(a) In general

The Commissioner of Social Security shall establish and conduct a Blood Donor Locator Service, which shall be used to obtain and transmit to any authorized person (as defined in subsection (h)(1) of this section) the most recent mailing address of any blood donor who, as indicated by the donated blood or products derived therefrom or by the history of the subsequent use of such blood or blood products, has or may have the virus for acquired immune deficiency syndrome, in order to inform such donor of the possible need for medical care and treatment.

(b) Provision of address information

Whenever the Commissioner of Social Security receives a request, filed by an authorized person (as defined in subsection (h)(1) of this section), for the mailing address of a donor described in subsection (a) of this section and the Commissioner of Social Security is reasonably satisfied that the requirements of this section have been met with respect to such request, the Commissioner of Social Security shall promptly undertake to provide the requested address information from—
