CHAPTER 62—INTERGOVERNMENTAL PERSONNEL PROGRAM
§ 4701. Congressional findings and declaration of purpose.

The Congress hereby finds and declares—

That the quality of public service at all levels of government can be improved by the development of systems of personnel administration consistent with such merit principles as—

(1) recruiting, selecting, and advancing employees on the basis of their relative ability, knowledge, and skills, including open consideration of qualified applicants for initial appointment;

(2) providing equitable and adequate compensation;

(3) training employees, as needed, to assure high-quality performance;

(4) retaining employees on the basis of the adequacy of their performance, correcting inadequate performance, and separating employees whose inadequate performance cannot be corrected;

(5) assuring fair treatment of applicants and employees in all aspects of personnel administration without regard to political affiliation, race, color, national origin, sex, or religious creed and with proper regard for their privacy and constitutional rights as citizens; and

(6) assuring that employees are protected against coercion for partisan political purposes and are prohibited from using their official authority for the purpose of interfering with or affecting the result of an election or a nomination for office.

§ 4702. Administration of authorities.

The authorities provided by this chapter shall be administered in such manner as (1) to recognize fully the rights, powers, and responsibilities of State and local governments, and (2) to encourage innovation and allow for diversity on the part of State and local governments in the design, execution, and management of their own systems of personnel administration.

A grant authorized by subsection (a) of this section may be made to a general local government, or a combination of such governments, that serve a population of fifty thousand or more, for up to 75 per centum of the costs of developing and carrying out programs or projects, on the certification of the mayor(s), or chief executive officer(s), of the general local government or combination of local governments that the programs or projects are consistent with the applicable principles set forth in clauses (1)–(6) of the third paragraph of section 4701 of this title to train and educate their professional, administrative, and technical employees and officials. TRANSFER OF FUNCTIONS

§ 4766. Distribution of grants

(a) State and local government allocations; equitable distribution

The Office shall allocate 20 per centum of the total amount available for grants under this chapter in such manner as will most nearly provide an equitable distribution of the grants among States and between State and local governments, taking into consideration such factors as the size of the population, number of employees affected, urgency of the programs or projects, the need for funds to carry out the purposes of this chapter, and the potential of the governmental jurisdictions concerned to use the funds most effectively.

(b) Weighted formula; minimum allocation; reallocation; “State” defined

(1) The Office shall allocate 80 per centum of the total amount available for grants under this chapter among the States on a weighted formula taking into consideration such factors as the size of population and the number of State and local government employees affected.

(2) The amount allocated for each State under paragraph (1) of this subsection shall be further allocated by the Office to meet the needs of both the State government and the local governments within the State on a weighted formula taking into consideration such factors as the number of State and local government employees and the amount of State and local government expenditures. The Office shall determine the categories of employees and expenditures to be included or excluded, as the case may be, in the number of employees and amount of expenditures. The minimum allocation for meeting needs of local governments in each State (other than the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, and the Virgin Islands) shall be 50 per centum of the amount allocated for the State under paragraph (1) of this subsection.

(3) The amount of any allocation under paragraph (2) of this subsection which the Office determines, on the basis of information available to it, will not be used to meet needs for which such amount allocated shall be available for use to meet the needs of the State government or local governments in that State, as the case may be, on such date or dates as the Office may fix.

(4) The amount allocated for any State under paragraph (1) of this subsection which the Office determines, on the basis of information available to it, will not be used shall be available for reallocation by the Office from time to time, on such date or dates as it may fix, among other States with respect to which such a determination has not been made, in accordance with the formula set forth in paragraph (1) of this subsection, but with such amount for any of such other States being reduced to the extent it exceeds the sum the Office estimates said State needs and will be able to use; and the total of such reductions shall be similarly reallocated among the States whose proportionate amounts were not so reduced.

(5) For the purposes of this subsection, “State” means the several States of the United States, the District of Columbia, the Common-
wealth of Puerto Rico, Guam, American Samoa, and the Virgin Islands.

(c) Payment limitation
