This section not to be construed to extend application of Education Amendments of 1972, Pub. L. 92–318, to ultimate beneficiaries of Federal financial assistance excluded from coverage before Mar. 22, 1988, see section 7 of Pub. L. 100–259, set out as a note under section 1681 of this title.
§ 1701

SUBCHAPTER I—EQUAL EDUCATIONAL OPPORTUNITIES
PART 1—POLICY AND PURPOSE

§ 1701. Congressional declaration of policy

(a) Entitlement to equal educational opportunity; neighborhood as appropriate basis

The Congress declares it to be the policy of the United States that—

(1) all children enrolled in public schools are entitled to equal educational opportunity without regard to race, color, sex, or national origin; and

(2) the neighborhood is the appropriate basis for determining public school assignments.

(b) Purpose

In order to carry out this policy, it is the purpose of this subchapter to specify appropriate remedies for the orderly removal of the vestiges of the dual school system.

§ 1702. Congressional findings

(a) Dual school systems as denial of equal protection; depletion of financial resources of local educational agencies; transportation of students; inadequacy of guidelines

The Congress finds that—

(1) the maintenance of dual school systems in which students are assigned to schools solely on the basis of race, color, sex, or national origin denies to those students the equal protection of the laws guaranteed by the fourteenth amendment;

(2) for the purpose of abolishing dual school systems and eliminating the vestiges thereof, many local educational agencies have been required to reorganize their school systems, to reassign students, and to engage in the extensive transportation of students;

(3) the implementation of desegregation plans that require extensive student transportation has, in many cases, required local educational agencies to expend large amounts of funds, thereby depleting their financial resources available for the maintenance or improvement of the quality of educational facilities and instruction provided;

(4) transportation of students which creates serious risks to their health and safety, disrupts the educational process carried out with respect to such students, and impinges significantly on their educational opportunity, is excessive;

(5) the risks and harms created by excessive transportation are particularly great for children enrolled in the first six grades; and

(6) the guidelines provided by the courts for fashioning remedies to dismantle dual school systems have been, as the Supreme Court of the United States has said, “incomplete and imperfect,” and have not established, a clear, rational, and uniform standard for determining the extent to which a local educational agency is required to reassign and transport its students in order to eliminate the vestiges of a dual school system.

(b) Necessity of Congress to specify appropriate remedies for elimination of dual school systems

For the foregoing reasons, it is necessary and proper that the Congress, pursuant to the powers granted to it by the Constitution of the United States, specify appropriate remedies for the elimination of the vestiges of dual school systems, except that the provisions of this chapter are not intended to modify or diminish the authority of the courts of the United States to enforce fully the fifth and fourteenth amendments to the Constitution of the United States.

PART 2—UNLAWFUL PRACTICES

§ 1703. Denial of equal educational opportunity prohibited

No State shall deny equal educational opportunity to an individual on account of his or her race, color, sex, or national origin, by—

(a) the deliberate segregation by an educational agency of students on the basis of race, color, or national origin among or within schools;

(b) the failure of an educational agency which has formerly practiced such deliberate segregation to take affirmative steps, consistent with part 4 of this subchapter, to remove the vestiges of a dual school system;

(c) the assignment by an educational agency of a student to a school, other than the one closest to his or her place of residence within the school district in which he or she resides, if the assignment results in a greater degree of segregation of students on the basis of race, color, sex, or national origin among the schools of such agency than would result if such student were assigned to the school closest to his or her place of residence within the school district of such agency providing the appropriate grade level and type of education for such student;

(d) discrimination by an educational agency on the basis of race, color, or national origin in the employment, employment conditions, or assignment to schools of its faculty or staff, except to fulfill the purposes of subsection (f) below;

(e) the transfer by an educational agency, whether voluntary or otherwise, of a student from one school to another if the purpose and effect of such transfer is to increase segregation of students on the basis of race, color, or national origin among the schools of such agency; or

(f) the failure by an educational agency to take appropriate action to overcome language
barriers that impede equal participation by its students in its instructional programs.

§ 1704. Balance not required

The failure of an educational agency to attain a balance, on the basis of race, color, sex, or national origin, of students among its schools shall not constitute a denial of equal educational opportunity, or equal protection of the laws.

§ 1705. Assignment on neighborhood basis not a denial of equal educational opportunity

Subject to the other provisions of this subchapter, the assignment by an educational agency of a student to the school nearest his place of residence which provides the appropriate grade level and type of education for such student is not a denial of equal educational opportunity or of equal protection of the laws unless such assignment is for the purpose of segregating students on the basis of race, color, sex, or national origin, or the school to which such student is assigned was located on its site for the purpose of segregating students on such basis.

PART 3—ENFORCEMENT

§ 1706. Civil actions by individuals denied equal educational opportunities or by Attorney General

An individual denied an equal educational opportunity, as defined by this subchapter, may institute a civil action in an appropriate district court of the United States against such parties, and for such relief, as may be appropriate. The Attorney General of the United States (hereinafter in this chapter referred to as the “Attorney General”), for or in the name of the United States, may also institute such a civil action on behalf of such an individual.

§ 1707. Population changes without effect, per se, on school population changes

When a court of competent jurisdiction determines that a school system is desegregated, or that it meets the constitutional requirements, or that it is a unitary system, or that it has no vestiges of a dual system, and thereafter residential shifts in population occur which result in school population changes in any school within such a desegregated school system, such school population changes so occurring shall not, per se, constitute a cause for civil action for a new plan of desegregation or for modification of the court approved plan.

PART 4—REMEDIES

§ 1712. Formulating remedies; applicability

In formulating a remedy for a denial of equal educational opportunity or a denial of the equal protection of the laws, a court, department, or agency of the United States shall seek or impose only such remedies as are essential to correct particular denials of equal educational opportunity or equal protection of the laws.

§ 1713. Priority of remedies

In formulating a remedy for a denial of equal educational opportunity or a denial of the equal protection of the laws, which may involve directly or indirectly the transportation of students, a court, department, or agency of the United States shall consider and make specific findings on the efficacy in correcting such denial of the following remedies and shall require implementation of the first of the remedies set out below, or of the first combination thereof which would remedy such denial:

(a) assigning students to the schools closest to their places of residence which provide the appropriate grade level and type of education for such students, taking into account school capacities and natural physical barriers;

(b) assigning students to the schools closest to their places of residence which provide the appropriate grade level and type of education for such students, taking into account only school capacities;
§ 1714. Transportation of students

(a) Limitation to school closest or next closest to place of residence

No court, department, or agency of the United States shall, pursuant to section 1713 of this title, order the implementation of a plan that would require the transportation of any student to a school other than the school closest or next closest to his place of residence which provides the appropriate grade level and type of education for such student.

(b) Health risks; impingement on educational process

No court, department, or agency of the United States shall require directly or indirectly the transportation of any student if such transportation poses a risk to the health of such student or constitutes a significant impingement on the educational process with respect to such student.

(c) School population changes resulting from population changes

When a court of competent jurisdiction determines that a school system is desegregated, or that it meets the constitutional requirements, or that it is a unitary system, or that it has no vestiges of a dual system, and thereafter residential shifts in population occur which result in school population changes in any school within such a desegregated school system, no educational agency because of such shifts shall be required by any court, department, or agency of the United States to formulate, or implement any new desegregation plan, or modify or implement any modification of the court approved desegregation plan, which would require transportation of students to compensate wholly or in part for such shifts in school population so occurring.

§ 1715. District lines

In the formulation of remedies under section 1712 or 1713 of this title the lines drawn by a State, subdividing its territory into separate school districts, shall not be ignored or altered except where it is established that the lines were drawn for the purpose, and had the effect, of segregating children among public schools on the basis of race, color, sex, or national origin.

§ 1716. Voluntary adoption of remedies

Nothing in this subchapter prohibits an educational agency from proposing, adopting, requiring, or implementing any plan of desegregation, otherwise lawful, that is at variance with the standards set out in this subchapter nor shall any court, department, or agency of the United States be prohibited from approving implementation of a plan which goes beyond what can be required under this subchapter, if such plan is voluntarily proposed by the appropriate educational agency.

§ 1717. Reopening proceedings

A parent or guardian of a child, or parents or guardians of children similarly situated, transported to a public school in accordance with a court order, or an educational agency subject to a court order or a desegregation plan under title VI of the Civil Rights Act of 1964 [42 U.S.C. 2000d et seq.] in effect on August 21, 1974, and intended to end segregation of students on the basis of race, color, or national origin, may seek to reopen or intervene in the further implementation of such court order, currently in effect, if the time or distance of travel is so great as to risk the health of the student or significantly impinge on his or her educational process.

§ 1718. Limitation on court orders; termination of orders conditioned upon compliance with fifth and fourteenth amendments; statement of basis for termination orders; stay of termination orders

Any court order requiring, directly or indirectly, the transportation of students for the purpose of remedying a denial of the equal protection of the laws may, to the extent of such transportation, be terminated if the court finds the defendant educational agency has satisfied the requirements of the fifth or fourteenth amendments to the Constitution, whichever is applicable, and will continue to be in compliance with the requirements thereof. The court of initial jurisdiction shall state in its order the basis for any decision to terminate an order pursuant to this section, and the termination of any order pursuant to this section shall be stayed pending a final appeal or, in the event no
appeal is taken, until the time for any such appeal has expired. No additional order requiring such educational agency to transport students for such purpose shall be entered unless such agency is found not to have satisfied the requirements of the fifth or fourteenth amendments to the Constitution, whichever is applicable.

§ 1721. Separability

If any provision of this subchapter or of any amendment made by this subchapter, or the application of any such provision to any person or circumstance, is held invalid, the remainder of the provisions of this subchapter and of the amendments made by this subchapter and the application of such provision to other persons or circumstances shall not be affected thereby.

school by requiring the transportation of pupils or students from one school to another or one school district to another in order to achieve such racial balance, or otherwise enlarge the existing power of the court to insure compliance with constitutional standards shall apply to all public school pupils and to every public school system, public school and public school board, as defined by title IV [42 U.S.C. 2000c et seq.], under all circumstances and conditions and at all times in every State, district, territory, Commonwealth, or possession of the United States, regardless of whether the residence of such public school pupils or the principal offices of such public school system, public school or public school board is situated in the northern, eastern, western, or southern part of the United States.

§ 1755. Additional priority of remedies after finding of de jure segregation

Notwithstanding any other provision of law, after June 30, 1974 no court of the United States shall order the implementation of any plan to remedy a finding of de jure segregation which involves the transportation of students, unless the court first finds that all alternative remedies are inadequate.

§ 1756. Remedies with respect to school district lines

In the formulation of remedies under this chapter the lines drawn by a State subdividing its territory into separate school districts, shall not be ignored or altered except where it is established that the lines were drawn, or maintained or crossed for the purpose, and had the effect of segregating children among public schools on the basis of race, color, sex, or national origin, or where it is established that, as a result of discriminatory actions within the school districts, the lines have had the effect of segregating children among public schools on the basis of race, color, sex, or national origin.

§ 1757. Prohibition of forced busing during school year

(a) Congressional findings

The Congress finds that—

(1) the forced transportation of elementary and secondary school students in implementation of the constitutional requirement for the desegregation of such schools is controversial and difficult under the best planning and administration; and

(2) the forced transportation of elementary and secondary school students after the commencement of an academic school year is educationally unsound and administratively inefficient.

(b) Student transportation orders incidental to student transfers pursuant to school desegregation plans effective beginning with academic school year

Notwithstanding any other provisions of law, no order of a court, department, or agency of the United States, requiring the transportation of any student incident to the transfer of that student from one elementary or secondary school to another such school in a local educational agency pursuant to a plan requiring such transportation for the racial desegregation of any school in that agency, shall be effective until the beginning of an academic school year.

(c) “Academic school year” defined

For the purpose of this section, the term “academic school year” means, pursuant to regulations promulgated by the Secretary, the customary beginning of classes for the school year at an elementary or secondary school of a local educational agency for a school year that occurs not more often than once in any twelve-month period.

(d) Orders subject to provisions of section

The provisions of this section apply to any order which was not implemented at the beginning of the 1974–1975 academic year.

TRANSFER OF FUNCTIONS

“Secretary”, meaning the Secretary of Education, substituted for “Commissioner” in subsec. (c) pursuant to sections 301(a)(1) and 507 of Pub. L. 96–88, which are classified to sections 344(a)(1) and 307 of this title and which transferred functions of Commissioner of Education to Secretary of Education.

§ 1758. Reasonable time for developing voluntary school desegregation plans following detailed notice of violations

Notwithstanding any other law or provision of law, no court or officer of the United States shall enter, as a remedy for a denial of equal educational opportunity or a denial of equal protection of the laws, any order for enforcement of a plan of desegregation or modification of a court-approved plan, until such time as the local educational agency to be affected by such order has been provided notice of the details of the violation and given a reasonable opportunity to develop a voluntary remedial plan. Such time shall permit the local educational agency sufficient opportunity for community participation in the development of a remedial plan.

(5) Oral histories are of immeasurable value to historians, researchers, authors, journalists, film makers, scholars, students, and citizens of all walks of life.

(6) War veterans possess an invaluable resource in their memories of the conflicts in which they served, and can provide a rich history of our Nation and its people through the retelling of those memories, yet frequently those who served during times of conflict are reticent to family and friends about their experiences.

(7) It is in the Nation’s best interest to collect and catalog oral histories of American war veterans so that future generations will have original sources of information regarding the lives and times of those who served in war and the conditions under which they endured, so that Americans will always remember those who served in war and may learn first-hand of the heroics, tediousness, horrors, and triumphs of war.

(8) The Library of Congress, as the Nation’s oldest Federal cultural institution and largest and most inclusive library in human history (with nearly 119,000,000 items in its multimedia collection) is an appropriate repository to collect, preserve, and make available to the public an archive of these oral histories. The Library’s American Folklife Center has expertise in the management of documentation projects and experience in the development of cultural and educational programs for the public.

(b) Use of and consultation with other entities

The Director may carry out the activities described in paragraphs (1) and (3) of subsection (a) of this section through agreements and partnerships entered into with other government and private entities, and may otherwise consult with interested persons (within the limits of available resources) and develop appropriate guidelines and arrangements for soliciting, acquiring, and making available recordings under the program under this subchapter.

(c) Timing

As soon as practicable after October 27, 2000, the Director shall begin collecting video and audio recordings of histories of veterans.

(iii) the amount reserved under paragraph (4) for fiscal year 2006 (as such paragraph was in effect on the day before August 12, 2006).

(ii) Qualifying State

The term "qualifying State" means a State (except the United States Virgin Islands) that, for the fiscal year for which a determination under this paragraph is made, would receive, under the allotment formula under paragraph (2) (without the application of this paragraph and paragraphs (3) and (5)), an amount that would be less than the amount the State would receive under subparagraph (A) for such fiscal year.

Any such reallocation among other States shall occur on such dates during the same year as the Secretary shall fix, and shall be made on the basis of criteria established by regulation. No funds may be reallocated for any use other than the use for which the funds were appropriated. Allotment ratios shall be computed on the basis of the average of the appropriate per capita incomes for the 3 most recent consecutive fiscal years for which satisfactory data are available.

(3) Definition of per capita income

For the purpose of this section, the term "per capita income" means, with respect to a fiscal year, the total personal income in the calendar year ending in such year, divided by the population of the area concerned in such year.

§ 2351. Distribution of funds to secondary education programs

(a) Distribution rules

Except as provided in section 2353 of this title and as otherwise provided in this section, each eligible agency shall distribute the portion of funds made available under section 2322(a)(1) of this title to carry out this section to local educational agencies within the State as follows:

(1) Thirty percent

Thirty percent shall be allocated to such local educational agencies in proportion to the number of individuals aged 5 through 17, inclusive, who reside in the school district served by such local educational agency for the preceding fiscal year compared to the total number of such individuals who reside in the school districts served by all local educational agencies in the State for such preceding fiscal year, as determined on the basis of the most recent satisfactory—

(A) data provided to the Secretary by the Bureau of the Census for the purpose of determining eligibility under title I of the Elementary and Secondary Education Act of 1965 [20 U.S.C. 6301 et seq.]; or

(B) student membership data collected by the National Center for Education Statistics through the Common Core of Data survey system.

(2) Seventy percent

Seventy percent shall be allocated to such local educational agencies in proportion to the number of individuals aged 5 through 17, inclusive, who reside in the school district served by such local educational agency and are from families below the poverty level for the preceding fiscal year, as determined on the basis of the most recent satisfactory data used under section 1124(c)(1)(A) of the Elementary and Secondary Education Act of 1965 [20 U.S.C. 6333(c)(1)(A)], compared to the total number of such individuals who reside in the school districts served by all the local educational agencies in the State for such preceding fiscal year.

Each eligible agency, in making the allocations under paragraphs (1) and (2), shall adjust the data used to make the allocations to—

(A) reflect any change in school district boundaries that may have occurred since the data were collected; and

(B) include local educational agencies without geographical boundaries, such as charter schools and secondary schools funded by the Bureau of Indian Affairs.

(b) Waiver for more equitable distribution

The Secretary may waive the application of subsection (a) in the case of any eligible agency that submits to the Secretary an application for such a waiver that—

(1) demonstrates that a proposed alternative formula more effectively targets funds on the basis of poverty (as defined by the Office of Management and Budget and revised annually in accordance with section 9902(2) of title 42) to local educational agencies within the State than the formula described in subsection (a); and

(2) includes a proposal for such an alternative formula.

(c) Minimum allocation

(1) In general

Except as provided in paragraph (2), a local educational agency shall not receive an allocation under subsection (a) unless the amount allocated to such agency under subsection (a) is greater than $15,000. A local educational agency may enter into a consortium with other local educational agencies for purposes of meeting the minimum allocation requirement of this paragraph.

(2) Waiver

The eligible agency shall waive the application of paragraph (1) in any case in which the local educational agency—

(A)(i) is located in a rural, sparsely populated area; or

(ii) is a public charter school operating secondary school career and technical education programs; and

(d) Limited jurisdiction agencies

(1) In general

In applying the provisions of subsection (a), no eligible agency receiving assistance under this subchapter shall allocate funds to a local educational agency that serves only elementary schools, but shall distribute such funds to the local educational agency or regional educational agency that provides secondary school services to secondary school students in the same attendance area.
(2) Special rule

The amount to be allocated under paragraph (1) to a local educational agency that has jurisdiction only over secondary schools shall be determined based on the number of students that entered such secondary schools in the previous year from the elementary schools involved.

(e) Allocations to area career and technical education schools and educational service agencies

(1) In general

Each eligible agency shall distribute the portion of funds made available under section 2322(a)(1) of this title for any fiscal year by such eligible agency for career and technical education activities at the secondary level under this section to the appropriate area career and technical education school or educational service agency in any case in which the area career and technical education school or educational service agency, and the local educational agency concerned:

(A) have formed or will form a consortium for the purpose of receiving funds under this section; or

(B) have entered into or will enter into a cooperative arrangement for such purpose.

(2) Allocation basis

If an area career and technical education school or educational service agency meets the requirements of paragraph (1), then the amount that would otherwise be distributed to the local educational agency shall be allocated to the area career and technical education school, the educational service agency, and the local educational agency based on each school, agency or entity’s relative share of students who are attending career and technical education programs (based, if practicable, on the average enrollment for the preceding 3 years).

(3) Appeals procedure

The eligible agency shall establish an appeals procedure for resolution of any dispute arising between a local educational agency and an area career and technical education school or an educational service agency with respect to the allocation procedures described in this section, including the decision of a local educational agency to leave a consortium or terminate a cooperative arrangement.

(1) Alliance

Any local educational agency receiving an allocation that is not sufficient to conduct a program which meets the requirements of section 2355 of this title is encouraged to—

(C) operate programs that are of sufficient size, scope, and quality to be effective.

(2) Funds to consortium

Funds allocated to a consortium formed to meet the requirements of this subsection shall be used only for purposes and programs that are mutually beneficial to all members of the consortium and can be used only for programs authorized under this subchapter. Such funds may not be reallocated to individual members of the consortium for purposes or programs benefitting only 1 member of the consortium.

(g) Data

The Secretary shall collect information from eligible agencies regarding the specific dollar allocations made available by the eligible agency for career and technical education programs under subsections (a), (b), (c), (d), and (e) and how these allocations are distributed to local educational agencies, area career and technical education schools, and educational service agencies, within the State in accordance with this section.

(h) Special rule

Each eligible agency distributing funds under this section shall treat a secondary school funded by the Bureau of Indian Affairs within the State as if such school were a local educational agency within the State for the purpose of receiving a distribution under this section.

§ 2352. Distribution of funds for postsecondary education programs

(a) Allocation

(1) In general

Except as provided in subsections (b) and (c) and section 2333 of this title, each eligible agency shall distribute the portion of the funds made available under section 2322(a)(1) of this title to carry out this section for any fiscal year to eligible institutions or consortia of eligible institutions within the State.

(2) Formula

Each eligible institution or consortium of eligible institutions shall be allocated an amount that bears the same relationship to the portion of funds made available under section 2322(a)(1) of this title to carry out this
section for any fiscal year as the sum of the number of individuals who are Federal Pell Grant recipients and recipients of assistance from the Bureau of Indian Affairs enrolled in programs meeting the requirements of section 2355 of this title offered by such institution or consortium in the preceding fiscal year bears to the sum of the number of such recipients enrolled in such programs within the State for such year.

(3) Consortium requirements

(A) In general

In order for a consortium of eligible institutions described in paragraph (2) to receive assistance pursuant to such paragraph, such consortium shall operate joint projects that—

(i) provide services to all postsecondary institutions participating in the consortium; and

(ii) are of sufficient size, scope, and quality to be effective.

(B) Funds to consortium

Funds allocated to a consortium formed to meet the requirements of this section shall be used only for purposes and programs that are mutually beneficial to all members of the consortium and shall be used only for programs authorized under this subchapter. Such funds may not be reallocated to individual members of the consortium for purposes or programs benefiting only 1 member of the consortium.

(4) Waiver

The eligible agency may waive the application of paragraph (3)(A)(i) in any case in which the eligible institution is located in a rural, sparsely populated area.

(b) Waiver for more equitable distribution

The Secretary may waive the application of subsection (a) if an eligible agency submits to the Secretary an application for such a waiver that—

(1) demonstrates that the formula described in subsection (a) does not result in a distribution of funds to the eligible institutions or consortia within the State that have the highest numbers of economically disadvantaged individuals and that an alternative formula will result in such a distribution; and

(2) includes a proposal for such an alternative formula.

(c) Minimum grant amount

(1) In general

No institution or consortium shall receive an allocation under this section in an amount that is less than $50,000.

(2) Redistribution

Any amounts that are not distributed by reason of paragraph (1) shall be redistributed to eligible institutions or consortia in accordance with this section.

(2) Minimal amount

For purposes of this section, the term “minimal amount” means not more than 15 percent of the total amount made available for distribution under section 2322(a)(1) of this title.

(b) Redistribution

(1) In general

In any academic year that an eligible recipient does not expend all of the amounts the eligible recipient is allocated for such year under section 2351 or 2352 of this title, such eligible recipient shall return any unexpended amounts to the eligible agency to be reallocated under section 2351 or 2352 of this title, as appropriate.

(2) Redistribution of amounts returned late in an academic year

In any academic year in which amounts are returned to the eligible agency under section 2351 or 2352 of this title and the eligible agency is unable to reallocate such amounts according to such sections in time for such amounts to be expended in such academic year, the eligible agency shall retain such amounts for distribution in combination with amounts provided under section 2322(a)(1) of this title for the following academic year.

(c) Construction

Nothing in section 2351 or 2352 of this title shall be construed—

(1) to prohibit a local educational agency or a consortium thereof that receives assistance under section 2351 of this title, from working with an eligible institution or consortium thereof that receives assistance under section 2352 of this title, to carry out career and technical education programs at the secondary level in accordance with this subchapter;

(2) to prohibit an eligible institution or consortium thereof that receives assistance under section 2352 of this title, from working with a local educational agency or consortium thereof that receives assistance under section 2351
of this title, to carry out postsecondary and adult career and technical education programs in accordance with this subchapter; or

(3) to require a charter school, that provides career and technical education programs and is considered a local educational agency under State law, to jointly establish the charter school’s eligibility for assistance under this subchapter unless the charter school is explicitly permitted to do so under the State’s charter school statute.

(d) Consistent application

For purposes of this section, the eligible agency shall provide funds to charter schools offering career and technical education programs in the same manner as the eligible agency provides those funds to other schools. (b) Maintenance of effort

(1) Determination

(A) In general

Except as provided in subparagraphs (B) and (C), no payments shall be made under this chapter for any fiscal year to a State for career and technical education programs or tech prep programs unless the Secretary determines that the fiscal effort per student or the aggregate expenditures for the fiscal year preceding the fiscal year for which the determination is made, equaled or exceeded such effort or expenditures for career and technical education programs for the second fiscal year preceding the fiscal year for which the determination is made.

The Congress finds that—

(1) education is fundamental to the development of individual citizens and the progress of the Nation;

(2) there is a continuing need to ensure equal access for all Americans to educational opportunities of a high quality, and such educational opportunities should not be denied because of race, creed, color, national origin, or sex;

(3) parents have the primary responsibility for the education of their children, and States, localities, and private institutions have the primary responsibility for supporting that parental role;

(4) in our Federal system, the primary public responsibility for education is reserved respectively to the States and the local school systems and other instrumentalities of the States;

(5) the American people benefit from a diversity of educational settings, including public and private schools, libraries, museums and other institutions, the workplace, the community, and the home;

(6) the importance of education is increasing as new technologies and alternative approaches to traditional education are considered, as society becomes more complex, and as equal opportunities in education and employment are promoted;

(7) there is a need for improvement in the management and coordination of Federal education programs to support more effectively State, local, and private institutions, students, and parents in carrying out their educational responsibilities;

(8) the dispersion of education programs across a large number of Federal agencies has led to fragmented, duplicative, and often inconsistent Federal policies relating to education;

(9) Presidential and public consideration of issues relating to Federal education programs is hindered by the present organizational position of education programs in the executive branch of the Government; and

(10) there is no single, full-time, Federal education official directly accountable to the President, the Congress, and the people.

Ord. No. 12212, formerly set out below], except that at any time on or after October 1, 1979—"

"(b) Funds available to any department or agency (or any official or component thereof), the functions or offices of which are transferred to the Secretary or the Department by this Act [see Short Title note below], may, with the approval of the Director of the Office of
Management and Budget, be used to pay the compensation and expenses of any officer appointed pursuant to this title (this section and section 602 of Pub. L. 96–88 set out below) and other transitional and planning expenses associated with the establishment of the Department or transfer of functions or offices thereto until such time as funds for such purposes are otherwise available.”

**INTERIM APPOINTMENTS**

Section 602 of Pub. L. 96–88 provided that: “(a) In the event that one or more officers required by this Act [see Short Title note above] to be appointed by and with the advice and consent of the Senate shall not have entered upon office on the effective date of this Act [May 4, 1980] and notwithstanding any other provisions of law, the President may designate an officer in the executive branch to act in such office for one hundred and twenty days or until the office is filled as provided in this Act, whichever occurs first.

(b) Any officer acting in an office in the Department pursuant to the provisions of subsection (a) shall receive compensation at the rate prescribed for such office under this Act.”

**Ex. Ord. No. 13555. WHITE HOUSE INITIATIVE ON EDUCATIONAL EXCELLENCE FOR HISPANICS**

Ex. Ord. No. 13555, Oct. 19, 2010, 75 F.R. 65417, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, to restore the country to its role as the global leader in education, to strengthen the Nation by expanding educational opportunities and improving educational outcomes for Hispanics and Latinos (Hispanics) of all ages, and to help ensure that all Hispanics receive an education that properly prepares them for college, productive careers, and satisfying lives, it is hereby ordered as follows:

**SECTION 1. Policy.** At more than 52 million strong, including 4 million in Puerto Rico, Hispanics constitute the country’s largest and fastest growing minority group. They have had a profound and positive impact on our country through, among other things, their community’s strong commitment to family, faith, hard work, and service. Many Hispanics contribute to this Nation bilingually in the English and Spanish languages—a true asset for our country in an increasingly global, interdependent world.

Hispanic students are the largest minority group in our Nation’s schools, numbering more than 11 million in our public elementary and secondary school system, and constituting more than 25 percent of all pre-K-12 students. Hispanic students face educational challenges of crisis proportions. Fewer than half of all Hispanic children participate in early childhood education programs, and far too few Hispanic students graduate from high school; of those who do complete high school, many are not adequately prepared for college. Only 12 percent of adult Hispanics have a bachelor’s degree, and just 3 percent have completed graduate or professional degree programs. At the same time, large numbers of Hispanic adults lack the education or literacy skills they need to advance their careers; they also are less likely than members of other groups to have taken job- or career-related courses, and have access to student support services that encourage the early learning and development of children from birth through age 5; implementing successful and innovative education reform strategies and practices in America’s public schools to ensure that Hispanic students, like their peers, receive a rigorous and well-rounded education, and have access to student support services that will prepare them for college, a career, and productive and satisfying lives.

Our country was built on and continues to thrive on its diversity, and there is no doubt that the future of the United States is inextricably linked to the future of the Hispanic community. To reach the ambitious education goals we have set for our Nation, as well as to ensure equality of opportunity for all, we must provide the opportunities that will enable Hispanic students to raise their educational attainment at every level of the American education system. America’s future competitiveness in our global economy will be substantially enhanced by improving educational outcomes for Hispanics.

SEC. 2. White House Initiative on Educational Excellence for Hispanics.

(a) Establishment. There is established the White House Initiative on Educational Excellence for Hispanics (Initiative), to be housed in the Department of Education (Secretary). The Initiative shall be to help restore the United States to its role as the global leader in education and to strengthen the Nation by expanding educational opportunities and improving educational outcomes for Hispanics of all ages and by helping to ensure that all Hispanics receive a complete and competitive education that prepares them for college, a career, and productive and satisfying lives.

(b) Initiative Administration. There shall be an Executive Director of the Initiative, to be appointed by the Secretary of Education (Secretary). The Initiative shall be advised by the Commission established under section 3 of this order and supported by the Working Group established under subsection (c) of this section. The Department shall provide the staff, resources, and assistance for the Initiative and the Working Group. (d) Initiative Objectives.

(1) To expand educational opportunities, improve education outcomes, and deliver a complete and competitive education for all Hispanics, the Initiative shall, consistent with law, promote, encourage, and undertake efforts designed to meet the following objectives:

(i) increasing general understanding of the causes of the educational challenges faced by Hispanic students;

(ii) increasing the percentage of Hispanic children who enter kindergarten ready for success by improving access by Hispanics to high-quality programs and services that encourage early learning and development of children from birth through age 5; improving access to preschool education, and have access to student support services that will prepare them for college, a career, and civic participation;

(iii) implementing successful and innovative education reform strategies and practices in America’s public schools to ensure that Hispanic students, like their peers, receive a rigorous and well-rounded education, and have access to student support services that will prepare them for college, a career, and productive and satisfying lives.

(2) In the process of ensuring that Hispanic students have access to excellent teachers and school leaders, in part by supporting efforts to improve the recruitment, preparation, development, and retention of successful Hispanic teachers and school leaders and other effective teachers and school leaders responsible for the education of Hispanic students;

(v) reducing the dropout rate of Hispanic students and helping Hispanic students graduate from high school prepared for college and a career, in part by promoting a positive school climate and supporting successful and innovative dropout prevention and recovery strategies that better engage Hispanic youths in their learning, help them catch up academically, and provide those who have left the educational system with pathways to reentry;

(vi) increasing college access and success for Hispanic students and providing support to help ensure that a greater percentage of Hispanics complete col-
legible and contribute to the goal of having America again lead the world in the proportion of college graduates by 2020, in part through strategies to strengthen the capacity of Hispanic-Serving Institutions, community colleges, and other institutions of higher education serving large numbers of Hispanic students; and

(v) advise the Secretary on the development, implementation, and coordination of educational programs and initiatives at the Department and other agencies designed to improve educational opportunities and outcomes for Hispanics of all ages;

(vi) encourage and develop partnerships with public, private, philanthropic, and nonprofit stakeholders to improve Hispanics’ readiness for school, college, and career, as well as their college persistence and completion; and

(vii) develop a national network of individuals, organizations, and communities to share and implement best practices related to the education of Hispanics.

(3) The Initiative shall periodically publish reports on its activities. The Secretary and the Executive Director of the Initiative, in consultation with the Interagency Working Group and the Chair of the Commission established under section 3 of this order, may develop and submit to the President recommendations designed to advance and promote educational opportunities and attainment for Hispanics, including recommendations for short- and long-term initiatives.

(2) The President shall designate one of the members to serve as Chair of the Commission, who shall work with the Initiative’s Executive Director to convene regular meetings of the Commission, determine its agenda, and direct its work, consistent with this order.

(c) Commission Administration. The Executive Director of the Initiative shall also serve as the Executive Director of the Commission and administer the work of the Commission. The Department shall provide funding and administrative support for the Commission, to the extent permitted by law. Members of the Commission shall serve without compensation but shall be allowed travel expenses, including per diem in lieu of subsistence, as authorized by law for persons serving intermittently in the Government service (5 U.S.C. 5701–5707). (1) exposure to asbestos fibers has been identified over a long period of time and by reputable medical and scientific evidence as significantly increasing the incidence of cancer and
§ 3602

The Department of Health and Human Services and the Environmental Protection Agency, as well as several States, have attempted to publicize the potential hazards to school children and employees from exposure to asbestos fibers, but there is no systematic program for identifying hazardous conditions in schools or for remediating those conditions; (8) because there is no Federal health standard regulating the concentration of asbestos fibers in noncommercial workplace environments such as schools, school employees and students may be exposed to hazardous concentrations of asbestos fibers in the school buildings which they use each day; (9) without an improved program of information distribution, technical and scientific assistance, and financial support, many local educational agencies and States will not be able to mitigate the potential asbestos hazards in their schools; and (10) the effective regulation of interstate commerce for the protection of the public health requires the establishment of programs under this chapter to identify and mitigate hazards from exposure to asbestos fibers and materials emitting such fibers.

(b) It is the purpose of this chapter to— (1) direct the Secretary of Education to establish a task force to assist States and local educational agencies to ascertain the extent of the danger to the health of school children and employees from asbestos materials in schools; (2) require States receiving administrative funds for any applicable program (as defined under section 1221(c)(1)(A) of this title) to prepare a plan describing the manner in which information relating to programs established under this chapter shall be distributed to local educational agencies; (3) provide scientific, technical, and financial assistance to State educational agencies and local educational agencies to enable them to conduct an asbestos detection program to identify asbestos hazards in schools; (4) provide loans to local educational agencies for the mitigation of asbestos hazards which constitute an imminent hazard to the health and safety of school children and employees; and (5) assure that no employee of any local educational agency suffers any disciplinary action as a result of calling attention to potential asbestos hazards which may exist in schools.

(a) Establishment; administration; loans to local educational agencies for share of project costs; project criteria; increase in amount of loans

(1) There is established within the Department of Education an Asbestos Hazards Control Loan Program (hereinafter in this chapter referred to as the “Loan Program”), which shall be administered by the Secretary in accordance with this section.

(2) The Secretary may make loans under this section to local educational agencies in an amount equal to 50 percent of the costs of carrying out projects for—

(A) the containment or removal of any materials containing asbestos in school buildings in which such materials pose an imminent hazard to the health and safety of children or employees;

(B) the replacement of the asbestos materials removed from school buildings with other appropriate building materials; and

(C) making repairs which the Secretary determines to be necessary to restore school buildings to conditions comparable to those existing before containment or removal activities were undertaken under subparagraph (A).

Loans may be made under this section only for projects affecting more than 2,500 square feet of surface and in which the asbestos material to be contained or removed consists of a minimum asbestos level, as determined by the Secretary under section 3606(a)(2) of this title.

(3) If the Secretary determines that an applicant has limited fiscal resources and would be unable to carry out the projects described in paragraph (2) without receiving a loan under this section for an amount greater than the amount permitted under such paragraph, the Secretary may increase the amount of the loan payable to such applicant to an amount the Secretary considers appropriate to enable the applicant to carry out such projects.

(b) Loan agreements; required terms; additional terms and conditions

Loans under this section shall be made pursuant to loan agreements which shall provide for the following terms:

(1) The loan shall not bear any interest except as otherwise provided under paragraph (5).

(3) Repayment of the loan shall be made to the Secretary of the Treasury for deposit in the general fund of the Treasury.

Such loans shall be subject to such other terms and conditions as the Secretary may establish for the protection of the financial interest of the United States and in furtherance of the purposes of this chapter.

(c) Application for loans; procedures applicable for approval; projects completed before January 1, 1976

(1) No loan may be made under this section unless an application has been submitted to and approved by the Secretary, after consultation with the Task Force, within the two-year period beginning on June 14, 1980. The Secretary may not approve an application unless—

(A) the application contains such information as the Secretary may require, including information describing—

(i) the nature of the asbestos problem for which the loan is sought;

(ii) the asbestos content of the material to be contained or removed by the local educational agency, as determined under preliminary testing which was conducted in accordance with the standards established by the Secretary under section 3606(a)(1) of this title, or, in the case of testing conducted before June 14, 1980, was conducted in a manner which substantially conforms to such standards; and

(iii) the methods which will be used to contain or remove the asbestos materials, in accordance with section 3606(b) of this title, and any other pertinent details relating to the project or projects to be conducted by the applicant (as described in subsection (a)(2) of this section); and

   (iii) the local educational agency shall pay employees engaged in containment, removal, or replacement activities to carry out programs under this section at reasonable rates of pay, as established by the Secretary on the basis of prevailing wage rates in the location of such work.

(2) The Secretary shall provide the Task Force with a copy of any application submitted to the Secretary under paragraph (1).

(3) No loans may be made by the Secretary under this section for projects described in subsection (a)(2) of this section which commenced before the availability of loans under the Loan Program unless the local educational agency submits to the Secretary an application which—

(2) The proceeds from any judgment recovered in any suit brought by the United States under paragraph (1) (or, if the recipient files a similar suit on its own behalf, the proceeds from any judgment recovered by the recipient in such
suit) shall be used to repay to the United States, to the extent that the proceeds are sufficient to provide for such repayment, an amount equal to the sum of—

(A) the amount of any grant made to the recipient under section 3604 of this title;

(B) the amount outstanding on any loan made to the recipient under section 3605 of this title; and

(C) an amount equal to the interest which would have been charged on such loan were the loan made by a commercial lender at prevailing interest rates (as determined by the Secretary).

(b) Investigation and report by Attorney General respecting feasibility of recovery of costs from any person determined by Attorney General to be liable

The Attorney General shall conduct an investigation to determine whether, by using all available means, the United States should seek to recover, from any person determined by the Attorney General to be liable for such costs, the amounts expended by the United States to carry out this chapter. Within one year after June 14, 1980, the Attorney General shall submit to the Congress a report containing the results of the study, together with any appropriate recommendations.

SUBCHAPTER IV—PRESIDENTIAL AWARDS FOR TEACHING EXCELLENCE IN MATHEMATICS AND SCIENCE

EFFECTIVE DATE OF REPEAL

Repeal effective July 1, 1988, see section 6303 of Pub. L. 100–297, set out as an Effective Date of 1988 Amendment note under section 1071 of this title.

SUBCHAPTER V—ASBESTOS SCHOOL HAZARD ABATEMENT

§ 4011. Findings and purpose

(a) Findings

The Congress finds that—

(1) exposure to asbestos fibers has been identified over a long period of time and by reputable medical and scientific evidence as significantly increasing the incidence of cancer and other severe or fatal diseases, such as asbestosis;

(2) medical evidence has suggested that children may be particularly vulnerable to environmentally induced cancers;

(3) medical science has not established any minimum level of exposure to asbestos fibers
which is considered to be safe to individuals exposed to the fibers;
(4) substantial amounts of asbestos, particularly in sprayed form, have been used in school buildings, especially during the period 1946 through 1972;
(5) partial surveys in some States have indicated that (A) in a number of school buildings materials containing asbestos fibers have become damaged or friable, causing asbestos fibers to be dislodged into the air; and (B) asbestos concentration far exceeding normal ambient air levels have been found in school buildings containing such damaged materials;
(6) the presence in school buildings of friable or easily damaged asbestos creates an unwarranted hazard to the health of the school children and school employees who are exposed to such materials;
(7) the Department of Health and Human Services and the Environmental Protection Agency, as well as several States, have attempted to publicize the potential hazards to school children and employees from exposure to asbestos fibers, but there is no systematic program for remedying hazardous conditions in schools;
(8) because there is no Federal health standard regulating the concentration of asbestos fibers in noncommercial workplace environments such as schools, school employees and students may be exposed to hazardous concentrations of asbestos fibers in the school buildings which they use each day;
(9) without a program of information distribution, technical and scientific assistance, and financial support, many local educational agencies and States will not be able to mitigate the potential asbestos hazards in their schools; and
(10) the effective regulation of interstate commerce for the protection of the public health requires the establishment of programs under this subchapter to mitigate hazards from exposure to asbestos fibers and materials emitting such fibers.

(b) Purpose
It is the purpose of this subchapter to—
(1) direct the Administrator of the Environmental Protection Agency to establish a program to assist States and local educational agencies to ascertain the extent of the danger to the health of school children and employees from asbestos materials in schools;
(2) provide continuing scientific and technical assistance to State and local agencies to enable them to identify and abate asbestos hazards in schools;
(3) provide financial assistance for the abatement of asbestos threats to the health and safety of school children or employees; and
(4) assure that no employee of any local educational agency suffers any disciplinary action as a result of calling attention to potential asbestos hazards which may exist in schools.

Amendments

Short Title of 1990 Amendment
Section 1 of Pub. L. 101–637 provided that: "This Act [enacting section 2656 of Title 15, Commerce and Trade, amending this section, sections 2642 to 2645 of this title, and sections 2646, 2646, and 2647 of Title 15, enacting provisions set out as notes under this section and sections 2646 and 2656 of Title 15, and amending provisions set out as a note under this section] may be cited as the 'Asbestos School Hazard Abatement Reauthorization Act of 1990'."

Short Title

Findings and Purposes
Section 2 of Pub. L. 101–637 provided that:

"(a) Findings.—Congress finds the following:

"(1) The Environmental Protection Agency has estimated that more than forty-four thousand school buildings contain friable asbestos, exposing more than fifteen million school children and one million five hundred thousand school employees to unwarranted health hazards.

"(2) All elementary and secondary schools are required by the Asbestos Hazard Emergency Response Act [of 1986, see Short Title of 1986 Amendment note set out under section 2601 of Title 15, Commerce and Trade] to inspect for asbestos, develop an asbestos management plan, and implement such plan.

"(3) The Environmental Protection Agency has estimated it will cost local education agencies more than $3,000,000,000 to comply with the Asbestos Hazard Emergency Response Act.

"(4) Without a continuing program of information assistance, technical and scientific assistance, training, and financial support, many local educational agencies will be unable to carry out sufficient response actions to prevent the release of asbestos fibers into the air.

"(5) Without the provisions of sufficient financial support, the cost to local educational agencies of implementing asbestos response actions may have an adverse impact in their educational mission.

"(6) The effective regulation of interstate commerce for the protection of human health and the environment requires the continuation of programs to mitigate hazards of asbestos fibers and materials emitting such fibers.

(b) Purposes.—The purposes of this Act [see Short Title of 1990 Amendment note above] are the following:

"(1) To direct the Environmental Protection Agency to maintain a program to assist local schools in carrying out their responsibilities under the Asbestos Hazard Emergency Response Act.

"(2) To provide continuing scientific and technical assistance to State and local agencies to enable them to identify and abate asbestos health hazards.

"(3) To provide financial assistance to State and local agencies for training of persons involved with inspections and abatement of asbestos, for conducting necessary reinspections of school buildings, and for the actual abatement of asbestos threats to the health and safety of school children or employees.

"(4) To assure that no employee of a local educational agency suffers any disciplinary action as a result of calling attention to potential asbestos hazards which may exist in schools.

§ 4012. Asbestos hazard abatement program

(a) Abatement program
There is hereby established a program within the Environmental Protection Agency to be
known as the Asbestos Hazards Abatement Program (hereinafter in this subchapter referred to as “Program”).

(2) The priority list shall rank the potential candidates for abatement action based on the nature and magnitude of the existing and potential exposure presented by the asbestos materials.

(3) For each school listed, the Governor shall certify that the statement of need contained in the application for assistance accurately reflects the financial resources available to the local educational agency for the asbestos abatement program.

(4) For the purpose of determining the adequacy of the financial resources available to a local educational agency for the abatement of asbestos threats the Governor shall, to the extent practicable, consider the following:

(B) The President of the Institute shall provide—

(a) Findings

The Congress finds that—

(1) Threats to human health and environmental quality are increasingly complex, involving a wide range of conventional and toxic contaminants in the air and water and on the land.
§ 5502  TITLE 20—EDUCATION
Page 1142

(2) There is growing evidence of international environmental problems, such as global warming, ocean pollution, and declines in species diversity, and that these problems pose serious threats to human health and the environment on a global scale.

(3) Environmental problems represent a significant threat to the quality of life and the economic vitality of urban areas as they do the natural balance of rural areas.

(4) Effective response to complex environmental problems requires understanding of the natural and built environment, awareness of environmental problems and their origins (including those in urban areas), and the skills to solve these problems.

(5) Development of effective solutions to environmental problems and effective implementation of educational programs requires a well-educated and trained, professional workforce.

(6) Current Federal efforts to inform and educate the public concerning the natural and built environment and environmental problems are not adequate.

(7) Existing Federal support for development and training of professionals in environmental fields is not sufficient.

(8) The Federal Government, acting through the Environmental Protection Agency, should work with educational institutions, State education agencies, not-for-profit educational and environmental organizations, noncommercial educational broadcasting entities, and private sector interests to support development of curricula, special projects, and other activities to increase understanding of the natural and built environment and to improve awareness of environmental problems.

(9) The Federal Government, acting through the coordinated efforts of its agencies and with the leadership of the Environmental Protection Agency, should work with local education institutions, State education agencies, not-for-profit educational and environmental organizations, noncommercial educational broadcasting entities, and private sector interests to develop programs to provide increased emphasis and financial resources for the purposes of attracting students into environmental engineering and assisting them in pursuing the programs to complete the advanced technical education required to provide effective problem solving capabilities for complex environmental issues.

The Congress declares that the National Education Goals are the following:

(1) School readiness

(A) By the year 2000, all children in America will start school ready to learn.

(B) The objectives for this goal are that—

(i) all children will have access to high-quality and developmentally appropriate preschool programs that help prepare children for school;

(ii) every parent in the United States will be a child’s first teacher and devote time each day to helping such parent’s preschool child learn, and parents will have access to the training and support parents need; and

(iii) children will receive the nutrition, physical activity experiences, and health care needed to arrive at school with healthy minds and bodies, and to maintain the mental alertness necessary to be prepared to learn, and the number of low-birthweight babies will be significantly reduced through enhanced prenatal health systems.

(2) School completion

(A) By the year 2000, the high school graduation rate will increase to at least 90 percent.

(B) The objectives for this goal are that—

(i) the Nation must dramatically reduce its school dropout rate, and 75 percent of the students who do drop out will successfully complete a high school degree or its equivalent; and

(ii) the gap in high school graduation rates between American students from minority backgrounds and their non-minority counterparts will be eliminated.

(3) Student achievement and citizenship

(A) By the year 2000, all students will leave grades 4, 8, and 12 having demonstrated competency over challenging subject matter including English, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography, and every school in America will ensure that all students learn to use their minds well, so they may be prepared for responsible citizenship, further learning, and productive employment in our Nation’s modern economy.

(B) The objectives for this goal are that—

(i) the academic performance of all students at the elementary and secondary level will increase significantly in every quartile, and the distribution of minority students in each quartile will more closely reflect the student population as a whole;

(ii) the percentage of all students who demonstrate the ability to reason, solve problems, apply knowledge, and write and communicate effectively will increase substantially;

(iii) all students will be involved in activities that promote and demonstrate good citizenship, good health, community service, and personal responsibility;

(4) Teacher education and professional development

(A) By the year 2000, the Nation’s teaching force will have access to programs for the continued improvement of their professional skills and the opportunity to acquire the knowledge and skills needed to instruct and prepare all American students for the next century.

(B) The objectives for this goal are that—

(i) all teachers will have access to preservice teacher education and continuing professional development activities that will provide such teachers with the knowledge and skills needed to teach to an increasingly diverse student population with a variety of educational, social, and health needs;

(ii) all teachers will have continuing opportunities to acquire additional knowledge and skills needed to teach challenging subject matter and to use emerging new methods, forms of assessment, and technologies;

(iii) States and school districts will create integrated strategies to attract, recruit, prepare, retrain, and support the continued professional development of teachers, administrators, and other educators, so that there is a highly talented work force of professional educators to teach challenging subject matter; and

(iv) partnerships will be established, whenever possible, among local educational agencies, institutions of higher education, par-
ents, and local labor, business, and professional associations to provide and support programs for the professional development of educators.

(5) Mathematics and science
(A) By the year 2000, United States students will be first in the world in mathematics and science achievement.

(ii) the number of teachers with a substantive background in mathematics and science, including the metric system of measurement, will increase by 50 percent; and

(6) Adult literacy and lifelong learning
(A) By the year 2000, every adult American will be literate and will possess the knowledge and skills necessary to compete in a global economy and exercise the rights and responsibilities of citizenship.
(B) The objectives for this goal are that—
(i) every major American business will be involved in strengthening the connection between education and work;
(ii) all workers will have the opportunity to acquire the knowledge and skills, from basic to highly technical, needed to adapt to emerging new technologies, work methods, and markets through public and private educational, vocational, technical, workplace, or other programs;
(iii) the number of quality programs, including those at libraries, that are designed to serve more effectively the needs of parents and the home, including parents of children who are disadvantaged or bilingual, or parents of children with disabilities;
(iv) the proportion of the qualified students, especially minorities, who enter college, who complete at least two years, and who complete their degree programs will increase substantially;
(v) the proportion of college graduates who demonstrate an advanced ability to think critically, communicate effectively, and solve problems will increase substantially; and
(vi) schools, in implementing comprehensive parent involvement programs, will offer more adult literacy, parent training and lifelong learning opportunities to improve the ties between home and school, and enhance parents' work and home lives.

(7) Safe, disciplined, and alcohol- and drug-free schools
(A) By the year 2000, every school in the United States will be free of drugs, violence, and the unauthorized presence of firearms and alcohol and will offer a disciplined environment conducive to learning.
(B) The objectives for this goal are that—
(i) every school will implement a firm and fair policy on use, possession, and distribution of drugs and alcohol;
(ii) parents, businesses, governmental and community organizations will work together to ensure the rights of students to study in a safe and secure environment that is free of drugs and crime, and that schools provide a healthy environment and are a safe haven for all children;
(iii) every local educational agency will develop and implement a policy to ensure that all schools are free of violence and the unauthorized presence of weapons;
(iv) every local educational agency will develop a sequential, comprehensive kindergarten through twelfth grade drug and alcohol prevention education program;
(v) drug and alcohol curriculum should be taught as an integral part of sequential, comprehensive health education;
(vi) community-based teams should be organized to provide students and teachers with needed support; and
(vii) every school should work to eliminate sexual harassment.

(A) By the year 2000, every school will promote partnerships that will increase parental involvement and participation in promoting the social, emotional, and academic growth of children.
(B) The objectives for this Goal are that—
(i) every State will develop policies to assist local schools and local educational agencies to establish programs for increasing partnerships that respond to the varying needs of parents and the home, including parents of children who are disadvantaged or bilingual, or parents of children with disabilities;
(ii) every school will actively engage parents and families in a partnership which supports the academic work of children at home and shared educational decisionmaking at school; and
(iii) parents and families will help to ensure that schools are adequately supported and will hold schools and teachers to high standards of accountability.

This Act, referred to in text, is Pub. L. 106–25, Apr. 29, 1999, 113 Stat. 41, known as the Education Flexibility Partnership Act of 1999, which enacted sections 5891a and 5891b of this title, amended section 1415 of this title, and enacted provisions set out as notes under sections 1415 and 5891a of this title. For complete classi-

fication of this Act to the Code, see Short Title of 1999 Amendment note set out under section 5801 of this title and Tables.

**Codification**

Section was enacted as part of the Education Flexibility Partnership Act of 1999, and not as part of the Goals 2000: Educate America Act which comprises this chapter.

**Amendments**

**Effective Date of 2002 Amendment**

Amendment by Pub. L. 107–110 effective Jan. 8, 2002, except with respect to certain noncompetitive pro-

grams and competitive programs, see section 5 of Pub. L. 107–110, set out as an Effective Date note under sec-

section 6301 of this title.

**Findings**

Pub. L. 106–25, §2, Apr. 29, 1999, 113 Stat. 41, provided that: "Congress makes the following findings:"

"(1) States differ substantially in demographics, in school governance, and in school finance and funding. The administrative and funding mechanisms that help schools in one State improve may not prove suc-

cessful in other States.

"(2) Although the Elementary and Secondary Edu-
cation Act of 1965 (20 U.S.C. 6301 et seq.) and other Federal education statutes afford flexibility to State educational agencies and local educational agencies in implementing Federal programs, certain require-
ments of Federal education statutes or regulations may impede local efforts to reform and improve edu-
cation.

"(3) By granting waivers of certain statutory and regulatory requirements, the Federal Government can remove impediments for local educational agen-
cies in implementing educational reforms and raising the achievement levels of all children.

"(4) State educational agencies are closer to local school systems. Implement statewide educational re-

forms with both Federal and State funds, and are re-
sponsible for maintaining accountability for local ac-

tivities consistent with State standards and assess-

ment systems. Therefore, State educational agencies are often in the best position to align waivers of Fed-

eral and State requirements with State and local ini-

tiatives.

"(5) The Education Flexibility Partnership Demon-

stration Act (former 20 U.S.C. 5891(e)) allows State educational agencies the flexibility to waive certain Federal requirements, along with related State re-

quirements, but allows only 12 States to qualify for such waivers.

"(6) Expansion of waiver authority will allow for the waiver of statutory and regulatory requirements that impede implementation of State and local edu-
cational improvement plans, or that unnecessarily burden program administration, while maintaining the intent and purposes of affected programs, such as the important focus on improving mathematics and science performance under title II of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6601 et seq.) (Dwight D. Eisenhower Professional Development Program), and maintaining such fundamen-

tal requirements as those relating to civil rights, edu-
cational equity, and accountability.

"(7) To achieve the State goals for the education of children in the State, the focus must be on results in raising the achievement of all students, not process."

(B) Approval and considerations

The Secretary may approve an application described in subparagraph (A) only if the Secretary determines that such application demonstrates substantial promise of assisting the State educational agency and affected local educational agencies and schools within the State in carrying out comprehensive educational reform, after considering—

(ii) the comprehensiveness and quality of the educational flexibility plan described in subparagraph (A);

A State educational agency shall evaluate an application submitted under subparagraph (A) in accordance with the State’s educational flexibility plan described in paragraph (3)(A).

(D) Termination

The State educational agency shall annually review the performance of any local educational agency or school granted a waiver of Federal statutory or regulatory requirements as described in paragraph (1)(A) in accordance with the evaluation requirement described in paragraph (3)(A)(v), and shall terminate any waiver granted to the local educational agency or school if the State educational agency determines, after notice and an opportunity for a hearing, that the local educational agency or school’s performance with respect to meeting the accountability requirement described in paragraph (2)(C) and the goals described in paragraph (4)(A)(iii)—

(i) has been inadequate to justify continuation of such waiver; or

(ii) has decreased for two consecutive years, unless the State educational agency determines that the decrease in performance was justified due to exceptional or uncontrollable circumstances.

(5) Oversight and reporting

(A) Oversight

Each State educational agency participating in the educational flexibility program under this section shall annually monitor the activities of local educational agencies and schools receiving waivers under this section.

(B) State reports

(i) Annual reports

(ii) has improved student performance.

(B) Performance review

Three years after the date a State is designated an Ed-Flex Partnership State, the Secretary shall review the performance of the State educational agency in granting waivers of Federal statutory or regulatory requirements as described in paragraph (1)(A) and shall terminate such agency’s authority to grant such waivers if the Secretary determines, after notice and an opportunity for a hearing, that such agency’s performance (including performance with respect to meeting the objectives described in paragraph (3)(A)(iii)) has been inadequate to justify continuation of such authority.

(C) Renewal

SUBCHAPTER IX—EDUCATIONAL RESEARCH AND IMPROVEMENT

§ 6001. Short title

This subchapter may be cited as the "Educational Research, Development, Dissemination, and Improvement Act of 1994".

REFERENCES IN TEXT

This subchapter, referred to in text, was in the original "this title", meaning title IX of Pub. L. 103–227, Mar. 31, 1994, 108 Stat. 212, which enacted this subchapter, amended sections 2422, 3155, 3412, 3419, 3462, and 4063 of this title, repealed section 1221e of this title, and enacted provisions set out as notes under sections 1221e and 3155 of this title.

§ 6002. Findings

The Congress finds as follows with respect to improving education in the United States:

(1) A majority of public schools in the United States are failing to prepare students to achieve the National Education Goals. The Federal Government should support an extensive program of educational research, development, dissemination, replication and assistance to identify and support the best responses for the challenges ahead. A significant investment in attaining a deeper understanding of the processes of learning and schooling and developing new ideas holds the best hope of making a substantial difference to the lives of every student in the United States. The Office of Educational Research and Improvement within the Department of Education should be at the center of this campaign in order to coordinate such efforts.

(2) The Federal role in educational research has been closely identified with youths who are socioeconomically disadvantaged, are minorities, belong to a language minority, or have a disability. The Federal commitment to education was sufficient to serve not more than—

(A) in 1993, 1 out of every 6 low-income children in need of preschool education;

(B) in 1990, 3 out of every 5 children in need of remediation;

(C) in 1991, 1 out of every 5 children in need of bilingual education; and

(D) in 1992, 1 out of every 20 youths eligible for assistance under the Job Training Partnership Act.

(3) The failure of the Federal Government to adequately invest in educational research and development has denied the United States a sound foundation of knowledge on which to design school improvements. The educational achievement of minority children is of particular concern because at least half of the public school students in 25 of the largest cities of the United States are minority children, and demographers project that, by the year 2005, almost all urban public school students will be minority children or other children in poverty.

(4) The investment goal of the Federal research, development, and dissemination function should be at least 1 percent of the total amount of funds spent on education.

(5) Nationwide model programs and reliable interventions should be demonstrated and replicated, and for such purposes, programs should be established to conduct research and evaluations, and to disseminate information.

(6) The Office should develop a national dissemination policy that will advance the goal of placing a national treasure chest of research results, models, and materials at the disposal of the education decisionmakers of the United States.

(7) A National Educational Research Policy and Priorities Board should be established to work collaboratively with the Assistant Secretary to forge a national consensus with respect to a long-term agenda for educational research, development, dissemination, and the activities of the Office.

(8) Existing research and development entities should adopt expanded, proactive roles and new institutions should be created to promote knowledge development necessary to accelerate the application of research findings to high priority areas.

(9) Greater use should be made of existing technologies in efforts to improve the educational system of the United States, including efforts to disseminate research findings.

(10) Minority educational researchers are inadequately represented throughout the Department of Education, but particularly in the Office. The Office therefore should assume a leadership position in the recruitment, retention, and promotion of qualified minority educational researchers.

(11) The coordination of the mission of the Office with that of other components of the Department of Education is critical. The Office should support the coordination of the educational research, development, and dissemination function with those of other Federal agencies.

CODIFICATION

§ 6062. Funding for Individuals with Disabilities Education Act

(a) Findings

The Congress finds that—

(1) the Individuals with Disabilities Education Act [20 U.S.C. 1400 et seq.] was established with the commitment of forty percent Federal funding but currently receives only eight percent Federal funding;

(2) this funding shortfall is particularly burdensome to school districts and schools in low-income areas which serve higher than average proportions of students with disabilities and have fewer local resources to contribute; and

(3) it would cost the Federal Government approximately $10,000,000,000 each year to fully fund the Individuals with Disabilities Education Act.

(b) Sense of Congress

It is the sense of the Congress that the Federal Government should provide States and communities with adequate resources under the Individuals with Disabilities Education Act [20 U.S.C. 1400 et seq.] as soon as reasonably possible, through the reallocation of noneducation funds within the current budget monetary constraints.

§ 6301. Statement of purpose

The purpose of this subchapter is to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging State academic achievement standards and state academic assessments. This purpose can be accomplished by—

1 The word "academic" is probably intended.

(1) ensuring that high-quality academic assessments, accountability systems, teacher preparation and training, curriculum, and instructional materials are aligned with challenging State academic standards so that students, teachers, parents, and administrators can measure progress against common expectations for student academic achievement;

(2) meeting the educational needs of low-achieving children in our Nation’s highest-poverty schools, limited English proficient children, migratory children, children with disabilities, Indian children, neglected or delinquent children, and young children in need of reading assistance;

(3) closing the achievement gap between high- and low-performing children, especially the achievement gaps between minority and nonminority students, and between disadvantaged children and their more advantaged peers;

(4) holding schools, local educational agencies, and States accountable for improving the academic achievement of all students, and identifying and turning around low-performing schools that have failed to provide a high-quality education to their students, while providing alternatives to students in such schools to enable the students to receive a high-quality education;

(5) distributing and targeting resources sufficiently to make a difference to local educational agencies and schools where needs are greatest;

(6) improving and strengthening accountability, teaching, and learning by using State assessment systems designed to ensure that students are meeting challenging State academic achievement and content standards and increasing achievement overall, but especially for the disadvantaged;

(7) providing greater decisionmaking authority and flexibility to schools and teachers in exchange for greater responsibility for student performance;

(2) Consolidated plan

A State plan submitted under paragraph (1) may be submitted as part of a consolidated plan under section 7842 of this title.

(b) Academic standards, academic assessments, and accountability

(1) Challenging academic standards

(A) In general

Each State plan shall demonstrate that the State has adopted challenging academic content standards and challenging student academic achievement standards that will be used by the State, its local educational agencies, and its schools to carry out this part, except that a State shall not be required to submit such standards to the Secretary.

(B) Same standards

The academic standards required by subparagraph (A) shall be the same academic standards that the State applies to all schools and children in the State.

(C) Subjects

The State shall have such academic standards for all public elementary school and secondary school children, including children served under this part, in subjects determined by the State, but including at least mathematics, reading or language arts, and science, which shall include the same knowledge, skills, and levels of achievement expected of all children.

(D) Challenging academic standards

Standards under this paragraph shall include—

(i) challenging academic content standards in academic subjects that—

(I) specify what children are expected to know and be able to do;

(II) contain coherent and rigorous content; and

(III) encourage the teaching of advanced skills; and

(ii) challenging student academic achievement standards that—

(I) are aligned with the State’s academic content standards;

(II) describe two levels of high achievement (proficient and advanced) that determine how well children are mastering the material in the State academic content standards; and

(III) describe a third level of achievement (basic) to provide complete information about the progress of the lower-achieving children toward mastering the proficient and advanced levels of achievement.

(E) Information

For the subjects in which students will be served under this part, but for which a State is not required by subparagraphs (A), (B), and (C) to develop, and has not otherwise de-
developed, such academic standards, the State plan shall describe a strategy for ensuring that students are taught the same knowledge and skills in such subjects and held to the same expectations as are all children.

(F) Existing standards

Nothing in this part shall prohibit a State from revising, consistent with this section, any standard adopted under this part before or after January 8, 2002.

(2) Accountability

(A) In general

Each State plan shall demonstrate that the State has developed and is implementing a single, statewide State accountability system that will be effective in ensuring that all local educational agencies, public elementary schools, and public secondary schools make adequate yearly progress as defined under this paragraph. Each State accountability system shall—

(i) be based on the academic standards and academic assessments adopted under paragraphs (1) and (3), and other academic indicators consistent with subparagraph (C)(vi) and (vii), and shall take into account the achievement of all public elementary school and secondary school students;

(ii) be the same accountability system the State uses for all public elementary schools and secondary schools or all local educational agencies in the State, except that public elementary schools, secondary schools, and local educational agencies not participating under this part are not subject to the requirements of section 6316 of this title; and

(iii) include sanctions and rewards, such as bonuses and recognition, the State will use to hold local educational agencies and public elementary schools and secondary schools accountable for student achievement and for ensuring that they make adequate yearly progress in accordance with the State’s definition under subparagraphs (B) and (C).

(B) Adequate yearly progress

Each State plan shall demonstrate, based on academic assessments described in paragraph (3), and in accordance with this paragraph, what constitutes adequate yearly progress of the State, and of all public elementary schools, secondary schools, and local educational agencies in the State, toward enabling all public elementary school and secondary school students to meet the State’s student academic achievement standards, while working toward the goal of narrowing the achievement gaps in the State, local educational agencies, and schools.

(C) Definition

"Adequate yearly progress" shall be defined by the State in a manner that—

(i) applies the same high standards of academic achievement to all public elementary school and secondary school students in the State;

(ii) is statistically valid and reliable;

(iii) results in continuous and substantial academic improvement for all students;

(iv) measures the progress of public elementary schools, secondary schools and local educational agencies and the State based primarily on the academic assessments described in paragraph (3);

(v) includes separate measurable annual objectives for continuous and substantial improvement for each of the following:

(I) The achievement of all public elementary school and secondary school students.

(II) The achievement of—

(aa) economically disadvantaged students;

(bb) students from major racial and ethnic groups;

(cc) students with disabilities; and

(dd) students with limited English proficiency;

except that disaggregation of data under subclause (II) shall not be required in a case in which the number of students in a category is insufficient to yield statistically reliable information or where results would reveal personally identifiable information about an individual student;

(vi) in accordance with subparagraph (D), includes graduation rates for public secondary school students (defined as the percentage of students who graduate from secondary school with a regular diploma in the standard number of years) and at least one other academic indicator, as determined by the State for all public elementary school students; and

(vii) in accordance with subparagraph (D), at the State’s discretion, may also include other academic indicators, as determined by the State for all public school students, measured separately for each group described in clause (v), such as achievement on additional State or locally administered assessments, decreases in grade-to-grade retention rates, attendance rates, and changes in the percentages of students completing gifted and talented, advanced placement, and college preparatory courses.

(D) Requirements for other indicators

In carrying out subparagraph (C)(vi) and (vii), the State—

(i) shall ensure that the indicators described in those provisions are valid and reliable, and are consistent with relevant, nationally recognized professional and technical standards, if any; and

(ii) except as provided in subparagraph (I)(i), may not use those indicators to reduce the number of, or change, the schools that would otherwise be subject to school improvement, corrective action, or restructuring under section 6316 of this title if those additional indicators were not used, but may use them to identify addi-
tional schools for school improvement or in need of corrective action or restructuring.

(E) Starting point

Each State, using data for the 2001–2002 school year, shall establish the starting point for measuring, under subparagraphs (G) and (H), the percentage of students meeting or exceeding the State’s proficient level of academic achievement on the State assessments under paragraph (3) and pursuant to the timeline described in subparagraph (F). The starting point shall be, at a minimum, based on the higher of the percentage of students at the proficient level who are in—

(i) the State’s lowest achieving group of students described in subparagraph (C)(v)(II); or

(ii) the school at the 20th percentile in the State, based on enrollment, among all schools ranked by this percentage of students at the proficient level.

(F) Timeline

Each State shall establish a timeline for adequate yearly progress. The timeline shall ensure that not later than 12 years after the end of the 2001–2002 school year, all students in each group described in subparagraph (C)(v) will meet or exceed the State’s proficient level of academic achievement on the State assessments under paragraph (3).

(G) Measurable objectives

Each State shall establish statewide annual measurable objectives, pursuant to subparagraph (C)(v), for meeting the requirements of this paragraph, and which—

(i) shall be set separately for the assessments of mathematics and reading or language arts under subsection (a)(3) of this section;

(ii) shall be the same for all schools and local educational agencies in the State;

(iii) shall identify a single minimum percentage of students who are required to meet or exceed the proficient level on the academic assessments that applies separately to each group of students described in subparagraph (C)(v);

(iv) shall ensure that all students will meet or exceed the State’s proficient level of academic achievement on the State assessments within the State’s timeline under subparagraph (F); and

(v) may be the same for more than 1 year, subject to the requirements of subparagraph (H).

(H) Intermediate goals for annual yearly progress

Each State shall establish intermediate goals for meeting the requirements, including the measurable objectives in subparagraph (G), of this paragraph and that shall—

(i) increase in equal increments over the period covered by the State’s timeline under subparagraph (F);

(ii) provide for the first increase to occur in not more than 2 years; and

(iii) provide for each following increase to occur in not more than 3 years.

(I) Annual improvement for schools

Each year, for a school to make adequate yearly progress under this paragraph—

(i) each group of students described in subparagraph (C)(v) must meet or exceed the objectives set by the State under subparagraph (G), except that if any group described in subparagraph (C)(v) does not meet those objectives in any particular year, the school shall be considered to have made adequate yearly progress if the percentage of students in that group who did not meet or exceed the proficient level of academic achievement on the State assessments under paragraph (3) for that year decreased by 10 percent of that percentage from the preceding school year and that group made progress on one or more of the academic indicators described in subparagraph (C)(vi) or (vii); and

(ii) not less than 95 percent of each group of students described in subparagraph (C)(v) who are enrolled in the school are required to take the assessments, consistent with paragraph (3)(C)(xi) and with accommodations, guidelines, and alternative assessments provided in the same manner as those provided under section 612(a)(16)(A) of the Individuals with Disabilities Education Act [20 U.S.C. § 6311].

(J) Uniform averaging procedure

For the purpose of determining whether schools are making adequate yearly progress, the State may establish a uniform procedure for averaging data which includes one or more of the following:

(i) The State may average data from the school year for which the determination is made with data from one or two school years immediately preceding that school year.

(ii) Until the assessments described in paragraph (3) are administered in such manner and time to allow for the implementation of the uniform procedure for averaging data described in clause (i), the State may use the academic assessments that were required under paragraph (3) as that paragraph was in effect on the day preceding January 8, 2002, provided that nothing in this clause shall be construed to undermine or delay the determination of adequate yearly progress, the requirements of section 6316 of this title, or the implementation of assessments under this section.

(iii) The State may use data across grades in a school.
§ 6311

(K) Accountability for charter schools
The accountability provisions under this chapter shall be overseen for charter schools in accordance with State charter school law.

(3) Academic assessments

(A) In general
Each State plan shall demonstrate that the State educational agency, in consultation with local educational agencies, has implemented a set of high-quality, yearly student academic assessments that include, at a minimum, academic assessments in mathematics, reading or language arts, and science that will be used as the primary means of determining the yearly performance of the State and of each local educational agency and school in the State in enabling all children to meet the State’s challenging student academic achievement standards, except that no State shall be required to meet the requirements of this part relating to science assessments until the beginning of the 2007–2008 school year.

(B) Use of assessments
Each State educational agency may incorporate the data from the assessments under this paragraph into a State-developed longitudinal data system that links student test scores, length of enrollment, and graduation records over time.

(C) Requirements
Such assessments shall—
(i) be the same academic assessments used to measure the achievement of all children;
(ii) be aligned with the State’s challenging academic content and student academic achievement standards, and provide coherent information about student attainment of such standards;
(iii) be used for purposes for which such assessments are valid and reliable, and be consistent with relevant, nationally recognized professional and technical standards;
(iv) be used only if the State educational agency provides to the Secretary evidence from the test publisher or other relevant sources that the assessments used are of adequate technical quality for each purpose required under this chapter and are consistent with the requirements of this section, and such evidence is made public by the Secretary upon request;
(v)(I) except as otherwise provided for grades 3 through 8 under clause vii, measure the proficiency of students in, at a minimum, mathematics and reading or language arts, and be administered not less than once during—
(aa) grades 3 through 5;
(bb) grades 6 through 9; and
(cc) grades 10 through 12;
(vi) involve multiple up-to-date measures of student academic achievement, including measures that assess higher-order thinking skills and understanding;
(vii) beginning not later than school year 2003–2006, measure the achievement of students against the challenging State academic content and student academic achievement standards in each of grades 3 through 8 in, at a minimum, mathematics, and reading or language arts, except that the Secretary may provide the State an additional year if the State demonstrates that exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State, prevented full implementation of the academic assessments by that deadline and that the State will complete implementation within the additional 1-year period;
(viii) at the discretion of the State, measure the proficiency of students in academic subjects not described in clauses (v), (vi), (vii) in which the State has adopted challenging academic content and academic achievement standards;
(ix) provide for—
(I) the participation in such assessments of all students;
(II) the reasonable adaptations and accommodations for students with disabilities (as defined under section 602(3) of the Individuals with Disabilities Education Act [20 U.S.C. 1401(3)]) necessary to measure the academic achievement of such students relative to State academic content and State student academic achievement standards; and
(III) the inclusion of limited English proficient students, who shall be assessed in a valid and reliable manner and provided reasonable accommodations on assessments administered to such students under this paragraph, including, to the extent practicable, assessments in the language and form most likely to yield accurate and reliable information on what such students know and can do in academic content areas, until such students have achieved English language proficiency as determined under paragraph (7);
(x) notwithstanding subclause (III), the academic assessment (using tests written in English) of reading or language arts of any student who has attended school in the United States (not including Puerto Rico) for three or more consecutive school years, except that if the local educational agency determines, on a case-by-case individual basis, that academic assessments in another language or form would likely yield more accurate and reliable information on what such student knows and can do, the local educational agency may make a determination to assess such student in the appropriate language other than English for a period that does not exceed two additional consecutive years, pro-
vided that such student has not yet reached a level of English language proficiency sufficient to yield valid and reliable information on what such student knows and can do on tests (written in English) of reading or language arts;

(D) Deferral

A State may defer the commencement, or suspend the administration, but not cease the development, of the assessments described in this paragraph, that were not required prior to January 8, 2002, for 1 year for which the amount appropriated for grants under section 7301b(a)(2) of this title is less than—

(i) $370,000,000 for fiscal year 2002;
(ii) $380,000,000 for fiscal year 2003;
(iii) $390,000,000 for fiscal year 2004; and
(iv) $400,000,000 for fiscal years 2005 through 2007.

(4) Special rule

Academic assessment measures in addition to those in paragraph (3) that do not meet the requirements of such paragraph may be included in the assessment under paragraph (3) as additional measures, but may not be used in lieu of the academic assessments required under paragraph (3). Such additional assessment measures may not be used to reduce the number of or change the schools that would otherwise be subject to school improvement, corrective action, or restructuring under section 6316 of this title if such additional indicators were not used, but may be used to identify additional schools for school improvement or in need of corrective action or restructuring except as provided in paragraph (2)(i)(i).

(5) State authority

If a State educational agency provides evidence, which is satisfactory to the Secretary, that neither the State educational agency nor any other State government official, agency, or entity has sufficient authority, under State law, to adopt curriculum content and student academic achievement standards, and academic assessments aligned with such academic achievement standards, which will be applicable to all students enrolled in the State’s public elementary schools and secondary schools, then the State educational agency may meet the requirements of this subsection by—

(A) adopting academic standards and academic assessments that meet the requirements of this subsection, on a statewide basis, and limiting their applicability to students served under this part; or

(B) adopting and implementing policies that ensure that each local educational agency in the State that receives grants under this part will adopt curriculum content and student academic achievement standards, and academic assessments aligned with such standards, which—

(i) meet all of the criteria in this subsection and any regulations regarding such standards and assessments that the Secretary may publish; and

(ii) are applicable to all students served by each such local educational agency.

(6) Language assessments

Each State plan shall identify the languages other than English that are present in the participating student population and indicate the languages for which yearly student academic assessments are not available and are needed. The State shall make every effort to develop such assessments and may request assistance from the Secretary if linguistically accessible academic assessment measures are needed. Upon request, the Secretary shall assist with the identification of appropriate academic assessment measures in the needed languages, but shall not mandate a specific academic assessment or mode of instruction.
§ 6311

(7) Academic assessments of English language proficiency
Each State plan shall demonstrate that local educational agencies in the State will, beginning not later than school year 2002–2003, provide for an annual assessment of English proficiency (measuring students’ oral language, reading, and writing skills in English) of all students with limited English proficiency in the schools served by the State educational agency, except that the Secretary may provide the State 1 additional year if the State demonstrates that exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State, prevented full implementation of this paragraph by that deadline and that the State will complete implementation within the additional 1-year period.

(8) Requirement
Each State plan shall describe—
(A) how the State educational agency will assist each local educational agency and school affected by the State plan to develop the capacity to comply with each of the requirements of sections 6312(c)(1)(D), 6314(b), and 6315(c) of this title that is applicable to such agency or school;
(B) how the State educational agency will assist each local educational agency and school affected by the State plan to provide additional educational assistance to individual students assessed as needing help to achieve the State’s challenging academic achievement standards;
(C) the specific steps the State educational agency will take to ensure that both schoolwide programs and targeted assistance schools provide instruction by highly qualified instructional staff as required by sections 6314(b)(1)(C) and 6315(c)(1)(E) of this title, including steps that the State educational agency will take to ensure that poor and minority children are not taught at higher rates than other children by inexperienced, unqualified, or out-of-field teachers, and the measures that the State educational agency will use to evaluate and publicly report the progress of the State educational agency with respect to such steps;
(D) an assurance that the State educational agency will assist local educational agencies in developing or identifying high-quality effective curricula aligned with State academic achievement standards and how the State educational agency will disseminate such curricula to each local educational agency and school within the State; and
(E) such other factors the State educational agency determines appropriate to provide students an opportunity to achieve the knowledge and skills described in the challenging academic content standards adopted by the State.

(9) Factors affecting student achievement
Each State plan shall include an assurance that the State educational agency will coordinate and collaborate, to the extent feasible and necessary as determined by the State educational agency, with agencies providing services to children, youth, and families, with respect to local educational agencies within the State that are identified under section 6316 of this title and that request assistance with addressing major factors that have significantly affected the academic achievement of students in the local educational agency or schools served by such agency.

(10) Use of academic assessment results to improve student academic achievement
Each State plan shall describe how the State educational agency will ensure that the results of the State assessments described in paragraph (3)—
(A) will be promptly provided to local educational agencies, schools, and teachers in a manner that is clear and easy to understand, but not later than before the beginning of the next school year; and
(B) be used by those local educational agencies, schools, and teachers to improve the educational achievement of individual students.

e Other provisions to support teaching and learning
Each State plan shall contain assurances that—
(1) the State educational agency will meet the requirements of subsection (h)(1) of this section and, beginning with the 2002–2003 school year, will produce the annual State report cards described in such subsection, except that the Secretary may provide the State educational agency 1 additional year if the State educational agency demonstrates that exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State, prevented full implementation of this paragraph by that deadline and that the State will complete implementation within the additional 1-year period;
(2) the State will, beginning in school year 2002–2003, participate in biennial State academic assessments of 4th and 8th grade reading and mathematics under the National Assessment of Educational Progress carried out under section 9622(b)(2) of this title if the Secretary pays the costs of administering such assessments;
(3) the State educational agency, in consultation with the Governor, will include, as a component of the State plan, a plan to carry out the responsibilities of the State under sections 6316 and 6317 of this title, including carrying out the State educational agency’s statewide system of technical assistance and support for local educational agencies;
(4) the State educational agency will work with other agencies, including educational service agencies or other local consortia, and institutions to provide technical assistance to local educational agencies and schools, including technical assistance in providing professional development under section 6316 of this title, technical assistance under section 6317 of this title, and technical assistance relating to
parental involvement under section 6318 of this title;

(5)(A) where educational service agencies exist, the State educational agency will consider providing professional development and technical assistance through such agencies; and

(B) where educational service agencies do not exist, the State educational agency will consider providing professional development and technical assistance through other cooperative agreements such as through a consortium of local educational agencies;

(6) the State educational agency will notify local educational agencies and the public of the content and student academic achievement standards and academic assessments developed under this section, and of the authority to operate schoolwide programs, and will fulfill the State educational agency’s responsibilities regarding local educational agency improvement and school improvement under section 6316 of this title, including such corrective actions as are necessary;

(7) the State educational agency will provide the least restrictive and burdensome regulations for local educational agencies and individual schools participating in a program assisted under this part;

(13) the State educational agency will coordinate activities funded under this part with other Federal activities as appropriate; and

(14) the State educational agency will encourage local educational agencies and individual schools participating in a program assisted under this part to offer family literacy services (using funds under this part), if the agency or school determines that a substantial number of students served under this part by the agency or school have parents who do not have a secondary school diploma or its recognized equivalent or who have low levels of literacy.

(d) Parental involvement

Each State plan shall describe how the State educational agency will support the collection and dissemination to local educational agencies and schools of effective parental involvement practices. Such practices shall—

(1) be based on the most current research that meets the highest professional and technical standards, on effective parental involvement that fosters achievement to high standards for all children; and

(2) be geared toward lowering barriers to greater participation by parents in school planning, review, and improvement experiences.

(e) Peer review and Secretarial approval

(1) Secretarial duties

The Secretary shall—

(A) establish a peer-review process to assist in the review of State plans;

(2) State revisions

A State plan shall be revised by the State educational agency if it is necessary to satisfy the requirements of this section.

(f) Duration of the plan

(1) In general

(g) Penalties
(1) Failure to meet deadlines enacted in 1994
(A) In general
If a State fails to meet the deadlines established by the Improving America’s Schools Act of 1994 (or under any waiver granted by the Secretary or under any compliance agreement with the Secretary) for demonstrating that the State has in place challenging academic content standards and student achievement standards, and a system for measuring and monitoring adequate yearly progress, the Secretary shall withhold 25 percent of the funds that would otherwise be available to the State for State administration and activities under this part in each year until the Secretary determines that the State meets those requirements.

(B) Implementation
The State report card shall be—
(i) information, in the aggregate, on student achievement at each proficiency level on the State academic assessments described in subsection (b)(3) of this section (disaggregated by race, ethnicity, gender, disability status, migrant status, English proficiency, and status as economically disadvantaged, except that such disaggregation shall not be required in a case in which the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student);

(3) Preexisting report cards
A State educational agency or local educational agency that was providing public report cards on the performance of students, schools, local educational agencies, or the State prior to January 8, 2002, may use those report cards for the purpose of this subsection, so long as any such report card is modified, as may be needed, to contain the information required by this subsection.

(A) the number of economically disadvantaged children enrolled in the school is at least 25 percent of the school's total enrollment; and

Prior Provisions

§ 6316. Academic assessment and local educational agency and school improvement

(a) Local review

(1) In general

Each local educational agency receiving funds under this part shall—

(A) use the State academic assessments and other indicators described in the State plan to review annually the progress of each school served under this part to determine whether the school is making adequate yearly progress as defined in section 6311(b)(2) of this title;

(B) at the local educational agency’s discretion, use any academic assessments or any other academic indicators described in the local educational agency’s plan under section 6312(b)(1)(A) and (B) of this title to review annually the progress of each school served under this part to determine whether the school is making adequate yearly progress as defined in section 6311(b)(2) of this title, except that the local educational agency may not use such indicators (other than as provided for in section 6311(b)(2)(I) of this title) if the indicators reduce the number or change the schools that would otherwise be subject to school improvement, corrective action, or restructuring under this section if such additional indicators were not used, but may identify additional schools for school improvement or in need of corrective action or restructuring;

(C) publicize and disseminate the results of the local annual review described in paragraph (1) to parents, teachers, principals, schools, and the community so that the teachers, principals, other staff, and schools can continually refine, in an instructionally useful manner, the program of instruction to help all children served under this part meet the challenging State student academic achievement standards established under section 6311(b)(1) of this title; and

(D) review the effectiveness of the actions and activities the schools are carrying out under this part with respect to parental involvement, professional development, and other activities assisted under this part.

(2) Available results

The State educational agency shall ensure that the results of State academic assessments administered in that school year are available to the local educational agency before the beginning of the next school year.

(b) School improvement

(1) General requirements

(A) Identification

Subject to subparagraph (C), a local educational agency shall identify for school improvement any elementary school or secondary school served under this part that fails, for 2 consecutive years, to make adequate yearly progress as defined in the State’s plan under section 6311(b)(2) of this title.

(B) Deadline

The identification described in subparagraph (A) shall take place before the beginning of the school year following such failure to make adequate yearly progress.

(C) Application

(D) Targeted assistance schools

To determine if an elementary school or a secondary school that is conducting a targeted assistance program under section 6315 of this title should be identified for school improvement, corrective action, or restructuring under this section, a local educational agency may choose to review the progress of only the students in the school who are served, or are eligible for services, under this part.

(E) Public school choice

(i) In general

In the case of a school identified for school improvement under this paragraph, the local educational agency shall, not later than the first day of the school year following such identification, provide all students enrolled in the school with the option to transfer to another public school served by the local educational agency, which may include a public charter school, that has not been identified for school improvement under this paragraph, unless such an option is prohibited by State law.
(ii) Rule

In providing students the option to transfer to another public school, the local educational agency shall give priority to the lowest achieving children from low-income families, as determined by the local educational agency for purposes of allocating funds to schools under section 6313(c)(1) of this title.

(F) Transfer

Students who use the option to transfer under subparagraph (E) and paragraph (5)(A), (7)(C)(i), or (8)(A)(i) or subsection (c)(10)(C)(vii) of this section shall be enrolled under subparagraph (E) and paragraph (5)(A), in classes and other activities in the public school to which the students transfer in the same manner as all other children at the public school.

Before identifying an elementary school or a secondary school for school improvement under paragraphs 1(1) or (5)(A), for corrective action under paragraph (7), or for restructuring under paragraph (8), the local educational agency shall provide the school with an opportunity to review the school-level data, including academic assessment data, on which the proposed identification is based.

(B) Evidence

If the principal of a school proposed for identification under paragraph (1), (5)(A), (7), or (8) believes, or a majority of the parents of the students enrolled in such school believe, that the proposed identification is in error for statistical or other substantive reasons, the principal may provide supporting evidence to the local educational agency, which shall consider that evidence before making a final determination.

(C) Final determination

Not later than 30 days after a local educational agency provides the school with the opportunity to review such school-level data, the local educational agency shall make public a final determination on the status of the school with respect to the identification.

(3) School plan

(A) Revised plan

After the resolution of a review under paragraph (2), each school identified under paragraph (1) for school improvement shall, not later than 3 months after being so identified, develop or revise a school plan, in consultation with parents, school staff, the local educational agency serving the school, and outside experts, for approval by such local educational agency. The school plan shall cover a 2-year period and—

(ii) adopt policies and practices concerning the school’s core academic subjects that have the greatest likelihood of ensuring that all groups of students specified in section 6311(b)(2)(C)(v) of this title and enrolled in the school will meet the State’s proficient level of achievement on the State academic assessment described in section 6311(b)(3) of this title not later than 12 years after the end of the 2001–2002 school year;

(iii) provide an assurance that the school will spend not less than 10 percent of the funds made available to the school under section 6313 of this title for each fiscal year that the school is in school improvement status, for the purpose of providing to the school’s teachers and principal high-quality professional development that—

(I) directly addresses the academic achievement problem that caused the school to be identified for school improvement;

(ii) meets the requirements for professional development activities under section 6319 of this title; and

(iii) is provided in a manner that affords increased opportunity for participating in that professional development;

(iv) specify how the funds described in clause (iii) will be used to remove the school from school improvement status;

(v) establish specific annual, measurable objectives for continuous and substantial progress by each group of students specified in section 6311(b)(2)(C)(v) of this title and enrolled in the school that will ensure that all such groups of students will, in accordance with adequate yearly progress as defined in section 6311(b)(2)(C)(v) of this title, meet the State’s proficient level of achievement on the State academic assessment described in section 6311(b)(3) of this title not later than 12 years after the end of the 2001–2002 school year;

The local educational agency, within 45 days of receiving a school plan, shall—
(i) establish a peer review process to assist with review of the school plan; and
(ii) promptly review the school plan, work with the school as necessary, and approve the school plan if the plan meets the requirements of this paragraph.

(4) Technical assistance

For each school identified for school improvement under paragraph (1), the local educational agency serving the school shall ensure the provision of technical assistance as the school develops and implements the school plan under paragraph (3) throughout the plan’s duration.

(B) Specific assistance

Such technical assistance—
(i) shall include assistance in analyzing data from the assessments required under section 6311(b)(3) of this title, and other examples of student work, to identify and address problems in instruction, and problems if any, in implementing the parental involvement requirements described in section 6318 of this title, the professional development requirements described in section 6319 of this title, and the responsibilities of the school and local educational agency under the school plan, and to identify and address solutions to such problems;

(iv) may be provided—
(I) by the local educational agency, through mechanisms authorized under section 6317 of this title; or
(II) by the State educational agency, an institution of higher education that is in full compliance with all the reporting provisions of title II of the Higher Education Act of 1965 (20 U.S.C. 1021 et seq.), a private not-for-profit organization or for-profit organization, an educational service agency, or another entity with experience in helping schools improve academic achievement.

No such period shall be taken into account in determining the number of consecutive years of failure to make adequate yearly progress.

(E) Publication and dissemination

The local educational agency shall publish and disseminate information regarding any corrective action the local educational agency takes under this paragraph at a school—

In the case of a rural local educational agency with a total of less than 600 students in average daily attendance at the schools that are served by the agency and all of whose schools have a School Locale Code of 7 or 8, as determined by the Secretary, the Secretary shall, at such agency’s request, provide technical assistance to such agency for the purpose of implementing this clause.

(C) Insufficient funds

If the amount of funds described in subparagraph (A)(ii) or (iii) and available to provide services under this subsection is insufficient to provide supplemental educational services to each child whose parents request the services, the local educational agency shall give priority to providing the services to the lowest-achieving children.

(D) Prohibition

A local educational agency shall not, as a result of the application of this paragraph, reduce by more than 15 percent the total amount made available under section 6313(c) of this title to a school described in paragraph (7)(C) or (8)(A) of subsection (b) of this section.

(11) Cooperative agreement

In any case described in paragraph (1)(E), (5)(A), (7)(C)(i), or (8)(A)(i), or subsection (c)(10)(C)(vii) of this section if all public schools served by the local educational agency to which a child may transfer are identified for school improvement, corrective action, or restructuring, the agency shall, to the extent practicable, establish a cooperative agreement with other local educational agencies in the area for a transfer.

(12) Duration

A local educational agency shall permit a child who transferred to another school under this subsection to remain in that school until the child has completed the highest grade in
that school. The obligation of the local educational agency to provide, or to provide for, transportation for the child ends at the end of a school year if the local educational agency determines that the school from which the child transferred is no longer identified for school improvement or subject to corrective action or restructuring.

(14) State educational agency responsibilities

The State educational agency shall—
(A) make technical assistance under section 6317 of this title available to schools identified for school improvement, corrective action, or restructuring under this subsection consistent with section 6317(a)(2) of this title;

Except as provided in subparagraph (D), grant funds awarded under this paragraph may be used only—

(i) for programs described in this chapter, including teacher training, curriculum development, instructional materials, or general school improvement and reform; and

(ii) to provide direct educational services that assist all students with meeting challenging State academic content standards.

(D) Administrative costs

The Secretary may provide not more than 5 percent of the amount reserved for grants under this paragraph to pay the administrative costs of the Pacific Region Educational Laboratory under subparagraph (B).

(4) Special rule

The provisions of Public Law 95–134, permitting the consolidation of grants by the outlying areas, shall not apply to funds provided to the freely associated States under this section.

(c) Definitions

For the purpose of subsections (a) and (b) of this section—

(1) the term “freely associated states” means the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau; and

(2) the term “outlying area” means the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

(d) Allotment to the Secretary of the Interior

(1) In general

The amount allotted for payments to the Secretary of the Interior under subsection (a)(2) of this section for any fiscal year shall be, as determined pursuant to criteria established by the Secretary, the amount necessary to meet the special educational needs of—

(A) Indian children on reservations served by elementary schools and secondary schools for Indian children operated or supported by the Department of the Interior; and

(B) out-of-State Indian children in elementary schools and secondary schools in local educational agencies under special contracts with the Department of the Interior.

(2) Payments

From the amount allotted for payments to the Secretary of the Interior under subsection (a)(2) of this section, the Secretary of the Interior shall make payments to local educational agencies, on such terms as the Secretary determines will best carry out the purposes of this part, with respect to out-of-State Indian children described in paragraph (1). The amount of such payment may not exceed, for each such child, the greater of—

(A) 40 percent of the average per-pupil expenditure in the State in which the agency is located; or

(B) 48 percent of such expenditure in the United States.

PRIOR PROVISIONS

§ 6332. Allocations to States

(a) Allocation formula

Of the amount appropriated under section 6302(a) of this title to carry out this part for each of fiscal years 2002–2007 (referred to in this subsection as the current fiscal year)—

(1) an amount equal to the amount made available to carry out section 6333 of this title for fiscal year 2001 shall be allocated in accordance with section 6333 of this title;

(2) an amount equal to the amount made available to carry out section 6334 of this title for fiscal year 2001 shall be allocated in accordance with section 6334 of this title; and

(3) an amount equal to 100 percent of the amount, if any, by which the amount made available to carry out sections 6333, 6334, and 6335 of this title for the current fiscal year for which the determination is made exceeds the amount available to carry out sections 6333 and 6334 of this title for fiscal year 2001 shall be allocated in accordance with section 6335 of this title.
(b) Adjustments where necessitated by appropriations

(1) In general

If the sums available under this subpart for any fiscal year are insufficient to pay the full amounts that all local educational agencies in States are eligible to receive under sections 6333, 6334, and 6335 of this title for such year, the Secretary shall ratably reduce the allocations to such local educational agencies, subject to subsections (c) and (d) of this section.

(2) Additional funds

If additional funds become available for making payments under sections 6333, 6334, and 6335 of this title for such fiscal year, allocations that were reduced under paragraph (1) shall be increased on the same basis as they were reduced.

(c) Hold-harmless amounts

(1) Amounts for sections 6333, 6334, and 6335

For each fiscal year, the amount made available to each local educational agency under each of sections 6333, 6334, and 6335 of this title shall be—

(A) not less than 95 percent of the amount made available for the preceding fiscal year if the number of children counted for grants under section 6333 of this title is not less than 30 percent of the total number of children aged 5 to 17 years, inclusive, in the local educational agency;

(B) not less than 90 percent of the amount made available for the preceding fiscal year if the percentage described in subparagraph (A) is between 15 percent and 30 percent; and

(C) not less than 85 percent of the amount made available for the preceding fiscal year if the percentage described in subparagraph (A) is below 15 percent.

(2) Payments

If sufficient funds are appropriated, the amounts described in paragraph (1) shall be paid to all local educational agencies that received grants under section 6334 of this title for the preceding fiscal year, regardless of whether the local educational agency meets the minimum eligibility criteria for that fiscal year described in section 6334(a)(1)(A) of this title except that a local educational agency that does not meet such minimum eligibility criteria for 4 consecutive years shall no longer be eligible to receive a hold harmless amount referred to in paragraph (1).

(3) Applicability

Notwithstanding any other provision of law, the Secretary shall not take into consideration the hold-harmless provisions of this subpart for any fiscal year for purposes of calculating State or local allocations for the fiscal year under any program administered by the Secretary other than a program authorized under this part.

(4) Population data

For any fiscal year for which the Secretary calculates grants on the basis of population data for counties, the Secretary shall apply the hold-harmless percentages in paragraphs (1) and (2) to counties and, if the Secretary’s allocation for a county is not sufficient to meet the hold-harmless requirements of this subsection for every local educational agency within that county, the State educational agency shall reallocate funds proportionately from all other local educational agencies in the State that are receiving funds in excess of the hold-harmless amounts specified in this subsection.

(d) Ratable reductions

(1) In general

If the sums made available under this subpart for any fiscal year are insufficient to pay the full amounts that local educational agencies in all States are eligible to receive under subsection (c) of this section for such year, the Secretary shall ratably reduce such amounts for such year.

(2) Additional funds

If additional funds become available for making payments under subsection (c) of this section for such fiscal year, amounts that were reduced under paragraph (1) shall be increased on the same basis as such amounts were reduced.

(e) Definition

For the purpose of this section and sections 6333, 6334, 6335, and 6337 of this title, the term “State” means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

PRIOR PROVISIONS

§ 6333. Basic grants to local educational agencies

(a) Amount of grants

(1) Grants for local educational agencies and Puerto Rico

Except as provided in paragraph (4) and in section 6338 of this title, the grant that a local educational agency is eligible to receive under this section for a fiscal year is the amount determined by multiplying—

(A) the number of children counted under subsection (c) of this section; and

(B) 40 percent of the average per-pupil expenditure in the State, except that the amount determined under this subparagraph shall not be less than 32 percent, or more than 48 percent, of the average per-pupil expenditure in the United States.

(2) Calculation of grants

(A) Allocations to local educational agencies

The Secretary shall calculate grants under this section on the basis of the number of children counted under subsection (c) of this section for local educational agencies, unless the Secretary and the Secretary of Commerce determine that some or all of those data are unreliable or that their use would be otherwise inappropriate, in which case—
§ 6333  TITLE 20—EDUCATION

(i) the two Secretaries shall publicly disclose the reasons for their determination in detail; and
(ii) paragraph (3) shall apply.

(B) Allocations to large and small local educational agencies

(i) For any fiscal year to which this paragraph applies, the Secretary shall calculate grants under this section for each local educational agency.
(ii) The amount of a grant under this section for each large local educational agency shall be the amount determined under clause (i).
(iii) For small local educational agencies, the State educational agency may either—
   (I) distribute grants under this section in amounts determined by the Secretary under clause (i); or
   (II) use an alternative method approved by the Secretary to distribute the portion of the State's total grants under this section that is based on those small agencies.
(iv) An alternative method under clause (iii)(II) shall be based on population data that the State educational agency determines best reflect the current distribution of children in poor families among the State's small local educational agencies that meet the eligibility criteria of subsection (b) of this section.
(v) If a small local educational agency is dissatisfied with the determination of its grant by the State educational agency under clause (ii)(II), it may appeal that determination to the Secretary, who shall respond not later than 45 days after receipt of such appeal.
(vi) As used in this subparagraph—
   (I) the term “large local educational agency” means a local educational agency serving an area with a total population of 20,000 or more; and
   (II) the term “small local educational agency” means a local educational agency serving an area with a total population of less than 20,000.

(3) Allocations to counties

(A) Calculation

For any fiscal year to which this paragraph applies, the Secretary shall calculate grants under this section on the basis of the number of children counted under subsection (c) of this section for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations issued by the Secretary.

(B) Direct allocations

In any State in which a large number of local educational agencies overlap county boundaries, or for which the State believes it has data that would better target funds than allocating them by county, the State educational agency may apply to the Secretary for authority to make the allocations under this subpart for a particular fiscal year directly to local educational agencies without regard to counties.

(C) Allocations to local educational agencies

If the Secretary approves the State educational agency's application under subparagraph (B), the State educational agency shall provide the Secretary an assurance that such allocations shall be made—
(i) using precisely the same factors for determining a grant as are used under this subpart; or
(ii) using data that the State educational agency submits to the Secretary for approval that more accurately target poverty.

(D) Appeal

The State educational agency shall provide the Secretary an assurance that it will establish a procedure through which a local educational agency that is dissatisfied with its determinations under subparagraph (B) may appeal directly to the Secretary for a final determination.

(4) Puerto Rico

(A) In general

For each fiscal year, the grant that the Commonwealth of Puerto Rico shall be eligible to receive under this section shall be the amount determined by multiplying the number of children counted under subsection (c) of this section for the Commonwealth of Puerto Rico by the product of—
(i) subject to subparagraph (B), the percentage that the average per-pupil expenditure in the Commonwealth of Puerto Rico is of the lowest average per-pupil expenditure of any of the 50 States; and
(ii) 32 percent of the average per-pupil expenditure in the United States.

(B) Minimum percentage

The percentage in subparagraph (A)(i) shall not be less than—
(i) for fiscal year 2002, 77.5 percent;
(ii) for fiscal year 2003, 80.0 percent;
(iii) for fiscal year 2004, 82.5 percent;
(iv) for fiscal year 2005, 85.0 percent;
(v) for fiscal year 2006, 92.5 percent; and
(vi) for fiscal year 2007 and succeeding fiscal years, 100.0 percent.

(C) Limitation

If the application of subparagraph (B) would result in any of the 50 States or the District of Columbia receiving less under this subpart than it received under this subpart for the preceding fiscal year, the percentage in subparagraph (A) shall be the greater of—
(i) the percentage in subparagraph (A)(i);
(ii) the percentage specified in subparagraph (B) for the preceding fiscal year; or
(iii) the percentage used for the preceding fiscal year.

(b) Minimum number of children to qualify

A local educational agency is eligible for a basic grant under this section for any fiscal year only if the number of children counted under subsection (c) of this section for that agency is both—
(1) 10 or more; and
(c) Children to be counted

(1) Categories of children

The number of children to be counted for purposes of this section is the aggregate of—

(A) the number of children aged 5 to 17, inclusive, in the school district of the local educational agency from families below the poverty level as determined under paragraph (2);

(B) the number of children (determined under paragraph (4) for either the preceding year as described in that paragraph, or for the second preceding year, as the Secretary finds appropriate) aged 5 to 17, inclusive, in the school district of such agency in institutions for neglected and delinquent children (other than such institutions operated by the United States), but not counted pursuant to subpart 1 of part D of this subchapter for the purposes of a grant to a State agency, or being supported in foster homes with public funds; and

(C) the number of children aged 5 to 17, inclusive, in the school district of such agency from families above the poverty level as determined under paragraph (4).

(2) Determination of number of children

For the purposes of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families below the poverty level on the basis of the most recent satisfactory data, described in paragraph (3), available from the Department of Commerce. The District of Columbia and the Commonwealth of Puerto Rico shall be treated as individual local educational agencies. If a local educational agency contains two or more counties in their entirety, then each county will be treated as if such county were a separate local educational agency for purposes of calculating grants under this part. The total of grants for such counties shall be allocated to such local educational agency, which local educational agency shall distribute to schools in each county within such agency a share of the local educational agency's total grant that is no less than the county's share of the population counts used to calculate the local educational agency's grant.

(3) Population updates

(A) In general

In fiscal year 2002 and each subsequent fiscal year, the Secretary shall use updated data on the number of children, aged 5 to 17, inclusive, from families below the poverty level for counties or local educational agencies, published by the Department of Commerce, unless the Secretary and the Secretary of Commerce determine that the use of the updated population data would be inappropriate or unreliable. If appropriate and reliable data are not available annually, the Secretary shall use data which are updated every 2 years.

(B) Inappropriate or unreliable data

If the Secretary and the Secretary of Commerce determine that some or all of the data referred to in subparagraph (A) are inappropriate or unreliable, the Secretary and the Secretary of Commerce shall publicly disclose their reasons.

(C) Criteria of poverty

In determining the families that are below the poverty level, the Secretary shall use the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census, as the criteria have been updated by increases in the Consumer Price Index for All Urban Consumers, published by the Bureau of Labor Statistics.

(4) Other children to be counted

(A) For the purpose of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families above the poverty level on the basis of the number of such children from families receiving an annual income, in excess of the current criteria of poverty, from payments under a State program funded under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.]; and in making such determinations, the Secretary shall use the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census for a family of four in such form as those criteria have been updated by increases in the Consumer Price Index for All Urban Consumers, published by the Bureau of Labor Statistics.

(B) The Secretary shall determine the number of such children and the number of children aged 5 through 17 living in institutions for neglected or delinquent children, or being supported in foster homes with public funds, on the basis of the caseload data for the month of October of the preceding fiscal year (using, in the case of children described in the preceding sentence, the criteria of poverty and the form of such criteria required by such sentence which were determined for the calendar year preceding such month of October) or, to the extent that such data are not available to the Secretary before January of the calendar year in which the Secretary's determination is made, then on the basis of the most recent reliable data available to the Secretary at the time of such determination.

(C) Except for the data on children living in institutions for neglected or delinquent children, the Secretary of Health and Human Services shall collect and transmit the information required by this subparagraph to the Secretary not later than January 1 of each year.

(D) For the purpose of this section, the Secretary shall consider all children who are in correctional institutions to be living in institutions for delinquent children.

(5) Estimate

When requested by the Secretary, the Secretary of Commerce shall make a special updated estimate of the number of children of such ages who are from families below the poverty level (as determined under paragraph (1)(A)) in each school district, and the Secretary is authorized to pay (either in advance or by way of reimbursement) the Secretary of Commerce to make such estimates.
Commerce the cost of making this special estimate. The Secretary of Commerce shall give consideration to any request of the chief executive of a State for the collection of additional census information.

(d) State minimum

Notwithstanding section 6332 of this title, the aggregate amount allotted for all local educational agencies within a State may not be less than the lesser of—

(1) 0.25 percent of the total amount allocated to States under this section for fiscal year 2001, plus 0.35 percent of the total amount allocated to States under this section in excess of the amount allocated for fiscal year 2001; or

(2) the average of—

(A) the amount calculated in paragraph (1), above; and

(B) the number of children in such State counted under subsection (c) of this section in the fiscal year multiplied by 150 percent of the national average per-pupil payment made with funds available under this section for that year.

PRIOR PROVISIONS

§ 6334. Concentration grants to local educational agencies

(a) Eligibility for and amount of grants

(1) In general

(A) Except as otherwise provided in this paragraph, each local educational agency which is eligible for a grant under section 6333 of this title for any fiscal year is eligible for an additional grant under this section for that fiscal year if the number of children counted under section 6333(c) of this title in the agency exceeds either—

(i) 6,500; or

(ii) 15 percent of the total number of children aged 5 through 17 in the agency.

(B) Notwithstanding section 6332 of this title, no State shall receive less than the lesser of—

(i) 0.25 percent of the total amount allocated to States under this section for fiscal year 2001, plus 0.35 percent of the total amount allocated to States under this section in excess of the amount allocated for fiscal year 2001; or

(ii) the average of—

(I) the amount calculated under clause (i); and

(II) the greater of—

(aa) $340,000; or

(bb) the number of children in such State counted for purposes of this section in that fiscal year multiplied by 150 percent of the national average per-pupil payment made with funds available under this section for that year.

(2) Determination

For each county or local educational agency eligible to receive an additional grant under this section for any fiscal year, the Secretary shall determine the product of—

(A) the number of children counted under section 6333(c) of this title for that fiscal year; and

(B) the amount in section 6333(a)(1)(B) of this title for each State except the Commonwealth of Puerto Rico, and the amount in section 6333(a)(4) of this title for the Commonwealth of Puerto Rico.

(3) Amount

The amount of the additional grant for which an eligible local educational agency or county is eligible under this section for any fiscal year shall be an amount which bears the same ratio to the amount available to carry out this section for that fiscal year as the product determined under paragraph (2) for such local educational agency for that fiscal year bears to the sum of such products for all local educational agencies in the United States for that fiscal year.

(4) Local allocations

(A) Grant amounts under this section shall be determined in accordance with section 6333(a)(2), (3), and (4) of this title.

(B) For any fiscal year for which the Secretary allocates funds under this section on the basis of counties, a State may reserve not more than 2 percent of its allocation under this section to make grants to local educational agencies that meet the criteria of paragraph (1)(A)(i) or (ii) and are in ineligible counties that do not meet these criteria.

(b) Small States

In any State for which on January 8, 2002, the number of children counted under section 6333(c) of this title is less than 0.25 percent of the number of those children counted for all States, the State educational agency shall allocate funds under this section among the local educational agencies in the State either—

(1) in accordance with paragraphs (2) and (4) of subsection (a) of this section; or

(2) based on their respective concentrations and numbers of children counted under section 6333(c) of this title, except that only those local educational agencies with concentrations or numbers of children counted under section 6333(c) of this title that exceed the statewide average percentage of such children or the statewide average number of such children shall receive any funds on the basis of this paragraph.

§ 6335. Targeted grants to local educational agencies

(a) Eligibility of local educational agencies

(1) In general

A local educational agency in a State is eligible to receive a targeted grant under this section for any fiscal year if—

(A) the number of children in the local educational agency counted under section 6333(c) of this title, before application of the weighted child count described in subsection (c) of this section, is at least 10; and

(B) if the number of children counted for grants under section 6333(c) of this title, before application of the weighted child count described in subsection (c) of this section, is at least 5 percent of the total number of children aged 5 to 17 years, inclusive, in the school district of the local educational agency.

(2) Special rule

For any fiscal year for which the Secretary allocates funds under this section on the basis of counties, funds made available as a result of applying this subsection shall be reallocated by the State educational agency to other eligible local educational agencies in the State in proportion to the distribution of other funds under this section.

(b) Grants for local educational agencies, the District of Columbia, and the Commonwealth of Puerto Rico

(1) In general

The amount of the grant that a local educational agency in a State (other than the Commonwealth of Puerto Rico) is eligible to receive under this section for any fiscal year shall be the product of—

(A) the weighted child count determined under subsection (c) of this section; and

(B) the amount determined under section 6333(a)(1)(B) of this title.

(2) Puerto Rico

For each fiscal year, the amount of the grant the Commonwealth of Puerto Rico is eligible to receive under this section shall be equal to the number of children counted under subsection (c) of this section for the Commonwealth of Puerto Rico, multiplied by the amount determined in section 6333(a)(4) of this title for the Commonwealth of Puerto Rico.

(c) Weighted child count

(1) Weights for allocations to counties

(A) In general

For each fiscal year for which the Secretary uses county population data to calculate grants, the weighted child count used to determine a county’s allocation under this section is the larger of the two amounts determined under subparagraphs (B) and (C).

(B) By percentage of children

The amount referred to in subparagraph (A) is determined by adding—

(i) the number of children determined under section 6333(c) of this title for that county who constitute not more than 15.00 percent, inclusive, of the county’s total population aged 5 to 17, inclusive, multiplied by 1.0;

(ii) the number of such children who constitute more than 15.00 percent, but not more than 19.00 percent, of such population, multiplied by 1.75;

(iii) the number of such children who constitute more than 19.00 percent, but not more than 24.20 percent, of such population, multiplied by 2.5;

(iv) the number of such children who constitute more than 24.20 percent, but not more than 29.20 percent, of such population, multiplied by 3.25; and

(v) the number of such children who constitute more than 29.20 percent of such population, multiplied by 4.0.

(C) By number of children

The amount referred to in subparagraph (A) is determined by adding—

(i) the number of children determined under section 6333(c) of this title who constitute not more than 2,311, inclusive, of the county’s total population aged 5 to 17, inclusive, multiplied by 1.0;

(ii) the number of such children between 2,312 and 7,913, inclusive, in such population, multiplied by 1.5;

(iii) the number of such children between 7,914 and 23,917, inclusive, in such population, multiplied by 2.0;

(iv) the number of such children between 23,918 and 93,810, inclusive, in such population, multiplied by 2.5; and

(v) the number of such children in excess of 93,811 in such population, multiplied by 3.0.

(D) Puerto Rico

Notwithstanding subparagraph (A), the weighting factor for the Commonwealth of Puerto Rico under this paragraph shall not be greater than the total number of children counted under section 6333(c) of this title multiplied by 1.82.

(2) Weights for allocations to local educational agencies

(A) In general

For each fiscal year for which the Secretary uses local educational agency data, the weighted child count used to determine a local educational agency’s grant under this section is the larger of the two amounts determined under subparagraphs (B) and (C).

(B) By percentage of children

The amount referred to in subparagraph (A) is determined by adding—

(i) the number of children determined under section 6333(c) of this title for that local educational agency who constitute not more than 15.58 percent, inclusive, of the agency’s total population aged 5 to 17, inclusive, multiplied by 1.0;
(ii) the number of such children who constitute more than 15.58 percent, but not more than 22.11 percent, of such population, multiplied by 1.75; 
(iii) the number of such children who constitute more than 22.11 percent, but not more than 30.16 percent, of such population, multiplied by 2.5; 
(iv) the number of such children who constitute more than 30.16 percent, but not more than 38.24 percent, of such population, multiplied by 3.25; and 
(v) the number of such children who constitute more than 38.24 percent of such population, multiplied by 4.0.

(C) By number of children

The amount referred to in subparagraph (A) is determined by adding—

(i) the number of children determined under section 6333(c) of this title who constitute not more than 691, inclusive, of the agency's total population aged 5 to 17, inclusive, multiplied by 1.0; 
(ii) the number of such children between 692 and 2,262, inclusive, in such population, multiplied by 1.5; 
(iii) the number of such children between 2,263 and 7,851, inclusive, in such population, multiplied by 2.0; 
(iv) the number of such children between 7,852 and 35,514, inclusive, in such population, multiplied by 2.5; and 
(v) the number of such children in excess of 35,514 in such population, multiplied by 3.0.

(D) Puerto Rico

Notwithstanding subparagraph (A), the weighting factor for the Commonwealth of Puerto Rico under this paragraph shall not be greater than the total number of children counted under section 6333(c) of this title multiplied by 1.82.

(d) Calculation of grant amounts

Grant amounts under this section shall be calculated in the same manner as grant amounts are calculated under section 6333(a)(2) and (3) of this title.

(e) State minimum

Notwithstanding any other provision of this section or section 6332 of this title, the total amount available for any fiscal year to carry out this section, each State shall be allotted at least the lesser of—

(1) 0.35 percent of the total amount available to carry out this section; or 
(2) the average of—

(A) 0.35 percent of the total amount available to carry out this section; and 
(B) 150 percent of the national average grant under this section per child described in section 6333(c) of this title, without application of a weighting factor, multiplied by the State's total number of children described in section 6333(c) of this title, without application of a weighting factor.

PRIOR PROVISIONS

§ 6336. Adequacy of funding of targeted grants to local educational agencies in fiscal years after fiscal year 2001

(a) Findings

Congress makes the following findings:

(1) The current Basic Grant Formula for the distribution of funds under this part often does not provide funds for the economically disadvantaged students for which such funds are targeted.

(2) Any school district in which more than 2 percent of the students live below the poverty level qualifies for funding under the Basic Grant Formula. As a result, 9 out of every 10 school districts in the country receive some form of aid under the Formula.

(3) Fifty-eight percent of all schools receive at least some funding under this part, including many suburban schools with predominantly well-off students.

(4) One out of every 5 schools with concentrations of poor students between 50 and 75 percent receive no funding at all under this part.

(5) In passing the Improving America’s Schools Act in 1994, Congress declared that grants under this part would more sharply target high poverty schools by using the Targeted Grant Formula, but annual appropriation Acts have prevented the use of that Formula.

(6) The advantage of the Targeted Grant Formula over other funding formulas under this part is that the Targeted Grant Formula provides increased grants per poor child as the percentage of economically disadvantaged children in a school district increases.

(7) Studies have found that the poverty of a child’s family is much more likely to be associated with educational disadvantage if the family lives in an area with large concentrations of poor families.

(8) States with large populations of high poverty students would receive significantly more funding if more funds under this part were allocated through the Targeted Grant Formula.

(9) Congress has an obligation to allocate funds under this part so that such funds will positively affect the largest number of economically disadvantaged students.

(b) Limitation on allocation of subchapter I funds contingent on adequate funding of targeted grants

Pursuant to section 6332 of this title, the total amount allocated in any fiscal year after fiscal year 2001 for programs and activities under this part shall not exceed the amount allocated in fiscal year 2001 for such programs and activities unless the amount available for targeted grants to local educational agencies under section 6335 of this title in the applicable fiscal year meets the requirements of section 6332(a) of this title.

(2) Reduction of funds

The Secretary shall reduce the amount of funds awarded to any State under this section in any fiscal year in the exact proportion to which the State fails to meet the requirements of paragraph (1) by falling below 90 percent of both the fiscal effort per student and aggregate expenditures (using the measure most favorable to the State), and no such lesser amount shall be used for computing the effort required under paragraph (1) for subsequent years.

(3) Waivers

The Secretary may waive, for 1 fiscal year only, the requirements of this subsection if the Secretary determines that such a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural
disaster or a precipitous and unforeseen decline in the financial resources of the State.

(f) Authorization of appropriations

There are authorized to be appropriated to carry out this section such sums as may be necessary for fiscal year 2002 and for each of the 5 succeeding fiscal years.

(g) Adjustments where necessitated by appropriations

(a) Allocations for neglected children

(1) In general

(2) Special rule

If the State educational agency does not assume such responsibility, any other State or local public agency that does assume such responsibility shall receive that portion of the local educational agency’s allocation.

(b) Allocations among local educational agencies

The State educational agency may allocate the amounts of grants under sections 6333, 6334, 6335, and 6337 of this title among the affected local educational agencies—

(3) to reflect the merger, creation, or change of boundaries of one or more local educational agencies.

(c) Reallocation

If a State educational agency determines that the amount of a grant a local educational agency would receive under sections 6333, 6334, 6335, and 6337 of this title is more than such local educational agency will use, the State educational agency shall make the excess amount available to other local educational agencies in the State that need additional funds in accordance with criteria established by the State educational agency.

through any reallocation under this subpart) may remain available for obligation by such agency for one additional fiscal year.

(b) Waiver

A State educational agency may, once every 3 years, waive the percentage limitation in subsection (a) of this section if—

(3) To provide assistance to State educational agencies and local educational agencies in selecting or administering screening, diagnostic, and classroom-based instructional reading assessments.

(4) To provide assistance to State educational agencies and local educational agencies in selecting or developing effective instructional materials (including classroom-based materials to assist teachers in implementing the essential components of reading instruction), programs, learning systems, and strategies to implement methods that have been proven to prevent or remediate reading failure within a State.

(5) To strengthen coordination among schools, early literacy programs, and family literacy programs to improve reading achievement for all children.

(4) Distribution of subgrants

The Secretary may make a grant to a State educational agency only if the State educational agency agrees to expend at least 80 percent of the amount of the funds provided under the grant for the purpose of making, in accordance with subsection (c) of this section, competitive subgrants to eligible local educational agencies.

(5) Reallotment

(B) Priority

In making subgrants under paragraph (1), a State educational agency shall give priority to eligible local educational agencies in which at least—

(i) 15 percent of the children served by the eligible local educational agency are from families with incomes below the poverty line; or

For fiscal year 2002, each State (other than the Commonwealth of Puerto Rico) is entitled
to receive under this part an amount equal to—

For fiscal year 2003 and succeeding fiscal years, the amount (if any) by which the funds appropriated to carry out this part for the year exceed such funds for fiscal year 2002 shall be allocated to a State (other than the Commonwealth of Puerto Rico) so that the State receives an amount equal to—

(i) the sum of—

(I) the number of identified eligible migratory children, aged 3 through 21, residing in the State during the previous year; and

PART A—INNOVATIVE PROGRAMS

§ 7201. Purposes, State and local responsibility

(a) Purposes

The purposes of this part are the following:

(1) To support local education reform efforts
that are consistent with and support statewide
education reform efforts;

(2) To provide funding to enable State edu-
cational agencies and local educational agen-
cies to implement promising educational re-
form programs and school improvement pro-
grams based on scientifically based research.
The State educational agency shall bear the basic responsibility for the administration of funds made available under this part, but it is the intent of Congress that the responsibility be carried out with a minimum of paperwork and that the responsibility for the design and implementation of programs assisted under this part be mainly that of local educational agencies, school superintendents and principals, and classroom teachers and supporting personnel, because local educational agencies and individuals have the most direct contact with students and are most likely to be able to design programs to meet the educational needs of students in their own school districts.

(b) Reservation

From the sums appropriated to carry out this part for each fiscal year, the Secretary shall reserve not more than 1 percent for payments to the outlying areas, to be allotted in accordance with their respective needs for assistance under this part.

(3) Adjustments

(A) State criteria

Relative enrollments calculated under subsection (a)(1) of this section shall be adjusted, in accordance with criteria approved by the Secretary under subparagraph (B), to provide higher per-pupil allocations only to local educational agencies that serve the greatest numbers or percentages of—

(2) Additional funds

(A) Use

(B) Allocation

In any fiscal year, any local educational agency that elects to allocate such additional funds in the manner described in subparagraph (A) shall allocate all additional funds to schools within the area served by the local educational agency in such manner.

(C) Rule of construction

Subparagraphs (A) and (B) may not be construed to require any school to limit the use of the additional funds described in subparagraph (A) to the provision of services to specific students or categories of students.

Expenditures for programs under subsection (a) of this section shall be equal (consistent with the number of children to be served) to expenditures for programs under this part for children enrolled in the public schools of the local educational agency.

(2) Concentrated programs

Taking into account the needs of the individual children and other factors that relate to the expenditures referred to in paragraph (1), and when funds available to a local educational agency under this part are used to concentrate programs on a particular group, attendance area, or grade or age level, children enrolled in private schools who are included within the group, attendance area, or grade or age level selected for such concentration shall, after consultation with the appropriate private school officials, be assured equitable participation in the purposes and benefits of such programs.

(c) Administrative requirements

(1) Funds and property

The control of funds provided under this part, and title to materials, equipment, and property repaired, remodeled, or constructed with such funds, shall be in a public agency for the uses and purposes provided in this part, and a public agency shall administer such funds and property.

If a State educational agency or local educational agency is prohibited, by reason of any provision of law, from providing for the participation in programs of children enrolled in private elementary schools and secondary schools as required by subsections (a) through (c) of this section, the Secretary shall waive such requirements for the agency involved and shall arrange for the provision of services to such children through arrangements that shall be subject to the requirements of this section.

(2) Failure to comply

If the Secretary determines that a State educational agency or local educational agency has substantially failed, or is unwilling, to provide for the participation on an equitable basis of children enrolled in private elementary schools and secondary schools as required by subsections (a) through (c) of this section, the Secretary may waive such requirements and shall arrange for the provision of services to such children through arrangements that shall be subject to the requirements of this section.

(e) Withholding of allotment or allocation

Pending final resolution of any investigation or complaint that could result in a waiver under subsection (d)(1) or (d)(2) of this section, the Secretary may withhold from the allotment or allocation of the affected State educational agency or local educational agency the amount estimated by the Secretary to be necessary to pay the cost of services to be provided by the Secretary under such subsection.

The Secretary shall not take any final action under this section until the State educational agency and the local educational agency affected by such action have had an opportunity, for not less than 45 days after receiving written notice thereof, to submit written objections and to appear before the Secretary or the Secretary’s designee to show cause why that action should not be taken.

(2) Court action

If a State educational agency or local educational agency is dissatisfied with the Secretary’s final action after a proceeding under paragraph (1), such agency may, not later than 60 days after notice of such action, file with the United States court of appeals for the circuit in which such State is located a petition for review of that action. A copy of the petition shall be transmitted by the clerk of the court to the Secretary. The Secretary thereupon shall file in the court the record of the proceedings on which the Secretary based the action, as provided in section 2112 of title 28.

(3) Remand to Secretary

The findings of fact by the Secretary with respect to a proceeding under paragraph (1), if supported by substantial evidence, shall be conclusive. The court, for good cause shown, may remand the case to the Secretary to take further evidence and the Secretary may make new or modified findings of fact and may modify the Secretary’s previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive, if supported by substantial evidence.

(4) Court review

Upon the filing of a petition under paragraph (2), the court shall have jurisdiction to affirm the action of the Secretary or to set such action aside, in whole or in part. Congress makes the following findings:

(3) Magnet schools offer a wide range of distinctive programs that have served as models for school improvement efforts.
(4) It is in the best interests of the United States—

(A) to continue the Federal Government’s support of local educational agencies that are implementing court-ordered desegregation plans and local educational agencies that are voluntarily seeking to foster meaningful interaction among students of different racial and ethnic backgrounds, beginning at the earliest stage of such students’ education;
(B) to ensure that all students have equitable access to a high quality education that will prepare all students to function well in a technologically oriented and a highly competitive economy comprised of people from many different racial and ethnic backgrounds; and
(C) to continue to desegregate and diversify schools by supporting magnet schools, recognizing that segregation exists between minority and nonminority students as well as among students of different minority groups.
(5) Desegregation efforts through magnet school programs are a significant part of our Nation’s effort to achieve voluntary desegregation in schools and help to ensure equal educational opportunities for all students.

(b) Purpose

The purpose of this part is to assist in the desegregation of schools served by local educational agencies by providing financial assistance to eligible local educational agencies for—

(1) the elimination, reduction, or prevention of minority group isolation in elementary schools and secondary schools with substantial proportions of minority students, which shall include assisting in the efforts of the United States to achieve voluntary desegregation in public schools;
(2) the development and implementation of magnet school programs that will assist local educational agencies in achieving systemic reforms and providing all students the opportunity to meet challenging State academic content standards and student academic achievement standards;
(3) the development and design of innovative educational methods and practices that promote diversity and increase choices in public elementary schools and public secondary schools and public educational programs;
(4) courses of instruction within magnet schools that will substantially strengthen the knowledge of academic subjects and the attainment of tangible and marketable vocational, technological, and professional skills of students attending such schools;

(5) improving the capacity of local educational agencies, including through professional development, to continue operating magnet schools at a high performance level after Federal funding for the magnet schools is terminated; and

(6) ensuring that all students enrolled in the magnet school programs have equitable access to high quality education that will enable the students to succeed academically and continue with postsecondary education or productive employment.

PRIOR PROVISIONS

§ 7265a. Findings and purposes

(a) Findings

Congress finds the following:

(1) Alaska Natives and Native Hawaiians have been linked for over 200 years to the coastal towns of Salem, Massachusetts, and New Bedford, Massachusetts, through the China trade from Salem and whaling voyages from New Bedford.

(2) Nineteenth-century trading ships sailed from Salem, Massachusetts, around Cape Horn of South America, and up the Northwest coast of the United States to Alaska, where their crews traded with Alaska Native people for furs, and then went on to Hawaii to trade for sandalwood with Native Hawaiians before going on to China.

(3) During the 19th century, over 2,000 whaling voyages sailed out of New Bedford, Massachusetts to the Arctic region of Alaska, and joined Alaska Natives from Barrow, Alaska and other areas in the Arctic region in subsistence whaling activities.

(4) Many New Bedford whaling voyages continued on to Hawaii, where they joined Native Hawaiians from the neighboring islands.

(5) From those commercial and whaling voyages, a rich cultural exchange and strong trading relationships developed among the three peoples involved.

(6) In the past decades, awareness of the historical trading, cultural, and whaling links has faded among Alaska Natives, Native Hawaiians, and the people of the continental United States.

(7) In 2000, the Alaska Native Heritage Center in Alaska, the Bishop Museum in Hawaii, and the Peabody-Essex Museum in Massachusetts initiated the New Trade Winds project to use 21st-century technology, including the Internet, to educate students and their parents about historic and contemporary cultural and trading ties that continue to link the diverse cultures of the peoples involved.

(8) The New Bedford Whaling Museum, in partnership with the New Bedford Whaling National Historical Park, has developed a cultural exchange and educational program with the Inupiat Heritage Center in Barrow, Alaska to bring together the children, parents, and elders from the Arctic region of Alaska with children and families of Massachusetts to learn about their historical ties and about each other’s contemporary cultures.

(9) Within the fast-growing cultural sector, meaningful educational and career opportunities based on traditional relationships exist for Alaska Natives, Native Hawaiians, and low-income youth in Massachusetts.

(10) Cultural institutions can provide practical, culturally relevant, education-related internship and apprentice programs, such as the Museum Action Corps at the Peabody-Essex Museum and similar programs at the New Bedford Oceanarium and other institutions, to prepare youths and their families for careers in the cultural sector.

(11) The resources of the institutions described in paragraphs (7) and (8) provide unique opportunities for illustrating and in-
terpreting the contributions of Alaska Natives, Native Hawaiians, the whaling industry, and the China trade to the economic, social, and environmental history of the United States, for educating students and their parents, and for providing opportunities for internships and apprenticeships leading to careers with cultural institutions.

(b) Purposes

The purposes of this subpart are the following:

(1) To authorize and develop innovative culturally-based educational programs and cultural exchanges to assist Alaska Natives, Native Hawaiians, and children and families of Massachusetts linked by history and tradition to Alaska and Hawaii to learn about shared culture and traditions.

(2) To authorize and develop internship and apprentice programs to assist Alaska Natives, Native Hawaiians, and children and families of Massachusetts linked by history and tradition with Alaska and Hawaii to prepare for careers with cultural institutions.

(3) To supplement programs and authorities in the area of education to further the objectives of this subpart.

(4) To authorize and develop cultural and educational programs relating to any Federally recognized Indian tribe in Mississippi.

Upon the receipt of an acceptable plan under subsection (a) of this section, the Secretary, in cooperation with each Federal agency providing grants for the provision of education and related services to the entity, shall authorize the entity to consolidate, in accordance with such plan, the federally funded education and related services programs of the entity and the Federal programs, or portions of the programs, serving Indian students in a manner that integrates the program services involved into a single, coordinated, comprehensive program and reduces administrative costs by consolidating administrative functions.

(c) Programs affected

The funds that may be consolidated in a demonstration project under any such plan referred to in subsection (a) of this section shall include funds for any Federal program exclusively serving Indian children, or the funds reserved under any Federal program to exclusively serve Indian children, under which the entity is eligible for receipt of funds under a statutory or administrative formula for the purposes of providing education and related services that would be used to serve Indian students.

The parties so consulting shall identify any waivers of statutory requirements or of Federal departmental regulations, policies, or procedures necessary to enable the entity to implement the plan. Notwithstanding any other provision of law, the Secretary of the affected department shall have the authority to waive any regulation, policy, or procedure promulgated by that department that has been so identified by the entity or department, unless the Secretary of the affected department determines that such a waiver is inconsistent with the objectives of this subpart or those provisions of the statute from which the program involved derives authority that are specifically applicable to Indian students.

(m) Overage

The eligible entity may commingle all administrative funds from the consolidated programs
and shall be entitled to the full amount of such funds (under each program’s or agency’s regulations). The overage (defined as the difference between the amount of the commingled funds and the actual administrative cost of the programs) shall be considered to be properly spent for Federal audit purposes, if the overage is used for the purposes provided for under this section.

(n) Fiscal accountability

Nothing in this part shall be construed so as to interfere with the ability of the Secretary or the lead agency to fulfill the responsibilities for the safeguarding of Federal funds pursuant to chapter 75 of title 31.

(1) In general

(A) Review

For each fiscal year, in order to provide such information as is necessary to carry out the responsibility of the Secretary to provide technical assistance under this subpart, the Secretary shall conduct a monitoring and evaluation review of a sampling of the recipients of grants under this subpart. The sampling conducted under this subparagraph shall take into account the size of and the geographic location of each local educational agency.

(B) Exception

A local educational agency may not be held liable to the United States or be subject to any penalty, by reason of the findings of an audit that relates to the date of completion, or the date of submission, of any forms used to establish, before April 28, 1988, the eligibility of a child for an entitlement under the Indian Elementary and Secondary School Assistance Act.

(b) Payments taken into account by the State

The Secretary may not make a grant under this subpart to a local educational agency for a fiscal year if, for such fiscal year, the State in which the local educational agency is located takes into consideration payments made under this chapter 1 in determining the eligibility of the local educational agency for State aid, or the amount of the State aid, with respect to the free public education of children during such fiscal year or the preceding fiscal year.

(3) Waiver

(A) In general

The Secretary may waive the requirement of paragraph (1) for a local educational agency, for not more than 1 year at a time, if the Secretary determines that the failure to comply with such requirement is due to exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the agency’s financial resources.

(B) Future determinations

The Secretary shall not use the reduced amount of the agency’s expenditures for the fiscal year preceding the fiscal year for which a waiver is granted to determine compliance with paragraph (1) for any succeeding fiscal year, but shall use the amount of expenditures that would have been required to comply with paragraph (1) in the absence of the waiver.

(d) Reallocations

The Secretary may reallocate, in a manner that the Secretary determines will best carry out the purpose of this subpart, any amounts that—

PART B—NATIVE HAWAIIAN EDUCATION

§7511. Short title

This part may be cited as the “Native Hawaiian Education Act”.

(7) By 1919, the Native Hawaiian population had declined from an estimated 1,000,000 in 1778 to an alarming 22,600, and in recognition of this severe decline, Congress enacted the Hawaiian Homes Commission Act, 1920 (42 Stat. 188), which designated approximately 200,000 acres of ceded public lands for homesteading by Native Hawaiians.

(8) Through the enactment of the Hawaiian Homes Commission Act, 1920, Congress affirmed the special relationship between the United States and the Native Hawaiians, which was described by then Secretary of the Interior Franklin K. Lane, who said: "One thing that impressed me . . . was the fact that the natives of the island who are our wards, I should say, and for whom in a sense we are trustees, are falling off rapidly in numbers and many of them are in poverty".

(9) In 1938, Congress again acknowledged the unique status of the Hawaiian people by including in the Act of June 20, 1938 (52 Stat. 781, chapter 530; 16 U.S.C. 391b, 391b–1, 392b, 392c, 396, 396a), a provision to lease lands within the National Parks extension to Native Hawaiians and to permit fishing in the area "only by native Hawaiian residents of said area or of adjacent villages and by visitors under their guidance".

(10) Under the Act entitled "An Act to provide for the admission of the State of Hawaii into the Union", approved March 18, 1959 (73 Stat. 4), the United States transferred responsibility for the administration of the Hawaiian Home Lands to the State of Hawaii but reaffirmed the trust relationship between the United States and the Hawaiian people by retaining the exclusive power to enforce the trust, including the power to approve land exchanges and amendments to such Act affecting the rights of beneficiaries under such Act.

(11) In 1959, under the Act entitled "An Act to provide for the admission of the State of Hawaii into the Union", the United States also ceded to the State of Hawaii title to the public lands formerly held by the United States, but mandated that such lands be held by the State "in public trust" and reaffirmed the special relationship that existed between the United States and the Hawaiian people by retaining the legal responsibility to enforce the public trust responsibility of the State of Hawaii for the betterment of the conditions of Native Hawaiians, as defined in section 201(a) of the Hawaiian Homes Commission Act, 1920.

(12) The United States has recognized and reaffirmed that—

(A) Native Hawaiians have a cultural, historic, and land-based link to the indigenous people who exercised sovereignty over the Hawaiian Islands, and that group has never relinquished its claims to sovereignty or its sovereign lands;

(B) Congress does not extend services to Native Hawaiians because of their race, but because of their unique status as the indigenous people of a once sovereign nation as to whom the United States has established a trust relationship;

(C) Congress has also delegated broad authority to administer a portion of the Federal trust responsibility to the State of Hawaii;

(D) the political status of Native Hawaiians is comparable to that of American Indians and Alaska Natives; and

(E) the aboriginal, indigenous people of the United States have—

(i) a continuing right to autonomy in their internal affairs; and

(ii) an ongoing right of self-determination and self-governance that has never been extinguished.

(13) The political relationship between the United States and the Native Hawaiian people has been recognized and reaffirmed by the United States, as evidenced by the inclusion of Native Hawaiians in—

(A) the Native American Programs Act of 1974 (42 U.S.C. 2991 et seq.);

(B) the American Indian Religious Freedom Act (25 U.S.C. 2901 et seq.);

(C) the American Indian Religious Freedom Act (25 U.S.C. 2901 et seq.);

(D) the Native American Graves Protection and Repatriation Act (25 U.S.C. 3001 et seq.);

(E) the National Historic Preservation Act (16 U.S.C. 470 et seq.);

(F) the Native American Languages Act (25 U.S.C. 2901 et seq.);

(G) the American Indian, Alaska Native, and Native Hawaiian Culture and Art Development Act (20 U.S.C. 4401 et seq.);

(H) the Workforce Investment Act of 1998 (29 U.S.C. 2801 et seq.); and

(I) the Older Americans Act of 1965 (42 U.S.C. 3001 et seq.).

(14) In 1981, Congress instructed the Office of Education to submit to Congress a comprehensive report on Native Hawaiian education. The report, entitled the "Native Hawaiian Educational Assessment Project", was released in 1983 and documented that Native Hawaiians scored below parity with regard to national norms on standardized achievement tests, were disproportionately represented in many negative social and physical statistics indicative of special educational needs, and had educational needs that were related to their unique cultural situation, such as different learning styles and low self-image.

(15) In recognition of the educational needs of Native Hawaiians, in 1988, Congress enacted title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988 (102 Stat. 130) to authorize and develop supplemental educational programs to address the unique conditions of Native Hawaiians.

(16) In 1993, the Kamehameha Schools Bishop Estate released a 10-year update of findings of the Native Hawaiian Educational Assessment Project, which found that despite the successes of the programs established under title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, many of the same educational needs still existed for Native Hawaiians. Subsequent reports by the Kamehameha Schools Bishop Estate and other orga-
nizations have generally confirmed those findings. For example—

(A) educational risk factors continue to start even before birth for many Native Hawaiian children, including—
   (i) late or no prenatal care;
   (ii) high rates of births by Native Hawaiian women who are unmarried; and
   (iii) high rates of births to teenage parents;

(B) Native Hawaiian students continue to begin their school experience lagging behind other students in terms of readiness factors such as vocabulary test scores;

(C) Native Hawaiian students continue to score below national norms on standardized education achievement tests at all grade levels;

(D) both public and private schools continue to show a pattern of lower percentages of Native Hawaiian students in the uppermost achievement levels and in gifted and talented programs;

(E) Native Hawaiian students continue to be overrepresented among students qualifying for special education programs provided to students with learning disabilities, mild intellectual disabilities, emotional impairment, and other such disabilities;

(F) Native Hawaiians continue to be underrepresented in institutions of higher education and among adults who have completed four or more years of college;

(G) Native Hawaiians continue to be disproportionately represented in many negative social and physical statistics indicative of special educational needs, as demonstrated by the fact that—
   (i) Native Hawaiian students are more likely to be retained in grade level and to be excessively absent in secondary school;
   (ii) Native Hawaiian students have the highest rates of drug and alcohol use in the State of Hawaii; and
   (iii) Native Hawaiian children continue to be disproportionately victimized by child abuse and neglect; and

(H) Native Hawaiians now comprise over 23 percent of the students served by the State of Hawaii Department of Education, and there are and will continue to be geographically rural, isolated areas with a high Native Hawaiian population density.

(17) In the 1998 National Assessment of Educational Progress, Hawaiian fourth-graders ranked 39th among groups of students from 39 States in reading. Given that Hawaiian students rank among the lowest groups of students nationally in reading, and that Native Hawaiian students rank the lowest among Hawaiian students in reading, it is imperative that greater focus be placed on beginning reading and early education and literacy in Hawaii.

(18) The findings described in paragraphs (16) and (17) are inconsistent with the high rates of literacy and integration of traditional culture and Western education historically achieved by Native Hawaiians through a Hawaiian language-based public school system established in 1840 by Kamehameha III.

(19) Following the overthrow of the Kingdom of Hawaii in 1893, Hawaiian medium schools were banned. After annexation, throughout the territorial and statehood period of Hawaii, and until 1986, use of the Hawaiian language as an instructional medium in education in public schools was declared unlawful. The declaration caused incalculable harm to a culture that placed a very high value on the power of language, as exemplified in the traditional saying: “I ka ‘ōlelo nō ke ola; I ka ‘ōlelo nō ka make. In the language rests life; In the language rests death.”;

(20) Despite the consequences of over 100 years of nonindigenous influence, the Native Hawaiian people are determined to preserve, develop, and transmit to future generations their ancestral territory and their cultural identity in accordance with their own spiritual and traditional beliefs, customs, practices, language, and social institutions.

(21) The State of Hawaii, in the constitution and statutes of the State of Hawaii—
   (A) reaffirms and protects the unique right of the Native Hawaiian people to practice and perpetuate their culture and religious customs, beliefs, practices, and language;
   (B) recognizes the traditional language of the Native Hawaiian people as an official language of the State of Hawaii, which may be used as the language of instruction for all subjects and grades in the public school system; and
   (C) promotes the study of the Hawaiian culture, language, and history by providing a Hawaiian education program and using community expertise as a suitable and essential means to further the program.

§ 7541. Short title

§ 7542. Findings
Congress finds and declares the following:
(1) The attainment of educational success is critical to the betterment of the conditions, long-term well-being, and preservation of the culture of Alaska Natives.
(2) It is the policy of the Federal Government to encourage the maximum participation by Alaska Natives in the planning and the management of Alaska Native education programs.
(3) Alaska Native children enter and exit school with serious educational handicaps.
(4) The educational achievement of Alaska Native children is far below national norms. Native performance on standardized tests is low. Native student dropout rates are high, and Natives are significantly underrepresented among holders of baccalaureate degrees in the State of Alaska. As a result, Native students are being denied their opportunity to become full participants in society by grade school and high school education that are condemning an entire generation to an underclass status and a life of limited choices.
(5) The programs authorized in this part, combined with expanded Head Start, infant learning, and early childhood education programs, and parent education programs, are essential if educational handicaps are to be overcome.
(6) The sheer magnitude of the geographic barriers to be overcome in delivering educational services in rural Alaska and Alaska villages should be addressed through the development and implementation of innovative, model programs in a variety of areas.
(7) Native children should be afforded the opportunity to begin their formal education on a par with their non-Native peers. The Federal Government should lend support to efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for all students.

SUBCHAPTER VIII—IMPACT AID

Prior Provisions

Provisions similar to those in this subchapter were contained in chapters 13 (§236 et seq.) and 19 (§631 et seq.) of this title prior to repeal by Pub. L. 103–382, §311.

§ 7701. Purpose

In order to fulfill the Federal responsibility to assist with the provision of educational services to federally connected children in a manner that promotes control by local educational agencies with little or no Federal or State involvement, because certain activities of the Federal Government, such as activities to fulfill the responsibilities of the Federal Government with respect to Indian tribes and activities under section 574 of title 50, Appendix, place a financial burden on the local educational agencies serving areas where such activities are carried out, and to help such children meet challenging State standards, it is the purpose of this subchapter to provide financial assistance to local educational agencies that—

(1) experience a substantial and continuing financial burden due to the acquisition of real property by the United States;

(2) educate children who reside on Federal property and whose parents are employed on Federal property;

(3) educate children of parents who are in the military services and children who live in low-rent housing;

(4) educate heavy concentrations of children whose parents are civilian employees of the Federal Government and do not reside on Federal property; and

(5) need special assistance with capital expenditures for construction activities because of the enrollments of substantial numbers of children who reside on Federal lands and because of the difficulty of raising local revenue through bond referendums for capital projects due to the inability to tax Federal property.

Prior Provisions

Another prior section 8001 of Pub. L. 89–10 was renumbered section 9001 and was classified to section 3381 of this title, prior to the general amendment of Pub. L. 89–10 by Pub. L. 103–382.

Amendments

2000—Pub. L. 106–398, §1 [div. A], title XVIII, §1802(1), in introductory provisions, inserted “in a manner that promotes control by local educational agencies with little or no Federal or State involvement” after “educational services to federally connected children” and “, such as activities to fulfill the responsibilities of the Federal Government with respect to Indian tribes and activities under section 574 of title 50, Appendix,” after “certain activities of the Federal Government”.

Par. (4). Pub. L. 106–398, §1 [div. A], title XVIII, §1802(3)–(5), redesignated par. (6) as (5), inserted “and because of the difficulty of raising local revenue through bond referendums for capital projects due to the inability to tax Federal property” before period at end, and struck out former par. (5) which read as follows: “experience sudden and substantial increases or decreases in enrollments because of military realignments; or”.

Effective Date of 2000 Amendment

Pub. L. 106–398, §1 [div. A], title XVIII, §1818, Oct. 30, 2000, 114 Stat. 1654, 1654A–399, provided that: “This title [amending this section and sections 1228, 7702, 7703, 7705, 7707, 7709 to 7713, and 7714 of this title, repealing section 7706 of this title, and enacting provisions set out as notes under sections 6301, 7003, and 7711 of this title], and the amendments made by this title, shall take effect on October 1, 2000, or the date of the enactment of this Act (Oct. 20, 2000), whichever occurs later.”

Effective Date

“(A) Title I [amending generally Pub. L. 89–10 (formerly chapter 47 of this title, now this chapter)] and the amendment made by title I of this Act shall take effect July 1, 1995, except that those provisions of title I that apply to programs under title VIII (Impact Aid) of the Elementary and Secondary Education Act of 1965 [this subchapter], as amended by this Act, and to programs under such Act [this chapter] that are conducted on a competitive basis, shall be effective with respect to appropriations for use under such programs for fiscal year 1995 and for subsequent fiscal years.

“(B) Title VIII of the Elementary and Secondary Education Act of 1965 [this subchapter], as amended by title I of this Act, shall take effect on the date of the enactment of this Act (Oct. 20, 1994).”

(A) has been acquired by the United States since 1938; and

(C) requires the grantee of the property to report to the Federal Government (or its agent) regarding information on the use of the property;

(g) Former districts

(1) In general

Where the school district of any local educational agency described in paragraph (2) is formed at any time after 1938 by the consolidation of two or more former school districts, such agency may elect (at any time such agency files an application under section 7705 of this title) for any fiscal year after fiscal year 1994 to have (A) the eligibility of such local educational agency, and (B) the amount which such agency shall be eligible to receive, determined under this section only with respect to such of the former school districts comprising such consolidated school districts as such agency shall designate in such election.

(2) Eligible local educational agencies

A local educational agency referred to in paragraph (1) is any local educational agency that, for fiscal year 1994 or any preceding fiscal year, applied for and was determined eligible under section 2(c) of the Act of September 30, 1950 (Public Law 874, 81st Congress) as such section was in effect for such fiscal year.

(h) Payments with respect to fiscal years in which insufficient funds are appropriated

For any fiscal year for which the amount appropriated under section 7714(a) of this title is insufficient to pay to each eligible local educational agency the full amount determined under subsection (b) of this section, the Secretary shall make payments to each local educational agency under this section as follows:

(1) Foundation payments for pre-1995 recipients

(A) In general

The Secretary shall first make a foundation payment to each local educational agency that is eligible to receive a payment under this section for the fiscal year involved and that filed, or has been determined pursuant to statute to have filed a timely application, and met, or has been determined pursuant to statute to meet, the eligibility requirements of section 2(a)(1)(C) of the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such section was in effect on the day preceding October 20, 1994) for any of the fiscal years 1989 through 1994.

(B) Amount

The amount of a payment under subparagraph (A) for a local educational agency shall be equal to 38 percent of the local educational agency's maximum entitlement amount under section 2 of the Act of September 30, 1950, for fiscal year 1994 (or if the local educational agency did not meet, or has not been determined pursuant to statute to meet, the eligibility requirements of section 2(a)(1)(C) of the Act of September 30, 1950) for fiscal year 1994, the local educational agency's maximum entitlement
amount under such section 2 for the most recent fiscal year preceding 1994).

(B) Amount

The amount of a payment under subparagraph (A) for a local educational agency shall be determined as follows:

From any funds remaining after making payments under paragraphs (1), (2), and (3) for the fiscal year involved—

(A) the Secretary shall make a payment to each local educational agency that received a foundation payment under paragraph (1) for the fiscal year involved in an amount that bears the same relation to 25 percent of the remainder as the amount the local educational agency received under paragraph (1) for the fiscal year involved bears to the maximum amount all local educational agencies received under paragraph (1) for the fiscal year involved; and

(B) the Secretary shall make a payment to each local educational agency that is eligible to receive a payment under this section for the fiscal year involved in an amount that bears the same relation to 75 percent of the remainder as a percentage share determined for the local educational agency (by dividing the maximum amount that the agency is eligible to receive under subsection (b) of this section by the total of the maximum amounts for all such agencies) bears to the percentage share determined (in the same manner) for all local educational agencies eligible to receive a payment under this section for the fiscal year involved, except that, for the purpose of calculating a local educational agency’s maximum amount under subsection (b) of this section, data from the most current fiscal year shall be used.

(i) Special payments

(1) In general

For any fiscal year beginning with fiscal year 2000 for which the amount appropriated to carry out this section exceeds the amount so appropriated for fiscal year 1996 and for which subsection (b)(1)(B) of this section applies, the Secretary shall use the remainder described in subsection (b)(3) of this section for the fiscal year involved (not to exceed the amount equal to the difference between (A) the amount appropriated to carry out this section for fiscal year 1997 and (B) the amount appropriated to carry out this section for fiscal year 1996) to increase the payment that would otherwise be made under this section to not more than 50 percent of the maximum amount determined under subsection (b) of this section for any local educational agency described in paragraph (2).

(2) Local educational agency described

A local educational agency described in this paragraph is a local educational agency that—

(A) received a payment under this section for fiscal year 1996;

(B) serves a school district that contains all or a portion of a United States military academy;

(C) serves a school district in which the local tax assessor has certified that at least 60 percent of the real property is federally owned; and

(D) demonstrates to the satisfaction of the Secretary that such agency’s per-pupil revenue derived from local sources for current expenditures is not less than that revenue for the preceding fiscal year.

(k) Special rule

For purposes of payments under this section for each fiscal year beginning with fiscal year 1998—

(1) the Secretary shall, for the Stanley County, South Dakota local educational agency, calculate payments as if subsection (e) of this section had been in effect for fiscal year 1994; and
(2) the Secretary shall treat the Delaware Valley, Pennsylvania local educational agency as if it had filed a timely application under section 2 of Public Law 81–874 for fiscal year 1994.

(b) Prior year data

Notwithstanding any other provision of this section, in determining the eligibility of a local educational agency for a payment under subsection (b) or (h)(4)(B) of this section for a fiscal year, and in calculating the amount of such payment, the Secretary—

(1) shall use data from the prior fiscal year with respect to the Federal property involved, including data with respect to the assessed value of the property and the real property tax rate for current expenditures levied against or imputed to the property; and

(2) shall use data from the second prior fiscal year with respect to determining the amount of revenue referred to in subsection (b)(1)(A)(i) of this section.

(m) Eligibility

(1) Old Federal property

Except as provided in paragraph (2), a local educational agency that is eligible to receive a payment under this section for Federal property acquired by the Federal Government, before October 30, 2000, shall be eligible to receive the payment only if the local educational agency submits an application for a payment under this section not later than 7 years after October 30, 2000.

(2) Combined Federal property

A local educational agency that is eligible to receive a payment under this section for Federal property acquired by the Federal Government before October 30, 2000, shall be eligible to receive the payment if—

(A) the Federal property, when combined with other Federal property in the school district served by the local educational agency acquired by the Federal Government after October 30, 2000, meets the requirements of subsection (a) of this section; and

(B) the local educational agency submits an application for a payment under this section not later than 7 years after the date of acquisition of the Federal property acquired after October 30, 2000.

(3) New Federal property

A local educational agency that is eligible to receive a payment under this section for Federal property acquired by the Federal Government after October 30, 2000, shall be eligible to receive the payment only if the local educational agency submits an application for a payment under this section not later than 7 years after the date of acquisition.

(n) Loss of eligibility

(1) In general

Notwithstanding any other provision of this section, the Secretary shall make a minimum payment to a local educational agency described in paragraph (2), for the first fiscal year that the agency loses eligibility for assistance under this section as a result of property located within the school district served by the agency failing to meet the definition of Federal property under section 7713(5)(C)(iii) of this title, in an amount equal to 90 percent of the amount received by the agency under this section for the preceding year.

(2) Local educational agency described

A local educational agency described in this paragraph is an agency that—

(A) was eligible for, and received, a payment under this section for fiscal year 2002; and

§ 7703. Payments for eligible federally connected children
(a) Computation of payment
(1) In general
For the purpose of computing the amount that a local educational agency is eligible to receive under subsection (b) or (d) of this section for any fiscal year, the Secretary shall determine the number of children who were in average daily attendance in the schools of such agency, and for whom such agency provided free public education, during the preceding school year and who, while in attendance at such schools—

(A)(i) resided on Federal property with a parent employed on Federal property situated in whole or in part within the boundaries of the school district of such agency; or

(ii) resided on Federal property with a parent who is an official of, and accredited by, a foreign government and is a foreign military officer;

(B) resided on Federal property and had a parent on active duty in the uniformed services (as defined in section 101 of title 37); or

(C) resided on Indian lands;

(D)(i) had a parent on active duty in the uniformed services (as defined by section 101 of title 37) but did not reside on Federal property; or
(ii) had a parent who is an official of, and has been accredited by, a foreign government and is a foreign military officer but did not reside on Federal property;

(E) resided in low-rent housing;

(F) resided on Federal property and is not described in subparagraph (A) or (B); or

(G) resided with a parent employed on Federal property situated—

(i) in whole or in part in the county in which such agency is located, or in whole or in part in such county if such agency is located in more than one county; or

(ii) if not in such county, in whole or in part in the same State as such agency.

(2) Determination of weighted student units

For the purpose of computing the basic support payment under subsection (b) of this section, the Secretary shall calculate the total number of weighted student units for a local educational agency by adding together the results obtained by the following computations:

(A) Multiply the number of children described in subparagraphs (A) and (B) of paragraph (1) by a factor of 1.0.

(B) Multiply the number of children described in paragraph (1)(C) by a factor of 1.25.

(C) Multiply the number of children described in subparagraphs (A) and (B) of paragraph (1) by a factor of .35 if the local educational agency has—

(i) a number of such children described in such subparagraphs which exceeds 5,000; and

(ii) an average daily attendance for all children which exceeds 100,000.

(D) Multiply the number of children described in subparagraph (D) of paragraph (1) by a factor of .20.

(E) Multiply the number of children described in subparagraph (E) of paragraph (1) by a factor of .10.

(F) Multiply the number of children described in subparagraphs (F) and (G) of paragraph (1) by a factor of .05.

(3) Special rule

The Secretary shall only compute a payment for a local educational agency for children described in subparagraph (F) or (G) of paragraph (1) if the number of such children equals or exceeds 1,000 or such number equals or exceeds 10 percent of the total number of students in average daily attendance in the schools of such agency.

(4) Military installation and Indian housing undergoing renovation or rebuilding

(A) In general

(i) For purposes of computing the amount of a payment for a local educational agency for children described in paragraph (1)(D)(i), the Secretary shall consider such children to be children described in paragraph (1)(B) if the Secretary determines, on the basis of a certification provided to the Secretary by a designated representative of the Secretary of Defense, that such children would have resided in housing on Federal property in accordance with paragraph (1)(B) except that such housing was undergoing renovation or rebuilding on the date for which the Secretary determines the number of children under paragraph (1).

(ii) For purposes of computing the amount of a payment for a local educational agency that received a payment for children that resided on Indian lands in accordance with paragraph (1)(C) for the fiscal year prior to the fiscal year for which the local educational agency is making an application, the Secretary shall consider such children to be children described in paragraph (1)(C) if the Secretary determines, on the basis of a certification provided to the Secretary by a designated representative of the Secretary of the Interior or the Secretary of Housing and Urban Development, that such children would have resided in housing on Indian lands in accordance with paragraph (1)(C) except that such housing was undergoing renovation or rebuilding on the date for which the Secretary determines the number of children under paragraph (1).

(B) Limitations

(1)(i) Children described in paragraph (1)(D)(i) may be deemed to be children described in paragraph (1)(B) with respect to housing on Federal property undergoing renovation or rebuilding in accordance with subparagraph (A)(i) for a period not to exceed 3 fiscal years.

(II) The number of children described in paragraph (1)(D)(i) who are deemed to be children described in paragraph (1)(B) with respect to housing on Federal property undergoing renovation or rebuilding in accordance with subparagraph (A)(i) for any fiscal year may not exceed the maximum number of children who are expected to occupy that housing upon completion of the renovation or rebuilding.

(ii)(I) Children described in paragraph (1)(D)(i) who are deemed to be children described in paragraph (1)(B) with respect to housing on Federal property undergoing renovation or rebuilding in accordance with subparagraph (A)(ii) for any fiscal year may not exceed the maximum number of children who are expected to occupy that housing upon completion of the renovation or rebuilding.

(ii)(II) The number of children that resided on Indian lands in accordance with paragraph (1)(C) for the fiscal year prior to the fiscal year for which the local educational agency is making an application may be deemed to be children described in paragraph (1)(C) with respect to housing on Indian lands undergoing renovation or rebuilding in accordance with subparagraph (A)(ii) for a period not to exceed 3 fiscal years.

(II) The number of children that resided on Indian lands in accordance with paragraph (1)(C) for the fiscal year prior to the fiscal year for which the local educational agency is making an application may be deemed to be children described in paragraph (1)(C) with respect to housing on Indian lands undergoing renovation or rebuilding in accordance with subparagraph (A)(ii) for any fiscal year may not exceed the maximum number of children who are expected to occupy that housing upon completion of the renovation or rebuilding.

(5) Military “Build to Lease” program housing

(A) In general

For purposes of computing the amount of payment for a local educational agency for
children identified under paragraph (1), the Secretary shall consider children residing in housing initially acquired or constructed under the former section 2826(g) of title 10 (commonly known as the “Build to Lease” program), as added by section 801 of the Military Construction Authorization Act, 1984, to be children described under paragraph (1)(B) if the property described is within the fenced security perimeter of the military facility upon which such housing is situated.

(B) Additional requirements

If the property described in subparagraph (A) is not owned by the Federal Government, is subject to taxation by a State or political subdivision of a State, and thereby generates revenues for a local educational agency that is applying to receive a payment under this section, then the Secretary—

(i) shall require the local educational agency to provide certification from an appropriate official of the Department of Defense that the property is being used to provide military housing; and

(ii) shall reduce the amount of the payment under this section by an amount equal to the amount of revenue from such taxation received in the second preceding fiscal year by such local educational agency, unless the amount of such revenue was taken into account by the State for such second preceding fiscal year and already resulted in a reduction in the amount of State aid paid to such local educational agency.

(b) Basic support payments; insufficient appropriations; State with only one local educational agency

(1) Basic support payments

(A) In general

From the amount appropriated under section 7714(b) of this title for a fiscal year, the Secretary is authorized to make basic support payments to eligible local educational agencies with children described in subsection (a) of this section.

(B) Eligibility

A local educational agency is eligible to receive a basic support payment under subparagraph (A) for a fiscal year with respect to a number of children determined under subsection (a)(1) of this section only if the number of children so determined with respect to such agency amounts to the lesser of—

(i) at least 400 such children; or

(ii) a number of such children which equals at least 3 percent of the total number of children who were in average daily attendance, during such year, at the schools of such agency and for whom such agency provided free public education.

(C) Maximum amount

The maximum amount that a local educational agency is eligible to receive under this paragraph for any fiscal year is the sum of the total weighted student units, as computed under subsection (a)(2) of this section, multiplied by the greater of—

(i) one-half of the average per-pupil expenditure of the State in which the local educational agency is located for the third fiscal year preceding the fiscal year for which the determination is made;

(ii) one-half of the average per-pupil expenditure of all of the States for the third fiscal year preceding the fiscal year for which the determination is made;

(iii) the comparable local contribution rate certified by the State, as determined under regulations prescribed to carry out the Act of September 30, 1950 (Public Law 874, 81st Congress), as such regulations were in effect on January 1, 1994; or

(iv) the average per-pupil expenditure of the State in which the local educational agency is located, multiplied by the local contribution percentage.

(D) Data

If satisfactory data from the third preceding fiscal year are not available for any of the expenditures described in clause (i) or (ii) of subparagraph (C), the Secretary shall use data from the most recent fiscal year for which data that are satisfactory to the Secretary are available.

(E) Special rule

For purposes of determining the comparable local contribution rate under subparagraph (C)(iii) for a local educational agency described in section 222.39(c)(3) of title 34, Code of Federal Regulations, that had its comparable local contribution rate for fiscal year 1998 calculated pursuant to section 222.39 of title 34, Code of Federal Regulations, the Secretary shall determine such comparable local contribution rate as the rate upon which payments under this subsection for fiscal year 2000 were made to the local educational agency adjusted by the percentage increase or decrease in the per pupil expenditure in the State serving the local educational agency calculated on the basis of the second most recent preceding school year compared to the third most recent preceding school year for which school year data are available.

(F) Increase in local contribution rate due to unusual geographic factors

If the current expenditures in those local educational agencies which the Secretary has determined to be generally comparable to the local educational agency for which a computation is made under subparagraph (C) are not reasonably comparable because of unusual geographical factors which affect the current expenditures necessary to maintain, in such agency, a level of education equivalent to that maintained in such other agencies, then the Secretary shall increase the local contribution rate for such agency under subparagraph (C)(iii) by such an amount which the Secretary determines will compensate such agency for the increase in current expenditures necessitated by such unusual geographical factors. The amount of
any such supplementary payment may not exceed the per-pupil share (computed with regard to all children in average daily attendance), as determined by the Secretary, of the increased current expenditures necessitated by such unusual geographic factors.

(G) Beginning with fiscal year 2002, for the purpose of calculating a payment under this paragraph for a local educational agency whose local contribution rate was computed under subparagraph (C)(iii) for the previous year, the Secretary shall use a local contribution rate that is not less than 95 percent of the rate that the LEA received for the preceding year.

(2) Basic support payments for heavily impacted local educational agencies

(A) In general

(i) From the amount appropriated under section 7714(b) of this title for a fiscal year, the Secretary is authorized to make basic support payments to eligible heavily impacted local educational agencies with children described in subsection (a) of this section.

(ii) A local educational agency that receives a basic support payment under this paragraph for a fiscal year shall not be eligible to receive a basic support payment under paragraph (1) for that fiscal year.

(B) Eligibility for continuing heavily impacted local educational agencies

(i) In general

A heavily impacted local educational agency is eligible to receive a basic support payment under subparagraph (A) with respect to a number of children determined under subsection (a)(1) of this section if the agency

(I) received an additional assistance payment under subsection (f) of this section (as such subsection was in effect on the day before October 30, 2000) for fiscal year 2000; and

(II)(aa) is a local educational agency whose boundaries are the same as a Federal military installation;

(bb) has an enrollment of children described in subsection (a)(1) of this section that constitutes a percentage of the total student enrollment of the agency which is not less than 35 percent, has a per-pupil expenditure that is less than the average per-pupil expenditure of the State in which the agency is located or the average per-pupil expenditure of all States (whichever average per-pupil expenditure is greater), except that a local educational agency with a total student enrollment of less than 350 students shall be deemed to have satisfied such per-pupil expenditure requirement, and has a tax rate for general fund purposes which is not less than 85 percent of the average tax rate for general fund purposes of local educational agencies in the State;

(cc) has an enrollment of children described in subsection (a)(1) of this section that constitutes a percentage of the total student enrollment of the agency which is not less than 30 percent, and has a tax rate for general fund purposes which is not less than 125 percent of the average tax rate for general fund purposes for comparable local educational agencies in the State;

(dd) has a total student enrollment of not less than 25,000 students, of which not less than 50 percent are children described in subsection (a)(1) of this section and not less than 6,000 of such children are described in subparagraphs (A) and (B) of subsection (a)(1) of this section; or

(ee) meets the requirements of subsection (f)(2) of this section applying the data requirements of subsection (f)(4) of this section (as such subsections were in effect on the day before October 30, 2000).

(ii) Loss of eligibility

A heavily impacted local educational agency that met the requirements of clause (i) for a fiscal year shall be ineligible to receive a basic support payment under subparagraph (A) if the agency fails to meet the requirements of clause (i) for a subsequent fiscal year, except that such agency shall continue to receive a basic support payment under this paragraph for the fiscal year for which the inelegibility determination is made.

(iii) Resumption of eligibility

A heavily impacted local educational agency described in clause (i) that becomes ineligible under such clause for 1 or more fiscal years may resume eligibility for a basic support payment under this paragraph for a subsequent fiscal year only if the agency meets the requirements of clause (i) for that subsequent fiscal year, except that such agency shall not receive a basic support payment under this paragraph until the fiscal year succeeding the fiscal year for which the eligibility determination is made.

(C) Eligibility for new heavily impacted local educational agencies

(i) In general

A heavily impacted local educational agency that did not receive an additional assistance payment under subsection (f) of this section (as such subsection was in effect on the day before October 30, 2000) for fiscal year 2000 is eligible to receive a basic support payment under subparagraph (A) for fiscal year 2002 and any subsequent fiscal year with respect to a number of children determined under subsection (a)(1) of this section only if the agency is a local educational agency whose boundaries are the same as a Federal military installation (or if the agency is a qualified local educational agency as described in clause (iv)), or the agency

(I) has an enrollment of children described in subsection (a)(1) of this section that constitutes a percentage of the total student enrollment of the agency that—
§ 7703

(ii) Resumption of eligibility

A heavily impacted local educational agency described in clause (i) that becomes ineligible under such clause for 1 or more fiscal years may resume eligibility for a basic support payment under this paragraph for a subsequent fiscal year only if the agency is a local educational agency whose boundaries are the same as a Federal military installation (or if the agency is a qualified local educational agency as described in clause (iv)), or meets the requirements of clause (i), for that subsequent fiscal year, except that such agency shall continue to receive a basic support payment under this paragraph for the fiscal year for which the determination is made.

(iii) Application

With respect to the first fiscal year for which a heavily impacted local educational agency described in clause (i) applies for a basic support payment under subparagraph (A), or with respect to the first fiscal year for which a heavily impacted local educational agency applies for a basic support payment under subparagraph (A) after becoming ineligible under clause (i) for 1 or more preceding fiscal years, the agency shall apply for such payment at least 1 year prior to the start of that first fiscal year.

(iv) Qualified local educational agency

A qualified local educational agency described in this clause is an agency that meets the following requirements:

(I) The boundaries of the agency are the same as island property designated by the Secretary of the Interior to be property that is held in trust by the Federal Government.

(II) The agency has no taxing authority.

(III) The agency received a payment under paragraph (i) for fiscal year 2001.

(D) Maximum amount for regular heavily impacted local educational agencies

(I) Except as provided in subparagraph (E), the maximum amount that a heavily impacted local educational agency is eligible to receive under this paragraph for any fiscal year is the sum of the total weighted student units, as computed under subsection (a)(2) of this section and subject to clause (ii), multiplied by the greater of—

(1) four-fifths of the average per-pupil expenditure of the State in which the local educational agency is located for the third fiscal year preceding the fiscal year for which the determination is made; or

(II) four-fifths of the average per-pupil expenditure of all of the States for the third fiscal year preceding the fiscal year for which the determination is made.

(ii)(I) For a local educational agency with respect to which 35 percent or more of the total student enrollment of the schools of the agency are children described in subparagraph (D) or (E) or (a combination thereof) of subsection (a)(1) of this section, the Secretary shall calculate the weighted student units of such children for purposes of subsection (a)(2) of this section by multiplying the number of such children by a factor of 0.55.

(II) For a local educational agency that has an enrollment of 100 or fewer children described in subsection (a)(1) of this section, the Secretary shall calculate the total number of weighted student units for purposes of subsection (a)(2) of this section by multiplying the number of such children by a factor of 1.75.

(III) For a local educational agency that does not qualify under (B)(i)(I)(aa)\(^1\) of this subsection and has an enrollment of more than 100 but not more than 1,000 children described in subsection (a)(1) of this section, the Secretary shall calculate the total number of weighted student units for purposes of subsection (a)(2) of this section by multiplying the number of such children by a factor of 1.25.

(E) Maximum amount for large heavily impacted local educational agencies

(I) Subject to clause (ii), the maximum amount that a heavily impacted local educational agency described in subclause (II) is eligible to receive under this paragraph for any fiscal year shall be determined in accordance with the formula described in paragraph (1)(C).

(II) A heavily impacted local educational agency described in this subclause is a local educational agency that has a total student enrollment of not less than 29,000 students, of which not less than 50 percent are chil-
CHILDREN described in subsection (a)(1) of this section and not less than 6,000 of such children are children described in subparagraphs (A) and (B) of subsection (a)(1) of this section.

(ii) For purposes of determining the average tax rates for general fund purposes for local educational agencies in a State under this paragraph (except under subparagraph (C)(i)(II)(bb)), the Secretary shall use either—

(I) the average tax rate for general fund purposes for comparable local educational agencies, as determined by the Secretary in regulations; or

(ii) the average tax rate for all the local educational agencies in the State.

(H) Eligibility for heavily impacted local educational agencies affected by privatization of military housing

(i) Eligibility

For any fiscal year, a heavily impacted local educational agency that received a basic support payment under this paragraph for the prior fiscal year, but is ineligible for such payment for the current fiscal year under subparagraph (B), (C), (D), or (E), as the case may be, by reason of the conversion of military housing units to private housing described in clause (iii), shall be deemed to meet the eligibility requirements under subparagraph (B) or (C), as the case may be, for the period during which the housing units are undergoing such conversion.

(ii) Amount of payment

The amount of a payment to a heavily impacted local educational agency for a fiscal year by reason of the application of clause (i), and calculated in accordance with subparagraph (D) or (E), as the case may be, shall be based on the number of children in average daily attendance in the schools of such agency for the fiscal year and under the same provisions of subparagraph (D) or (E) under which the agency was paid during the prior fiscal year.

(iii) Conversion of military housing units to private housing described

For purposes of clause (i), “conversion of military housing units to private housing” means the conversion of military housing units to private housing units pursuant to subchapter IV of chapter 169 of title 10 or pursuant to any other related provision of law.

(ii) Such total percentage used to calculate threshold payments under paragraph (1) shall not exceed 100.

(iii) For the purpose of determining the percentages described in subclauses (I) and (II) of clause (i) that are applicable to the local educational agency providing free public education to students in grades 9 through 12 residing on Hanscomb Air Force Base, Massachusetts, the Secretary shall consider only that portion of such agency’s total enroll-

clause (II).

(iv) In the case of a local educational agency that has a total student enrollment of fewer than 1,000 students and that has a per-pupil expenditure that is less than the aver-
age per-pupil expenditure of the State in which the agency is located or less than the aver-

described in subparagraph (A)—

(i) the Secretary shall first determine the maximum payment amount and the total current expenditures for the State as
