, and shall include those recommendations respecting resources and other relevant matters which the Council determines are necessary. In conjunction with the study required by this section, the Council, in consultation with the Secretary, shall compile information relating to the mineral potential of the areas encompassed within the study, the estimated cost of acquiring mining properties, and the environmental consequences of further mineral development.

(c) During the period of the study, no acquisition of privately owned land shall be permitted within the study area, except with the consent of the owner, and the holders of valid mining claims shall be permitted to operate on their claims, subject to reasonable regulations designed to minimize damage to the en-

vironment: *Provided, however,* That such lands or claims shall be subject to acquisition without the consent of the owner or holder if the Secretary determines, after notice and opportunity for hearing, if such notice and hearing are not otherwise required by applicable law or regulation, that activities on such lands or claims will significantly impair important scenic, wildlife, or recreational values of the public lands which are the subject of the study.

(Pub. L. 96-487, title II, §202, Dec. 2, 1980, 94 Stat. 2382; Pub. L. 97-468, title VI, §615(b)(5), Jan. 14, 1983, 96 Stat. 2578.)

SUBCHAPTER LIX-G—CHACO CULTURE NATIONAL HISTORICAL PARK

§ 410ii. Findings and purpose

(a) The Congress finds that—

(1) archeological research in the San Juan Basin conducted over the past several years has greatly increased public knowledge of the scope of the prehistoric culture referred to as Chacoan Anasazi;

(2) the discoveries and the increased general interest in the Chaco phenomenon have come at a time when the San Juan Basin is experiencing extensive exploration and development for a wide variety of energy-related resources, including coal, uranium, oil, and natural gas;

(3) development of the San Juan Basin's important natural resources and the valid existing rights of private property owners will not be adversely affected by the preservation of the archeological integrity of the area; and

(4) in light of the national significance of the Chacoan sites and the urgent need to protect them, continued cooperation between Federal agencies and private corporations is necessary to provide for development in the San Juan Basin in a manner compatible with preservation and archeological research.

(b) It is the purpose of this subchapter to recognize the unique archeological resources associated with the prehistoric Chacoan culture in the San Juan Basin and surrounding areas; to provide for the preservation and interpretation of these resources; and to facilitate research activities associated with these resources.

SHORT TITLE

Section 1 of Pub. L. 100-567 provided that Pub. L. 100-567, which enacted this subchapter and amended section 460uu-12 of this title, could be cited as the “Zuni-Cibola National Historical Park Establishment Act of 1988”.

SUBCHAPTER LIX-O—NATIONAL PARK OF AMERICAN SAMOA

§ 410qq. Findings and purpose

(a) Findings

The Congress finds that:

- (1) Tropical forests are declining worldwide.
- (2) Tropical forests contain 50 percent of the world’s plant and animal species, contribute significantly to the advancement of science, medicine, and agriculture and produce much of the earth’s oxygen. The loss of these forests leads to the extinction of species, lessening the world’s biological diversity, reduces the potential for new medicines and crops and increases carbon dioxide levels in the atmosphere¹ contributing to the greenhouse effect that is altering the global climate.
- (3) The tropical forest of American Samoa is one of the last remaining undisturbed paleotropical forests.
- (4) The tropical forest in American Samoa is the largest such forest under direct control of the United States.
- (5) The tropical forest of American Samoa contains the habitat of one of the last remaining populations of Pacific flying foxes.
- (6) The flying foxes of American Samoa are responsible for a large part of the pollination which maintains a significant portion of the species which inhabit the Samoan tropical forest.
- (7) Information presently available indicates the existence of extensive archaeological evidence related to the development of the Samoan culture which needs to be examined and protected.
- (8) The people of American Samoa have expressed a desire to have a portion of the tropical forest protected as a unit of the National Park System.

(b) Purpose

The purpose of this subchapter is to preserve and protect the tropical forest and archaeologi-

cal and cultural resources of American Samoa, and of associated reefs, to maintain the habitat of flying foxes, preserve the ecological balance of the Samoan tropical forest, and, consistent with the preservation of these resources, to provide for the enjoyment of the unique resources of the Samoan tropical forest by visitors from around the world.

§ 410qq-1. Establishment

(a) In general

In order to carry out the purposes expressed in section 410qq(b) of this title, the Secretary of the Interior (hereinafter in this subchapter referred to as the “Secretary”) shall establish the National Park of American Samoa (hereinafter in this subchapter referred to as the “park”). The Secretary shall establish the park only when the Governor of American Samoa has entered into a lease with the Secretary under which the Secretary will lease for a period of 50 years the lands and waters generally referred to in subsection (b) of this section for use solely for purposes of the park. Immediately after October 31, 1988, the Secretary shall commence negotiations with the Governor of American Samoa respecting such a lease agreement. On or before the expiration of the lease agreement as set forth in this subsection, the Governor of American Samoa is encouraged to extend the lease to maintain the area as a unit of the National Park System. At such time as the lease may terminate the Government of American Samoa is urged to provide assurances to the Secretary that the lands and waters generally referred to in subsection (b) of this section will be protected and preserved to the same standards as are applicable to national parks.

(b) Area included

(1) The park shall consist of three units as generally depicted on the following maps entitled “Boundary Map, National Park of American Samoa”: (A) map number NP-AS 80,000A, dated August 1988, (B) map number NP-AS 80,000B, dated August 1988, and (C) map number NP-AS 80,000C, dated August 1988. Before publication of the maps, the Secretary, after consultation with the Governor of American Samoa and other appropriate leaders, may adjust the boundaries of the park to correspond with the appropriate village boundaries and modify the maps accordingly. The maps shall be on file and available for public inspection in the offices of the National Park Service, Department of the Interior. The Secretary may at any time make revisions of the boundary of the park in accordance with section 460l-9(c) of this title, pursuant to agreement with the Governor of American Samoa, and contingent upon the lease to the Secretary of lands within the new boundaries.

(2) The Secretary may make adjustments to the boundary of the park to include within the park certain portions of the islands of Ofu and Olosega, as depicted on the map entitled “National Park of American Samoa, Proposed Boundary Adjustment”, numbered 82,035 and dated February 2002, pursuant to an agreement with the Governor of American Samoa and con-

Notwithstanding section 410qq-2(a) of this title, after 50 years after October 31, 1988, the Secretary shall, if requested by the Governor of American Samoa, enter into an extension of the lease referred to in subsection (a) of this section. If the Governor does not request such an extension the Secretary shall transfer to the Governor the sole authority to administer the park. Whenever the Secretary makes such a transfer he shall also transfer any improvements constructed by the Secretary in the park to the Governor without compensation.
