§ 469l. Findings and purposes

(a) Findings

The Congress finds the following:

(1) The Underground Railroad, which flourished from the end of the 18th century to the end of the Civil War, was one of the most significant expressions of the American civil rights movement during its evolution over more than three centuries.

(2) The Underground Railroad bridged the divides of race, religion, sectional differences, and nationality; spanned State lines and international borders; and joined the American ideals of liberty and freedom expressed in the Declaration of Independence and the Constitution to the extraordinary actions of ordinary men and women working in common purpose to free a people.

(3) Pursuant to title VI of Public Law 101–628 (16 U.S.C. 1a–5 note; 104 Stat. 4495), the Underground Railroad Advisory Committee conducted a study of the appropriate means of establishing an enduring national commemorative Underground Railroad program of education, example, reflection, and reconciliation.

(4) The Underground Railroad Advisory Committee found that—

(A) although a few elements of the Underground Railroad story are represented in existing National Park Service units and other sites, many sites are in imminent danger of being lost or destroyed, and many important resource types are not adequately represented and protected;

(B) there are many important sites which have high potential for preservation and visitor use in 29 States, the District of Columbia, and the Virgin Islands;

(C) no single site or route completely reflects and characterizes the Underground Railroad, since its story and associated resources involve networks and regions of the country rather than individual sites and trails; and

(D) establishment of a variety of partnerships between the Federal Government and other levels of government and the private sector would be most appropriate for the protection and interpretation of the Underground Railroad.

(5) The National Park Service can play a vital role in facilitating the national commemoration of the Underground Railroad.

(6) The story and significance of the Underground Railroad can best engage the American people through a national program of the National Park Service that links historic buildings, structures, and sites; routes, geographic areas, and corridors; interpretive centers, museums, and institutions; and programs, activities, community projects, exhibits, and multimedia materials, in a manner that is both unified and flexible.

(b) Purposes

The purposes of sections 469l to 469l–2 of this title are the following:

(1) To recognize the importance of the Underground Railroad, the sacrifices made by those who used the Underground Railroad in search of freedom from tyranny and oppression, and the sacrifices made by the people who helped them.

(2) To authorize the National Park Service to coordinate and facilitate Federal and non-Federal activities to commemorate, honor, and interpret the history of the Underground Railroad, its significance as a crucial element in the evolution of the national civil rights movement, and its relevance in fostering the spirit of racial harmony and national reconciliation.

§ 469l–1. National Underground Railroad Network to Freedom program

(a) In general

The Secretary of the Interior (in sections 469l to 469l–3 of this title referred to as the “Secretary”) shall establish in the National Park Service a program to be known as the “National Underground Railroad Network to Freedom” (in sections 469l to 469l–3 of this title referred to as the “national network”). Under the program, the Secretary shall—

In such action, the validity and amount of such penalty shall not be subject to review.

(3) a primary responsibility for protecting and enhancing these benefits resides with the State of New Jersey and the various local units of government having jurisdiction over the area;

Any jurisdiction that implements changes to the approved management plan, or adopts or acquiesces in changes to laws, regulations, or policies adopted to implement such plan, without approval of the Secretary, may be liable for reimbursement or offset of all Federal funds previously granted to it under this section without regard to such additional terms and conditions of law that may be applicable to such grants.

(h) Grants for State acquisition of property; Secretary's acquisition and administration of property; conveyance by Secretary, terms and conditions; State reimbursement; grant authorization and applications; limitation

(1)(A) During the development of the management plan, the Secretary is authorized to make grants to the State of New Jersey for the acquisition of lands and waters or interests therein within the Pinelands National Reserve that he determines, in consultation with the State planning entity, have critical ecological values which are in immediate danger of being adversely affected or destroyed.

(B) The grants authorized by subsection (h)(1)(A) of this section together with the grants made under paragraph (4) of this subsection, shall (i) be made in a manner consistent with the requirements of the Land and Water Conservation Fund Act [16 U.S.C. 460–4 et seq.]; (ii) not exceed 75 percent of the total cost of all property acquired by the State pursuant to this subsection; (iii) be supplemental to any other Federal financial assistance for any other program; and (iv) be subject to such additional terms and conditions as the Secretary may deem necessary to effectuate the purposes of this section.

(2) In the event the State elects not to make acquisitions as authorized under subsection (h)(1) of this section, the Secretary, during the development of the management plan, is authorized to acquire such lands, waters or interests therein by donation, purchase with donated or appropriated funds, exchange, or otherwise, and to administer such property under the laws generally applicable to units of the National Park System or National Wildlife Refuge System in a manner to carry out the purposes of this section.

(3) After his approval of the management plan, the Secretary (A) is authorized to convey property acquired pursuant to subsection (h)(2) of this section to State or local authorities in accordance with the management plan, under such terms and conditions as he may deem appropriate, which shall include (i) a requirement that where the Secretary transfers land acquired with appropriated funds, the State or local government shall repay not less than 25 percent of the cost of such lands to the Secretary under such terms and conditions as he may deem appropriate, and (ii) a retention of a right of reversion of title to the United States, and (B) shall accept from the State those lands acquired pursuant to subsection (h)(1) of this section, which are identified in the management plan as being appropriate for Federal ownership and management: Provided, That the Secretary shall reimburse to the State such sums as are necessary to (i) cover 100 percent of the original cost of acquisition as to each parcel of land so
transferred and (ii) assure that as to the remainder of lands acquired pursuant to subsection (h)(1) of this section not transferred under this subsection, the total Federal land acquisition cost does not exceed 75 percent of the purchase price of such lands.

(4) Upon approval of the management plan, the Secretary is authorized to make grants for the acquisition within the Pinelands National Reserve of lands and waters or interests therein in a manner consistent with the management plan. All applications for such grants shall be made within ten years from the date of implementation of the management plan.

(i) Applications for Federal construction assistance; review by planning entity; notifications; commencement of review process

During the development of the management plan for the Pinelands National Reserve, all applications for Federal assistance under programs covered by Part I of OMB Circular A–95 and direct Federal actions covered by Part II of OMB Circular A–95 within the Federal Project Review Area generally depicted on the map referred to in subsection (c) of this section which involve the construction of housing, industrial parks, highways, or sewage or water treatment facilities shall be reviewed by the planning entity, upon receipt from the New Jersey State A–95 Clearinghouse (hereinafter referred to as the Clearinghouse). If the planning entity finds that such application or proposed action would have no adverse impact on the resources and ecological values of the Federal Project Review Area, the planning entity shall so notify the Clearinghouse. If the planning entity does not so find, Congress authorizes the planning entity to notify the Clearinghouse and other affected parties that such application or proposed action shall not proceed pending further review, and the planning entity shall forward such application or notice of proposed action to the Secretary. Any such application or proposed action which the Secretary determines would be significantly adverse to the purposes of this section shall not proceed while the management plan is being developed. The review process established under this subsection shall begin upon the appropriation of funds under subsection (k) of this section.

(j) Federal action pursuant to Federal court or agency orders related to public health or safety, national security or defense, or environmental values unaffected

Nothing in this section shall be construed to limit or prohibit any Federal action ordered by a court of competent jurisdiction or directed by a Federal agency as essential for the protection of public health or safety, for national security or defense, or for the maintenance of environmental values within the Pinelands National Reserve or the Federal Project Review Area.

(k) Authorization of appropriations; sources for appropriations; acquisitions consistent with management plan

Not to exceed $3 million shall be available for planning: Provided, That any funds not used for planning shall be available for land acquisition: Provided further, That $23,000,000 shall be made available for land acquisition, as authorized by this section. Such appropriations may be made from the general fund of the Treasury or from revenues due and payable to the United States under the Outer Continental Shelf Lands Act, as amended [43 U.S.C. 1331 et seq.], which would otherwise be credited to miscellaneous receipts.

(2) In addition to other funds authorized pursuant to this subsection, there are hereby authorized to be appropriated not to exceed $14,500,000 for land acquisition, the Federal share of which may not exceed 50 percent of the total cost. Land acquisition pursuant to this subsection shall be carried out in accordance with the requirements of subsection (h) of this section insofar as such requirements are not inconsistent with this paragraph. Such acquisitions shall also be carried out in a manner consistent with the management plan and shall include—

(A) lands located within the preservation area of the National Reserve which is designated in the management plan;

(B) lands that are within the areas protected by the management plan and that are threatened by adverse development or have critical ecological values; or

(C) lands that have limited practical use because of their location in the Reserve and that are held by landowners who both own less than 5 acres in the Reserve and have exhausted existing remedies to secure relief.

Additional funds contributed by the State to the Pinelands Development Bank after enactment of this Act, not to exceed $5,000,000, may be counted as part of the State share of land acquisition funds.

§ 471j HEADWATERS FOREST AND ELK RIVER PROPERTY ACQUISITION

(a) Authorization

Subject to the terms and conditions of this section, up to $250,000,000 from the Land and Water Conservation Fund is authorized to be appropriated for the acquisition of approximately 7,755 acres of Elk River Property, which are located in Humboldt County, California. The property is the subject of the Agreement of September 28, 1996, which consist of approximately 4,500 acres commonly referred to as the “Headwaters Forest”, approximately 1,125 acres referred to as the “Elk Head Forest”, and approximately 9,600 acres referred to as the “Elk River Property”. This section is the sole authorization for the acquisition of such property, which is the subject of the Agreement dated September 28, 1996 between the United States of America (hereinafter the “United States”), the State of California, MAXXAM, Inc., and the Pacific Lumber Company. Of the entire Elk River Property, the United States and the State of California are to retain approximately 1,845 acres and transfer the remaining approximately 7,755 acres of Elk River Property to the Pacific Lumber Company. The property to be acquired and retained by the United States and the State of California is that property that is the subject of the Agreement of September 28, 1996 as generally depicted on maps labeled as sheets 1 through 7 of Township 3 and 4 North, Ranges 1 East and 1 West, of the Humboldt Meridian, California, titled “Dependent Resurvey and Tract Survey”, as approved by Lance J. Bishop, Chief Cadastral Surveyor—California, on August 29, 1997. Such maps shall be on file in the Office of the Chief Cadastral Surveyor, Bureau of Land Management, Sacramento, California. The Secretary of the Interior is authorized to make such typographical and other corrections to this description as are mutually agreed upon by the parties to the Agreement of September 28, 1996. The land retained by the United States and the State of California (approximately 7,470 acres) shall hereafter be the “Headwaters Forest”. Any funds appropriated by the Federal Government to acquire lands or interests in lands that enlarge the Headwaters Forest by more than five acres per each acquisition shall be subject to specific authorization enacted subsequent to this Act, except that such funds may be used pursuant to existing authorities to acquire such lands up to five acres per each acquisition or interests in lands that may be necessary for roadways to provide access to the Headwaters Forest.
(b) Effective period of authorization

The authorization in subsection (a) of this section expires March 1, 1999 and shall become effective only—

(1) when the State of California provides a $130,000,000 contribution for the transaction;
(2) when the State of California approves a Sustained Yield Plan covering Pacific Lumber Company timber property;
(3) when the Pacific Lumber Company dismisses the following legal actions as evidenced by instruments in form and substance satisfactory to each of the parties to such legal actions: Pacific Lumber Co. v. United States, No. 96-257L (Fed. Cls.) and Salmon Creek Corp. v. California Board of Forestry, No. 96-CS-1057 (Cal. Super. Ct.);
(4) when the incidental take permit under section 10(a) of the Endangered Species Act [16 U.S.C. 1539(a)] (based upon a multispecies Habitat Conservation Plan covering Pacific Lumber Company timber property, including applicable portions of the Elk River Property) is issued by the United States Fish and Wildlife Service and the National Marine Fisheries Service;
(5) after an appraisal of all lands and interests therein to be acquired by the United States has been undertaken, such appraisal has been reviewed for a period not to exceed 30 days by the Comptroller General of the United States, and such appraisal has been provided to the Committee on Resources of the House of Representatives, the Committee on Energy and Natural Resources of the Senate, and the Committees on Appropriations of the House and Senate;
(6) after the Secretary of the Interior issues an opinion of value to the Committee on Resources of the House of Representatives, the Committee on Energy and Natural Resources of the Senate, and the Committees on Appropriations of the House and Senate;
(7) after an Environmental Impact Statement for the proposed Habitat Conservation Plan has been prepared and completed in accordance with the applicable provisions of the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.]; and
(8) when adequate provision has been made for public access to the property.

(c) Acquisition

Notwithstanding any other provision of law, the amount paid by the United States to acquire identified lands and interests in lands referred to in subsection (a) of this section may differ from the value contained in the appraisal required by subsection (b)(5) of this section if the Secretary of the Interior certifies, in writing, to Congress that such action is in the best interest of the United States.

(d) Habitat conservation plan

(1) Applicable standards

Within 60 days after November 14, 1997, the Secretary of the Interior and the Secretary of Commerce shall report to the Committee on Energy and Natural Resources of the Senate and the Committee on Resources of the House of Representatives on the scientific and legal standards and criteria for threatened, endangered, and candidate species under the Endangered Species Act [16 U.S.C. 1531 et seq.] and any other species used to develop the habitat conservation plan (hereinafter “HCP”) and the section 10(a) [16 U.S.C. 1539(a)] incidental take permit for the Pacific Lumber Company land.

(2) Report

If the Pacific Lumber Company submits an application for an incidental take permit under section 10(a) of the Endangered Species Act [16 U.S.C. 1539(a)] for the transaction authorized by subsection (a) of this section, and the permit is not issued, then the United States Fish and Wildlife Service and the National Marine Fisheries Service shall set forth the substantive rationale or rationales for why the measures proposed by the applicant for such permit did not meet the issuance criteria for the species at issue. Such report shall be submitted to the Congress within 60 days of the decision not to issue such permit or by May 1, 1999, whichever is earlier.

(3) HCP standards

If a section 10(a) permit for the Pacific Lumber Company HCP is issued, it shall be deemed to be unique to the circumstances associated with the acquisition authorized by this section and shall not establish a higher or lesser standard for any other multispecies HCPs than would otherwise be established under existing law.

(e) Payment to Humboldt County

Within 30 days of the acquisition of the Headwaters Forest, the Secretary of the Interior shall provide a $10,000,000 direct payment to Humboldt County, California.

(f) Payment in lieu of taxes

The Federal portion of the Headwaters Forest acquired pursuant to this section shall be entitlement land under section 6905 of title 31.

(g) Out-year budget limitations

The following funding limitations and parameters shall apply to the Headwaters Forest acquired under subsection (a) of this section—

(1) At least 50 percent of the total funds for management of such lands above the annual level of $100,000 shall (with the exception of law enforcement activities and emergency activities) be from non-Federal sources.
(2) Subject to appropriations, the authorized annual Federal funding for management of such land is $300,000 (with the exception of law enforcement activities and emergency activities).
(3) The Secretary of the Interior or the Headwaters Forest Management Trust referenced in subsection (h) of this section is authorized to accept and use donations of funds and personal property from the State of California, private individuals, and other non-governmental entities for the purpose of management of the Headwaters Forest.

(1) Management authority

The Secretary of the Interior is authorized to vest management authority and responsibility in the Trust composed of a board of five trustees each appointed for terms of three years. Two trustees shall be appointed by the Governor of the State of California. Three trustees shall be appointed by the President of the United States. The first group of trustees shall be appointed within 60 days of exercising the authority under this subsection and the terms of the trustees shall begin on such day. The Secretary of the Interior, the Secretary of Resources of the State of California, and the Chairman of the Humboldt County Board of Supervisors shall be nonvoting, ex officio members of the board of trustees. The Secretary is authorized to make grants to the Trust for the management of the Headwaters Forest from amounts authorized and appropriated.

(2) Operations

(i) Management plan

(1) In general

A concise management plan for the Headwaters Forest shall be developed and periodically amended as necessary by the Secretary of the Interior in consultation with the State of California (and in the case that the authority provided in subsection (h) of this section is exercised, the trustees shall develop and periodically amend the management plan), and shall meet the following requirements:

(A) Management goals for the plan shall be to conserve and study the land, fish, wildlife, and forests occurring on such land while providing public recreation opportunities and other management needs.

(B) Before a management structure and management plan are adopted for such land, the Secretary of the Interior or the board of trustees, as the case may be, shall submit a proposal for the structure and plan to the Committee on Energy and Natural Resources of the Senate and the Committee on Resources of the House of Representatives. The proposed management plan shall not become effective until the passage of 90 days after its submission to the Committees.

(C) The Secretary of the Interior or the board of trustees, as the case may be, shall report annually to the Committee on Energy and Natural Resources of the Senate, the Committee on Resources of the House of Representatives, and the House and Senate Committees on Appropriations concerning the management of lands acquired under the authority of this section and activities undertaken on such lands.

(2) Plan

The management plan shall guide general management of the Headwaters Forest. Such plan shall address the following management issues—

(A) scientific research on forests, fish, wildlife, and other such activities that will be fostered and permitted on the Headwaters Forest;

(B) providing recreation opportunities on the Headwaters Forest;

(C) access to the Headwaters Forest;

(D) construction of minimal necessary facilities within the Headwaters Forest so as to maintain the ecological integrity of the Headwaters Forest;

(E) other management needs; and

(F) an annual budget for the management of the Headwaters Forest, which shall include a projected revenue schedule (such as fees for research and recreation) and projected expenses.

(3) Compliance

The National Environmental Policy Act [42 U.S.C. 4321 et seq.] shall apply to the development and implementation of the management plan.

(j) Cooperative management

(1) The Secretary of the Interior may enter into agreements with the State of California for the cooperative management of any of the following: Headwaters Forest, Redwood National Park, and proximate State lands. The purpose of such agreements is to acquire from and provide to the State of California goods and services to be used by the Secretary and the State of California in cooperative management of lands if the Secretary determines that appropriations for that purpose are available and an agreement is in the best interests of the United States; and

(2) an assignment arranged by the Secretary under section 3372 of title 5 of a Federal or State employee for work in any Federal or State of California lands, or an extension of such assignment, may be for any period of time determined by the Secretary or the State of California, as appropriate, to be mutually beneficial.

§ 472a. Timber sales on National Forest System lands

(a) Authorization; rules and regulations; appraised value as minimum sale price

For the purpose of achieving the policies set forth in the Multiple-Use Sustained-Yield Act of 1960 (74 Stat. 215; 16 U.S.C. 528–531) and the Forest and Rangeland Renewable Resources Planning Act of 1974 (88 Stat. 476) [16 U.S.C. 1600 et seq.], the Secretary of Agriculture, under such rules and regulations as he may prescribe, may sell, at not less than appraised value, trees, portions of trees, or forest products located on National Forest System lands.

(b) Designation on map; prospectus

All advertised timber sales shall be designated on maps, and a prospectus shall be available to the public and interested potential bidders.

(c) Terms and conditions of contract

The length and other terms of the contract shall be designed to promote orderly harvesting consistent with the principles set out in section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974, as amended [16 U.S.C. 1604]. Unless there is a finding by the Secretary of Agriculture that better utilization of the various forest resources (consistent with the provisions of the Multiple-Use Sustained-Yield Act of 1960 [16 U.S.C. 528–531]) will result, sales contracts shall be for a period not to exceed ten years: Provided, That such period may be adjusted at the discretion of the Secretary to provide additional time due to time delays caused by an act of an agent of the United States or by other circumstances beyond the control of the purchaser. The Secretary shall require the purchaser to file as soon as practicable after execution of a contract for any advertised sale with a term of two years or more, a plan of operation, which shall be subject to concurrence by the Secretary. The Secretary shall not extend any contract period with an original term of two years or more unless he finds (A) that the purchaser has diligently performed in accordance with an approved plan of operation or (B) that the substantial overriding public interest justifies the extension.

(d) Advertisement of sales; exceptions

The Secretary of Agriculture shall advertise all sales unless he determines that extraordinary conditions exist, as defined by regulation, or that the appraised value of the sale is less than $10,000. If, upon proper offering, no satisfactory bid is received for a sale, or the bidder fails to complete the purchase, the sale may be offered and sold without further advertisement.

(e) Bidding methods; purposes; oral auction procedures; monitoring and enforcement for prevention of collusive practices

(1) In the sale of trees, portions of trees, or forest products from National Forest System lands (hereinafter referred to in this subsection as "national forest materials"), the Secretary of Agriculture shall select the bidding method or methods which—

(A) insure open and fair competition;
(B) insure that the Federal Government receive not less than the appraised value as required by subsection (a) of this section;
(C) consider the economic stability of communities whose economies are dependent on such national forest materials, or achieve such other objectives as the Secretary deems necessary; and
(D) are consistent with the objectives of this Act and other Federal statutes.

The Secretary shall select or alter the bidding method or methods as he determines necessary
to achieve the objectives stated in clauses (A), (B), (C), and (D) of this paragraph.

(2) In those instances when the Secretary selects oral auction as the bidding method for the sale of any national forest materials, he shall require that all prospective purchasers submit written sealed qualifying bids. Only prospective purchasers whose written sealed qualifying bids are equal to or in excess of the appraised value of such national forest materials may participate in the oral bidding process.

(3) The Secretary shall monitor bidding patterns involved in the sale of national forest materials. If the Secretary has a reasonable belief that collusive bidding practices may be occurring, then—

(A) he shall report any such instances of possible collusive bidding or suspected collusive bidding practices to the Attorney General of the United States with any and all supporting data;
(B) he may alter the bidding methods used within the affected area; and
(C) he shall take such other action as he deems necessary to eliminate such practices within the affected area.

(f) Research and demonstration projects

The Secretary of Agriculture, under such rules and regulations as he may prescribe, is authorized to dispose of, by sale or otherwise, trees, portions of trees, or other forest products related to the construction of needed roads and the development of national forests, for the purpose of accomplishing the purposes of this Act.

(g) Designation, marking, and supervision of harvesting; personnel

Designation, marking when necessary, and supervision of harvesting of trees, portions of trees, or other forest products shall be conducted by persons employed by the Secretary of Agriculture. Such persons shall have no personal interest in the purchase or harvest of such products and shall not be directly or indirectly in the employment of the purchaser thereof.

(h) Utilization standards, methods of measurement, and harvesting practices; monetary deposits by purchasers of salvage harvests; nature, purposes and availability of designated fund; return of surplus to Treasury

The Secretary of Agriculture shall develop utilization standards, methods of measurement, and harvesting practices for the removal of trees, portions of trees, or forest products to provide for the optimum practical use of the wood material. Such standards, methods, and practices shall reflect consideration of opportunities to promote more effective wood utilization, regional conditions, and species characteristics and shall be compatible with multiple use resource management objectives in the affected areas. To accomplish the purpose of this subsection in situations involving salvage of insect-infested, dead, damaged, or down timber, and to remove associated trees for stand improvement, the Secretary is authorized to require the purchasers of such timber to make monetary deposits, as a part of the payment for the timber, to be deposited in a designated fund from which sums are to be used, to cover the cost to the United States for design, engineering, and supervision of the construction of needed roads and the cost for Forest Service sale preparation and supervision of the harvesting of such timber. Deposits of money pursuant to this subsection are to be available until expended to cover the cost to the United States of accomplishing the purposes for which deposited. The deposits shall not be considered as moneys received from the national forests within the meaning of sections 500 and 501 of this title: And provided further, That sums found to be in excess of the cost of accomplishing the purposes for which deposited on any national forest shall be transferred to miscellaneous receipts in the Treasury of the United States.

(i) Purchaser credit for permanent road construction; right of election of small business concerns; estimated cost; date of completion; use of funds for construction; effective date

(1) For sales of timber which include a provision for purchaser credit for construction of permanent roads with an estimated cost in excess of $20,000, the Secretary of Agriculture shall promulgate regulations requiring that the notice of sale afford timber purchasers qualifying as "small business concerns" under the Small Business Act, as amended [15 U.S.C. 631 et seq.], and the regulations issued thereunder, an estimate of the cost and the right, when submitting a bid, to elect that the Secretary build the proposed road.

(2) If the purchaser makes such an election, the price subsequently paid for the timber shall include all of the estimated cost of the road. In the notice of sale, the Secretary of Agriculture shall set a date when such road shall be completed which shall be applicable to either construction by the purchaser or the Secretary, depending on the election. To accomplish requested work, the Secretary is authorized to use from any receipts from the sale of timber a sum equal to the estimate for timber purchaser credits, and such additional sums as may be appropriated for the construction of roads, such funds to be available until expended, to construct a road that meets the standards specified in the notice of sale.

(3) The provisions of this subsection shall become effective on October 1, 1976.

§ 478. Egress or ingress of actual settlers; prospecting
Nothing in sections 473 to 478, 479 to 482 and 551 of this title shall be construed as prohibiting the egress or ingress of actual settlers residing within the boundaries of national forests, or from crossing the same to and from their property or homes; and such wagon roads and other improvements may be constructed thereon as may be necessary to reach their homes and to utilize their property under such rules and regulations as may be prescribed by the Secretary of Agriculture. Applicable to districts

§ 478a. Townsites
When the Secretary of Agriculture determines that a tract of National Forest System land in Alaska or in the eleven contiguous Western States is located adjacent to or contiguous to an established community, and that transfer of such land would serve indigenous community objectives that outweigh the public objectives and values which would be served by maintaining such tract in Federal ownership, he may, upon application, set aside and designate as a townsite an area of not to exceed six hundred and forty acres of National Forest System land for any one application. After public notice, and satisfactory showing of need therefor by any county, city, or other local governmental subdivision, the Secretary may offer such area for sale to a governmental subdivision at a price not less than the fair market value thereof: Provided, however, That the Secretary may condition conveyances of townsites upon the enactment, maintenance, and enforcement of a valid ordinance which assures any land so conveyed will be controlled by the governmental subdivision so that use of the area will not interfere with the protection, management, and development of adjacent or contiguous National Forest System lands. (Pub. L. 85–569, July 31, 1958, 72 Stat. 438; Pub. L. 94–579, title II, §213, Oct. 21, 1976, 90 Stat. 2760.)

Amendments

1976—Pub. L. 94–579 substituted provisions setting forth the procedures applicable to designation of townsites of tracts of National Forest System lands in Alaska or the eleven contiguous Western States for provisions setting forth the procedures applicable to designation of townsites from any national forest lands or lands administered by the Secretary of Agriculture under the Bankhead-Jones Farm Tenant Act.

Savings Provision

Amendment by Pub. L. 94–579 not to be construed as terminating any valid lease, permit, patent, etc., existing on Oct. 21, 1976, see note set out under section 1701 of Title 43, Public Lands.

§ 479. Sites for schools and churches

The settlers residing within the exterior boundaries of national forests, or in the vicinity thereof, may maintain schools and churches within such national forest, and for that purpose may occupy any part of the said national forest, not exceeding two acres for each schoolhouse and one acre for a church.

Save or speed of actual settlers; prospecting

§ 479a. Conveyance of National Forest System lands for educational purposes

(a) Authority to convey

Upon written application, the Secretary of Agriculture may convey National Forest System lands to a public school district for use for educational purposes if the Secretary determines that

(2) the conveyance will serve the public interest;

(3) the land to be conveyed is not otherwise needed for the purposes of the National Forest System;
(4) the total acreage to be conveyed does not exceed the amount reasonably necessary for the proposed use;
(5) the land is to be used for an established or proposed project that is described in detail in the application to the Secretary, and the conveyance would serve public objectives (either locally or at large) that outweigh the objectives and values which would be served by maintaining such land in Federal ownership;
(6) the applicant is financially and otherwise capable of implementing the proposed project;
(7) the land to be conveyed has been identified for disposal in an applicable land and resource management plan under the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1600 et seq.); and
(8) an opportunity for public participation in a disposal under this section has been provided, including at least one public hearing or meeting, to provide for public comments.

(b) Acreage limitation
A conveyance under this section may not exceed 80 acres. However, this limitation shall not be construed to preclude an entity from submitting a subsequent application under this section for an additional land conveyance if the entity can demonstrate to the Secretary a need for additional land.

(c) Costs and mineral rights
(1) A conveyance under this section shall be for a nominal cost. The conveyance may not include the transfer of mineral or water rights.
(2) If necessary, the exact acreage and legal description of the real property conveyed under this section shall be determined by a survey satisfactory to the Secretary and the applicant. The cost of the survey shall be borne by the applicant.

(d) Review of applications
When the Secretary receives an application under this section, the Secretary shall—
(1) before the end of the 14-day period beginning on the date of the receipt of the application, provide notice of that receipt to the applicant; and
(2) before the end of the 120-day period beginning on that date—
(A) make a final determination whether or not to convey land pursuant to the application, and notify the applicant of that determination; or
(B) submit written notice to the applicant containing the reasons why a final determination has not been made.

(e) Reversionary interest
If, at any time after lands are conveyed pursuant to this section, the entity to whom the lands were conveyed attempts to transfer title to or control over the lands to another or the lands are devoted to a use other than the use for which the lands were conveyed, title to the lands shall revert to the United States.

(Pub. L. 106–577, title II, 114 Stat. 3070, provided that: ‘‘This title [enacting this section] may be cited as the ‘Education Land Grant Act.’’"

§ 480. Civil and criminal jurisdiction

The jurisdiction, both civil and criminal, over persons within national forests shall not be affected or changed by reason of their existence, except so far as the punishment of offenses against the United States therein is concerned; the intent and meaning of this provision being that the State wherein any such national forest is situated shall not, by reason of the establishment thereof, lose its jurisdiction, nor the inhabitants thereof their rights and privileges as citizens, or be absolved from their duties as citizens of the State.

§ 482. Mineral lands; restoration to public domain; location and entry

Upon the recommendation of the Secretary of the Interior, with the approval of the President, after sixty days' notice thereof, published in two papers of general circulation in the State or Territory wherein any national forest is situated, and near the said national forest, any public lands embraced within the limits of any such forest which, after due examination by personal
inspection of a competent person appointed for that purpose by the Secretary of the Interior, shall be found better adapted for mining or for agricultural purposes than for forest usage, may be restored to the public domain. And any mineral lands in any national forest which have been or which may be shown to be such, and subject to entry under the existing mining laws of the United States and the rules and regulations applying thereto, shall continue to be subject to such location and entry, notwithstanding any provisions contained in sections 473 to 478, 479 to 482 and 551 of this title.

BULL RUN WATERSHED MANAGEMENT UNIT

"PREAMBLE"

"The Congress finds that an area of land in the State of Oregon known variously as the Bull Run National Forest and the Bull Run Forest Reserve is presently the source of the sole domestic water supply for the city of Portland, Oregon (hereinafter called the ‘city’) and other local governmental units and persons in the Portland metropolitan area reserved for the city by Presidential proclamation issued in 1892 and furnishing an extremely valuable resource of pure clear raw potable water, the continued production of which should be the principal management objective in the area herein referred to as ‘the unit’; that the said area is now managed under terms of a Federal court decree issued pursuant to turn of the century law which does not appropriately address present and future needs and opportunities for the protection, management, and utilization of the resources contained therein.

"SECTION 1. ESTABLISHMENT OF SPECIAL RESOURCES MANAGEMENT UNIT; DEFINITION OF SECRETARY"

"(a) DEFINITION OF SECRETARY.—In this Act, the term ‘Secretary’ means—"

"(1) with respect to land administered by the Secretary of Agriculture, the Secretary of Agriculture; and"

"(2) with respect to land administered by the Secretary of the Interior, the Secretary of the Interior."

"(b) ESTABLISHMENT.—"

"(1) IN GENERAL.—There is established, subject to valid existing rights, a special resources management unit in the State of Oregon, comprising approximately 98,272 acres, as depicted on a map dated May 2000 and entitled ‘Bull Run Watershed Management Unit’.

"(2) MAP.—The map described in paragraph (1) shall be on file and available for public inspection in the offices of—"

"(A) the Regional Forester-Pacific Northwest Region of the Forest Service; and"

"(B) the Oregon State Director of the Bureau of Land Management.

"(3) BOUNDARY ADJUSTMENTS.—The Secretary may periodically make such minor adjustments in the boundaries of the unit as are necessary, after consulting with the city and providing for appropriate public notice and hearings.

"MANAGEMENT"

"SEC. 2. (a) The unit and the renewable resources therein, shall be administered as a watershed by the Secretary in accordance with the laws, rules, and regulations applicable to land under the administrative jurisdiction of the Forest Service (in the case of land administered by the Secretary of Agriculture) or applicable to land under the administrative jurisdiction of the Bureau of Land Management (in the case of land administered by the Secretary of the Interior) except to the extent that any management plan or practice is found by the Secretary to have a significant adverse effect on compliance with the water quality standards referred to in section 2(c) hereof or on the quantity of the water produced thereon for the use of the city, and other local government units and persons using such water under agreements with the city (and the Secretary shall take into consideration the cumulative effect of individually insignificant degradations), in which case, and notwithstanding any other provision of law, the management plan and all relevant leases, permits, contracts, rights-of-way, or other rights or authorizations issued pursuant thereto shall forthwith be altered by the Secretary to eliminate such adverse effect by application of different techniques or prohibitions of one or more such practices or uses: Provided, however, That use of such water for the production of energy and the transmission of such energy through and over the unit are deemed consistent with the purposes of this Act and the rights-of-way heretofore granted to Bonneville Power Authority through and over the units are validated and confirmed and deemed consistent with the purposes of this Act.

"(b) TIMBER CUTTING.—"

"(1) IN GENERAL.—Subject to paragraph (2), the Secretary shall prohibit the cutting of trees on Federal land in the unit, as designated in section 1 and depicted on the map referred to in that section.

"(2) PERMITTED CUTTING.—"

"(A) IN GENERAL.—Subject to subparagraph (B), the Secretary may only allow the cutting of trees in the area described in paragraph (1) for—"

"(i) for the protection or enhancement of water quality in the area described in paragraph (1); or"

"(ii) for the protection, enhancement, or maintenance of water quantity available from the area described in paragraph (1); or"

"(iii) for the construction, expansion, protection or maintenance of municipal water supply facilities; or"

"(iv) for the construction, expansion, protection or maintenance of facilities for the transmission of energy through and over the unit or previously authorized hydroelectric facilities or hydroelectric projects associated with municipal water supply facilities.

"(B) SALVAGE SALES.—The Secretary may not authorize a salvage sale in the area described in paragraph (1).

"(c) FEDERAL LAND POLICIES.—The policy set forth in subsections (a) and (b) shall be attained through the development, maintenance, and periodic revision of land management plans in accordance with procedures set forth in section 5 [6] of the Forest and Rangeland Renewable Resources Planning Act of 1974 (43 U.S.C. 477, as amended; 16 U.S.C. 1604) (in the case of land administered by the Secretary of Agriculture) or section 222 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1712) (in the case of land administered by the Secretary of the Interior), through the maintenance of systems for monitoring and evaluating water quality, and through supporting scientific research as the Secretary may deem necessary after consultation and in coordination with the city. In the development and revision of land management plans for the use of the city, and other local government units and persons using such water under agreements with the city, and other local government units and persons using such water under agreements with the city, and shall consider such data and research as the city may collect through its own monitoring systems and scientific efforts, if any. Such plans shall be prepared by an interdisciplinary team; be embodied in appropriate written material, including maps and other descriptive documents; shall contain water quality standards developed by the Secretary of the Interior after consultation with the city, which standards shall be substantially based on and shall reflect a quality of water
not significantly less than the quality reflected by percentile curves developed from data collected from 1967 through 1975 and, if none, from data collected in the five years thereafter; and be available to the public at convenient locations. The initial plan or plans shall be completed as soon as practicable after the enactment of this Act [Nov. 23, 1977], but not later than September 30, 1979. Such data shall be compared to historical data at least annually for the purpose of determining compliance with the standards and the significance of any deviation therefrom. Deviations occurring from operation, maintenance, alteration, or construction of water storage, or electrical generation and transmission facilities, seasonal fluctuations, variations in climate, and other natural phenomena, fire, or acts of God, shall not be considered in determining the historical or current percentile curves.

“(d) The Secretary or his representative shall, upon request, and at least annually, meet with appropriate officials of the city for the purpose of reviewing planned management programs and the impact thereof on the quality and quantity of the water produced on the unit and assuring that their respective management and operational activities within the unit are appropriately coordinated. The Secretary shall negotiate in good faith cooperative agreements with appropriate officials of the city to effectuate activity coordination. In the event there is disagreement between the city and the Secretary with respect to the development or revision of the water quality standards provided for herein, or with respect to the effect or the significance of such effect of one or more proposed or existing programs, practices, uses, regulations, or boundary adjustments (except as otherwise specifically provided for herein), on the quantity of the water produced on said unit, or on compliance with the water quality standards referred to in section 2(a) and (b) [now (c) hereof] and, therefore, with respect to the necessity for an alteration or prohibition of any such program, practices, use, regulation, or boundary adjustment as required in section 2(a) hereof, an arbitration board for resolving such disagreements shall be established. The Secretary and the city shall, each, forthwith appoint one member to such board and those two members shall select a third. In the event agreement cannot be reached on the third member within seven days after the appointment of the first two, the third member shall be appointed by the presiding judge of the United States District Court for the District of Oregon within seven days after being notified of such disagreement by either of the first two members. All of said members shall be qualified to make a scientific determination of the facts. The contentions of the city and the Secretary shall be submitted to the board in the form of written contentions of fact together with the evidence and analysis that tends to support the position being presented. The board shall forthwith consider and decide, on a scientific basis, the issues in disagreement by majority vote, taking into consideration the evidence and data presented by the parties and such other tests and data which the board by majority vote may require. TRANSFER OF LANDS IN CALAVERAS BIG TREES 
NATIONAL FOREST TO STATE OF CALIFORNIA

‘‘SECTION 1. FINDINGS AND PURPOSE.

‘‘(a) FINDINGS.—The Congress finds and declares that:

‘‘(1) in order to protect certain outstanding 
examples of ponderosa pine, sugar pine, and giant sequoia 
trees located in the North and South Calaveras 
Groves, on the western slope of the Sierra Nevada 
Mountains, the State of California has established 
the Calaveras Big Trees State Park;

‘‘(2) for similar purposes, the United States has des-
ignated certain adjacent Federal lands, amounting to 
approximately 379 acres, as the Calaveras Big Trees 
National Forest; and

‘‘(3) this National Forest (managed as part of the 
Stanislaus National Forest) is the smallest National 
Forest in the United States and could be more ap-
propriately and efficiently managed as part of the 
Calaveras Big Trees State Park.

‘‘(b) PURPOSE.—The purpose of this Act is to improve 
the management of the lands located in the Calaveras 
Big Trees National Forest, and to protect certain ex-
amples of ponderosa pine, sugar pine, and giant sequoia 
trees, by unifying the management of the lands in such 
National Forest and in the California Calaveras Big 
Trees State Park.

‘‘SEC. 2. LAND CONVEYANCE.

‘‘(a) CONVEYANCE.—Subject to valid existing rights 
and the provisions of this Act, the Secretary of Agri-
culture (hereinafter in this Act referred to as the ‘Sec-
retary’) is authorized and directed to convey all right, 
title, and interest of the United States in and to lands 
and interests therein within the Calaveras Big Trees 
National Forest, as generally depicted on a map num-
bered 20435 and dated June 5, 1989, prepared by the Cali-
ifornia Department of Parks and Recreation, to the 
State of California for inclusion within the Calaveras 
Big Trees State Park.

‘‘(b) MAP AND DESCRIPTION.—As soon as practicable 
after the enactment of this Act (Oct. 17, 1990), the Sec-
retary shall submit a map and legal description of the 
lands referred to in subsection (a) to the Committee on 
Interior and Insular Affairs [now Committee on Natu-
ral Resources] of the United States House of Represen-
tatives, and the Committee on Energy and Natural Re-
sources of the Senate. Such map and legal description 
shall have the same force and effect as if included in 
this Act, except that any clerical or typographical 
errors in such map or legal description may be corrected.
The Secretary shall place such map and legal descrip-
tion on file, and make them available for public inspec-
tion, in the Office of the Chief of the Forest Service.

‘‘(c) CONDITIONS OF CONVEYANCE.—Conveyance of 
the lands and interests described in subsection (a) of this 
section shall be subject to the following conditions:

‘‘(1) The conveyance shall take place only if within 
two years after the date of enactment of this Act 
(Oct. 17, 1990), there is concluded an agreement be-
tween the State of California and the Secretary 
whereby the State of California agrees to provide to the 
United States, in exchange for the lands described in 
subsection (a) and pursuant to terms and condi-
tions which the Secretary finds acceptable, consider-
ation of approximately equal value. Such consider-
ation shall include either lands in California that the 
Secretary finds suitable for addition to, and are con-
tiguous to, one or more units of the National Forest 
System, cash payment, or monetary grants awarded to 
the United States after June 1, 1990, or any combina-
tion thereof.

‘‘(2) No harvest of timber (except as may be nec-
essary for the control of fire, insects, or disease) and 
no mining, mineral leasing, or geothermal explo-
ration or development shall be permitted on such 
lands.

‘‘(3) Any action by the State of California to convey 
any portion of such lands or interests to any entity 
other than the United States shall be void ab initio 
and shall result in the reversion to the United States 
of all right, title, and interest in such lands to the United States. Any such lands which revert to the United States shall be 
incorporated into the Stanislaus National Forest and 
managed to preserve and protect the stands of pon-
derosa pine, sugar pine, and giant sequoia trees 
located on such lands.

‘‘(4) Any action by the State of California to permit 
the use of any portion of such lands for any purpose 
prohibited by this subsection or any purpose incompa-
patible with the continued ability of such lands to 
support ponderosa pine, sugar pine, or giant sequoia 
trees, shall result in the reversion of all right, title, 
and interest in such lands to the United States. Any 
such lands which revert to the United States shall 
be incorporated into the Stanislaus National Forest and 
managed to preserve and protect the stands of pon-
derosa pine, sugar pine, and giant sequoia trees 
located on such lands.

‘‘(5) The Secretary, acting through the Forest Serv-
ience, shall be afforded by appropriate officials of the 
State of California reasonable opportunities to col-
lect seeds from trees located on such lands for sci-
fic or silvicultural purposes.

‘‘(6) The Secretary, upon prior notification to the 
State of California, shall be entitled at any time to 
enter upon such lands for the purpose of monitoring 
the management of such lands and the compliance of 
the State of California with the provisions of this 
subsection.

‘‘(7) The conveyance shall be subject to the follow-
reservations or exceptions:

‘‘(A) any existing rights-of-way as authorized by 
the Act of August 30, 1890 (43 U.S.C. 945); and

‘‘(B) any existing rights-of-way to provide the 
United States and its assigns access to federally 
owned lands.

‘‘(d) ENFORCEMENT.—Upon the request of the Sec-
retary, the Attorney General shall bring any action or 
take any other steps necessary to enforce the provi-
sions of subsection (c) of this section.

‘‘(e) TIMING, VALUE, AND STATUS.—(1) Conveyance of 
lands to the State of California pursuant to this Act 
shall occur when the agreement described in paragraph 
(1) of subsection (c) has been reached. The restrictions 
and conditions specified in paragraphs (2), (3), (4), (5), 
(6), and (7) of subsection (c) shall be included in the 
instrument of conveyance of lands to the State of Cali-

‘‘(2) Effective upon the conveyance to the State of 
California of lands described in subsection (a) of this 
section, or two years after the date of enactment of 
this Act [Oct. 17, 1990], whichever is sooner, the Na-
tional Forest designation of such lands shall terminate.

Any such lands not conveyed to the State of California 
shall thereupon be incorporated into the Stanislaus Na-
tional Forest and managed to preserve and protect the 
stands of ponderosa pine, sugar pine, and giant sequoia 
trees located on such lands.

‘‘(3) Any lands conveyed to the United States pursu-
ant to this Act shall be deemed national forest lands 
and managed according to the laws governing the man-
agement of the National Forest System. If any such 
lands are outside existing boundaries of one or more 
National Forests, the Secretary shall modify such 
boundaries as he deems appropriate to include such 
lands in the State of California.

‘‘(4) Values of the respective lands exchanged between 
the United States and the State of California pursuant 
to this Act shall be of ‘approximately equal value’ as 
that term is defined by regulations implementing the 
Act of January 12, 1983, known as the Small Tracts Act 
(16 U.S.C. 521c–521l).’’
§ 495. Leases of lands for sanitariums or hotels

The Secretary of Agriculture is authorized, under such rules and regulations as he from time to time may make, to rent or lease to responsible persons or corporations applying therefor suitable spaces and portions of ground near, or adjacent to, mineral, medicinal, or other springs, within any national forest established within the United States, or hereafter to be established, and where the public is accustomed or desires to frequent, for health or pleasure, for the purpose of erecting upon such leased ground sanitariums or hotels, to be opened for the reception of the public. Nothing in this section shall be deemed to amend, modify or otherwise affect the Secretary’s duties under the National Environmental Policy Act [42 U.S.C. 4321 et seq.], or the Forest and Rangelands Renewable Resources Planning Act [16 U.S.C. 1600 et seq.] as amended by the National Forest Management Act, including his duties under the National Environmental Policy Act, as amended for complete classification of this Act to the Code, see Tables.
This section, referred to in subsecs. (a), (c), and (d), was in the original “this Act”, meaning Pub. L. 99–522, Oct. 22, 1986, 100 Stat. 3000, known as the National Forest Ski Area Permit Act of 1986, which enacted this section and notes set out under this section. For complete classification of this Act to the Code, see Short Title note below and Tables.

The Forest and Rangeland Renewable Resources Planning Act, referred to in subsec. (d), probably means the Forest and Rangeland Renewable Resources Planning Act of 1974, Pub. L. 93–378, Aug. 17, 1974, 88 Stat. 545, as amended, which is classified generally to subchapter I (§ 1600 et seq.) of chapter 36 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 1600 of this title and Tables.

Short Title

Section 1 of Pub. L. 99–522 provided that: “This Act [enacting this section and provisions set out as a note below] may be cited as the ‘National Forest Ski Area Permit Act of 1986’.”

Purpose

Section 2 of Pub. L. 99–522 provided that: “The purposes of this Act [see Short Title note above] are to--

(a) provide a unified and modern permitting process for nordic and alpine ski areas on national forest lands;

(b) provide for ski area permits which more closely reflect the acreage and other physical requirements of modern ski area development; and

(c) provide a permit system which will be more compensatory with the long-term construction, financing, and operation needs of ski areas on national forest lands.”

§ 497c. Ski area permit rental charge

(a) In general

The Secretary of Agriculture shall charge a rental charge for all ski area permits issued pursuant to section 3 of the National Forest Ski Area Permit Act of 1986 (16 U.S.C. 497b), the Act of March 4, 1915 (38 Stat. 1101, chapter 144; 16 U.S.C. 497), or the 9th through 20th paragraphs under the heading “SURVEYING THE PUBLIC LANDS” under the heading “UNDER THE DEPARTMENT OF THE INTERIOR” in the Act of June 4, 1897 (30 Stat. 34, chapter 2), on National Forest System lands. Permit rental charges for permits issued pursuant to the National Forest Ski Area Permit Act of 1986 shall be calculated as set forth in subsection (b) of this section. Permit rental charges for existing ski area permits issued pursuant to the Act of March 4, 1915, and the Act of June 4, 1897, shall be calculated in accordance with those existing permits: Provided, That a permittee may, at the permittee’s option, use the calculation method set forth in subsection (b) of this section.

(b) Formula

(1) The ski area permit rental charge (SAPRC) shall be calculated by adding the permittee’s gross revenues from lift ticket/year-round ski area use pass sales plus revenue from ski school operations (LT+SS) and multiplying such total by the slope transport feet percentage (STFP) on National Forest System land. That amount shall be increased by the gross year-round revenue from ancillary facilities (GRAF) physically located on national forest land, including all permittee or subpermittee lodging, food service, rental shops, parking and other ancillary operations, to determine the adjusted gross revenue (AGR) subject to the permit rental charge. The final rental charge shall be calculated by multiplying the AGR by the following percentages for each revenue bracket and adding the total for each revenue bracket:

(A) 1.5 percent of all adjusted gross revenue below $3,000,000;
(B) 2.5 percent for adjusted gross revenue between $3,000,000 and $15,000,000;
(C) 2.75 percent for adjusted gross revenue between $15,000,000 and $50,000,000; and
(D) 4.0 percent for the amount of adjusted gross revenue that exceeds $50,000,000.

Utilizing the abbreviations indicated in this subsection the ski area permit fee (SAPF) formula can be simply illustrated as:

\[ SAPF = \left( \frac{(LT + SS) \times STFP}{AGR} \right) + GRAF = AGR; \]

\[ AGR \times \% \ BRACKETS \]

(2) In cases where ski areas are only partially located on national forest lands, the slope transport feet percentage on national forest land referred to in this subsection shall be calculated as generally described in the Forest Service Manual in effect as of January 1, 1992. Revenues from Nordic ski operations shall be included or excluded from the rental charge calculation according to the percentage of trails physically located on national forest land.

(3) In order to ensure that the rental charge remains fair and equitable to both the United States and the ski area permittees, the adjusted gross revenue figures for each revenue bracket in paragraph (1) shall be adjusted annually by the percent increase or decrease in the national Consumer Price Index for the preceding calendar year. No later than 3 years after November 12, 1996, and every 5 years thereafter the Secretary shall submit to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Resources of the United States House of Representatives a report analyzing whether the ski area permit rental charge required by this section is returning a fair market value rental to the United States together with any recommendations the Secretary may have for modifications of the system.

(c) Payment

The rental charge set forth in subsection (b) of this section shall be due on June 1 of each year and shall be paid or prepaid by the permittee on a monthly, quarterly, annual or other schedule as determined appropriate by the Secretary in consultation with the permittee. Unless mutually agreed otherwise by the Secretary and the permittee, the payment or prepaid schedule
shall conform to the permittee’s schedule in effect prior to November 12, 1996. To reduce costs to the permittee and the Forest Service, the Secretary shall each year provide the permittee with a standardized form and worksheets (including annual rental charge calculation brackets and rates) to be used for rental charge calculation and submitted with the rental charge payment. Information provided on such forms shall be compiled by the Secretary annually and kept in the Office of the Chief, United States Forest Service.

(d) Effective date

The ski area permit rental charge set forth in this section shall become effective on June 1, 1996 and cover receipts retroactive to June 1, 1995: Provided, That if a permittee has paid rental charges for the period June 1, 1995, to June 1, 1996, under the graduated rate rental charge system formula in effect prior to November 12, 1996, such rental charges shall be credited toward the new rental charge due on June 1, 1996. In order to ensure increasing rental charge receipt levels to the United States during transition from the graduated rate rental charge system formula to the formula of this section, the rental charge paid by any individual permittee shall be:

1. For the rental charge for the period June 1, 1995, to June 1, 1996, each of the following shall apply:
   - The rental charge paid for the preceding 1994–1995 base year or the rental charge calculated pursuant to this section, whichever is higher;
   - The rental charge paid for the 1994–1995 base year or the rental charge calculated pursuant to this section, whichever is higher; and
   - The rental charge paid for the 1994–1995 base year or the rental charge calculated pursuant to this section, whichever is higher.

If an individual permittee’s adjusted gross revenue for the 1995–1996, 1996–1997, or 1997–1998 permit year falls more than 10 percent below the adjusted gross revenue for the 1994–1995 base year, the rental charge paid shall be the rental charge calculated pursuant to this section.

(e) Non-national forest land operations

Under no circumstances shall revenue, or subpermittee revenue (other than lift ticket, area use pass, or ski school sales) obtained from operations physically located on non-national forest land be included in the ski area permit rental charge calculation.

(f) “Revenue” and “sales” defined; limitations

To reduce administrative costs of ski area permittees and the Forest Service the terms “revenue” and “sales”, as used in this section, shall mean actual income from sales and shall not include sales of operating equipment, refunds, rent paid to the permittee by sublessees, sponsor contributions to special events or any amounts attributable to employee gratuities or employee lift tickets, discounts, or other goods or services (except for bartered goods and complimentary lift tickets offered for commercial or other promotional purposes) for which the permittee does not receive money.

(g) Minimum rental charge

In cases where an area of national forest land is under a ski area permit but the permittee does not have revenue or sales qualifying for rental charge payment pursuant to subsection (a) of this section, the permittee shall pay an annual minimum rental charge of $2 for each national forest acre under permit or a percentage of appraised land value, as determined appropriate by the Secretary.

(b) Five-year phase-in of increase

Where the new rental charge provided for in subsection (b)(1) of this section results in an increase in permit rental charge greater than one-half of 1 percent of the permittee’s adjusted gross revenue as determined under subsection (b)(1) of this section, the new rental charge shall be phased in over a five-year period in a manner providing for increases of approximately equal increments.

(i) Construction with National Environmental Policy Act of 1969

To reduce Federal costs in administering the provisions of this section, the reissuance of a ski area permit to provide activities similar in nature and amount to the activities provided under the previous permit shall not constitute a major Federal action for the purposes of the National Environmental Policy Act of 1969 (42 U.S.C. 4331 et seq.).

(j) Withdrawal from mining laws

Subject to valid existing rights, all lands located within the boundaries of ski area permits issued prior to, on or after November 12, 1996, pursuant to authority of the Act of March 4, 1915 (38 Stat. 1101, chapter 144; 16 U.S.C. 497), and the Act of June 4, 1897, or the National Forest Ski Area Permit Act of 1986 (16 U.S.C. 497b) are hereby and henceforth automatically withdrawn from all forms of appropriation under the mining laws and from disposition under all laws pertaining to mineral and geothermal leasing and all amendments thereto. Such withdrawal shall continue for the full term of the permit and any modification, reissuance, or renewal thereof. Unless the Secretary requests otherwise of the Secretary of the Interior, such withdrawal shall be canceled automatically upon expiration or other termination of the permit and the land automatically restored to all appropriation not otherwise restricted under the public land laws.

Payment for work undertaken pursuant to this section may be made from any appropriation of the Forest Service that is available for similar work if a written agreement so provides and reimbursement will be provided by a cooperator in the same fiscal year as the expenditure by the Forest Service. A reimbursement received from a cooperator that covers the proportionate share of the cooperator of the cost of the work shall be deposited to the credit of the appropriation of the Forest Service from which the payment was initially made or, if the appropriation is no longer available, to the credit of an appropriation of the Forest Service that is available for similar work. Section 471(b) of this title, referred to in text, was repealed by section 704(a) of Pub. L. 94–579, Section 505 of this title is based on the second and third sentences of section 9 of the 1924 act. The words "and moneys received on account of permits for hunting, fishing, or camping on lands acquired under authority of sections 513 to 517 and 521 of this title," are from a provision of Act Mar. 4, 1917, which reads, "Hereafter, all moneys received on account of permits for hunting, fishing, or camping, on lands acquired under authority of said Act (Act Mar. 1, 1911, ch. 186, 36 Stat. 961) or any Amendment or extension thereof, shall be disposed of as is provided by existing law for the disposition of receipts from national forests."

AMENDMENTS

1928—Act May 29, 1928, struck out provision which required the Secretary of Agriculture to make an annual report to Congress of the amounts refunded under this section.

§ 500. Payment and evaluation of receipts to State or Territory for schools and roads; moneys received; projections of revenues and estimated payments

On and after May 23, 1908, an amount equal to the annual average of 25 percent of all amounts received for the applicable fiscal year and each of the preceding 6 fiscal years from each national forest shall be paid, at the end of such year, by the Secretary of the Treasury to the State or Territory in which such national forest is situated, to be expended as the State or Territorial legislature may prescribe for the benefit of the public schools and public roads of the county or counties in which such national forest is situated: Provided, That when any national forest is in more than one State or Territory or county the distributive share to each from the proceeds of such forest shall be proportional to its area therein. In sales of logs, ties, poles, posts, cordwood, pulpwood, and other forest products the amounts made available for schools and roads by this section shall be based upon the stumpage value of the timber. Beginning October 1, 1976, the term "moneys received" shall include all collections under the Act of June 9, 1930, and all amounts earned or allowed any purchaser of national forest timber and other forest products within such state as purchaser credits, for the construction of roads on the National Forest Transportation System within such national forests or parts thereof in connection with any Forest Service timber sales contract. The Secretary of Agriculture shall, from time to time as he goes through his process of developing the budget revenue estimates, make available to the States his current projections of revenues and payments estimated to be made under the Act of May 23, 1908, as amended, or any other special Acts making payments in lieu of taxes, for their use for local budget planning purposes.

§ 521c. Definitions

For purposes of sections 521c to 521i of this title—

1. the term “person” includes any State or any political subdivision or entity thereof;
2. the term “interchange” means a land transfer in which the Secretary and another person exchange titles to lands or interests in lands of approximately equal value where the Secretary finds that such a value determination can be made without a formal appraisal and under such regulations as the Secretary may prescribe; and
3. the term “Secretary” means the Secretary of Agriculture of the United States.

§ 521d. Sale, exchange, or interchange of National Forest System land

The Secretary is authorized, when the Secretary determines it to be in the public interest—

1. to sell, exchange, or interchange by quitclaim deed, all right, title, and interest, including the mineral estate, of the United States in and to National Forest System lands described in section 521e of this title; and
2. to accept as consideration for the lands sold, exchanged, or interchanged other lands, interests in lands, or cash payment, or any combination of such forms of consideration, which, in the case of conveyance by sale or exchange, is at least equal in value, including the mineral estate, to the lands being conveyed by the Secretary. The Secretary shall insert in any such quitclaim deed such terms, conveyances, conditions, and reservations as the Secretary deems necessary to ensure protection of the public interest, including protection of the scenic, wildlife, and recreation values of the National Forest System and provision for appropriate public access to and use of lands within the System. The preceding sentence shall not be applicable to deeds issued by the Secretary to lands outside the boundary of units of the National Forest System.

§ 521e. Small parcels and road rights-of-way

The National Forest System lands which may be sold, exchanged, or interchanged under sections 521c to 521i of this title are those the sale or exchange of which is not practicable under any other authority of the Secretary, which have a value as determined by the Secretary of not more than $150,000, which are—

1. parcels of forty acres or less which are interspersed with or adjacent to lands which have been transferred out of Federal ownership under the mining laws and which are determined by the Secretary, because of location or size, not to be subject to efficient administration;
2. parcels of ten acres or less which are encroached upon by improvements occupied or used under claim or color of title by persons to whom no advance notice was given that the improvements encroached or would encroach upon such parcels, and who in good faith relied upon an erroneous survey, title search, or other land description indicating that there was not such encroachment; or
3. road rights-of-way, reserved or acquired, which are substantially surrounded by lands not owned by the United States and which are no longer needed by the United States, subject to the first right of abutting landowners to acquire such rights-of-way.

1 So in original. Probably should be “conveyances,”.
§ 521f. Costs of conveyance and value of improvements

Any person to whom lands are conveyed under sections 521c to 521i of this title shall bear all reasonable costs of administration, survey, and appraisal incidental to such conveyance, as determined by the Secretary. In determining the value of any lands or interest in lands to be conveyed under sections 521c to 521i of this title, the Secretary may, in those cases in which the Secretary determines it would be in the public interest, exclude from such determination the value of any improvements to the lands made by any person other than the Government. In the case of road rights-of-way conveyed under sections 521c to 521i of this title, the person to whom the right-of-way is conveyed shall reimburse the United States for the value of any improvements to such right-of-way which may have been made by the United States. The Secretary may, in those cases in which the Secretary determines that it would be in the public interest, waive payment by any person of costs incidental to any conveyance authorized by sections 521c to 521i of this title or reimbursement by any person for the value of improvements to rights-of-way otherwise required by this section.

§ 521g. Road rights-of-way subject to State or local law

Conveyance of any road rights-of-way under sections 521c to 521i of this title shall not be construed as permitting any designation, maintenance, or use of such rights-of-way for road or other purposes except to the extent permitted by State or local law and under conditions imposed by such law.

§ 521h. Regulations; contents

The Secretary shall issue regulations to carry out the provisions of sections 521c to 521i of this title, including specification of—

(1) criteria which shall be used in making the determination as to what constitutes the public interest;
(2) the definition of and the procedure for determining "approximately equal value"; and
(3) factors relating to location or size which shall be considered in connection with determining the lands to be sold, exchanged, or interchanged under clause (1) of section 521e of this title.

§ 521i. Unaffected lands

Nothing in sections 521c to 521i of this title shall authorize conveyance of Federal lands within the National Wilderness Preservation System, National Wild and Scenic Rivers System, National Trails System, or National Monuments. Nothing in sections 521c to 521i of this title shall authorize sale of Federal lands, within National Recreation Areas.

§ 524. Rights-of-way for dams, reservoirs, or water plants for municipal, mining, and milling purposes

Enforcement functions of Secretary or other official in Department of Agriculture, insofar as they involve lands and programs under jurisdiction of that Department, related to compliance with the provisions of sections 528 to 531 of this title with respect to pre-construction, construction, and initial operation of transportation system for Canadian and Alaskan natural gas were transferred to the Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, until the first anniversary of date of initial operation of the Alaska Natural Gas Transportation System, see Reorg. Plan No. 1 of 1979, §§ 102(f), 203(a), 44 F.R. 33663, 33666, 93 Stat. 1373, 1376, effective July 1, 1979, set out in the Appendix to Title 5, Government Organization and Employees. Office of Federal Inspector for the Alaska Natural Gas Transportation System abolished and functions and authority vested in Inspector transferred to Secretary of Energy by section 3012(b) of Pub. L. 102–486, set out as an Abolition of Office of Federal Inspector note under section 719e of Title 15, Commerce and Trade. Functions and authority vested in Secretary of Energy subsequently transferred to Federal Coordinator for Alaska Natural Gas Transportation Projects by section 720d(f) of Title 15.

§ 531. Definitions

As used in sections 528 to 531 of this title the following terms shall have the following meanings:

(a) "Multiple use" means: The management of all the various renewable surface resources of the national forests so that they are utilized in the combination that will best meet the needs of the American people; making the most judicious use of the land for some or all of these resources or related services over an area large enough to provide sufficient latitude for periodic adjustments in use to conform to changing needs and conditions; that some land will be used for less than all of the resources; and harmonious and coordinated management of the various resources, each with the other, without impairment of the productivity of the land, with consideration being given to the relative values of the various resources, and not necessarily the combination of uses that will give the greatest dollar return or the greatest unit output.

(b) "Sustained yield of the several products and services" means the achievement and maintenance in perpetuity of a high-level annual or regular periodic output of the various renewable resources of the national forests without impairment of the productivity of the land.

§ 532. Roads and trails system; Congressional findings and declaration of policy

The Congress hereby finds and declares that the construction and maintenance of an adequate system of roads and trails within and near the national forests and other lands administered by the Forest Service is essential if increasing demands for timber, recreation, and other uses of such lands are to be met; that the existence of such a system would have the effect, among other things, of increasing the value of timber and other resources tributary to such roads; and that such a system is essential to enable the Secretary of Agriculture (hereinafter called the Secretary) to provide for intensive use, protection, development, and management of these lands under principles of multiple use and sustained yield of products and services.

§ 533. Grant of easements for road rights-of-way; authority of Secretary of Agriculture; regulations

The Secretary is authorized, under such regulations as he may prescribe, subject to the provisions of sections 532 to 538 of this title, to grant permanent or temporary easements for specified periods or otherwise for road rights-of-way (1) over national forest lands and other lands administered by the Forest Service, and (2) over any other related lands with respect to which the Department of Agriculture has rights under the terms of the grant to it.

TRANSFER OF FUNCTIONS

Enforcement functions of Secretary or other official in Department of Agriculture, insofar as they involve lands and programs under jurisdiction of that Department, related to compliance with construction and utilization of national forest roads under sections 532 to 538 of this title with respect to pre-construction, construction, and initial operation of transportation system for Canadian and Alaskan natural gas transferred to Federal Inspector, Office of Federal Inspector for Alaska Natural Gas Transportation System, until first anniversary of date of initial operation of Alaska Natural Gas Transportation System, see Reorg. Plan No. 1 of 1979, §§ 102(f), 203(a), 44 F.R. 33663, 33666, 93 Stat. 1373, 1376, effective July 1, 1979, set out in the Appendix to Title 5, Government Organization and Employees. Office of Federal Inspector for the Alaska Natural Gas Transportation System abolished and functions and authority vested in Inspector transferred to Secretary of Energy by section 3012(b) of Pub. L. 102–486, set out as an Abolition of Office of Federal Inspector note under section 719e of Title 15, Commerce and Trade. Functions and authority vested in Secretary of Energy subsequently transferred to Federal Coordinator for Alaska Natural Gas Transportation Projects by section 720d(f) of Title 15.

§ 534. Termination and cancellation of easements; notice; hearing

An easement granted under sections 532 to 538 of this title may be terminated by consent of the owner of the easement, by condemnation, or after a five-year period of nonuse the Secretary may, if he finds the owner has abandoned the easement, make a determination to cancel it. Before the Secretary may cancel an easement for nonuse the owner of such easement must be notified of the determination to cancel and be given, upon his request made within sixty days after receipt of the notice, a hearing in accordance with such rules and regulations as may be issued by the Secretary.

§ 535. Forest development roads; acquisition, construction, and maintenance; maximum economy; methods of financing; cost arrangements for construction standards; transfer of unused effective purchaser credit for road construction

The Secretary is authorized to provide for the acquisition, construction, and maintenance of forest development roads within and near the national forests and other lands administered by the Forest Service in locations and according to specifications which will permit maximum economy in harvesting timber from such lands tributary to such roads and at the same time meet the requirements for protection, development, and management thereof, and for utilization of the other resources thereof. Financing of such roads may be accomplished (1) by the Secretary utilizing appropriated funds, (2) by requirements on purchasers of national forest timber and other products, including provisions for amortization of road costs in contracts, (3) by cooperative financing with other public agencies and with private agencies or persons, or (4) by a combination of these methods: Provided, That where roads of a higher standard than that needed in the harvesting and removal of the timber and other products covered by the particular sale are to be constructed, the purchaser of the national forest timber and other products shall not be required to bear that part of the costs necessary to meet such higher standard, and the Secretary is authorized to make such arrangements to this end as may be appropriate. The Secretary is authorized, under such rules and regulations as he shall prescribe, to permit the transfer of unused effective purchaser credit for road construction earned after December 16, 1975, from one timber sale to a purchaser to another timber sale to the same purchaser within the same National Forest.

AMENDMENTS

1975—Pub. L. 94–154 authorized the Secretary to permit the transfer of unused effective purchaser credit for road construction earned after Dec. 16, 1975, from one timber sale to a purchaser to another timber sale to the same purchaser within the same National Forest.

§ 535a. Forest development roads: prohibition on credits; inclusion of construction costs in notice of sale; special election by small business concerns; construction standards; authorization of harvesting; treatment of road value

(a) Prohibition on timber purchaser road credits

In financing any forest development road pursuant to section 535 of this title, the Secretary of Agriculture may not provide effective credit for road construction to any purchaser of national forest timber or other forest products.

(b) Construction of roads by timber purchasers

(1) Whenever the Secretary of Agriculture makes a determination that a forest development road referred to in subsection (a) of this section shall be constructed or paid for, in whole or in part, by a purchaser of national forest timber or other forest products, the Secretary shall include notice of the determination in the notice of sale of the timber or other forest products. The notice of sale shall contain, or announce the availability of, sufficient information related to the road described in the notice to permit a prospective bidder on the sale to calculate the likely cost that would be incurred by the bidder to construct or finance the construction of the road so that the bidder may reflect such cost in the bid.

(2) If there is an increase or decrease in the cost of roads constructed by the timber purchaser, caused by variations in quantities, changes or modifications subsequent to the sale of timber made in accordance with applicable timber sale contract provisions, then an adjustment to the price paid for timber harvested by the purchaser shall be made. The adjustment shall be applied by the Secretary as soon as practicable after any such design change is implemented.

(c) Special election by small business concerns

(1) A notice of sale referred to in subsection (b) of this section containing specified road construction of $50,000 or more, shall give a purchaser of national forest timber or other forest products that qualifies as a “small business concern” under the Small Business Act (15 U.S.C. 631 et seq.), and regulations issued thereunder, the option to elect that the Secretary of Agriculture build the roads described in the notice. The Secretary shall provide the small business concern with an estimate of the cost that would be incurred by the Secretary to construct the roads on behalf of the small business concern. The notice of sale shall also include the date on which the roads described in the notice will be completed by the Secretary if the election is made.

(2) If the election referred to in paragraph (1) is made, the purchaser of the national forest timber or other forest products shall pay to the Secretary of Agriculture, in addition to the price paid for the timber or other forest prod-
ucts, an amount equal to the estimated cost of the roads which otherwise would be paid by the purchaser as provided in the notice of sale. Pending receipt of such amount, the Secretary may use receipts from the sale of national forest timber or other forest products and such additional sums as may be appropriated for the construction of roads, such funds to be available until expended, to accomplish the requested road construction.

(d) **Authorization of harvesting**

In each sale of national forest timber or other forest products referred to in this section, the Secretary of Agriculture is encouraged to authorize harvest of the timber or other forest products in a unit included in the sale as soon as road work for that unit is completed and the road work is approved by the Secretary.

(e) **Construction standard**

For any forest development road that is to be constructed or paid for by a purchaser of national forest timber or other forest products, the Secretary of Agriculture may not require the purchaser to design, construct, or maintain the road (or pay for the design, construction, or maintenance of the road) to a standard higher than the standard, consistent with applicable environmental laws and regulations, that is sufficient for the harvesting and removal of the timber or other forest products, unless the Secretary bears that part of the cost necessary to meet the higher standard.

(f) **Treatment of road value**

For any forest development road that is to be constructed or paid for by a purchaser of national forest timber or other forest products, the estimated cost of the road construction, including subsequent design changes, shall be considered to be money received for purposes of the payments required to be made under section 500 of this title. To the extent that the appraised value of road construction determined under this subsection reflects funds contributed by the Secretary of Agriculture to build the road to a higher standard pursuant to subsection (e) of this section, the Secretary shall modify the appraisal of the road construction to exclude the effect of the Federal funds.

(g) **Effective date**

(1) This section and the requirements of this section shall take effect (and apply thereafter) upon the earlier of—

(A) April 1, 1999; or

(B) the date that is the later of—

(i) the effective date of regulations issued by the Secretary of Agriculture to implement this section; and

(ii) the date on which new timber sale contract provisions designed to implement this section, that have been published for public comment, are approved by the Secretary.

(2) Notwithstanding paragraph (1), any sale of national forest timber or other forest products for which notice of sale is provided before the effective date of this section, and any effective purchaser road credit earned pursuant to a contract resulting from such a notice of sale or otherwise earned before that effective date shall remain in effect, and shall continue to be subject to section 535 of this title and section 472a(i) of this title, and rules issued thereunder, as in effect on the day before October 21, 1998.

§ 536. Recording of instruments; furnishing of instruments affecting public domain lands to Secretary of the Interior

Copies of all instruments affecting permanent interests in land executed pursuant to sections 532 to 538 of this title shall be recorded in each county where the lands are located. Copies of all instruments affecting interests in lands reserved from the public domain shall be furnished to the Secretary of the Interior.

§ 537. Maintenance and reconstruction by road users; funds for maintenance and reconstruction; availability of deposits until expended, transfer of funds, and refunds

The Secretary may require the user or users of a road under the control of the Forest Service, including purchasers of Government timber and other products, to maintain such roads in a satisfactory condition commensurate with the particular use requirements of each. Such maintenance to be borne by each user shall be proportionate to total use. The Secretary may also require the user or users of such a road to reconstruct the same when such reconstruction is determined to be necessary to accommodate such use. If such maintenance or reconstruction cannot be so provided or if the Secretary determines that maintenance or reconstruction by a user would not be practical, then the Secretary may require that sufficient funds be deposited by the user to provide his portion of such total maintenance or reconstruction. Deposits made to cover the maintenance or reconstruction of roads are hereby made available until expended to cover the cost to the United States of accomplishing the purpose for which deposited: Provided, That deposits received for work on adjacent and overlapping areas may be combined when it is the most practicable and efficient manner of performing the work, and cost thereof may be determined by estimates: And provided further, That unexpended balances upon accomplishment of the purpose for which deposited shall be transferred to miscellaneous receipts or refunded.

§ 538. User fees fund for delayed payments to grantees

Whenever the agreement under which the United States has obtained for the use of, or in connection with, the national forests and other lands administered by the Forest Service a right-of-way or easement for a road or an existing road or the right to use an existing road provides for delayed payments to the Government's grantor, any fees or other collections received by the Secretary for the use of the road may be placed in a fund to be available for making payments to the grantor.

§ 539. Additions to existing national forests; administration

(a) The following units of the National Forest System are hereby expanded:

(1) Chugach National Forest by the addition of four areas, Nellie Juan, College Fjord, Copper-Rude River, and Controller Bay, containing approximately one million nine hundred thousand acres of public land, as generally depicted on the map entitled 'Chugach National Forest additions—proposed', and dated October 1978; and

(2) Tongass National Forest by the addition of three areas, Kates Needle, Juneau Icefield, and Brabazon Range, containing approximately one million four hundred and fifty thousand acres of public lands, as generally depicted on the map entitled 'Tongass National Forest additions—proposed', and dated October 1978.

(b) Subject to valid existing rights, lands added to the Tongass and Chugach National Forests by this section shall be administered by the Secretary in accordance with the applicable provisions of this Act and the laws, rules, and regulations applicable to the national forest system: Provided, That the conservation of fish and wildlife and their habitat shall be the primary purpose for the management of the Copper-Rude River addition and the Copper River-Bering River portion of the existing Chugach National Forest, as generally depicted on the map appropriately referenced and dated October 1978. Provided, That the taking of fish and wildlife shall be permitted within zones established by this subsection pursuant to the provisions of this Act and other applicable State and Federal law. Multiple use activities shall be permitted in a manner consistent with the conservation of fish and wildlife and their habitat as set forth in special regulations which shall be promulgated by the Secretary.

§ 539a. Mining and mineral leasing on certain national forest lands

Subject to valid existing rights, the minerals in public lands within the Copper River addition to the Chugach National Forest, are hereby withdrawn from location, entry, and patent under the United States mining laws. With respect to such areas, the Secretary, under such reasonable regulations as he deems appropriate, may permit the removal of nonleasable minerals from the lands in the manner prescribed by Reorganization Plan Numbered 3 of 1946 and section 520 of this title, and the removal of leasable minerals from such lands in accordance with the mineral leasing laws, if the Secretary finds that such disposition would not have significant adverse effects on the administration of the area. All receipts derived from disposal of nonleasable minerals under this section shall be paid into the same funds or accounts in the Treasury of the United States and shall be distributed in the same manner as provided for receipts from national forests.

§ 539b. Fisheries on national forest lands in Alaska

(a) Regulations for protection and maintenance of habitats

The Secretary of Agriculture shall, in consultation with the Secretaries of Commerce and the Interior, and with the State of Alaska, pursuant to his existing authority to manage surface resources, promulgate such reasonable regulations as he determines necessary after consideration of existing laws and regulations to maintain the habitats, to the maximum extent feasible, of anadromous fish and other foodfish, and to maintain the present and continued productivity of such habitat when such habitats are affected by mining activities on national forest lands in Alaska. The Secretary of Agriculture, in consultation with the State, shall assess the effects on the populations of such fish in determinations made pursuant to this subsection.

(b) Approved plan for mining operations; requirements; review; modification; suspension of activities

Because of the large scale of contemplated mining operations and the proximity of such operations to important fishery resources, with respect to mining operations in the Quartz Hill area of the Tongass National Forest, the regulations of the Secretary shall, pursuant to this subsection, include a requirement that all mining operations involving significant surface disturbance shall be in accordance with an approved plan of operations. Before approving any proposed plan or distinct stages of such plan of operations for any such claims when any fishery habitat or fishery value may be affected, the Secretary shall, in consultation with the Secretaries of Commerce and the Interior and the State of Alaska, determine—

(1) that such plan or stages of such plan are based upon and shall include studies or information which he determines are adequate for—
   (A) evaluating the water quality and water quantity, fishery habitat, and other fishery values of the affected area; and
   (B) evaluating to the maximum extent feasible and relevant, the sensitivity to environmental degradation from activities carried out under such plan of the fishery habitat as it affects the various life stages of anadromous fish and other foodfish and their major food chain components;

(2) that such plan adequately identifies the risks the operations under such plan or such stages might pose to and the benefits the operations under such plan might provide to—
   (A) the natural stability and the present and continued productivity of anadromous fish and other foodfish;
   (B) fishery habitat, including but not limited to water quality and water quantity; and
   (C) other fishery values;

(3) that such plan includes provisions which he determines are adequate for the purposes of—
   (A) preventing significant adverse environmental impacts to the fishery habitat (including but not limited to water quality and water quantity) or other fishery values; and
   (B) maintaining present and continued productivity of the habitat of anadromous fish and other foodfish which might be affected by the mining and other activities proposed to be conducted in accordance with such plan or such stages of the plan of operations;

(4)(A) the Secretary shall ensure, to the maximum extent feasible, that the cumulative effects of activities carried out under the operating plan will not interfere with the ability to collect baseline information needed by the Secretary to evaluate the effects of various stages of the operating plan on the fishery habitat and productivity of such habitats;

(B) the Secretary shall review such plan and mining activities on at least an annual basis. With respect to any mining or associated activities, the Secretary, if he determines upon notice and hearing, that the activities are harmful to the continued productivity of anadromous fish, or other foodfish populations or fishery habitat, shall require a modification of the plan to eliminate or mitigate, if necessary, the harmful effects of such activities; and

(5) upon a finding by the Secretary that a mining activity conducted as a part of a mining operation exists which constitutes a threat of irreparable harm to anadromous fish, or other foodfish populations or their habitat, and that immediate correction is required to prevent such harm, he may require such activity to be suspended for not to exceed seven days, provided the activity may be resumed at the end of said seven-day period unless otherwise required by a United States district court.

(c) Authority of State of Alaska to manage fish and wildlife

Nothing in this section shall enlarge or diminish the responsibility and authority of the State of Alaska to manage fish and wildlife or to exercise its other responsibilities under applicable law.

(d) Authority of Secretary of Agriculture to manage national forests

Except as specifically provided in subsection (b)(5) of this section nothing in this section shall enlarge or diminish the responsibilities and authorities of the Secretary of Agriculture to manage the national forests.

§ 539c. Cooperative fisheries planning; report to Congress

(a) The Secretary of Agriculture is directed to implement a cooperative planning process for the enhancement of fisheries resources through fish hatchery and aquaculture facilities and activities in the Tongass National Forest. Participation in this process shall include but not be limited to the State of Alaska and appropriate nonprofit aquaculture corporations. The Secretary may contract with private, nonprofit associations for services in such planning.
§ 539d. National forest timber utilization program

(a) Tongass National Forest timber supply; satisfaction of certain market demands

Subject to appropriations, other applicable law, and the requirements of the National Forest Management Act of 1976 (Public Law 94–588), except as provided in subsection (d) of this section, the Secretary shall, to the extent consistent with providing for the multiple use and sustained yield of all renewable forest resources, enter into contracts for the supply of timber from the Tongass National Forest which (1) meets the annual market demand for timber from such forest and (2) meets the market demand from such forest for each planning cycle.

(b) Insured and guaranteed loan program for purchasers of national forests materials in Alaska; authorization of appropriations

(1) The Secretary is authorized and directed to establish a special program of insured or guaranteed loans to purchasers of national forest materials in Alaska to assist such purchasers in the acquisition of equipment and the implementation of new technologies which lead to the utilization of wood products which might otherwise not be utilized. The Secretary is authorized to promulgate such regulations as he deems appropriate to define eligibility requirements for the participation in the loan program and the terms and conditions applicable to loans made under the program. Except as otherwise provided in this section or regulations promulgated specifically for this loan program, such program shall be carried out in a manner which is consistent with other authorities available to the Secretary.

(2) To carry out the special loan program established by this section, there are hereby authorized beginning after the fiscal year 1980 to be appropriated $5,000,000 from National Forest Fund receipts, to be deposited in a special fund in the Treasury of the United States to remain available until expended. Repayments of principal and interest and other recoveries on loans authorized by this section shall be credited to this fund and shall remain available until expended in order to carry out the purposes of this section.

(c) Study on increase of timber yields on national forest lands in Alaska; transmittal to Congress

Within three years after December 2, 1980, the Secretary shall prepare and transmit to the Senate and House of Representatives a study of opportunities (consistent with the laws and regulations applicable to the management of the National Forest System) to increase timber yields on national forest lands in Alaska.

(d) Identification of lands not suited for timber production; consideration of economic factors unnecessary

All provisions of section 6(k) of the National Forest Management Act of 1976 (16 U.S.C. 1604(k)) shall apply to the Tongass National Forest except that the Secretary need not consider economic factors in the identification of lands not suited for timber production.

(e) Protection of riparian habitat; maintenance of buffer zones in Tongass National Forest; relocation of prior independent sale or released volume

In order to assure protection of riparian habitat, the Secretary shall maintain a buffer zone of no less than one hundred feet in width on each side of all Class I streams in the Tongass National Forest, and on those Class II streams which flow directly into a Class I stream, within which commercial timber harvesting shall be prohibited, except where independent national forest timber sales have already been sold prior to March 1, 1990, or where volume has been released prior to March 1, 1990, to either the Alaska Pulp Corporation or the Ketchikan Pulp Company pursuant to the long-term timber sale contracts numbered 12–11–010–1545 and A10fs–1042 respectively. If such an independent timber sale or released volume is within the buffer zone, the Secretary shall make every effort to relocate such independent sale or released volume to an area outside of the buffer zone. The Secretary shall use best management practices, as defined in the Region 10 Soil and Water Conservation handbook (FSH 2509.22), January 1990, to assure the protection of riparian habitat on streams or portions of streams not protected by such buffer zones. For the purposes of this subsection, the terms “Class I streams” and “Class II streams” mean the same as they do in the Region 10

1 So in original. Probably should be capitalized.
(f) Timber supply from Tongass National Forest for purchasers qualifying as “small business concerns”

Subject to appropriations, the provisions of this Act and other applicable law (including but not limited to the requirements of the National Forest Management Act of 1976 (Public Law 94–588)) and in order to assure the continuation of the Small Business Administration timber sale program, the Secretary shall, in consultation with the Administrator of the Small Business Administration and to the extent consistent with providing for the multiple use and sustained yield of all renewable forest resources, seek to provide a supply of timber from the Tongass National Forest to those purchasers qualifying as “small business concerns” under the Small Business Act as amended (15 U.S.C. 631 et seq.).

In order to provide for public outdoor recreation use and enjoyment of certain areas within the Sierra National Forest and the Sequoia National Forest, to protect those areas’ natural, archaeological, and scenic resources, and to provide for appropriate fish and wildlife management of those areas, there is hereby established the Kings River Special Management Area (hereinafter in this Act referred to as the “special management area”). The special management area shall be administered by the Secretary of Agriculture (hereinafter in this Act referred to as “the Secretary”) through the Sierra National Forest.

(b) Area included

The special management area shall consist of the lands, waters, and interests therein within the area generally depicted on the map entitled “Boundary Map, Kings River Special Management Area”, dated April 1987. The map shall be on file and available for public inspection in the offices of the National Forest Service, Department of Agriculture. The Secretary of Agriculture may from time to time make minor revisions of the boundary of the special management area.

(c) Administration

The Secretary shall administer the special management area in accordance with this Act and with the provisions of law generally applicable to units of the National Forest System. In the case of any conflict between the provisions of such Acts, the provisions of this Act shall govern. In the administration of the special management area the Secretary may utilize such statutory authority as may be available to him for the conservation of wildlife and natural resources.

resources as he deems necessary to carry out the purposes of this Act. Nothing in this Act shall be construed to prohibit grazing within the special management area to the same extent, and in accordance with the same rules and regulations as applicable in the absence of this Act. The Secretary may permit the cutting of timber within the special management area only in those cases where in the judgment of the Secretary the cutting of such timber is required in order to control the attacks of fire, insects, or diseases or to otherwise conserve the scenery or the natural or historical objects in the area.

(d) Mining and mineral leasing
Subject to valid existing rights, lands within the special management area are withdrawn from location, entry, and patent under the mining laws of the United States, from the operation of the mineral leasing laws of the United States and from operation of the Geothermal Steam Act of 1970 [30 U.S.C. 1001 et seq.].

(e) Hunting and fishing
The Secretary shall permit hunting and fishing on lands and waters within the special management area in accordance with applicable Federal and State law. The Secretary may designate zones where, and establish periods when, such activities will not be permitted for reasons of public safety, administration, fish and wildlife management or public use and enjoyment. Except in emergencies, regulations issued by the Secretary under this subsection shall be put into effect only after consultation with the appropriate State agencies responsible for hunting and fishing activities.

(f) Management plan
After consultation with the State of California, the Secretary shall publish a management plan for the special management area within three years after November 3, 1987. The plan shall provide for public outdoor recreation use and enjoyment of the special management area, protect the area’s natural, archeological, and scenic resources, and provide for appropriate fish and wildlife management within the area. The plan shall contain provisions for management of vegetation within the area designed to enhance the wildlife carrying capacity of the area. The plan shall permit off-road vehicular use of off-road trails to the same extent and in the same locations as was permitted before November 3, 1987. The plan shall provide for the development of hiking trails in the special management area and shall include a trail from Garlic Creek to Little Tehipite Valley.

(g) Access to private lands
If any State or privately owned land or any valid mining claim or other valid occupancy is within the special management area, or if State or private subsurface rights underlie public lands within the special management area, the Secretary shall provide the State or private owner, claimant, or occupier and their successors in interest such rights as may be necessary to assure adequate and feasible access for economic and other purposes to the site concerned. Such rights shall be subject to reasonable regulations issued by the Secretary to protect the natural and other values of the special management area, taking into account the traditional and customary means of access used prior to November 3, 1987.

(h) Specific protections
In recognition of the dispute that exists over whether a dam project should be constructed in the segment of the Main Stem of the Kings River from the point at elevation 1,585 feet above mean sea level downstream to the point at elevation 990 feet above mean sea level, Congress declares its intention at this time not to designate that segment of the Kings River as a component of the Wild and Scenic Rivers System. Notwithstanding any other provision of law, no Federal lands may be used for the construction of any dam or diversion within the boundaries of the special management area without specific authority of the Congress. In order to protect the natural, cultural, recreational, fishery, and wildlife values of the river segment referred to in this subsection, that segment shall be subject to the provisions of section 1278(a) of this title, in the same manner as if it were designated. Nothing in this Act shall preclude the Kings River Conservation District from conducting studies as it may deem appropriate.

“SEC. 602. FINDINGS AND PURPOSE.

“(a) FINDINGS.—Congress finds that—

“(1) certain parcels of private land located in central and southwest Washington are intermingled with National Forest System land owned by the United States and administered by the Secretary of Agriculture as parts of the Mt. Baker-Snoqualmie National Forest, Wenatchee National Forest, and Gifford Pinchot National Forest;

“(2) the private land surface estate and some subsurface is owned by the Plum Creek Timber Company, L.P. in an intermingled checkerboard pattern, with the United States or Plum Creek owning the outside square mile sections of land or fractions of square mile sections;

“(3) the checkerboard land ownership pattern in the area has frustrated sound and efficient land management on both private and National Forest lands by complicating fish and wildlife habitat management, watershed protection, recreation use, road construction and timber harvest, boundary administration, and protection and management of threatened and endangered species and old growth forest habitat;

“(4) acquisition by the United States of certain parcels of land that have been offered by Plum Creek for addition to the Mt. Baker-Snoqualmie National Forest and Wenatchee National Forest will serve important public objectives, including—

“(A) enhancement of public access, aesthetics and recreation opportunities within or near areas of very heavy public recreational use including—

“(i) the Alpine Lakes Wilderness Area;

“(ii) the Pacific Crest Trail;

“(iii) Snoqualmie Pass;

“(iv) Cle Elum Lake, Kachess Lake and Keechelus Lake; and

“(v) other popular recreation areas along the Interstate 90 corridor east of the Seattle-Tacoma Metropolitan Area;

“(B) protection and enhancement of old growth forests and habitat for threatened, endangered and
sensitive species, including a net gain of approximately 28,500 acres of habitat for the northern spotted owl;

(1) Consolidation of National Forest holdings for more efficient administration and to meet a broad array of ecosystem protection and other public land management goals, including net public gains of approximately 263 miles of stream ownership, 14 miles of the route of the Pacific Crest Trail, 20,000 acres of unroaded land, and 7,360 acres of riparian land; and

(2) A significant reduction in administrative costs to the United States through—

‘‘(i) consolidation of Federal land holdings for more efficient land management and planning;

‘‘(ii) elimination of approximately 300 miles of boundary identification and posting;

‘‘(iii) reduced right-of-way, special use, and other permit processing and issuance for roads and other facilities on National Forest System land; and

‘‘(iv) other administrative cost savings;

‘‘(5) Plum Creek has selected certain parcels of National Forest System land that are logical for consolidation into Plum Creek ownership utilizing a land exchange because the parcels—

‘‘(A) are intermingled with parcels owned by Plum Creek; and

‘‘(B)(i) are generally located in less environmentally sensitive areas than the Plum Creek offered land; and

‘‘(ii) have lower public recreation and other public values than the Plum Creek offered land;

‘‘(6) time is of the essence in consummating a land exchange because delays may force Plum Creek to road or log the offered land and thereby diminish the public values for which the offered land is to be acquired; and

‘‘(7) it is in the public interest to complete the land exchange at the earliest practicable date so that the offered land can be acquired and preserved by the United States for permanent public management, use, and enjoyment.

‘‘Purpose.—It is the purpose of this Act to further the public interest by authorizing, directing, facilitating, and expediting the consummation of the Interstate 90 land exchange so as to ensure that the offered land is expeditiously acquired for permanent public use and enjoyment.

‘‘SEC. 603. DEFINITIONS.

In this subsection, the term “landowner” means the owner of legal or equitable title as of September 1, 2000.

(2) Appraisal standards

Except as provided in paragraph (3), land acquired or conveyed by purchase or exchange under this section shall be appraised in conformity with the Uniform Appraisal Standards for Federal Land Acquisitions.

(3) Special management areas

(A) Before April 1, 2001

Land within a special management area for which the landowner, before April 1, 2001, makes a written bona fide offer to convey to the Secretary for fair market value shall be appraised—

(i) without regard to the effect of any zoning or land use restriction made in response to sections 544 to 544p of this title; but

(ii) subject to any other current zoning or land use restriction imposed by the State or locality in which the land is located on the date of the offer.

(B) On or after April 1, 2001

Land within a special management area for which the landowner, on or after April 1, 2001, makes a written bona fide offer to convey to the Secretary for fair market value shall be appraised subject to—

(i) any zoning or land use restriction made in response to sections 544 to 544p of this title; and

(ii) any other current zoning or land use restriction that applies to the land on the date of the offer.

(f) Authorization for certain land exchanges

(1) In general

To facilitate priority land exchanges through which land within the boundaries of the White Salmon Wild and Scenic River or within the scenic area is conveyed to the United States, the Secretary may accept title to such land as the Secretary determines to be appropriate within the States, regardless of the State in which the land conveyed by the Secretary in exchange is located, in accordance with land exchange authorities available to the Secretary under applicable law.

(2) Special rule for land certain exchanges

Notwithstanding any other provision of law—

(A) any exchange described in paragraph (1) for which an agreement to initiate has been executed as of September 30, 2000, shall continue; and

(B) any timber stumpage proceeds collected under the exchange shall be retained by the Forest Service to complete the exchange.

(g) Boundaries

For the purposes of section 460l–9 of this title, the boundaries of the scenic area, including special management areas and the Dodson/Warrendale Special Purchase Unit shall be treated as if they were within the boundaries of the Mount Hood or Gifford Pinchot National Forests as of January 1, 1965.

AMENDMENTS

2000—Subsecs. (e) to (g). Pub. L. 106–291 added subsecs. (e) and (f) and redesignated former subsec. (e) as (g).

PUBLICATION OF NOTICE

Pub. L. 106–291, title III, §346(c), Oct. 11, 2000, 114 Stat. 1000, provided that:

“(1) Not later than November 1, 2000, the Secretary of Agriculture shall provide notice of the provisions contained in the amendments made by subsections (a) and (b) [amending this section and section 544f of this title] through—

“(A) publication of a notice in the Federal Register and in newspapers of general circulation in the counties in the Columbia River Gorge National Scenic Area; and

“(B) posting of a notice in each facility of the United States Postal Service located in those counties.

“(2) If the counties wherein special management areas are located provide the Forest Service administrator of the Columbia River Gorge National Scenic Area lists of the names and addresses of landowners within the special management areas as of September 1, 2000, the Forest Service shall send to such landowners notices certifying that the provisions contained in the amendments made by subsections (a) and (b):

“(A) the mailing shall occur within twenty working days of the receipt of the list; and

“(B) the mailing shall constitute constructive notice to landowners, and proof of receipt by the addressee shall not be required.”

CONVYANCE OF LANDS BETWEEN SKAMANIA COUNTY AND THE UNITED STATES

“Upon the condition that Skamania County conveys title acceptable to the Secretary of Agriculture to all right, title and interest in lands identified on a map dated September 29, 1998 entitled ‘Skamania County Lands to be Transferred’, such lands being located on Table Mountain lying within the Columbia River Gorge National Scenic Area, there is hereby conveyed to Skamania County, notwithstanding any other provision of law, the Wind River Nursery Site lands and fa-
cilities and all interests therein, except for the corridor of the Pacific Crest National Scenic Trail, as depicted on a map dated September 29, 1998, entitled ‘Wind River Conveyance’, which is on file and available for public inspection in the Office of the Chief, USDA Forest Service, Washington, D.C.

“The conveyance of lands to Skamania County shall become automatically effective upon a determination by the Secretary that Skamania County has conveyed acceptable title to the United States to the Skamania County lands. Lands conveyed to the United States shall become part of the Gifford Pinchot National Forest and shall have the status of lands acquired under the Act of March 1, 1911, (commonly called the Weeks Act) [see Short Title note set out under section 552 of this title] and shall be managed in accordance with the laws and regulations applicable to the National Forest System.”

**LAND EXCHANGES**

Pub. L. 105–83, title III, §336, Nov. 14, 1997, 111 Stat. 1602, provided that: “To facilitate priority land exchanges through which the United States will receive land within the White Salmon Wild and Scenic River boundaries and within the Columbia River Gorge National Scenic Area, the Secretary of Agriculture may, until September 30, 2000, accept title to such lands deemed appropriate by the Secretary within the States of Oregon and Washington, regardless of the State in which the transferred lands are located, following existing exchange authorities.”

**WIND RIVER NURSERY**

“(a) The Secretary of Agriculture is authorized and directed to negotiate with Skamania County for the exchange of lands or interests in lands constituting the Wind River Nursery Site within the Gifford Pinchot National Forest, Washington.

“(b) Before this exchange can occur, it must be of equal value and the Secretary and the Skamania County Board of Commissioners must agree on the exact parcels of land to be included in the exchange. An agreement signed by the Secretary of Agriculture and the Skamania County Board of Commissioners describing the properties involved and a certification that the exchange is of equal value must be completed no later than September 30, 1999.

“(c) During this two-year negotiating period, the Wind River Nursery property shall not be conveyed to another party. The Forest Service shall maintain the site in a tenantable condition.

“(d) Except as provided herein, the exchange shall be for equal value in accordance with land exchange authorities applicable to the National Forest System.

“(e) The Secretary is directed to equalize values by not only cash and exchange of lands, easements, reservations, and other interests in lands, but also by full value credit for such services as Skamania County provides to the Gifford Pinchot and Columbia River Gorge National Scenic Area and as the Secretary and Skamania County deem appropriate. The Secretary may accept services in lieu of cash when the Secretary can discern cash value for the services and when the Secretary determines such services would provide direct benefits to lands and resources and users of such lands and resources under the jurisdiction of the Secretary.

“(g) Any cash equalization which Skamania County elects to make may be made up to 50 percent of the fair market value of the Federal property, and such cash equalization may be made in installments over a period not to exceed 25 years. Payments received as partial consideration shall be deposited into the fund in the Treasury established under the Act of December 4, 1967 [16 U.S.C. 484a], commonly known as the Sisk Act, and shall be available for expenditure as provided in the Act except that the Secretary may not use those funds to purchase lands within Skamania County.

“(h) In defining the Federal estate to be conveyed, the Secretary may require such additional terms and conditions as deemed necessary in connection with assuring equal value and public interest considerations in this exchange including, but not limited to, continued research use of the Wind River Experimental Forest and protection of natural, cultural, and historic resources, existing administrative sites, and a scenic corridor for the Pacific Crest National Scenic Trail.

“(i) This authorization is predicated on Skamania County’s Board of Commissioners commitment to give foremost consideration to preservation of the overall integrity of the site and conservation of the educational and research potential of the site, including providing for access to and conservation of the site, administration and operation of forestry research on the adjacent Thornton Munger Research Natural Area.

“(j) The Secretary is further directed to cooperate with Skamania County to address applicable Federal and State environmental laws.

“(k) Notwithstanding the processes involved with the National Environmental Policy Act [of 1969, 42 U.S.C. 4321 et seq.] and the State Environmental Policy Act, should the Secretary of Agriculture and the Skamania County Board of Commissioners fail to reach an agreement on an equal value exchange defined under the terms of this legislation by September 30, 1999, the Wind River Nursery Site shall remain under Forest Service ownership and be maintained by the Forest Service in a tenantable condition.”

§ 544h. Interim management

**(a) Interim guidelines**

(1) Within one hundred eighty days after November 17, 1986, the Secretary shall develop interim guidelines for the scenic area outside urban areas to identify land use activities which are inconsistent with sections 544 to 544p of this title and to govern the authority to acquire land without the consent of the owner provided by subsection (b) of this section. The Secretary shall promptly notify the public of adoption of the interim guidelines and transmit the guidelines to each county. Guidelines adopted by the Secretary pursuant to this subsection shall remain in effect for each county until the Secretary has developed guidelines for the special management areas pursuant to section 544f of this title and the land use ordinances prescribed by section 544e of this title are in effect.

**Interim acquisition authority and injunctive relief**

Prior to the concurrence by the Secretary of land use ordinances prescribed by section 544f of this title and the approval by the Commission of land use ordinances prescribed by section 544e of this title, the following authorities are granted: (1) The Secretary may acquire by condemnation any land or interest which is being used or threatened to be used in a manner inconsistent with the purposes for which the scenic area was established and which will cause or is likely to cause impacts adversely affecting the

scenic, cultural, recreation, and natural resources of the scenic area: Provided, That no lands or interests therein can be acquired by condemnation pursuant to this section if used in the same manner and for the same purposes as used on November 17, 1986, unless such land is used for or interest is in the development of sand, gravel, or crushed rock, or the disposal of refuse: Provided further, That within thirty days of the filing by the Secretary of a complaint for condemnation of any land or interest in the scenic area, outside of the special management areas and urban areas, the Commission, by a vote of two-thirds of its membership including a majority of the members appointed from each State, or if the Commission is not in existence the Governor of the State in which the land or interest is located, may disapprove such proposed complaint.

(2) Upon or after the commencement of any action for condemnation pursuant to this subsection, the Secretary, acting through the Attorney General of the United States, may apply to the appropriate United States District Court for a temporary restraining order or injunction to prohibit the use of any property within the scenic area, but outside of urban areas, which will cause or is likely to cause impacts adversely affecting the scenic, cultural, recreation and natural resources of the scenic area or is otherwise inconsistent with the purposes for which the scenic area was established. During the period of such order or injunction, the Secretary shall diligently and in good faith negotiate with the owner of the property to assure that, following termination of the order or injunction, the inconsistent use is abated or the adverse effect is mitigated.

(c) Review of development action

Prior to the effective date of a land use ordinance for each county pursuant to section 544e of this title, and concurrence of the Secretary on a land use ordinance for each county pursuant to section 544f of this title, the Commission shall review all proposals for major development actions and new residential development in such county in the scenic area, except urban areas. The Commission shall allow major development actions and new residential development only if it determines that such development is consistent with the standards contained in section 544d of this title and the purposes of sections 544 to 544p of this title.

§ 544j. Old Columbia River Highway

The Oregon Department of Transportation shall, in consultation with the Secretary and the Commission, the State of Oregon and the counties and cities in which the Old Columbia River Highway is located, prepare a program and undertake efforts to preserve and restore the continuity and historic integrity of the remaining segments of the Old Columbia River Highway for public use as a Historic Road, including recreation trails to connect intact and usable segments.

§ 544k. Tributary rivers and streams

(a) Water resources projects

The following rivers and streams shall be subject to the same restrictions on the licensing, permitting, and exempting from licensing and the construction of water resource projects as provided for components of the National Wild and Scenic Rivers System pursuant to section 7(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1278(a)):

1 So in original. Probably should be “subsection“.

(2) any river or river segment which flows in whole or in part through the scenic area and which is established pursuant to State law as a wild, scenic, or recreation river or which is under study pursuant to State law for the potential inclusion in any such State protected river system, unless such project or projects meet terms and conditions set by State agencies exercising administration over such river or river segment;

(3) the Wind River, Washington, for a period not less than three years following the later of—

(B) submittal by the Secretary of a report to the President on the suitability or non-suitability for addition to the national wild and scenic rivers system and a report by the President to the Congress of recommendations and proposals with respect to the designation of such river under the Wild and Scenic Rivers Act (16 U.S.C. 1271 et seq.);

(4) the Hood River, Oregon, if such facility impounds or diverts water other than by means of a dam or diversion existing as of November 17, 1986; and

(5) the segment of the Little White Salmon, Washington, from the Willard National Fish Hatchery to its confluence with the Columbia River if such facility impounds or diverts water other than by means of a dam or diversion existing as of November 17, 1986.

(b) Exceptions

The provisions of subsection (a) of this section shall not apply to those portions of tributary rivers or streams to the Columbia River which flow through or border on Indian reservations. Nothing in this section shall apply to or affect any segment of any river designated as a wild and scenic river under section 3 of the Wild and Scenic Rivers Act (16 U.S.C. 1274) or any river designated for study under section 5 of such Act (16 U.S.C. 1276).

(b) In order to insure a stable and efficient organization for the development and administration of the lands acquired under sections 567a to 567c of this title, the State shall provide for the employment of a State forester, who shall be a trained forester of recognized standing.

(c) The Secretary of Agriculture and the appropriate authorities of each cooperating State shall work out a mutually satisfactory plan defining forest areas within the State which can be most effectively and economically administered by said State, which plan shall constitute a part of the cooperative agreement between the United States and the State concerned: Provided, That nothing herein shall be held to prevent the Secretary of Agriculture from later agreeing with the proper State authorities to desirable modifications in such plan.

(d) No payment of Federal funds shall be made for land selected for purchase by the United States under sections 567a to 567c of this title until such proposed purchase has been submitted to and approved by the National Forest Reservation Commission created by section 513 of this title.

(e) Subject to the approval of the National Forest Reservation Commission, the Secretary of Agriculture is authorized to pay out of any available money appropriated for carrying out the purposes of sections 567a to 567c of this title any State, county, and/or town taxes, exclusive of penalties, due or accrued on any forest lands acquired by the United States under donations from the owners thereof and whichlands are to be included in a State or other public forest pursuant to said sections.

(g) That with the exception of such Federal expenditures as may be made for unemployment relief, the State shall pay without assistance from the Federal Government the entire future cost of administering, developing, and managing all forest lands acquired and over which it has been given jurisdiction under sections 567a to 567c of this title.

(h) During the period any cooperative agreement made under sections 567a to 567c of this title remains in force, one-half of the gross proceeds from all lands covered by said agreement and to which the United States holds title shall be paid by the State to the United States and covered into the Treasury. All such payments shall be credited to the purchase price the State is to pay the United States for said land, such purchase price to be an amount equal to the total sum expended by the United States in acquiring said lands. Upon payments of the full purchase price, either as herein provided or otherwise, title to said lands shall be transferred from the Federal Government to the State, and the Secretary of Agriculture is authorized to take such action and incur such expenditures, as may be necessary to effectuate such transfer.

(i) Upon the request of the State concerned, any agreement made pursuant to sections 567a to 567c of this title may be terminated by the Secretary of Agriculture. The Secretary of Agriculture may, with the consent and approval of the National Forest Reservation Commission, after due notice given the State and an opportunity for hearing by said Commission, terminate any such agreement for violations of its terms and/or the provisions of said sections of this title. If such agreement is terminated, the United States shall reimburse the State for so much of the State funds as have been expended in the administration, development, and management of the lands involved as the Secretary of Agriculture may decide to be fair and equitable.

(1) To provide national forest grazing permittees means for the expression of their recommendations concerning the management and administration of national forest grazing lands, a local advisory board shall be constituted and elected as hereinafter provided for each national forest or administrative subdivision thereof, whenever a majority of the grazing permittees of such national forest or administrative subdivision so petitions the Secretary of Agriculture. Each elected local advisory board existing for such purpose on April 24, 1950, and recognized as such by the Department of Agriculture, shall continue to be the local advisory board for the unit or area it represents, until replaced by a local advisory board or boards constituted and elected as hereinafter provided.

TRANSFER OF FUNCTIONS

Functions of all officers, agencies, and employees of Department of Agriculture transferred with certain exceptions, to Secretary of Agriculture by Reorg. Plan No. 2 of 1950, §1, eff. June 16, 1953, 18 F.R. 3219, 67 Stat. 633, set out as a note in Appendix to Title 5, Government Organization and Employees.

PREAMBLE

The preamble to act Oct. 11, 1949, provided that:

“Whereas the national forests of the United States contain approximately eighty million acres of the Nation’s commercial timber lands and approximately eighty-three million acres of the Nation’s important grazing lands; and

“Whereas these national-forest lands comprise the principal source of water supply for domestic, irrigation, and industrial purposes for thousands of communities, farms, and industries, and good forest and other vegetative cover is essential for watershed protection; and

“Whereas these lands annually supply approximately four billion board-feet of forest products through twenty-seven thousand sales transactions and the demand for national forest timber is steadily increasing; and

“Whereas these lands are the sole or main source of summer range for ten million cattle and sheep grazed by thirty thousand livestock permittees whose livelihood is wholly or partially dependent upon livestock grazed on national-forest ranges; and

“Whereas these lands contain over four million acres of denuded and unsatisfactorily stocked timberlands and an additional four million acres of seriously depleted range lands; and

“Whereas all of these lands are potentially capable of producing an important part of the timber and forage needs of local communities, and contributing to the protection of watersheds, thereby alleviating flood damage and insuring a continuing water supply, increasing opportunity for local employment, bringing greater stability to local communities, and increasing returns to counties in the national forests from their share of national forests receipts, together with other benefits; and

“Whereas these lands will not restock or revegetate satisfactorily or within a reasonable time except through reforestation and revegetation or other measures to induce restocking or revegetation; and

“Whereas it is practical to reforest these denuded and unsatisfactorily stocked timber lands and revegetate these seriously depleted range lands in a period of fifteen years; and

“Whereas it is necessary to provide reasonable continuity of reforestation and revegetation programs in order to insure effective, efficient, and economical operations: Therefore be it.”

§ 581k. Authorization of appropriations for reforestation and revegetation

For the purpose of carrying out the provisions of this joint resolution on national-forest lands and other lands under the administration or control of the Forest Service of the Department of Agriculture, including the acquisition of land or interests therein for nurseries, there is authorized to be appropriated to remain available until December 31 of the ensuing fiscal year, $3,000,000 for the fiscal year ending June 30, 1951; $5,000,000 for the fiscal year ending June 30, 1952; $7,000,000 for the fiscal year ending June 30, 1953; $8,000,000 for the fiscal year ending June 30, 1954; $10,000,000 for the fiscal year ending June 30, 1955; a like amount for each subsequent year through the fiscal year ending June 30, 1965, and thereafter such amounts as may be needed for reforestation; and $1,500,000 for the fiscal year ending June 30, 1951; $1,750,000 for the fiscal year ending June 30, 1952; $2,000,000 for the fiscal year ending June 30, 1953; $2,500,000 for the fiscal year ending June 30, 1954; $3,000,000 for the fiscal year ending June 30, 1955; a like amount for each subsequent year through the fiscal year ending June 30, 1965, and thereafter such amounts as may be needed for range revegetation.

SUBCHAPTER III—RESEARCH PROGRAMS
§ 582a. Congressional findings

It is recognized that research in forestry is the driving force behind progress in developing and utilizing the resources of the Nation's forest and related rangelands. The production, protection, and utilization of the forest resources depend on strong technological advances and continuing development of the knowledge necessary to increase the efficiency of forestry practices and to extend the benefits that flow from forest and related rangelands. It is recognized that the total forestry research efforts of the several State colleges and universities and of the Federal Government are more fully effective if there is close coordination between such programs, and it is further recognized that forestry schools are especially vital in the training of research workers in forestry. It is also recognized that the provisions of this subchapter are essential to assist in providing the research background that undergirds the Forest and Rangeland Renewable Resources Planning Act of 1974, the Renewable Resources Extension Act of 1978, and the Soil and Water Resources Conservation Act of 1977.

duction of the commodity during the ten calendar years immediately preceding the calendar year in which the national acreage allotment is determined (plus, in applicable years, the acreage diverted under previous agricultural adjustment and conservation programs), with adjustments for abnormal weather conditions and trends in acreage during the applicable period.

(2) In the case of wheat, the allotment to any county shall be apportioned annually by the Secretary, through the local committees, among the farms within such county on the basis of tillable acres, crop-rotation practices, type of soil, and topography. If for any reason there is no actual yield, or the data therefor are not available for any year, then an appraised yield for such year, determined in accordance with regulations of the Secretary, shall be used. The allotments so made for any farm, including a farm on which wheat has not been planted during any of the three marketing years preceding the marketing year in which the allotment is made, shall compare with the allotments established for other farms in the same area which are similar except for the past acreage of wheat.

(6) In determining normal yield per acre for any farm under this section in the case of wheat or corn, the normal yield shall be the average yield per acre thereon for such commodity during the ten calendar years immediately preceding the calendar year in which such yield is determined, adjusted for abnormal weather conditions and trends in yields. If for any such year the data are not available, or there is no actual yield for the farm, then the normal yield for the farm shall be appraised in accordance with regulations of the Secretary, taking into consideration abnormal weather conditions, the normal yield for the county, and the yield in years for which data are available.

A payment that may be made to a producer under this section may be assigned only in accordance with regulations issued by the Secretary. L. 104–127 substituted “section 590g” for “sections 590g and 590h”, struck out “A specified amount or percentage of the appropriation shall be designated for long-term agreements based on farm and ranch conservation plans approved by local conservation districts, where such districts are organized,” before “The Secretary shall distribute”, and struck out last par. which read as follows: “Notwithstanding the foregoing provisions of this section and the provisions of section 590g(b) of this title, programs of soil-building practices, soil- and water-conserving practices, and agriculture-related pollution prevention and abatement practices shall be based on a distribution of the funds available for payments and grants among the several States in accordance with their conservation needs, as determined by the Secretary, except that the proportion allocated to any State shall not be reduced by more than 15 per centum from the distribution of such funds for the next preceding program year. In carrying out such programs, the Secretary shall give particular consideration to conservation problems on farm lands diverted from crops under acreage allotment programs and to the maintenance of a proper balance between soil conserving and soil depleting crops on the farm.”

1997—Pub. L. 96–113 inserted provisions directing that appropriated funds be available until expended, that funds be made available for long-term agreements, and that the Secretary distribute the available funds among the several States in accordance with their conservation needs as determined by the Secretary and struck out provisions setting out a formula for determining the proper allocation of funds as between the various commodities and making reference to programs of soil-building practices, soil-conserving and water-conserving practices, and agricultural-related pollution prevention and abatement practices.

1972—Pub. L. 92–419 made provisions of last paragraph respecting distribution of funds applicable to programs of agriculture-related pollution prevention and abatement practices.

The Secretary of Agriculture shall not enter into an agreement in the States of North Da-
kota, South Dakota, and Minnesota to provide financial or technical assistance for wetland drainage on a farm under authority of this chapter, if the Secretary of the Interior has made a finding that wildlife preservation will be materially harmed on that farm by such drainage and that preservation of such land in its undrained status will materially contribute to wildlife preservation and such finding, identifying specifically the farm and the land on that farm with respect to which the finding was made, has been filed with the Secretary of Agriculture within ninety days after the filing of the application for drainage assistance: Provided, That the limitation against furnishing such financial or technical assistance shall terminate (1) at such time as the Secretary of the Interior notifies the Secretary of Agriculture that such limitation should not be applicable, (2) one year after the date on which the adverse finding of the Secretary of the Interior was filed unless during that time an offer has been made by the Secretary of the Interior or a State government agency to lease or to purchase the wetland area from the owner thereof as a waterfowl resource, or (3) five years after the date on which such adverse finding was filed if such an offer to lease or to purchase such wetland area has not been accepted by the owner thereof: Provided further, That upon any change in the ownership of the land with respect to which such adverse finding was filed, the eligibility of such land for such financial or technical assistance shall be redetermined in accordance with the provisions of this section.

§ 590q–3. Critical lands resource conservation program in Great Plains area

Notwithstanding any other provision of law—

(a) Authorization for program

The Secretary of Agriculture is authorized to formulate and carry out a program with owners and operators of land in the Great Plains area as described in section 590qb of this title to reduce runoff, soil and water erosion, and otherwise to promote the conservation of soil and

1 See References in Text note below.
water resources in such area through the conversion of cropland from soil depleting uses to conserving uses including the production of soil conserving cover crops.

(b) Terms of agreements with owners or operators

To effectuate the purposes of the program, the Secretary may enter into an agreement for a two-year period with an owner or operator as described in subsection (a) of this section whereby the owner or operator shall agree to devote to a soil conserving cover crop a specifically designated acreage of cropland on the farm up to 50 per centum of the acreage which had been planted to any soil depleting crop or crops in any of the two years preceding the date of the agreement. The agreement shall be renewable for annual periods thereafter subject to the mutual agreement of the owner or operator and the Secretary. In such agreement, the owner or operator shall agree (1) to plant a legume, or if not adapted to such area, an annual, biennial, or a perennial cover crop, as specified in the agreement; (2) to divert from production such portion of one or more crops designated by the Secretary as the Secretary determines necessary to effectuate the purpose of the program; (3) not to harvest any crop from or graze the designated acreage during the agreement period, unless the Secretary determines that it is necessary to permit grazing or harvesting in order to alleviate damage, hardship, or suffering caused by severe drought, flood, or other natural disaster, and consents to such grazing or harvesting subject to an appropriate reduction in the rate of payment; (4) to give adequate assurance, as specified by the Secretary, that the land was not acquired for the purpose of placing it in the program: Provided, That the foregoing provision shall not prohibit the continuation of an agreement by a new owner if an agreement has once been entered into under this section nor prevent an owner or operator from placing a farm in the program if the farm was acquired by the owner to replace an eligible farm from which he was displaced because of its acquisition by any Federal, State, or other agency having the right of eminent domain; (5) to forfeit all rights to further payments under the agreement and refund to the United States all payments received thereunder upon his violation of the agreement at any stage during the time he has control of the land if the Secretary determines that such violation is of such a nature as to warrant termination of the agreement, or to make refunds or accept such payment adjustments as the Secretary may deem appropriate if the Secretary determines that the violation by the owner or operator does not warrant termination of the agreement; (6) upon transfer of his right and interest in the farm, during the agreement period, to forfeit all rights to further payments under the agreement and refund to the United States all payments received thereunder unless the transferee of any such land agrees with the Secretary to assume all obligations of the agreement; (7) not to adopt any practice specified by the Secretary in the agreement as a practice which would tend to defeat the purposes of the agreement; and (8) to such additional provisions as the Secretary determines are desirable to effectuate the purposes of the program or to facilitate the practical administration of the program, including such measures as the Secretary may deem appropriate to keep the designated acreage from eroding and free from weeds and rodents in accordance with good conservation systems.

(c) Annual adjustment payments

In consideration for such agreement, the Secretary shall make annual adjustment payments to the owner or operator for the period of the agreement at such rate or rates not in excess of $30 per acre as the Secretary determines to be fair and reasonable. The Secretary may use an advertising and bid procedure in determining the lands in any area to be covered by agreements and the payment rate therefor. The Secretary and the owner or operator may agree that the annual adjustment payments for the agreement period shall be made either upon approval of the Secretary of the agreement or in such installments as they may agree to be desirable: Provided, That for each year any annual adjustment payment is made in advance of performance, the annual adjustment payment shall be reduced by 5 per centum.

(d) Termination of agreements

The Secretary may terminate any agreement under the program, by mutual agreement with the owner or operator, if the Secretary determines that such termination would be in the public interest, and may agree with the owner or operator to such modification of agreements as the Secretary may determine to be desirable to carry out the purposes of the program or facilitate its administration.

(e) Preservation of cropland, crop acreage, and allotment history

The Secretary may, to the extent the Secretary deems it desirable, provide by appropriate regulations for preservation of cropland, crop acreage, and allotment history applicable to acreage diverted from the production of crops to establish vegetative cover for the purpose of any Federal program under which such history is used as a basis for an allotment or other limitation or for participation in such program.

(f) Utilization of Federal and non-Federal offices

In carrying out the program, the Secretary shall utilize the services of local, county, and State committees established under section 590h of this title and the technical services of the Soil Conservation Service and soil and water conservation districts.

(g) Program payments

In case any producer who is entitled to any payment under the program dies, becomes incompetent, or disappears before receiving such payment, or is succeeded by another who renders or completes the required performance, the payment shall, without regard to any other provisions of law, be made as the Secretary may determine to be fair and reasonable.

(b) Tenants and sharecroppers

The Secretary shall provide adequate safeguards to protect the interests of tenants and
sharecroppers, including provision for sharing, on a fair and equitable basis, in payments under the program.

(i) Rules and regulations

The Secretary shall prescribe such regulations as the Secretary determines necessary to carry out the provisions of this section.

(j) Authorization of appropriations; utilization of Commodity Credit Corporation

There are authorized to be appropriated for the period beginning October 1, 1977, and ending September 30, 1981, such sums as may be necessary to carry out the program provided for in this section. The Secretary is authorized to utilize the facilities, services, and authorities of the Commodity Credit Corporation in discharging the Secretary’s functions and responsibilities under the program, including payment of costs of administration: Provided, That the Commodity Credit Corporation shall not make any expenditures for such purposes unless the Corporation has received funds to cover such expenditures from appropriations made to carry out this section.

(i) the engineering feasibility of the proposed construction;
(ii) the estimated cost of the proposed construction;
(iii) the part of the estimated cost which properly can be allocated to irrigation;
(iv) the part of the estimated cost which probably can be repaid by the water users in accordance with the requirements of section 590z–2 of this title;
(v) the part of the estimated cost which can properly be allocated to municipal or miscellaneous water supplies or power and probably be returned to the United States in revenues therefrom;
(vi) the part of the estimated cost which can probably be allocated to flood control as recommended by the Secretary after consultation with the Chief of Engineers, Department of the Army.

In connection with each such investigation, report, and finding, the Secretary shall consult with the Secretary of Agriculture regarding participation in the proposed project by the Department of Agriculture under the authority of sections 590z–3 and 590z–4 of this title; and the Secretary shall also transmit to the President a report by the Secretary of Agriculture to the President on the participation, if any, proposed by the Department of Agriculture. The term “project”, as used in subsection (b) of this section and section 590z–2 of this title, shall be deemed to mean also “division of a project”, designated as provided in this subsection. Any project authorized for construction from appropriations under the head “Water Conservation and Utility Projects” in the Interior Department Appropriation Act, 1940 [ch. 119] (53 Stat. 685), hereinafter called the 1940 water conservation appropriation, may be designated by the Secretary, upon agreement with the Secretary of Agriculture, a project under this subchapter, and shall thereupon be subject to all the provisions and requirements thereof, except those of subsections (a) and (b) of this section.

TRANSFER OF FUNCTIONS

§ 590z–2. Repayment contracts

(a) Necessity

No water for irrigation may be delivered from the works of any project constructed under the authority of this subchapter until after the repayment contract or contracts required by this section have been executed. Where practicable in the judgment of the Secretary, the repayment contract shall be with a water users' organization or organizations satisfactory in form and powers to the Secretary; and otherwise the repayment contract shall be with the individual landowners. The contract or contracts shall contain such provisions as the Secretary deems necessary to carry out the purposes of this subchapter and to protect the interests of the United States.

(b) “Reimbursable construction costs” defined

The term “reimbursable construction costs,” as used in this subchapter means that part of the costs of investigating, constructing, and operating and maintaining the project, which are allocated by the Secretary to irrigation, and which are met by expenditures of moneys therefore appropriated under the authority of section 590z–10(1) of this title, plus such amounts as the President, under section 590z–2(1) of this title, may determine to be reimbursable: Provided, That administrative expenses incurred in the District of Columbia in connection with the investigation construction, or operation and maintenance of a project shall not be included in the reimbursable construction costs nor shall they be charged to the water users in any way.

(c) Terms

The repayment contract or contracts for a project shall, in their aggregate, provide for repayment to the United States of the total amount of the reimbursable construction costs of the project allocated to irrigation. Each such contract shall provide, among other things, that—

(1) The Secretary shall fix a development period for each project of not to exceed ten years from and including the first calendar year in which water is delivered for the lands in said project; and during the development period water shall be delivered to the lands in the project involved at a charge per acre-foot, or other charge, to be fixed by the Secretary each year and to be paid in advance of delivery of water. Such charges shall be fixed with a view of returning such amounts as in the Secretary's judgment are justified by the rate of project development, including as a minimum the return over the full development period of that part of the cost of operating and maintaining the project, during said period, allocated by the Secretary to irrigation; and collections of such charges in excess of the cost of the operation and maintenance during the development period, as thereafter determined by the Secretary, shall be credited to the reimbursable construction costs of the project in the manner determined by the Secretary.

(2) The United States shall operate and maintain the project during the development period fixed for it. After the development period, the United States shall operate and maintain the project or any part thereof as long as is deemed necessary by the Secretary, and shall be paid in advance for each year that part of the estimated cost of operating and maintaining the project for such year allocated by the Secretary to irrigation. In the event charges due the United States are not paid when due the United States may, at its election, suspend operations in whole or in part.

(3) The repayment of the reimbursable construction costs, except as to Indian lands which shall be repayable in accordance with existing law relating to Indian lands, shall be spread in not to exceed forty annual installments, of the number and amounts fixed by the Secretary; and the first annual installment under each contract shall become due and payable on the date fixed by the Secretary, in the year next following the last year of the development period fixed under subsection (c)(1) of this section: Provided, That the provisions of this subsection shall not be construed to modify the provisions of special legislation pertaining to any particular project.

(4) The water users or their organization will take such measures as the Secretary deems proper to secure the adoption of proper accounting, to protect the condition of project works, and to provide for the proper use thereof, and to protect project lands against deterioration due to improper use of water. Delinquencies in any payments due to the United States shall be penalized by a penalty of not less than one-half of 1 per centum per month. No water shall be delivered to or for any land or party while either said land or the organization in which it is located or said party is in arrears in the advance payment of operation and maintenance charges or development period charges under subsection (c)(1) of this section, or in arrears for more than twelve months in the payment of an installment of the reimbursable construction costs.

(5) The Secretary shall establish the size of farm units of irrigable lands on each project in accordance with his findings of the area sufficient in size for the support of a family on the lands to be irrigated. No water may be delivered to or for more than the farm unit area of irrigable lands in the project owned by a single landowner: Provided, That this subsection shall not apply to the United States or any agency or instrumentality thereof, corporate
§ 590z–3. Settlement of projects on agricultural basis

(a) Rehabilitation; stabilization of agricultural economy; maximum utilization of funds

In connection with the construction or operation and maintenance of projects undertaken pursuant to the authority of this subchapter, and in order to further in the Great Plains and arid and semiarid areas of the United States an effective rehabilitation program, stabilization of the agricultural economy and maximum utilization of funds spent for relief purposes, the Secretary of Agriculture is authorized, pursuant to cooperative agreement with the Secretary of the Interior, (1) to arrange for the settlement of the projects on a sound agricultural basis, and insofar as practicable, the location thereon of persons in need; (2) to extend guidance and advice to settlers thereon in matters of farm practice, soil conservation, and efficient land use; (3) to acquire agricultural lands within the boundaries of such projects, with titles and at prices satisfactory to him; and (4) to arrange for the improvement of lands within the project boundaries, including clearing, leveling, and preparing them for distribution of irrigation water. Contracts between the United States and water users or water users’ organizations for the lease or purchase of, or the improvement of, lands within such projects shall provide for annual or semiannual payments to the United States, of the number and amounts fixed by the Secretary of Agriculture. chaser, the buy-out cost shall be 10 per centum of the contract overbid but at least $10 per one thousand board feet of currently held volume bought out; or

(iii) up to 50 per centum or less of the net book worth of the purchaser, the buy-out cost shall be 15 per centum for the purchaser’s first one hundred twenty-five million board feet, 20 per centum for additional board feet above one hundred twenty-five million up to one hundred fifty million, 25 per centum for additional board feet above one hundred fifty million up to one hundred seventy-five million, and 30 per centum for additional board feet above one hundred seventy-five million up to two hundred million, of the contract overbid but at least $10 per one thousand board feet of currently held volume bought out.

(B) For purposes of this paragraph, the term “net book worth” does not include the value of any outstanding uncut Federal timber sales contracts.

(C) Net book worth shall be, subject to agency verification, as determined by an independent certified public accountant in accordance with generally accepted accounting standards for the timber industry.

(D) A purchaser may elect to pay the buy-out cost imposed by subparagraph (A)(iii) in lieu of utilizing loss and net book worth determinations.

(E) Where a purchaser is not able to obtain sufficient credit elsewhere to finance the buy-out charge at reasonable rates and terms, purchaser may, upon payment of 5 per centum of the buy-out charge, pay the remainder of the buy-out charge in equal quarterly payments over a period not to exceed 5 years at an interest rate adjusted with each payment equal to the average market yield of outstanding Treasury obligations with remaining years to maturity of five years payment must be secured by bond, deposited securities or other forms of security acceptable to the appropriate Secretary in an amount sufficient to cover the entire buy-out payment.

(F) For purposes of this paragraph, the term “contract overbid” is the difference between the advertised contract rate and the rate the purchaser bid.

(4)(A) Contracts returned pursuant to this subsection under which no harvest has begun shall be returned in full.

(B) Contracts returned to the appropriate Secretary pursuant to this subsection under which harvest has begun, shall be returned conditionally and shall not be considered as part of the outstanding volume of timber under contract for the purposes of this Act. The return shall become final after the purchaser has completed stages of contractual obligations for the units on which the harvest has begun, including work on roads, to logical stopping points as determined by the Secretary after consultation with the purchaser. All remaining unharvested units must be returned.

(C) The appropriate Secretary may reject return of a contract on which harvest has begun if he determines, in his discretion, that the remaining unharvested portion is substantially unrepresentative of the original sale as a whole in terms of species, logging methods, or other appropriate criteria, and that accepting the return of such contract would seriously disadvantage the Government.

(5)(A) Timber from returned or defaulted contracts shall be offered for resale in an orderly fashion as part of, and not in addition to, the normal congressionally authorized timber sales program, and in a manner which does not disrupt regional markets or artificially depress domestic timber prices. Timber from returned or defaulted contracts shall be given preference for resale in the Forest Service timber sales programs.

(B) Timber sales in Forest Service region 6 shall not exceed four billion three hundred million board feet of net merchantable sawtimber in fiscal year 1984.

(C) Beginning in fiscal year 1985 and continuing through fiscal year 1991 or the fiscal year in which timber contract extensions in region 6 granted under the President’s program of July 28, 1983 (as constituted on October 16, 1984), are completed, whichever is later, the Secretary of Agriculture shall set, and periodically adjust as necessary, the maximum annual timber sale volume in region 6. Such maximum sale volume shall be set so as to achieve a volume of region 6 net merchantable sawtimber under contract at the end of each fiscal year which does not exceed twelve billion three hundred million board feet: Provided, however, That such maximum annual sale volume shall not exceed five billion two hundred million board feet of net merchantable sawtimber. The sale of timber within region 6 shall be made in such a manner as not to result in discriminatory treatment as between different forests in the region.

(6)(A) The Secretary of the Interior and the Secretary of Agriculture shall publish final rules for the implementation of this subsection in the Federal Register within ninety days after October 16, 1984.

(B) Such final rules shall require purchasers to submit buy-out requests to the appropriate Secretary within ninety days after the publication of such rules.

(7)(A) For purposes only of determining a purchaser’s buy-out limitation under paragraph (2) and net worth in connection with buy-out cost under paragraph (3), concerns which are affiliates as defined under subparagraph (B) of this paragraph shall be treated as a single entity.

(B) Definition of affiliates: Concerns are affiliates of each other when either directly or indirectly, one concern controls or has the power to control the other, or a third party or parties controls or has the power to control both. In determining whether or not affiliation exists, consideration shall be given to all appropriate factors, including, but not limited to, common ownership, common management, and contractual relationships.

(C) Definition of purchaser: For the purposes of this Act, a purchaser is the holder of a contract to purchase timber from the Secretary of Agriculture or the Secretary of the Interior.

(b) Extension of time for performance of contracts; covered contracts; damages for default

(1) Timber contracts bid prior to January 1, 1982, not bought out pursuant to subsection (a)
§ 619  TITLE 16—CONSERVATION

of this section and included in the President’s program of July 28, 1983, shall not be subject to any further extension of time for performance except as permitted under the President’s program of July 28, 1983, as implemented by the Secretary of Agriculture and the Secretary of the Interior, providing for the extension of certain timber sale contracts and requiring the phased harvesting of such extended contracts, which program is hereby ratified except as modified by paragraph (2).

(2) Notwithstanding any other provision of law, timber contracts extended pursuant to the President’s program of July 28, 1983, as implemented by the Secretary of Agriculture shall not be subject to inclusion of additional provisions for calculating damages for default.

(c) Monitoring of bidding patterns on timber sale contracts; discouragement of bids; reporting requirements

The Secretary of Agriculture and the Secretary of the Interior shall monitor bidding patterns on timber sale contracts and take action to discourage bidding at such a rate as would indicate that the bidder, if awarded the contract, would be unable to perform the obligations as required, or that the bid is otherwise for the purpose of speculation. Each Secretary shall include in the annual report to Congress information concerning actions taken under this subsection.

(d) Cash down-payment and periodic payments for contracts; effective date

Effective January 1, 1985, in any contract for the sale of timber from the National Forests, the Secretary of Agriculture shall require a cash down-payment at the time the contract is executed and periodic payments to be made over the remaining period of the contract.

§ 619. Emergency stumpage rate redeterminations in Alaska

(a) Application; applicable period

Emergency stumpage rate redetermination shall be made upon the written application of the purchaser of National Forest timber in Alaska, bid after January 1, 1974, and rates established as a result thereof shall be effective for timber scaled during a period between January 1, 1981, and five years from October 16, 1984.

(b) Competitive effect of modification of contracts

In making the emergency rate redeterminations the Secretary may modify existing contract terms, including the amount of the bid premium, in order to provide rates which will permit the holders of contracts bid after January 1, 1974, to be competitive with other purchasers of National Forest timber.

(c) Excepted contracts

The provisions of this section shall not apply to contracts held by the holders of 50-year timber sale contracts in Alaska.

§ 620. Findings and purposes

(a) Findings

The Congress makes the following findings:

(1) Timber is essential to the United States.

(2) Forests, forest resources, and the forest environment are exhaustible natural resources that require efficient and effective conservation efforts.

(3) In the interest of conserving those resources, the United States has set aside millions of acres of otherwise harvestable timberlands in the western United States, representing well over 100,000,000,000 board feet of otherwise harvestable timber.

(4) In recent years, administrative, statutory, or judicial action has been taken to set aside an increased amount of otherwise harvestable timberlands for conservation purposes.

(5) In the next few months and years, additional amounts of otherwise harvestable timberlands may be set aside for conservation purposes, pursuant to the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), the National Forest Management Act of 1976, or other expected statutory, administrative, and judicial actions.

(6) There is evidence of a shortfall in the supply of unprocessed timber in the western United States.

(7) There is reason to believe that any shortfall which may already exist may worsen unless action is taken.

(8) In conjunction with the broad conservation actions expected in the next few months and years, conservation action is necessary with respect to exports of unprocessed timber.
(b) Purposes
The purposes of sections 620 to 620j of this title are—

(1) to promote the conservation of forest resources in conjunction with State and Federal resources management plans, and other actions or decisions, affecting the use of forest resources;

(2) to take action essential for the acquisition and distribution of forest resources or products in short supply in the western United States;

(3) to take action necessary, to meet the goals of Article XI 2.(a) of the GATT 1994 (as defined in section 3501(1)(B) of title 19), to ensure sufficient supplies of certain forest resources or products which are essential to the United States;

(4) to continue and refine the existing Federal policy of restricting the export of unprocessed timber harvested from Federal lands in the western United States; and

(5) to effect measures aimed at meeting these objectives in conformity with the obligations of the United States under the WTO Agreement and the multilateral trade agreements (as such terms are defined in paragraphs (9) and (4), respectively, of section 3501 of title 19).

§ 620a. Restrictions on exports of unprocessed timber originating from Federal lands

(a) Prohibition on export of unprocessed timber originating from Federal lands

No person who acquires unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States may export timber originating from the United States, or sell, trade, exchange, or otherwise convey such timber to any other person for the purpose of exporting such timber from the United States, unless such timber has been determined under subsection (b) of this section to be surplus to the needs of timber manufacturing facilities in the United States.

(b) Surpluses

(1) Determinations by Secretary concerned

The prohibition contained in subsection (a) of this section shall not apply to specific quantities of grades and species of unprocessed timber originating from Federal lands which the Secretary concerned determines to be surplus to domestic manufacturing needs.

(2) Procedures

Any determination under paragraph (1) shall be made in regulations issued in accordance with section 553 of title 5. Any such determination shall be reviewed at least once in every 3-year period. The Secretary concerned shall publish notice of such review in the Federal Register, and shall give the public an opportunity to comment on such review.

§ 620b. Limitations on substitution of unprocessed Federal timber for unprocessed timber exported from private lands

(a) Direct substitution

(1) Except as provided in paragraph (3) and subsection (c) of this section, no person may purchase directly from any department or agency of the United States unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States if—
(A) such unprocessed timber is to be used in substitution for exported unprocessed timber originating from private lands; or
(B) such person has, during the preceding 24-month period, exported unprocessed timber originating from private lands.

(2) Notwithstanding paragraph (1)—
(A) Federal timber purchased pursuant to a contract entered into between the purchaser and the Secretary concerned before the date on which regulations to carry out this subsection are issued under section 620f of this title shall be governed by the regulations of the Secretary concerned in effect before such date that restrict the substitution of unprocessed timber originating from Federal lands for exported timber originating from private lands;

(B) in the 1-year period beginning on August 20, 1990, any person who operates under a Cooperative Sustained Yield Unit Agreement, and who has an historic export quota shall be limited to entering into contracts under such a quota to a volume equal to not more than 66 percent of the person’s historic export quota used during fiscal year 1989;

(C) a person referred to in subparagraph (B) shall reduce the person’s remaining substitution volume by an equal amount each year thereafter such that no volume is substituted under such a quota in fiscal year 1995 or thereafter; and

(D) the 24-month period referred to in paragraph (1)(B) shall not apply to any person who—

(i) before August 20, 1990, has, under an historic export quota approved by the Secretary concerned, purchased unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States in substitution for exported unprocessed timber originating from private lands;

(ii) certifies to the Secretary concerned, within 3 months after August 20, 1990, that the person will, within 6 months after August 20, 1990, cease exporting unprocessed timber originating from private lands; and

(iii) ceases exports in accordance with such certification.

(3) APPLICABILITY.—In the case of the purchase by a person of unprocessed timber originating from Federal lands west of the 119th meridian in the State of Washington, paragraph (1) shall apply only if—

(A) the private lands referred to in paragraph (1) are owned by the person; or

(B) the person has the exclusive right to harvest timber from the private lands described in paragraph (1) during a period of more than 7 years, and may exercise that right at any time of the person’s choosing.

(b) Indirect substitution

(1) In general

Except as provided in paragraph (2), no person may, beginning 21 days after August 20, 1990, purchase from any other person unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States if such person would be prohibited from purchasing such timber directly from a department or agency of the United States. Acquisitions of western red cedar which are domestically processed into finished products to be sold into domestic or international markets are exempt from the prohibition contained in this paragraph.

(2) Exceptions

(A) The Secretary of Agriculture shall, as soon as practicable but not later than 9 months after August 20, 1990, establish, by rule, a limited amount of unprocessed timber originating from Federal lands described in subparagraph (B) which may be purchased by a person otherwise covered by the prohibition contained in paragraph (1). Such limit shall equal—

(i) the amount of such timber acquired by such person, based on the higher of the applicant’s actual timber purchasing receipts or the appropriate Federal agency’s records, during fiscal years 1988, 1989, and 1990, divided by 3, or

(ii) 15 million board feet,

whichever is less, except that such limit shall not exceed such person’s proportionate share, with respect to all persons covered under this paragraph, of 50 million board feet.

(B) The Federal lands referred to in subparagraph (A) are Federal lands administered by the United States Forest Service Region 6 that are located north of the Columbia River from its mouth and east to its first intersection with the 119th meridian, and from that point north of the 46th parallel and east.

(C) Any person may sell, trade, or otherwise exchange with any other person the rights obtained under subparagraph (A), except that such rights may not be sold, traded, or otherwise exchanged to persons already in possession of such rights obtained under subparagraph (A).

(D) Federal timber purchased from Federal lands described in subparagraph (B) pursuant to a contract entered into between the purchaser and the Secretary of Agriculture before the date on which regulations to carry out this subsection are issued under section 620f of this title shall be governed by the regulations of the Secretary of Agriculture in effect before such date that restrict the substitution of unprocessed timber originating from Federal lands for exported timber originating from private lands.

(c) Sourcing areas

(1) In general

The prohibitions contained in subsections (a) and (b) of this section shall not apply with respect to the acquisition of unprocessed timber originating from Federal lands within a sourcing area west of the 100th meridian in the contiguous 48 States approved by the Secretary concerned under this subsection by a person who—

(A) in the previous 24 months, has not exported unprocessed timber originating from private lands within the sourcing area; and

(B) during the period in which such approval is in effect, does not export unproc-
nessed timber originating from private lands within the sourcing area.

The Secretary concerned may waive the 24-month requirement set forth in subparagraph (A) for any person who, within 3 months after August 20, 1990, certifies that, within 6 months after August 20, 1990, such person will, for a period of not less than 3 years, cease exporting unprocessed timber originating from private lands within the sourcing area.

(2) Requirements for application for sourcing areas for processing facilities located outside the northwestern private timber open market area

The Secretaries concerned shall, not later than 3 months after August 20, 1990, prescribe procedures to be used by a person applying for approval of a sourcing area under paragraph (1). Such procedures shall require, at a minimum, the applicant to provide—

(A) information regarding the location of private lands (except private land located in the northwestern private timber open market area) from which such person has, within the previous year, harvested or otherwise acquired unprocessed timber which has been exported from the United States; and

(B) information regarding the location of each timber manufacturing facility owned or operated by such person within the proposed sourcing area boundaries at which the applicant proposes to process timber originating from Federal lands.

The prohibition contained in subsection (a) of this section shall not apply to a person before the date which is 1 month after the procedures referred to in this paragraph are prescribed. With respect to any person who submits an application in accordance with such procedures by the end of the time period set forth in the preceding sentence, the prohibition contained in subsection (a) of this section shall not apply to such person before the date on which the Secretary concerned approves or disapproves such application.

(3) Grant of approval for sourcing areas for processing facilities located outside the northwestern private timber open market area

(A) In general

For each applicant, the Secretary concerned shall, on the record and after an opportunity for a hearing, not later than 4 months after receipt of the application for a sourcing area, either approve or disapprove the application. The Secretary concerned may approve such application only if the Secretary determines that the area that is the subject of the application, in which the timber manufacturing facilities at which the applicant desires to process timber originating from Federal lands are located, is geographically and economically separate from any geographic area from which that person harvests for export any unprocessed timber originating from private lands.

(B) For timber manufacturing facilities located in Idaho

Except as provided in subparagraph (D), in making a determination referred to in subparagraph (A), the Secretary concerned shall consider the private timber export and the private and Federal timber sourcing patterns for the applicant’s timber manufacturing facilities, as well as the private and Federal timber sourcing patterns for the timber manufacturing facilities of other persons in the same local vicinity of the applicant, and the relative similarity of such private and Federal timber sourcing patterns.

(C) For timber manufacturing facilities located in States other than Idaho

Except as provided in subparagraph (D), in making the determination referred to in subparagraph (A), the Secretary concerned shall consider the private timber export and the Federal timber sourcing patterns for the applicant’s timber manufacturing facilities, as well as the Federal timber sourcing patterns for the timber manufacturing facilities of other persons in the same local vicinity of the applicant, and the relative similarity of such Federal timber sourcing patterns. Private timber sourcing patterns shall not be a factor in such determinations in States other than Idaho.

(D) Area not included

In deciding whether to approve or disapprove an application, the Secretary shall not—

(i) consider land located in the northwestern private timber open market area; or

(2) Approval of State programs

(A) Program approval

Not later than 30 days after the submission of a program under paragraph (1), the Secretary of Commerce shall approve the program unless the Secretary finds that the program will result in the export of unprocessed timber from public lands in violation of sections 620 to 620j of this title and publishes that finding in the Federal Register.

(k) Suspension of prohibitions

Notwithstanding any other provision of this section, beginning on January 1, 1998, and annually thereafter, if the President finds, upon review of the purposes and implementation of subsections 620 to 620 of this title, that the prohibitions on exports required by subsection (a) of this section no longer promote the purposes of sections 620 to 620 of this title, then the President may suspend such prohibitions, except that such suspension shall not take effect until 90 days after the President notifies the Congress of such finding.

(a) Evaluate the effect of agency actions on trends in hunting participation and, where appropriate, to address declining trends, implement actions that expand and enhance hunting opportunities for the public;

(b) Consider the economic and recreational values of hunting in agency actions, as appropriate;

(c) Manage wildlife and wildlife habitats on public lands in a manner that expands and enhances hunting opportunities, including through the use of hunting in wildlife management planning;

(d) Work collaboratively with State governments to manage and conserve game species and their habitats in a manner that respects private property rights and State management authority over wildlife resources;

(e) Establish short and long term goals, in cooperation with State and tribal governments, and consistent with agency missions, to foster healthy and productive populations of game species and appropriate opportunities for the public to hunt those species;

(f) Ensure that agency plans and actions consider programs and recommendations of comprehensive planning efforts such as State Wildlife Action Plans, the North American Waterfowl Management Plan, and other range-wide management plans for big game and upland game birds;

(g) Seek the advice of State and tribal fish and wildlife agencies, and, as appropriate, consult with the Sporting Conservation Council and other organizations, with respect to the foregoing Federal activities.

SIC. 3. North American Wildlife Policy Conference. The Chairman of the Council on Environmental Quality (Chairman) shall, in coordination with the appropriate Federal agencies and in consultation with the Sporting Conservation Council and other organizations, convene not later than 1 year after the date of this order, and periodically thereafter at such times as the Chairman deems appropriate, a White House Conference on North American Wildlife Policy (Conference) to facilitate the exchange of information and advice relating to the means for achieving the goals of this order.

SIC. 4. Recreational Hunting and Wildlife Resource Conservation Plan. The Chairman shall prepare, consistent with applicable law and subject to the availability of appropriations, in coordination with the appropriate Federal agencies and in consultation with the Sporting Conservation Council, and in cooperation with State and tribal fish and wildlife agencies, not later than 1 year following the conclusion of the Conference, a comprehensive Recreational Hunting and Wildlife Conservation Plan that incorporates existing and ongoing activities and sets forth a 10-year agenda for fulfilling the actions identified in section 2 of this order.

SIC. 5. Judicial Review. This order is not intended to, and does not, create any right, benefit, trust responsibility, or privilege, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, instrumentalities, or entities, its officers or employees, or any other person.

§ 662. Impounding, diverting, or controlling of waters

(a) Consultations between agencies

Except as hereafter stated in subsection (h) of this section, whenever the waters of any stream...
or other body of water are proposed or authorized to be impounded, diverted, the channel deepened, or the stream or other body of water otherwise controlled or modified for any purpose whatever, including navigation and drainage, by any department or agency of the United States, or by any public or private agency under Federal permit or license, such department or agency first shall consult with the United States Fish and Wildlife Service, Department of the Interior, and with the head of the agency exercising administration over the wildlife resources of the particular State wherein the impoundment, diversion, or other control facility is to be constructed, with a view to the conservation of wildlife resources by preventing loss of and damage to such resources as well as for providing for the development and improvement thereof in connection with such water-resource development.

(b) Reports and recommendations; consideration

In furtherance of such purposes, the reports and recommendations of the Secretary of the Interior on the wildlife aspects of such projects, and any report of the head of the State agency exercising administration over the wildlife resources of the State, based on surveys and investigations conducted by the United States Fish and Wildlife Service and such State agency for the purpose of determining the possible damage to wildlife resources and for the purpose of determining means and measures that should be adopted to prevent the loss of or damage to such wildlife resources, as well as to provide currently for the development and improvement of such resources, shall be made an integral part of any report prepared or submitted by any agency of the Federal Government responsible for engineering surveys and construction of such projects when such reports are presented to the Congress or to any agency or person having the authority or the power, by administrative action or otherwise, (1) to authorize the construction of water-resource development projects or (2) to approve a report on the modifications or supplementation of plans for previously authorized projects, to which sections 661 to 666 of this title apply. Recommendations of the Secretary of the Interior shall be as specific as is practicable with respect to features recommended for wildlife conservation and development, lands to be utilized or acquired for such purposes, the results expected, and shall describe the damage to wildlife attributable to the project and the measures proposed for mitigating or compensating for these damages. The reporting officers in project reports of the Federal agencies shall give full consideration to the report and recommendations of the Secretary of the Interior and to any report of the State agency on the wildlife aspects of such projects, and the project plan shall include such justifiable means and measures for wildlife purposes as the reporting agency finds should be adopted to obtain maximum overall project benefits.

(c) Modification of projects; acquisition of lands

Federal agencies authorized to construct or operate water-control projects are authorized to modify or add to the structures and operations of such projects, the construction of which has not been substantially completed on the date of enactment of the Fish and Wildlife Coordination Act, and to acquire lands in accordance with section 663 of this title, in order to accommodate the means and measures for such conservation of wildlife resources as an integral part of such projects: Provided, That for projects authorized by a specific Act of Congress before the date of enactment of the Fish and Wildlife Coordination Act (1) such modification or land acquisition shall be compatible with the purposes for which the project was authorized; (2) the cost of such modifications or land acquisition, as means and measures to prevent loss of and damage to wildlife resources to the extent justifiable, shall be an integral part of the cost of such projects; and (3) the cost of such modifications or land acquisition for the development or improvement of wildlife resources may be included to the extent justifiable, and an appropriate share of the cost of any project may be allocated for this purpose with a finding as to the part of such allocated cost, if any, to be reimbursed by non-Federal interests.

(d) Project costs

The cost of planning for and the construction or installation and maintenance of such means and measures adopted to carry out the conservation purposes of this section shall constitute an integral part of the cost of such projects; and (3) the cost of such modifications or land acquisition for the development or improvement of wildlife resources may be included to the extent justifiable, and an appropriate share of the cost of any project may be allocated for this purpose with a finding as to the part of such allocated cost, if any, to be reimbursed by non-Federal interests.

(e) Transfer of funds

In the case of construction by a Federal agency, that agency is authorized to transfer to the United States Fish and Wildlife Service, out of appropriations or other funds made available for investigations, engineering, or construction, such funds as may be necessary to conduct all or part of the investigations required to carry out the purposes of this section.

(f) Estimation of wildlife benefits or losses

In addition to other requirements, there shall be included in any report submitted to Congress supporting a recommendation for authorization of any new project for the control or use of water as described herein (including any new division of such project or new supplemental works on such project) an estimation of the wildlife benefits or losses to be derived therefrom including benefits to be derived from measures recommended specifically for the development and improvement of wildlife resources, the cost of providing wildlife benefits (including the cost of additional facilities to be installed or lands to be acquired specifically for that particular phase of wildlife conservation relating to the development and improvement of wildlife), the part of the cost of joint-use facilities allocated to wildlife, and the part of such costs, if any, to be reimbursed by non-Federal interests.

(g) Applicability to projects

The provisions of this section shall be applicable with respect to any project for the control or
use of water as prescribed herein, or any unit of such project authorized before or after the date of enactment of the Fish and Wildlife Coordination Act for planning or construction, but shall not be applicable to any project or unit thereof authorized before the date of enactment of the Fish and Wildlife Coordination Act if the construction of the particular project or unit thereof has been substantially completed. A project or unit thereof shall be considered to be substantially completed when sixty percent or more of the estimated construction cost has been obligated for expenditure.

(h) Exempt projects and activities

The provisions of section 661 to 666c of this title shall not be applicable to those projects for the impoundment of water where the maximum surface area of such impoundments is less than ten acres, nor to activities for or in connection with programs primarily for land management and, in the case of Federal agencies, for consultation with Federal lands under their jurisdiction.

POLICY CONCERNING DISTRIBUTION OF EAGLE FEATHERS FOR NATIVE AMERICAN RELIGIOUS PURPOSES

Memorandum for the Heads of Executive Departments and Agencies

Eagle feathers hold a sacred place in Native American culture and religious practices. Because of the feathers’ significance to Native American heritage and consistent with due respect for the government-to-gov-

ment relationship between the Federal and Native American tribal governments, this Administration has undertaken policy and procedural changes to facilitate the collection and distribution of scarcerace bodies and parts for this purpose. This memorandum affirms and formalizes executive branch policy to ensure that progress begun on this important matter continues across the executive branch.

Today, as part of an historic meeting with all federally recognized tribal governments, I am directing executive departments and agencies (hereafter collectively “agency” or “agencies”) to work cooperatively with tribal governments and to reexamine broadly their practices and procedures to seek opportunities to accommodate Native American religious practices to the fullest extent under the law.

As part of these efforts, agencies shall take steps to improve their collection and transfer of eagle carcasses and eagle body parts (“eagles”) for Native American religious purposes. The success of this initiative requires the participation, and is therefore the responsibility, of all Federal land managing agencies, not just those within the Department of the Interior. I therefore direct each agency responsible for managing Federal lands to diligently and expeditiously recover salvageable eagles found on lands under their jurisdiction and ensure that the eagles are promptly shipped to the National Eagle Repository (“Repository”). To assist agencies in this expanded effort, the Secretary of the Interior shall issue guidelines to all relevant agencies for the proper shipment of eagles to the Repository. After receiving these guidelines, agencies shall immediately adopt policies, practices, and procedures necessary in accordance with these guidelines to recover and transfer eagles to the Repository promptly.

I support and encourage the initial steps taken by the Department of the Interior to improve the distribution of eagles for Native American religious purposes. In particular, the Department of the Interior shall continue to adopt policies and procedures and take those actions necessary to:

(a) ensure the priority of distribution of eagles, upon permit application, first for traditional Native American religious purposes, to the extent permitted by law, and then to other uses;

(b) simplify the eagle permit application process quickly and to the greatest extent possible to help achieve the objectives of this memorandum;

(c) minimize the delay and ensure respect and dignity in the process of distributing eagles for Native American religious purposes to the greatest extent possible;
(d) expand efforts to involve Native American tribes, organizations, and individuals in the distribution process, both at the Repository and on tribal lands, consistent with applicable laws; 
(e) review means to ensure that adequate refrigerated storage space is available to process the eagles; and 
(f) continue efforts to improve the Repository's ability to facilitate the objectives of this memorandum.

The Department of the Interior shall be responsible for coordinating any interagency efforts to address continuing executive branch actions necessary to achieve the objectives of this memorandum.

We must continue to be committed to greater intergovernmental communication and cooperation. In addition to working more closely with tribal governments, we must enlist the assistance of, and cooperate with, State and local governments to achieve the objectives of this memorandum. I therefore request that the Department of the Interior work with State fish and game agencies and other relevant State and local authorities to facilitate the objectives of this memorandum.

With commitment and cooperation by all of the agencies in the executive branch and with tribal governments, I am confident that we will be able to accomplish meaningful progress in the distribution of eagles for Native American religious purposes.

The Director of the Office of Management and Budget is authorized and directed to publish this memorandum in the Federal Register.

WILLIAM J. CLINTON.

(c) Customs laws applied

All provisions of law relating to the seizure, forfeiture, and condemnation of a vessel for violation of the customs laws, the disposition of such vessel or the proceeds from the sale thereof, and the remission or mitigation of such forfeitures, shall apply to the seizures and forfeitures incurred, or alleged to have been incurred, under the provisions of this subchapter, insofar as such provisions of law are applicable and not inconsistent with the provisions of this subchapter: Provided, That all powers, rights, and duties conferred or imposed by the customs laws upon any officer or employee of the Treasury Department shall, for the purposes of this subchapter, be exercised or performed by the Secretary of the Interior or by such persons as he may designate.

§ 668dd. National Wildlife Refuge System

(a) Designation; administration; continuance of resources-management-programs for refuge lands in Alaska; disposal of acquired lands; proceeds

(1) For the purpose of consolidating the authorities relating to the various categories of areas that are administered by the Secretary for the conservation of fish and wildlife, including species that are threatened with extinction, all lands, waters, and interests therein administered by the Secretary as wildlife refuges, areas for the protection and conservation of fish and wildlife that are threatened with extinction, wildlife ranges, game ranges, wildlife management areas, or waterfowl production areas are hereby designated as the “National Wildlife Refuge System” (referred to herein as the “System”), which shall be subject to the provisions of this section, and shall be administered by the Secretary through the United States Fish and Wildlife Service. With respect to refuge lands in the State of Alaska, those programs relating to the management of resources for which any other agency of the Federal Government exercises administrative responsibility through cooperative agreement shall remain in effect, subject to the direct supervision of the United States Fish and Wildlife Service, as long as such agency agrees to exercise such responsibility.

(2) The mission of the System is to administer a national network of lands and waters for the conservation, management, and where appropriate, restoration of the fish, wildlife, and plant resources and their habitats within the United States for the benefit of present and future generations of Americans.

(3) With respect to the System, it is the policy of the United States that—

(A) each refuge shall be managed to fulfill the mission of the System, as well as the specific purposes for which that refuge was established;

(B) compatible wildlife-dependent recreation is a legitimate and appropriate general public use of the System, directly related to the mission of the System and the purposes of many refuges, and which generally fosters refuge management and through which the American public can develop an appreciation for fish and wildlife;

(C) compatible wildlife-dependent recreational uses are the priority general public uses of the System and shall receive priority consideration in refuge planning and management; and

(D) when the Secretary determines that a proposed wildlife-dependent recreational use is
a compatible use within a refuge, that activity should be facilitated, subject to such restrictions or regulations as may be necessary, reasonable, and appropriate.

(4) In administering the System, the Secretary shall—

(A) provide for the conservation of fish, wildlife, and plants, and their habitats within the System;

(B) ensure that the biological integrity, diversity, and environmental health of the System are maintained for the benefit of present and future generations of Americans;

(C) plan and direct the continued growth of the System in a manner that is best designed to accomplish the mission of the System, to contribute to the conservation of the ecosystems of the United States, to complement efforts of States and other Federal agencies to conserve fish and wildlife and their habitats, and to increase support for the System and participation from conservation partners and the public;

(D) ensure that the mission of the System described in paragraph (2) and the purposes of each refuge are carried out, except that if a conflict exists between the purposes of a refuge and the mission of the System, the conflict shall be resolved in a manner that first protects the purposes of the refuge, and, to the extent practicable, that also achieves the mission of the System;

(E) ensure effective coordination, interaction, and cooperation with owners of land adjoining refuges and the fish and wildlife agency of the States in which the units of the System are located;

(F) assist in the maintenance of adequate water quantity and water quality to fulfill the mission of the System and the purposes of each refuge;

(G) acquire, under State law, water rights that are needed for refuge purposes;

(H) recognize compatible wildlife-dependent recreational uses as the priority general public uses of the System through which the American public can develop an appreciation for fish and wildlife;

(I) ensure that opportunities are provided within the System for compatible wildlife-dependent recreational uses;

(J) ensure that priority general public uses of the System receive enhanced consideration over other general public uses in planning and management within the System;

(K) provide increased opportunities for families to experience compatible wildlife-dependent recreation, particularly opportunities for parents and their children to safely engage in traditional outdoor activities, such as fishing and hunting;

(L) continue, consistent with existing laws and interagency agreements, authorized or permitted uses of units of the System by other Federal agencies, including those necessary to facilitate military preparedness;

(M) ensure timely and effective cooperation and collaboration with Federal agencies and State fish and wildlife agencies during the course of acquiring and managing refuges; and

(N) monitor the status and trends of fish, wildlife, and plants in each refuge.

(5) No acquired lands which are or become a part of the System may be transferred or otherwise disposed of under any provision of law (except by exchange pursuant to subsection (b)(3) of this section) unless—

(A) the Secretary determines with the approval of the Migratory Bird Conservation Commission that such lands are no longer needed for the purposes for which the System was established; and

(B) such lands are transferred or otherwise disposed of for an amount not less than—

(i) the acquisition costs of such lands, in the case of lands of the System which were purchased by the United States with funds from the migratory bird conservation fund, or fair market value, whichever is greater; or

(ii) the fair market value of such lands (as determined by the Secretary as of the date of the transfer or disposal), in the case of lands of the System which were donated to the System.

The Secretary shall pay into the migratory bird conservation fund the aggregate amount of the proceeds of any transfer or disposal referred to in the preceding sentence.

(6) Each area which is included within the System on January 1, 1975, or thereafter, and which

was or is—

(A) designated as an area within such System by law, Executive order, or secretarial order; or

(B) so included by public land withdrawal, donation, purchase, exchange, or pursuant to a cooperative agreement with any State or local government, any Federal department or agency, or any other governmental entity,

shall continue to be a part of the System until otherwise specified by Act of Congress, except that nothing in this paragraph shall be construed as precluding—

(i) the transfer or disposal of acquired lands within any such area pursuant to paragraph (5) of this subsection;

(ii) the exchange of lands within any such area pursuant to subsection (b)(3) of this section; or

(iii) the disposal of any lands within any such area pursuant to the terms of any cooperative agreement referred to in subparagraph (B) of this paragraph.

(b) Administration; public accommodations contracts; acceptance and use of funds; exchange of properties; cash equalization payments

In administering the System, the Secretary is authorized to take the following actions:

(1) Enter into contracts with any person or public or private agency through negotiation for the provision of public accommodations when, and in such locations, and to the extent that the Secretary determines will not be inconsistent with the primary purpose for which the affected area was established.

(2) Accept donations of funds and to use such funds to acquire or manage lands or interests therein.

(3) Acquire lands or interests therein by exchange (A) for acquired lands or public lands,
or for interests in acquired or public lands, under his jurisdiction which he finds to be suitable for disposition, or (B) for the right to remove, in accordance with such terms and conditions as he may prescribe, products from the acquired or public lands within the System. The values of the properties so exchanged either shall be approximately equal, or if they are not approximately equal the values shall be equalized by the payment of cash to the grantor or to the Secretary as the circumstances require.

(4) Subject to standards established by and the overall management oversight of the Director, and consistent with standards established by this Act, to enter into cooperative agreements with State fish and wildlife agencies for the management of programs on a refuge.

(5) Issue regulations to carry out this Act.

(c) Prohibited and permitted activities; application of mining and mineral leasing laws, hunting or fishing regulations, and State laws or regulations

No person shall disturb, injure, cut, burn, remove, destroy, or possess any real or personal property of the United States, including natural growth, in any area of the System; or take or possess any fish, bird, mammal, or other wild vertebrate or invertebrate animals or part or nest or egg thereof within any such area; or enter, use, or otherwise occupy any such area for any purpose; unless such activities are performed by persons authorized to manage such area, or unless such activities are permitted either under subsection (d) of this section or by express provision of the law, proclamation, Executive order, or public land order establishing the area, or amendment thereof: Provided, That the United States mining and mineral leasing laws shall continue to apply to any lands within the System to the same extent they apply prior to October 15, 1966, unless subsequently withdrawn under other authority of law. With the exception of endangered species and threatened species listed by the Secretary pursuant to section 1533 of this title in States wherein a cooperative agreement does not exist pursuant to section 1533(c) of this title, nothing in this Act shall be construed to authorize the Secretary to control or regulate hunting or fishing of resident fish and wildlife on lands not within the system. The regulations permitting hunting and fishing of resident fish and wildlife within the System shall be, to the extent practicable, consistent with State fish and wildlife laws and regulations.

(d) Use of areas; administration of migratory bird sanctuaries as game taking areas; rights of way, easements, and reservations; payment of fair market value

(1) The Secretary is authorized, under such regulations as he may prescribe, to—

(A) permit the use of any area within the System for any purpose, including but not limited to hunting, fishing, public recreation and accommodations, and access whenever he determines that such uses are compatible with the major purposes for which such areas were established: Provided, That not to exceed 40 per centum at any one time of any area that has been, or hereafter may be acquired, reserved, or set apart as an inviolate sanctuary for migratory birds, under any law, proclamation, Executive order, or public land order may be administered by the Secretary as an area within which the taking of migratory game birds may be permitted under such regulations as he may prescribe unless the Secretary finds that the taking of any species of migratory game birds in more than 40 percent of such area would be beneficial to the species; and

(B) permit the use of, or grant easements in, over, across, upon, through, or under any areas within the System for purposes such as but not necessarily limited to, powerlines, telephone lines, canals, ditches, pipelines, and roads, including the construction, operation, and maintenance thereof, whenever he determines that such uses are compatible with the purposes for which these areas are established.

(2) Notwithstanding any other provision of law, the Secretary may not grant to any Federal, State, or local agency or to any private individual or organization any right-of-way, easement, or reservation in, over, across, through, or under any area within the system in connection with any use permitted by him under paragraph (1)(B) of this subsection unless the grantee pays to the Secretary, at the option of the Secretary, either (A) in lump sum the fair market value (determined by the Secretary as of the date of conveyance to the grantee) of the right-of-way, easement, or reservation; or (B) annually in advance the fair market rental value (determined by the Secretary) of the right-of-way, easement, or reservation. If any Federal, State, or local agency is exempted from such payment by any other provision of Federal law, such agency shall otherwise compensate the Secretary by any other means agreeable to the Secretary, including, but not limited to, making other land available or the loan of equipment or personnel; except that (A) any such compensation shall relate to, and be consistent with, the objectives of the National Wildlife Refuge System, and (B) the Secretary may waive such requirement for compensation if he finds such requirement impracticable or unnecessary. All sums received by the Secretary pursuant to this paragraph shall, after payment of any necessary expenses incurred by him in administering this paragraph, be deposited into the Migratory Bird Conservation Fund and shall be available to carry out the provisions for land acquisition of the Migratory Bird Conservation Act (16 U.S.C. 715 et seq.) and the Migratory Bird Hunting Stamp Act (16 U.S.C. 718 et seq.).

(3)(A)(i) Except as provided in clause (iv), the Secretary shall not initiate or permit a new use of a refuge or expand, renew, or extend an existing use of a refuge, unless the Secretary has determined that the use is a compatible use and that the use is not inconsistent with public safety. The Secretary may make the determinations referred to in this paragraph for a refuge concurrently with development of a conservation plan under subsection (e) of this section.

(ii) On lands added to the System after March 25, 1996, the Secretary shall identify, prior to ac-

(i) designate the refuge official responsible for making initial compatibility determinations;

(ii) require an estimate of the timeframe, location, and purpose of each use;

(iii) identify the effects of each use on refuge resources and purposes of each refuge;

(iv) require that compatibility determinations be made in writing;

(v) provide for the expedited consideration of uses that will likely have no detrimental effect on the fulfillment of the purposes of a refuge or the mission of the System;

(vi) provide for the elimination or modification of any use as expeditiously as practicable after a determination is made that the use is not a compatible use;

(vii) require, after an opportunity for public comment, reevaluation of each existing use, other than those uses specified in clause (viii), if conditions under which the use is permitted change significantly or if there is significant new information regarding the effects of the use, but not less frequently than once every 10 years, to ensure that the use remains a compatible use, except that, in the case of any use authorized for a period longer than 10 years (such as an electric utility right-of-way), the reevaluation required by this clause shall examine compliance with the terms and conditions of the authorization, not examine the authorization itself;

(viii) require, after an opportunity for public comment, reevaluation of each compatible wildlife-dependent recreational use when conditions under which the use is permitted change significantly or if there is significant new information regarding the effects of the use, but not less frequently than in conjunction with each preparation or revision of a conservation plan under subsection (e) of this section or at least every 15 years, whichever is earlier; and

(ix) provide an opportunity for public review and comment on each evaluation of a use, unless an opportunity for public review and comment on the evaluation of the use has already been provided during the development or revision of a conservation plan for the refuge under subsection (e) of this section or has otherwise been provided during routine, periodic determinations of compatibility for wildlife-dependent recreational uses.

(4) The provisions of this Act relating to determinations of the compatibility of a use shall not apply to—

(A) overflights above a refuge; and

(B) activities authorized, funded, or conducted by a Federal agency (other than the United States Fish and Wildlife Service) which has primary jurisdiction over a refuge or a portion of a refuge, if the management of those activities is in accordance with a memorandum of understanding between the Secretary or the Director and the head of the Federal agency with primary jurisdiction over the refuge governing the use of the refuge.

(e) Refuge conservation planning program for non-Alaskan refuge lands

(B) The Secretary shall prepare a comprehensive conservation plan under this subsection for each refuge within 15 years after October 9, 1997.

(C) The Secretary shall manage each refuge or planning unit under plans in effect on October 9, 1997, to the extent such plans are consistent with this Act, until such plans are revised or superseded by new comprehensive conservation plans issued under this subsection.

(D) Uses or activities consistent with this Act may occur on any refuge or planning unit before existing plans are revised or new comprehensive conservation plans are issued under this subsection.

(E) Upon completion of a comprehensive conservation plan under this subsection for a refuge or planning unit, the Secretary shall manage the refuge or planning unit in a manner consistent with the plan and shall revise the plan at any time if the Secretary determines that conditions that affect the refuge or planning unit have changed significantly.

(2) In developing each comprehensive conservation plan under this subsection for a plan-

(C) the archaeological and cultural values of the planning unit;

(D) such areas within the planning unit that are suitable for use as administrative sites or visitor facilities;

(E) significant problems that may adversely affect the populations and habitats of fish, wildlife, and plants within the planning unit and the actions necessary to correct or mitigate such problems; and

(F) opportunities for compatible wildlife-dependent recreational uses.

(3) In preparing each comprehensive conservation plan under this subsection, and any revision to such a plan, the Secretary, acting through the Director, shall, to the maximum extent practicable and consistent with this Act—

(A) consult with adjoining Federal, State, local, and private landowners and affected State conservation agencies; and

(B) coordinate the development of the conservation plan or revision with relevant State conservation plans for fish and wildlife and their habitats.

(4)(A) In accordance with subparagraph (B), the Secretary shall develop and implement a process to ensure an opportunity for active public involvement in the preparation and revision of comprehensive conservation plans under this subsection. At a minimum, the Secretary shall require that publication of any final plan shall include a summary of the comments made by States, owners of adjacent or potentially affected land, local governments, and any other affected persons, and a statement of the disposition of concerns expressed in those comments.

(B) Prior to the adoption of each comprehensive conservation plan under this subsection, the Secretary shall issue public notice of the draft proposed plan, make copies of the plan available at the affected field and regional offices of the United States Fish and Wildlife Service, and provide opportunity for public comment.

“(a) FINDINGS.—Congress finds that—

“(1) President Theodore Roosevelt began the National Wildlife Refuge System by establishing the first refuge at Pelican Island, Florida, on March 14, 1933;

“(2) the National Wildlife Refuge System is comprised of more than 95,000,000 acres of Federal land managed by the United States Fish and Wildlife Service in more than 523 individual refuges and thousands of waterfowl production areas located in all 50 States and the territories of the United States;

“(3) the System is the only network of Federal land dedicated singularly to wildlife conservation and where wildlife-dependent recreation and environmental education are priority public uses;

“(4) the System serves a vital role in the conservation of millions of migratory birds, dozens of endangered species and threatened species, some of the premier fisheries of the United States, marine mammals, and the habitats on which such species of fish and wildlife depend;

“(5) each year the System provides millions of Americans with opportunities to participate in wild-
life-dependent recreation, including hunting, fishing, and wildlife observation;

“(6)(A) public visitation to national wildlife refuges is growing, with more than 35,000,000 visitors annually; and

“(B) it is essential that visitor centers and public use facilities be properly constructed, operated, and maintained;

“(8) as of the date of the enactment of this Act [Nov. 1, 2000], the System has an unacceptable backlog of critical operation and maintenance needs; and

“(9) the occasion of the centennial of the System, in 2003, presents a historic opportunity to enhance natural resource stewardship and expand public enjoyment of the national wildlife refuges of the United States.

EX. ORD. NO. 12996, MANAGEMENT AND GENERAL PUBLIC USE OF NATIONAL WILDLIFE REFUGE SYSTEM

Ex. Ord. No. 12996, Mar. 25, 1996, 61 F.R. 13647, provided:

SECTION 1. The Mission of the National Wildlife Refuge System. The mission of the National Wildlife Refuge System (‘‘Refuge System’’) is to preserve a national network of lands and waters for the conservation and management of fish, wildlife, and plant resources of the United States for the benefit of present and future generations.

Sec. 2. Guiding Principles. To help ensure a bright future for its treasured national heritage, I hereby affirm the following four guiding principles for the management and general public use of the Refuge System:
(a) Public Use. The Refuge System provides important opportunities for compatible wildlife-dependent recreational activities involving hunting, fishing, wildlife observation and photography, and environmental education and interpretation.
(b) Habitat. Fish and wildlife will not prosper without high-quality habitat, and without fish and wildlife, traditional uses of refuges cannot be sustained. The Refuge System will continue to conserve and enhance the quality and diversity of fish and wildlife habitat within refuges.
(c) Partnerships. America’s sportsmen and women were the first partners who insisted on protecting valuable wildlife habitat within wildlife refuges. Conservation partnerships with other Federal agencies, State agencies, Tribes, organizations, industry, and the general public can make significant contributions to the growth and management of the Refuge System.
(d) Public Involvement. The public should be given a full and open opportunity to participate in decisions regarding acquisition and management of our National Wildlife Refuges.

Sec. 3. Directives to the Secretary of the Interior. To the extent consistent with existing laws and interagency agreements, the Secretary of the Interior, in carrying out his trustee and stewardship responsibilities for the Refuge System, is directed to:
(a) recognize compatible wildlife-dependent recreational activities involving hunting, fishing, wildlife observation and photography, and environmental education and interpretation as priority public uses within the Refuge System through which the American public can develop an appreciation for fish and wildlife;
(b) provide expanded opportunities for these priority public uses within the Refuge System when they are compatible and consistent with sound principles of fish and wildlife management, and are otherwise in the public interest;
(c) ensure that such priority public uses receive enhanced attention in planning and management within the Refuge System;
(d) provide increased opportunities for families to experience wildlife-dependent recreation, particularly opportunities for parents and their children to safely engage in traditional outdoor activities, such as fishing and hunting;
(e) ensure that the biological integrity and environmental health of the Refuge System is maintained for the benefit of present and future generations of Americans;
(f) continue, consistent with existing laws and interagency agreements, authorized or permitted uses of units of the Refuge System by other Federal agencies, including those necessary to facilitate military preparedness;
(g) plan and direct the continued growth of the Refuge System in a manner that is best designed to accom-

(B) The amounts apportioned under this paragraph shall be adjusted equitably so that no such State shall be apportioned a sum which is less than one percent of the amount available for apportionment under this paragraph for any fiscal year or more than five percent of such amount.

(3) Of the amounts transferred to the Wildlife Conservation and Restoration Account, not to exceed 3 percent shall be available for any Federal expenses incurred in the administration and execution of programs carried out with such amounts.

segment of the State’s wildlife conservation
and restoration program as the project pro-

§669e. Submission and approval of plans and projects

(a) Setting aside funds

Any State desiring to avail itself of the benefits of this chapter shall, by its State fish and game department, submit programs or projects for wildlife restoration in either of the following two ways:

(1) The State shall prepare and submit to the Secretary of the Interior a comprehensive fish and wildlife resource management plan which shall insure the perpetuation of these resources for the economic, scientific, and recreational enrichment of the people. Such plan shall be for a period of not less than five years and be based on projections of desires and needs of the people for a period of not less than fifteen years. It shall include provisions for updating at intervals of not more than three years and be provided in a format as may be required by the Secretary of the Interior. If the Secretary of the Interior finds that such plans conform to standards established by him and approves such plans, he may finance up to 75 per centum of the cost of implementing segments of those plans meeting the purposes of this chapter from funds apportioned under this chapter upon his approval of an annual agreement submitted to him.

(2) A State may elect to avail itself of the benefits of this chapter by its State fish and game department submitting to the Secretary of the Interior full and detailed statements of any wildlife-restoration project proposed for that State. If the Secretary of the Interior finds that such project meets with the standards set by him and approves said project, the State fish and game department shall furnish to him such surveys, plans, specifications, and estimates therefor as he may require. If the Secretary of the Interior approves the plans, specifications, and estimates for the project, he shall notify the State fish and game department and immediately set aside so much of said fund as represents the share of the United States payable under this chapter on account of such project, which sum so set aside shall not exceed 75 per centum of the total estimated cost thereof.

The Secretary of the Interior shall approve only such comprehensive plans or projects as may be substantial in character and design and the expenditure of funds hereby authorized shall be applied only to such approved comprehensive wildlife plans or projects and if otherwise applied they shall be replaced by the State before it may participate in any further apportionment under this chapter. No payment of any money apportioned under this chapter shall be made on any comprehensive wildlife plan or project until an agreement to participate therein shall have been submitted to and approved by the Secretary of the Interior.

(b) “Project” defined

If the State elects to avail itself of the benefits of this chapter by preparing a comprehensive fish and wildlife plan under option (1) of subsection (a) of this section, then the term “project” may be defined for the purposes of this chapter as a wildlife program, all other definitions notwithstanding.
(c) Costs
Administrative costs in the form of overhead or indirect costs for services provided by State central service activities outside of the State agency having primary jurisdiction over the wildlife resources of the State which may be charged against programs or projects supported by the fund established by section 669b of this title shall not exceed in any one fiscal year 3 per centum of the annual apportionment to the State.

AMENDMENTS
1970—Subsec. (a). Pub. L. 91–503 inserted an alternative method of application for funds by the submission of a comprehensive fish and wildlife resource management plan for a period of five years based on projections for fifteen years, to be updated every three years, laid down a maximum limit of federal assistance of 75 per centum of the estimated cost of the implementation of the plan, and, in the existing method of application, now contained in par. Beginning July 1, 1945, the term “wildlife-restoration project”, as defined in section 669a of this title, shall include maintenance of completed projects. Notwithstanding any other provisions of this chapter, funds apportioned to a State under this chapter may be expended by the State for management (exclusive of law enforcement and public relations) of wildlife areas and resources. Funds from the Wildlife Conservation and Restoration Account may be used for a wildlife conservation education program, except that no such funds may be used for education efforts, projects, or programs that promote or encourage opposition to the regulated taking of wildlife.

(b) Each State may use the funds apportioned to it under section 669c(c) of this title to pay up to 75 per centum of the costs of a hunter safety program and the construction, operation, and maintenance of public target ranges, as a part of such program. The non-Federal share of such costs may be derived from license fees paid by hunters, but not from other Federal grant programs. The Secretary shall issue not later than the 120th day after the effective date of this subsection such regulations as he deems advisable relative to the criteria for the establishment of hunter safety programs and public target ranges under this subsection.

(a) Authority of Secretary of Defense

(1) Program

(A) In general

The Secretary of Defense shall carry out a program to provide for the conservation and rehabilitation of natural resources on military installations.

(B) Integrated natural resources management plan

To facilitate the program, the Secretary of each military department shall prepare and implement an integrated natural resources management plan for each military installation in the United States under the jurisdiction of the Secretary, unless the Secretary determines that the absence of significant natural resources on a particular installation makes preparation of such a plan inappropriate.

(2) Cooperative preparation

The Secretary of a military department shall prepare each integrated natural resources management plan for which the Secretary is responsible in cooperation with the Secretary of the Interior, acting through the Director of the United States Fish and Wildlife Service, and the head of each appropriate State fish and wildlife agency for the State in which the military installation concerned is located. Consistent with paragraph (4), the resulting plan for the military installation shall reflect the mutual agreement of the parties concerning conservation, protection, and management of fish and wildlife resources.

(3) Purposes of program

Consistent with the use of military installations to ensure the preparedness of the Armed Forces, each integrated natural resources management plan prepared under subsection (a) of this section—

(1) shall, to the extent appropriate and applicable, provide for—

(A) fish and wildlife management, land management, forest management, and fish- and wildlife-oriented recreation;

(B) fish and wildlife habitat enhancement or modifications;

(C) wetland protection, enhancement, and restoration, where necessary for support of fish, wildlife, or plants;

(D) integration of, and consistency among, the various activities conducted under the plan;

(E) establishment of specific natural resource management goals and objectives and time frames for proposed action;

(F) sustainable use by the public of natural resources to the extent that the use is not inconsistent with the needs of fish and wildlife resources;

(G) public access to the military installation that is necessary or appropriate for the use described in subparagraph (F), subject to requirements necessary to ensure safety and military security;

(H) enforcement of applicable natural resource laws (including regulations);

(I) no net loss in the capability of military installation lands to support the military mission of the installation; and

(J) such other activities as the Secretary of the military department determines appropriate;

(2) must be reviewed as to operation and effect by the parties thereto on a regular basis, but not less often than every 5 years; and

(3) may stipulate the issuance of special State hunting and fishing permits to individuals and require payment of nominal fees therefor, which fees shall be utilized for the protection, conservation, and management of fish and wildlife, including habitat improvement and related activities in accordance with the integrated natural resources management plan; except that—

(A) the Commanding Officer of the installation or persons designated by that Officer are authorized to enforce such special hunting and fishing permits and to collect, spend, administer, and account for fees for the permits, acting as agent or agents for the State if the integrated natural resources management plan so provides, and

(B) the fees collected under this paragraph may not be expended with respect to other than the military installation on which collected, unless the military installation is subsequently closed, in which case the fees may be transferred to another military installation to be used for the same purposes.

(c) Prohibitions on sale and lease of lands unless effects compatible with plan

After an integrated natural resources management plan is agreed to under subsection (a) of this section—

(1) no sale of land, or forest products from land, that is within a military installation...
covered by that plan may be made under section 2665(a) or (b) of title 10; and
(2) no leasing of land that is within the installation may be made under section 2667 of such title 10;
unless the effects of that sale or leasing are compatible with the purposes of the plan.

(d) Implementation and enforcement of plans
With regard to the implementation and enforcement of integrated natural resources management plans agreed to under subsection (a) of this section—
(1) neither Office of Management and Budget Circular A–76 nor any successor circular thereof applies to the procurement of services that are necessary for that implementation and enforcement; and
(2) priority shall be given to the entering into of contracts for the procurement of such implementation and enforcement services with Federal and State agencies having responsibility for the conservation or management of fish or wildlife.

(e) Applicability of other laws
Integrated natural resources management plans agreed to under the authority of this section and section 670b of this title shall not be deemed to be, nor treated as, cooperative agreements to which chapter 63 of title 31 applies.

(f) Reviews and reports

(1) Secretary of Defense
Not later than March 1 of each year, the Secretary of Defense shall review the extent to which integrated natural resources management plans were prepared or were in effect and implemented in accordance with this subchapter in the preceding year, and submit a report on the findings of the review to the committees. Each report shall include—

(a) Any State agency may agree with the Secretary of the Interior and the Secretary of Agriculture (or with the Secretary of the Interior or the Secretary of Agriculture, as the case may be, if within the State concerned all conservation and rehabilitation programs under this subchapter will be implemented by him) that no individual will be permitted to hunt, trap, or fish on any public land within the State which is subject to a conservation and rehabilitation program implemented under this subchapter unless at the time such individual is engaged in such activity he has on his person a valid public land management area stamp issued pursuant to this section.

(b) Any agreement made pursuant to subsection (a) of this section to require the issuance of public land management area stamps shall be subject to the following conditions:

(1) Such stamps shall be issued, sold, and the fees therefor collected, by the State agency or by the authorized agents of such agency.

(2) Notice of the requirement to possess such stamps shall be displayed prominently in all places where State hunting, trapping, or fishing licenses are sold. To the maximum extent practicable, the sale of such stamps shall be combined with the sale of such State hunting, trapping, and fishing licenses.

(3) Except for expenses incurred in the printing, issuing, or selling of such stamps, the fees collected for such stamps by the State agency shall be utilized in carrying out conservation and rehabilitation programs implemented under this subchapter in the State concerned. Such fees may be used by the State agency to acquire lands or interests therein from willing sellers or donors to provide public access to program lands that have no existing public access for enhancement of outdoor recreation and wildlife conservation: Provided, That the Secretary of Agriculture and the Secretary of the Interior maintain such access, or ensure that maintenance is provided for such access, through or to lands within their respective jurisdiction.

(4) The purchase of any such stamp shall entitle the purchaser thereof to hunt, trap, and fish on any public land within such State which is the subject of a conservation or rehabilitation program implemented under this subchapter except to the extent that the public use of such land is limited pursuant to a comprehensive plan or cooperative agreement; but the purchase of any such stamp shall not be construed as (A) eliminating the requirement for the purchase of a migratory bird hunting stamp as set forth in section 718a of this title, or (B) relieving the purchaser from compliance with any applicable State game and fish laws and regulations.

(5) The amount of the fee to be charged for such stamps, the age at which the individual is required to acquire such a stamp, and the expiration date for such stamps shall be mutually agreed upon by the State agency and the Secretary or Secretaries concerned; except that each such stamp shall be void not later than one year after the date of issuance.

(6) Each such stamp must be validated by the purchaser thereof by signing his name across the face of the stamp.

(7) Any individual to whom a stamp is sold pursuant to this section shall upon request exhibit such stamp for inspection to any officer or employee of the Department of the Interior or the Department of Agriculture, or to any other person who is authorized to enforce section 670j(a) of this title.

§ 670j. Enforcement provisions

Upon conviction for such offense, such forfeiture may be adjudicated as a penalty in addition to any other provided for committing such offense.

(d) Applicability of customs laws to seizures and forfeitures; exceptions

All provisions of law relating to the seizure, forfeiture, and condemnation of a vessel for violation of the customs laws, the disposition of such vessel or the proceeds from the sale thereof, and the remission or mitigation of such forfeitures, shall apply to the seizures and forfeitures incurred, or alleged to have been incurred, under the provisions of this section, insofar as such provisions of law are applicable and not inconsistent with the provisions of this section; except that all powers, rights, and duties conferred or imposed by the customs laws upon any officer or employee of the Department of the Treasury shall, for the purposes of this section, be exercised or performed by the Secretary of the Interior or the Secretary of Agriculture, as the case may be, or by such persons as he may designate.

Such National Forest lands shall be located in the Sabine National Forest in Sabine County, Texas, in the Davy Crockett National Forest south of Texas State Highway 7, or in other sites deemed mutually agreeable, and within reasonable distance of the timber companies’ existing

The Secretary, in consultation with the State of Idaho, may designate zones where, and establish periods when, no hunting may be permitted for reasons of public safety, protection of the area’s resources, administration, or public use and enjoyment. Except in emergencies, any regulations prescribing such restrictions relating to hunting shall be put into effect only after consultation with the State of Idaho.

REFERENCES IN TEXT

This Act, referred to in text, is act May 25, 1900, section 1 of which is classified to this section. Sections 2 to 4 of the Act were repealed and restated by sections 241 to 244 of the Criminal Code of 1969 (18 U.S.C. 638–638k). The Fish and Wildlife Coordination Act (16 U.S.C. 661–666c), the Endangered Species Act of 1973 (16 U.S.C. 1531–1544), the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4347), and other pertinent statutes, it is hereby ordered as follows:

SECTION 1. Policy. Migratory birds are of great ecological and economic value to this country and to other countries. They contribute to biological diversity and bring tremendous enjoyment to millions of Americans who study, watch, feed, or hunt these birds throughout the United States and other countries. The United States has recognized the critical importance of this shared resource by ratifying international, bilateral conventions for the conservation of migratory birds. Such conventions include the Convention for the Protection of Migratory Birds with Great Britain on behalf of Canada 1916, the Convention for the Protection of Migratory Birds and Game Mammals–Mexico 1936, the Convention for the Protection of Birds and Their Environment–Japan 1972, and the Convention for the Conservation of Migratory Birds and Their Environment–Union of Soviet Socialist Republics 1978.

These migratory bird conventions impose substantive obligations on the United States for the conservation of migratory birds and their habitats, and through the Migratory Bird Treaty Act (Act), the United States has implemented these migratory bird conventions with respect to the United States. This Executive Order directs executive departments and agencies to take certain actions to further implement the Act.

(a) “Take” means take as defined in 50 C.F.R. 10.12, and includes both “intentional” and “unintentional” take.

(b) “Unintentional take” means take that is the purpose of the activity in question.

(c) “Intentional take” means take that results from, but is not the purpose of, the activity in question.

(e) “Migratory bird resources” means migratory birds and the habitats upon which they depend.

(f) “Migratory bird convention” means, collectively, the bilateral conventions (with Great Britain/Canada, Mexico, Japan, and Russia) for the conservation of migratory bird resources.

(g) “Federal agency” means an executive department or agency, but does not include independent establishments as defined by 5 U.S.C. 101.

(h) “Action” means a program, activity, project, official policy (such as a rule or regulation), or formal plan directly carried out by a Federal agency. Each Federal agency will further define what the term “action” means with respect to its own authorities and what programs should be included in the agency-specific Memoranda of Understanding required by this order. Actions delegated to or assumed by nonfederal entities, or carried out by nonfederal entities with Federal assistance, are not subject to this order. Such actions, however, continue to be subject to the Migratory Bird Treaty Act.

(i) “Species of concern” refers to those species listed in the periodic report “Migratory Nongame Birds of the United States Fish and Wildlife Service.”
Management Concern in the United States,” priority migratory bird species as documented by established plans (such as Bird Conservation Regions in the North American Bird Conservation Initiative or Partners in Flight physiographic areas), and those species listed in 50 C.F.R. 17.11.

Sec. 3. Federal Agency Responsibilities. (a) Each Federal agency taking actions that have, or are likely to have, a measurable negative effect on migratory bird populations is directed to develop and implement, within 2 years, a Memorandum of Understanding (MOU) with the Fish and Wildlife Service (Service) that shall promote the conservation of migratory bird populations.

In coordination with affected Federal agencies, the Service shall develop a schedule for completion of the MOUs within 180 days of the date of this order. The schedule shall give priority to completing the MOUs with agencies having the most substantive impacts on migratory birds.

(c) Each MOU shall establish protocols for implementation of the MOU and for reporting accomplishments. These protocols may be incorporated into existing actions; however, the MOU shall recognize that the agency may not be able to implement some elements of the MOU at such time as the agency has successfully included them in each agency’s formal planning processes (such as revision of agency land management plans, land use compatibility guidelines, integrated resource management plans, and fishery management plans), including public participation and NEPA analysis, as appropriate. This order and the MOUs to be developed by the agencies are intended to be implemented when new actions or renewal of contracts, permits, delegations, or other third party agreements are initiated as well as during the initiation of new, or revisions to, land management plans.

(d) Each MOU shall include an elevation process to resolve any dispute between the signatory agencies regarding a particular practice or activity.

(e) Pursuant to its MOU, each agency shall, to the extent permitted by law and subject to the availability of appropriations and within Administration budgetary limits, and in harmony with agency missions:

(1) support the conservation intent of the migratory bird conventions by integrating bird conservation principles, measures, and practices into agency activities and by avoiding or minimizing, to the extent practicable, adverse impacts on migratory bird resources when conducting agency actions;

(2) restore and enhance the habitat of migratory birds, as practicable;

(3) prevent or abate the pollution or detrimental alteration of the environment for the benefit of migratory birds, as practicable;

(4) design migratory bird habitat and population conservation principles, measures, and practices, into agency plans and planning processes (natural resource, land management, and environmental quality planning, including, but not limited to, forest and range land planning, coastal management planning, watershed planning, etc.) as practicable, and coordinate with other agencies and nonfederal partners in planning efforts;

(5) within established authorities and in conjunction with the adoption, amendment, or revision of agency management plans and guidance, ensure that agency plans and actions promote programs and recommendations of comprehensive migratory bird planning efforts such as Partners-in-Flight, U.S. National Shorebird Plan, North American Waterbird Management Plan, North American Colonial Waterbird Plan, and other planning efforts, as well as guidance from other sources, including the Food and Agricultural Organization’s International Plan of Action for Reducing Incidental Catch of Seabirds in Longline Fisheries;

(6) ensure that environmental analyses of Federal actions required by the NEPA or other established environmental review processes of agency actions and agency plans on migratory birds, with emphasis on species of concern;

(7) provide notice to the Service in advance of conducting an action that is intended to take migratory birds, or annually report to the Service on the number of individuals of each species of migratory bird intentionally taken during the conduct of any agency action, including but not limited to banding or marking, scientific collecting, taxidermy, and depredation control;

(8) minimize the intentional take of species of concern by: (i) delineating standards and procedures for such take; and (ii) developing procedures for the review and evaluation of take actions. With respect to unintentional take, the MOU shall be consistent with the appropriate sections of 50 C.F.R. parts 10, 21, and 22;

(9) identify where unintentional take reasonably attributable to agency actions is having, or is likely to have, a measurable negative effect on migratory bird populations, focusing first on species of concern, priority habitats, and key risk factors. With respect to those actions so identified, the agency shall develop and use principles, standards, and practices that will lessen the amount of unintentional take, developing any such conservation efforts in cooperation with the Service. These principles, standards, and practices shall be regularly evaluated and revised to ensure that they are effective in lessening the detrimental effect of agency actions on migratory bird populations. The agency shall inventory and monitor bird populations and populations within the agency’s capabilities and authorities to the extent feasible to facilitate decisions about the need for, and effectiveness of, conservation efforts;

(10) within the scope of its statutorily-designated authorities, control the import, export, and establishment in the wild of live exotic animals and plants that may be harmful to migratory bird resources;

(11) promote research and information exchange related to the conservation of migratory bird resources, including coordinated inventorying and monitoring and the collection and assessment of information on environmental contaminants and other physical or biological stressors having potential relevance to migratory bird conservation. Where such information is collected in the course of agency actions or supported through Federal financial assistance, reasonable efforts shall be made to share such information with the Service, the Biological Resources Division of the U.S. Geological Survey, and other appropriate repositories of such data (e.g., the Cornell Laboratory of Ornithology);

(12) provide training and information to appropriate employees on methods and means of avoiding or minimizing the take of migratory birds and conserving and restoring migratory bird habitat;

(13) promote migratory bird conservation in international activities and with other countries and international partners, in consultation with the Department of State, as appropriate or relevant to the agency’s authorities;

(14) recognize and promote economic and recreational values of birds, as appropriate; and

(15) develop partnerships with non-Federal entities to further bird conservation.

(f) Notwithstanding the requirement to finalize an MOU within 2 years, each agency is encouraged to immediately begin implementing the conservation measures set forth above in subparagraphs (1) through (15) of this section, as appropriate and practicable.

(g) Each agency shall advise the public of the availability of its MOU through a notice published in the Federal Register.

(a) The Secretary of Interior shall establish an interagency Council for the Conservation of Migratory Birds (Council) to oversee the implementation of this order. The Council’s duties shall include the following: (1) sharing the latest resource information to assist in the conservation and management of migratory birds; (2) assessing the results of the review process of regulations, management plans, and agency plans on migratory birds, with emphasis on species of concern;
selecting an annual recipient of a Presidential Migratory Bird Federal Stewardship Award for contributions to the protection of migratory birds.

The Council shall include representation, at the bureau director/administrator level, from the Departments of the Interior, State, Commerce, Agriculture, Transportation, Energy, Defense, and the Environmental Protection Agency and from such other agencies as appropriate.

STS. 5. Application and Judicial Review. (a) This order and the MOU to be developed by the agencies do not require changes to current contracts, permits, or other third party agreements.

(b) This order is intended only to improve the internal management of the executive branch and does not create any right or benefit, substantive or procedural, separately enforceable at law or equity by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

WILLIAM J. CLINTON.

§ 702. Importation of eggs of game birds for propagation

The Secretary of the Interior shall have the power to authorize the importation of eggs of game birds for purposes of propagation, and he shall prescribe all necessary rules and regulations governing the importation of eggs of said birds for such purposes.

‘‘(a) Interim Authority for Incidental Takings.— During the period described in subsection (c), section 2 of the Migratory Bird Treaty Act (16 U.S.C. 703) shall not apply to the incidental taking of a migratory bird by a member of the Armed Forces during a military readiness activity authorized by the Secretary of Defense or the Secretary of the military department concerned.

‘‘(b) Identification of Measures to Minimize Impact of Activities.—During the periods described in subsections (c) and (d), the Secretary of Defense shall, in consultation with the Secretary of the Interior, identify measures—

‘‘(1) to minimize and mitigate, to the extent practicable, any adverse impacts of authorized military readiness activities on affected species of migratory birds; and

‘‘(2) to monitor the impacts of such military readiness activities on affected species of migratory birds.

‘‘(c) Period of Application for Interim Authority.—The period described in this subsection is the period beginning on the date of the enactment of this Act [Dec. 2, 2002] and ending on the date on which the Secretary of the Interior publishes in the Federal Register a notice that—

‘‘(1) regulations authorizing the incidental taking of migratory birds by members of the Armed Forces have been published in accordance with the requirements of subsection (d);

‘‘(2) all legal challenges to the regulations and to the manner of their promulgation (if any) have been exhausted as provided in subsection (e); and

‘‘(B) the operation of industrial activities; or

‘‘(C) the construction or demolition of facilities used for a purpose described in subparagraph (A) or (B).’’

**Arctic Tundra Habitat Emergency Conservation**

‘‘SECTION 1. SHORT TITLE. —This Act may be cited as the ‘Arctic Tundra Habitat Emergency Conservation Act’.

‘‘SEC. 2. FINDINGS AND PURPOSES. —(a) Findings.—The Congress finds the following:

‘‘(1) The winter index population of mid-continent light geese was 800,000 birds in 1969, while the total population of such geese is more than 5,200,000 birds today.

‘‘(2) The population of mid-continent light geese is expanding by over 5 percent each year, and in the absence of new wildlife management actions it could grow to more than 6,800,000 breeding light geese in 3 years.

‘‘(3) The primary reasons for this unprecedented population growth are—
"(A) the expansion of agricultural areas and the resulting abundance of cereal grain crops in the United States;
"(B) the establishment of sanctuaries along the United States flyways of migrating light geese; and
"(C) a decline in light geese harvest rates.

"(4) As a direct result of this population explosion, the Hudson Bay Lowlands Salt-Marsh ecosystem in Canada is being systematically destroyed. This ecosystem contains approximately 135,000 acres of essential habitat for migrating light geese and many other avian species. Biologists have testified that one-third of this habitat has been destroyed, one-third is on the brink of devastation, and the remaining one-third is overgrazed.

"(5) The destruction of the Arctic tundra is having a severe negative impact on many avian species that breed or migrate through this habitat, including the following:

"(A) Canada Goose.
"(B) American Wigeon.
"(C) Dowitcher.
"(D) Hudsonian Godwit.
"(E) Stilt Sandpiper.
"(F) Northern Shoveler.
"(G) Red-Breasted Merganser.
"(H) Oldsquaw.
"(I) Parasitic Jaeger.
"(J) Whimbrel.
"(K) Yellow Rail.

"(6) It is essential that the current population of mid-continent light geese be reduced by 50 percent by the year 2005 to ensure that the fragile Arctic tundra is not irreversibly damaged.

"(b) Purposes.—The purposes of this Act are the following:

"(1) To reduce the population of mid-continent light geese.
"(2) To assure the long-term conservation of mid-continent light geese and the biological diversity of the ecosystem upon which many North American migratory birds depend.

"SEC. 3. FORCE AND EFFECT OF RULES TO CONTROL OVERABUNDANT MID-CONTINENT LIGHT GEEOSE POPULATIONS.

"(a) Force and Effect.—

"(1) In general.—The rules published by the Service on February 16, 1999, relating to use of additional hunting methods to increase the harvest of mid-continent light geese (64 Fed. Reg. 7507–7517) and the establishment of a conservation order for the reduction of mid-continent light geese populations (64 Fed. Reg. 7517–7528), shall have the force and effect of law.

"(2) Public notice.—The Secretary, acting through the Director of the Service, shall take such action as is necessary to appropriately notify the public of the force and effect of the rules referred to in paragraph (1).

"(b) Application.—Subsection (a) shall apply only during the period that—

"(1) begins on the date of the enactment of this Act [Nov. 24, 1999]; and
"(2) ends on the latest of—

"(A) the effective date of rules issued by the Service after such date of the enactment to control overabundant mid-continent light geese populations;
"(B) the date of the publication of a final environmental impact statement for such rules under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)); and

"(c) Rule of Construction.—This section shall not be construed to limit the authority of the Secretary or the Service to issue rules, under another law, to regulate the taking of mid-continent light geese.

"SEC. 4. COMPREHENSIVE MANAGEMENT PLAN.

"(a) In general.—Not later than the end of the period described in section 103(b) [probably means section 3(b)], the Secretary shall prepare, and as appropriate implement, a comprehensive, long-term plan for the management of mid-continent light geese and the conservation of their habitat.

"(b) Required Elements.—The plan shall apply principles of adaptive resource management and shall include—

"(1) a description of methods for monitoring the levels of populations and the levels of harvest of mid-continent light geese, and recommendations concerning long-term harvest levels;
"(2) recommendations concerning other means for the management of mid-continent light goose populations, taking into account the reasons for the population growth specified in section 102(a)(3) [probably means section 2(a)(3)];
"(3) an assessment of, and recommendations relating to, conservation of the breeding habitat of mid-continent light geese;
"(4) an assessment of, and recommendations relating to, conservation of native species of wildlife adversely affected by the overabundance of mid-continent light geese, including the species specified in section 102(a)(5) [probably means section 2(a)(5)]; and
"(5) an identification of methods for promoting collaboration with the Government of Canada, States, and other interested persons.

"(c) Authorization of Appropriations.—There is authorized to be appropriated to carry out this section $1,000,000 for each of fiscal years 2000 through 2002.

"SEC. 5. DEFINITIONS.

"In this Act:

"(1) MID-CONTINENT LIGHT GEESE.—The term ‘mid-continent light geese’ means Lesser snow geese (Anser caerulescens caerulescens) and Ross’ geese (Anser rossii) that primarily migrate between Canada and the States of Alabama, Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas, Wisconsin, and Wyoming.

"(2) SECRETARY.—The term ‘Secretary’ means the Secretary of the Interior.

"(3) SERVICE.—The term ‘Service’ means the United States Fish and Wildlife Service.

§ 704. Determination as to when and how migratory birds may be taken, killed, or possessed

By virtue of and pursuant to the authority vested in me as President of the United States, it is hereby ordered that the Secretary of State and the Secretary of the Interior shall from time to time jointly recommend the establishment by Executive orders of fishery conservation zones in areas of the high seas contiguous to the coasts of the United States, pursuant to the proclamation entitled “Policy of the United States With Respect to Coastal Fisheries in Certain Areas of the High Seas” [Proc. Harry S. Truman.

§ 742a. Declaration of policy

The Congress declares that the fish, shellfish, and wildlife resources of the Nation make a material contribution to our national economy and food supply, as well as a material contribution to the health, recreation, and well-being of our citizens; that such resources are a living, renewable form of national wealth that is capable of being maintained and greatly increased with proper management, but equally capable of destruction if neglected or unwisely exploited; that such resources afford outdoor recreation throughout the Nation and provide employment, directly or indirectly, to a substantial number of citizens; that the fishing industries strengthen the defense of the United States through the provision of a trained seafaring citizenry and action-ready fleets of seaworthy vessels; that the training and sport afforded by fish and wildlife resources strengthen the national defense by contributing to the general health and physical fitness of millions of citizens; and that properly developed, such fish and wildlife resources are capable of steadily increasing these valuable contributions to the life of the Nation.

The Congress further declares that the fishing industry, in its several branches, can prosper and thus fulfill its proper function in national life only if certain fundamental needs are satisfied by means that are consistent with the public interest and in accord with constitutional functions of governments. Among these needs are:

(1) Freedom of enterprise—freedom to develop new areas, methods, products, and markets in accordance with sound economic principles, as well as freedom from unnecessary administrative or legal restrictions that unreasonably conflict with or ignore economic needs;

(2) Protection of opportunity—maintenance of an economic atmosphere in which domestic production and processing can prosper; protection from subsidized competing products; protection of opportunity to fish on the high seas in accordance with international law;
(3) Assistance—assistance consistent with that provided by the Government for industry generally, such as is involved in promoting good industrial relations, fair trade standards, harmonious labor relations, better health standards and sanitation; and including, but not limited to—
(a) services to provide current information on production and trade, market promotion and development, and an extension service,
(b) research services for economic and technologic development and resource conservation, and
(c) resource management to assure the maximum sustainable production for the fisheries.

The Congress further declares that the provisions of this Act are necessary in order to accomplish the objective of proper resource development, and that this Act shall be administered with due regard to the inherent right of every citizen and resident of the United States to engage in fishing for his own pleasure, enjoyment, and betterment, and with the intent of maintaining and increasing the public opportunities for recreational use of our fish and wildlife resources, and stimulating the development of a strong, prosperous, and thriving fishery and fish processing industry.

Any loans made under the provisions of this section shall be subject to the following restrictions:

(1) Bear an interest rate of not less than (a) a rate determined by the Secretary of the Treasury, taking into consideration the average market yield on outstanding Treasury ob-

(3) No financial assistance shall be extended pursuant to this section unless reasonable financial assistance applied for is not otherwise available on reasonable terms.

"(4) by encouraging refuge educational programs, public awareness of the resources of the System and public participation in the conservation of those resources can be promoted.

"(b) PURPOSES.—The purposes of this Act are—

"(1) to encourage the use of volunteers to assist the United States Fish and Wildlife Service in the management of refuges within the System;

"(2) to facilitate partnerships between the System and non-Federal entities to promote public awareness of the resources of the System and public participation in the conservation of those resources; and

(a) Conservation, development, and enhancement; cooperative agreements; costs
For the purpose of conserving, developing, and enhancing within the several States the anadromous fishery resources of the Nation that are subject to depletion from water resources developments and other causes, or with respect to which the United States has made conservation commitments by international agreements, and for the purpose of conserving, developing, and enhancing the fish in the Great Lakes and Lake Champlain that ascend streams to spawn, the Secretary of the Interior is authorized to enter into cooperative agreements with one or more States, acting jointly or severally, that are concerned with the development, conservation, and enhancement of such fish, and, whenever he deems it appropriate, with other non-Federal interests. Such agreements shall describe (1) the actions to be taken by the Secretary and the cooperating parties, (2) the benefits that are expected to be derived by the States and other non-Federal interests, (3) the estimated cost of these actions, (4) the share of such costs to be borne by the Federal Government and by the States and other non-Federal interests: Provided, That, except as provided in subsection (c) of this section, the Federal share, including the operation and maintenance costs of any facilities constructed by the Secretary pursuant to sections 757a to 757f of this title, which he annually determines to be a proper Federal cost, shall not exceed 50 per centum of such costs ex-

For the purpose of this subsection, the term "basin" includes rivers and their tributaries, lakes, and other bodies of water or portions thereof.

(2) In the case of any State that has implemented an interstate fisheries management plan for anadromous fishery resources, prepared by an interstate commission, the Federal share of any grant made under this section to carry out activities required by such plan shall be up to 90 percent. CODIFICATION

Although the intent of Congress to amend this section is clear from the directory language of Pub. L. 98–146 which states that the sentence relating to the eligibility of the State of Idaho be added to "16 U.S.C. 757e"; that directory language has been editorially interpreted as directing the addition of that sentence to section 5 of Pub. L. 98–304, because Title 16 of the United States Code [this title] has never been enacted into positive law and its sections are therefore not susceptible of amendment as sections of "16 U.S.C.—" and because section 5 of Pub. L. 98–304 is the statute which was classified to, and serves as the source for 16 U.S.C. 757e [this section].

AMENDMENTS

1983—Pub. L. 98–146 inserted provision that the State of Idaho shall be eligible on an equal standing with other States for Federal funding for purposes authorized by sections 757a to 757f of this title.

§ 757f. Studies on pollution; recommendations to Secretary of Health and Human Services

The Secretary of the Interior shall, on the basis of studies carried out pursuant to sections 757a to 757f of this title and section 685 of this title, make recommendations to the Secretary of Health and Human Services concerning the elimination or reduction of polluting substances detrimental to fish and wildlife in interstate or navigable waters or the tributaries thereof. Such recommendations and any enforcement measures initiated pursuant thereto by the Secretary of Health and Human Services shall be designed to enhance the quality of such waters, and shall take into consideration all other legitimate uses of such waters.

CHANGE OF NAME

"Secretary of Health and Human Services" substituted in text for "Secretary of Health, Education, and Welfare" pursuant to section 509(b) of Pub. L. 98–88, which is classified to section 3508(b) of Title 20, Education.
